Qualification Pack

LSS/Q2103: CAD/CAM Operator (Footwear)

Brief Job Description

Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) operator uses computer hardware and graphics software to generate design drawings. CAD equipment enables operators to quickly design and produce very accurate and realistic images of leather footwear to be manufactured. Computer Aided Manufacturing (CAM) system automatically produces finished designs by using computer controlled production machines.

Personal Attributes

CAD/CAM operator must possess the technical acumen, good hand eye coordination, eye for detail, higher secondary level of math, computer skills, knowledge of the footwear making process and the knowledge and skill to use the CAD/CAM software.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [LSS/N2103: Operate the CAD CAM software to design footwear](#)
2. [LSS/N8501: Maintain the work area, tools and machines](#)
3. [LSS/N8601: Maintain health, safety and security at workplace](#)
4. [LSS/N8701: Comply with industry, regulatory and organizational requirements](#)

Qualification Pack

LSS/N2103: Operate the CAD CAM software to design footwear

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for operating the CAD/CAM software in order to create patterns for the leather footwear.

Scope

This unit/task covers the following:

- Prepare the prerequisites for CAD-CAM operation
- Operate the CAD software
- Operate the CAM software

Elements and Performance Criteria

Preparation of CAD-CAM operation

To be competent, the user/individual on the job must be able to:

- PC1.** ensure the work area is free from hazards as per the safety norm of the organization
- PC2.** ensure the cleanliness and orderliness of the work place as per the organizational standards
- PC3.** obtain and check the data on the specification sheet and carry out functions in line with the responsibilities of job role
- PC4.** set the machine parameters as per the manufacturers instruction

CAD software operation

To be competent, the user/individual on the job must be able to:

- PC5.** draw the pattern on the CAD software, if applicable, as per specification given

CAD software operation

To be competent, the user/individual on the job must be able to:

- PC6.** digitize the manual pattern on the CAD software, if applicable, as per specification given
- PC7.** perform size wise grading of footwear as per measurements provided by client if applicable
- PC8.** adjust the pattern specification as per the product standards and allowances required
- PC9.** set parameters on CAM machine as per required output
- PC10.** ensure the design output is cut and handed over to the next department
- PC11.** ensure the work is saved as a back-up before shutting down the CAD machine
- PC12.** shut down, after use, the CAD/CAM system carefully and in accordance with company instructions

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** expectations and responsibilities of the job role
- KU2.** the organizations rules, codes, guidelines and standards

Qualification Pack

- KU3.** main types of hide and leather manufactured by the company
- KU4.** statutory responsibilities under health, safety and environmental legislation and regulations
- KU5.** common hazards in the work area and workplace procedures for dealing with them
- KU6.** importance of team work and harmonious working relationships
- KU7.** contact person in case of queries on procedure or products
- KU8.** method to handle tools and equipment safely and the health and safety implications of not doing so
- KU9.** escalation hierarchy
- KU10.** CAD/CAM operating process
- KU11.** principles of CAD/CAM systems
- KU12.** process of modeling and testing using CAD
- KU13.** grading using CAD
- KU14.** differences and advantages of 2D and 3D CAD
- KU15.** computer operation
- KU16.** possible manufacturing defects and rectification process
- KU17.** footwear manufacturing process
- KU18.** organizations standard operating procedures
- KU19.** identify the process and product problems

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** construct patterns/designs and express ideas clearly through written communication
- GS2.** fill up appropriate technical forms, process charts, activity logs in required format of the company
- GS3.** perform functional operations, including apply basic mathematical principles, such as numbers and space, and techniques such as estimation and approximation
- GS4.** read images, graphs and technical drawings
- GS5.** understand the various coding systems as per company norms
- GS6.** express statements, opinions or information clearly
- GS7.** communicate effectively with supervisors, managers, etc. respond appropriately to any queries
- GS8.** respond appropriately to any queries
- GS9.** use appropriate software for designing
- GS10.** assess and decide when to perform modeling and testing of footwear on CAD/CAM
- GS11.** plan work according to the required schedule
- GS12.** adjust the pattern specifications as per specifications
- GS13.** visualize and interpret the technical drawings to meet client expectations
- GS14.** ensure and assess the designs meet quality standards
- GS15.** identify any errors/defects in the software
- GS16.** troubleshoot the problems within ones responsibility

Qualification Pack

- GS17.** report to concerned authority if issues cannot be resolved
- GS18.** identify the defects
- GS19.** pre-empt complexity of the design in order to increase the production speed of CAD/CAM modeling
- GS20.** anticipate process disruptions
- GS21.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

Qualification Pack

LSS/N8501: Maintain the work area, tools and machines

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

Scope

This unit/task covers the following:

- Maintenance of the work area, tools and machines

Elements and Performance Criteria

Maintenance of work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, machinery, equipment and tools safely and correctly
- PC2.** use correct lifting and handling procedures
- PC3.** use materials to minimize waste
- PC4.** prepare and organize work
- PC5.** maintain a clean and hazard free working area
- PC6.** deal with work interruptions
- PC7.** move around the workplace with care
- PC8.** maintain tools and equipment
- PC9.** carry out running maintenance within agreed schedules
- PC10.** carry out maintenance and/or cleaning outside responsibility
- PC11.** report unsafe equipment and other dangerous occurrences
- PC12.** ensure that the correct machine guards are in place
- PC13.** work in a comfortable position with the correct posture
- PC14.** use cleaning equipment and methods appropriate for the work to be carried out
- PC15.** dispose of waste safely in the designated location
- PC16.** store cleaning equipment safely after use
- PC17.** complete and store accurate records and documentation
- PC18.** maintain proper lighting, ventilation to make sure general comfort is there while working
- PC19.** give inputs and assist in completing documentation
- PC20.** report the need for maintenance and/or cleaning outside your area of responsibility
- PC21.** ensure safe and correct handling of materials, equipment and tools
- PC22.** maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** personal hygiene and duty of care
- KU2.** safe working practices and organizational procedures
- KU3.** limits of ones own responsibility
- KU4.** ways of resolving with problems within the work area
- KU5.** the production process and the specific work activities that relate to the whole process
- KU6.** the lines of communication, authority and reporting procedures
- KU7.** the organizations rules, codes and guidelines (including timekeeping)
- KU8.** the companies quality standards
- KU9.** the types of records kept, how are they completed and the importance of keeping them accurate
- KU10.** the importance of complying with written instructions
- KU11.** equipment operating procedures / manufacturers instructions
- KU12.** statutory responsibilities under health, safety and environmental legislation and regulations
- KU13.** the quality standards and processes followed by the organization relevant to your role
- KU14.** documentation required for reporting
- KU15.** work instructions and specifications and interpret them accurately
- KU16.** method to make use of the information detailed in specifications and instructions
- KU17.** relation between work role and the overall manufacturing process
- KU18.** the importance of good time keeping and attendance
- KU19.** the importance of minimized production costs
- KU20.** the importance of taking action when problems are identified
- KU21.** different ways of minimizing waste
- KU22.** the importance of running maintenance and regular cleaning
- KU23.** effects of contamination on products i.e. machine oil, dirt
- KU24.** common faults with equipment and the method to rectify
- KU25.** maintenance procedures and manufacturers instructions
- KU26.** hazards likely to be encountered when conducting routine maintenance
- KU27.** different types of cleaning equipment and substances and their use
- KU28.** safe working practices for cleaning and the method of carrying them out
- KU29.** the production process and the specific work activities that relate to the whole process

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write and document appropriate technical forms, job cards, inspection sheets as required format of the company
- GS2.** read and comprehend basic english to read and interpret indicators in the machine and operating manuals, job cards, visual cards,
- GS3.** read and understand manuals, health and safety instructions, memos, reports, job cards etc

Qualification Pack

- GS4.** speak and communicate effectively to peers and supervisors
- GS5.** give clear instructions to co-workers, subordinates others
- GS6.** use correct technical term while interacting with supervisor
- GS7.** take appropriate decisions regarding to responsibilities
- GS8.** assess for any damage/faulty component in the concerned machinery and take action accordingly
- GS9.** evaluate the decision and conduct basic trouble shooting
- GS10.** plan and manage work routine based on company procedure
- GS11.** work with supervisors/ team mates to carry out work related tasks
- GS12.** plan for cleaning and lubricating the concerned machinery daily
- GS13.** plan for cleaning the concerned tools and workplace daily before and after operations
- GS14.** ensure and follow organizational procedures pertaining to health and safety are followed
- GS15.** solve operational role related issues
- GS16.** diagnose common problems in the machine based on visual inspection, sound, temperature etc.
- GS17.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8601: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others

Scope

This unit/task covers the following:

- Compliance with health, safety and security requirements at work

Elements and Performance Criteria

Compliance with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace
- PC2.** use and maintain personal protective equipment as per protocol
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC5.** follow environment management system related procedures
- PC6.** identify and correct (if possible) malfunctions in machinery and equipment
- PC7.** report any service malfunctions that cannot be rectified
- PC8.** store materials and equipment in line with manufacturers and organizational requirements
- PC9.** safely handle and move waste and debris
- PC10.** minimize health and safety risks to self and others due to own actions
- PC11.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC12.** monitor the workplace and work processes for potential risks and threats
- PC13.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC14.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC15.** participate in mock drills/ evacuation procedures organized at the workplace
- PC16.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC17.** take action based on instructions in the event of fire, emergencies or accidents
- PC18.** follow organization procedures for shutdown and evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace

Qualification Pack

- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of equipment and machine operations
- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
- KU11.** occupational health and safety risks
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document and report any health and safety related incidents/ accidents
- GS2.** read and comprehend manuals of operations
- GS3.** read all organizational and equipment related health and safety manuals and documents
- GS4.** read instructions, guidelines/procedures/rules related to the worksite and machine operations
- GS5.** give clear instructions to co-workers, subordinates and other personnel
- GS6.** use correct technical terms while interacting with supervisor
- GS7.** make an appropriate timely decision in responding to emergencies/accidents in line with organization
- GS8.** evaluate and use correct ppe and other safety gear while at the workplace
- GS9.** work with supervisors/ team mates to carry out work related tasks
- GS10.** plan work according to the required schedule
- GS11.** keep work area free from potential hazards
- GS12.** ensure and follow organizational procedures pertaining to health and safety are followed
- GS13.** take appropriate actions during emergencies, accidents or fire at the workplace
- GS14.** resolve issues pertaining to malfunctions in machineries and report if required
- GS15.** identify emergency situations
- GS16.** identify cause effect relationship for the emergencies

Qualification Pack

GS17. analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701: Comply with industry, regulatory and organizational requirements

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

Scope

This unit/task covers the following:

- Compliance with industry, regulatory and organizational requirements

Elements and Performance Criteria

Compliance with industry, regulatory and organizational requirements

To be competent, the user/individual on the job must be able to:

- PC1.** carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures
- PC2.** seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel
- PC3.** apply and follow these policies and procedures within the work practices
- PC4.** provide support to the supervisor and team members in enforcing these considerations
- PC5.** identify and report any possible deviation to these requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of having an ethical and value-based approach to governance
- KU2.** benefits to the company and oneself due to practice of these procedures
- KU3.** specific to the industry/sector, know and understand: legal, regulatory and ethical requirements procedures to follow if someone does not meet the requirements
- KU4.** customer specific requirements mandated as a part of the work process
- KU5.** country / customer specific regulations for the sector and their importance
- KU6.** reporting procedure in case of deviations
- KU7.** limits of personal responsibility

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
