HYC/Q3703: Marketing Manager (Oil and Gas)

Brief Job Description

The Sales and Marketing Manager in the Oil & Gas sector is responsible for conducting market research and analysis to identify opportunities and trends, developing and implementing effective sales strategies, and managing customer relationships to ensure satisfaction. This role involves gathering and interpreting data related to customer preferences and competitor activities, formulating sales plans to meet organizational goals, and collaborating with marketing teams to align promotional activities. The manager also ensures customer satisfaction through effective communication, problem resolution, and feedback collection, working closely with various departments to optimize sales processes and outcomes.

Personal Attributes

The individual should possess strong analytical and strategic thinking skills, with a keen understanding of market dynamics. Excellent communication and persuasion abilities are essential, along with the capability to build and maintain customer relationships. The person should be a proactive problem solver, able to work both independently and as part of a team. Good organizational skills, time management, and a customer-centric approach are crucial for success in this role. Adaptability and resilience in a fast-paced environment are also important attributes.

HYC/N3704: Conduct Market Research and Analysis

Description

This unit involves conducting market research and analysis specifically tailored to the sales and marketing needs within the oil and gas industry.

Scope

The scope covers the following :

- Conducting comprehensive market research and analysis relevant to sales and marketing strategies.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identify market trends and opportunities for sales and marketing initiatives.
- PC2.** Gather data from various sources to analyze market dynamics and customer preferences.
- PC3.** Analyse competitor activities and their impact on the market.
- PC4.** Develop insights and recommendations based on market analysis findings.
- PC5.** Present findings and recommendations to relevant stakeholders.
- PC6.** Collaborate with cross-functional teams to align market research with sales and marketing strategies.
- PC7.** Utilize qualitative and quantitative research methods to gather comprehensive data on consumer behaviour and market trends.
- PC8.** Interpret statistical data and trends to identify key insights and opportunities for strategic decision-making.
- PC9.** Conduct SWOT (Strengths, Weaknesses, Opportunities, Threats) analysis to assess market positioning and competitive advantage.
- PC10.** Utilize market segmentation techniques to identify target customer segments and tailor marketing strategies accordingly.
- PC11.** Stay updated on industry developments, emerging technologies, and regulatory changes affecting the market landscape.
- PC12.** Develop and maintain databases or CRM systems to organize and analyse market data effectively.
- PC13.** Evaluate the effectiveness of marketing campaigns and initiatives through data analysis and performance metrics.
- PC14.** Identify potential risks and challenges in the market and propose mitigation strategies.
- PC15.** Collaborate with product development teams to incorporate market insights into product innovation and development processes.
- PC16.** Monitor and assess customer feedback, reviews, and sentiment to gauge brand perception and identify areas for improvement.
- PC17.** Conduct pricing analysis and competitive benchmarking to optimize pricing strategies and maximize profitability.

Qualification Pack

- PC18.** Identify and leverage emerging channels and platforms for marketing and sales outreach, such as social media, e-commerce platforms, or influencer partnerships.
- PC19.** Develop contingency plans and scenario analyses to anticipate and respond to market disruptions or unforeseen events.
- PC20.** Continuously refine market research methodologies and analytical frameworks to improve accuracy and efficiency over time.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Market research methodologies and tools relevant to the oil and gas industry
- KU2.** Techniques for gathering and analyzing market data, including customer surveys and competitive analysis.
- KU3.** The impact of market trends and industry regulations on sales and marketing strategies.
- KU4.** Effective presentation techniques for communicating market analysis findings.
- KU5.** The role of market research in supporting decision-making processes within sales and marketing teams.
- KU6.** Ethical considerations and best practices in conducting market research and analysis.
- KU7.** Emerging trends and innovations in the oil and gas industry that may impact sales and marketing efforts.
- KU8.** The importance of continuous learning and adaptation in response to changing market conditions.
- KU9.** Market segmentation strategies specific to the oil and gas sector, including upstream, midstream, and downstream markets.
- KU10.** Regulatory frameworks and compliance requirements governing the oil and gas industry, and their implications for marketing strategies.
- KU11.** Key performance indicators (KPIs) and metrics used to measure the effectiveness of marketing campaigns and initiatives in the oil and gas sector.
- KU12.** Global market dynamics and geopolitical factors influencing oil and gas supply and demand trends.
- KU13.** Technological advancements and innovations in exploration, extraction, and production methods shaping the oil and gas market landscape.
- KU14.** Financial analysis techniques relevant to evaluating investment opportunities and project feasibility in the oil and gas industry.
- KU15.** Market forecasting methodologies and tools used to predict future demand trends and pricing fluctuations in the oil and gas market.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret received data.
- GS2.** analyze and compare the data
- GS3.** assess complexity and practicality of task.

Qualification Pack

- GS4.** Proficient in basic mathematical calculation
- GS5.** plan and organize the day-to-day activity

HYC/N3705: Maintain Records for Sales and Marketing Activities

Description

This unit involves maintaining records related to sales and marketing activities for effective tracking and analysis.

Scope

The scope covers the following :

- Maintaining records of sales and marketing activities.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Prepare records of new clients or customers, including relevant details such as contact information, preferences, and interaction history.
- PC2.** Update records of existing clients or customers to reflect any changes, such as updated contact information or purchasing preferences.
- PC3.** Maintain records of sales transactions, including details of products or services sold, quantities, prices, and payment terms.
- PC4.** Update records of marketing campaigns and initiatives, including details of target audience, channels used, and outcomes achieved.
- PC5.** Calculate and maintain records of sales performance metrics, such as conversion rates, revenue generated, and return on investment.
- PC6.** Maintain records of customer feedback and complaints, including actions taken to address them and outcomes.
- PC7.** Record and update the status of ongoing sales and marketing projects, including timelines, milestones, and key deliverables.
- PC8.** Submit reports on sales and marketing activities to relevant stakeholders, including management and other departments as required.
- PC9.** Ensure compliance with data protection regulations and organizational policies regarding the handling and storage of customer information.
- PC10.** Monitor inventory levels and update records of product availability, backorders, and replenishment schedules to support sales efforts.
- PC11.** Track and record customer interactions across various communication channels, such as phone calls, emails, and social media messages.
- PC12.** Document competitive analysis findings, including pricing strategies, product features, and market positioning, to inform sales and marketing strategies.
- PC13.** Maintain records of lead generation efforts, including sources of leads, lead qualification criteria, and follow-up activities.
- PC14.** Capture and analyze demographic data and market segmentation information to tailor marketing messages and campaigns effectively.

Qualification Pack

- PC15.** Document customer lifecycle stages, from lead acquisition to post-sale support and retention efforts, to ensure a seamless customer experience.
- PC16.** Record sales forecasts and projections based on historical data, market trends, and input from sales representatives and other stakeholders.
- PC17.** Track and document customer satisfaction scores, Net Promoter Scores (NPS), and other key performance indicators to measure and improve customer loyalty.
- PC18.** Document sales and marketing budget allocations and expenditures, including advertising costs, promotional expenses, and ROI analysis.
- PC19.** Maintain records of partnerships and collaborations with external vendors, agencies, or affiliates involved in sales and marketing activities.
- PC20.** Conduct regular audits of sales and marketing records to ensure accuracy, completeness, and compliance with internal policies and external regulations.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The fundamentals of sales and marketing principles and practices.
- KU2.** The importance of accurate and up-to-date record-keeping in sales and marketing functions.
- KU3.** Standard operating procedures for maintaining records in sales and marketing departments.
- KU4.** Relevant industry-specific regulations and guidelines related to sales and marketing activities.
- KU5.** The importance of confidentiality and data protection in handling customer information.
- KU6.** Effective communication and reporting techniques for conveying sales and marketing information to stakeholders.
- KU7.** The role of technology and software tools in managing sales and marketing records.
- KU8.** Continuous improvement strategies for optimizing sales and marketing record-keeping processes.
- KU9.** The concept of customer relationship management (CRM) and its significance in sales and marketing endeavors.
- KU10.** Data analysis techniques for extracting actionable insights from sales and marketing records, such as trend analysis and correlation studies.
- KU11.** Cross-functional collaboration and integration of sales and marketing records with other departments, such as finance, operations, and customer service.
- KU12.** Quality assurance principles and best practices for ensuring the accuracy, integrity, and consistency of sales and marketing records.
- KU13.** The role of market research and customer segmentation in informing sales and marketing record-keeping strategies.
- KU14.** Compliance requirements related to marketing communications, including advertising standards, consumer protection laws, and anti-spam regulations.
- KU15.** Crisis management protocols and contingency planning for safeguarding sales and marketing records in the event of data breaches, natural disasters, or other emergencies.

HYC/N9302: Maintain health, safety and security procedures

Description

This unit is about maintaining health, safety and security procedure at workplace. It covers responsibilities towards self, others, assets and the environment.

Scope

The scope covers the following :

- Follow health and safety measures
- Follow safety procedures during emergency

Elements and Performance Criteria

Follow health and safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment such as face mask, hand gloves, goggle etc for specific tasks and work conditions
- PC2.** identify the people responsible for maintaining health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace
- PC4.** follow safe working practices while dealing with hazards to ensure the safety of self and others
- PC5.** lift heavy objects safely using correct procedures
- PC6.** follow safety signages
- PC7.** maintain hands hygiene by washing hand frequently and thoroughly with soap and water or alcohol-based hand rub
- PC8.** inform the concerned person of any illness related to self and others
- PC9.** maintain workplace hygiene by disinfecting the equipment and tools regularly

Follow safety procedures during emergency

To be competent, the user/individual on the job must be able to:

- PC10.** respond promptly and appropriately to an accident or in an emergency situation
- PC11.** use appropriate fire extinguishers for different types of fires correctly
- PC12.** follow appropriate rescue techniques during fire hazard
- PC13.** follow good housekeeping practice in order to prevent fire hazards
- PC14.** inform fire safety department about any near-miss incidents in the work place
- PC15.** provide appropriate first aid to victims in an emergency situation
- PC16.** follow the applicable regulations and codes as per safety standard
- PC17.** prepare written accident/incident report and share with the concerned officer/department

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** company's policies on personnel management and duty reporting procedure
- KU2.** reporting structure within organization
- KU3.** health and safety hazards commonly affecting the work environment and related precautions
- KU4.** importance of maintaining personal hygiene using PPE kit, sanitizer and soap
- KU5.** importance of maintaining workplace hygiene
- KU6.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU7.** importance of using protective clothing/equipment while working
- KU8.** various causes of fire

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training Centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training Centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
