ISC/Q1801: Metal Forging Technician

Brief Job Description

The individual in this role responsible for performing forging operation and making the components as per the forging drawing.

Personal Attributes

A forge technician should possess a combination of technical skills and personal attributes to excel in their role. The person should be patient, organized, team-oriented and self-motivated. They must be able to plan and prioritise tasks effectively and have an eye for detail and quality

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [ISC/N0946: Manage and implement health and safety practices at the work place](#)
2. [ISC/N0947: Manage team and others at workplace](#)
3. [ISC/N1801: Perform the forging operation](#)
4. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

ISC/N0946: Manage and implement health and safety practices at the work place

Description

This OS unit is about managing and implementing health, hygiene, safety and sustainable practices for optimising use of resources.

Scope

The scope covers the following :

- Maintain safe and secure working environment
- Maintain health and hygiene
- Manage housekeeping at workplace
- Implement material and energy conservation practices

Elements and Performance Criteria

Maintain safe and secure working environment

To be competent, the user/individual on the job must be able to:

- PC1.** identify hazardous activities and the possible causes of risks or accidents in the workplace
- PC2.** implement safe working practices while dealing with hazards to ensure safety of self and others
- PC3.** ensure that team is following appropriate safety practices while working in and around trenches, elevated places and confined areas
- PC4.** conduct regular checks of the machines with support of the maintenance team to identify potential hazards
- PC5.** organise safety drills or training sessions to create awareness amongst others on the identified risks and safety practices
- PC6.** fill daily check sheet to report improvements done and risks identified
- PC7.** ensure that relevant safety boards/signs are placed on the shop floor for the safety of self and others
- PC8.** report any identified breaches in health, safety and security policies and procedures to the designated person
- PC9.** ensure that team is following appropriate emergency procedures such as raising alarm, safe evacuation etc.

Maintain health and hygiene

To be competent, the user/individual on the job must be able to:

- PC10.** ensure team is aware about hygiene and sanitation regulations and following them on the shop floor
- PC11.** ensure workplace, equipment, restrooms etc. are cleaned and sanitized regularly
- PC12.** ensure availability of running water, hand wash and alcohol-based sanitizers at the workplace
- PC13.** report advanced hygiene and sanitation issues to appropriate authority

Qualification Pack

PC14. report regarding the contagious illness of self or people in close contact

Manage housekeeping at workplace

To be competent, the user/individual on the job must be able to:

PC15. implement appropriate housekeeping methods and practices at workplace

PC16. ensure good housekeeping in order to prevent hazards and accidents

PC17. monitor that that team is storing the material, tools and equipment in the correct location and in good condition after work completion

PC18. ensure recyclable, non-recyclable and hazardous wastes are segregated as per SOP

PC19. ensure proper mechanism is followed while collecting and disposing of non-recyclable, recyclable and reusable waste

Implement material and energy conservation practices

To be competent, the user/individual on the job must be able to:

PC20. identify processes where material and energy/electricity utilization can be optimized

PC21. ensure malfunctioning (fumes/sparks/emission/vibration/noise) and lapse in maintenance of equipment are resolved effectively

PC22. prepare and analyze material and energy audit reports to decipher excessive consumption of material and water

PC23. identify possibilities of using renewable energy and environment friendly fuels

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. organisation procedures for health, safety and security, individual role and responsibilities in this context

KU2. the organisation's emergency procedures for different emergency situations and the importance of following the same

KU3. evacuation procedures for workers and visitors

KU4. how and when to report hazards

KU5. potential hazards, risks and threats based on the nature of work

KU6. preventative and remedial actions to be taken in case of exposure to toxic material

KU7. various types of fire extinguisher

KU8. various types of safety signs and their meaning

KU9. appropriate first aid treatment relevant to different condition e.g. bleeding, minor burns, eye injuries etc.

KU10. relevant standards, procedures and policies related to 5S followed in the company

KU11. the various materials used and their storage norms

KU12. efficient utilisation of material and water

KU13. basics of electricity and prevalent energy efficient devices

KU14. common practices of conserving electricity

KU15. categorisation of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics

KU16. usage of different colors of dustbins

Qualification Pack

KU17. waste management techniques

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read safety instructions/guidelines
- GS2.** modify work practices to improve them
- GS3.** work with supervisors/team members to carry out work related tasks
- GS4.** complete tasks efficiently and accurately within stipulated time
- GS5.** inform/report to concerned person in case of any problem
- GS6.** make timely decisions for efficient utilization of resources
- GS7.** write reports such as accident report, in at least English/regional language

Qualification Pack

ISC/N0947: Manage team and others at workplace

Description

This OS unit is about managing team, colleagues/superiors and others, either in own work group or in other work groups within organisation.

Scope

The scope covers the following :

- Communicate effectively with team members
- Interact with supervisor
- Manage appropriate behaviour at work place

Elements and Performance Criteria

Communicate effectively with team members

To be competent, the user/individual on the job must be able to:

- PC1.** manage and co-ordinate with team members to integrate work, as per the workload in order to achieve team goals
- PC2.** implement ways to share information with team members in line with organisational requirements
- PC3.** ensure that work requirements are clearly communicated to the team members through all means including face-to-face, telephonic and written
- PC4.** work in a way that show respect for all team members and customers
- PC5.** carry out commitments made to team members
- PC6.** resolve conflicts within the team members at work to achieve smooth workflow
- PC7.** guide the team members to follow the organisation's policies and procedures
- PC8.** ensure team goals are given preference over individual goals
- PC9.** encourage team members to rectify errors as per feedback and minimize mistakes in future

Interact with supervisor

To be competent, the user/individual on the job must be able to:

- PC10.** report progress on job allocated and team performance to the superiors
- PC11.** escalate problems to supervisors that cannot be handled
- PC12.** report the completed work
- PC13.** train the team members to report completed work and receive feedback on work done

Manage appropriate behaviour at work place

To be competent, the user/individual on the job must be able to:

- PC14.** help PwD team members to overcome the challenges, if asked
- PC15.** ensure team shows sensitivity towards all genders and PwD
- PC16.** adjust communication styles to reflect gender sensitivity and sensitivity towards person with disability

Qualification Pack

PC17. ensure that team is following responsible and disciplined behaviours at the workplace

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of effective communication and establishing good working relationships with colleagues and supervisor
- KU2.** different methods of communication as per the circumstances
- KU3.** importance of teamwork in organization and individual success
- KU4.** various components of effective communication
- KU5.** barriers to effective communication
- KU6.** common reasons for interpersonal conflict
- KU7.** what constitutes disciplined behaviour for a working professional
- KU8.** gender concepts, issues & legislation
- KU9.** organisational policies and procedures related to gender equality
- KU10.** challenges faced by PWD and the ways to help them overcome the same

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read instructions/guidelines/procedures
- GS2.** listen effectively and orally communicate information
- GS3.** ask for clarification and advice from the concerned person
- GS4.** maintain positive and effective relationships with colleagues
- GS5.** evaluate the possible solution(s) to the problem
- GS6.** spot and communicate potential areas of disruptions in the work process and report the same
- GS7.** complete written work with attention to detail
- GS8.** check that the work meets customer requirements

Qualification Pack

ISC/N1801: Perform the forging operation

Description

The Metal Forging Technician training program is designed to provide knowledge and skills necessary to work in the field of metal forging.

Scope

The scope covers the following :

- Manage preparatory activities for forging
- Perform forging operations
- Perform post operation activities

Elements and Performance Criteria

Manage preparatory activities for forging operation

To be competent, the user/individual on the job must be able to:

- PC1.** Choose the appropriate material for the forging process based on the desired properties, such as strength, durability, and heat resistance.
- PC2.** Cut or shape the raw material into the initial form called a billet or blank. The size and shape of the billet will depend on the final part's design.
- PC3.** Heat the billet to the appropriate forging temperature. The temperature is critical for ease of deformation and material flow during forging. Use a furnace or other heating equipment.
- PC4.** Design and fabricate the forging dies or tooling required for the specific part. The dies should be designed to shape the material according to the part's design.
- PC5.** Apply lubricants to the die surfaces and billet to reduce friction and facilitate material flow during forging. Lubrication helps prevent excessive wear on the dies and enhances the quality of the forged part.
- PC6.** Set up the forging equipment, such as hammers, presses, or hydraulic machinery, ensuring they are in proper working condition and aligned correctly.
- PC7.** Train the operators who will be performing the forging process. Skilled operators are essential for achieving accurate and consistent results.
- PC8.** Implement safety measures to protect operators from hazards associated with forging, such as hot materials, heavy equipment, and potential flying debris. Provide appropriate safety gear and training.
- PC9.** Ensure the forging workspace is clean and organized. Properly store materials, tools, and safety equipment for efficient and safe operations.
- PC10.** Mark or identify the workpiece or billet with any necessary information, such as part numbers, heat codes, or other traceability markings.
- PC11.** Develop and document quality control plans that outline the specific inspection and testing procedures to ensure the final product meets the required specifications.
- PC12.** Establish the sequence of forging operations, including the number of strikes, rotations, and manipulations required to achieve the desired shape.

Qualification Pack

PC13. Inspect and verify that all preparation activities have been completed according to the forging plan and quality control requirements.

Perform Forging operations

To be competent, the user/individual on the job must be able to:

PC14. Use appropriate Personal Protective Equipment (PPE) for safe working in work area

PC15. Carry out process safety measures as per industry specifications

PC16. Place the heated billet on an anvil or flat surface between the open dies.

PC17. Apply compressive forces to the billet using a power hammer, press, or other forging equipment.

PC18. Deform the material and shape as it flows between the open dies.

PC19. The workpiece may need to be manipulated and rotated between strikes to achieve the desired shape. Skilled operators use techniques such as bending, twisting, and tapering to shape the material.

PC20. Continue forging the workpiece in a series of strikes until the desired shape and dimensions are achieved.

PC21. Reheating the billet if it cools down during the process.

PC22. Trim any excess material or flash from the forged part, which may have been forced out during the forging process.

PC23. Allow the forged part to cool naturally or use controlled cooling processes to relieve residual stresses and prevent cracking.

Perform post operation activities

To be competent, the user/individual on the job must be able to:

PC24. Inspect the forged part for defects, adherence to specified dimensions, and quality standards.

PC25. Perform any necessary surface treatments or finishes, such as shot blasting, machining, or coating.

PC26. Conduct quality checks and tests to ensure the part meets the required specifications and standards.

PC27. Inform concerned authority in case of any abnormalities observed during execution of work

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Relevant standards and procedures followed in the company

KU2. Basic process of Forging

KU3. Material required for the forging process

KU4. SOP as recommended by competent authority of the organisation

KU5. Design and fabricate the forging dies

KU6. Implement safety measures to protect operators from hazards associated with forging

KU7. sequence of forging operations, including the number of strikes, rotations, and manipulations

KU8. The role of temperature for ease of deformation and material flow

KU9. How to determine the size and shape of the billet or blank for a forging process

Qualification Pack

- KU10.** What is the significance of heating the billet to an appropriate forging temperature
- KU11.** What is the role of lubricants in the forging process
- KU12.** What are the steps are involved in setting up forging equipment
- KU13.** Why is it crucial to keep the forging workspace clean and organized
- KU14.** How is the sequence of forging operations established
- KU15.** What precautions should be taken when feeding solid charges during the forging process
- KU16.** How is the heated billet positioned and secured between dies
- KU17.** How to manipulate and shape the material between strikes
- KU18.** How is the cooling of a forged part managed
- KU19.** What types of defects, dimensions, and quality standards are inspected in the forged part
- KU20.** How to Conduct quality checks and tests
- KU21.** What surface treatments or finishes may be applied to a forged part

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read work instructions, equipment manuals and process documents
- GS2.** Communicate the process requirements to the supervisor and co-workers
- GS3.** Attentively listen and comprehend the information given by the supervisor/team members
- GS4.** Write work related information in English/regional language
- GS5.** Recognize a workplace problem and take suitable action
- GS6.** Plan and organize work according to the work requirements
- GS7.** Complete the assigned tasks with minimum supervision
- GS8.** Report to the supervisor or deal with a colleague individually, depending on the type of concern

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
