LSS/Q0701: Post Tanning Machine Operator

Brief Job Description

A Post Tanning Machine Operator performs the process of converting the crust leather into finished leather. These operations include softening of the crust, flattening it and finishing the surface of the prefinished leather by pressing/embossing on it.

Personal Attributes

Operator should have good hand-eye co-ordination, judgment in positioning and toggling, staking, de-dusting and pressing, motor skills and vision (including near vision, distance vision, color vision, peripheral vision), depth perception and ability to change focus. Also should have basic estimation and numerical skills.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [LSS/N0701: Carry out staking operations](#)
2. [LSS/N0702: Carry out toggling operations](#)
3. [LSS/N0703: Carry out de-dusting operations](#)
4. [LSS/N0704: Carry out embossing operations](#)
5. [LSS/N0705: Contribute to achieving product quality in post tanning operations](#)
6. [LSS/N8501: Maintain the work area, tools and machines](#)
7. [LSS/N8601: Maintain health, safety and security at workplace](#)
8. [LSS/N8701: Comply with industry, regulatory and organizational requirements](#)

Qualification Pack

LSS/N0701: Carry out staking operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for carrying out staking operations in preparing finished leather.

Scope

This unit/task covers the following:

- Preparatory Work
- Staking operations
- Reporting & Documentation
- Sorting & Placing

Elements and Performance Criteria

Preparatory Work

To be competent, the user/individual on the job must be able to:

- PC1.** make sure the work area is free from hazards
- PC2.** obtain and check the data on the work ticket or job card
- PC3.** ask questions to obtain more information on tasks when the instructions you have are unclear
- PC4.** select and sort the materials for the work
- PC5.** set the machine according to the use of the finished leather
- PC6.** make sure that tools are safe and clean to use on the material
- PC7.** ask questions to obtain more information on tasks when the instructions you have are unclear

Staking operations

To be competent, the user/individual on the job must be able to:

- PC8.** in case of a vibrating staking machine, feed in the pre finished leather piece into the machine
- PC9.** in case of hand staking machine, hold the pre finished leather piece in the machine to get the quality of the leather
- PC10.** repeat process and adjust the prefinished leather piece to ensure staking of full piece
- PC11.** pile the staked pieces to assist the next operation
- PC12.** stake the pre finished leather to the quality standard required
- PC13.** produce the required batch of components to match the job card and the companys production targets
- PC14.** dispose of waste materials safely and return re-useable material
- PC15.** minimize wastage during staking

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

Qualification Pack

PC16. report any damaged work to the responsible person

PC17. follow company reporting procedures about defective tools and machines which affect work

Sorting & Placing

To be competent, the user/individual on the job must be able to:

PC18. sort and place work to assist the next stage of production and minimise the risk of damage

PC19. carry out closedown procedures on completion of work

PC20. leave work area safe and secure when work is complete

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. responsibilities and line of reporting within the work area

KU2. protocol to obtain more information on work related tasks

KU3. organizational policies and procedures

KU4. work target and review mechanism with your supervisor

KU5. protocol and format for reporting work related risks/ problems

KU6. contact person in case of queries on procedure or products

KU7. common hazards in the work area and procedures for dealing with them

KU8. procedures for handling the tools and equipment

KU9. procedures with regard to material re-usage and disposal

KU10. quality standards and the reporting procedures

KU11. documentation required as part of the process

KU12. reading, writing and understanding numbers

KU13. method to handle hides and materials and avoid making them unusable

KU14. equipment operating procedures

KU15. method to assess when the pre finished leather is ready for staking

KU16. knowledge of characteristics and appearance of staked leather

KU17. purpose and benefit of staking leather in the production of finished leather

KU18. common faults in tools and equipment and implications of working

KU19. with faulty equipment

KU20. method of sharing domain related information with team members

KU21. identification of tools, equipment and settings needed for the operation

KU22. manufacturers instructions

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. write in English/ local language as applicable

GS2. fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company

Qualification Pack

- GS3.** read English/ local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan work according to the required schedule and location
- GS10.** produce as per the specified productivity targets
- GS11.** organise the required materials sequentially
- GS12.** evaluate the pre- finished leather and ensure staking is as per customer standards
- GS13.** review the defects and take appropriate actions
- GS14.** evaluate and assess the pre finished leather for any modifications and corrections
- GS15.** assess and control the quality standards of semi-finished leather as per customer standards

LSS/N0702: Carry out toggling operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for carrying out toggling operations in preparing finished leather.

Scope

This unit/task covers the following:

- Preparatory Work
- Toggling operation
- Reporting & Documentation
- Sorting & Placing

Elements and Performance Criteria

Preparatory Work

To be competent, the user/individual on the job must be able to:

- PC1.** make sure the work area is free from hazards
- PC2.** obtain and check the data on the work ticket or job card
- PC3.** ask questions to obtain more information on tasks when the instructions you have are unclear
- PC4.** select and sort the materials for the work
- PC5.** set the machine according to the use of the finished leather
- PC6.** make sure that tools are safe and clean to use on the material
- PC7.** ask questions to obtain more information on tasks when the instructions you have are unclear

Toggling operation

To be competent, the user/individual on the job must be able to:

- PC8.** ensure that the raw material has undergone staking
- PC9.** adjust temperature as per type of leather
- PC10.** adjust run time and speed as per type of leather
- PC11.** ensure that no creases are formed during toggling process
- PC12.** perform toggling as per the quality standard required
- PC13.** produce the required batch of components to match the job card and the company's production targets
- PC14.** minimize wastage during toggling
- PC15.** dispose of waste materials safely and return reusable material

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

- PC16.** report any damaged work to the responsible person

Qualification Pack

PC17. follow company reporting procedures about defective tools and machines which affect work
Sorting & Placing

To be competent, the user/individual on the job must be able to:

PC18. sort and place work to assist the next stage of production and minimize the risk of damage

PC19. carry out closedown procedures of the toggling machine on completion of work

PC20. leave work area safe and secure when work is complete

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

LSS/N0703: Carry out de-dusting operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for carrying out de-dusting operations while preparing finished leather.

Scope

This unit/task covers the following:

- De-dusting operation

Elements and Performance Criteria

De-dusting operation

To be competent, the user/individual on the job must be able to:

- PC1.** confirm that the identity and quantity of the material received matches the work ticket
- PC2.** accurately follow the information contained on the work ticket
- PC3.** handle and transport material, including hides, skins, leather, in the most effective manner and in the correct sequence
- PC4.** follow the start-up sequences and operate the equipment controls correctly
- PC5.** complete the process to the specified standard required for the next operation
- PC6.** ask questions to obtain more information on tasks when the instructions you have are unclear
- PC7.** report risks/ problems likely to affect services to the relevant person promptly and accurately
- PC8.** agree and review your agreed upon work targets with your supervisor

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** responsibilities and line of reporting within the work area
- KU2.** protocol to obtain more information on work related tasks
- KU3.** organizational policies and procedures
- KU4.** work target and review mechanism with your supervisor
- KU5.** protocol and format for reporting work related risks/ problems
- KU6.** contact person in case of queries on procedure or products
- KU7.** common hazards in the work area and procedures to deal with them
- KU8.** procedures for handling the tools and equipment
- KU9.** procedures with regard to material re-usage and disposal
- KU10.** quality standards and the reporting procedures
- KU11.** documentation required as part of the process
- KU12.** the main types and characteristics of hides, skins or leather produced by the company

Qualification Pack

- KU13.** the purpose of de-dusting in the production process
- KU14.** capabilities of the de-dusting machine
- KU15.** the appearance of de-dusted leather
- KU16.** the ways by which material can be contaminated or damaged during processing and the effects on quality
- KU17.** importance of essential information shared with the right authority
- KU18.** the correct sequence for shutting equipment down
- KU19.** maintenance duties in terms of identifying equipment faults
- KU20.** knowledge to deal with changes to the production schedule
- KU21.** the action to be taken when correct material for work is not available

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company

LSS/N0704: Carry out embossing operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for carrying out embossing also known as pressing or printing operations while preparing finished leather.

Scope

This unit/task covers the following:

- Embossing operation
- Reporting & Documentation
- Sorting & Placing

Elements and Performance Criteria

Embossing operation

To be competent, the user/individual on the job must be able to:

- PC1.** confirm that the identity and quantity of the material received matches the work ticket
- PC2.** accurately follow the essential information contained on the work ticket
- PC3.** handle and transport material, including hides, skins, leather, in the most effective manner and in the correct sequence
- PC4.** follow the start-up sequences and operate the equipment controls correctly
- PC5.** change the embossing plates as per requirement
- PC6.** adjust temperature of embossing plates as per requirement
- PC7.** adjust pressure of embossing plates as per requirement
- PC8.** ask questions to obtain more information on tasks when the instructions you have are unclear
- PC9.** agree and review your agreed upon work targets with your supervisor

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

- PC10.** report risks/ problems likely to affect services to the relevant person, promptly and accurately

Sorting & Placing

To be competent, the user/individual on the job must be able to:

- PC11.** complete the process to the specified standard required for the next operation

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** details of the various job roles and responsibilities
- KU2.** the organizations rules, guidelines and standards

Qualification Pack

- KU3.** common hazards in the work area and workplace procedures for dealing with them
- KU4.** contact person in case of queries on procedure or products
- KU5.** protocol and format for reporting work related risks/ problems
- KU6.** types and characteristics of hides, skins or leather produced
- KU7.** the purpose of printing in the production process
- KU8.** the sections of the work card relevant to the work required
- KU9.** equipment capabilities
- KU10.** the ways by which material can be contaminated or damaged during processing and the effects on quality
- KU11.** importance of essential information being passed on to the right authority
- KU12.** methods of changing embossing plates
- KU13.** methods of adjustment of heat and pressure of embossing machine
- KU14.** appropriateness of leather required for embossing
- KU15.** knowledge of heat and pressure requirements for different patterns of plates
- KU16.** the correct sequence for shutting equipment down
- KU17.** maintenance duties in terms of identifying equipment faults
- KU18.** knowledge to deal with changes to the production schedule
- KU19.** the action to be taken when correct material for work is not available
- KU20.** interpretation of body language (both positive and negative)
- KU21.** sources of updates on footwear and related areas

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read English/ local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan work according to the required schedule and location
- GS10.** produce as per the specified productivity targets
- GS11.** organise the required materials sequentially
- GS12.** evaluate the pre- finished leather and ensure embossing is as per customer standards
- GS13.** review the defects and take appropriate actions
- GS14.** evaluate and assess the pre finished leather for any modifications and corrections
- GS15.** assess and control the quality standards of semi-finished leather as per customer standards

LSS/N0705: Contribute to achieving product quality in post tanning operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking staking, toggling, de-dusting, printing and related activities while producing finished leather and

Scope

This unit/task covers the following:

- Inspection
- Reporting & Documentation

Elements and Performance Criteria

Inspection

To be competent, the user/individual on the job must be able to:

- PC1.** set up and test equipment to meet quality standard
- PC2.** ensure materials and component parts meet specifications
- PC3.** ensure the quality of finished leather meets specification during production
- PC4.** maintain the required productivity and quality levels
- PC5.** maintain the continuity of production with minimum interruptions and downtime
- PC6.** identify faults and irregularities in equipment and machinery and take action within the limits of your responsibility
- PC7.** carry out quality checks at specified intervals according to instructions
- PC8.** identify faults in pre finished leather and other materials and products
- PC9.** ensure that the entire piece is uniformly staked, toggled, de-dusted and plated
- PC10.** ensure that the processes of staking, toggling and plating do not cause damage to the leather piece

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

- PC11.** maintain records and documentation
- PC12.** identify causes of faults to maintain product quality
- PC13.** follow reporting procedures where the cause of faults cannot be identified
- PC14.** identify and report potential solutions to rectify faults
- PC15.** report and replace faulty materials and component parts which do not meet specification
- PC16.** identify process problems in the quality of finished leather and report them promptly to appropriate people

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** types of problems with quality and how to report them to appropriate people
- KU2.** consequences of not rectifying problems
- KU3.** importance of keeping accurate quality records
- KU4.** methods to present any ideas for improvement to line manager
- KU5.** safe working practices and organizational procedures
- KU6.** limits of your own responsibility
- KU7.** ways of resolving with problems within the work area
- KU8.** the importance of effective communication with colleagues
- KU9.** the lines of communication, authority and reporting procedures
- KU10.** the organizations rules, codes and guidelines (including timekeeping)
- KU11.** the companys quality standards
- KU12.** the types of records kept, methods to complete the record and the importance of keeping them accurate
- KU13.** the importance of complying with written instructions
- KU14.** equipment operating procedures / manufacturers instructions
- KU15.** methods to receive work instructions and specifications and interpret them accurately
- KU16.** methods to make use of the information detailed in specifications and instructions
- KU17.** the types of faults in the equipment and machinery and the action to be taken when they occur
- KU18.** process to identify materials which do not conform to requirements and how to report them to appropriate people
- KU19.** awareness of prefinished and finished leather
- KU20.** the causes of lost production and material wastage
- KU21.** process to maintain the flow of production
- KU22.** the importance of achieving quality and its relation to the end user customer
- KU23.** the amount of heat, pressure and other parameters to be applied to the pre finished leather to convert it into finished leather

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read English/ local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it

Qualification Pack

- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan work according to the required schedule and location
- GS10.** produce as per the specified productivity targets
- GS11.** organise the required materials sequentially
- GS12.** evaluate the pre- finished leather and ensure post tanning operation is as per customer standards
- GS13.** review the defects and take appropriate actions
- GS14.** evaluate and assess the pre finished leather for any modifications and corrections
- GS15.** identify equipment maintenance requirements and perform the maintenance procedures
- GS16.** assess and control the quality standards of semi finished leather as per customer standards

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Inspection</i>	10	9	-	-
PC1. set up and test equipment to meet quality standard	5	1	-	-
PC2. ensure materials and component parts meet specifications	-	1	-	-
PC3. ensure the quality of finished leather meets specification during production	-	0.5	-	-
PC4. maintain the required productivity and quality levels	-	1	-	-
PC5. maintain the continuity of production with minimum interruptions and downtime	5	0.5	-	-
PC6. identify faults and irregularities in equipment and machinery and take action within the limits of your responsibility	-	1	-	-
PC7. carry out quality checks at specified intervals according to instructions	-	1	-	-
PC8. identify faults in pre finished leather and other materials and products	-	1	-	-
PC9. ensure that the entire piece is uniformly staked, toggled, de-dusted and plated	-	1	-	-
PC10. ensure that the processes of staking, toggling and plating do not cause damage to the leather piece	-	1	-	-
<i>Reporting & Documentation</i>	-	6	-	-
PC11. maintain records and documentation	-	1	-	-
PC12. identify causes of faults to maintain product quality	-	1	-	-
PC13. follow reporting procedures where the cause of faults cannot be identified	-	1	-	-
PC14. identify and report potential solutions to rectify faults	-	1	-	-

Qualification Pack

LSS/N8501: Maintain the work area, tools and machines

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

Scope

This unit/task covers the following:

- Maintenance of the work area, tools and machines

Elements and Performance Criteria

Maintenance of work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, machinery, equipment and tools safely and correctly
- PC2.** use correct lifting and handling procedures
- PC3.** use materials to minimize waste
- PC4.** prepare and organize work
- PC5.** maintain a clean and hazard free working area
- PC6.** deal with work interruptions
- PC7.** move around the workplace with care
- PC8.** maintain tools and equipment
- PC9.** carry out running maintenance within agreed schedules
- PC10.** carry out maintenance and/or cleaning outside responsibility
- PC11.** report unsafe equipment and other dangerous occurrences
- PC12.** ensure that the correct machine guards are in place
- PC13.** work in a comfortable position with the correct posture
- PC14.** use cleaning equipment and methods appropriate for the work to be carried out
- PC15.** dispose of waste safely in the designated location
- PC16.** store cleaning equipment safely after use
- PC17.** complete and store accurate records and documentation
- PC18.** maintain proper lighting, ventilation to make sure general comfort is there while working
- PC19.** give inputs and assist in completing documentation
- PC20.** report the need for maintenance and/or cleaning outside your area of responsibility
- PC21.** ensure safe and correct handling of materials, equipment and tools
- PC22.** maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** personal hygiene and duty of care
- KU2.** safe working practices and organizational procedures
- KU3.** limits of ones own responsibility
- KU4.** ways of resolving with problems within the work area
- KU5.** the production process and the specific work activities that relate to the whole process
- KU6.** the lines of communication, authority and reporting procedures
- KU7.** the organizations rules, codes and guidelines (including timekeeping)
- KU8.** the companies quality standards
- KU9.** the types of records kept, how are they completed and the importance of keeping them accurate
- KU10.** the importance of complying with written instructions
- KU11.** equipment operating procedures / manufacturers instructions
- KU12.** statutory responsibilities under health, safety and environmental legislation and regulations
- KU13.** the quality standards and processes followed by the organization relevant to your role
- KU14.** documentation required for reporting
- KU15.** work instructions and specifications and interpret them accurately
- KU16.** method to make use of the information detailed in specifications and instructions
- KU17.** relation between work role and the overall manufacturing process
- KU18.** the importance of good time keeping and attendance
- KU19.** the importance of minimized production costs
- KU20.** the importance of taking action when problems are identified
- KU21.** different ways of minimizing waste
- KU22.** the importance of running maintenance and regular cleaning
- KU23.** effects of contamination on products i.e. machine oil, dirt
- KU24.** common faults with equipment and the method to rectify
- KU25.** maintenance procedures and manufacturers instructions
- KU26.** hazards likely to be encountered when conducting routine maintenance
- KU27.** different types of cleaning equipment and substances and their use
- KU28.** safe working practices for cleaning and the method of carrying them out
- KU29.** the production process and the specific work activities that relate to the whole process

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write and document appropriate technical forms, job cards, inspection sheets as required format of the company
- GS2.** read and comprehend basic english to read and interpret indicators in the machine and operating manuals, job cards, visual cards,
- GS3.** read and understand manuals, health and safety instructions, memos, reports, job cards etc

Qualification Pack

- GS4.** speak and communicate effectively to peers and supervisors
- GS5.** give clear instructions to co-workers, subordinates others
- GS6.** use correct technical term while interacting with supervisor
- GS7.** take appropriate decisions regarding to responsibilities
- GS8.** assess for any damage/faulty component in the concerned machinery and take action accordingly
- GS9.** evaluate the decision and conduct basic trouble shooting
- GS10.** plan and manage work routine based on company procedure
- GS11.** work with supervisors/ team mates to carry out work related tasks
- GS12.** plan for cleaning and lubricating the concerned machinery daily
- GS13.** plan for cleaning the concerned tools and workplace daily before and after operations
- GS14.** ensure and follow organizational procedures pertaining to health and safety are followed
- GS15.** solve operational role related issues
- GS16.** diagnose common problems in the machine based on visual inspection, sound, temperature etc.
- GS17.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8601: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others

Scope

This unit/task covers the following:

- Compliance with health, safety and security requirements at work

Elements and Performance Criteria

Compliance with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace
- PC2.** use and maintain personal protective equipment as per protocol
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC5.** follow environment management system related procedures
- PC6.** identify and correct (if possible) malfunctions in machinery and equipment
- PC7.** report any service malfunctions that cannot be rectified
- PC8.** store materials and equipment in line with manufacturers and organizational requirements
- PC9.** safely handle and move waste and debris
- PC10.** minimize health and safety risks to self and others due to own actions
- PC11.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC12.** monitor the workplace and work processes for potential risks and threats
- PC13.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC14.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC15.** participate in mock drills/ evacuation procedures organized at the workplace
- PC16.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC17.** take action based on instructions in the event of fire, emergencies or accidents
- PC18.** follow organization procedures for shutdown and evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace

Qualification Pack

- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of equipment and machine operations
- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
- KU11.** occupational health and safety risks
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document and report any health and safety related incidents/ accidents
- GS2.** read and comprehend manuals of operations
- GS3.** read all organizational and equipment related health and safety manuals and documents
- GS4.** read instructions, guidelines/procedures/rules related to the worksite and machine operations
- GS5.** give clear instructions to co-workers, subordinates and other personnel
- GS6.** use correct technical terms while interacting with supervisor
- GS7.** make an appropriate timely decision in responding to emergencies/accidents in line with organization
- GS8.** evaluate and use correct ppe and other safety gear while at the workplace
- GS9.** work with supervisors/ team mates to carry out work related tasks
- GS10.** plan work according to the required schedule
- GS11.** keep work area free from potential hazards
- GS12.** ensure and follow organizational procedures pertaining to health and safety are followed
- GS13.** take appropriate actions during emergencies, accidents or fire at the workplace
- GS14.** resolve issues pertaining to malfunctions in machineries and report if required
- GS15.** identify emergency situations
- GS16.** identify cause effect relationship for the emergencies

Qualification Pack

GS17. analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701: Comply with industry, regulatory and organizational requirements

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

Scope

This unit/task covers the following:

- Compliance with industry, regulatory and organizational requirements

Elements and Performance Criteria

Compliance with industry, regulatory and organizational requirements

To be competent, the user/individual on the job must be able to:

- PC1.** carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures
- PC2.** seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel
- PC3.** apply and follow these policies and procedures within the work practices
- PC4.** provide support to the supervisor and team members in enforcing these considerations
- PC5.** identify and report any possible deviation to these requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of having an ethical and value-based approach to governance
- KU2.** benefits to the company and oneself due to practice of these procedures
- KU3.** specific to the industry/sector, know and understand: legal, regulatory and ethical requirements procedures to follow if someone does not meet the requirements
- KU4.** customer specific requirements mandated as a part of the work process
- KU5.** country / customer specific regulations for the sector and their importance
- KU6.** reporting procedure in case of deviations
- KU7.** limits of personal responsibility

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
