HYC/Q9201: Scaffolder -Oil & Gas (Construction services)

Brief Job Description

A Scaffolder - Oil & Gas (Construction Services) is responsible for constructing and dismantling scaffolding structures in the oil and gas industry. The person at this job does planning/ configuring scaffolding, erection of scaffolding of various types, establishing platforms and safety measures and dismantling and removing on completion of job at the onshore and offshore sites. The person will carry out work safely with a focus on energy conservation, system efficiencies and operational optimization. The Scaffolder is safety conscious and detail-oriented individual who can contribute to a safe and efficient work environment in the Oil & Gas industry.

Personal Attributes

The individual should have ability to be safety-focused, detail-oriented, physically fit, adaptable, team player, problem-solving skills, time management and professional to ensure safety, efficiency and success in the challenging Oil & Gas environment. The person should have the ability to work individually / team in different shift.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HYC/N9202: Identification of Scaffolding Equipment and work](#)
2. [HYC/N9201: Perform Scaffolding Work Operations](#)
3. [HYC/N9301: Working effectively in a team](#)
4. [HYC/N9302: Maintain health, safety and security procedures](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

HYC/N9202: Identification of Scaffolding Equipment and work

Description

This unit is about identifying different types of scaffolding equipment and understanding their applications. The person will learn about safety protocols, proper usage and maintenance of scaffolding equipment, ensuring a solid foundation for efficient and safe scaffolding work in Oil & Gas industry.

Scope

The scope covers the following :

- Identification and understanding of scaffolding equipment for scaffolding work

Elements and Performance Criteria

Identification of Scaffolding Equipment

To be competent, the user/individual on the job must be able to:

- PC1.** identify different types of scaffolding equipment and their use in construction projects.
- PC2.** identify the purpose and specific applications of each type of scaffolding equipment.
- PC3.** perform to utilize the components and materials that make up scaffolding structures.
- PC4.** interpret the plans, drawings and specifications related to scaffolding equipment

Work Identification in Scaffolding

To be competent, the user/individual on the job must be able to:

- PC5.** check the correct size, type and quantity of materials/components needed for scaffolding work.
- PC6.** conduct the initial inspection of scaffolding equipment for safety, functionality and compliance with job requirements before use
- PC7.** utilize proper techniques for assembling and dismantling scaffolding structures.
- PC8.** apply safe work practices and follow procedures to ensure the stability and integrity of scaffolding.
- PC9.** identify and address potential hazards associated with scaffolding work.
- PC10.** coordinate effectively with team members and supervisors regarding scaffolding equipment and work requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the types and applications of scaffolding equipment
- KU2.** Components and materials used in scaffolding structures
- KU3.** Safe work practices and procedures for scaffold stability
- KU4.** Identifying and addressing potential hazards in scaffolding work
- KU5.** Communication skills for conveying equipment and work requirements

Qualification Pack

- KU6.** organizational procedures for safe handling of equipment and machine operations
- KU7.** reporting protocol and documentation required
- KU8.** relevant health and safety requirements applicable to the workplace
- KU9.** the importance of personal protective equipment used during the procedure performing
- KU10.** ways of efficiently managing renewable sources such as water in the process
- KU11.** latest methods of energy and material conservation
- KU12.** categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU13.** the difference between recyclable/reusable and waste material

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret the standard operating procedures for Scaffolding work
- GS2.** Skill in working on elevated platforms, scaffolding, or ladders
- GS3.** record data on waste disposal at workplace
- GS4.** assess complexity and criticality of task
- GS5.** communicate effectively with team members
- GS6.** perform basic mathematical calculation
- GS7.** complete tasks efficiently and accurately within stipulated time
- GS8.** work constructively and collaboratively with others.
- GS9.** delegate tasks to improve efficiencies
- GS10.** plan and organize the marketing activity

HYC/N9201: Perform Scaffolding Work Operations

Description

This unit is about safely and efficiently assembling, erecting, altering and dismantling scaffolding structures according to industry standards, work plans and safety procedures. This includes identifying and using appropriate equipment, materials and tools, conducting inspections, implementing fall prevention measures and maintaining clear communication with team members to ensure the successful completion of scaffolding work.

Scope

The scope covers the following :

- This unit/task covers the following:
- Plan and prepare for the work
- Erect, secure and inspect scaffolding
- Dismantle Scaffolding
- Work Completion as per site requirements

Elements and Performance Criteria

Plan and prepare for the work

To be competent, the user/individual on the job must be able to:

- PC1.** Identify work requirements through work orders or as instructed by Supervisor
- PC2.** Identify and apply OISD standards, Occupational Health and Safety standards, Industry's codes of practice and specifications, environmental requirements throughout the work procedure.
- PC3.** Identify, obtain and inspect resources required to meet the job specifications for compliance.
- PC4.** select and interpret relevant plans, drawings and text in accordance with the work plan.
- PC5.** check the correct size, type and quantity of materials/components for compliance with the job specifications.
- PC6.** coordinate for planning of work in detail, including sequencing, prioritizing and considering plant security and capacity in accordance with site requirements.
- PC7.** identify potential hazards, select prevention/control measures in accordance with the work plan and site procedures.
- PC8.** prepare the work area according to work requirements and site procedures.

Erect, secure and inspect scaffolding

To be competent, the user/individual on the job must be able to:

- PC9.** check the expected loading on the scaffold/equipment and supporting structure by using load tables and calculations in line with the work plan- Identify any limitations.
- PC10.** Set up the foundations for the scaffold/equipment in accordance with both OISD standards and the established work plan.
- PC11.** Inspect the scaffold/equipment and its components before use for safety and compliance with job and statutory requirements.

Qualification Pack

- PC12.** Erect safety nets and static lines as needed, in accordance with OISD standards.
- PC13.** Carry out alterations and repairs to the scaffold/equipment, considering critical safety and structural areas, in accordance with job requirements and scaffolding principles.
- PC14.** Check and confirm the stability of the scaffold/equipment through inspections following the work plan.
- PC15.** Complete the inspection log as per requirements

Dismantle Scaffolding

To be competent, the user/individual on the job must be able to:

- PC16.** Conduct the inspection of the scaffolding/equipment for damage, corrosion, or wear before dismantling, following statutory requirements and the work plan.
- PC17.** Perform dismantling of the scaffolding/equipment, considering critical structure and safety areas, in accordance with the work plan.

Work Completion

To be competent, the user/individual on the job must be able to:

- PC18.** Complete the work and notify the appropriate personnel as per site requirements
- PC19.** Clear the work area of waste, clean it, restore any disturbed areas and secure it following site procedures.
- PC20.** Maintain and store plant, tools and equipment according to site procedures.
- PC21.** Finalize the details of work completion following site procedures and submit to supervisor

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the Occupational Health and Safety Standards
- KU2.** OISD standards, and codes of practice
- KU3.** standard operating procedures for Scaffolding work
- KU4.** the organizational procedures for safe handling of scaffolding Equipments and work
- KU5.** working at heights regulations and best practices
- KU6.** working of fall protection systems and equipment
- KU7.** the use of emergency response and rescue procedures in case of a fall or accident
- KU8.** reporting protocol and documentation required
- KU9.** relevant health and safety requirements applicable to the workplace
- KU10.** Hazard identification and control techniques
- KU11.** the importance of personal protective equipment used during the procedure performing
- KU12.** ways of efficiently managing water in the process
- KU13.** latest methods of energy and material conservation
- KU14.** the categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU15.** the difference between recyclable/reusable and waste material

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** read and interpret the standard operating procedures for Scaffolding work
- GS2.** Work on elevated platforms, scaffolding, or ladders

HYC/N9301: Working effectively in a team

Description

This unit covers basic practices that improve effectiveness of working in a team in an organizational set-up

Scope

The scope covers the following :

- Effective team work

Elements and Performance Criteria

Effective team work

To be competent, the user/individual on the job must be able to:

- PC1.** maintain clear communication with colleagues
- PC2.** pass on information to colleagues in line with organisational requirements
- PC3.** work in a team and support the team members
- PC4.** work in ways that show respect to colleagues
- PC5.** fulfil commitments made to colleagues
- PC6.** inform team members timely, if timelines can't be met
- PC7.** take the necessary initiatives to resolve the issues while working in team

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organization policies and procedures related to team performance
- KU2.** the importance of effective communication and establishing good working relationships with colleagues
- KU3.** Deeper understanding of actions & consequences of gendered behaviour
- KU4.** the importance of creating an environment of trust and mutual respect
- KU5.** the implications of own work on the work and schedule of others
- KU6.** the standard practice in organization w.r.t communication at various levels
- KU7.** the instructions at individual level or at group level
- KU8.** individual work responsibility and corrective measures required to complete task in time
- KU9.** the importance of personal qualities like discipline and confidence to achieve success in work assigned

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** communicate effectively in writing
- GS2.** read instructions, guidelines/procedures
- GS3.** communicate information effectively
- GS4.** make decisions on a suitable course of action or response keeping in view resource utilization while meeting commitments
- GS5.** how to plan the work to meet the deadline
- GS6.** the importance of consistent and reliable services for customer satisfaction
- GS7.** apply problem solving approaches in different situations
- GS8.** apply balanced judgments to different situations

HYC/N9302: Maintain health, safety and security procedures

Description

This unit covers maintaining health, safety and security procedures at the workplace. This includes procedures and practices that candidates need to follow to help maintain a healthy, safe and secure work environment

Scope

The scope covers the following :

- This unit/task covers the following:
- Practice health and safety measures
- Follow fire safety procedures
- Follow emergencies, rescue and first-aid procedures

Elements and Performance Criteria

Follow health and safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment for specific tasks and work conditions
- PC2.** identify documents, location and people responsible for health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace
- PC4.** carry out safe working practices while dealing with hazards to ensure the safety of self and others
- PC5.** lift heavy objects safely using correct procedures
- PC6.** identify common safety signs, displayed in various areas

Follow fire safety procedures

To be competent, the user/individual on the job must be able to:

- PC7.** use the various appropriate fire extinguishers on different types of fires correctly
- PC8.** follow rescue techniques applied during fire hazard
- PC9.** follow good housekeeping practice in order to prevent fire hazards
- PC10.** list issues concerning the safety in work place
- PC11.** inform fire safety department about any near-miss incidents in the work place
- PC12.** follow the applicable laws, regulations and codes as per safety standard
- PC13.** prepare written accident/incident report and share with the concerned officer/department

Follow emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC14.** provide appropriate first aid to victims in emergency situation
- PC15.** demonstrate basic techniques of bandaging
- PC16.** respond promptly and appropriately to an accident

Qualification Pack

- PC17.** Use various rescue equipment & techniques and perform rescue activity during an accident in real or simulated environments
- PC18.** demonstrate correct method to rescue injured people and others during an emergency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personnel management and duty reporting procedure
- KU2.** reporting structure within organization
- KU3.** how to escalate problem
- KU4.** concept of hazards and risks during scaffolding work
- KU5.** health condition of individual as well as health and safety hazards commonly affecting the work environment and related precautions
- KU6.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU7.** importance of using protective clothing/equipment while working
- KU8.** working at heights regulations and best practices
- KU9.** various causes of fire
- KU10.** techniques of using different types of fire extinguishers
- KU11.** different materials used for extinguishing fire
- KU12.** various types of safety signs and their significance
- KU13.** various types of rescue equipment and techniques
- KU14.** precautions to be taken to avoid suspension trauma while rescuing a person hanging from harness

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate by writing
- GS2.** read instructions, guidelines/procedures and reports
- GS3.** communicate effectively and share the information efficiently
- GS4.** identify and report potential sources of danger
- GS5.** how to plan the work to meet the deadline

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

NSQC Clearance Date	12/03/2026

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 50% of aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 50

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
