HYC/Q9601: Industrial Cleaner - Oil & Gas

Brief Job Description

An Industrial Cleaner in the oil and gas industry is responsible for maintaining the cleanliness and hygiene of various facility areas, including offices, control rooms, laboratories, restrooms, common areas, and industrial spaces. This role involves performing a range of cleaning tasks such as sweeping, mopping, dusting, sanitizing surfaces, and disposing of waste. Housekeepers must adhere to strict safety and sanitation protocols, ensuring compliance with industry regulations. They are required to use industrial cleaning equipment and chemicals safely and effectively.

Personal Attributes

Working as an Industrial Cleaner in the oil and gas industry requires specific personal attributes to maintain high standards of cleanliness and safety. Attention to detail is crucial for ensuring a spotless and hazard-free environment. A strong safety consciousness is essential, involving strict adherence to the oil & gas industry protocols. Technical skills, such as using industrial cleaning equipment and understanding cleaning agents, are fundamental. The job also demands attention to detail, physical stamina, and the ability to work independently or as part of a team.

HYC/N9601: Prepare for housekeeping activities

Description

This unit covers the preparations required for performing housekeeping operations. It includes selecting the most appropriate tools and materials for the job and preparing the assigned area for housekeeping.

Scope

The scope covers the following :

- Identify housekeeping requirements, procedures and resources as per areas to be cleaned
- Prepare for housekeeping activities

Elements and Performance Criteria

Identify housekeeping requirements, procedures and resources as per areas to be cleaned

To be competent, the user/individual on the job must be able to:

- PC1.** Check assigned area as per duty roster.
- PC2.** Inspect the area for cleaning.
- PC3.** Assess the frequency of cleaning for each area based on usage levels, and industry standards.
- PC4.** Assess areas for potential safety hazards, such as chemical/oil spills, tripping hazards, or biohazards.
- PC5.** Create detailed cleaning procedures.
- PC6.** Identify guidelines for handling hazardous materials and waste.
- PC7.** Implement safety protocols to protect housekeeping staff.
- PC8.** Arrange personal protective equipment (PPE) and adherence to safety data sheets (SDS) for all cleaning chemicals.
- PC9.** Identify necessary cleaning equipment, tools, and materials needed for each area.
- PC10.** Track the usage of cleaning supplies and equipment to prevent shortages.
- PC11.** Perform regular inspections of cleaned areas to ensure compliance with established procedures and standards.
- PC12.** Collect regular feedback from staff and other personnel on their specific requirements and efficiency of housekeeping practices.

Prepare for housekeeping activities

To be competent, the user/individual on the job must be able to:

- PC13.** Identify specific housekeeping requirements for different areas of the facility in particular control rooms and laboratories.
- PC14.** Create a detailed plan outlining the tasks to be performed, including timelines and priorities.
- PC15.** Communicate with other departments to schedule housekeeping activities at convenient times to minimize disruption.
- PC16.** List down environmental regulations and guidelines for collection of waste material and later disposal.

Qualification Pack

- PC17.** Understand and adhere to all safety protocols and procedures.
- PC18.** Identify appropriate cleaning agents, tools, and equipment needed for various surfaces, areas and types of cleaning required.
- PC19.** Check for adequate supply of cleaning materials.
- PC20.** Set up and prepare any machinery or equipment needed for housekeeping tasks, such as vacuum cleaners, pressure washers, or floor polishers.
- PC21.** Arrange cleaning supplies in an organized manner for easy access during housekeeping activities.
- PC22.** Ensure that tasks are planned at appropriate times to minimize disruption to operations.
- PC23.** Check that all cleaning equipment is in good working condition.
- PC24.** Ensure that equipment is clean, properly maintained, and ready for use.
- PC25.** Ensure an adequate supply of cleaning agents, disinfectants, and other materials.
- PC26.** Check the stock of consumables such as gloves, masks, and waste bags, and ensure they are readily accessible.
- PC27.** Confirm that all necessary personal protective equipment (PPE) is available and in good condition.
- PC28.** Conduct a final check for any potential chemical/oil spill etc in the areas /labs to be cleaned.
- PC29.** Ensure that appropriate measures are in place to mitigate identified risks, such as using wet floor signs and proper ventilation when using chemicals.
- PC30.** Ensure that emergency contact numbers and protocols are clearly communicated.
- PC31.** Confirm that all necessary signs, such as "Wet Floor" or "Closed for Cleaning," are available and will be used appropriately.
- PC32.** Verify that all required documentation, such as checklists and cleaning logs, is prepared and ready for use.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Basic knowledge of the oil and gas industry's operations and the types of facilities where housekeeping services are required.
- KU2.** Legislation, standards, policies, and procedures followed in the company relevant to own employment and plants & equipments
- KU3.** Compliance requirements for handling and disposing of hazardous materials particular chemicals/oil.
- KU4.** How to identify and mitigate potential hazards in various cleaning environments.
- KU5.** Proper use, storage, and disposal of cleaning chemicals and agents.
- KU6.** Occupational health risks associated with housekeeping tasks, such as exposure to chemicals and repetitive motion injuries.
- KU7.** Various cleaning methods and techniques suitable for different types of surfaces and environments.
- KU8.** Cleaning procedures required for industrial areas, including oil spills and equipment cleaning.
- KU9.** Routine maintenance procedures to ensure equipment is in good working condition.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret instructions, procedures, information and signs relevant to housekeeping activities in the workplace.
- GS2.** communicate effectively and share information efficiently.
- GS3.** read instructions, guidelines/procedures and reports.
- GS4.** communicate effectively with team members.
- GS5.** interpret and follow operational instructions and prioritize work
- GS6.** operate various cleaning equipment proficiently.
- GS7.** Manage time effectively to balance multiple tasks and responsibilities.

HYC/N9602: Clean Premises, Buildings & Laboratories

Description

This unit covers cleaning of floors as well as toilets and rest-rooms in different areas of an oil & gas industry. This unit also includes housekeeping activities to be undertaken in the laboratories, control rooms, pantry and kitchen area as per standard protocols.

Scope

The scope covers the following :

- Clean floors, toilets and washrooms
- Clean control rooms, laboratories, canteen and kitchen area
- Perform assigned housekeeping, responsibilities and reports.

Elements and Performance Criteria

Clean floors, toilets and washrooms

To be competent, the user/individual on the job must be able to:

- PC1.** Select appropriate cleaning tools and chemicals based on the floor type and soil content.
- PC2.** Choose the appropriate technique for eliminating dust and debris based on the floor and amount involved.
- PC3.** Remove any large pieces of debris by hand with cautious
- PC4.** Apply proper cleaning solutions to remove unrecognised stains.
- PC5.** Use suitable cleaning agents and methods as per the floor type e.g., mopping for hard floors, vacuum cleaning for carpets etc
- PC6.** Ensure that the floor and its surroundings are dry and free of stains after cleaning.
- PC7.** Remove any dirt, soil etc without causing any damage to the surface.
- PC8.** Put up appropriate warning signs, such as "Wet Floor," to alert personnel of the cleaning activities.
- PC9.** Ensure the floor is dry and safe to walk on before removing warning signs.
- PC10.** Inform the supervisor of any stains that are impossible to remove.
- PC11.** Gather all required cleaning materials, including disinfectants, scrub brushes, mops, and protective gear required for toilets & washrooms.
- PC12.** Display appropriate signage to indicate that the restroom is temporarily closed for cleaning.
- PC13.** Clean and disinfect all surfaces, including sinks, countertops, mirrors, and fixtures.
- PC14.** Pay special attention to high-touch areas such as door handles, faucet handles, and dispensers.
- PC15.** Thoroughly clean and disinfect toilets and urinals, including bowls, seats, and flush handles.
- PC16.** Use appropriate cleaning agents to remove stains, buildup, and odors.
- PC17.** Sweep and mop the restroom floor with a suitable disinfectant solution.
- PC18.** Ensure the floor is thoroughly dried to prevent slips and falls.
- PC19.** Verify that the toilets are emptying and flushing freely.

Qualification Pack

- PC20.** Report any flaws or issues to the relevant person.
- PC21.** Replenish washroom holders with appropriate number of consumables
- PC22.** Refill soap dispensers, paper towel holders, toilet paper, and other necessary supplies as per organization procedure.
- PC23.** Ensure that all dispensers are functioning correctly.
- PC24.** Report any shortages of goods to the relevant staff member.
- PC25.** Make entry in to the log maintained on the doors by writing name, date & time of cleaning.

Clean control rooms, laboratories, canteen and kitchen area

To be competent, the user/individual on the job must be able to:

- PC26.** Identify and evaluate every surface and pieces of equipments that need to be cleaned in the control rooms & laboratories.
- PC27.** Ensure that control panels are not disturbed while cleaning the control room area.
- PC28.** Identify proper tools to be used for cleaning tables holding computers, control monitors etc.
- PC29.** Check condition of equipments and other accessories in the laboratories and do not temper while cleaning.
- PC30.** Identify any spillage of chemicals /oil etc in the lab surfaces.
- PC31.** Ensure that cleaning operation in the control room and laboratories are performed in the presence of concerned FPR (First Person Responsible) officer/staff and follow his/her instructions.
- PC32.** Use adsorbents required to clean any major oil / chemical spill.
- PC33.** Ensure proper disposal of used absorbent after cleaning.
- PC34.** Follow all safety protocols while working in the labs.
- PC35.** Use proper PPEs, helmet etc while working in labs, process area.
- PC36.** Identify locations of washing pots, dishes, still areas, areas for disposing of garbage, storage spaces, areas for serving and delivering food, ovens, kitchen chimneys, and appliances.
- PC37.** Clean various kitchen accessories in accordance with the establishment's specifications.
- PC38.** Clear the canteen's floor, tables, and seats, making sure that no food remains spilled on them.
- PC39.** Regularly wipe the area near the drinking water facility and restock water and glasses as needed.
- PC40.** Clean the Chimney & other appliances in accordance with the manufacturer's instructions or standard operating procedures.
- PC41.** Gather trash and kitchen waste to be disposed of in accordance with company guidelines.
- PC42.** Identify correct container for different types of dry & wet waste, garbage and debris for disposal, and Understand correctly cover, clean and locations of the garbage bins.
- PC43.** Maintain hygiene in accordance with the organisation protocols.
- PC44.** Contact the supervisor of any changes or hazards found in the kitchen area.

Perform assigned housekeeping, responsibilities and reports.

To be competent, the user/individual on the job must be able to:

- PC45.** Carry out allocated cleaning tasks in accordance with workplace policies.
- PC46.** Ensure proper collection and disposal of waste material.

Qualification Pack

- PC47.** Check cleaning equipments are dry, clean, and functioning properly, before and after the job is done.
- PC48.** Adopt necessary measures to rectify problems with any items.
- PC49.** Notify to the supervisor of any damaged equipment that require change, repair or maintenance.
- PC50.** Maintain up to date housekeeping task checklists and records.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Basic knowledge of Occupational Health and Safety Procedures and Guidelines for Housekeeping Operations.
- KU2.** Procedures and rules for cleaning floors in the workplaces like industrial establishments.
- KU3.** Procedures for storing, servicing, and maintaining cleaning equipment and supplies.
- KU4.** risks involved while performing cleaning tasks in control rooms, laboratories, hazardous areas.
- KU5.** Related precautions to control any accident.
- KU6.** variety of cleaning supplies and tools available, as well as area specific requirements.
- KU7.** how to protect oneself and others throughout the cleaning process.
- KU8.** kinds of flaws and issues that one could encounter in the areas and how to resolve them.
- KU9.** Importance of using personal protection equipment in an industrial establishment.
- KU10.** organization's requirements and safety policies/guidelines.
- KU11.** different kitchen appliances and how to handle them when cleaning.
- KU12.** how to connect and disconnect electrical devices while cleaning.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** understand and comprehend guidelines, protocols, data, and notices pertaining to workplace housekeeping tasks.
- GS2.** interpret, adhere to, and prioritize work according to operational instructions.
- GS3.** Effective interpersonal communication and team work.
- GS4.** time management compliance with work schedules, clothing codes, and other company regulations.
- GS5.** Consider the issue, assess the potential remedy or solutions, and recommend the best or most optimal option.
- GS6.** complete documentation as per work requirements.
- GS7.** Adhere to safety protocols.

HYC/N9603: Clean furniture and surfaces in common areas

Description

This unit focus on cleaning of furniture, upholstery, fixtures, and other vertical surfaces like walls, windows, doors, and interior glass surfaces as well as keeping the designated area clean and organized, as well as public spaces including entrances, elevators, lobby areas, and public restrooms.

Scope

The scope covers the following :

- Clean furniture and upholstery
- Clean vertical spaces, fittings and internal glass windows/facades
- Clean desktops, workstations and office areas

Elements and Performance Criteria

Clean Furniture and upholstery

To be competent, the user/individual on the job must be able to:

- PC1.** Remove any dust or debris.
- PC2.** Identify if the material for furniture is shrink-resistant and colourfast.
- PC3.** Find and report surfaces that are deteriorating or damaged, as well as those that would need restoration work.
- PC4.** Inspect the treated area and apply additional treatment if necessary to properly remove the stain.
- PC5.** Ensure that there are no offensive Odors in the furnished areas.
- PC6.** Remove any extra moisture and soil from the material.
- PC7.** Select a cleaning solution and tools based on the kind of furniture.
- PC8.** Combine and evenly distribute the cleaning agent or solution.
- PC9.** After the task is done, return everything to its original location.
- PC10.** Segregate and manage the trash in a safe and responsible manner.
- PC11.** Ensure that trash containers are delivered to the appropriate collection and disposal location in a safe manner.

Clean vertical spaces, fittings and internal glass windows / facades

To be competent, the user/individual on the job must be able to:

- PC12.** remove stubborn filth from the glass surface without damaging.
- PC13.** Remove loose dust and debris, ensuring that it disperses as little as possible.
- PC14.** clean the interior walls to ensure that they are free of dust, cobwebs, dirt, grease, marks, and stains.
- PC15.** Use appropriate cleaning agents to wipe down glass surfaces.
- PC16.** After cleaning, confirm that the heating, lighting, and ventilation systems are adjusted appropriately.

Qualification Pack

PC17. Place everything back in its proper location after completing the task effectively, accurately, and safely.

PC18. Ensure use of proper safety gears while cleaning glass facades.

Clean desktops, workstations and office area

To be competent, the user/individual on the job must be able to:

PC19. Ensure thorough cleaning, particularly on high-touch areas such as tabletops, chair arms, and handles.

PC20. Use the proper dusters and cleaning agents to clean workstations, desktops, printers, phones, and other items.

PC21. Ensure that any papers and documents kept on the office table and workstations are not disturbed.

PC22. Empty waste containers and dispose it properly.

PC23. Ensure that all displays, including signs, racks, decorations, photos, statues, and show cases, are neat, organized, and updated.

PC24. Observe and report any issues, such as broken lights or damaged furniture and fixtures, to the supervisor.

PC25. Identify & report any unclaimed objects

PC26. Ensure that the passages are clear of any obstructions and are clean & tidy.

PC27. Follow industrial safety and security protocols.

PC28. Select the appropriate cleaning tools and supplies for the area that needs to be cleaned.

PC29. Post warning signs for potential hazards when needed.

PC30. Put on PPEs and safety gear when needed.

PC31. Store the cleaning supplies properly and securely after use.

PC32. Ensure that allocated cleaning tasks is completed on time.

PC33. Fill out logs to document Name, date, time of the cleaning jobs performed in accordance with workplace protocols and make sure the space is clean.

PC34. Verify that all work locations meet the necessary workplace standards after the cleaning is completed.

PC35. Report to supervisor once cleaning jobs are completed.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. legislation, standards, rules, and procedures followed in the company.

KU2. Relevant workplace regulations pertaining to occupational health and safety.

KU3. significance of working in a clean and safe workplace.

KU4. Procedure for storing, maintaining, and servicing cleaning supplies and equipment.

KU5. The risks associated with working at height and safety protocols to be followed.

KU6. the types of issues that can arise when washing windows and facades and how to handle these Guidelines for furniture placement.

KU7. Problems that may arise when cleaning and how to handle them on your own or report them.

KU8. How and when to wear protective clothes.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and comprehend guidelines, records, notices, and instructions pertaining to workplace housekeeping duties.
- GS2.** Complete all paperwork in accordance with work requirements.
- GS3.** Engage in good guest communication.
- GS4.** Adhere to organizational etiquette when interacting with employees, service providers and coworkers.
- GS5.** Plan, prioritize, and arrange tasks in accordance with job specifications.
- GS6.** Gather and evaluate work-related information.
- GS7.** significance of adhering to established guidelines, protocols, directives, and policies.
- GS8.** Consider the issue, assess the potential solution(s), and recommend the best or most optimal option(s).
- GS9.** Ask questions to reduce inconsistencies.

HYC/N9604: Collect and dispose waste properly.

Description

This unit addresses appropriate garbage collection and disposal, which entails moving waste to a collection or disposal location, removing it, and sorting it in accordance with corporate guidelines or standard procedures.

Scope

The scope covers the following :

- Remove, segregate and dispose waste

Elements and Performance Criteria

Remove, segregate and dispose waste

To be competent, the user/individual on the job must be able to:

- PC1.** Identify different types of waste generated in offices/buildings.
- PC2.** List down different types of waste material generated in laboratories and industrial spaces.
- PC3.** Various types of waste generated in oil and gas operations, including drilling muds, produced water, drilling cuttings, chemicals, sludges, and solid wastes.
- PC4.** Recognise which nature is hazardous in nature.
- PC5.** Identify and segregate waste material types e.g. paper, cardboard, metal, glass, plastic, oils/chemicals etc.
- PC6.** Segregate dry waste and wet waste.
- PC7.** Identify different coloured waste bins for putting different waste types.
- PC8.** Understand proper storing of oil and chemicals waste materials.
- PC9.** Identify special storage containers for storing oil and chemical waste materials.
- PC10.** Identify proper labels required for different types of oil and chemical waste materials.
- PC11.** Know not to mix up different types of oil and chemical waste materials.
- PC12.** Wear proper safety gear depending on the garbage being handled.
- PC13.** remove garbage from the places that need to be cleaned safely, in accordance with guidelines, instructions, and best practices.
- PC14.** Gather waste as directed, keeping everything tidy and free of spills.
- PC15.** Make sure waste is disposed of safely by classifying and separating it based on its type.
- PC16.** minimize the amount of waste by disassembling, condensing, or shredding as required.
- PC17.** Collect trash and place it in designated bins or suitable waste containers.
- PC18.** Clean the trash cans if they're dirty.
- PC19.** Replace trash bags regularly and swiftly when they are full to prevent unpleasant odors.
- PC20.** maintain waste areas and their contents clean, orderly, and immaculate at all times.
- PC21.** Ensure that the locations of cleaning activities are free of any waste that shouldn't be left there

Qualification Pack

- PC22.** Ensure that waste containers are securely transported to the designated collection location and, if needed, are made secure.
- PC23.** complete records in accordance with the unit's policies to keep a waste audit trail.
- PC24.** Determine and report issues related to garbage collection and storage in accordance with company protocols.
- PC25.** follow the directives and standards pertaining to environmental, health, and safety, as well as law and regulation.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Laws, regulations, corporate rules, and practices
- KU2.** appropriate occupational health and safety regulations that are relevant to the workplace.
- KU3.** Understanding of safe handling practices for different types of waste materials, including protocols for containment, storage, transportation, and disposal.
- KU4.** Local regulations governing waste management in the oil and gas sector.
- KU5.** techniques for characterizing waste streams, including identifying chemical composition, toxicity, and physical properties.
- KU6.** waste minimization strategies aimed at reducing the generation of waste at its source.
- KU7.** how to deal with spillages correctly.
- KU8.** Usage of right PPEs given the type of waste involved

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and comprehend guidelines, forms, notices, and instructions pertaining to workplace cleanliness duties.
- GS2.** evaluate, adhere, and prioritize work in accordance with operational instructions
- GS3.** communicate politely and appropriately with coworkers and service providers in accordance with company protocols.
- GS4.** Skill in maintaining accurate records of waste generation, handling, and disposal activities.
- GS5.** Understanding of the potential environmental impacts of improper waste management practices.
- GS6.** Consider the issue, assess the potential remedy or solutions, and recommend the best or most optimal option.

HYC/N9605: Report, record and prepare documentations

Description

This unit covers reporting, documenting, and creating necessary paperwork in accordance with the housekeeping protocols of the company, including checklists, status reports, and inventory reports.

Scope

The scope covers the following :

- Fill up checklists, registers & log books as per procedure

Elements and Performance Criteria

Fill up checklists, registers and log books as per procedure

To be competent, the user/individual on the job must be able to:

- PC1.** Follow established procedures, guidelines, or protocols for filling up the checklist or register, ensuring consistency and alignment with organizational requirements.
- PC2.** Fill up the checklist or register in a timely manner, adhering to specified deadlines or schedules to maintain operational efficiency and compliance.
- PC3.** Adhere to established documentation standards, including formatting, terminology, units of measurement, and data presentation, to ensure consistency and clarity.
- PC4.** Report any mishaps or situations that require the attention of higher authorities.
- PC5.** ensure that the data presented in the report leads to legitimate conclusions.
- PC6.** record unfinished tasks in the log book.
- PC7.** fill the description of the work completed throughout the shift.
- PC8.** Complete the register to document attendance in accordance with the duty roster.
- PC9.** Clearly outline the escalation pathway or chain of command for unresolved problems.
- PC10.** Record all escalations and unresolved problems in the log book.
- PC11.** monitor the issue and report to the supervisor about about any progress or delays in the issue's resolution.
- PC12.** refer the problem to a qualified internal specialist if it cannot be resolved.
- PC13.** create regular reports and papers, such as duty rosters, in accordance with the organization's policies

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Familiarity with industry-specific standards, guidelines, and best practices related to reporting, recording, and documentation.
- KU2.** Individuals and their duties in the workplace
- KU3.** significance and intent of documentation in relation to work

Qualification Pack

HYC/N9302: Maintain health, safety and security procedures

Description

This unit covers maintaining health, safety and security procedures at the workplace. This includes procedures and practices that candidates need to follow to help maintain a healthy, safe and secure work environment

Scope

The scope covers the following :

- This unit/task covers the following:
- Practice health and safety measures
- Follow fire safety procedures
- Follow emergencies, rescue and first-aid procedures

Elements and Performance Criteria

Follow health and safety measures

To be competent, the user/individual on the job must be able to:

- PC1.** use protective clothing/equipment for specific tasks and work conditions
- PC2.** identify documents, location and people responsible for health and safety in the workplace
- PC3.** identify possible causes of risk or accident in the workplace
- PC4.** carry out safe working practices while dealing with hazards to ensure the safety of self and others
- PC5.** lift heavy objects safely using correct procedures
- PC6.** identify common safety signs, displayed in various areas

Follow fire safety procedures

To be competent, the user/individual on the job must be able to:

- PC7.** use the various appropriate fire extinguishers on different types of fires correctly
- PC8.** follow rescue techniques applied during fire hazard
- PC9.** follow good housekeeping practice in order to prevent fire hazards
- PC10.** list issues concerning the safety in work place
- PC11.** inform fire safety department about any near-miss incidents in the work place
- PC12.** follow the applicable laws, regulations and codes as per safety standard
- PC13.** prepare written accident/incident report and share with the concerned officer/department

Follow emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC14.** provide appropriate first aid to victims in emergency situation
- PC15.** demonstrate basic techniques of bandaging
- PC16.** respond promptly and appropriately to an accident

Qualification Pack

- PC17.** Use various rescue equipment & techniques and perform rescue activity during an accident in real or simulated environments
- PC18.** demonstrate correct method to rescue injured people and others during an emergency

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 50% of % aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 50

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
