Qualification Pack

LSS/N2703: Carry out lasting operations by hand

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear lasting operations by using appropriate tools and processes.

Scope

The scope covers the following :

- Preparation for Lasting Operation
- Toe Cap and Counter Fixing
- Fore-Part, Side and Seat Lasting Operation

Elements and Performance Criteria

Preparation for Lasting Operation

To be competent, the user/individual on the job must be able to:

- PC1.** make sure the work area is free from hazards
- PC2.** obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of job role
- PC3.** ask questions to obtain more information on tasks when the instructions have are unclear
- PC4.** select and sort the tools and materials for the work
- PC5.** make sure that tools are safe and clean to use on the material
- PC6.** agree and review agreed upon work targets with supervisor
- PC7.** seek feedback from supervisor on work related performance
- PC8.** minimize wastage
- PC9.** report risks/ problems likely to affect services to the relevant person promptly and accurately
- PC10.** produce the required batch of components to match the job card and the companys production targets
- PC11.** report defects in the tools that one do not have the authority to repair
- PC12.** dispose of waste materials safely and return re-useable materials
- PC13.** carry out closedown procedures on completion of work
- PC14.** sort and place work to assist the next stage of production and minimize the risk of damage
- PC15.** carry out visual inspection to ensure the products are free from handling defects

Toe Cap and Counter adhesive application

To be competent, the user/individual on the job must be able to:

- PC16.** ensure the adhesive is prepared appropriately as per the standard procedure

Toe Cap and CounterFixing

To be competent, the user/individual on the job must be able to:

- PC17.** soak the toe cap and counter in the adhesive as per the manufacturers instruction

Qualification Pack

PC18. ensure the toe cap and counter is dry by allowing them to dry as per the specified drying time

PC19. insert the toe cap and counter inside the upper as per the operating procedure

Fore-Part, Side and Seat Lasting Operation

To be competent, the user/individual on the job must be able to:

PC20. fix the upper on the last as per the standard operating procedure

PC21. ensure the back height of the upper is adjusted as per the mark on the last

PC22. apply the glue evenly on the inner edges of the upper and outer edges of the insole as per the operating procedures

PC23. attach the upper onto the insole and draft the nail as per the standard procedure

PC24. trim the excess edges of the upper to avoid wrinkles as per the standard procedures

PC25. dry the upper for the specified amount of time

PC26. remove the nails from the upper following safety and operating standards

PC27. hammer the fore part, side and seat of the upper on to the insole as per the standard procedures

PC28. remove the wrinkles by hammering using mallet following the standard safety and operating procedures

PC29. clean the lasted uppers as per the standard cleaning procedures

PC30. ensure the quality of the lasted upper is as per the specified quality standards

PC31. ensure the lasted uppers are prepared for the next operation as per the standards specified by the organization

PC32. ensure the lasted upper is free from production and handling damages

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. details of the various job roles and responsibilities

KU2. responsibilities and line of reporting within the work area

KU3. protocol to obtain more information on work related tasks

KU4. organizational policies and procedures

KU5. work target and review mechanism with supervisor

KU6. protocol and format for reporting work related risks/ problems

KU7. contact person in case of queries on procedure or products

KU8. common hazards in the work area and procedures for dealing with them

KU9. procedures for handling the tools and equipment

KU10. procedures with regard to material re-usage and disposal

KU11. quality standards and the reporting procedures

KU12. documentation required as part of the process

KU13. procedures to use the tools for lasting hammer, pincher, etc

KU14. procedures and concept of the operations followed in the lasting process

KU15. procedure of appropriately placing the toe caps inside the upper

Qualification Pack

- KU16.** the ways by which material can be contaminated or damaged during processing and the effects on quality
- KU17.** the different kinds of lasts and the appropriate ones to be used
- KU18.** the various adhesives and proper application of adhesive
- KU19.** how to pull and attach the sides of the shoes
- KU20.** feather edge of the shoes
- KU21.** bottom shape of the shoes
- KU22.** grain layer of the leather
- KU23.** handling defects

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in basic English/local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan work according to the required schedule
- GS10.** work with supervisors/ team mates to carry out work related tasks
- GS11.** organise the required materials sequentially before the lasting process
- GS12.** ensure customer satisfaction by timely and quality completion of work
- GS13.** evaluate and assess lasting by hand is as per customer standards
- GS14.** review the defects and take appropriate actions
- GS15.** analyze the requirement and use appropriate amount of adhesives
- GS16.** apply balanced judgement to different situations
- GS17.** assess and control the quality standards of the product as per customer standards

LSS/N2701: Carry out lasting operations using machine

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear lasting operations by either using appropriate machines, tools, equipment and processes.

Scope

The scope covers the following :

- Counter Tightening Operation
- Toe Moulding Operation
- Forepart Lasting Operation
- Seat Lasting Operation
- Roughing Operation
- Sole Pressing Operation
- De-lasting Operation

Elements and Performance Criteria

Preparatory Work

To be competent, the user/individual on the job must be able to:

- PC1.** make sure the work area is free from hazards
- PC2.** obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of job role
- PC3.** ask questions to obtain more information on tasks when the instructions have are unclear
- PC4.** select and sort the tools and materials for the work
- PC5.** setup the equipment and machineries for lasting as per the job requirement
- PC6.** make sure that tools are safe and clean to use on the material
- PC7.** agree and review agreed upon work targets with supervisor
- PC8.** seek feedback from supervisor on work related performance
- PC9.** update and develop knowledge of the products
- PC10.** minimize wastage
- PC11.** produce the required batch of components to match the job card and the companys production targets
- PC12.** dispose of waste materials safely and return re-useable materials
- PC13.** work in conformance to legal requirements, organizational policies and procedures
- PC14.** carry out visual inspection to ensure the products are free from handling defects

Counter Tightening Operation

To be competent, the user/individual on the job must be able to:

- PC15.** hammer the back portion of the upper and place the counter inside the back portion of the upper
- PC16.** clamp the upper onto the machine tightly

Qualification Pack

PC17. carry out counter tightening operation by pressing the star button on the machine

PC18. ensure no creases are formed on the inside of the upper while performing counter tightening

PC19. remove the upper from the counter tightening machine

Toe Moulding Operation

To be competent, the user/individual on the job must be able to:

PC20. place the toe cap inside of the upper in between vamp and vamp lining

PC21. fix the vamp of the upper into the toe moulding machine

PC22. carryout the toe moulding operation by pressing the start button on the toe moulding machine

PC23. remove the upper from the toe moulding machine

Forepart Lasting Operation

To be competent, the user/individual on the job must be able to:

PC24. select appropriate last according to the size of the upper

PC25. fix the upper on to the last

PC26. adjust the back height of the upper based on the mark on the last by pulling with pinche

PC27. fix the last in the machine for toe lasting operation

PC28. carryout toe lasting operation by pressing the start buttons of the machine with both hand and at the same time pressing the bottom start button of the machine with knee

PC29. remove the lasted upper from the machine

Seat Lasting Operation

To be competent, the user/individual on the job must be able to:

PC30. fix the toe lasted upper in the machine for seat lasting operation

PC31. carryout seat lasting operation by using the machine

PC32. remove the finished part from the machine

PC33. apply the adhesive on the insole and the inside of the upper

PC34. pull the sides of the upper and adjust it appropriately with pincher

PC35. hammer the sides of the upper to perform side lasting

Roughing Operation

To be competent, the user/individual on the job must be able to:

PC36. ensure the condition of the grinding wheel or emery paper as per specification

PC37. operate the machine to roughen the finished part of the bottom portion of the lasted upper

PC38. ensure only a thin layer of the finished portion is roughed

PC39. ensure the edges of the lasted upper are roughed carefully

Sole Pressing Operation

To be competent, the user/individual on the job must be able to:

PC40. place the sole on the lasted upper to attach it temporarily

Sole Pressing Operation

To be competent, the user/individual on the job must be able to:

PC41. ensure the sole and the lasted upper is attached appropriately along the edges

PC42. place the temporary attached lasted upper and the sole into the pressing machine

Qualification Pack

PC43. operate the machine to attach the sole and the upper by pressing the start button on the machine

PC44. remove the sole attached lasted upper

Delasting Operation

To be competent, the user/individual on the job must be able to:

PC45. fix the shoe onto the delasting machine

PC46. carry out delasting operation by operating the delasting machine and applying pressure on the toe portion of the shoe with hand simultaneously

PC47. remove the shoe from the last

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

PC48. report risks/ problems likely to affect services to the relevant person promptly and accurately

PC49. report defects in the tools and equipment that one do not have the authority to repair

Sorting & Placing

To be competent, the user/individual on the job must be able to:

PC50. carry out closedown procedures on completion of work

PC51. sort and place work to assist the next stage of production and minimize the risk of damage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. details of the various job roles and responsibilities

KU2. responsibilities and line of reporting within the work area

KU3. protocol to obtain more information on work related tasks

KU4. organizational policies and procedures

KU5. work target and review mechanism with supervisor

KU6. protocol and format for reporting work related risks/ problems

KU7. contact person in case of queries on procedure or products

KU8. common hazards in the work area and procedures for dealing with them

KU9. procedures for handling the tools and equipment

KU10. procedures with regard to material re-usage and disposal

KU11. quality standards and the reporting procedures

KU12. documentation required as part of the process

KU13. procedures of operation of the machines used in lasting process

KU14. procedures and concept of the operations followed in the lasting process

KU15. knowledge of the parameter setting in the lasting machines(Temp, Timing Pressure)

KU16. procedure of appropriately placing the toe caps inside the upper

KU17. the ways by which material can be contaminated or damaged during processing and the effects on quality

KU18. appropriate Knowledge of Lasts & Shape of the shoes

KU19. knowledge of adhesive and application of adhesive

Qualification Pack

- KU20.** knowledge of pulling and attaching the sides of the shoes
- KU21.** knowledge of using basic tools and equipments such as hammer, pincher, etc
- KU22.** knowledge of the feather edge of the shoes
- KU23.** appropriate knowledge of bottom shape of the shoes
- KU24.** knowledge of grain layer of the leather
- KU25.** appropriate knowledge of the shoes
- KU26.** knowledge of the functioning of hinged type last

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with operators supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan and set the targets along with the supervisors and the co workers
- GS10.** organize tools and equipments to be used
- GS11.** plan work according to the required schedule and location
- GS12.** ensure lasting operation is as per customer standards
- GS13.** evaluate and ensure delivery of products as per customers specifications
- GS14.** identify possible defects with the products
- GS15.** review the defects and take appropriate actions to rectify
- GS16.** report to the authority if problems cannot be rectified
- GS17.** diagnose common problems in the machine based on visual inspection
- GS18.** assess and control the quality standards of the product as per customer standards

LSS/N2702: Contribute to achieving product quality in lasting operation

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking lasting related activities to ensure products meet specifications.

Scope

The scope covers the following :

- Inspection
- Reporting & Documentation

Elements and Performance Criteria

Inspection

To be competent, the user/individual on the job must be able to:

- PC1.** set up and test machines to ensure correct operation
- PC2.** operate the machine in accordance with machine and workplace standards
- PC3.** ensure the last and upper is placed appropriately in the machines
- PC4.** ensure creases do not appear on the inside of the back portion of the upper while counter tightening
- PC5.** ensure the shape of the shoe is retained during toe moulding operation
- PC6.** ensure pleats do not appear in the seat portion of the lasted upper after seat lasting process
- PC7.** selection of appropriate lasts as per the sizes
- PC8.** ensuring the quality of the lasting as per the specifications and the standards
- PC9.** roughing as per the specifications and ensure the upper of shoe is free from roughing damages
- PC10.** check the performance of the machine for signs of faulty operations and take action in accordance with workplace procedures
- PC11.** ensure materials and component parts meet specifications
- PC12.** maintain the required productivity and quality levels
- PC13.** carry out quality checks at agreed intervals and in the approved way

Reporting & Documentation

To be competent, the user/individual on the job must be able to:

- PC14.** identify faults in materials and products
- PC15.** identify causes of faults and take action to rectify the same to maintain product quality
- PC16.** report and replace faulty materials and component parts which do not meet specification
- PC17.** report faults outside personal responsibility to the appropriate person
- PC18.** follow reporting procedures where the cause of faults cannot be identified
- PC19.** follow reporting procedures where the cause of faults cannot be identified

Qualification Pack

- PC20.** identify process problems that effect product quality and report them promptly to appropriate people
- PC21.** identify faults in finished products and trace their causes

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** types of problems with quality and how to report them to appropriate people
- KU2.** consequences of not rectifying problems
- KU3.** safe working practices and organizational procedures
- KU4.** limits of personal responsibility
- KU5.** the lines of communication, authority and reporting procedures
- KU6.** the organizations rules and guidelines (including timekeeping)
- KU7.** the companies quality standards
- KU8.** equipment operating procedures / manufacturers instructions
- KU9.** the different types of faults likely to be found in the lasting process and method to put them right
- KU10.** the different techniques and methods used to detect faults in the lasting process
- KU11.** the inspection methods that can be used
- KU12.** importance of product checks
- KU13.** the acceptable solutions for particular faults
- KU14.** the consequences of not rectifying problems
- KU15.** the types of adjustments suitable for specific types of faults
- KU16.** responsibilities at work during production
- KU17.** companys quality and production targets and the effect of not meeting these on self and/or the team
- KU18.** allowed tolerances
- KU19.** difference between correctable and non-correctable faults
- KU20.** manufacturers instructions

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with operators supervisors, managers, etc

Qualification Pack

- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan and set the targets along with the supervisors and the co workers
- GS10.** organize tools and equipments to be used
- GS11.** plan work according to the required schedule and location
- GS12.** ensure lasting operation is as per customer standards
- GS13.** evaluate and ensure delivery of products as per customers specifications
- GS14.** identify possible defects with the products
- GS15.** review the defects and take appropriate actions to rectify
- GS16.** report to the authority if problems cannot be rectified
- GS17.** diagnose common problems in the machine based on visual inspection
- GS18.** assess and control the quality standards of the product as per customer standards

LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements

Description

This unit is about maintaining good hygiene, health, and workplace safety standards, maintaining work areas and activities to ensure tools and machines are maintained as per norms, understanding and complying with the requirements of the organization and respecting everyone at the workplace, adopting sustainable practices and optimizing the use of resources, especially material, energy, and waste, in day-to-day operations at the workplace.

Scope

The scope covers the following :

- Compliance with health, safety, and security requirements
- Maintain hygiene and sanitation
- Maintain the work area
- Perform maintenance operations
- Compliance with industry, regulatory and organizational requirements
- Respect diversity
- Material conservation practices
- Energy/electricity conservation practices
- Effective waste management/recycling practices

Elements and Performance Criteria

Compliance with health, safety and security requirements at the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety-related instructions applicable to the workplace
- PC2.** use the personal protective equipment as per protocol
- PC3.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC4.** follow environment management system related procedures
- PC5.** monitor the workplace and work processes for potential risks and threats
- PC6.** carry out periodic walk-through to keep the work area free from hazards and obstructions, if assigned
- PC7.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC8.** participate in mock drills/ evacuation procedures organized at the workplace
- PC9.** undertake first aid training, fire-fighting drill, and emergency response training, etc.,
- PC10.** take action based on instructions in the event of fire, emergencies or accidents
- PC11.** safely handle and move waste and debris
- PC12.** follow organization procedures for shutdown and evacuation when require

Maintain hygiene and sanitation at the workplace

Qualification Pack

To be competent, the user/individual on the job must be able to:

PC13. maintain personal body hygiene and dental hygiene

PC14. follow social distancing at the workplace

PC15. ensure not to go to work if unwell, to avoid the risk of spreading an infection to other people

PC16. cover the mouth with an elbow/handkerchief or turn away from people while sneezing or coughing

PC17. ensure equipment, work area, restrooms, etc. are sanitized before and after sessions

PC18. ensure regular vaccinations to avoid any spreading of diseases

Maintain the work area

To be competent, the user/individual on the job must be able to:

PC19. handle materials, machinery, equipment and tools safely and correctly

PC20. use correct lifting and handling procedures

PC21. use materials to minimize waste

Perform maintenance operations

To be competent, the user/individual on the job must be able to:

PC22. Perform the cleaning of machine or tools at the end of each shift

PC23. carry out running maintenance within agreed schedules

PC24. report unsafe equipment and other dangerous occurrences

PC25. carry out works in a comfortable position with the correct posture

PC26. maintain proper lighting, and ventilation to make sure general comfort is there while working

Compliance with industry, regulatory and organizational requirements

To be competent, the user/individual on the job must be able to:

PC27. carry out work functions in accordance with legislation and regulations, organizational guidelines, and procedures

PC28. seek and obtain clarifications on policies and procedures from the authorized personnel

PC29. follow the policies and procedures within the work practices

PC30. identify and report any possible deviation to these requirements

Respect diversity

To be competent, the user/individual on the job must be able to:

PC31. transact with everyone without any personal bias like gender, disability, caste, religion, color, sexual orientation, and culture

PC32. identify the indicators of harassment and discrimination

PC33. report incidents of harassment and discrimination to appropriate authority

PC34. respect the personal and professional space of others

Material conservation practices

To be competent, the user/individual on the job must be able to:

PC35. identify ways to optimize the usage of material including water in various activities /processes

PC36. check for spills/leakages in various processes and plug the spills and leakages

PC37. use the optimized amount of chemicals that have petroleum products (adhesives, leather chemicals, chrome salt, cleaning agents, IPA, etc.)

Qualification Pack

PC38. use proper PPE when in contact with the above materials as per specifications

Energy/electricity conservation practices

To be competent, the user/individual on the job must be able to:

PC39. identify ways to optimize the usage of electricity/energy in various activities/processes

PC40. check if the equipment/machine is generally functioning before commencing work and rectify wherever required

PC41. ensure electrical equipment and appliances are properly connected and turned off when not in use

Effective waste management/recycling practices

To be competent, the user/individual on the job must be able to:

PC42. identify recyclable and non-recyclable, and hazardous waste generated

PC43. segregate waste into different categories

PC44. dispose of non-recyclable waste appropriately

PC45. deposit recyclable and reusable material at the identified location

PC46. follow processes specified for disposal of hazardous waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the health and safety-related practices applicable at the workplace

KU2. the potential hazards, risks, and threats based on the nature of operations

KU3. the common hazards in the work area and procedure for dealing with them

KU4. the organizational procedures for safe handling of equipment and machine operations

KU5. details of personal protective equipment and method to use it

KU6. the signage used for personnel protective equipment, fire and safety, and first aid

KU7. layout of the plant and details of emergency exits, escape routes, emergency equipment, and assembly points

KU8. details of personnel trained in first aid, fire-fighting, and emergency response

KU9. actions to take in the event of mock drills/ evacuation procedures or actual accident, emergency, or fire

KU10. the storage and disposal of hazardous substances and wastes

KU11. relevance of health and safety requirements applicable at the workplace

KU12. importance of sound health, hygiene, and good habits

KU13. the ill-effects of alcohol, tobacco, and other drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read the manuals, health and safety instructions, memos, reports, job cards, etc.

GS2. communicate proficiently in the local language

GS3. listen the issues and comments given by the co-workers, supervisors, and managers

Qualification Pack

- GS4.** communicate effectively with co-workers, supervisors, managers, etc.,
- GS5.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS6.** analyze the defects and the procedure for dealing with it
- GS7.** complete the tasks efficiently and accurately within the stipulated time
- GS8.** organize the material requirements sequentially
- GS9.** select the optimal process and appropriate tools & equipment to complete the work efficiently
- GS10.** use reasoning skills to make proper decisions and troubleshoot concerns related to own responsibilities
- GS11.** use problem-solving skills to solve the problems that occurred during relevant operation

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
