HYC/Q6105: Plumber Technician - CGD (Oil & Gas)

Brief Job Description

Individual at this job is responsible for installation, repair and maintenance of GI pipes installed at residential or commercial setup for PNG connection. The person at this job works on ground floor or high-rise building for installation and repair, and maintenance of GI pipes.

Personal Attributes

The individual should have good sense of responsibility, a good organizer, Customer Service and time keeper. The person should have the ability to work in high-rise building individually or in a team

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HYC/N6112: Prepare for PNG connection installation, repair or maintenance at site](#)
2. [HYC/N6113: Installation, repair or maintenance of GI pipe for PNG connection at site](#)
3. [HYC/N9301: Working Effectively in a team](#)
4. [HYC/N9302: Maintain health, safety and security procedures](#)
5. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

HYC/N6112: Prepare for PNG connection installation, repair or maintenance at site

Description

This unit is about preparing tools and equipment for installation, repair or maintenance of PNG connection at site. Check readiness and calibration of tools and equipment for installation, repair or maintenance at connection site.

Scope

The scope covers the following :

- Prepare for PNG connection installation, repair or maintenance at site

Elements and Performance Criteria

- *Prepare for PNG connection installation, repair or maintenance at site*

To be competent, the user/individual on the job must be able to:

- PC1.** To be in proper dress, PPEs and with valid ID along with double body harness during job site
- PC2.** obtain customer details form supervisor for PNG connection
- PC3.** contact customer for installation, repair or maintenance of PNG connection
- PC4.** obtain clearance, route, isometric graph from Third Party Inspection Engineer (TPIE)/Supervisor for installation of PNG connection
- PC5.** Obtain work permit from concerned officer/Control room
- PC6.** collect drawing, material, measuring instruments, PPE kit, tools and equipment
- PC7.** check the readiness and calibration for error-free functioning of tools and instruments
- PC8.** install maintenance and installation signages at the site
- PC9.** report maintenance and installation activity to the concern
- PC10.** Isolate the Gas supply to PNG connection before start of any maintenance activity

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the distribution system of PNG
- KU2.** the consumers' preference and demography
- KU3.** the importance of documentation and related procedures applicable in the context of PNG connection
- KU4.** the importance of calibration of tools and instruments
- KU5.** the function of tools and instrument used for GI pipe
- KU6.** potential hazards, risks and threats based on the nature of work
- KU7.** standard operating procedures while working
- KU8.** relevant health and safety requirements applicable to the work place

Qualification Pack

- KU9.** the importance of personal protective equipment used during execution of work during site
- KU10.** Use of double body harness while working at height
- KU11.** Knowledge regarding valid electrode and welding technique (where welding is required)

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret engineering drawings
- GS2.** measure and write the length of the pipe for marking
- GS3.** assess complexity and criticality of task
- GS4.** communicate effectively with team members and customers
- GS5.** complete tasks efficiently, accurately and safely within stipulated time
- GS6.** work with supervisors/team members to carry out work related tasks
- GS7.** perform basic mathematical calculation
- GS8.** plan and organize the installation, repair and maintenance activity

Qualification Pack

HYC/N6113: Installation, repair or maintenance of GI pipe for PNG connection at site

Description

This unit is about Installation, repair or maintenance of GI pipe at customers site for PNG connection.

Scope

The scope covers the following :

- Installation, repair or maintenance of GI pipe
- Testing and inspection

Elements and Performance Criteria

Hazard Identification & Risk Analysis (HIRA)

To be competent, the user/individual on the job must be able to:

- PC1.** Check equipment i.e. proper dia NPT dye, Lubricant, pipe vice, pipe cutter, Teflon tapes Hammer, drill machine, welding set (for welding if required) etc
- PC2.** Check pipes for straightness, fittings, clamps, meter/meter clamp, regulator, SS screw etc.
- PC3.** measure and mark on the GI pipe for cutting as per the requirement/ isometric using calibrated tools and equipment
- PC4.** cut the GI pipe using hand or power tools
- PC5.** create threads on GI Pipes using threading tools
- PC6.** join the GI pipe with the GI pipe connected to medium density polyethylene pipe
- PC7.** use teflon tape to join the two pipes / fittings
- PC8.** install the GI pipe on wall using clamps as per the blueprint
- PC9.** install isolation valve and appliance valve on GI pipe
- PC10.** install Polyvinyl chloride (PVC) casing on GI pipe in case of underground installation in the wall and electrical cable
- PC11.** install the GI pipe up to the gas meter / appliance valve for connection
- PC12.** In case of multi connection, use RIV after Tee.
- PC13.** Install meter (preferably outside of kitchen) with meter clamps at a maximum height of 4.5 feet so that woman/man can approach IV.
- PC14.** Install AV (ensure distance between stove and AV should be max 1 m) and install rubber hose and tighten rubber hose with hose clamps at both end.
- PC15.** Testing with riser gauge of 4.2 Kg/cm² of GI installation before meter and after meter section at pressure specified by TPI.
- PC16.** follow safety norms in case of installation of GI pipes on high-rise building such as wear PPE kit/ full safety harness, connect rope safely, etc.
- PC17.** Restore holes/drills with white cement
- PC18.** Complete painting before NGC/Gas charging
- PC19.** In case of NG, testing may be done through mono gauge for part after meter.

Qualification Pack

- PC20.** call Third Party Inspector Engineer (TPIE) appointed by CGD entity for final inspection
- PC21.** obtain Ready for Conversion (RFC) card signed by engineer
- PC22.** Remove excess pipe material, dirt etc before leaving site
- PC23.** clean the work area after completion of work
- PC24.** report Installation, repair or maintenance activity to the supervisor

Testing and inspection

To be competent, the user/individual on the job must be able to:

- PC25.** carrying out visual and dimensional inspection
- PC26.** check leakage in the pipe by flowing air pressure in GI pipes
- PC27.** use pressure gauge to measure the air pressure on the installed pipes
- PC28.** use leak detectors/ soap solution to identify the leakages in pipeline
- PC29.** repair the identified leakage area
- PC30.** call Third Party Inspector Engineer (TPIE) appointed by CGD entity for final inspection
- PC31.** obtain Ready for Conversion (RFC) card signed by engineer and customer
- PC32.** Resume the Gas supply to customer and appraise the customer for Dos & Don'ts
- PC33.** report supervisor for the completion of testing and inspection activity

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the ways to do measuring, cutting, threading and jointing the pipe
- KU2.** the types of testing and inspection methods
- KU3.** the structural integrity of pipes
- KU4.** the importance of calibration of tools and instruments
- KU5.** the function of tools and instrument used to cutting and threading and testing of GI pipes
- KU6.** the importance of personal protective equipment used during execution of work
- KU7.** ways of efficiently managing material and other resources in the process
- KU8.** the difference between recyclable/reusable and waste material

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret information correctly
- GS2.** assess complexity and criticality of task
- GS3.** communicate effectively with team & customers
- GS4.** perform basic mathematical calculation
- GS5.** plan and organize the the installation and maintenance activity
- GS6.** Capable to draw the isometric Drawing of PNG installation after work

HYC/N9301: Working Effectively in a team

Description

This unit is about working effectively within a team.

Scope

The scope covers the following :

- Effective team work

Elements and Performance Criteria

Effective team work

To be competent, the user/individual on the job must be able to:

- PC1.** maintain clear communication with colleagues
- PC2.** pass on information to colleagues in line with organisational requirements
- PC3.** provide support to the team members
- PC4.** respect the colleagues
- PC5.** fulfil commitments made to colleagues
- PC6.** inform team members timely, if timelines can't be met
- PC7.** take the necessary initiatives to resolve the issues while working in team
- PC8.** adopt gender neutral behaviour while interacting with colleagues
- PC9.** offer assistance to a person with disability (PWD), only if required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organization policies and procedures related to team performance
- KU2.** the importance of effective communication and establishing good working relationships with colleagues
- KU3.** the importance of creating an environment of trust and mutual respect
- KU4.** the implications of own work on the work and schedule of others
- KU5.** the standard practices in organisation w.r.t communication at various levels
- KU6.** the personal responsibility for completing the task in time
- KU7.** importance of gender equality
- KU8.** importance of showing empathy while interacting with a PwD

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** communicate effectively in writing
- GS2.** read instructions, guidelines/procedures
- GS3.** work in a disciplined manner for meeting commitments and deadline
- GS4.** how to plan and prioritise the work
- GS5.** the importance of consistent and reliable services
- GS6.** apply problem solving approaches in different situations
- GS7.** apply balanced judgments to different situations

HYC/N9302: Maintain health, safety and security procedures

Description

This unit is about maintaining health, safety and security procedure at workplace. It covers responsibilities towards self, others, assets and the environment.

Scope

The scope covers the following :

- Follow health and safety measures
- Follow safety procedures during emergency

Elements and Performance Criteria

Follow health and safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment such as face mask, hand gloves, goggle etc for specific tasks and work conditions
- PC2.** identify the people responsible for maintaining health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace
- PC4.** follow safe working practices while dealing with hazards to ensure the safety of self and others
- PC5.** lift heavy objects safely using correct procedures
- PC6.** follow safety signages
- PC7.** maintain hands hygiene by washing hand frequently and thoroughly with soap and water or alcohol-based hand rub
- PC8.** inform the concerned person of any illness related to self and others
- PC9.** maintain workplace hygiene by disinfecting the equipment and tools regularly

Follow safety procedures during emergency

To be competent, the user/individual on the job must be able to:

- PC10.** respond promptly and appropriately to an accident or in an emergency situation
- PC11.** use appropriate fire extinguishers for different types of fires correctly
- PC12.** follow appropriate rescue techniques during fire hazard
- PC13.** follow good housekeeping practice in order to prevent fire hazards
- PC14.** inform fire safety department about any near-miss incidents in the work place
- PC15.** provide appropriate first aid to victims in an emergency situation
- PC16.** follow the applicable regulations and codes as per safety standard
- PC17.** prepare written accident/incident report and share with the concerned officer/department

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** company's policies on personnel management and duty reporting procedure
- KU2.** reporting structure within organization
- KU3.** health and safety hazards commonly affecting the work environment and related precautions
- KU4.** importance of maintaining personal hygiene using PPE kit, sanitizer and soap
- KU5.** importance of maintaining workplace hygiene
- KU6.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU7.** importance of using protective clothing/equipment while working
- KU8.** various causes of fire
- KU9.** techniques of using different types of fire extinguishers
- KU10.** different materials used for extinguishing fire
- KU11.** various types of safety signs and their significance

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively by writing
- GS2.** read instructions, guidelines/procedures and reports
- GS3.** identify and report potential sources of danger
- GS4.** how to plan the work to meet the deadline
- GS5.** the importance of on time services
- GS6.** apply problem solving approaches in different situations
- GS7.** apply balanced judgments in different situations

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
