ISC/Q0917: Scaffolder - (Metal Sector)

Brief Job Description

The job is all about erecting of scaffolding structures safely according to needs to fitter, welder etc. for working at heights or depths as required.

Personal Attributes

This job requires the individual to work independently as well as in teams. He should be physically fit, not having colour blindness, having analytical skills, problem solving attitude, high concentration levels and willingness to work in a factory environment.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [ISC/N0008: Use basic health and safety practices at the workplace](#)
2. [ISC/N0009: Work effectively with others](#)
3. [ISC/N0956: Understands the given job of Scaffolder](#)
4. [ISC/N0957: Carry out scaffolding operations](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack (QP) Parameters

Qualification Pack

ISC/N0008: Use basic health and safety practices at the workplace

Description

This OS unit is about following safety and adopting sustainable practices for optimising use of resources.

Scope

The scope covers the following :

- Maintain safe and secure working environment
- Emergencies, rescue and first aid procedures
- Health and hygiene
- Housekeeping and waste management
- Material and energy conservation

Elements and Performance Criteria

Maintain safe and secure working environment

To be competent, the user/individual on the job must be able to:

- PC1.** identify hazardous activities and the possible causes of risks or accidents in the workplace
- PC2.** follow safe working practices while dealing with hazards to ensure safety of self and others
- PC3.** use appropriate protective clothing/equipment for specific tasks and work
- PC4.** follow appropriate safety practices while working in and around trenches, elevated places and confined areas
- PC5.** lift heavy objects safely using correct procedures
- PC6.** carry out routine check of the machine for identifying potential hazards
- PC7.** report any identified breaches in health, safety and security policies and procedures to the designated person

Emergencies, rescue and first aid procedures

To be competent, the user/individual on the job must be able to:

- PC8.** use appropriate type of fire extinguisher
- PC9.** apply appropriate rescue techniques during fire hazard
- PC10.** provide appropriate first aid procedure to victims wherever required eg.in case of bleeding, burns, choking, electric shock etc.
- PC11.** follow emergency procedures such as raising alarm, safe evacuation etc.
- PC12.** attend safety training and fire drills to respond promptly during an emergency

Health and hygiene

To be competent, the user/individual on the job must be able to:

- PC13.** follow regular cleaning and disinfection practices at work place using appropriate techniques and materials
- PC14.** follow hand hygiene practices at work place using appropriate techniques and materials
- PC15.** report regarding the contagious illness of self or people in close contact
- PC16.** avoid contact with ill people and self-isolate in a similar situation

Qualification Pack

Housekeeping and waste management

To be competent, the user/individual on the job must be able to:

- PC17.** follow the fundamentals of 5S for housekeeping
- PC18.** ensure good housekeeping in order to prevent hazards and accidents
- PC19.** store the material, tools and equipment in the correct location and in good condition
- PC20.** segregate waste into different categories
- PC21.** identify recyclable, non-recyclable and hazardous waste
- PC22.** dispose non-recyclable, recyclable and reusable waste appropriately at identified location

Material and energy conservation

To be competent, the user/individual on the job must be able to:

- PC23.** identify ways to optimize usage of material in various tasks/activities/processes
- PC24.** check for spills/leakages in various tasks/activities/processes
- PC25.** plug spills/leakages and escalate to appropriate authority if unable to rectify
- PC26.** check if the equipment/machine is functioning normally before commencing work and rectify wherever required
- PC27.** ensure electrical equipment and appliances are properly connected and turned off when not in use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organisation procedures for health, safety and security, individual role and responsibilities in this context
- KU2.** the organisation's emergency procedures for different emergency situations and the importance of following the same
- KU3.** evacuation procedures for workers and visitors
- KU4.** how and when to report hazards
- KU5.** potential hazards, risks and threats based on the nature of work
- KU6.** preventative and remedial actions to be taken in case of exposure to toxic material
- KU7.** various types of fire extinguisher
- KU8.** various types of safety signs and their meaning
- KU9.** appropriate first aid treatment relevant to different condition e.g. bleeding, minor burns, eye injuries etc.
- KU10.** relevant standards, procedures and policies related to 5S followed in the company
- KU11.** the various materials used and their storage norms
- KU12.** efficient utilisation of material and water
- KU13.** basics of electricity and prevalent energy efficient devices
- KU14.** common practices of conserving electricity
- KU15.** categorisation of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU16.** usage of different colors of dustbins

Qualification Pack

KU17. waste management techniques

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read safety instructions/guidelines
- GS2.** modify work practices to improve them
- GS3.** ask for clarifications from superior about the job requirement
- GS4.** work with supervisors/team members to carry out work related tasks
- GS5.** complete tasks efficiently and accurately within stipulated time
- GS6.** inform/report to concerned person in case of any problem
- GS7.** make timely decisions for efficient utilization of resources
- GS8.** write reports such as accident report, in at least English/regional language
- GS9.** be punctual and utilize time efficiently

ISC/N0009: Work effectively with others

Description

This OS unit is about communicating with colleagues/superiors and others, either in own work group or in other work groups within organisation.

Scope

The scope covers the following :

- Communicate effectively with colleagues and others
- Interact with supervisor
- Follow appropriate behaviour at work place

Elements and Performance Criteria

Communicate effectively with colleagues and others

To be competent, the user/individual on the job must be able to:

- PC1.** coordinate with colleagues to share work, as per the workload in order to achieve team goals
- PC2.** maintain clear communication with colleagues and others, wherever needed, through all means i.e. face-to-face, telephonic or written
- PC3.** adjust communication styles to reflect gender and persons with disability (PwD) sensitivity
- PC4.** respect all colleagues and co-workers
- PC5.** resolve conflicts by communicating with colleagues and other departments

Interact with supervisor

To be competent, the user/individual on the job must be able to:

- PC6.** identify work requirements by receiving instructions from reporting supervisor
- PC7.** escalate problems to supervisors that cannot be handled
- PC8.** report the completed work
- PC9.** interact with the reporting supervisor about any possible hazards and safety concerns

Follow appropriate behaviour at work place

To be competent, the user/individual on the job must be able to:

- PC10.** extend help to people with Disability (PwD) at workplace, if required
- PC11.** empathize with people with disability
- PC12.** adopt a gender neutral behavior
- PC13.** adopt responsible and disciplined behaviours at the workplace

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of effective communication and establishing good working relationships with colleagues and supervisor

Qualification Pack

- KU2.** different methods of communication as per the circumstances
- KU3.** importance of teamwork in organization and individual success
- KU4.** various components of effective communication
- KU5.** barriers to effective communication
- KU6.** common reasons for interpersonal conflict
- KU7.** what constitutes disciplined behaviour for a working professional
- KU8.** gender concepts, issues & legislation
- KU9.** organisational policies and procedures related to gender equality
- KU10.** challenges faced by PWD and the ways to help them overcome the same

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read instructions/guidelines/procedures
- GS2.** listen effectively and orally communicate information
- GS3.** ask for clarification and advice from the concerned person
- GS4.** maintain positive and effective relationships with colleagues
- GS5.** evaluate the possible solution(s) to the problem
- GS6.** spot and communicate potential areas of disruptions in the work process and report the same
- GS7.** complete written work with attention to detail
- GS8.** check that the work meets customer requirements

Qualification Pack

ISC/N0956: Understands the given job of Scaffolder

Description

This unit is about understanding the requirements of the scaffolding job after the receiving the checklist from the supervisor, seek any clarifications on the requirements of the job and identify the tools and tackles that would be needed to carry out the scaffolding job.

Scope

The scope covers the following :

- Understanding the assigned scaffolding job in accordance with the instructions / checklist
- Identify the tools and tackles that are required to carry out the assigned scaffolding job

Elements and Performance Criteria

Understanding the assigned scaffolding job in accordance with the instructions / checklist

To be competent, the user/individual on the job must be able to:

- PC1.** Identify if there is a need to setup a scaffold
- PC2.** Interpret the checklist and understand the scaffolding job requirements
- PC3.** Make a work plan to carry out the scaffolding job

Identify the tools and tackles that are required to carry out the assigned scaffolding job

To be competent, the user/individual on the job must be able to:

- PC4.** Identify tools, tackles & equipment required to perform the scaffolding operation
- PC5.** Identify dimensions and properties of scaffold tubes from relevant standards as per loading parameter
- PC6.** Identify various couplers e.g. Right angle coupler (R/A), 90degree coupler or double coupler, Swivel coupler, Putlog coupler or single coupler, Sleeve or external joiner, Pin or internal joiner etc.
- PC7.** Identify various planks as per set standard and requirement
- PC8.** Identify specific scaffolding tools e.g. Scaffold spanner, Swing over spanner, Ratchet spanner, podger hammer, Adjustable wrenches, Spirit level, Tape measures or rules, Industrial wire nips or cutters, Scaffold belts etc.
- PC9.** Asks helper to carry tools required to the desired work site
- PC10.** Report to stores in case of non-availability of tools & tackles or stock-out

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Quality and damage checks to be done and importance of the same
- KU2.** Risk and impact of not following defined procedures/work instructions
- KU3.** Escalation matrix for reporting identified issues
- KU4.** Perception of total load distribution

Qualification Pack

- KU5.** Implications of not adhering to sequence of activities and operations
- KU6.** Units of measurement
- KU7.** Dimensions and properties of scaffold tubes from relevant standards as per loading parameter
- KU8.** Use of various couplers e.g. Right angle coupler (R/A), 90 degree coupler or double coupler, Swivel coupler, Putlog coupler or single coupler, Sleeve or external joiner, Pin or internal joiner etc.
- KU9.** Use of various planks as per set standard and requirement
- KU10.** Use of scaffolding tools e.g. Scaffold spanner, Swing over spanner, Ratchet spanner, podger hammer, Adjustable wrenches (crescent or shifter), Spirit level, Tape measures or rules, Industrial wire nips or cutters, Scaffold belts etc.
- KU11.** Suitability of scaffolding material used for repeated jobs
- KU12.** Response to emergencies e.g. Power failures, fire and system failures

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Construct simple sentences and express ideas clearly through written communication
- GS2.** Fill up appropriate technical forms, process charts, activity logs in required format of the company
- GS3.** Read and interpret engineering drawings
- GS4.** Read and understand manuals, health and safety instructions, memos, reports, job cards, etc.
- GS5.** Express statements, opinions or information clearly so that others can hear and understand
- GS6.** Respond appropriately to any queries
- GS7.** Communicate with team members and supervisor

ISC/N0957: Carry out scaffolding operations

Description

This unit is about carrying out the operations that are specific to a Scaffolder.

Scope

The scope covers the following :

- Identify positions for setting up the scaffold
- Checks before and during erection of scaffolding
- Erect scaffolding structures
- Checks during the use of scaffold
- Dismantling the scaffold structure post completion of job

Elements and Performance Criteria

Identify positions for setting up the scaffold

To be competent, the user/individual on the job must be able to:

- PC1.** Identify where to erect structures for scaffolding according to the needs of the welder, fitter or other team member
- PC2.** Identify which position will be appropriate to set up scaffold
- PC3.** Check power lines or conductors in close proximity to the position of the intended scaffold
- PC4.** Ensure safety measures are maintained
- PC5.** Identify any defects and carry out emergency damage control

Checks before and during erection of scaffolding

To be competent, the user/individual on the job must be able to:

- PC6.**
 - Check the following points before and during erection of scaffolding:
 - • Ensure that all necessary permits and instructions or information relating to the job prior to commencing erection are available
 - • Inform concerned authority on site before commencing erection
 - • Examine the building or structure against which scaffolding is carried out and in case of doubt about any aspect of the job.

Erect scaffolding structures

To be competent, the user/individual on the job must be able to:

- PC7.** Identify and select the required scaffolding equipment and place it near the work area
- PC8.** Place suitable sills and ensure there are no holes and foreign objects under the sills and the ground is level
- PC9.** Ensure cross-bracing to prevent the staging swaying back and forth
- PC10.** Ensure next level frames are tightly locked in the lower-level staging
- PC11.** Plan for the weight that the planks will have to carry
- PC12.** Identify and use appropriate clamp pipes and other tools to erect structures for scaffolds
- PC13.** Ensure safety measures are followed
- PC14.** Identify any deviations and inform supervisor if the problem needs to be escalated

Qualification Pack

Checks during the use of scaffolding

To be competent, the user/individual on the job must be able to:

- PC15.**
- Check the following during the use of scaffolds:
 - The frames are correctly aligned and properly supported at their bases
 - There is no undue deflection in ledgers and transoms or putlogs
 - No essential member of the structure has been removed
 - All ties and braces are in place and are effective in stabilising the structure
 - All couplers are tightened properly
 - All scaffold planks are sound and are properly supported

Dismantling the scaffold structure post completion of job

To be competent, the user/individual on the job must be able to:

- PC16.** Examine and check before dismantling the scaffold that all ties and bracings are effectively in position
- PC17.** Suitable warning notices must be displayed for safety at the work site
- PC18.** Ensure dismantling progressively from the top level downwards
- PC19.** Remove ties, braces, ledgers, transoms, planks and guardrails lift by lift with standards following as joint positions are reached
- PC20.** Avoid mishandling of scaffold materials and stack properly
- PC21.** Ensure batch wise tag marking of the scaffold materials for storing purpose
- PC22.** Ensure that all scaffolding materials are removed from the work site and no loose materials are left over

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Quality and damage checks to be done and importance of the same
- KU2.** Risk and impact of not following defined procedures/work instructions
- KU3.** Escalation matrix for reporting identified issues
- KU4.** Understand scaffolding job in order to identify associated hazards
- KU5.** Design the scaffold based on the nature of job and load estimation
- KU6.** Understand building or dismantling the scaffolding
- KU7.** Understand the quantity of material required for the scaffolding
- KU8.** Understand the quality of scaffolding as per certification standard
- KU9.** Conversant with fastening practices
- KU10.** Knowledge of proper specifications of jacks, de shackles, clits, pulleys, chain block, lifting tackles, slings etc.
- KU11.** Checks that need to be made to ensure that equipment is safe and ready to use
- KU12.** Handle chain blocks, pulleys and other tools and tackles
- KU13.** Limits, fits and tolerances
- KU14.** Knowledge of clamping of pipes
- KU15.** Understanding of the process of erecting scaffolding structures

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Express statements, opinions or information clearly so that others can hear and understand
- GS2.** Respond appropriately to any queries
- GS3.** Communicate with team members and supervisor
- GS4.** Adhere to laid down processes for scaffolding operation
- GS5.** Adhere to safety standards and procedures for scaffolding
- GS6.** Escalate issues, concerns if any to supervisors, proactively
- GS7.** Pay attention to the load carrying ability of different areas before setting up
- GS8.** Ensure that all parts are tightly fastened according to given specifications before handover

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
