IES/Q0110: Crawler Crane Operator

Brief Job Description

A Crawler Crane Operator operates a moving crane to lift, move, position, and reposition loads. He is responsible for operating crawler crane to move, locate, relocate, stack and count merchandise.

Personal Attributes

This job requires the individual to have good hand eye coordination as also comply with industry regulations. Willingness to work, strong work ethics and courteous behaviour with co workers are equally desirable. He should also be physically agile, strong, have good eye sight and not suffer from colour-blindness.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [IES/N0128: Carry out pre operation checks on crawler crane](#)
2. [IES/N0129: Operate crawler crane](#)
3. [IES/N0130: Carry out routine maintenance and troubleshooting of crawler crane](#)
4. [IES/N7601: Comply with worksite health and safety](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

IES/N0128: Carry out pre operation checks on crawler crane

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for activities that need to be carried out to prepare the Crawler crane for operation.

Scope

The scope covers the following :

- Pre-operation checks
- Documentation and Reporting

Elements and Performance Criteria

Pre-Operation Checks

To be competent, the user/individual on the job must be able to:

- PC1.** adhere to time limits given by supervisor
- PC2.** visually inspect entire machine for: cracks in welds or structural components Excessive rust, corrosion or oxidation Dents or damage to machine
- PC3.** ensure that all decals are legible and in place as per operation manual
- PC4.** check any hydraulic oil leaks and make sure that the oil level is adequate according to the manufacturer's indication
- PC5.** ascertain proper oil level as per manufacturers indicator
- PC6.** Examine the battery for leaks and ensure that the fluid level is correct according to the manufacturer's indicator
- PC7.** check for engine oil leaks and fluid levels as indicated by the manufacturer's indication
- PC8.** check the holding and control breaks to ensure that they are functioning properly
- PC9.** Ensure proper fuel and fluid levels as per manufacturer's indicator
- PC10.** check the following components for damage, improperly installed or missing parts as per the manufacturer s manual: Electrical components, wiring and electrical cables Hydraulic power unit, reservoir, hoses, fittings, cylinders and manifolds Platform, tower, turntable, scissor stack structures, their components and wear pads, lights and reflectors
- PC11.** Get the following components checked as per operation manual: Hoist Limit switches Pins, nuts, bolts and other fasteners Hitch components Safety chains Engines their fuel systems and related components Hoist Crawler track Personal protective devices
- PC12.** ensure that all structural and other critical components are present as per operation manual
- PC13.** check that all associated fasteners and pins are in position and properly fastened in accordance with the operating handbook
- PC14.** keep inspection/maintenance logbook in which all actions conducted prior to operating the crane are recorded

Documentation and Reporting

To be competent, the user/individual on the job must be able to:

- PC15.** if a defect is found that is outside the scope of his duty, notify the supervisor immediately

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organizations procedures and guidelines related to breakdown & maintenance services
- KU2.** understand the importance of routine maintenance checklist
- KU3.** common hazards in the work area and workplace procedures to deal with them
- KU4.** safety policy of the company
- KU5.** emergency organization of the specific work site
- KU6.** risk and impact of not following defined procedures/ work instructions
- KU7.** the company's performance criteria and processes
- KU8.** reporting structure in the company
- KU9.** escalation matrix for reporting unresolved problems
- KU10.** schedule for resolving the complaint/problem
- KU11.** implications of delays in process to the company
- KU12.** cost of equipment and loss for the company that result from damage of equipment and direct/ indirect cost of accidents
- KU13.** review mechanism and work goals with supervisor for obtaining/ giving feedback related to performance process
- KU14.** location of tools
- KU15.** contact person in case of queries on procedure or products
- KU16.** location and procedure for storage and disposal of waste material
- KU17.** different types of cranes and their applications and functions
- KU18.** working of engine, transmission, their use and function
- KU19.** various types of hydraulic mechanisms
- KU20.** the relevance of greasing and oiling crane components that require routine lubrication
- KU21.** the location and operation of instrument
- KU22.** hoists mechanism and its usage
- KU23.** controls, levers and switches in order to operate the crane properly
- KU24.** engine, hydraulic & electrical functions of a crawler crane
- KU25.** ways to find leaks, defects and damages in advance

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** keep note of any deviations or occurrences that do not conform to the established criteria
- GS2.** read and comprehend basic English in order to read and interpret machine/manual operator's decals/indicators
- GS3.** read instructions, guidelines/procedures/rules related to the worksite and equipment operations
- GS4.** communicate efficiently with operators to explain instructions and other concerned people

Qualification Pack

- GS5.** when communicating with the operator and other employees, use appropriate technical terms
- GS6.** decide when to conduct maintenance checks
- GS7.** work with supervisors/ team mates to carry out work related tasks
- GS8.** plan work according to the required schedule and location
- GS9.** plan for cleaning and lubricating the crawler crane every day
- GS10.** deliver first-class service to ensure client satisfaction
- GS11.** identify immediate or temporary solutions to resolve mechanical issues
- GS12.** judge when to seek assistance from supervisor
- GS13.** identify cause and effect relations in his area of work
- GS14.** examine, evaluate and apply knowledge acquired from observation, experience, logic or communication in order to act efficiently

IES/N0129: Operate crawler crane

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for activities that are required for operating a Crawler Crane.

Scope

The scope covers the following :

- Start Crawler Crane operations
- Lifting the load and stacking it

Elements and Performance Criteria

Start Crawler Crane operations

To be competent, the user/individual on the job must be able to:

- PC1.** plan and organise the work in accordance with the instructions
- PC2.** position the hook in accordance with the operations handbook to attach the sling, shackle and chains
- PC3.** start the engine as specified in the manufacturer's operating manual
- PC4.** ensure coolant and hydraulic fluid warm up to operating temperatures as per operating manual
- PC5.** examine the assembly and confirm that all necessary safety precautions have been taken in accordance with the safety guidelines

Loading and hauling of the load

To be competent, the user/individual on the job must be able to:

- PC6.** use the emergency stop button to disable all power to the crawler crane in case of a crisis, as per operator manual
- PC7.** ensure safe working load as per operation manual
- PC8.** check wind speeds are within the crane's operational limits
- PC9.** select the appropriate hook, jib, as per the load, site and lift conditions
- PC10.** ensure appropriate boom extension as per operation manual
- PC11.** hoist and release the load at a small height to check the holding and control breaks are functioning properly, ahead of the actual lifting
- PC12.** carry out lifting of load in coordination with rigger as per the requirement
- PC13.** monitor stability whilst moving a load
- PC14.** ensure good visibility of both ends of the crane arm at all times
- PC15.** ensure no obstacles, personnel or other obstructions during lifting operation
- PC16.** look out for people working and hazards such as trenches, potholes and cables
- PC17.** adhere to time limits given by the supervisors
- PC18.** perform in-operation visual checks on critical temperature and pressure gauges as per operation manual

Qualification Pack

- PC19.** select and use the right type of brake in different situations and conditions as per the operation manual
- PC20.** ensure that walkway rules e.g. operating the crane within the permissible/ allocated areas are followed
- PC21.** utilize judiciously various signaling devices available in the crane
- PC22.** keep a safe distance from other plant or vehicles
- PC23.** work safely in accordance with operational requirements and associated safe systems of work

Stacking

To be competent, the user/individual on the job must be able to:

- PC24.** discharge the load safely at the position and in the manner designated by the supervisor
- PC25.** follow the instructions by the rigger
- PC26.** operate and control the boom and extensions as per operation manual
- PC27.** ensure that the laydown area is large enough to support the load
- PC28.** ensure laydown area is clear of any obstruction and
- PC29.** ensure that no other operators travel on or stand near the crawler crane
- PC30.** inform supervisor/rigger of any problems while operating the crawler crane
- PC31.** when the equipment is left unattended, make sure it is properly shut down and secured

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organizations procedures and guidelines related to breakdown & maintenance services
- KU2.** the performance standards & procedures followed in the company
- KU3.** reporting structure in the company
- KU4.** escalation matrix for reporting unresolved problems
- KU5.** time frame in which the complaint/problem should be resolved
- KU6.** work target and review mechanism with supervisor for obtaining / giving feedback related to performance process
- KU7.** location of tools
- KU8.** contact person in case of queries on procedure or products
- KU9.** location and process for storage and disposal of waste material
- KU10.** safety policy of the company
- KU11.** equipment load capacity limitations
- KU12.** methods to read load charts and accurately determine the load to be lifted
- KU13.** terrain appropriate for crawler crane function
- KU14.** the causes of equipment related accidents and associated preventative measures
- KU15.** the manufacturers criteria for equipment operations
- KU16.** the manufacturers criteria for equipment modifications
- KU17.** method of appropriate rigging hardware and slings
- KU18.** usage of different types of rigging configurations

Qualification Pack

- KU19.** load hook-up points
- KU20.** types of material, methods and tools involved in the construction or repair of buildings, roads, heavy engineering equipment, oil wells, metro etc. where cranes are used
- KU21.** techniques of hoisting operation
- KU22.** the method of checking holding and control brakes
- KU23.** method of safe rigging
- KU24.** usage of rigging hardware and tool
- KU25.** multi-crane operations
- KU26.** conditions and hazards that may impact crane stability
- KU27.** crane tipping prevention techniques
- KU28.** methods to communicate through hand signals
- KU29.** government regulations and other regulations imposed by crane safety standards
- KU30.** introduction to engine, transmission, their use and function
- KU31.** various types of hydraulic mechanisms
- KU32.** instruments panel, their location and operation
- KU33.** controls, levers and switches in order to operate the crawler crane properly
- KU34.** visual checks to identify damage, defects or leaks beforehand
- KU35.** usage of all safety signs and other emergency signals
- KU36.** the location and use of the emergency stop button

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** keep note of any deviations or occurrences that do not conform to the established criteria
- GS2.** read and comprehend basic English in order to read and interpret machine/manual operator's decals/indicators
- GS3.** interpret stakes and signage on the road and during worksite operations
- GS4.** read instructions, guidelines/procedures/rules related to the worksite and equipment operations
- GS5.** give clear instructions to co-workers, subordinates and other personnel
- GS6.** use correct technical terms while interacting with supervisor
- GS7.** assess for any damage/faulty component in the crawler crane and take action accordingly
- GS8.** decide when to perform appropriate driving operations i.e forward, reverse, tight spot
- GS9.** work with supervisors/team members to complete job-related tasks
- GS10.** plan work according to the required schedule and location
- GS11.** plan for regular maintenance on a daily basis before machine operations
- GS12.** provide service of the highest order to ensure customer satisfaction
- GS13.** identify immediate or temporary solutions to resolve mechanical issues
- GS14.** judge when to seek assistance from supervisor
- GS15.** identify possible ways to improve operational efficiency

Qualification Pack

- GS16.** suggest methods to avoid accidents/errors while operating the crawler crane
- GS17.** examine, evaluate and apply knowledge acquired from observation, experience, logic or communication in order to act efficiently

IES/N0130: Carry out routine maintenance and troubleshooting of crawler crane

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for activities that are required for performing routine maintenance and troubleshooting on the Crawler Crane.

Scope

The scope covers the following :

- Routine Maintenance
- Basic Diagnostics and Maintenance

Elements and Performance Criteria

Routine maintenance

To be competent, the user/individual on the job must be able to:

- PC1.** by monitoring the machine working hours plan the correct service schedule
- PC2.** check crane structure and the following accessories as per operation & maintenance manual
- PC3.** check crane structure for deformed, cracked or corroded members in the structure and boom loose bolts or rivets excessive wear on brake and clutch system parts, deformed wedges, defective cotter keys, pins and guard rails
- PC4.** check for the following in hydraulic system of Crane as per operation & maintenance manual: Deterioration or leakage in air or hydraulic systems, safe and effective operation on hoses, pumps and motors, Levels of fluid, Air cleaners for replacement or cleaning
- PC5.** check for the following Control Mechanisms and Monitoring Devices as per operation & maintenance manual: Cables, brakes and levers for poor adjustment or excessive wear. Marking on the load/radius indicator over full range. Load moment indicator, Boom angle indicator, Boom length indicator and Anti two-block system
- PC6.** check crawler track as per operation manual
- PC7.** check wire ropes for wear and tear
- PC8.** Check the following in the main boom as per operation manual lift cylinder(s) telescoping cylinder(s) hydraulic hoses / tubing & fittings holding device boom sections alignment auxiliary boom head and structure
- PC9.** Check the following in the Lattice boom extension boom extension alignment cords lattices end connections
- PC10.** replenish coolants, lubricants and fluids as per operation & maintenance manual
- PC11.** grease all greasing pins and pivot points as per operation & maintenance manual
- PC12.** check battery levels and condition of the terminals and carry out minor adjustments as per manufacturer's indicators

Basic diagnostics and troubleshooting

To be competent, the user/individual on the job must be able to:

- PC13.** track machine operating hours to assess the right service schedule

Qualification Pack

- PC14.** complete timely and legibly daily/ weekly maintenance sheets as provided by the company
- PC15.** ensure that suitable props/ support devices are used and the bucket is not raised while performing maintenance
- PC16.** make certain that no engine repair is conducted while the engine is running or remains hot
- PC17.** assess when the problem is beyond his competence and report the problem to suitably qualified and competent personnel
- PC18.** diagnose the problem
- PC19.** handle and dispose waste based on environmental guidelines at the work place
- PC20.** follow reporting procedures as laid down by the employer
- PC21.** complete all documentation in the prescribed standards in a timely manner
- PC22.** report and escalate problems/ incidents as required in a timely manner
- PC23.** report defects precisely to the supervisor if beyond scope of his role

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organizations procedures and guidelines related to breakdown & maintenance services
- KU2.** the performance standards & procedures followed in the company
- KU3.** reporting structure in the company
- KU4.** escalation matrix for reporting unresolved problems
- KU5.** schedule for resolving the complaint/problem
- KU6.** work objective and review procedure with supervisor for obtaining/giving feedback on performance process
- KU7.** location of tools
- KU8.** contact person in case of queries on procedure or products
- KU9.** location and process for storage and disposal of waste material
- KU10.** safety policy of the company
- KU11.** various components of the equipment and their functions
- KU12.** control and switches needed to operate the crawler crane properly
- KU13.** the underlying physics and mechanics involved in the crawler crane's various functions
- KU14.** common defects and general causes of breakdown
- KU15.** response to emergency situations
- KU16.** the optimal levels of control indicators e.g. fuel gauge, engine oil pressure and temperature
- KU17.** possible sources of any unusual sound emanating from the engine

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** keep note of any deviations or occurrences that do not conform to the established criteria
- GS2.** read and comprehend basic english to read manuals of operations

Qualification Pack

- GS3.** read instructions, guidelines/procedures/rules related to the worksite and equipment operations
- GS4.** communicate efficiently with operators to explain instructions and other concerns
- GS5.** when communicating with the operator and other employees, use appropriate technical terms
- GS6.** decide when to conduct maintenance checks
- GS7.** evaluate the decision and conduct basic trouble shooting
- GS8.** work with supervisors/ team mates to carry out work related tasks
- GS9.** plan work according to the required schedule and location
- GS10.** plan for regular maintenance on a daily basis before machine operations
- GS11.** deliver first-class service to ensure client satisfaction
- GS12.** identify immediate or temporary solutions to resolve mechanical issues
- GS13.** judge when to seek assistance from supervisor
- GS14.** identify possible ways to improve operational efficiency
- GS15.** check for damages and diagnose common problems in the crawler crane and take relevant action
- GS16.** examine, evaluate and apply knowledge acquired from observation, experience, logic or communication in order to act efficiently

IES/N7601: Comply with worksite health and safety

Description

This unit is about adhering to health and safety requirements at the worksite during equipment operations.

Scope

The scope covers the following :

- Worksite health and safety

Elements and Performance Criteria

Worksite health and safety

To be competent, the user/individual on the job must be able to:

- PC1.** Comply with safety, health, security and environment related regulations/guidelines at the work site
- PC2.** use personal protective equipment (ppe) and other safety gear as applicable to the equipment and the worksite
- PC3.** Follow safety measures during operations to ensure that the health and safety of self or others (including members of the public) is not at risk
- PC4.** Carry out operations as per the manufacturer's and worksite related health and safety guidelines
- PC5.** Handle the transport, storage and disposal of hazardous materials and waste in compliance with worksite health, safety and environmental guidelines
- PC6.** operate various grades of fire extinguishers, as applicable
- PC7.** support in administering basic first aid and report to concerned team members, as required, in case of an accident
- PC8.** respond promptly and appropriately to an accident/ incident or emergency, within limits of your role and responsibility
- PC9.** record and report details related to operations, incidents or accidents, as applicable

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health, safety, environmental (HSE) and security related policies/guidelines of the organization and the worksite and its importance
- KU2.** personnel responsible for health, safety and environment (HSE) related matters and their contact details
- KU3.** location of worksite storage, site team and safe assembly points
- KU4.** reporting and documentation procedures for HSE and security matters
- KU5.** manufacturers guidelines related to health and safety requirements

Qualification Pack

- KU6.** common types of health, safety, environment and security risks related to the worksite and operations
- KU7.** types, use and importance of personal protective equipment (PPE) and other safety gear
- KU8.** safe working practices to avoid common hazards and risks
- KU9.** guidelines for transport, storage and disposal of hazardous materials and waste
- KU10.** types of common hazards and risks at the worksite including fire, electrical, gas emergencies, accidents, incidents, structure collapse, machine breakdown
- KU11.** knowledge of safe lockdown/stop of machinery use in case of emergencies and incidents/accidents
- KU12.** types of fire extinguishers and their use
- KU13.** common injuries and appropriate basic first aid treatment e.g. electrical shock, bleeding, wounds, fractures, minor burns, eye injuries

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document and report any health and safety related incidents/accidents
- GS2.** read and comprehend basic English to read manuals of operations
- GS3.** read all organizational and equipment related health and safety manuals and documents
- GS4.** read instructions, guidelines / procedures /rules related to the worksite and equipment operations
- GS5.** Give clear instructions to co-workers, subordinates and other personnel
- GS6.** Use correct technical terms while interacting with supervisor
- GS7.** Make an appropriate timely decision in responding to emergencies/accidents in line with organizational/worksites guidelines
- GS8.** Use correct PPE and other safety gear while at the worksite
- GS9.** Work with supervisors/ team mates to carry out work related tasks
- GS10.** Plan work according to the required schedule and location
- GS11.** Build and maintain positive and effective relationships with colleagues and customers
- GS12.** Seek appropriate assistance from other sources to resolve problems
- GS13.** Assess the intensity of the fire accident and operate fire extinguishers
- GS14.** Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
