LSS/Q5301: Cutter - Goods and Garments

Brief Job Description

The individual, as a part of the job role, lays out, marks, and cuts leather or non-leather material into parts for articles using hand-cutting patterns and cutting dies. The critical component of the role is to position leather/non-leather for cutting to ensure a good number and quality of cut pieces by maintaining the production target.

Personal Attributes

The individual should possess good hand-eye coordination and judgment in positioning and cutting. Also should have basic estimation and numerical skills along with ability to choose the correct leather/non-leather parts for different components.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [LSS/N5312: Preparation of raw materials for cutting operations](#)
2. [LSS/N5301: Carry out cutting operations using hand](#)
3. [LSS/N5302: Carry out cutting operations using a clicking machine](#)
4. [LSS/N5303: Contribute to achieving product quality in cutting processes for Goods and Garments](#)
5. [LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements](#)
6. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

LSS/N5312: Preparation of raw materials for cutting operations

Description

This unit is about the preparation and handling of raw materials like leather, synthetic leather, fabrics, and other materials for both hand cutting and machine cutting operations

Scope

The scope covers the following :

- Prepare for hand cutting operations
- Prepare for machine cutting operations
- Handling of raw materials

Elements and Performance Criteria

Prepare for hand cutting operations

To be competent, the user/individual on the job must be able to:

- PC1.** check the raw materials based on the specifications like color, thickness, area, etc.,
- PC2.** ensure the material meets correct specifications as per the job card or BoM
- PC3.** check proper lighting available at the workplace
- PC4.** prepare the hand cutting tools like cutting mate, pattern (Plastic/cardboard/metal)
- PC5.** sharpen the cutting tool using a sharpening tool or by emery sheet
- PC6.** examine the tools for hand cutting operations

Prepare for machine cutting operations

To be competent, the user/individual on the job must be able to:

- PC7.** select the correct machine to cut the given material
- PC8.** check the patterns/dies for size and shape
- PC9.** check the pressure, day light adjustment, strokes timing on swing arm/beam cutting machine
- PC10.** check the blade quality, speed on the straight cutting machine (For Fabric cutting)

Handling the raw materials

To be competent, the user/individual on the job must be able to:

- PC11.** handle the raw materials carefully and avoid any damages to the raw materials
- PC12.** store the leather pieces in the leather horse/trolley or rack
- PC13.** store the fabrics and non-leather materials as per folding specifications given
- PC14.** check the workstation is free from wastes and hazards

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the properties of leather and non-leather materials

Qualification Pack

- KU2.** the specifications are given by the raw material manufacturers
- KU3.** the lighting system used for cutting leather and fabrics
- KU4.** different types of patterns and cutting dies
- KU5.** different tools used in hand cutting process like cutting knife/NT cutter, rubber mate, scissor, patterns, sharpening stone, etc.,
- KU6.** common quality imperfections associated with the materials
- KU7.** different machines used in the cutting process like swing arm, beam cutting, electrical round knife, band knife, etc.,
- KU8.** steps involved in preparing for cutting operations
- KU9.** different types of storing the leather and fabric materials and the process of First In First Out system
- KU10.** the standards, policies followed in the workplace relevant to the employment condition
- KU11.** the reporting structure to be followed for communication and coordination
- KU12.** the protocols and format for reporting work-related risks and problems
- KU13.** waste disposal procedures and guidelines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read the manuals, health and safety instructions, memos, reports, job cards, etc.,
- GS2.** communicate proficiently in the local language
- GS3.** listen the issues and comments given by the co-workers, supervisors, and managers
- GS4.** communicate effectively with co-workers, supervisors, and managers
- GS5.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS6.** analyze the defects and the procedure for dealing with it
- GS7.** complete the tasks efficiently and accurately within the stipulated time
- GS8.** organize the material requirements sequentially
- GS9.** select the optimal process and appropriate tools & equipment to complete the work efficiently
- GS10.** use reasoning skills to make proper decisions and troubleshoot concerns related to own responsibilities

LSS/N5301: Carry out cutting operations using hand

Description

This unit describes the performance outcomes required to carry out hand cutting operations in leather and non-leather materials required to produce goods and garments

Scope

The scope covers the following :

- Perform cutting operation by hand

Elements and Performance Criteria

Perform cutting operation by hand

To be competent, the user/individual on the job must be able to:

- PC1.** make sure the work area is free from hazards
- PC2.** obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role
- PC3.** ask questions to obtain more information on tasks when the instructions are unclear
- PC4.** calculate the number of components needed for production
- PC5.** select the tools and materials for the work
- PC6.** set up the equipment
- PC7.** make sure that tools are safe and clean to use on the material
- PC8.** check the quality and characteristics of the material match the required standards before starting to cut
- PC9.** utilise leather piece efficiently to get maximum cut pieces with minimum wastage
- PC10.** ensure no defects on the material
- PC11.** check the stretch-ability and tightness of leather as per end product
- PC12.** use scissors or cutting knife to cut the leather piece as per the markings given on the components
- PC13.** count the number of cut pieces
- PC14.** ensure cut pieces match the number mentioned in the job card
- PC15.** bundle the cut components and transfer material for quality check
- PC16.** make sure that when cutting the material avoid damaging self and others avoid damage to the knife and other equipment
- PC17.** avoid any imperfections in the material when cutting
- PC18.** minimise wastage while cutting material
- PC19.** meet company usage tolerances for efficient pattern interlocking
- PC20.** check with others when unsure of new product details
- PC21.** produce the required batch of components to match the job card and the company's production targets

Qualification Pack

PC22. dispose of waste materials safely and return re-useable materials

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** details of the various job roles and responsibilities
- KU2.** responsibilities and line of reporting within the work area
- KU3.** protocol to obtain more information on work related tasks
- KU4.** organizational policies and procedures
- KU5.** work target and review mechanism with the supervisor
- KU6.** protocol and format for reporting work related risks/ problems
- KU7.** contact person in case of queries on procedure or products
- KU8.** common hazards in the work area and procedures for dealing with them
- KU9.** procedures for handling the tools and equipment
- KU10.** procedures with regard to material re-usage and disposal
- KU11.** quality standards and the reporting procedures
- KU12.** documentation required as part of the process
- KU13.** cutting efficiencies with regard to the material being cut
- KU14.** knowledge of products and styles of goods and garments currently being produced
- KU15.** sources of updates on goods and garments and related areas
- KU16.** method of interpreting product specifications
- KU17.** the relation between the data on the work ticket/ job card and the production schedules
- KU18.** method of safely setting up and closing down cutting and other equipment in the work station
- KU19.** equipment needed for the cutting activity
- KU20.** methods of calculating the number of components required
- KU21.** method of identifying the quality and usage of components being cut
- KU22.** methods of cutting to ensure maximum usage and minimum wastage
- KU23.** common quality imperfections associated with the materials
- KU24.** knowledge of various shades of colours
- KU25.** main characteristics of the materials, method of identification and the means of cutting operations and subsequent operations
- KU26.** implications of using defective tools and machines on the materials
- KU27.** cutting equipment operating procedures
- KU28.** manufacturers instructions

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable

Qualification Pack

- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read English/ local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** plan work according to the required schedule and location
- GS10.** produce as per the specified productivity targets
- GS11.** organise the required materials sequentially
- GS12.** take measurements and make drawings as per customer specifications
- GS13.** evaluate and ensure cutting of the materials is as per customer standards
- GS14.** review the defects and take appropriate actions
- GS15.** analyze the drawings and cut the material accordingly
- GS16.** evaluate and assess the cut materials for any modifications and corrections
- GS17.** assess and control the quality standards of the cut materials as per customer standards

LSS/N5302: Carry out cutting operations using a clicking machine

Description

This unit describes the performance outcomes required to carry out machine cutting operations in leather and non-leather materials for preparing goods and garments

Scope

The scope covers the following :

- Perform machine cutting operation

Elements and Performance Criteria

Perform machine cutting operation

To be competent, the user/individual on the job must be able to:

- PC1.** make sure the work area is free from hazards
- PC2.** obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role
- PC3.** ask questions to obtain more information on tasks when the instructions are unclear

LSS/N5303: Contribute to achieving product quality in cutting processes for Goods and Garments

Description

This unit describes the performance outcomes required to monitor and maintain the quality in cutting operations

Scope

The scope covers the following :

- Perform quality checks on materials and equipment
- Carry out the inspection on cut components

Elements and Performance Criteria

Perform quality checks on materials and equipment

To be competent, the user/individual on the job must be able to:

- PC1.** perform the quality check on incoming raw materials for color, defects, textures, strength, etc., as per the sample/specifications
- PC2.** ensure materials and component parts meet specifications
- PC3.** check the machine parts, components and safety guards are correctly fixed
- PC4.** perform test run on the cutting machine

Carry out the inspection on cut components

To be competent, the user/individual on the job must be able to:

- PC5.** set up and test equipment to meet quality standard
- PC6.** check any issues in the cutting patterns and dies, cutting board, and equipment like cutting blade worn out, uneven cutting surface, uneven planning, etc.,
- PC7.** ensure the quality of the cut components meets specification during production
- PC8.** carry out quality checks at agreed intervals and in the approved way
- PC9.** apply the allowed tolerances
- PC10.** identify process problems that effect product quality and report them promptly to appropriate people
- PC11.** identify faults in finished products and trace their causes
- PC12.** identify causes of faults and take action to rectify the same to maintain product quality
- PC13.** maintain records and documentation

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** types of problems with quality and how to report them to appropriate people
- KU2.** consequences of not rectifying problems

Qualification Pack

- KU3.** importance of keeping accurate quality records
- KU4.** methods to present any ideas for improvement to line manager
- KU5.** safe working practices and organizational procedures
- KU6.** limits of own responsibility
- KU7.** ways of resolving with problems within the work area
- KU8.** the importance of effective communication with colleagues
- KU9.** the lines of communication, authority and reporting procedures
- KU10.** the organizations rules and guidelines (including timekeeping)
- KU11.** the companies quality standards
- KU12.** the types of records kept, methods to complete the record and the importance of keeping them accurate
- KU13.** the importance of complying with written instructions
- KU14.** equipment operating procedures / manufacturers instructions b. technical knowledge the user/individual on the job needs to know and understand:
- KU15.** methods to receive work instructions and specifications and interpret them accurately
- KU16.** methods to make use of the information detailed in specifications and instructions
- KU17.** methods of cutting components to ensure maximum usage and minimum wastage
- KU18.** the types of faults in equipment and machinery and the action to be taken when they occur
- KU19.** process to identify materials which do not conform to requirements and how to report them to appropriate people
- KU20.** care and fabric content labels / symbols
- KU21.** awareness of material/fabric / yarn types
- KU22.** the causes of lost production and material wastage
- KU23.** process to maintain the flow of production
- KU24.** the importance of achieving quality and its relation to the end user/customer

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS3.** read English/ local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with supervisors, managers, etc
- GS7.** analyse the defects and the procedure for dealing with it
- GS8.** take appropriate actions in terms of any deviations from the process
- GS9.** evaluate and apply appropriate methods of inspection
- GS10.** plan work according to the required schedule and location
- GS11.** produce as per the specified productivity targets

Qualification Pack

- GS12.** organise the required materials sequentially
- GS13.** take measurements and make drawings as per customer specifications
- GS14.** evaluate and ensure cutting of the materials is as per customer standards
- GS15.** review the defects and take appropriate actions
- GS16.** analyze the drawings and cut the material accordingly
- GS17.** evaluate and assess the cut materials for any modifications and corrections
- GS18.** assess and control the quality standards of the cut materials as per customer standards

Qualification Pack

LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements

Description

This unit is about maintaining good hygiene, health, and workplace safety standards, maintaining work areas and activities to ensure tools and machines are maintained as per norms, understanding and complying with the requirements of the organization and respecting everyone at the workplace, adopting sustainable practices and optimizing the use of resources, especially material, energy, and waste, in day-to-day operations at the workplace.

Scope

The scope covers the following :

- Compliance with health, safety, and security requirements
- Maintain hygiene and sanitation
- Maintain the work area
- Perform maintenance operations
- Compliance with industry, regulatory and organizational requirements
- Respect diversity
- Material conservation practices
- Energy/electricity conservation practices
- Effective waste management/recycling practices

Elements and Performance Criteria

Compliance with health, safety and security requirements at the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety-related instructions applicable to the workplace
- PC2.** use the personal protective equipment as per protocol
- PC3.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC4.** follow environment management system related procedures
- PC5.** monitor the workplace and work processes for potential risks and threats
- PC6.** carry out periodic walk-through to keep the work area free from hazards and obstructions, if assigned
- PC7.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC8.** participate in mock drills/ evacuation procedures organized at the workplace
- PC9.** undertake first aid training, fire-fighting drill, and emergency response training, etc.,
- PC10.** take action based on instructions in the event of fire, emergencies or accidents
- PC11.** safely handle and move waste and debris
- PC12.** follow organization procedures for shutdown and evacuation when require

Maintain hygiene and sanitation at the workplace

Qualification Pack

To be competent, the user/individual on the job must be able to:

PC13. maintain personal body hygiene and dental hygiene

PC14. follow social distancing at the workplace

PC15. ensure not to go to work if unwell, to avoid the risk of spreading an infection to other people

PC16. cover the mouth with an elbow/handkerchief or turn away from people while sneezing or coughing

PC17. ensure equipment, work area, restrooms, etc. are sanitized before and after sessions

PC18. ensure regular vaccinations to avoid any spreading of diseases

Maintain the work area

To be competent, the user/individual on the job must be able to:

PC19. handle materials, machinery, equipment and tools safely and correctly

PC20. use correct lifting and handling procedures

PC21. use materials to minimize waste

Perform maintenance operations

To be competent, the user/individual on the job must be able to:

PC22. Perform the cleaning of machine or tools at the end of each shift

PC23. carry out running maintenance within agreed schedules

PC24. report unsafe equipment and other dangerous occurrences

PC25. carry out works in a comfortable position with the correct posture

PC26. maintain proper lighting, and ventilation to make sure general comfort is there while working

Compliance with industry, regulatory and organizational requirements

To be competent, the user/individual on the job must be able to:

PC27. carry out work functions in accordance with legislation and regulations, organizational guidelines, and procedures

PC28. seek and obtain clarifications on policies and procedures from the authorized personnel

PC29. follow the policies and procedures within the work practices

PC30. identify and report any possible deviation to these requirements

Respect diversity

To be competent, the user/individual on the job must be able to:

PC31. transact with everyone without any personal bias like gender, disability, caste, religion, color, sexual orientation, and culture

PC32. identify the indicators of harassment and discrimination

PC33. report incidents of harassment and discrimination to appropriate authority

PC34. respect the personal and professional space of others

Material conservation practices

To be competent, the user/individual on the job must be able to:

PC35. identify ways to optimize the usage of material including water in various activities /processes

PC36. check for spills/leakages in various processes and plug the spills and leakages

PC37. use the optimized amount of chemicals that have petroleum products (adhesives, leather chemicals, chrome salt, cleaning agents, IPA, etc.)

Qualification Pack

PC38. use proper PPE when in contact with the above materials as per specifications

Energy/electricity conservation practices

To be competent, the user/individual on the job must be able to:

PC39. identify ways to optimize the usage of electricity/energy in various activities/processes

PC40. check if the equipment/machine is generally functioning before commencing work and rectify wherever required

PC41. ensure electrical equipment and appliances are properly connected and turned off when not in use

Effective waste management/recycling practices

To be competent, the user/individual on the job must be able to:

PC42. identify recyclable and non-recyclable, and hazardous waste generated

PC43. segregate waste into different categories

PC44. dispose of non-recyclable waste appropriately

PC45. deposit recyclable and reusable material at the identified location

PC46. follow processes specified for disposal of hazardous waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the health and safety-related practices applicable at the workplace

KU2. the potential hazards, risks, and threats based on the nature of operations

KU3. the common hazards in the work area and procedure for dealing with them

KU4. the organizational procedures for safe handling of equipment and machine operations

KU5. details of personal protective equipment and method to use it

KU6. the signage used for personnel protective equipment, fire and safety, and first aid

KU7. layout of the plant and details of emergency exits, escape routes, emergency equipment, and assembly points

KU8. details of personnel trained in first aid, fire-fighting, and emergency response

KU9. actions to take in the event of mock drills/ evacuation procedures or actual accident, emergency, or fire

KU10. the storage and disposal of hazardous substances and wastes

KU11. relevance of health and safety requirements applicable at the workplace

KU12. importance of sound health, hygiene, and good habits

KU13. the ill-effects of alcohol, tobacco, and other drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read the manuals, health and safety instructions, memos, reports, job cards, etc.

GS2. communicate proficiently in the local language

GS3. listen the issues and comments given by the co-workers, supervisors, and managers

Qualification Pack

- GS4.** communicate effectively with co-workers, supervisors, managers, etc.,
- GS5.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS6.** analyze the defects and the procedure for dealing with it
- GS7.** complete the tasks efficiently and accurately within the stipulated time
- GS8.** organize the material requirements sequentially
- GS9.** select the optimal process and appropriate tools & equipment to complete the work efficiently
- GS10.** use reasoning skills to make proper decisions and troubleshoot concerns related to own responsibilities
- GS11.** use problem-solving skills to solve the problems that occurred during relevant operation

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
