LFS/N0674: Introduction to Life Sciences sector and basics of retail pharmacy

Description

This NOS is about introduction to Life Sciences sector and basics of retail pharmacy

Scope

The scope covers the following :

- Introduction to Life Sciences Sector
- Basic of retail Pharmacy
- Environment Sustainability

Elements and Performance Criteria

Introduction to Life Sciences Sector

To be competent, the user/individual on the job must be able to:

- PC1.** describe the key sectors and value chain of the Life Sciences industry in Indian and global context.
- PC2.** list applicable regulations and good practices such as GMP, GLP, and GDP relevant to pharmacy operations.
- PC3.** list key responsibilities and duties of a Chemist Retail Pharmacist.

Basic of retail Pharmacy

To be competent, the user/individual on the job must be able to:

- PC4.** Explain the difference between OTC, prescription, controlled, and Schedule H/X drugs.
- PC5.** identify brand name, generic name, expiry date, and batch number from packaging
- PC6.** interpret basic components of a prescription including dosage form, frequency, and route of administration.
- PC7.** demonstrate correct storage of drugs as per label instructions and regulatory norms.
- PC8.** respond appropriately to scenarios such as prescription denial or customer confusion

Environment Sustainability

To be competent, the user/individual on the job must be able to:

- PC9.** list energy conservation practices relevant to pharmacy operations.
- PC10.** identify actions that optimize electricity and equipment usage during daily operations
- PC11.** follow practices that reduce water wastage, chemical spills, and air pollution
- PC12.** segregate waste into recyclable, non-recyclable, and hazardous categories
- PC13.** use appropriate color-coded containers for waste collection and disposal
- PC14.** prepare and follow a waste management checklist for daily pharmacy operations

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** key subsectors of the Life Sciences industry, such as pharmaceuticals, biotechnology, and medical devices.
- KU2.** overall structure and supply chain of the Life Sciences industry in India and its alignment with global practices
- KU3.** role of Good Manufacturing Practices (GMP), Good Laboratory Practices (GLP), and Good Distribution Practices (GDP) in pharmaceutical operations
- KU4.** objectives and regulatory framework of the Pharmacy Act, Drugs and Cosmetics Act, and related healthcare legislations.
- KU5.** typical roles and responsibilities of a retail pharmacist in providing patient-centric pharmaceutical care
- KU6.** classification and regulatory restrictions associated with OTC, prescription, Schedule H, and Schedule X drugs.
- KU7.** importance of identifying key information on medicine labels such as brand/generic names, batch numbers, and expiry dates.
- KU8.** structure and interpretation of a prescription, including dosage frequency, route, and form of medication.
- KU9.** Basic concepts of environmental sustainability relevant to pharmacy operations such as energy and water conservation.
- KU10.** Common sources of waste in retail pharmacy and proper waste management practices in compliance with biomedical waste regulations.
- KU11.** significance of maintaining a waste management checklist and monitoring daily adherence to sustainability practices.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate clearly with customers, team members, and healthcare professionals using appropriate language and tone.
- GS2.** Read and interpret prescriptions and labels accurately to avoid medication errors.
- GS3.** Apply logical reasoning to handle customer concerns, prescription discrepancies, or drug substitution requests.
- GS4.** Demonstrate time management in completing tasks such as prescription review, customer service, and stock updates efficiently.
- GS5.** Maintain a customer-centric approach while dealing with sensitive healthcare-related queries or complaints.
- GS6.** Work in a hygienic and safe manner while handling drugs, waste, and pharmacy equipment.
- GS7.** Use basic numeracy skills to calculate dosages, expiry durations, and maintain inventory levels.
- GS8.** Follow structured problem-solving approaches when faced with operational or regulatory challenges.
- GS9.** Exhibit a responsible and ethical attitude while ensuring regulatory compliance and patient safety.

LFS/N5101: Perform Entrepreneurship and Business Planning Activities in Pharmacy Setup

Description

This NOS equips individuals with essential entrepreneurial and financial competencies to establish and run a pharmacy business.

Scope

The scope covers the following :

- This job function covers the following job elements
- Formulate Business and Financial Plans
- Evaluate Financing Options and Government Schemes
- Conduct Location and Market Feasibility Analysis
- Business Innovation and Break-even Analysis
- Present and Promote Business Concept

Elements and Performance Criteria

Formulate Business and Financial Plans

To be competent, the user/individual on the job must be able to:

- PC1.** Draft a detailed business plan outlining the vision, objectives, and operational strategies of a pharmacy.
- PC2.** Prepare a pharmacy-specific Detailed Project Report (DPR) using structured formats.
- PC3.** Estimate startup capital and prepare a 6-month projected budget and cash flow sheet.
- PC4.** Identify short-term and long-term financing needs and match them with suitable financial sources.
- PC5.** Draft a detailed business plan outlining the vision, objectives, and operational strategies of a pharmacy.

Evaluate Financing Options and Government Schemes

To be competent, the user/individual on the job must be able to:

- PC6.** Differentiate between debt and equity financing with relevance to pharmacy stages.
- PC7.** Analyze the features of schemes like MUDRA, PMEGP, Startup India, and PMBJK for funding options.
- PC8.** Identify the documents and eligibility criteria required for accessing these financial schemes.
- PC9.** Evaluate sustainable financing models for future scalability.

Conduct Location and Market Feasibility Analysis

To be competent, the user/individual on the job must be able to:

- PC10.** Apply location selection criteria such as footfall, visibility, rent, and proximity to healthcare facilities.
- PC11.** Complete a location assessment worksheet using demographic and competitive data.
- PC12.** Compare two potential pharmacy sites using structured templates and justify selection.

Qualification Pack

PC13. Interpret business feasibility and market reports for target locality selection.

Business Innovation and Break-even Analysis

To be competent, the user/individual on the job must be able to:

PC14. Identify innovative practices or digital tools suitable for improving pharmacy services.

PC15. Evaluate the viability of pharmacy innovations using cost-benefit analysis.

PC16. Calculate the break-even point using pharmacy-specific revenue and cost figures.

PC17. Use break-even analysis to support pricing and cost decisions.

Present and Promote Business Concept

To be competent, the user/individual on the job must be able to:

PC18. Demonstrate how to Present the pharmacy business plan confidently in a formal or informal setting.

PC19. Respond to basic investor questions using logic, financial insight, and confidence.

PC20. Demonstrate awareness of local pharmacy promotion and branding tools.

PC21. Demonstrate awareness of local pharmacy promotion and branding tools.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Key provisions of the Drugs and Cosmetics Act, 1940 and Rules, 1945 that are applicable to retail pharmacy businesses.

KU2. The legal roles and ethical obligations of a licensed pharmacist and pharmacy owner under national pharmaceutical laws.

KU3. The classifications and conditions for sale of Schedule H, H1, X, and over-the-counter (OTC) drugs.

KU4. The types of licenses and registrations required to legally operate a retail pharmacy, such as Retail Drug License and Shop & Establishment Certificate.

KU5. The competent authorities responsible for issuing pharmacy-related licenses and registrations.

KU6. The differences in documentation, operational scope, and legal conditions for Retail and Wholesale Drug Licenses.

KU7. The prescribed storage conditions for different categories of drugs, especially temperature-sensitive and controlled drugs.

KU8. Standards and protocols for segregation, labeling, and handling of expired, recalled, or damaged medicines.

KU9. The requirement of a registered pharmacist's presence during business hours and implications of non-compliance.

KU10. Legal obligations to maintain sales records, prescriptions, stock registers, and Schedule drug logs.

KU11. The official procedures for safe disposal of expired or damaged drugs in line with environmental and health regulations.

KU12. The document types, formats, and submission processes for applying for licenses and regulatory renewals.

Qualification Pack

- KU13.** Common errors or omissions in license application forms and how they affect approval outcomes.
- KU14.** The process and format for reviewing documentation during pharmacy audits and regulatory inspections.
- KU15.** Consequences of non-compliance with pharmacy laws, including legal penalties, license suspension, or revocation.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and interpret legal documents, regulations, and licensing forms relevant to pharmacy operations.
- GS2.** Maintain and organize regulatory documentation systematically for easy retrieval and inspection readiness.
- GS3.** Complete sample regulatory forms and checklists with accuracy and attention to detail.
- GS4.** Identify gaps or inconsistencies in compliance documentation and take corrective actions.
- GS5.** Communicate professionally with licensing authorities and auditors regarding legal and compliance issues.
- GS6.** Apply logical reasoning to determine legal requirements for new pharmacy setups or expansions.
- GS7.** Use basic digital tools (e.g., Excel, PDF editors, compliance checklists) to track and monitor regulatory status.
- GS8.** Demonstrate ethical behavior and integrity while ensuring strict adherence to pharmacy laws and practices.
- GS9.** Take initiative in staying updated with amendments or new regulations issued by regulatory authorities.

LFS/N5102: Adhere to Drug Laws, Licensing, and Regulatory Norms in Pharmacy Practice

Description

This job function is about the Microentrepreneur (Pharmacy) complying to legal, regulatory, and licensing requirements governing retail pharmacy operations.

Scope

The scope covers the following :

- This job function covers the following job elements
- Interpret Legal Provisions for Retail Pharmacy Operations
- Identify Licensing and Registration Requirements
- Ensure Compliance with Operational and Storage Norms
- Prepare and Maintain Regulatory Documentation
- Verify and Review Regulatory Applications and Compliance

Elements and Performance Criteria

Interpret Legal Provisions for Retail Pharmacy Operations

To be competent, the user/individual on the job must be able to:

- PC1.** Interpret relevant sections of the Drugs and Cosmetics Act, 1940 and Rules, 1945 applicable to retail pharmacy.
- PC2.** Identify legal responsibilities of a pharmacist and pharmacy owner under national regulations.
- PC3.** Explain permissible drug categories for retail sales under Schedule H, H1, X, and OTC.

Identify Licensing and Registration Requirements

To be competent, the user/individual on the job must be able to:

- PC4.** List the various licenses required to operate a retail pharmacy.
- PC5.** Identify authorities responsible for issuing each license or registration.
- PC6.** Differentiate between requirements for Retail Drug License and Wholesale License.

Ensure Compliance with Operational and Storage Norms

To be competent, the user/individual on the job must be able to:

- PC7.** Describe correct storage conditions for temperature-sensitive and schedule-specific drugs.
- PC8.** Demonstrate compliance standards for maintaining segregation of expired or recalled medicines.
- PC9.** Ensure availability of registered pharmacist during all working hours.
- PC10.** Maintain sale records and prescription logs as per statutory guidelines.
- PC11.** Dispose of expired or damaged drugs in accordance with legal protocols.

Prepare and Maintain Regulatory Documentation

To be competent, the user/individual on the job must be able to:

- PC12.** Compile a checklist of documents required for license applications.

Qualification Pack

PC13. Accurately fill out sample applications for a Retail Drug License and Shop & Establishment registration.

PC14. Organize all invoices, prescription files, and purchase bills in approved formats.

PC15. Maintain a stock register and schedule drug dispensing records in line with legal norms.

Verify and Review Regulatory Applications and Compliance

To be competent, the user/individual on the job must be able to:

PC16. Review sample license application forms for completeness and correctness.

PC17. Identify common errors that may lead to license rejection.

PC18. Evaluate existing documentation for compliance with audit requirements.

PC19. Record compliance status in a prescribed format for future inspections.

PC20. Report any non-compliance that could lead to legal penalties or license revocation.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Key provisions of the Drugs and Cosmetics Act, 1940 and Rules, 1945 that are applicable to retail pharmacy businesses.

KU2. legal roles and ethical obligations of a licensed pharmacist and pharmacy owner under national pharmaceutical laws.

LFS/N5103: Collaborate with Regulatory, Supply Chain, and Community Stakeholders in Retail Pharmacy

Description

This NOS focuses on understanding the roles of various stakeholders in the pharmacy ecosystem and developing effective engagement strategies.

Scope

The scope covers the following :

- Map Stakeholder Roles and Interdependencies
- Engage Stakeholders with Professional Communication
- Apply Ethical and Strategic Interaction Practices
- Document and Manage Stakeholder Information

Elements and Performance Criteria

Map Stakeholder Roles and Interdependencies

To be competent, the user/individual on the job must be able to:

- PC1.** Identify the core stakeholders in the pharmacy ecosystem and their functional roles.
- PC2.** Describe the interdependencies between prescribers, dispensers, and suppliers.
- PC3.** Analyze how stakeholder actions impact pharmacy operations and customer satisfaction.
- PC4.** Interpret the communication patterns and professional expectations of doctors, MRs, and distributors.
- PC5.** Evaluate how collaboration with stakeholders influences trust, efficiency, and business continuity.

Engage Stakeholders with Professional Communication

To be competent, the user/individual on the job must be able to:

- PC6.** Demonstrate professional verbal interaction with a prescribing doctor to understand current prescription patterns.
- PC7.** Conduct a mock negotiation with a distributor on credit terms and delivery schedules.
- PC8.** Address inquiries or concerns raised by medical representatives during routine visits.
- PC9.** Draft formal written communication to a local clinic regarding medicine availability or updates.
- PC10.** Send appropriate follow-up messages to a distributor for delayed or partial deliveries.

Apply Ethical and Strategic Interaction Practices

To be competent, the user/individual on the job must be able to:

- PC11.** Apply professional boundaries and ethical conduct while interacting with stakeholders.
- PC12.** Follow regulatory and professional norms in conversations related to drug promotion and prescriptions.
- PC13.** Identify situations that may lead to conflict of interest or breach of compliance.
- PC14.** Use appropriate non-verbal cues and etiquette during meetings and stakeholder interactions.

Qualification Pack

PC15. Acknowledge and address feedback or complaints from stakeholders professionally.

Document and Manage Stakeholder Information

To be competent, the user/individual on the job must be able to:

PC16. Create and maintain an up-to-date stakeholder contact list with key details.

PC17. Categorize stakeholders based on their role, frequency of interaction, and influence.

PC18. Update records of meetings and communication for business reference.

PC19. Evaluate stakeholder engagement effectiveness through simple performance metrics.

PC20. Plan regular engagement schedules based on operational needs and stakeholder preferences.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. major stakeholders in the pharmacy ecosystem such as doctors, patients, distributors, wholesalers, regulators, and medical representatives, along with their specific roles.

KU2. interdependent nature of relationships among prescribers, dispensers, suppliers, and regulators in ensuring effective pharmacy operations.

KU3. How stakeholder behavior, communication, and service quality influence pharmacy efficiency, trust, and customer satisfaction.

KU4. Common communication styles, expectations, and protocols followed by healthcare professionals and pharma industry representatives.

KU5. importance of collaborative relationships and how timely coordination supports business continuity and service delivery.

KU6. principles of professional etiquette, including tone, clarity, and appropriate language for both verbal and written communication.

KU7. ethical and regulatory guidelines that govern interactions related to prescription practices, drug promotions, and supplier negotiations.

KU8. Situations that may present conflicts of interest and how to respond while maintaining legal and ethical compliance.

KU9. significance of non-verbal communication, body language, and listening skills in professional settings.

KU10. Standard practices for documenting meetings, calls, or visits with stakeholders and using those records for follow-up.

KU11. How to categorize stakeholders based on their function, communication frequency, and influence on business operations.

KU12. Tools and templates for maintaining contact lists and recording communication history.

KU13. Simple metrics to evaluate stakeholder engagement quality and effectiveness, such as delivery adherence or feedback turnaround.

KU14. Methods to create stakeholder engagement calendars based on pharmacy operational schedules and external dependencies.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Communicate effectively and respectfully with doctors, distributors, and other stakeholders using verbal and written channels.
- GS2.** Apply listening, negotiation, and persuasion skills to align on delivery timelines, payment terms, and inventory needs.
- GS3.** Respond professionally to concerns, feedback, or disputes while maintaining composure and problem-solving mindset.
- GS4.** Demonstrate ethical and compliant behavior while discussing prescription trends, drug promotions, or vendor-related issues.
- GS5.** Use digital tools or physical formats to maintain accurate and updated records of stakeholder communication.
- GS6.** Plan and schedule stakeholder interactions in a systematic and timely manner aligned with pharmacy operations.
- GS7.** Interpret behavioral cues and adapt communication approach based on the stakeholders role and personality.
- GS8.** Build rapport and long-term trust through consistent, transparent, and responsive communication.
- GS9.** Manage interpersonal conflict and differing opinions in a professional and constructive manner.

LFS/N5104: Initiate and Operate Pradhan Mantri Bhartiya Janaushadhi Kendra (PMBJK) as per SOP

Description

This NOS outlines the competencies required to successfully establish and operate a Jan Aushadhi Kendra under the PMBJP scheme.

Scope

The scope covers the following :

- This NOS outlines the competencies required to successfully establish and operate a Jan Aushadhi Kendra under the PMBJP scheme.
- This unit/task covers the following:
 - Understand and Align with PMBJP Objectives
 - Navigate the Application and Compliance Process
 - Establish the Physical and Functional Infrastructure of PMBJK
 - Plan and Execute Operations Effectively
 - Engage with Stakeholders and Ensure Regulatory Adherence

Elements and Performance Criteria

Understand and Align with PMBJP Objectives

To be competent, the user/individual on the job must be able to:

- PC1.** Describe the core objectives and vision of the PMBJP scheme.
- PC2.** Explain the benefits of operating a PMBJK in underserved and low-income areas.
- PC3.** Advocate the social impact of generic medicines and affordability on community health.

Navigate the Application and Compliance Process

To be competent, the user/individual on the job must be able to:

- PC4.** Identify and document the eligibility criteria required for PMBJK registration.
- PC5.** Compile a comprehensive checklist of documents required for PMBJK application.
- PC6.** Demonstrate completion of a simulated online application form on the PMBI portal.
- PC7.** Ensure timely submission of application and communication with PMBI officials.

Establish the Physical and Functional Infrastructure of PMBJK

To be competent, the user/individual on the job must be able to:

- PC8.** Design a store layout plan that adheres to PMBI branding and operational guidelines.
- PC9.** Allocate space for medicine storage, service counters, and waiting areas as per norms.
- PC10.** Procure and install essential equipment such as racks, refrigeration units, and computers.
- PC11.** Display PMBJP branding and signage as per PMBI specifications.

Plan and Execute Operations Effectively

To be competent, the user/individual on the job must be able to:

- PC12.** PC1. Identify the product range (medicines and surgicals) supplied under the PMBJK model.
- PC13.** Explain the procurement and supply chain process as per PMBI's operating procedures.

Qualification Pack

PC14. Develop a financial projection sheet that includes estimated sales, costs, and incentives.

PC15. Track and claim monthly operating incentives and one-time establishment support.

PC16. Maintain digital and physical inventory and sales records in line with PMBI norms.

Engage with Stakeholders and Ensure Regulatory Adherence

To be competent, the user/individual on the job must be able to:

PC17. Coordinate effectively with PMBI and other stakeholders for inspections and updates.

PC18. Demonstrate professionalism during mock inspections or review visits.

PC19. Monitor medicine expiry and quality standards in compliance with regulations.

PC20. Provide counselling to customers on the benefits of generic medicines where applicable.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. components of the financial projection including product pricing, operational costs, PMBI-provided incentives, and profitability outlook.

KU2. impact of affordable generic medicines on communities, especially in underserved and economically weaker areas.

KU3. eligibility criteria for individuals or institutions applying to open a PMBJK.

KU4. documentation requirements and procedural steps for online application submission on the PMBI portal.

KU5. operational guidelines and branding standards issued by the Pharmaceuticals & Medical Devices Bureau of India (PMBI).

KU6. Best practices in planning the store layout, including storage zones, counters, and customer waiting areas per PMBJK norms.

KU7. Essential infrastructure components such as display racks, refrigeration, POS systems, and inventory management tools.

KU8. list of medicines and surgical items provided under the PMBJK supply model and their procurement timelines.

KU9. supply chain workflow and coordination procedures with PMBI for order fulfillment and restocking.

KU10. Components of the financial projection including product pricing, operational costs, PMBI-provided incentives, and profitability outlook.

KU11. Recordkeeping requirements, including digital and physical logs for inventory, sales, and expiry tracking.

KU12. compliance framework for pharmacy operations under PMBJP including regulatory inspections, audits, and SOPs.

KU13. Effective stakeholder engagement strategies with PMBI, auditors, and local healthcare providers.

KU14. Professional counseling techniques to explain the use and benefits of generic medicines to customers.

KU15. Protocols for tracking expired medicines, quality issues, and corrective actions in accordance with regulatory standards.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Complete online registration forms and documentation accurately for PMBJK applications.
- GS2.** Communicate professionally with PMBI officials, local authorities, and healthcare providers.
- GS3.** Design and manage store layout and logistics in alignment with operational requirements and customer service needs.
- GS4.** Track inventory digitally, monitor stock levels, and ensure availability of essential drugs.
- GS5.** Maintain financial and operational documentation such as incentive claims, sales logs, and supply records.
- GS6.** Engage respectfully and effectively with customers, explaining benefits of PMBJK and generic medicines.
- GS7.** Handle inspection visits with professionalism and ensure all documentation is audit-ready.
- GS8.** Adapt communication approach to different stakeholders including PMBI, suppliers, and community members.
- GS9.** Use basic financial tools (e.g., spreadsheets) to project revenue, manage budgets, and evaluate profitability.
- GS10.** Solve routine operational problems independently and escalate complex issues when needed.

LFS/N0676: Supervise Customer Engagement, Prescription Fulfilment, and Sales Transactions in Retail Pharmacy

Description

This NOS unit covers the skills and knowledge required to proficiently supervise customer engagement, prescription verification, fulfillment, and manage sales transactions in a retail pharmacy setup.

Scope

The scope covers the following :

- Establish effective rapport with customers
- Respond appropriately to customers
- Communicate information to customers

Elements and Performance Criteria

Prescription Validation and Customer Need Assessment

To be competent, the user/individual on the job must be able to:

- PC1.** identify customer needs by asking relevant and compliant questions regarding symptoms or prescription requirements.
- PC2.** identify the goods that will meet customers needs and check with customers that these are satisfactory.
- PC3.** Verify the validity of prescriptions, including the prescriber's details, drug schedule category, date, dosage, and duration, as per applicable legal standards.
- PC4.** Ensure that the prescribed drugs are permitted for dispensing and are not expired, forged, or falling under restricted supply without proper authorization.
- PC5.** give customers clear, accurate and complete information about the availability of goods and the terms of supply.

Schedule Drug Handling and Regulatory Compliance

To be competent, the user/individual on the job must be able to:

- PC6.** Identify whether requested drugs fall under Schedule H, H1, X, or other restricted categories and follow proper protocols before processing.
- PC7.** Maintain documentation such as prescription copies and pharmacist's verification records for scheduled drugs, as per statutory norms.
- PC8.** prepare accurate, clear and complete information about the order & pass this information to people responsible for fulfilment.
- PC9.** Inform customers about potential side effects, dosage, contraindications, and regulatory restrictions, particularly for scheduled substances.

E-Order Processing and Fulfilment

To be competent, the user/individual on the job must be able to:

- PC10.** Accurately input customer orders into the e-order system, ensuring product selection aligns with prescription details and stock availability.

Qualification Pack

- PC11.** Follow legal and organizational procedures to verify customer identity, especially for online orders involving prescription and scheduled medicines.
- PC12.** Provide real-time updates on order status, dispatch, and expected delivery through the e-order management system.
- PC13.** Communicate promptly and clearly with customers if ordered products are unavailable or if the delivery timeline changes.

Compliance Documentation and Data Security

To be competent, the user/individual on the job must be able to:

- PC14.** Generate and maintain compliance documentation, including prescription logs, batch numbers, and invoice details, for audits and inspections.
- PC15.** Share order-related and prescription data only with authorized personnel and ensure secure digital and/or physical storage of customer records.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Organizational standards of grooming, behavior, and customer handling in a retail pharmacy.
- KU2.** Diversity considerations in customer engagement, including etiquette for customers with disabilities.
- KU3.** Key elements of a valid prescription, including prescriber details, dosage, schedule, and expiry.
- KU4.** Regulatory classifications (Schedule H, H1, X) and their documentation requirements.
- KU5.** Standard operating procedures for e-order processing in retail pharmacy systems.
- KU6.** Legal responsibilities of a supervisor in handling regulated drugs and customer transactions.
- KU7.** Record-keeping standards including audit trails, batch traceability, and sales compliance.
- KU8.** Importance of customer data confidentiality and adherence to data protection laws.
- KU9.** Credit policy protocols and procedures to manage credit limits for recurring customers.
- KU10.** Risk areas in pharmacy operations related to prescription fraud or dispensing errors.
- KU11.** Documentation and filing protocols for compliance and regulatory readiness.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate clearly and diplomatically with both customers and pharmacy staff.
- GS2.** Supervise and resolve team or customer issues using problem-solving techniques.
- GS3.** Apply decision-making skills in high-pressure or compliance-sensitive situations.
- GS4.** Use digital platforms for supervising inventory, prescriptions, and POS data entry.
- GS5.** Organize documentation and workflows to ensure timely regulatory compliance.
- GS6.** Adapt to new technologies and regulatory updates impacting pharmacy operations.
- GS7.** Demonstrate empathy and cultural sensitivity in customer interactions.
- GS8.** Communicate clearly and diplomatically with both customers and pharmacy staff.

Qualification Pack

GS9. Supervise and resolve team or customer issues using problem-solving techniques.

LFS/N5105: Supervise Manage Drug Storage, Inventory Rotation, and Stock Replenishment in Retail Pharmacy

Description

This NOS outlines the skills required to Supervise to manage Drug Storage, Inventory Rotation, and Stock Replenishment in Retail Pharmacy .

Scope

The scope covers the following :

- Prescription Validation and Customer Need Assessment
- Schedule Drug Handling and Regulatory Compliance
- E-Order Processing and Fulfilment
- Compliance Documentation and Data Security

Elements and Performance Criteria

Organize Storage Space Using Approved Shelf Layouts

To be competent, the user/individual on the job must be able to:

- PC1.** Arrange drug products as per defined shelf layout plans, ensuring proper segregation based on dosage forms, therapeutic classes, and storage conditions.
- PC2.** Label all shelves clearly to indicate drug category, storage temperature range, and hazard classifications where applicable.
- PC3.** Ensure restricted-access drugs (e.g., narcotics, psychotropics) are stored in designated, locked sections of the storage area.
- PC4.** Maintain adequate spacing between stock units to allow airflow and prevent cross-contamination.
- PC5.** Periodically review and update shelf layouts to accommodate new inventory, expired goods removal, or revised compliance guidelines.

Implement FIFO/FEFO for Efficient Inventory Rotation

To be competent, the user/individual on the job must be able to:

- PC6.** Apply First-In-First-Out (FIFO) for non-perishable or general drug products to ensure older stock is dispensed before newer stock.
- PC7.** Follow First-Expiry-First-Out (FEFO) for drugs with short shelf lives, ensuring products nearing expiry are prioritized for use or flagged.
- PC8.** Check and document batch numbers and expiry dates during every inward entry and physical stock audit.
- PC9.** Train staff on visual identification of expiry risk items and assign responsibility for regular expiry monitoring.
- PC10.** Ensure expired or short-expiry goods are separated immediately and marked for disposal as per SOPs.

Monitor and Document Temperature for Sensitive Stock

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC11.** Store temperature-sensitive products (e.g., vaccines, biologics, insulin) in temperature-controlled environments as per label instructions.
- PC12.** Use calibrated thermometers, data loggers, or automated monitoring systems to track storage conditions.
- PC13.** Record minimum and maximum temperatures at least twice daily, and maintain these logs for audit compliance
- PC14.** Investigate and report any deviation from specified temperature ranges immediately, following cold chain breach protocols.
- PC15.** Ensure alternate storage arrangements (e.g., backup refrigeration) are in place during power outages or equipment failures.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** standards of personal grooming and professional behavior expected in retail pharmacy supervision
- KU2.** Principles of effective verbal and non-verbal communication with diverse customer groups, including persons with disabilities
- KU3.** Drug classification systems including Schedule H, H1, and X, and associated handling and regulatory requirements
- KU4.** Inventory rotation techniques such as FIFO and FEFO and their impact on drug efficacy and safety
- KU5.** Usage of inventory management software and manual record-keeping systems in retail pharmacy
- KU6.** Procedures for verifying prescription validity including prescriber credentials and dosage accuracy
- KU7.** Documentation requirements for sales transactions, prescription logs, and inventory compliance
- KU8.** Vendor coordination processes including batch verification, expiry checks, and purchase requisition
- KU9.** Legal and ethical standards related to confidentiality and data protection of customer information
- KU10.** Methods to manage difficult customers professionally and calmly
- KU11.** Reporting and escalation protocols for stock shortages, regulatory non-compliance, and customer grievances
- KU12.** Regulatory frameworks governing drug storage, sales, and retail pharmacy operations
- KU13.** Risk management principles applicable to drug storage and cold chain maintenance

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate effectively with customers, vendors, and team members using appropriate verbal and non-verbal cues

Qualification Pack

- GS2.** Plan and organize daily operations to ensure smooth customer engagement and inventory management
- GS3.** Analyze sales and inventory data to identify trends and make informed decisions
- GS4.** Handle conflicts and difficult situations with customers or staff professionally and empathetically
- GS5.** Use digital tools and software for inventory tracking, documentation, and communication
- GS6.** Maintain confidentiality of sensitive information and adhere to ethical standards
- GS7.** Manage time effectively to balance supervision, customer service, and compliance monitoring
- GS8.** Report and escalate issues promptly to ensure continuous business operations
- GS9.** Adapt to changing business environments and incorporate new technological or regulatory requirements

LFS/N0666: Perform Pharmacovigilance, Promote Responsible Antibiotic Use, and Ensure Safe Handling of Controlled Substances

Description

This NOS covers the responsibilities of a retail pharmacy entrepreneur in practicing ethical pharmacy rules, identifying and reporting adverse drug reactions (ADRs) and ensuring rational use of antibiotics to combat antimicrobial resistance (AMR), and safe handling, dispensing, and disposal of controlled substances in compliance with legal and ethical standards.

Scope

The scope covers the following :

- Pharmacovigilance and Drug Safety
- Antimicrobial Resistance (AMR) and Antibiotic Stewardship
- Substance Abuse and Controlled Drug Handling

Elements and Performance Criteria

Pharmacovigilance and Drug Safety

To be competent, the user/individual on the job must be able to:

- PC1.** identify types of adverse drug reactions (ADRs) and describe their common causes.
- PC2.** describe the structure and function of national pharmacovigilance systems (e.g., PvPI).
- PC3.** explain international ADR databases and reporting tools like VigiFlow and VigiBase.
- PC4.** accurately complete a mock ADR reporting form using sample data.
- PC5.** demonstrate submission of an ADR report to PvPI using a demo form or digital tool.
- PC6.** maintain patient confidentiality and follow data handling procedures during ADR reporting.

Antimicrobial Resistance (AMR) and Antibiotic Stewardship

To be competent, the user/individual on the job must be able to:

- PC7.** describe the causes of antimicrobial resistance (AMR) and its impact on treatment outcomes.
- PC8.** classify antibiotics using WHO AWARE classification: Access, Watch, and Reserve.
- PC9.** demonstrate patient counseling on safe and rational use of antibiotics.
- PC10.** sort and categorize antibiotics from a given list under AWARE categories..
- PC11.** prepare an awareness poster or leaflet highlighting antibiotic misuse and AMR risks.

Substance Abuse and Controlled Drug Handling

To be competent, the user/individual on the job must be able to:

- PC12.** identify behavioral and physical signs of substance abuse in patients.
- PC13.** describe the pharmacist responsibilities in early intervention counseling and referrals for substance abuse.
- PC14.** explain regulations for safe storage, dispensing, and disposal of narcotics and Schedule H/ X drugs.
- PC15.** demonstrate correct procedures for disposal of expired or unused narcotics.

Qualification Pack

PC16. design and display educational material on drug abuse prevention and rehabilitation resources

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Types, signs, and causes of adverse drug reactions (ADRs)
- KU2.** Structure and objectives of India Pharmacovigilance Programme (PvPI)
- KU3.** Tools and global databases for ADR reporting (e.g., VigiBase, VigiFlow)
- KU4.** Basics of clinical trial phases related to drug safety monitoring
- KU5.** WHO AWARE classification of antibiotics and its use
- KU6.** India National Action Plan on AMR and pharmacist role in its implementation
- KU7.** Best practices for antibiotic stewardship and patient education
- KU8.** Regulatory requirements for controlled drugs (Schedule H/X, narcotics)
- KU9.** Proper disposal techniques for expired or unused controlled substances
- KU10.** Ethical responsibilities in identifying substance abuse and guiding affected individuals

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate effectively with patients about ADRs, antibiotic use, and substance risks
- GS2.** Use digital tools or forms to accurately report pharmacovigilance data
- GS3.** Maintain data confidentiality during ADR or substance-related reporting
- GS4.** Educate the public through posters, leaflets, or counseling on AMR and drug abuse
- GS5.** Identify misuse patterns and intervene sensitively in potential substance abuse cases
- GS6.** Collaborate with healthcare providers for referrals or escalations
- GS7.** Follow procedures for handling restricted drugs as per compliance standards
- GS8.** Remain updated on evolving drug safety and AMR protocols
- GS9.** Prioritize patient safety and uphold professional ethics in handling sensitive issues
- GS10.** Organize awareness campaigns or materials promoting safe medication practices

LFS/N0675: Comply EHS Rules and sanitization protocol at retail pharmacy in Compliance with Good Storage Area Practices

Description

This NOS outlines the role of micro-entrepreneur in ensuring environmental, health, and safety (EHS) rules, sanitization protocols and waste disposal at retail pharmacy as per Good Storage Practices (GSP), local laws and regulations for a compliant workplace.

Scope

The scope covers the following :

- Compliance with health, hygiene, and safety protocols
- workplace hazards and emergencies
- safe and compliant storage practices
- Manage waste and expired items responsibly
- workplace security and legal compliance

Elements and Performance Criteria

Compliance with health, hygiene, and safety protocols

To be competent, the user/individual on the job must be able to:

- PC1.** Adhere to company and legal health, hygiene, and safety procedures for retail pharmacy.
- PC2.** Maintain grooming standards and personal hygiene as per organizational guidelines.
- PC3.** Monitor and document daily housekeeping and cleaning tasks in the pharmacy.
- PC4.** Conduct safety awareness activities for pharmacy staff and customers.

workplace hazards and emergencies

To be competent, the user/individual on the job must be able to:

- PC5.** Recognize fire hazards, medical risks, theft indicators, and other potential emergencies.
- PC6.** Initiate appropriate emergency response actions such as raising alarms or notifying the manager.
- PC7.** Participate in scheduled mock drills for fire, lockdowns, and earthquake preparedness.
- PC8.** Escalate incidents such as equipment malfunction or safety breaches to responsible authorities.

safe and compliant storage practices

To be competent, the user/individual on the job must be able to:

- PC9.** Apply proper segregation, labeling, and storage methods for medicines and pharmacy equipment.
- PC10.** Follow Good Storage Practices (GSP) and 5S methodology to organize the storage area.
- PC11.** Conduct routine inspection of refrigeration and ventilation systems for compliance.
- PC12.** Document temperature logs and ensure maintenance of cold chain for sensitive products.

Manage waste and expired items responsibly

To be competent, the user/individual on the job must be able to:

Qualification Pack

PC13. Identify and segregate biomedical waste, expired medicines, and hazardous materials.

PC14. Adhere to prescribed biomedical waste disposal protocols and maintain related records.

PC15. Communicate clearly with vendors or agencies responsible for waste collection.

workplace security and legal compliance

To be competent, the user/individual on the job must be able to:

PC16. Implement store-level security protocols to prevent loss or damage of inventory.

PC17. Support audits and inspections by maintaining and presenting required documents.

PC18. Follow POSH (Sexual Harassment of Women at Workplace) Act guidelines at the pharmacy.

PC19. Maintain confidentiality of customer records and prescription data.

PC20. Use PPE correctly and encourage staff to follow SOPs during all tasks.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Legal and organizational EHS policies for retail pharmacies

KU2. Personal hygiene and grooming standards for medical retail

KU3. Hazard identification and emergency response protocols

KU4. Use of fire safety equipment, emergency exits, and evacuation drills

KU5. Principles of Good Storage Practices (GSP) and the 5S methodology

KU6. Biomedical waste categories and disposal procedures

KU7. Cold chain maintenance for temperature-sensitive products

KU8. Equipment monitoring and maintenance standards

KU9. POSH Act provisions and anti-harassment measures at the workplace

KU10. Store security, inventory protection, and legal documentation processes

KU11. Confidential handling of patient records and digital data security

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Maintain personal hygiene and support a clean pharmacy environment

GS2. Perform daily housekeeping and sanitization tasks effectively

GS3. Identify risks like fire, medical issues, or theft and take prompt action

GS4. Participate in safety drills and follow emergency protocols

GS5. Organize and label stock following GSP and 5S principles

GS6. Record and monitor storage conditions using logs or digital tools

GS7. Dispose of expired drugs and hazardous waste per regulatory standards

GS8. Communicate clearly with waste vendors and audit authorities

GS9. Maintain compliance records for inspections and audits

GS10. Encourage use of PPE and standard safety procedures among staff

GS11. Respect confidentiality and implement store-level safety and security measures

DGT/VSQ/N0103: Employability Skills (90 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** understand the significance of employability skills in meeting the current job market requirement and future of work
- PC2.** identify and explore learning and employability relevant portals
- PC3.** research about the different industries, job market trends, latest skills required and the available opportunities

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC4.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC5.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC6.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC7.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC8.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC9.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC10.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC11.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC12.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC13.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC14.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC15.** use active listening techniques for effective communication
- PC16.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC17.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC18.** communicate and behave appropriately with all genders and PwD
- PC19.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC20.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC21.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC22.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC23.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC24.** operate digital devices and use their features and applications securely and safely
- PC25.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC26.** display responsible online behaviour while using various social media platforms

Qualification Pack

- PC27.** create a personal email account, send and process received messages as per requirement
- PC28.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC29.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC30.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC31.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC32.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of customers and ways to communicate with them
- PC34.** identify and respond to customer requests and needs in a professional manner
- PC35.** use appropriate tools to collect customer feedback
- PC36.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC37.** create a professional Curriculum vitae (Résumé)
- PC38.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC39.** apply to identified job openings using offline /online methods as per requirement
- PC40.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC41.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills and different learning and employability related portals
- KU2.** various constitutional and personal values
- KU3.** different environmentally sustainable practices and their importance
- KU4.** Twenty first (21st) century skills and their importance
- KU5.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU6.** importance of career development and setting long- and short-term goals
- KU7.** about effective communication
- KU8.** POSH Act
- KU9.** Gender sensitivity and inclusivity
- KU10.** different types of financial institutes, products, and services

Qualification Pack

- KU11.** components of salary and how to compute income and expenditure
- KU12.** importance of maintaining safety and security in offline and online financial transactions
- KU13.** different legal rights and laws
- KU14.** different types of digital devices and the procedure to operate them safely and securely
- KU15.** how to create and operate an e- mail account
- KU16.** use applications such as word processors, spreadsheets etc.
- KU17.** how to identify business opportunities
- KU18.** types and needs of customers
- KU19.** how to apply for a job and prepare for an interview
- KU20.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by Life Sciences Sector Skill Development Council (LSSSDC)
2. Each Element will be assigned marks proportional to its importance in NOS. LSSSDC will also lay down the proportion of marks for Theory, Practical, Project, and Viva for each Element.
3. The assessment for the theory part will be based on the knowledge bank of questions created by the LSSSDC.
4. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
5. LSSSDC as assessment and awarding body will create unique evaluations for each assessment component i.e. theory, practical, project and viva for every student at each examination/training center based on this criterion.
6. Wherever any assessment component is not applicable/ feasible, the balance assessment components will be used to assess the candidate and accordingly the total marks will be calculated only for the applied

Qualification Pack

assessment component.

7. To pass the Qualification Pack, every trainee should score a minimum of 70% of marks in each NOS (depending on NSQF Level) to successfully clear the assessment. In the case of a Govt funded program, the program guidelines will be overarching on the pass percentage rules.

8. In case of unsuccessful completion, the trainee may seek re-assessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
