HYC/N9407: Corporate Governance and Ethics in Oil & Gas

Description

This unit is about integration of ethics into finance careers is a key focus, promoting responsible decision-making. Participants develop effective communication strategies for disseminating governance solutions, ensuring transparency and accountability within the dynamic Oil & Gas sector.

Scope

The scope covers the following :

- Corporate Governance Policies and Practices
- Role of Ethics in Financial Decision-Making
- Corporate Governance Challenges and Solutions
- Ethics and Corporate Responsibility in Finance Careers

Elements and Performance Criteria

Corporate Governance Policies and Practices

To be competent, the user/individual on the job must be able to:

- PC1.** Identify the concept of corporate governance and its significance in the Oil & Gas industry
- PC2.** Identify the key components of corporate governance policies and practices specific to Oil & Gas companies.
- PC3.** Analyze the role of the board of directors and executive management in governance

Role of Ethics in Financial Decision-Making

To be competent, the user/individual on the job must be able to:

- PC4.** Illustrate the ethical considerations in financial decision-making within the Oil & Gas sector
- PC5.** Evaluate the potential ethical dilemmas that financial professionals may encounter
- PC6.** Identify the significance of ethics and corporate responsibility in building a successful finance career in the Oil & Gas industry.

Corporate Governance Challenges and Solutions

To be competent, the user/individual on the job must be able to:

- PC7.** Evaluate the impact of ethical decision-making on an organization's reputation and financial performance
- PC8.** Analyze real-world case studies highlighting corporate governance challenges faced by Oil & Gas companies
- PC9.** Propose solutions to address corporate governance issues, considering the unique characteristics of the sector

Ethics and Corporate Responsibility in Finance Careers

To be competent, the user/individual on the job must be able to:

- PC10.** Establish Present findings and solutions in a clear and structured manner
- PC11.** Develop a personal code of ethics for finance professionals in the sector.
- PC12.** Develop a plan for integrating ethical practices into daily financial decision-making

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the basics of office management
- KU2.** the importance of reporting and systematic working
- KU3.** standard operating procedures of organizations while working
- KU4.** relevant health and safety requirements applicable to the Oil & Gas industry
- KU5.** the importance of personal protective equipment used in OMCs
- KU6.** ways of efficiently managing the resources required
- KU7.** the difference between recyclable/reusable and waste material
- KU8.** the concept of Mission Karmayogi
- KU9.** the concept of Swachhata Hi Seva

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret received data
- GS2.** analyze and compare the data
- GS3.** assess complexity and criticality of task
- GS4.** communicate effectively with team members
- GS5.** Proficient in basic mathematical calculation
- GS6.** plan and organize the day-to-day activity

HYC/N9408: Financial Analysis and Reporting

Description

This unit is about financial analysis and reporting

Scope

The scope covers the following :

- Manage communication
- Schedule appointments, coordinate meetings /events, record minutes
- Maintain records and documentation, drafting and editing documents
- Making travel arrangements
- Manage office supplies and equipment, provide general administrative support
- Reporting

Elements and Performance Criteria

Advanced Financial Reporting in Oil & Gas Companies

To be competent, the user/individual on the job must be able to:

- PC1.** Analyze and interpret complex financial reports and disclosures in Oil & Gas firms
- PC2.** Make entries in books of accounts, invoice generation and check scrutiny of invoices in Oil & Gas Companies
- PC3.** analyze the unique reporting challenges and regulatory requirements in the sector
- PC4.** Prepare a comprehensive Budget & forecasting report and financial report(monthly/Quarterly/fortnightly/annually) for an Oil & Gas company

Payroll Management and Its Financial Implications

To be competent, the user/individual on the job must be able to:

- PC5.** understanding of payroll management and its financial aspect in Oil & Gas organizations.
- PC6.** Calculate and analyze payroll costs, including benefits and tax obligations
- PC7.** Work on a payroll management strategy that optimizes cost efficiency

Stock Picking and Its Relevance in Oil & Gas Industry

To be competent, the user/individual on the job must be able to:

- PC8.** Evaluate the significance of stock picking and develop a strategy for Oil & Gas investments
- PC9.** Analyze factors influencing stock performance and investment decisions

Application of Relevant Financial Theories

To be competent, the user/individual on the job must be able to:

- PC10.** Apply financial theories, such as risk assessment and portfolio management, to Oil & Gas scenarios
- PC11.** Utilize financial models for investment analysis in the sector
- PC12.** Identify the economic and market theories relate to Oil & Gas financial decision-making

Industry and Company Analysis in the Oil & Gas Sector

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC13.** Handle statutory payments such as EPF, TDS, GST etc.
- PC14.** Manage bank account, TDS reconciliation at the end of annual year
- PC15.** Conduct industry and company analysis for Oil & Gas organizations & identify key performance indicators (KPIs) and their relevance to the sector
- PC16.** Formulate recommendations based on analysis results

Financial Statement Analysis and Valuation Ratios

To be competent, the user/individual on the job must be able to:

- PC17.** Interpret financial statements specific to Oil & Gas firms
- PC18.** Calculate and assess valuation ratios (e.g., P/E, P/B) for industry analysis
- PC19.** Perform financial statement analysis to determine company financial health

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the basics of office management
- KU2.** the importance of reporting and systematic working
- KU3.** standard operating procedures of organizations while working
- KU4.** relevant health and safety requirements applicable to the Oil & Gas industry

HYC/N9409: Taxation and Regulatory Compliance in Oil & Gas

Description

This unit is about maintaining taxation and regulatory compliance in oil and gas sector.

Scope

The scope covers the following :

- In-depth Analysis of Taxation in Oil & Gas Companies
- Addressing Regulatory Issues and Compliance Requirements
- Strategies for Optimizing Tax Liabilities
- Tax Incentives and Exemptions

Elements and Performance Criteria

In-depth Analysis of Taxation in Oil & Gas Companies

To be competent, the user/individual on the job must be able to:

- PC1.** Identify the various types of taxes applicable to Oil & Gas companies, including income tax, excise tax, and property tax
- PC2.** Analyze the tax implications of different stages of the Oil & Gas value chain, from exploration to production and distribution
- PC3.** Identify and explain the tax codes and regulations specific to the Oil & Gas sector
- PC4.** Calculate and interpret tax liabilities for Oil & Gas companies based on real-world scenarios

Addressing Regulatory Issues and Compliance Requirements

To be competent, the user/individual on the job must be able to:

- PC5.** Identify and explain the key regulatory bodies and agencies governing the Oil & Gas industry
- PC6.** Evaluate the regulatory requirements and reporting obligations for Oil & Gas companies, ensuring compliance with environmental, safety, and financial regulations
- PC7.** Develop strategies to navigate complex regulatory environments while maintaining legal and ethical standards
- PC8.** Create a compliance checklist for an Oil & Gas company to ensure adherence to industry-specific regulations

Strategies for Optimizing Tax Liabilities

To be competent, the user/individual on the job must be able to:

- PC9.** Evaluate tax planning strategies that can be employed to minimize tax liabilities for Oil & Gas companies
- PC10.** Analyze the impact of tax incentives, deductions and credits on the financial performance of Oil & Gas entities
- PC11.** Develop a tax optimization plan for a fictional Oil & Gas corporation, considering both short-term and long-term tax strategies
- PC12.** Assess the ethical considerations in tax optimization and propose solutions that align with corporate responsibility.

Tax Incentives and Exemptions

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC13.** Identify and explain specific tax incentives and exemptions applicable to the Oil & Gas industry, such as research and development credits, investment tax credits, and energy-efficient programs
- PC14.** Evaluate the eligibility criteria for various tax incentives and exemptions and their potential financial benefits
- PC15.** Calculate the potential tax savings resulting from the utilization of tax incentives and exemptions
- PC16.** Develop a tax strategy that leverages available incentives to optimize an Oil & Gas company's tax position

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the work ethic at workplace
- KU2.** the importance of confidential information
- KU3.** standard operating procedures while working in Oil & Gas industry
- KU4.** Legal and ethical obligations related to confidentiality
- KU5.** Types of information that require confidentiality
- KU6.** data protection laws (e.g., Indian Information Technology Act, 2000) and compliance requirements
- KU7.** The importance of updating knowledge of policies and regulations
- KU8.** relevant health and safety requirements applicable to the work place
- KU9.** the importance of personal protective equipment used in Oil & Gas sector
- KU10.** ways of efficiently managing the resources available
- KU11.** the difference between recyclable/reusable and waste material
- KU12.** The concept of Mission Karmayogi
- KU13.** The concept of Swachhata hi Seva.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret data

HYC/N9302: Maintain health, safety and security procedures

Description

This unit covers maintaining health, safety and security procedures at the workplace. This includes procedures and practices that candidates need to follow to help maintain a healthy, safe and secure work environment

Scope

The scope covers the following :

- This unit/task covers the following:
- Practice health and safety measures
- Follow fire safety procedures
- Follow emergencies, rescue and first-aid procedures

Elements and Performance Criteria

Follow health and safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment for specific tasks and work conditions
- PC2.** identify documents, location and people responsible for health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace
- PC4.** carry out safe working practices while dealing with hazards to ensure the safety of self and others
- PC5.** lift heavy objects safely using correct procedures
- PC6.** identify common safety signs, displayed in various areas

Follow fire safety procedures

To be competent, the user/individual on the job must be able to:

- PC7.** use the various appropriate fire extinguishers on different types of fires correctly
- PC8.** follow rescue techniques applied during fire hazard
- PC9.** follow good housekeeping practice in order to prevent fire hazards
- PC10.** list issues concerning the safety in work place
- PC11.** inform fire safety department about any near-miss incidents in the work place
- PC12.** follow the applicable laws, regulations and codes as per safety standard
- PC13.** prepare written accident/incident report and share with the concerned officer/department

Follow emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC14.** provide appropriate first aid to victims in emergency situation
- PC15.** demonstrate basic techniques of bandaging
- PC16.** respond promptly and appropriately to an accident

Qualification Pack

- PC17.** Use various rescue equipment & techniques and perform rescue activity during an accident in real or simulated environments
- PC18.** demonstrate correct method to rescue injured people and others during an emergency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personnel management and duty reporting procedure
- KU2.** reporting structure within organization
- KU3.** how to escalate problem
- KU4.** concept of hazards and risks during scaffolding work
- KU5.** health condition of individual as well as health and safety hazards commonly affecting the work environment and related precautions
- KU6.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU7.** importance of using protective clothing/equipment while working

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
