LSS/Q5502: Parts Making Helper (Goods & Garments)

Brief Job Description

The primary responsibility of a Helper - Parts Making is to provide assistance to the goods and garments machine operators involved in material cutting, stitching, skiving, pasting, folding, etc., A Helper is required to co-ordinate with team members and is required to assist the operators to carry out activities based on the production schedule.

Personal Attributes

A Helper should be willing to learn new roles and responsibilities within the factory. The individual should be passionate about building skills for crafting intricate products while maintaining quality and timelines. He/She should be able to pick up new methods and processes and be able to learn and work with people.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [LSS/N5503: Carry out supporting operations in parts making for leather/non-leather goods and garments.](#)
2. [LSS/N5504: Support for achieving product quality in parts-making](#)
3. [LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements](#)
4. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

LSS/N5503: Carry out supporting operations in parts making for leather/non-leather goods and garments.

Description

This unit provides Performance Criteria, Knowledge & Understanding Skills & Ability for carrying out supporting operations within the leather/non-leather goods and garments manufacturing processes.

Scope

The scope covers the following :

- Carry out supporting operations within goods and garments.
- Assist in cutting operations.
- Carry out printing/stamping/embossing.
- Assist in skiving operations.
- Carry out edge coloring.
- Assist in pasting/folding operations.
- Carry out fusing/pressing operations.
- Attach buttons/buckles/decoration items.
- Assist in stitching operations.

Elements and Performance Criteria

Carry out supporting operations within goods and garments

To be competent, the user/individual on the job must be able to:

- PC1.** check that the work area is free from hazards
- PC2.** follow the instructions on the work ticket/ job card
- PC3.** assist in carrying out foundation operations safely and at a rate which maintains work flow and meets production targets
- PC4.** report any damaged work to the responsible person
- PC5.** sort and place work to assist the next stage of production and minimize the risk of damage
- PC6.** leave work area safe and secure when work is complete
- PC7.** adhere to legal requirements and organizational procedures and guidelines while undertaking tasks

Assist in cutting operations

To be competent, the user/individual on the job must be able to:

- PC8.** number the cut components and keep track on it
- PC9.** check that the number of cut components is equal to that in the work ticket/job card.
- PC10.** inform the operator when the desired number of pieces required of the particular pattern is reached.
- PC11.** check and match the different pieces based on colour and texture to ensure adherence to quality norms
- PC12.** assist the cutter/ clicker performing the clicking operation

Qualification Pack

Carry out printing/stamping/embossing

To be competent, the user/individual on the job must be able to:

- PC13.** get the cut pieces from the cutting desk and choose the tools and materials required for the printing/stamping/embossing process
- PC14.** assemble products using hands/machines based on the process guidelines
- PC15.** stamp/emboss/screen print the article number/brand logo/other information using hands/machines, on the components as per specifications
- PC16.** sort and place work to assist the next stage of production and to minimize the risk of damage

Assist in skiving operations

To be competent, the user/individual on the job must be able to:

- PC17.** assist skiver in skiving operation and material movement
- PC18.** check the skived components as per the specification and inform the operator for non-conformance
- PC19.** sort and place work to assist the next stage of production and to minimize the risk of damage
- PC20.** make machines safe and clean after use

Carry out edge coloring

To be competent, the user/individual on the job must be able to:

- PC21.** check that products conform to the design specifications
- PC22.** bring components from the skiving desk/cutting desk
- PC23.** apply colour on the edges of the components using a brush
- PC24.** produce products by hand that conform to specifications
- PC25.** sort and place work to assist the next stage of production and to minimize the risk of damage

Assist in pasting/folding operations

To be competent, the user/individual on the job must be able to:

- PC26.** choose the tools and materials required for the pasting process and get the cut pieces from the skiving desk
- PC27.** check that products conform to their specification
- PC28.** assemble products using hands/machines based on the process guidelines
- PC29.** apply adhesive on the skived edges as per specifications
- PC30.** fold the skived edges of the component
- PC31.** sort and place work to assist the next stage of production and to minimize the risk of damage
- PC32.** wear proper PPEs while doing pasting operations like mask, hand gloves, etc.,

Carry out fusing/pressing operation

To be competent, the user/individual on the job must be able to:

- PC33.** choose the tools and materials required for the fusing/pressing process and get the cut pieces from the skiving desk
- PC34.** check that products conform to their specification
- PC35.** assemble products using hands/machines based on the process guidelines

Qualification Pack

- PC36.** place the sugar coated waxy known as reinforcement behind the leather pieces
- PC37.** attach the reimbursement on the leather component using heat, either by hand iron (in case of garments) or a machine
- PC38.** in case of machine, set the time, temperature and pressure of the machine according to the leather type.
- PC39.** sort and place work to assist the next stage of production and to minimize the risk of damage
- PC40.** minimize waste and dispose of all waste materials in the approved manner
- PC41.** store and dispose waste materials from the process

Attach buttons/buckles/decoration items

To be competent, the user/individual on the job must be able to:

- PC42.** attach buttons/buckles/decoration items on the goods or garments
- PC43.** use correct tools or dies to perform the operation
- PC44.** sort and place work to assist the next stage of production and to minimize the risk of damage

Assist in stitching operations

To be competent, the user/individual on the job must be able to:

- PC45.** assist the stitching operator in getting the materials and cut pieces from respective process owners
- PC46.** checks the shades of the different cut pieces to adhere to quality norms
- PC47.** trim any excess thread or materials based on the design requirements using appropriate tools and without any damage
- PC48.** hammer the stitched area to flatten the surface based on the design requirements using appropriate tools and without any damage
- PC49.** sort and place work to assist the next stage of production and to minimize the risk of damage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the organisations procedures and guidelines related to goods/garments manufacturing processes
- KU2.** common hazards in the work area and workplace procedures to deal with them
- KU3.** work areas assigned of the different processes
- KU4.** storage and assembly areas for different processes
- KU5.** method of handling machines
- KU6.** documentation related to the manufacturing processes and protocol for recording
- KU7.** location and process for storage and disposal of waste
- KU8.** details related to the processes and specifications available in the job card / work sheet
- KU9.** potential faults in the various processes and methods to avoid them
- KU10.** process for obtaining replacements for worn, faulty or defective tools
- KU11.** the amount of adhesive to be used for various components

Qualification Pack

- KU12.** the amount of paint to be used on various components
- KU13.** different characteristics of the various materials
- KU14.** equipment operating procedures for supporting cutting, skiving, stitching, pasting and folding operations
- KU15.** equipment operating procedures for carrying out printing, stamping, embossing, edge colouring, fusing, button attaching and basic decorative operations
- KU16.** styles/ design of the products currently being produced
- KU17.** appearance of the final product
- KU18.** common faults in tools and equipment and implications of working with faulty equipment
- KU19.** the tools, equipment and settings are needed for the operation
- KU20.** manufacturers instructions
- KU21.** identification of different components of leather goods or garments

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up activity logs/work sheet in the prescribed format of the company as applicable
- GS3.** read and comprehend basic English/local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with operators supervisors, managers, etc
- GS7.** analyse different sequence of the process and provide for appropriate assistance
- GS8.** assess the material and apply appropriate lifting and handling procedures
- GS9.** confirm the instructions and seek clarifications to ensure accuracy of requirements
- GS10.** evaluate the requirements of the process and prepare for the work area
- GS11.** plan and organize cleaning of tools, equipment and machineries
- GS12.** adhere to each of the process guidelines for making components
- GS13.** anticipate and provide assistance in making components as and when required
- GS14.** report in incase of deviations from the process
- GS15.** anticipate and notify the if there is any shortage in materials required for making components
- GS16.** observe mechanical processing vigilantly and report any deviations
- GS17.** evaluate the material before sorting and placing
- GS18.** identify equipment maintenance requirements and perform the maintenance procedures
- GS19.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N5504: Support for achieving product quality in parts-making

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking various supporting activities

Scope

The scope covers the following :

- Contribute to achieving product quality.

Elements and Performance Criteria

Contribute to achieve product quality

To be competent, the user/individual on the job must be able to:

- PC1.** ensure materials and component parts meet specifications
- PC2.** ensure the quality of the product meets specification during production
- PC3.** identify faults in cut/ stitched/ components
- PC4.** carry faulty components back to the respective operator for correction
- PC5.** ensure that there are no residues of adhesive /stray marks or similar defects on the outer surface of the component
- PC6.** ensure immediate movement of material from one place to another to increase productivity
- PC7.** maintain the required productivity and quality levels
- PC8.** carry out quality checks at agreed intervals and in the approved way
- PC9.** maintain the continuity of production with minimum interruptions and downtime
- PC10.** identify faults and irregularities in equipment and machinery and report to the operator
- PC11.** follow reporting procedures where the cause of faults cannot be identified
- PC12.** maintain records and documentation

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** types of problems with quality and how to report them to appropriate people
- KU2.** consequences of not rectifying problems
- KU3.** importance of keeping accurate quality records
- KU4.** methods to present any ideas for improvement to line manager
- KU5.** safe working practices and organizational procedures
- KU6.** ways of resolving with problems within the work area
- KU7.** the importance of effective communication with colleagues
- KU8.** the lines of communication, authority and reporting procedures

Qualification Pack

- KU9.** the organisations rules, codes and guidelines (including timekeeping)
- KU10.** the companies quality standards
- KU11.** the types of records kept, methods to complete the record and the importance of keeping them accurate
- KU12.** the importance of complying with written instructions
- KU13.** equipment operating procedures / manufacturers instructions
- KU14.** methods to receive work instructions and specifications and interpret them accurately
- KU15.** methods to make use of the information detailed in specifications and instructions
- KU16.** the types of faults in equipment and machinery and the action to be taken when they occur
- KU17.** the kinds of faults in the finished component
- KU18.** process to identify materials which do not conform to requirements and how to report them to appropriate people
- KU19.** care and fabric content labels / symbols
- KU20.** awareness of material/fabric / yarn types
- KU21.** the causes of lost production and material wastage
- KU22.** process to maintain the flow of production
- KU23.** the importance of achieving quality and its relation to the end user/customer

Generic Skills (GS)

User/individual on the job needs to know how to:

LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements

Description

This unit is about maintaining good hygiene, health, and workplace safety standards, maintaining work areas and activities to ensure tools and machines are maintained as per norms, understanding and complying with the requirements of the organization and respecting everyone at the workplace, adopting sustainable practices and optimizing the use of resources, especially material, energy, and waste, in day-to-day operations at the workplace.

Scope

The scope covers the following :

- Compliance with health, safety, and security requirements
- Maintain hygiene and sanitation
- Maintain the work area
- Perform maintenance operations
- Compliance with industry, regulatory and organizational requirements
- Respect diversity
- Material conservation practices
- Energy/electricity conservation practices
- Effective waste management/recycling practices

Elements and Performance Criteria

Compliance with health, safety and security requirements at the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety-related instructions applicable to the workplace
- PC2.** use the personal protective equipment as per protocol
- PC3.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC4.** follow environment management system related procedures
- PC5.** monitor the workplace and work processes for potential risks and threats
- PC6.** carry out periodic walk-through to keep the work area free from hazards and obstructions, if assigned
- PC7.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC8.** participate in mock drills/ evacuation procedures organized at the workplace
- PC9.** undertake first aid training, fire-fighting drill, and emergency response training, etc.,
- PC10.** take action based on instructions in the event of fire, emergencies or accidents
- PC11.** safely handle and move waste and debris
- PC12.** follow organization procedures for shutdown and evacuation when require

Maintain hygiene and sanitation at the workplace

Qualification Pack

To be competent, the user/individual on the job must be able to:

PC13. maintain personal body hygiene and dental hygiene

PC14. follow social distancing at the workplace

PC15. ensure not to go to work if unwell, to avoid the risk of spreading an infection to other people

PC16. cover the mouth with an elbow/handkerchief or turn away from people while sneezing or coughing

PC17. ensure equipment, work area, restrooms, etc. are sanitized before and after sessions

PC18. ensure regular vaccinations to avoid any spreading of diseases

Maintain the work area

To be competent, the user/individual on the job must be able to:

PC19. handle materials, machinery, equipment and tools safely and correctly

PC20. use correct lifting and handling procedures

PC21. use materials to minimize waste

Perform maintenance operations

To be competent, the user/individual on the job must be able to:

PC22. Perform the cleaning of machine or tools at the end of each shift

PC23. carry out running maintenance within agreed schedules

PC24. report unsafe equipment and other dangerous occurrences

PC25. carry out works in a comfortable position with the correct posture

PC26. maintain proper lighting, and ventilation to make sure general comfort is there while working

Compliance with industry, regulatory and organizational requirements

To be competent, the user/individual on the job must be able to:

PC27. carry out work functions in accordance with legislation and regulations, organizational guidelines, and procedures

PC28. seek and obtain clarifications on policies and procedures from the authorized personnel

PC29. follow the policies and procedures within the work practices

PC30. identify and report any possible deviation to these requirements

Respect diversity

To be competent, the user/individual on the job must be able to:

PC31. transact with everyone without any personal bias like gender, disability, caste, religion, color, sexual orientation, and culture

PC32. identify the indicators of harassment and discrimination

PC33. report incidents of harassment and discrimination to appropriate authority

PC34. respect the personal and professional space of others

Material conservation practices

To be competent, the user/individual on the job must be able to:

PC35. identify ways to optimize the usage of material including water in various activities /processes

PC36. check for spills/leakages in various processes and plug the spills and leakages

PC37. use the optimized amount of chemicals that have petroleum products (adhesives, leather chemicals, chrome salt, cleaning agents, IPA, etc.)

Qualification Pack

PC38. use proper PPE when in contact with the above materials as per specifications

Energy/electricity conservation practices

To be competent, the user/individual on the job must be able to:

PC39. identify ways to optimize the usage of electricity/energy in various activities/processes

PC40. check if the equipment/machine is generally functioning before commencing work and rectify wherever required

PC41. ensure electrical equipment and appliances are properly connected and turned off when not in use

Effective waste management/recycling practices

To be competent, the user/individual on the job must be able to:

PC42. identify recyclable and non-recyclable, and hazardous waste generated

PC43. segregate waste into different categories

PC44. dispose of non-recyclable waste appropriately

PC45. deposit recyclable and reusable material at the identified location

PC46. follow processes specified for disposal of hazardous waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the health and safety-related practices applicable at the workplace

KU2. the potential hazards, risks, and threats based on the nature of operations

KU3. the common hazards in the work area and procedure for dealing with them

KU4. the organizational procedures for safe handling of equipment and machine operations

KU5. details of personal protective equipment and method to use it

KU6. the signage used for personnel protective equipment, fire and safety, and first aid

KU7. layout of the plant and details of emergency exits, escape routes, emergency equipment, and assembly points

KU8. details of personnel trained in first aid, fire-fighting, and emergency response

KU9. actions to take in the event of mock drills/ evacuation procedures or actual accident, emergency, or fire

KU10. the storage and disposal of hazardous substances and wastes

KU11. relevance of health and safety requirements applicable at the workplace

KU12. importance of sound health, hygiene, and good habits

KU13. the ill-effects of alcohol, tobacco, and other drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read the manuals, health and safety instructions, memos, reports, job cards, etc.

GS2. communicate proficiently in the local language

GS3. listen the issues and comments given by the co-workers, supervisors, and managers

Qualification Pack

- GS4.** communicate effectively with co-workers, supervisors, managers, etc.,
- GS5.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS6.** analyze the defects and the procedure for dealing with it
- GS7.** complete the tasks efficiently and accurately within the stipulated time
- GS8.** organize the material requirements sequentially
- GS9.** select the optimal process and appropriate tools & equipment to complete the work efficiently
- GS10.** use reasoning skills to make proper decisions and troubleshoot concerns related to own responsibilities
- GS11.** use problem-solving skills to solve the problems that occurred during relevant operation

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
