HYC/Q4302: Logistics Coordinator - 2G Ethanol Plant

Brief Job Description

Individual at this job is responsible for performing the work profiles involved in inbound of feedstock of a 2G Ethanol Plant. The person will gain in depth knowledge and practical expertise in the process of designing a supply chain model of inbound logistics of feedstock (biomass) and accordingly can coordinate with various stakeholders involved in the various logistics scenario for smooth functioning of the plant. The person aims to enhance the understanding of key responsibilities and to contribute effectively to the efficient and quality-driven operation of logistics in a 2G ethanol production plant.

Personal Attributes

The individual should have good sense of responsibility, a good organizer and time keeper. The person should have the ability to work in a team.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HYC/N4302: Logistics Management for 2G Ethanol Plant Feedstock](#)
2. [HYC/N9301: Working effectively in a team](#)
3. [HYC/N9302: Maintain health, safety and security procedures](#)
4. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

HYC/N4302: Logistics Management for 2G Ethanol Plant Feedstock

Description

This unit is about coordinating the inbound Logistics of feedstock (Biomass) of a 2nd Generation(2G) Ethanol plant. This job involves designing and operating a suitable supply chain model for sustainably receiving and storing feedstock and maintaining the quality control system of the same.

Scope

The scope covers the following :

- Requirement of Biomass as feedstock in a 2G Ethanol plant in adequate quantity and quality
- Process of collection and storage of Biomass and Elements of Biomass supply chain model
- Costing elements of Biomass supply chain system
- Quality control of Biomass
- Role of a Logistics

Elements and Performance Criteria

Requirement of Biomass as feedstock in a 2G Ethanol plant in adequate quantity and quality

To be competent, the user/individual on the job must be able to:

- PC1.** Understand different type of available Biomass that can be used and type of logistics involved and requirements of baling operation for storage and transportation.
- PC2.** Understand how Biomass is to be weighed and accounted for while receiving at plant and prepared in the process as a feedstock (size reduction, impurity removal and moisture control) in the 2G Ethanol plant
- PC3.** Understand different harvesting seasons (Rabi and Kharif) and daily requirement of Biomass based on plant capacity and seasonality

Process of collection and storage of Biomass and Elements of Biomass supply chain model

To be competent, the user/individual on the job must be able to:

- PC4.** understand the infrastructure required at primary depot for storage of Biomass; Area, Firefighting system, weighing method, moisture control, avoiding auto methanation
- PC5.** understand about working of different farm equipment (implement) required in harvesting and baling operation: Harvester, Baler, Raker, Slasher, Tractor etc.
- PC6.** understand the modern method of logistics and special vehicle of primary transportation, primary storage and secondary transportation and storage at plant (Stacking methods, withdrawal method, protection from rain) and protection from hazard
- PC7.** understand Manual and mechanical operations involved in the Biomass supply chain model: Use of machineries for stacking, loading, Unloading, Weighing
- PC8.** Identified stakeholders involved in the supply chain model and Role of each stakeholder: Farmer, Farm Producing organization (FPO), Primary Agricultural credit society (PACS), equipment manufacturer and dealer, Aggregator, Transporter, Depot operator, Govt agency (State and Central) etc.

Costing Elements of Biomass supply chain model

To be competent, the user/individual on the job must be able to:

Qualification Pack

PC9. Identify various cost elements of Biomass supply chain model

PC10. understand the fixed and variable components of the costing elements

Quality control of Biomass

To be competent, the user/individual on the job must be able to:

PC11. Know quality measures to be adopted at field, primary depot and at plant. Use of moisture meter.

Role of Logistics

To be competent, the user/individual on the job must be able to:

PC12. Maintain clear communication with plant and outside stakeholder to ensure smooth supply of Biomass

PC13. adhere to environmental regulations and implementing measures as defined by plant leadership to minimize the impact of the production process on the environment.

PC14. ensure the safety of personnel and facilities through proper training, hazard identification, and risk management as per sop.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Feedstock characteristics and selection

KU2. Overall idea of bioethanol production processes with stress on preparation of Biomass

KU3. Functioning of various farm equipment (implements) involved in Biomass supply chain: Harvester, baler, slasher and raker.

KU4. Primary and secondary transportation of biomass: Type and capacity of vehicle and optimization plans

KU5. Storage and handling of Biomass at depots and at plant and avoiding damage during storage

KU6. The safety protocols and procedures in a plant environment and at primary depot

KU7. The quality control measures and testing methods

KU8. environmental regulations and sustainability practices

KU9. Stakeholders involved in Biomass supply chain

KU10. Costing and documentation and record keeping requirements

KU11. relevant regulations and compliance standards

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and interpret supply chain contract

GS2. measure and scale the weight of quality of Feedstock

GS3. assess complexity and criticality of task

GS4. communicate effectively with team members

GS5. Complete tasks efficiently and accurately within stipulated time

GS6. work with supervisors/team members to carry out work related tasks

Qualification Pack

- GS7.** perform basic mathematical calculation
- GS8.** plan and organize the seasonal requirements

Qualification Pack

HYC/N9301: Working effectively in a team

Description

This unit covers basic practices that improve effectiveness of working in a team in an organizational set-up

Scope

The scope covers the following :

- Effective team work

Elements and Performance Criteria

Effective team work

To be competent, the user/individual on the job must be able to:

- PC1.** maintain clear communication with colleagues
- PC2.** pass on information to colleagues in line with organisational requirements
- PC3.** work in a team and support the team members
- PC4.** work in ways that show respect to colleagues
- PC5.** fulfil commitments made to colleagues
- PC6.** inform team members timely, if timelines can't be met
- PC7.** take the necessary initiatives to resolve the issues while working in team

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organization policies and procedures related to team performance
- KU2.** the importance of effective communication and establishing good working relationships with colleagues
- KU3.** Deeper understanding of actions & consequences of gendered behaviour
- KU4.** the importance of creating an environment of trust and mutual respect
- KU5.** the implications of own work on the work and schedule of others
- KU6.** the standard practice in organization w.r.t communication at various levels
- KU7.** the instructions at individual level or at group level
- KU8.** individual work responsibility and corrective measures required to complete task in time
- KU9.** the importance of personal qualities like discipline and confidence to achieve success in work assigned

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** communicate effectively in writing
- GS2.** read instructions, guidelines/procedures
- GS3.** communicate information effectively
- GS4.** make decisions on a suitable course of action or response keeping in view resource utilization while meeting commitments
- GS5.** how to plan the work to meet the deadline
- GS6.** the importance of consistent and reliable services for customer satisfaction
- GS7.** apply problem solving approaches in different situations
- GS8.** apply balanced judgments to different situations

HYC/N9302: Maintain health, safety and security procedures

Description

This unit is about maintaining health, safety and security procedure at workplace. It covers responsibilities towards self, others, assets and the environment.

Scope

The scope covers the following :

- Follow health and safety measures
- Follow fire safety procedures
- Follow safety procedures during emergency

Elements and Performance Criteria

Follow health and safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment such as face mask, hand gloves, goggle etc for specific tasks and work conditions
- PC2.** identify the people responsible for maintaining health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace
- PC4.** follow safe working practices while dealing with hazards to ensure the safety of self and others
- PC5.** lift heavy objects safely using correct procedures
- PC6.** follow safety signages

Follow fire safety procedures

To be competent, the user/individual on the job must be able to:

- PC7.** use the various appropriate fire extinguishers on different types of fires correctly
- PC8.** follow rescue techniques applied during fire hazard
- PC9.** follow good housekeeping practice in order to prevent fire hazards
- PC10.** list issues concerning the safety in work place
- PC11.** inform fire safety department about any near-miss incidents in the work place
- PC12.** follow the applicable laws, regulations and codes as per safety standard
- PC13.** prepare written accident/incident report and share with the concerned officer/department

Follow emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC14.** provide appropriate first aid to victims in emergency situation
- PC15.** demonstrate basic techniques of bandaging
- PC16.** respond promptly and appropriately to an accident
- PC17.** perform rescue activity during an accident in real or simulated environments
- PC18.** demonstrate correct method to rescue injured people and others during an emergency

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personnel management and duty reporting procedure
- KU2.** reporting structure within organization
- KU3.** how to escalate problem
- KU4.** concept of “hazards” and “risks”
- KU5.** health and safety hazards commonly affecting the work environment and related precautions
- KU6.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU7.** importance of using protective clothing/equipment while working
- KU8.** various causes of fire
- KU9.** techniques of using different types of fire extinguishers
- KU10.** different materials used for extinguishing fire
- KU11.** various types of safety signs and their significance

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively by writing
- GS2.** read instructions, guidelines/procedures and reports
- GS3.** communicate effectively and share the information efficiently
- GS4.** identify and report potential sources of danger
- GS5.** how to plan the work to meet the deadline
- GS6.** the importance of on time services
- GS7.** apply problem solving approaches in different situations
- GS8.** apply balanced judgments to different situations

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 50% of % Aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 50

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
