LSC/Q0501: Functional Analyst - WMS

Brief Job Description

The individual is responsible for working on the Functional and Technical Design of Warehouse Management System. Individual is also responsible for working with Warehouse End user to define the operation process and enabling users to consume Software. Individual should be able to define different user guides used by warehouse end users.

Personal Attributes

The individual should have good communication skills, analytical skills and professional values. S/he should be able to help operations team to solve problems and aid management in decision making. The role may require working additional hours from time to time.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [LSC/N0501: Operational Direction and Enablement of Strategic Vision - WMS](#)
2. [LSC/N0502: Identify Optimization opportunities for Industry/Domain - WMS](#)
3. [LSC/N0503: Lead the design and implementation of WMS in existing and new warehouses](#)
4. [LSC/N0504: Prepare documentation of various warehousing business processes](#)
5. [LSC/N9908: Maintain and monitor integrity and ethics in operations](#)
6. [LSC/N9902: Communicate effectively with colleagues and clients](#)
7. [LSC/N9910: Follow health, safety and security procedures at workplace](#)
8. [DGT/VSQ/N0103: Employability Skills \(90 Hours\)](#)

Qualification Pack

LSC/N0501: Operational Direction and Enablement of Strategic Vision - WMS

Description

This unit is about understanding the Organization vision and direction for Implementation of Warehouse systems in Greenfield or Brownfield Warehouses

Scope

The scope covers the following :

- Existing warehouse layouts design
- Future warehouse layouts design
- Design the Software to match warehouse layout

Elements and Performance Criteria

Existing warehouse layout

To be competent, the user/individual on the job must be able to:

- PC1.** Collect information on warehouse different Buildings
- PC2.** Obtain information on Mezzanine floor in the Warehouse Buildings
- PC3.** Obtain information on Aisles and Bays
- PC4.** Obtain information on different kinds of locations

Future warehouse layout (In case of Greenfield)

To be competent, the user/individual on the job must be able to:

- PC5.** Provide number of buildings needed based on amount of inventory to be stored
- PC6.** Provide number of buildings needed based on kind (hazardous vs non-hazardous) of inventory
- PC7.** Provide future number of aisles and bays
- PC8.** Provide the size and number of locations needed

Future warehouse layout (In case of Brownfield)

To be competent, the user/individual on the job must be able to:

- PC9.** Provide the re-aligned Aisles and Bays
- PC10.** Provide the re-aligned locations

Design the Software to match warehouse layout

To be competent, the user/individual on the job must be able to:

- PC11.** Enter number of buildings as per new warehouse layout
- PC12.** Define Logical areas and zones based on the new warehouse layout
- PC13.** Define the replenishment locations based on new warehouse layouts
- PC14.** Define Aisles, Bays and Locations naming methodology based on the Software compatibility

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** organizational procedure
- KU2.** different regions of the warehouse
- KU3.** demography of the local workforce
- KU4.** advanced computer knowledge
- KU5.** data analysis
- KU6.** flow chart preparation
- KU7.** warehouse design documentation

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read existing warehouse design document
- GS2.** read warehouse layout guidelines
- GS3.** read tags and labels
- GS4.** write label of different workflows
- GS5.** write warehouse process flows
- GS6.** write warehouse design documentations in a structured format
- GS7.** communicate with co-workers and supervisors
- GS8.** collect information from supervisors, associates, and peers
- GS9.** conduct advanced checks and verify the accuracy of the data provided
- GS10.** identify errors in layout and make correction and document the changes
- GS11.** draw inferences and conclusions based on trend analysis
- GS12.** maintain punctuality
- GS13.** plan for timely collection of data from warehouse users
- GS14.** be a team player and achieve joint goals
- GS15.** adhere to customer timelines
- GS16.** address urgency of customers
- GS17.** Speak politely with customer and take feedback constructively
- GS18.** Identify common trends as per analysis and implement the same in new layouts
- GS19.** implement possible solutions for the common issues in daily operations based on information
- GS20.** identify the processes and layouts to mitigate possible future failures
- GS21.** analyse trends to identify defaults for corrective action as needed
- GS22.** observe the warehouse layouts and accordingly make future changes
- GS23.** cross check the layouts as per the inventory flow and ensure the traffic in warehouse is never too busy at one place

Qualification Pack

LSC/N0502: Identify Optimization opportunities for Industry/Domain - WMS

Description

This unit is about understanding the Existing warehouse operations, areas of improvement and impact of change operations in overall Business Perspective

Scope

The scope covers the following :

- Warehouse Operations Familiarization
- Receiving methodologies against Purchase Order, Receipts and provide process improvements
- Pick methodologies and overall, TAT to pick one Unit (Pallet/Case/Each) and provide process improvements
- Different packing methodologies and provide process improvements
- Areas of improvement in the overall process which matches with implemented Software

Elements and Performance Criteria

Warehouse Operations Familiarization

To be competent, the user/individual on the job must be able to:

- PC1.** Prepare process flow chart after understanding the operations
- PC2.** Prepare process flow document after understanding the operations
- PC3.** Prepare user guides for warehouse operations

Receiving methodologies against Purchase Order, Receipts and provide process improvements

To be competent, the user/individual on the job must be able to:

- PC4.** Calculate the number of clicks required to receive against purchase orders
- PC5.** Calculate the distance required to collect the receipts generated from Printer
- PC6.** Design system to reduce the number of clicks by defining an optimized process flow
- PC7.** Design process to reduce the travel time by receiving operator to collect the receipts

Pick methodologies and overall, TAT to pick one Unit (Pallet/Case/Each) and provide process improvements

To be competent, the user/individual on the job must be able to:

- PC8.** Calculate the number of clicks required to pick 1 Pallet/Case/Each
- PC9.** Calculate the total turnaround time to do the picking 1 Pallet/Case/Each
- PC10.** Design system to reduce the number of clicks by defining an optimized process flow
- PC11.** Design picking process to reduce the turnaround time while picking

Different packing methodologies and provide process improvements

To be competent, the user/individual on the job must be able to:

- PC12.** Calculate the carbon emission in the entire packing process
- PC13.** Calculate the time taken to pack each case

Qualification Pack

PC14. Reduce carbon emission to optimize the packing process by reducing the Packing labels

PC15. Design packing process to reduce the time taken for packing

Proposing areas of improvement in the overall process which matches with implemented Software

To be competent, the user/individual on the job must be able to:

PC16. Propose area of improvement in the Inventory management

PC17. Propose area of improvement in the Quality process

PC18. Propose area of improvement in the Return process

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. organizational procedure

KU2. different regions of the warehouse

KU3. demography of the local workforce

KU4. advanced computer knowledge

KU5. data analysis

KU6. flow chart preparation

KU7. warehouse design documentation

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. existing warehouse design document

GS2. warehouse layout guidelines

GS3. tags and labels

GS4. label of different workflows

GS5. warehouse process flows

GS6. warehouse design documentations in a structured format

GS7. communicate with co-workers and supervisors

GS8. collect information from supervisors, associates, and peers

GS9. conduct advanced checks and verify the accuracy of the data provided

GS10. identify errors in warehousing process and make correction and document the changes

GS11. draw inferences and conclusions based on trend analysis

GS12. maintain punctuality

GS13. plan for timely collection of data from warehouse users

GS14. be a team player and achieve joint goals

GS15. adhere to customer timelines

GS16. address urgency of customers

GS17. Speak politely with customer and take feedback constructively

GS18. Identify common trends as per analysis and implement the same in new workflows

Qualification Pack

- GS19.** implement possible solutions for the common issues in daily operations based on information
- GS20.** identify the workflow and planning process to mitigate possible future failures
- GS21.** analyse trends to identify defaults for corrective action as needed
- GS22.** observe the shipment planning process and accordingly make future changes
- GS23.** cross check the data at various master data level and ensure the sanity

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Warehouse Operations Familiarization</i>	6	12	-	1
PC1. Prepare process flow chart after understanding the operations	2	4	-	-
PC2. Prepare process flow document after understanding the operations	2	4	-	1
PC3. Prepare user guides for warehouse operations	2	4	-	-
<i>Receiving methodologies against Purchase Order, Receipts and provide process improvements</i>	8	16	-	2

LSC/N0503: Lead the design and implementation of WMS in existing and new warehouses

Description

This unit is about design and implementation of WMS software in existing and new warehouses.

Scope

The scope covers the following :

- Designing WMS Processes in Implementation cycle.
- Designing integration touch points with upstream and downstream systems

Elements and Performance Criteria

Designing WMS Processes in Implementation cycle

To be competent, the user/individual on the job must be able to:

- PC1.** Collect the requirement from Business users after discussing the different Business processes.
- PC2.** Perform As-Is analysis and document the processes.
- PC3.** Assist Business Users in explaining the document and revise the document with Review comments.
- PC4.** Prepare Business Requirement Document and get a sign off from Business
- PC5.** Prepare Gap analysis document after analyzing the several functionalities of WMS software being implemented.
- PC6.** Prepare Design document and mention the gaps identified from Software
- PC7.** Work with business users to amend the warehouse processes to minimize the Gaps, that involves processes while while receiving, picking, inventory management, packing, staging
- PC8.** There can be scenarios that Warehouse processes cannot be amended and GAPs remain in the processes. In that case work with Warehouse Management System software developer to develop the feature
- PC9.** Deploy the feature in WMS and proceed with rest of the design.
- PC10.** Configure the system as per the design document and perform Unit testing to ensure all the Business requirements are met.
- PC11.** Assist business users for UAT testing

Designing integration touchpoints with upstream and downstream systems

To be competent, the user/individual on the job must be able to:

- PC12.** Collect the integration touch points from upstream and downstream data view
- PC13.** Perform the data mapping after working with technical Team.
- PC14.** Deliver Technical Design document and work with technical team for a sign off

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** organizational procedure
- KU2.** different regions of the warehouse
- KU3.** demography of the local workforce
- KU4.** advanced computer knowledge
- KU5.** data analysis
- KU6.** flow chart preparation
- KU7.** warehouse design documentation
- KU8.** technical architecture of warehouse system

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read existing warehouse design document
- GS2.** read warehouse layout guidelines
- GS3.** read tags and labels
- GS4.** write label of different workflows
- GS5.** write warehouse process flows
- GS6.** write warehouse design documentations in a structured format
- GS7.** communicate with co-workers and supervisors
- GS8.** collect information from supervisors, associates, and peers
- GS9.** conduct advanced checks and verify the accuracy of the data provided
- GS10.** identify errors in warehouse process and make correction and document the changes
- GS11.** draw inferences and conclusions based on trend analysis
- GS12.** maintain punctuality
- GS13.** plan for timely collection of data from warehouse users
- GS14.** be a team player and achieve joint goals
- GS15.** adhere to customer timelines
- GS16.** address urgency of customers
- GS17.** Speak politely with customer and take feedback constructively
- GS18.** Identify common trends as per analysis and implement the same in new workflows
- GS19.** implement possible solutions for the common issues in daily operations based on information
- GS20.** identify the workflow and planning process to mitigate possible future failures
- GS21.** analyse trends to identify defaults for corrective action as needed
- GS22.** observe the warehouse layouts and accordingly make future changes
- GS23.** cross check the layouts as per the inventory flow and ensure the traffic in warehouse is never too busy at one place

LSC/N0504: Prepare documentation of various warehousing business processes

Description

This unit is about preparing documents for warehousing business processes

Scope

The scope covers the following :

- System user guide for warehouse end users

Elements and Performance Criteria

System user guide for Transportation End Users

To be competent, the user/individual on the job must be able to:

- PC1.** Work with Warehouse users to find the processes which need to be documented.
- PC2.** Observe the processes and identify different screens on RDT and WMS for which screenshots to be taken.
- PC3.** Prepare documents along with various screenshots and steps to perform various warehouse activities.
- PC4.** Work with Warehouse users to validate if operations can be performed with the steps.
- PC5.** Take the feedback from business users and amend the changes as necessary.
- PC6.** Provide a pictorial view of the processes with help of Flow diagram as necessary.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organizational procedure
- KU2.** different regions of the warehouse
- KU3.** demography of the local workforce
- KU4.** advanced computer knowledge
- KU5.** data analysis
- KU6.** flow chart preparation
- KU7.** warehouse design documentation
- KU8.** technical architecture of warehouse system

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** existing transportation design document

Qualification Pack

- GS2.** warehouse layout guidelines
- GS3.** tags and labels
- GS4.** label of different workflows
- GS5.** warehouse process flows
- GS6.** warehouse user guide documentations in a structured format
- GS7.** communicate with co-workers and supervisors
- GS8.** collect information from supervisors, associates, and peers
- GS9.** conduct advanced checks and verify the accuracy of the data provided
- GS10.** identify errors in warehouse processes and make correction and document the changes
- GS11.** draw inferences and conclusions based on trend analysis

LSC/N9908: Maintain and monitor integrity and ethics in operations

Description

This unit is about maintaining integrity, ensuring data security, and professional and ethical practice

Scope

The scope covers the following :

- Maintain integrity and ensure data security
- Professional and ethical practice
- Ensure regulatory compliance

Elements and Performance Criteria

Maintain integrity ensuring data security

To be competent, the user/individual on the job must be able to:

- PC1.** refrain from indulging in corrupt practices
- PC2.** protect customers information and ensure acquired information is not used for personal advantage
- PC3.** protect data and information related to business or commercial decisions

Professional and ethical practice

To be competent, the user/individual on the job must be able to:

- PC4.** sensitise the work force towards ethical behaviour in work place and performing job with integrity
- PC5.** conduct regular reviews and check reports for unethical behaviour and corrupt practices
- PC6.** consult senior management when in an ethical dilemma
- PC7.** report promptly all violations of code of ethics
- PC8.** dress up and conduct in a professional manner
- PC9.** communicate with clients and stakeholders in a soft and polite manner
- PC10.** follow etiquettes

Ensure regulatory compliance

To be competent, the user/individual on the job must be able to:

- PC11.** check that that documentation with respect to operations is up to date and in accordance to the regulations
- PC12.** coordinate with regulatory authorities and assist in inspections and clearances
- PC13.** report any issues with regulatory compliance

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on use of language

Qualification Pack

- KU2.** companys Human Resources policies
- KU3.** companys code of ethics and business
- KU4.** companys whistle blower policy
- KU5.** companys rules related to sexual harassment
- KU6.** companys reporting structure
- KU7.** companys documentation policy
- KU8.** principles of code of ethics and business ethics
- KU9.** different regulations and acts that are applicable for the sub-sector and logistics sector as a whole
- KU10.** understand the documentary compliance required for different type of products

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read policy documents and work related documents
- GS2.** read emails letters and communications
- GS3.** read acts and regulations
- GS4.** write instructions, communications to internal staff
- GS5.** write emails and letters
- GS6.** write reports
- GS7.** interact with internal and external stakeholders
- GS8.** communicate with peers and subordinates
- GS9.** take appropriate action in a vulnerable situation
- GS10.** identify breaches and take necessary actions
- GS11.** identify documentary requirement for a specific product or regulation and take necessary action
- GS12.** plan and organise steps/ actions as per companys guidelines, if any violation of code of ethics is noticed in the company
- GS13.** plan and organise training sessions, sensitization sessions for work force
- GS14.** plan review meetings to monitor compliance with ethics and regulations
- GS15.** prevent company and customer information leakage
- GS16.** provide proper advice or guidance to colleagues to deal with sensitive issue
- GS17.** suggest solutions to managers and workers when in an ethical dilemma
- GS18.** identify conflict of interests and take necessary actions
- GS19.** review reports to identify common trends of defaults
- GS20.** conduct review to analyse the reasons for default
- GS21.** check that all regulatory compliances are adhered to
- GS22.** check that any unethical behaviour gets captured before a damage or negative impact happens

Qualification Pack

LSC/N9902: Communicate effectively with colleagues and clients

Description

This OS unit is about coordinating and communicating effectively with seniors, colleagues and clients to achieve a smooth workflow

Scope

The scope covers the following :

- Interact with seniors
- Communicate with colleagues
- Communicate effectively with clients

Elements and Performance Criteria

Interacting with seniors

To be competent, the user/individual on the job must be able to:

- PC1.** understand the work output requirements, targets, performance indicators and incentives
- PC2.** deliver quality work on time and report any anticipated reasons for delays
- PC3.** escalate unresolved problems or complaints to the relevant superior
- PC4.** communicate project progress proactively to the superior
- PC5.** receive feedback on work standards
- PC6.** document the completed work schedule and handover to the superior

Communicating with colleagues

To be competent, the user/individual on the job must be able to:

- PC7.** exhibit trust, support and respect to all the colleagues in the workplace
- PC8.** aim to achieve hassle free cold chain operation
- PC9.** help and assist colleagues with information and knowledge
- PC10.** seek assistance from the colleagues when required
- PC11.** identify the potential and existing conflicts with the colleagues and resolve
- PC12.** pass on essential information to other colleagues on timely basis
- PC13.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behaviors to the colleagues
- PC14.** interact with colleagues from different departments: ripening chamber, cold storage, transport, packhouse etc to effectively carry out the work among the team and understand the nature of their work
- PC15.** put team over individual goals and multi task or share work where necessary supporting the colleagues
- PC16.** highlight any errors of colleagues, help to rectify and ensure quality output
- PC17.** work with cooperation, coordination, communication and collaboration, with shared goals and supporting each others performance

Communicating effectively with clients

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC18.** ask relevant questions to the client and identify their needs
- PC19.** possess strong knowledge on market and cold chain operation
- PC20.** brief the client clearly on potential costs and challenges involved in the cold chain industry
- PC21.** communicate with the client in a polite, professional and friendly manner
- PC22.** build effective but impersonal relationship with the client
- PC23.** ensure the appropriate language and tone are used with clients
- PC24.** listen actively and have a two way communication
- PC25.** be sensitive to the gender, cultural and social differences such as modes of greeting, formality, etc.
- PC26.** understand the client expectations correctly and provide the appropriate products and services
- PC27.** understand the client dissatisfaction and address or escalate their complaints effectively
- PC28.** maintain a positive, sensible and cooperative manner all time
- PC29.** ensure to maintain a proper body language, dress code, gestures and etiquettes towards the client
- PC30.** avoid interrupting the client while they talk
- PC31.** ensure to avoid negative questions and statements to the client
- PC32.** inform the client on any issues or problems before hand and also on the developments involving them
- PC33.** ensure to respond back to the client immediately for their voice messages, e-mails, apps, etc.
- PC34.** develop good rapport with the client and promote other products and services
- PC35.** seek feedback from the client on their understanding to what was discussed
- PC36.** explain the terms and conditions clearly

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys HR policies on personnel management
- KU2.** companys reporting structure
- KU3.** occupational health and safety standards
- KU4.** cold storageplant inspection checklist
- KU5.** companys sanitary standard operating procedures
- KU6.** procedures to follow during emergency maintenance issues
- KU7.** technical standards for design and construction of cold storages: Bureau of Indian standards(BIS), International standard(ISO) etc
- KU8.** methods for effective communication with various categories of people and the different departments in the organization
- KU9.** significance of team coordination and productivity targets of the organisation
- KU10.** how to record the job activity as required on various types of documents

Qualification Pack

- KU11.** how to use computer or smartphone to communicate effectively and productively
- KU12.** significance of helping colleagues with specific issues and problems
- KU13.** importance of meeting quality and time standards as a team
- KU14.** how to practice effective listening and talking
- KU15.** effective use of voice tone and pitch for communication
- KU16.** how to demonstrate ethics and convey discipline to the clients
- KU17.** how to build effective working relationship with mutual trust and respect within the team
- KU18.** importance of dealing with grievances effectively and in time
- KU19.** safe storage and handling of chemicals like refrigerants, ammonia, ethylene etc
- KU20.** loading and unloading systems
- KU21.** standard operating procedure for safety drills and equipment maintenance
- KU22.** operation of machines: compressor, condensor, evaporator etc
- KU23.** emergency procedures to be followed in case of a mishap such as fire, accidents, etc. and communication of safety instructions to subordinate staff
- KU24.** emergency responses in case of malfunctioning of refrigeration equipment as a whole or its components like evaporator, condenser or compressor
- KU25.** solid, liquid and gaseous waste disposal, treatment norms and equipment
- KU26.** necessary action to be taken for the hazards identified
- KU27.** knowledge of Quality systems like BRC, FSSAI, ISO, FSSC, HACCP etc
- KU28.** Maintain food and personnel safety, health and hygiene in cold storage plant

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret the relevant organisation policies, procedures and diagrams that identify health, safety and safe environmental practices.
- GS2.** read notes/comments from the senior
- GS3.** fill up documentation pertaining to job requirement
- GS4.** interact with team members to work efficiently
- GS5.** communicate effectively with senior to achieve smooth workflow
- GS6.** communicate effectively with the clients to build a good rapport with them
- GS7.** use language that the client or colleague understands
- GS8.** use the communication systems of the company, e.g., telephone, fax, public announcement systems
- GS9.** E-mail and use Internet for communicating
- GS10.** use of audio-visual aids to communicate complex issues
- GS11.** spot and communicate potential areas of disruptions to work process and report the same
- GS12.** report to supervisor and deal with a colleague individually, depending on the type of concern
- GS13.** plan communication strategy in order to avoid conflicts and work disruption
- GS14.** practice patient listening, careful talking and paraphrasing in order to avoid misunderstanding

Qualification Pack

- GS15.** coordinate with different departments and multi-task as necessary
- GS16.** contribute to quality of team work and achieve smooth workflow
- GS17.** share work load as required
- GS18.** delegate work in consultation with senior or as necessary instead of allowing work to pile up
- GS19.** resolve recurring inter-personal conflicts by clear and two-way dialogue
- GS20.** improve work processes by interacting with others and adopting best practices
- GS21.** take care of personal and equipment protection
- GS22.** identify the hazards and suggest possible solutions
- GS23.** use safety equipment such as fire extinguisher during fire accidents
- GS24.** store tools in a safe way
- GS25.** analyse the seriousness of the hazards
- GS26.** evolve smooth workflow by avoiding hazards at workplace
- GS27.** evaluate and apply the possible solutions for the hazards, as necessary

LSC/N9910: Follow health, safety and security procedures at workplace

Description

This unit deals in detail with application of health, safety and security procedures in the workplace

Scope

The scope covers the following :

- Follow health, safety and security measures during all activities
- Maintain a healthy and hygienic workplace
- Handle emergency situations

Elements and Performance Criteria

Follow health, safety and security measures during all activities

To be competent, the user/individual on the job must be able to:

- PC1.** Comply with safety regulations and procedures to avoid fire hazards, biohazards, etc.
- PC2.** Wear all safety equipment including protective gear, helmets etc., at relevant bay areas.
- PC3.** Follow organization procedures with respect to documentation.
- PC4.** Recognise unsafe conditions and safety practices at the workplace and report it to concerned authority.

Maintain a healthy and hygienic workplace

To be competent, the user/individual on the job must be able to:

- PC5.** Keep the workplace organized.
- PC6.** Ensure that the work area and supplies are cleaned regularly.
- PC7.** Comply with data safety regulations of the organisation.
- PC8.** Maintain clear worktable area.
- PC9.** Maintain personal hygiene and wash hands regularly using soap and water or alcohol-based sanitiser.
- PC10.** Undertake periodical preventive health check ups.
- PC11.** Participate in fire drills.
- PC12.** Follow 5S at workplace.

Handle emergency situations

To be competent, the user/individual on the job must be able to:

- PC13.** Act immediately during emergency situations and move to safety.
- PC14.** Perform rescue activity according to instructions received and assist those in need.
- PC15.** Provide first aid to affected victims e.g., in case of bleeding, burns, choking, electric shock, poisoning etc.
- PC16.** In case of fire, follow fire safety practices
- PC17.** Perform the steps involved in fire safety drill.
- PC18.** Follow procedures to rescue victim of fire without endangering self.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health Safety and Environment (HSE) practices
- KU2.** Relevant Occupational Health and Safety (OHS) regulations
- KU3.** Enterprise /site emergency procedures and techniques
- KU4.** Procedures for recording, reporting and maintenance of workplace safety and hygiene
- KU5.** Meaning of hazards and risks
- KU6.** Health and safety hazards commonly present in the work environment and related precautions
- KU7.** Possible causes of risk, hazard or accident in the workplace
- KU8.** Where to find all the general health and safety equipment in the workplace
- KU9.** Various dangers associated with the use of electrical equipment
- KU10.** Preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU11.** Importance of using protective clothing/equipment while working
- KU12.** Precautionary activities to prevent the fire accident
- KU13.** Various causes of fire
- KU14.** Techniques of using the different fire extinguishers
- KU15.** Different methods of extinguishing fire
- KU16.** Different materials used for extinguishing fire
- KU17.** Rescue techniques applied during a fire hazard
- KU18.** Various types of safety signs and their meaning
- KU19.** Appropriate basic first aid treatment relevant to the condition e.g. shock, electrical shock, bleeding, breaks to bones, minor burns, resuscitation, poisoning, eye injuries
- KU20.** Safe lifting and carrying practices

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write Health and safety compliance report
- GS2.** Interpret general health and safety guidelines
- GS3.** Communicate general health and safety guidelines to co workers
- GS4.** Take decision about the corrective action to be taken in case of any potential hazards

- PC5.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC6.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC7.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC8.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC9.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC10.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC11.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC12.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC13.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC14.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC15.** use active listening techniques for effective communication
- PC16.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC17.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC18.** communicate and behave appropriately with all genders and PwD
- PC19.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC20.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC21.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC22.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC23.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC24.** operate digital devices and use their features and applications securely and safely
- PC25.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC26.** display responsible online behaviour while using various social media platforms

Qualification Pack

- PC27.** create a personal email account, send and process received messages as per requirement
- PC28.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC29.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC30.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC31.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC32.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of customers and ways to communicate with them
- PC34.** identify and respond to customer requests and needs in a professional manner
- PC35.** use appropriate tools to collect customer feedback
- PC36.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC37.** create a professional Curriculum vitae (Résumé)
- PC38.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC39.** apply to identified job openings using offline /online methods as per requirement
- PC40.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC41.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills and different learning and employability related portals
- KU2.** various constitutional and personal values
- KU3.** different environmentally sustainable practices and their importance
- KU4.** Twenty first (21st) century skills and their importance
- KU5.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU6.** importance of career development and setting long- and short-term goals
- KU7.** about effective communication
- KU8.** POSH Act
- KU9.** Gender sensitivity and inclusivity
- KU10.** different types of financial institutes, products, and services

Qualification Pack

- KU11.** components of salary and how to compute income and expenditure
- KU12.** importance of maintaining safety and security in offline and online financial transactions
- KU13.** different legal rights and laws
- KU14.** different types of digital devices and the procedure to operate them safely and securely
- KU15.** how to create and operate an e- mail account
- KU16.** use applications such as word processors, spreadsheets etc.
- KU17.** how to identify business opportunities
- KU18.** types and needs of customers
- KU19.** how to apply for a job and prepare for an interview
- KU20.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion
5. To pass the Qualification Pack, every trainee should score a minimum of 70% for NSQF level 4 & above job roles and 50% for NSQF level 1 to 3 job roles
6. In case of unsuccessful completion, the trainee may seek re-assessment on the Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
