LSS/Q0801: Buffing Operator

Brief Job Description

A Buffing Operator performs the process of removing the grain on the leather by abrasion. More particularly he/she removes the flesh side of the leather by mechanical abrasion to produce a suede effect or to reduce the substance. The process is also known as snuffing, if removal is on the grain side of the leather. The aim of the buffing/snuffing operation is to improve the uniformity of the grain appearance.

Personal Attributes

Buffing Operator should have good hand-eye coordination, judgment in positioning and buffing, motor skills and vision (including near vision, distance vision, colour vision, peripheral vision), depth perception and ability to change focus. Also should have basic estimation and numerical skills.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [LSS/N0801: Carry out buffing and snuffing operations](#)
2. [LSS/N0802: Carry out dusting operations](#)
3. [LSS/N0803: Contribute to achieving product quality in buffing operations](#)
4. [LSS/N8501: Maintain the work area, tools and machines](#)
5. [LSS/N8601: Maintain health, safety and security at workplace](#)
6. [LSS/N8701: Comply with industry, regulatory and organizational requirements](#)

LSS/N0801: Carry out buffing and snuffing operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for carrying out buffing and snuffing operations in preparing finished leather.

Scope

This unit/task covers the following:

- Preparatory work
- Buffing / snuffing operation
- Reporting & Documentation
- Sorting & Placing

Elements and Performance Criteria

Preparatory Work

To be competent, the user/individual on the job must be able to:

- PC1.** make sure the work area is free from hazards
- PC2.** obtain and check the data on the work ticket or job card
- PC3.** calculate the number of components needed for production
- PC4.** select and sort the materials for the work
- PC5.** set up the equipment
- PC6.** make sure that tools are safe, sharp enough and clean to use on the material
- PC7.** ensure that the materials to be used are free from faults
- PC8.** work as per legal requirements, standards and regulations, policies, procedures and professional codes
- PC9.** ask questions to obtain more information on tasks when the instructions you have are unclear

Buffing / snuffing operation

To be competent, the user/individual on the job must be able to:

- PC10.** agree and review agreed upon work targets with your supervisor
- PC11.** set up the emery paper in the buffing machine whenever required
- PC12.** feed hide/skin into the buffing machine without any folds
- PC13.** ensure no emery marks are left on the substance
- PC14.** repeat process as per requirement
- PC15.** leave work area safe and secure when work is complete
- PC16.** help the mechanic repairing faults in the machines
- PC17.** process component parts to the quality standard required

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC18.** report any damaged work to the responsible person
- PC19.** follow company reporting procedures about defective tools and machines which affect work
- PC20.** comply with written instructions
- PC21.** complete forms, records and other documentation

Sorting & Placing

To be competent, the user/individual on the job must be able to:

- PC22.** sort and place work to assist the next stage of production and minimise the risk of damage
- PC23.** leave work area safe and secure when work is complete

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** details of the various job roles, responsibilities and processes for operating equipments, obtaining information on work related task etc
- KU2.** the organizations rules, codes, guidelines and standards
- KU3.** statutory responsibilities under health, safety and environmental legislation and regulations
- KU4.** work target/ review mechanism with your supervisor for obtaining/ giving feedback related to performance
- KU5.** common hazards in the work area and workplace procedures for dealing with them
- KU6.** importance of team work and harmonious working relationships
- KU7.** contact person in case of queries on procedure or products
- KU8.** method to handle tools and equipment safely and the health and safety implications of not doing so
- KU9.** reading, writing and understanding numbers
- KU10.** identify the side of leather that should be fed in while buffing or snuffing
- KU11.** identification of the common faults
- KU12.** method to handle hides and materials and avoid making them unusable
- KU13.** total number of emery paper required for buffing
- KU14.** number of pieces that can be buffed by one emery paper
- KU15.** equipment operating procedures
- KU16.** common faults in tools and equipment and implications of working with faulty equipment
- KU17.** method of sharing domain related information with team members
- KU18.** identification of tools, equipment and settings needed for the operation
- KU19.** interpretation of body language (both positive and negative)
- KU20.** sources of updates on footwear and related areas
- KU21.** manufacturers instructions

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** write in English/ local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc.
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan and set the targets along with the supervisors and the co workers
- GS10.** organize tools and equipments to be used
- GS11.** plan work according to the required schedule and location
- GS12.** ensure buffing and snuffing is as per customer standards
- GS13.** evaluate and ensure delivery of products as per customers specifications
- GS14.** identify possible defects with the products
- GS15.** review the defects and take appropriate actions to rectify
- GS16.** report to the authority if problems cannot be rectified
- GS17.** diagnose common problems in the machine based on visual inspection
- GS18.** assess and control the quality standards of the product as per customer standards

LSS/N0802: Carry out dusting operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for carrying out dusting operations while preparing finished leather.

Scope

This unit/task covers the following:

- Preparatory Work
- Dusting operation
- Reporting & documentation

Elements and Performance Criteria

Preparatory Work

To be competent, the user/individual on the job must be able to:

- PC1.** confirm that the identity and quantity of the material received matches the work ticket
- PC2.** accurately follow the essential information contained on the work ticket
- PC3.** handle and transport material, including hides, skins, leather, in the most effective manner and in the correct sequence
- PC4.** ask questions to obtain more information on tasks when the instructions you have are unclear
- PC5.** update and develop knowledge of the products
- PC6.** agree and review your agreed upon work targets with your supervisor

Dusting operation

To be competent, the user/individual on the job must be able to:

- PC7.** follow the start-up sequences and operate the equipment controls correctly
- PC8.** complete the process to the specified standard required for the next operation

Reporting & documentation

To be competent, the user/individual on the job must be able to:

- PC9.** report risks/ problems likely to affect services to the relevant person promptly and accurately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** details of the various job roles and responsibilities
- KU2.** the organizations rules, codes, guidelines and standards
- KU3.** statutory responsibilities under health, safety and environmental legislation and regulations
- KU4.** common hazards in the work area and workplace procedures for
- KU5.** dealing with them
- KU6.** contact person in case of queries on procedure or products

Qualification Pack

- KU7.** importance of team work and harmonious working relationships
- KU8.** protocol and format for reporting work related risks/ problems
- KU9.** the main types and characteristics of hides, skins or leather produced by the company
- KU10.** all the main stages involved in the company's production
- KU11.** the purpose of each operation in the production process
- KU12.** the sections of the work card relevant to the work required
- KU13.** equipment capabilities
- KU14.** the ways by which material can be contaminated or damaged during processing and the effects on quality
- KU15.** the importance of essential information being passed on to the right authority
- KU16.** methods to remove the resulting dust from the leather surface after buffing operation
- KU17.** the correct sequence for shutting equipment down
- KU18.** maintenance duties in terms of identifying equipment faults
- KU19.** knowledge to deal with changes to the production schedule
- KU20.** the action to be taken when correct material for work is not available
- KU21.** interpretation of body language (both positive and negative)
- KU22.** sources of updates on footwear and related areas

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc.

LSS/N0803: Contribute to achieving product quality in buffing operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking leather buffing related activities to ensure products meet specifications

Scope

This unit/task covers the following:

- Inspection
- Reporting & Documentation

Elements and Performance Criteria

Inspection

To be competent, the user/individual on the job must be able to:

- PC1.** carry out quality checks at specified intervals according to instructions
- PC2.** report faults outside personal responsibility to the appropriate person
- PC3.** identify faults in materials and products
- PC4.** identify causes of faults to maintain product quality

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

- PC5.** identify faults and take appropriate action
- PC6.** follow reporting procedures where the cause of faults cannot be identified
- PC7.** identify and report potential solutions to rectify faults

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organization's rules, codes, guidelines and standards
- KU2.** quality systems and procedures
- KU3.** limits of personal responsibility
- KU4.** process of reporting faults
- KU5.** process of operating equipments
- KU6.** responsibilities under the Health & Safety Act
- KU7.** the different types of faults likely to be found and method to put them right
- KU8.** the different techniques and methods used to detect faults
- KU9.** the inspection methods that can be used
- KU10.** importance of product checks

Qualification Pack

- KU11.** the acceptable solutions for particular faults
- KU12.** the consequences of not rectifying problems
- KU13.** the types of adjustments suitable for specific types of faults
- KU14.** responsibilities at work during production
- KU15.** company's quality and production targets and the effect of not meeting these on self and/or the team
- KU16.** allowed tolerances
- KU17.** difference between correctable and non-correctable faults
- KU18.** manufacturer's instructions

LSS/N8501: Maintain the work area, tools and machines

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

Scope

This unit/task covers the following:

- Maintenance of the work area, tools and machines

Elements and Performance Criteria

Maintenance of work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, machinery, equipment and tools safely and correctly
- PC2.** use correct lifting and handling procedures
- PC3.** use materials to minimize waste
- PC4.** prepare and organize work
- PC5.** maintain a clean and hazard free working area
- PC6.** deal with work interruptions
- PC7.** move around the workplace with care
- PC8.** maintain tools and equipment
- PC9.** carry out running maintenance within agreed schedules
- PC10.** carry out maintenance and/or cleaning outside responsibility
- PC11.** report unsafe equipment and other dangerous occurrences
- PC12.** ensure that the correct machine guards are in place
- PC13.** work in a comfortable position with the correct posture
- PC14.** use cleaning equipment and methods appropriate for the work to be carried out
- PC15.** dispose of waste safely in the designated location
- PC16.** store cleaning equipment safely after use
- PC17.** complete and store accurate records and documentation
- PC18.** maintain proper lighting, ventilation to make sure general comfort is there while working
- PC19.** give inputs and assist in completing documentation
- PC20.** report the need for maintenance and/or cleaning outside your area of responsibility
- PC21.** ensure safe and correct handling of materials, equipment and tools
- PC22.** maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** personal hygiene and duty of care
- KU2.** safe working practices and organizational procedures
- KU3.** limits of ones own responsibility
- KU4.** ways of resolving with problems within the work area
- KU5.** the production process and the specific work activities that relate to the whole process
- KU6.** the lines of communication, authority and reporting procedures
- KU7.** the organizations rules, codes and guidelines (including timekeeping)
- KU8.** the companies quality standards
- KU9.** the types of records kept, how are they completed and the importance of keeping them accurate
- KU10.** the importance of complying with written instructions
- KU11.** equipment operating procedures / manufacturers instructions
- KU12.** statutory responsibilities under health, safety and environmental legislation and regulations
- KU13.** the quality standards and processes followed by the organization relevant to your role
- KU14.** documentation required for reporting
- KU15.** work instructions and specifications and interpret them accurately
- KU16.** method to make use of the information detailed in specifications and instructions
- KU17.** relation between work role and the overall manufacturing process
- KU18.** the importance of good time keeping and attendance
- KU19.** the importance of minimized production costs
- KU20.** the importance of taking action when problems are identified
- KU21.** different ways of minimizing waste
- KU22.** the importance of running maintenance and regular cleaning
- KU23.** effects of contamination on products i.e. machine oil, dirt
- KU24.** common faults with equipment and the method to rectify
- KU25.** maintenance procedures and manufacturers instructions
- KU26.** hazards likely to be encountered when conducting routine maintenance
- KU27.** different types of cleaning equipment and substances and their use
- KU28.** safe working practices for cleaning and the method of carrying them out
- KU29.** the production process and the specific work activities that relate to the whole process

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write and document appropriate technical forms, job cards, inspection sheets as required format of the company
- GS2.** read and comprehend basic english to read and interpret indicators in the machine and operating manuals, job cards, visual cards,
- GS3.** read and understand manuals, health and safety instructions, memos, reports, job cards etc

Qualification Pack

- GS4.** speak and communicate effectively to peers and supervisors
- GS5.** give clear instructions to co-workers, subordinates others
- GS6.** use correct technical term while interacting with supervisor
- GS7.** take appropriate decisions regarding to responsibilities
- GS8.** assess for any damage/faulty component in the concerned machinery and take action accordingly
- GS9.** evaluate the decision and conduct basic trouble shooting
- GS10.** plan and manage work routine based on company procedure
- GS11.** work with supervisors/ team mates to carry out work related tasks
- GS12.** plan for cleaning and lubricating the concerned machinery daily
- GS13.** plan for cleaning the concerned tools and workplace daily before and after operations
- GS14.** ensure and follow organizational procedures pertaining to health and safety are followed
- GS15.** solve operational role related issues
- GS16.** diagnose common problems in the machine based on visual inspection, sound, temperature etc.
- GS17.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8601: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others

Scope

This unit/task covers the following:

- Compliance with health, safety and security requirements at work

Elements and Performance Criteria

Compliance with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace
- PC2.** use and maintain personal protective equipment as per protocol
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC5.** follow environment management system related procedures
- PC6.** identify and correct (if possible) malfunctions in machinery and equipment
- PC7.** report any service malfunctions that cannot be rectified
- PC8.** store materials and equipment in line with manufacturers and organizational requirements
- PC9.** safely handle and move waste and debris
- PC10.** minimize health and safety risks to self and others due to own actions
- PC11.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC12.** monitor the workplace and work processes for potential risks and threats
- PC13.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC14.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC15.** participate in mock drills/ evacuation procedures organized at the workplace
- PC16.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC17.** take action based on instructions in the event of fire, emergencies or accidents
- PC18.** follow organization procedures for shutdown and evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace

Qualification Pack

- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of equipment and machine operations
- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
- KU11.** occupational health and safety risks
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document and report any health and safety related incidents/ accidents
- GS2.** read and comprehend manuals of operations
- GS3.** read all organizational and equipment related health and safety manuals and documents
- GS4.** read instructions, guidelines/procedures/rules related to the worksite and machine operations
- GS5.** give clear instructions to co-workers, subordinates and other personnel
- GS6.** use correct technical terms while interacting with supervisor
- GS7.** make an appropriate timely decision in responding to emergencies/accidents in line with organization
- GS8.** evaluate and use correct ppe and other safety gear while at the workplace
- GS9.** work with supervisors/ team mates to carry out work related tasks
- GS10.** plan work according to the required schedule
- GS11.** keep work area free from potential hazards
- GS12.** ensure and follow organizational procedures pertaining to health and safety are followed
- GS13.** take appropriate actions during emergencies, accidents or fire at the workplace
- GS14.** resolve issues pertaining to malfunctions in machineries and report if required
- GS15.** identify emergency situations
- GS16.** identify cause effect relationship for the emergencies

Qualification Pack

GS17. analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
