HYC/Q3604: Industrial Safety Associate (Oil and Gas)

Brief Job Description

Individual at this job is responsible for undertaking appropriate safety and emergency management measures in the industry, through maintaining ergonomic principles identification of occupational and environmental hazards, safety measures developing skills regarding posture assessment, subjective quantification of body part discomfort, analysis of accidents ensuring precautionary measures to prevent transmission of pathogens supporting medical professionals in assessing physiological status of individual in industry performing first aid for all levels of injury/illness including those injuries sustained at various workplaces.

Personal Attributes

The individual should have comprehensive knowledge and skills regarding integrated aspects of industrial safety and emergency management. The person should be digitally literate. The individual should have the ability to communicate effectively with others. The person should have the ability to work in a team, maintain excellent interpersonal relationships and professional behaviour.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HYC/N3610: Identification of occupational and environmental hazards, risk factors for accident and injury, occupational safety measures](#)
2. [HYC/N3611: Maintain ergonomic principles in the industry to improve efficiency and productivity](#)
3. [HYC/N3612: Follow infection prevention and control measures safety measures and emergency preparedness in industry](#)
4. [HYC/N3613: Support medical professionals in measurement of vital parameters and undertaking examination of individual in industry](#)
5. [HYC/N3614: Perform cardiopulmonary resuscitation \(CPR\) and first aid for trauma and medical emergency](#)
6. [HYC/N3615: Undertake activities related to computer, tablet, software, internet usage](#)
7. [HYC/N9301: Working effectively in a team](#)
8. [HYC/N9302: Maintain health, safety and security procedures](#)
9. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

HYC/N3610: Identification of occupational and environmental hazards, risk factors for accident and injury, occupational safety measures

Description

This unit covers identification of chemical, mechanical, biological, electrical and toxic material related occupational hazards and various environmental hazards such as noise, heat and cold stress, vibration, illumination etc, which may lead to accidents and injury evaluate accident implement appropriate remedial measures to maintain healthy, safe and secure work environment

Scope

The scope covers the following :

- Identification of occupational and environment hazards in work place
- Identification of postural stressors posture analysis assessment of body part discomfort

Elements and Performance Criteria

Identification of occupational and environment hazards in work place; occupational safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** identify occupational hazards with special emphasis on hazardous chemicals (HAZCHEM code)
- PC2.** Identify sources of chemical disasters and implement chemical disaster management techniques
- PC3.** understand medical preparedness and emergency medical responses in disasters
- PC4.** identify environmental hazards in industry
- PC5.** understand the adverse impact of various occupational and environmental stressors
- PC6.** support in implementation of remedial measures

Identification of postural stressors; posture analysis; assessment of body part discomfort

To be competent, the user/individual on the job must be able to:

- PC7.** Identify risk factors for postural stress in industry
- PC8.** operate relevant software for analysis of working posture and evaluate the risk for developing musculoskeletal symptoms
- PC9.** assess body part discomfort using standardized method
- PC10.** use techniques for subjective quantification of perceived exertion and stress

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** concept of occupational safety principles
- KU2.** various occupational and environmental hazards
- KU3.** chemical disaster management (Five Employer Requirements)

Qualification Pack

- KU4.** understanding of risk inventory and resources inventory
- KU5.** causes of errors, accidents and injury in industry and their preventive measures
- KU6.** application of protective devices in industry
- KU7.** significance of ISO certification
- KU8.** overview of International Labour Organization (ILO)
- KU9.** methods of working posture analysis in industry
- KU10.** significance of body part discomfort analysis in work place

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** undertake appropriate measures during occupational and environment hazard
- GS2.** Identify HAZCHEM code
- GS3.** support the medical professionals during on site emergency medical care
- GS4.** handling of emergency medical equipment
- GS5.** donning and doffing of appropriate protective gear and clothing during disaster management
- GS6.** identify unsafe acts, unsafe conditions, risk factors for occurrences of accident and injury
- GS7.** undertake accident analysis in industry
- GS8.** analyse working posture using software
- GS9.** assess body part discomfort using standardized questionnaire

Qualification Pack

HYC/N3611: Maintain ergonomic principles in the industry to improve efficiency and productivity

Description

This unit covers the aspects of preservation of precious resource of human health in a safe environment through application of ergonomic principles in industry to improve efficiency of individual and enhance productivity of the system and reducing postural stress and musculoskeletal disorders.

Scope

The scope covers the following :

- Application of ergonomic principles in industry
- Identification of hazards associated with manual material handling and remedial measures
- Perform various anthropometric measurements to support in designing of workplace and assessment of nutritional status of individual

Elements and Performance Criteria

Application of ergonomic principles in industry

To be competent, the user/individual on the job must be able to:

- PC1.** understand the concept of human factors
- PC2.** provide support in ergonomic assessment of the workplace
- PC3.** follow ergonomic principles in the workplace
- PC4.** identify ergonomic risk factors for developing musculoskeletal disorders
- PC5.** understand various cognitive abilities of the individual and their relationship with efficiency and productivity

Identification of the ergonomic hazards associated with manual material handling and remedial measures

To be competent, the user/individual on the job must be able to:

- PC6.** identify the ergonomic hazards associated with manual material handling (MMH)
- PC7.** support in assessment of physiological workload due to MMH
- PC8.** conduct awareness session on recommended techniques for performing tasks associated with MMH

Perform various anthropometric measurements to support in designing of workplace and assessment of nutritional status of individual

To be competent, the user/individual on the job must be able to:

- PC9.** undertake anthropometric measurements
- PC10.** operate various equipment used for measurement of anthropometric parameters
- PC11.** derive anthropometric indices based on measurements
- PC12.** develop the concept of ergonomic design of workplace
- PC13.** assess nutritional status of the individual

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** concept of human - machine - environment interface
- KU2.** application of ergonomics in improving efficiency and productivity
- KU3.** manual material handling (MMH) and ergonomic injury risk factors associated with MMH
- KU4.** overview musculoskeletal disorders including risk factors and remedial measures
- KU5.** basic concept of cognition
- KU6.** anthropometry and its application in industry

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** practice ergonomic guidelines in industry
- GS2.** identify ergonomic risk factors associated with MMH
- GS3.** undertake nutritional anthropometry and calculate various anthropometric indices

Qualification Pack

Assessment Criteria

HYC/N3612: Follow infection prevention and control measures safety measures and emergency preparedness in industry

Description

This unit is about various measures for ensuring standard precautions to prevent the transmission of pathogen, safety of the personnel in industry and preparedness for rescue, relief and remedial measures in emergency conditions.

Scope

The scope covers the following :

- Understanding of various types of pathogens
- Practice standard precautions in industry
- Practice safety measures in industry
- Understanding of categorization of victims during mass casualty incident

Elements and Performance Criteria

Understanding of various types of pathogens

To be competent, the user/individual on the job must be able to:

- PC1.** understand route of transmission of pathogens
- PC2.** understand the concept of incubation period, infectivity, pathogenicity and virulence
- PC3.** understand example of various diseases developed due to various types of pathogens

Practice infection prevention and control measures in industry

To be competent, the user/individual on the job must be able to:

- PC4.** perform hand washing and hand rubbing as per WHO guidelines
- PC5.** perform wearing and removing of PPE in an appropriate order
- PC6.** ensure appropriate disposal, transport and treatment of biomedical waste
- PC7.** perform safe handling of needle and syringe
- PC8.** undertake management of needle stick injury
- PC9.** undertake spillage management

Practice safety and emergency preparedness in industry

To be competent, the user/individual on the job must be able to:

- PC10.** undertake mass evacuation
- PC11.** perform triage
- PC12.** Implement fire safety principles
- PC13.** support in resuscitation and safe transportation
- PC14.** use of PPE at the incident site

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** various types of pathogens
- KU2.** concept of universal precaution and standard precaution
- KU3.** significance of infection prevention and control procedures in order to prevent transmission of pathogen
- KU4.** procedure of Hand Hygiene including hand washing and hand rubbing
- KU5.** donning & doffing of Personal Protective Equipment
- KU6.** Biomedical Waste Management, different categories of waste, methods of waste disposal, transport and treatment
- KU7.** significance of safe handling of needle and syringe
- KU8.** risk factors and preventive measures for Needle Stick Injury (NSI)
- KU9.** concept of respiratory etiquette or respiratory hygiene
- KU10.** methods of spill management
- KU11.** understanding of the Triage Scale (ATS)
- KU12.** different colour coded Triage area & Triage category
- KU13.** concept of SALT & START
- KU14.** understanding of various types of fire extinguisher according to the class of fire
- KU15.** Fire safety principles

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** undertake hand hygiene
- GS2.** perform donning and doffing of PPE
- GS3.**
 - identify various categories of biomedical waste, disposal in different plastic bags/puncture proof container,
 - appropriate transport and treatment methods
- GS4.** perform appropriate handling technique for needle and syringe
- GS5.** Manage needle stick injury
- GS6.** undertake spillage management
- GS7.** perform triaging - the sickest first
- GS8.** undertake RACE and PASS method during response to fire and handling of fire extinguisher, respectively

Qualification Pack

HYC/N3613: Support medical professionals in measurement of vital parameters and undertaking examination of individual in industry

Description

This unit is about understanding the significance of vital signs and physical examination parameters techniques required to check the parameters and possible interpretations of the results.

Scope

The scope covers the following :

- Understanding of vital signs and skill-based techniques to undertake general examination of personnel
- Undertake appropriate steps for primary survey
- Ensure supporting role in secondary assessment of personnel

Elements and Performance Criteria

Understanding of vital signs and skill-based techniques to undertake general examination

To be competent, the user/individual on the job must be able to:

- PC1.** assist medical professional in measurement of vital signs and understand their normal range
- PC2.** identify abnormality in vital parameters and report to appropriate authority
- PC3.** operate medical devices used to measure vital signs
- PC4.** support medical professional in general examination

Undertake appropriate steps for primary survey

To be competent, the user/individual on the job must be able to:

- PC5.** assess safety of the scene
- PC6.** employ AVPU scale to check the responsiveness
- PC7.** able to activate emergency response system
- PC8.** assess airway, breathing and circulation

Ensure supporting role in secondary assessment

To be competent, the user/individual on the job must be able to:

- PC9.** assist medical professional in taking history of the individual
- PC10.** assist medical professional in various methods associated with physical examination
- PC11.** assist medical professional in head-to-toe trauma assessment
- PC12.** identify possible reasons for unconsciousness or altered level of consciousness and support medical professional
- PC13.** identify possible symptoms for poison ingestion and support medical professional

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** concept of vital signs
- KU2.** five vital signs Temperature, Pulse, Respiration, Blood Pressure, Oxygen Saturation (SpO₂)
- KU3.** tachycardia, bradycardia, tachypnea, bradypnea, hypoxia, pyrexia, hyperpyrexia
- KU4.** different types of fever (continuous, intermittent, remittent)
- KU5.** general examination parameters including jaundice, pallor, clubbing, cyanosis, leg oedema
- KU6.** significance of primary survey, history taking, physical examination, trauma assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** support the medical professional in measurement of pulse, blood pressure, breathing, temperature and oxygen saturation
- GS2.** use various equipment for measurement of vital parameters
- GS3.** undertake skill-based techniques for general examination
- GS4.** assess patient responsiveness, airway, breathing and circulation
- GS5.** assist medical professional in management of trauma and medical emergency

Qualification Pack

HYC/N3614: Perform cardiopulmonary resuscitation (CPR) and first aid for trauma and medical emergency

Description

This unit encompasses identification of various emergency situations due to trauma or underlying medical condition and administer first aid techniques to save lives.

Scope

The scope covers the following :

- Perform cardio pulmonary resuscitation procedure
- Undertake appropriate first aid steps for minor or serious injury or illness

Elements and Performance Criteria

Perform cardio pulmonary resuscitation procedure

To be competent, the user/individual on the job must be able to:

- PC1.** recognize signs of cardiac arrest
- PC2.** understand critical concepts of cardiopulmonary resuscitation
- PC3.** undertake appropriate techniques to administer cardiopulmonary resuscitation in adult and adolescent
- PC4.** undertake appropriate techniques to administer cardiopulmonary resuscitation in child
- PC5.** undertake appropriate techniques to administer cardiopulmonary resuscitation in infant
- PC6.** perform spine immobilization for suspected or detected spinal injury
- PC7.** handling of automated external defibrillator

Undertake appropriate first aid steps for minor or serious injury or illness

To be competent, the user/individual on the job must be able to:

- PC8.** undertake first aid steps for bleeding after trauma
- PC9.** identify various types of wounds, assist in dressing of wounds
- PC10.** understand different degrees of burn and perform first aid steps
- PC11.** Identify signs and symptoms of seizure and undertake primary management
- PC12.** Identify symptoms of heat exhaustion, heat cramp and heat stroke and administer appropriate first aid
- PC13.** Identify signs and symptoms of heart attack and stroke and undertake immediate intervention

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** concept of basic life support (BLS)
- KU2.** cardio pulmonary resuscitation procedure for adult, adolescent, child and infant

Qualification Pack

- KU3.** first aid procedure for bleeding
- KU4.** different types of wounds, wound assessment, different phases of wound healing, primary wound dressing
- KU5.** definition of choking, guidelines for primary management for adult and infant choking
- KU6.** burn injury, types of burn, classification of burn according to depth of the skin, concept of blister, contracture, scarring, skin grafting, first aid for major and minor burn
- KU7.** definition of seizure or convulsion or fit, common causes of seizure, signs and symptoms, first aid
- KU8.** signs and symptoms, first aid and precautionary measures for snake bite and animal bite
- KU9.** causes, symptoms and first aid for heat exhaustion, heat cramp and heat stroke
- KU10.** signs and symptoms of heart attack and stroke and their primary management

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** administer CPR across all age groups
- GS2.** use automated external defibrillator
- GS3.** identify signs and symptoms of various emergency conditions and administer first aid

Qualification Pack

HYC/N3615: Undertake activities related to computer, tablet, software, internet usage

Description

This unit includes components of digital literacy with special emphasis computer and internet usage to improve their employability, income, on-the-job competency, efficiency, and satisfaction.

Scope

The scope covers the following :

- Introduction of computer, hardware and software
- Understanding of internet usage and data transfer

Elements and Performance Criteria

Introduction of computer, hardware and software

To be competent, the user/individual on the job must be able to:

- PC1.** operate computer along with associated hardware
- PC2.** understand basic software related to computer operations
- PC3.** operate Microsoft Office, including Microsoft Word, Excel & PowerPoint, in an appropriate manner
- PC4.** operate relevant software to evaluate workplace condition

Understanding of internet usage and data transfer

To be competent, the user/individual on the job must be able to:

- PC5.** operate email and google drive
- PC6.** understand significance of Google Meet and carry out its application
- PC7.** use various online communication technology

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** introduction of computer, tablet, printer
- KU2.** concept and application of Hardware & Software
- KU3.** concept of internet, data transfer and online communication technology
- KU4.** application of email and google drive
- KU5.** usage of Microsoft Word, Excel & PowerPoint

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** operate computer, hardware and basic software
- GS2.** use internet, email and google drive
- GS3.** use MS office in an appropriate manner
- GS4.** operate online communication technology

HYC/N9301: Working effectively in a team

Description

This unit covers basic practices that improve effectiveness of working in a team in an organizational set-up

Scope

The scope covers the following :

- Effective team work

Elements and Performance Criteria

Effective team work

To be competent, the user/individual on the job must be able to:

- PC1.** maintain clear communication with colleagues
- PC2.** pass on information to colleagues in line with organisational requirements
- PC3.** work in a team and support the team members
- PC4.** work in ways that show respect to colleagues
- PC5.** fulfil commitments made to colleagues
- PC6.** inform team members timely, if timelines can't be met
- PC7.** take the necessary initiatives to resolve the issues while working in team

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organization policies and procedures related to team performance
- KU2.** the importance of effective communication and establishing good working relationships with colleagues
- KU3.** Deeper understanding of actions & consequences of gendered behaviour
- KU4.** the importance of creating an environment of trust and mutual respect
- KU5.** the implications of own work on the work and schedule of others
- KU6.** the standard practice in organization w.r.t communication at various levels
- KU7.** the instructions at individual level or at group level
- KU8.** individual work responsibility and corrective measures required to complete task in time
- KU9.** the importance of personal qualities like discipline and confidence to achieve success in work assigned

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** communicate effectively in writing
- GS2.** read instructions, guidelines/procedures
- GS3.** communicate information effectively
- GS4.** make decisions on a suitable course of action or response keeping in view resource utilization while meeting commitments
- GS5.** how to plan the work to meet the deadline
- GS6.** the importance of consistent and reliable services for customer satisfaction
- GS7.** apply problem solving approaches in different situations
- GS8.** apply balanced judgments to different situations

HYC/N9302: Maintain health, safety and security procedures

Description

This unit covers maintaining health, safety and security procedures at the workplace. This includes procedures and practices that candidates need to follow to help maintain a healthy, safe and secure work environment

Scope

The scope covers the following :

- This unit/task covers the following:
- Practice health and safety measures
- Follow fire safety procedures
- Follow emergencies, rescue and first-aid procedures

Elements and Performance Criteria

Follow health and safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment for specific tasks and work conditions
- PC2.** identify documents, location and people responsible for health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace
- PC4.** carry out safe working practices while dealing with hazards to ensure the safety of self and others
- PC5.** lift heavy objects safely using correct procedures
- PC6.** identify common safety signs, displayed in various areas

Follow fire safety procedures

To be competent, the user/individual on the job must be able to:

- PC7.** use the various appropriate fire extinguishers on different types of fires correctly
- PC8.** follow rescue techniques applied during fire hazard
- PC9.** follow good housekeeping practice in order to prevent fire hazards
- PC10.** list issues concerning the safety in work place
- PC11.** inform fire safety department about any near-miss incidents in the work place
- PC12.** follow the applicable laws, regulations and codes as per safety standard
- PC13.** prepare written accident/incident report and share with the concerned officer/department

Follow emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC14.** provide appropriate first aid to victims in emergency situation
- PC15.** demonstrate basic techniques of bandaging
- PC16.** respond promptly and appropriately to an accident

Qualification Pack

- PC17.** Use various rescue equipment & techniques and perform rescue activity during an accident in real or simulated environments
- PC18.** demonstrate correct method to rescue injured people and others during an emergency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personnel management and duty reporting procedure
- KU2.** reporting structure within organization
- KU3.** how to escalate problem
- KU4.** concept of hazards and risks during scaffolding work
- KU5.** health condition of individual as well as health and safety hazards commonly affecting the work environment and related precautions
- KU6.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU7.** importance of using protective clothing/equipment while working
- KU8.** working at heights regulations and best practices
- KU9.** various causes of fire
- KU10.** techniques of using different types of fire extinguishers
- KU11.** different materials used for extinguishing fire
- KU12.** various types of safety signs and their significance
- KU13.** various types of rescue equipment and techniques
- KU14.** precautions to be taken to avoid suspension trauma while rescuing a person hanging from harness

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate by writing
- GS2.** read instructions, guidelines/procedures and reports
- GS3.** communicate effectively and share the information efficiently
- GS4.** identify and report potential sources of danger
- GS5.** how to plan the work to meet the deadline

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
