HYC/Q4001: Green Hydrogen Plant Operator

Brief Job Description

A Green Hydrogen Plant Operator is responsible for efficiently operating and maintaining a green hydrogen production facility. The person at this job oversees the operation of equipment like electrolyzers, dryers, deoxy reactor, electrical heater, pump, compressors, and storage systems, ensuring smooth production processes. The person will monitor water purification process, Hydrogen, production rates, energy consumption, and system efficiencies, and make necessary adjustments to optimize output and minimize waste prioritizing the Safety and compliance. They collaborate with team members, maintain operational records, and contribute to process improvement initiatives.

Personal Attributes

The individual should have ability to give attention to detail, technical aptitude, adaptability, teamwork, and a strong commitment to safety and sustainability. The person should have the ability to work individually / team round the clock and must always promote safety.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HYC/N4001: Hydrogen Safety, Security and Health Management Procedures](#)
2. [HYC/N4002: Operate and maintain hydrogen production equipment](#)
3. [HYC/N4003: Carry out green hydrogen production operations](#)
4. [HYC/N9301: Working effectively in a team](#)
5. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

HYC/N4001: Hydrogen Safety, Security and Health Management Procedures

Description

This unit covers maintaining health, safety and security procedures at the workplace where Hydrogen is produced and handled.

Scope

The scope covers the following :

- Understanding Properties of Hydrogen from safety point of view
- Safe handling of Hydrogen
- Follow fire safety procedures
- Follow emergencies, rescue and first-aid procedures

Elements and Performance Criteria

Understanding Properties of Hydrogen from safety point of view & Safe handling of Hydrogen

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment for specific tasks and work conditions
- PC2.** identify documents, location and people responsible for health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace due to hydrogen leak/fire
- PC4.** capability to accurately read and interpret data from sensing equipment used in hydrogen production processes
- PC5.** apply key safety parameters for handling hydrogen & oxygen
- PC6.** assess hydrogen release pressure, hydrogen flame detection methods (h₂ flame is colour less)
- PC7.** apply key safety requirements for electrical equipment's in green hydrogen
- PC8.** work as per functioning of hydrogen exhaust system
- PC9.** inertization of system with nitrogen
- PC10.** identify hydrogen process hazard and assess risk
- PC11.** identify common safety signs, displayed in various areas
- PC12.** safe handling of lye solution (koh solution)
- PC13.** carry out safe working practices while dealing with hazards to ensure the safety of self and others
- PC14.** handle hydrogen ignition source management
- PC15.** standard practice for safe venting of hydrogen & oxygen, reference cga 5.5 & nfpa 2.0 for h₂ venting and aiga021-19 for o₂ vent

Follow fire safety procedures

To be competent, the user/individual on the job must be able to:

- PC16.** Familiarization with Hydrogen Leak and flame detection system, Identification of Hydrogen Fire; use the various appropriate fire extinguishers on different types of fires correctly

Qualification Pack

- PC17.** Measures to mitigate hydrogen fire, isolation of Hydrogen supply line and follow rescue techniques applied during fire hazard
- PC18.** follow good housekeeping practice in order to prevent fire hazards
- PC19.** list issues concerning the hydrogen safety in work place
- PC20.** have good understanding to maintain work areas and escape routes free from any hindrance
- PC21.** inform fire safety department about any near-miss incidents in the work place
- PC22.** follow the applicable laws, regulations and codes as per safety standard
- PC23.** prepare written accident/incident report and share with the concerned officer/department

Follow emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC24.** provide appropriate first aid to victims in emergency situation
- PC25.** demonstrate basic techniques of bandaging
- PC26.** respond promptly and appropriately to an accident
- PC27.** perform rescue activity during an accident in real or simulated environments
- PC28.** follow correct escape route during an emergency
- PC29.** demonstrate correct method to rescue injured people and others during an emergency
- PC30.** Familiarize with emergency protocols, including evacuation and shutdown procedures

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company policies on personnel management and duty reporting procedure
- KU2.** reporting structure within organization
- KU3.** how to escalate problem
- KU4.** concept of hazards and risks
- KU5.** health and safety hazards commonly affecting the work environment and related precautions
- KU6.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU7.** importance of using protective clothing/equipment while working
- KU8.** various causes of fire
- KU9.** techniques of using different types of fire extinguishers
- KU10.** different materials used for extinguishing fire
- KU11.** various types of safety signs and their significance

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate by writing
- GS2.** read instructions, guidelines/procedures and reports
- GS3.** communicate effectively and share the information efficiently

Qualification Pack

- GS4.** identify and report potential sources of danger
- GS5.** how to plan the work to meet the deadline
- GS6.** the importance of on time services
- GS7.** apply problem solving approaches in different situations
- GS8.** apply balanced judgments to different situations

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Understanding Properties of Hydrogen from safety point of view & Safe handling of Hydrogen</i>	15	25	-	-

HYC/N4002: Operate and maintain hydrogen production equipment

Description

This unit is about operating and maintaining the equipment used in green hydrogen production, including electrolyzers, compressors, and storage systems. Assist in performing routine maintenance, inspections, and troubleshooting to ensure optimal operation and reliability.

Scope

The scope covers the following :

- Familiarization with water purification, hydrogen production, and storage and compression equipment
- Maintenance of hydrogen production and storage equipment

Elements and Performance Criteria

Familiarization with water purification, hydrogen production, storage and compression equipments

To be competent, the user/individual on the job must be able to:

- PC1.** Identify different types of hydrogen production equipments
- PC2.** determine types of electrolyzers, its function and operating principles
- PC3.** determine types of compressors and its function and operating principles
- PC4.** determine types of purification systems and its respective functions and operating procedures
- PC5.** Determine the functioning of water purification process
- PC6.** determine user interfaces, and instrumentation of each equipment.
- PC7.** Use the safety protocols to be followed while operating the equipments

Maintenance of hydrogen production and storage equipments

To be competent, the user/individual on the job must be able to:

- PC8.** Assist during routine inspections and checks of equipment, ensuring they are in good working condition
- PC9.** Conduct routine maintenance tasks required for each equipment type, such as cleaning, lubrication
- PC10.** Handle the component replacement of any equipment if needed
- PC11.** Handle common issues and troubleshooting techniques specific to hydrogen production equipments
- PC12.** report malfunctioning of equipment to supervisor/manager
- PC13.** coordinate with Green Hydrogen production technician for repair of faulty equipments
- PC14.** Troubleshooting & safe Hand over for maintenance of all equipment

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** importance of calibration of tools and instruments used in Green Hydrogen production
- KU2.** organizational procedures for safe handling of equipment and machine operations
- KU3.** reporting protocol and documentation required
- KU4.** relevant health and safety requirements applicable to the workplace
- KU5.** the importance of personal protective equipment used during the procedure performing
- KU6.** ways of efficiently managing renewable sources such as wind, water in the process
- KU7.** latest methods of energy and material conservation
- KU8.** categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU9.** the difference between recyclable/reusable and waste material

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret the test data
- GS2.** analyze the parameters and output
- GS3.** record data on waste disposal at workplace
- GS4.** assess complexity and criticality of task
- GS5.** communicate effectively with team members
- GS6.** perform basic mathematical calculation
- GS7.** complete tasks efficiently and accurately within stipulated time
- GS8.** work constructively and collaboratively with others.
- GS9.** delegate tasks to improve efficiencies
- GS10.** plan and organize the marketing activity

Qualification Pack

HYC/N4003: Carry out green hydrogen production operations

Description

This unit is about performing green hydrogen production operations which includes monitoring parameters and production rates, and ensure efficient resource utilization to obtain pure hydrogen gas. The individual has to assist during routine maintenance, inspections, and should be able to troubleshoot to ensure optimal operation and reliability.

Scope

The scope covers the following :

- Perform activities related to Green Hydrogen production process

Elements and Performance Criteria

Perform activities related to Green Hydrogen production process

To be competent, the user/individual on the job must be able to:

- PC1.** determine the start, stop, adjust parameters, and monitor equipment performance to achieve optimal electrolysis
- PC2.** start and monitor the power supply system, which include renewable energy sources
- PC3.** monitor and regulate the water supply to the electrolyzer
- PC4.** control and monitor the water purification system, which involve filters, deionization units, or reverse osmosis systems, to maintain the required water quality
- PC5.** operate gas purification systems to remove impurities from the hydrogen gas
- PC6.** determine gas separation processes, such as pressure swing adsorption (psa) or membrane separation, used to obtain pure hydrogen gas
- PC7.** monitor storage tanks or cylinders to ensure proper storage conditions for the produced hydrogen gas.
- PC8.** report logs, finding and fault to the supervisor/manager
- PC9.** ensuring compliance with safety and quality standards during production of green hydrogen
- PC10.** report logs daily, report near miss, incidents, findings to the supervisor/manager.
- PC11.** ensuring compliance with safety and quality standards during production of green hydrogen
- PC12.** maintain & record of important parameters of electrolyzer like electrolyte flow, temp, current, h₂ flow rate, pressure parameters.
- PC13.** monitor proper periodic cip record also need to maintain & proper maintenance the rejected water from ro either through zero liquid discharge scheme.
- PC14.** apply generic standard operating procedures
- PC15.** apply basic knowledge of msds used for koh, h₂, o₂
- PC16.** handle safe collection of laboratory samples
- PC17.** handle emergency actions, troubleshooting

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** the basic principles and processes involved in hydrogen production
- KU2.** the properties and use of green hydrogen
- KU3.** standard operating procedures for green hydrogen production
- KU4.** importance of calibration of tools and instruments used in green hydrogen production
- KU5.** hydrogen output per unit of time
- KU6.** the block flow diagram and process flow diagram
- KU7.** basic heat & material balance
- KU8.** the basic PID with legends
- KU9.** organizational procedures for safe handling of hydrogen gas
- KU10.** reporting protocol and documentation required
- KU11.** relevant health and safety requirements applicable to the workplace
- KU12.** the importance of personal protective equipment used during the procedure performing
- KU13.** ways of efficiently managing wind and water in the process
- KU14.** latest methods of energy and material conservation
- KU15.** categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU16.** the difference between recyclable/reusable and waste material
- KU17.** MSDS of all chemicals
- KU18.** PID interlocks emergency shut down actions
- KU19.** properly maintaining logbook & proper shift handover are practiced everyday very effectively.
- KU20.** work permits are signed after ensuring safety & in time on daily basis.
- KU21.** safe startup & shutdown of electrolyzers /compressors /h₂ deoxo etc. as per sop.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret the hydrogen output per unit of time
- GS2.** analyze the parameters and output
- GS3.** record data on waste disposal at workplace
- GS4.** assess complexity and criticality of task
- GS5.** communicate effectively with team members
- GS6.** perform basic mathematical calculation
- GS7.** complete tasks efficiently and accurately within stipulated time
- GS8.** work constructively and collaboratively with others.
- GS9.** delegate tasks to improve efficiencies
- GS10.** plan and organize the marketing activity

HYC/N9301: Working effectively in a team

Description

This unit covers basic practices that improve effectiveness of working in a team in an organizational set-up

Scope

The scope covers the following :

- Effective team work

Elements and Performance Criteria

Effective team work

To be competent, the user/individual on the job must be able to:

- PC1.** maintain clear communication with colleagues
- PC2.** pass on information to colleagues in line with organisational requirements
- PC3.** work in a team and support the team members
- PC4.** work in ways that show respect to colleagues
- PC5.** fulfil commitments made to colleagues
- PC6.** inform team members timely, if timelines can't be met
- PC7.** take the necessary initiatives to resolve the issues while working in team

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organization policies and procedures related to team performance
- KU2.** the importance of effective communication and establishing good working relationships with colleagues
- KU3.** Deeper understanding of actions & consequences of gendered behaviour
- KU4.** the importance of creating an environment of trust and mutual respect
- KU5.** the implications of own work on the work and schedule of others
- KU6.** the standard practice in organization w.r.t communication at various levels
- KU7.** the instructions at individual level or at group level
- KU8.** individual work responsibility and corrective measures required to complete task in time
- KU9.** the importance of personal qualities like discipline and confidence to achieve success in work assigned

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** communicate effectively in writing
- GS2.** read instructions, guidelines/procedures
- GS3.** communicate information effectively
- GS4.** make decisions on a suitable course of action or response keeping in view resource utilization while meeting commitments
- GS5.** how to plan the work to meet the deadline
- GS6.** the importance of consistent and reliable services for customer satisfaction
- GS7.** apply problem solving approaches in different situations
- GS8.** apply balanced judgments to different situations

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of % aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
