LSS/Q2201: Sample Maker - Footwear

Brief Job Description

Sample maker makes the product samples as per the design specification. He also ensures that the sample making process is carried out smoothly and effectively.

Personal Attributes

Sample maker must possess, technical acumen, good hand eye coordination, eye for detail, basic math and skills, good vision (including near vision, distance vision, colour vision, peripheral vision).

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [LSS/N2201: Carry out footwear sample-making operations from the given patterns](#)
2. [LSS/N5202: Perform quality control in sample making operations for footwear](#)
3. [LSS/N5203: Get the approval for the finished footwear Samples](#)
4. [LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

LSS/N2201: Carry out footwear sample-making operations from the given patterns

Description

This unit is about the understanding and interpreting a tech pack to prepare the footwear samples from the given patterns

Scope

The scope covers the following :

- Preparation for the sample making operation
- Sample making operation

Elements and Performance Criteria

Preparation for the sample making operation

To be competent, the user/individual on the job must be able to:

- PC1.** ensure the work area is free from hazards as per the safety norm of the organization
- PC2.** ensure the cleanliness and orderliness of the work place as per the organizational standards
- PC3.** obtain and check the data on the specification sheet and carry out functions in line with the responsibilities of job role
- PC4.** receives instructions and design specifications from the product developer
- PC5.** study the design and clarify doubts with product developer in case of any questions, as and when required
- PC6.** ensure all the required materials are available
- PC7.** plan the sample making operations
- PC8.** ensure all the tools and equipments required for sample making available

Sample making operation

To be competent, the user/individual on the job must be able to:

- PC9.** obtain the patterns and last information from the pattern maker/CAD constructor
- PC10.** get the required material list or Bill of Material (BoM) from the Sample or CAD department
- PC11.** separate the upper, lining and components patterns
- PC12.** cut the components from the materials with help of patterns given
- PC13.** perform pre-closing operations like splitting, skiving, fusing, embossing, edge coloring, folding, etc., as per the specification given
- PC14.** execute the stitching and closing operations
- PC15.** perform lasting operations by hand or by machine
- PC16.** apply adhesive on the soles and upper and attach it correctly
- PC17.** carry out moulding operations if required
- PC18.** ensure there is no wrinkles or gap after lasting or moulding operation
- PC19.** report any damaged work to the responsible person

Qualification Pack

PC20. operate machines safely and in accordance with guidelines and SoP

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** local / instructional language
- KU2.** organizations standard operating procedures
- KU3.** expectations and responsibilities of the job role
- KU4.** the organizations rules, codes, guidelines and standards
- KU5.** common hazards in the work area and workplace procedures for dealing with them
- KU6.** method to handle tools and equipment safely and the health and safety implications of not doing so
- KU7.** contact person in case of queries on procedure or products
- KU8.** safety and precautionary measures as per the organizational standards
- KU9.** safety measure while operating them as per the manufacturers instruction
- KU10.** sample making operation
- KU11.** different types of footwear design
- KU12.** processes involved in footwear production
- KU13.** leather defects and handling defects
- KU14.** identify the process and product problems
- KU15.** escalation hierarchy

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in basic English/local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** apply appropriate inspection methods
- GS8.** make appropriate decision on assessing the sample
- GS9.** plan and organize sample making operations with the team
- GS10.** check the availability of materials before starting the sample making operation
- GS11.** guide the sample making team on ways to improvise the sample
- GS12.** ensure customer satisfaction by timely and quality completion of work
- GS13.** evaluate and assess sample making is as per customer standards
- GS14.** troubleshoot the problems within ones responsibility

Qualification Pack

- GS15.** discuss with the product developer on ways to improvise the sample
- GS16.** assess the sample and identify the defects if any
- GS17.** pre-empt complexity of the design in order to increase the production speed
- GS18.** analyze the product sample for defects/ errors
- GS19.** anticipate process disruptions
- GS20.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

Qualification Pack

Qualification Pack

LSS/N5202: Perform quality control in sample making operations for footwear

Description

This unit is about the understanding the knowledge and skill required to carry out the quality controls process while making footwear samples

Scope

The scope covers the following :

- Contribute to achieving the sample quality in sample making operations
- Sample making record maintenance

Elements and Performance Criteria

Contribute to achieving the sample quality in sample making operations

To be competent, the user/individual on the job must be able to:

- PC1.** understand the use of materials required based on the specifications given in the tech pack/BoM
- PC2.** take the necessary action when materials do not conform to quality standards
- PC3.** report and replace identified fault materials and component parts which do not meet specification
- PC4.** perform each operations with correct standards as per the specification sheet
- PC5.** carry out self quality check at end of each operation
- PC6.** use the given checking patterns for side height, back height, toe height, toe shape, etc., and ask for any special/extra patterns required for the purpose of production friendly
- PC7.** identify modifiable defects and re work on them

Sample making record maintenance

To be competent, the user/individual on the job must be able to:

- PC8.** ensure that all the given formats are in respect to making the samples like the sample requisition, for creation of sample work order
- PC9.** Ensure a detailed tech pack with specifications and BOM is received to prepare for the leather, materials, accessories, and soles to be developed for protocol
- PC10.** maintain a proper sample plan, as this a plan for all the styles for the month
- PC11.** ensure smooth management of samples including ordering, receiving, organizing, distributing and tracking (both internal and with the buyer)
- PC12.** document and maintain a tracking system to have real-time status of samples

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** the quality systems, upper making, full shoe making and finishing process practiced in the industry
- KU2.** equipment operating procedures/manufacturers instructions
- KU3.** types of problems with quality and how to report them to appropriate people
- KU4.** methods to present any ideas for improvement to line manager
- KU5.** method to handle tools and equipment safely and the health and safety implications of not doing so
- KU6.** reporting procedure in case of faults in own/other processes
- KU7.** different techniques and methods used to detect faults
- KU8.** the importance of marking and segregating rejects and storing them at the designated location
- KU9.** the required alterations to meet customer requirements
- KU10.** providing solutions to the customer/manager for the issues they have raised
- KU11.** the acceptable solutions for particular faults
- KU12.** The types of adjustments suitable for specific types of faults

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in basic English/local language as applicable
- GS2.** fill up appropriate technical forms, process charts, and activity logs in the prescribed format of the company
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc

LSS/N5203: Get the approval for the finished footwear Samples

Description

This unit is about the understanding the knowledge and skill required to get the approvals for the samples made from the authorized person

Scope

The scope covers the following :

- Get the approval for the finished footwear Samples

Elements and Performance Criteria

Get the approval for the finished footwear Samples

To be competent, the user/individual on the job must be able to:

- PC1.** carry out fit test of the samples developed
- PC2.** produce the sample to the product developer or customer with all the test results, BoM and specification sheets
- PC3.** get the final sample approved by the developer/manager/customer
- PC4.** Incorporate the comments received from developer/customer on the documents
- PC5.** rework the sample if required post discussion with the competent authority
- PC6.** Ensure all the corrections and comments from the developer/customer on the final approved sample are incorporated, before handing over to the next department

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the quality systems, upper making, full shoe making and finishing process practiced in the industry

LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements

Description

This unit is about maintaining good hygiene, health, and workplace safety standards, maintaining work areas and activities to ensure tools and machines are maintained as per norms, understanding and complying with the requirements of the organization and respecting everyone at the workplace, adopting sustainable practices and optimizing the use of resources, especially material, energy, and waste, in day-to-day operations at the workplace.

Scope

The scope covers the following :

- Compliance with health, safety, and security requirements
- Maintain hygiene and sanitation
- Maintain the work area
- Perform maintenance operations
- Compliance with industry, regulatory and organizational requirements
- Respect diversity
- Material conservation practices
- Energy/electricity conservation practices
- Effective waste management/recycling practices

Elements and Performance Criteria

Compliance with health, safety and security requirements at the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety-related instructions applicable to the workplace
- PC2.** use the personal protective equipment as per protocol
- PC3.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC4.** follow environment management system related procedures
- PC5.** monitor the workplace and work processes for potential risks and threats
- PC6.** carry out periodic walk-through to keep the work area free from hazards and obstructions, if assigned
- PC7.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC8.** participate in mock drills/ evacuation procedures organized at the workplace
- PC9.** undertake first aid training, fire-fighting drill, and emergency response training, etc.,
- PC10.** take action based on instructions in the event of fire, emergencies or accidents
- PC11.** safely handle and move waste and debris
- PC12.** follow organization procedures for shutdown and evacuation when require

Maintain hygiene and sanitation at the workplace

Qualification Pack

To be competent, the user/individual on the job must be able to:

PC13. maintain personal body hygiene and dental hygiene

PC14. follow social distancing at the workplace

PC15. ensure not to go to work if unwell, to avoid the risk of spreading an infection to other people

PC16. cover the mouth with an elbow/handkerchief or turn away from people while sneezing or coughing

PC17. ensure equipment, work area, restrooms, etc. are sanitized before and after sessions

PC18. ensure regular vaccinations to avoid any spreading of diseases

Maintain the work area

To be competent, the user/individual on the job must be able to:

PC19. handle materials, machinery, equipment and tools safely and correctly

PC20. use correct lifting and handling procedures

PC21. use materials to minimize waste

Perform maintenance operations

To be competent, the user/individual on the job must be able to:

PC22. Perform the cleaning of machine or tools at the end of each shift

PC23. carry out running maintenance within agreed schedules

PC24. report unsafe equipment and other dangerous occurrences

PC25. carry out works in a comfortable position with the correct posture

PC26. maintain proper lighting, and ventilation to make sure general comfort is there while working

Compliance with industry, regulatory and organizational requirements

To be competent, the user/individual on the job must be able to:

PC27. carry out work functions in accordance with legislation and regulations, organizational guidelines, and procedures

PC28. seek and obtain clarifications on policies and procedures from the authorized personnel

PC29. follow the policies and procedures within the work practices

PC30. identify and report any possible deviation to these requirements

Respect diversity

To be competent, the user/individual on the job must be able to:

PC31. transact with everyone without any personal bias like gender, disability, caste, religion, color, sexual orientation, and culture

PC32. identify the indicators of harassment and discrimination

PC33. report incidents of harassment and discrimination to appropriate authority

PC34. respect the personal and professional space of others

Material conservation practices

To be competent, the user/individual on the job must be able to:

PC35. identify ways to optimize the usage of material including water in various activities /processes

PC36. check for spills/leakages in various processes and plug the spills and leakages

PC37. use the optimized amount of chemicals that have petroleum products (adhesives, leather chemicals, chrome salt, cleaning agents, IPA, etc.)

Qualification Pack

PC38. use proper PPE when in contact with the above materials as per specifications

Energy/electricity conservation practices

To be competent, the user/individual on the job must be able to:

PC39. identify ways to optimize the usage of electricity/energy in various activities/processes

PC40. check if the equipment/machine is generally functioning before commencing work and rectify wherever required

PC41. ensure electrical equipment and appliances are properly connected and turned off when not in use

Effective waste management/recycling practices

To be competent, the user/individual on the job must be able to:

PC42. identify recyclable and non-recyclable, and hazardous waste generated

PC43. segregate waste into different categories

PC44. dispose of non-recyclable waste appropriately

PC45. deposit recyclable and reusable material at the identified location

PC46. follow processes specified for disposal of hazardous waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the health and safety-related practices applicable at the workplace

KU2. the potential hazards, risks, and threats based on the nature of operations

KU3. the common hazards in the work area and procedure for dealing with them

KU4. the organizational procedures for safe handling of equipment and machine operations

KU5. details of personal protective equipment and method to use it

KU6. the signage used for personnel protective equipment, fire and safety, and first aid

KU7. layout of the plant and details of emergency exits, escape routes, emergency equipment, and assembly points

KU8. details of personnel trained in first aid, fire-fighting, and emergency response

KU9. actions to take in the event of mock drills/ evacuation procedures or actual accident, emergency, or fire

KU10. the storage and disposal of hazardous substances and wastes

KU11. relevance of health and safety requirements applicable at the workplace

KU12. importance of sound health, hygiene, and good habits

KU13. the ill-effects of alcohol, tobacco, and other drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read the manuals, health and safety instructions, memos, reports, job cards, etc.

GS2. communicate proficiently in the local language

GS3. listen the issues and comments given by the co-workers, supervisors, and managers

Qualification Pack

- GS4.** communicate effectively with co-workers, supervisors, managers, etc.,
- GS5.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS6.** analyze the defects and the procedure for dealing with it
- GS7.** complete the tasks efficiently and accurately within the stipulated time
- GS8.** organize the material requirements sequentially
- GS9.** select the optimal process and appropriate tools & equipment to complete the work efficiently
- GS10.** use reasoning skills to make proper decisions and troubleshoot concerns related to own responsibilities
- GS11.** use problem-solving skills to solve the problems that occurred during relevant operation

Qualification Pack

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
