Qualification Pack

LSS/N6201: Carryout supporting operations in the finishing process of leather goods and garments

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for carrying out supporting operations in the finishing process of leather goods and garments.

Scope

This unit/task covers the following:

- Carry out supporting operations within goods and garments
- Colour garments
- Carry out cleaning operations
- Carry out lamping operation
- Carry out final finishing of article
- Carry out packaging operations

Elements and Performance Criteria

Carry out supporting operations within goods and garments

To be competent, the user/individual on the job must be able to:

- PC1.** check that the work area is free from hazards
- PC2.** follow the instructions on the work ticket/ job card
- PC3.** assist in carrying out foundation operations safely and at a rate which maintains work flow and meets production targets
- PC4.** report any damaged work to the responsible person
- PC5.** sort and place work to assist the next stage of production and minimise the risk of damage
- PC6.** leave work area safe and secure when work is complete
- PC7.** adhere to legal requirements and organizational procedures and guidelines while undertaking tasks

Colour garments

To be competent, the user/individual on the job must be able to:

- PC8.** apply colour with the help of a sponge on the garments
- PC9.** dry the garments
- PC10.** carry the garments to the washing department
- PC11.** sort and place work to assist the next stage of production and to minimise the risk of damage

Carry out cleaning Operations

To be competent, the user/individual on the job must be able to:

- PC12.** clean the final article to remove all residue, dirt, adhesive or any other contamination by hand/ machine
- PC13.** shine the metal parts of the articles, like buckles, buttons etc

Qualification Pack

PC14. sort and place work to assist the next stage of production and to minimise the risk of damage

Carry out lamping operation

To be competent, the user/individual on the job must be able to:

PC15. burn the extra threads of the good / garment

PC16. sort and place work to assist the next stage of production and to minimise the risk of damage

Carry out final finishing of article

To be competent, the user/individual on the job must be able to:

PC17. trim excess threads from the article

PC18. check for any incorrect/ damaged stitch/design embroidery

PC19. hand over to alteration section to mend minor defects

PC20. minimise waste and dispose of all waste materials in the approved manner

PC21. sort and place work to assist the next stage of production and to minimise the risk of damage

Carry out Packaging Operations

To be competent, the user/individual on the job must be able to:

PC22. wrap the metal parts of the good/ garment

PC23. attach brand labels on the article

PC24. attach barcodes/price tags on the article

PC25. fill all the pockets with packing material to prevent distortion of shape

PC26. wrap the article in paper and prepare for packing in boxes

PC27. count the number of packed boxes

PC28. arrange the specified number of boxes in cartons

PC29. seal the cartons and prepare for dispatch

PC30. load the cartons in vehicles to dispatch to client

PC31. minimise waste and dispose of all waste materials in the approved manner

PC32. sort and place work to assist the next stage of production and to minimise the risk of damage

PC33. safely store and dispose of waste materials

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the organizations procedures and guidelines related to goods/garments manufacturing processes

KU2. common hazards in the work area and workplace procedures to deal with them

KU3. work areas assigned of the different processes

KU4. storage and assembly areas for different processes

KU5. method of handling machines

KU6. documentation related to the manufacturing processes and protocol for recording

Qualification Pack

- KU7.** location and process for storage and disposal of waste
- KU8.** details related to the processes and specifications available in the job card / work sheet
- KU9.** potential faults in the various processes and methods to avoid them
- KU10.** process for obtaining replacements for worn, faulty or defective tools
- KU11.** different characteristics of the various materials used for supporting the finishing operations
- KU12.** equipment operating procedures to carry out colouring, cleaning, lamping, thread trimming, and packaging operations
- KU13.** styles/ design of the products currently being produced
- KU14.** appearance of the final product
- KU15.** common faults in tools and equipment and implications of working with faulty equipment
- KU16.** the tools, equipment and settings are needed for the operation
- KU17.** manufacturers instructions
- KU18.** identification of different components of the article

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up activity logs/work sheet in the prescribed format of the company as applicable
- GS3.** read English/ local language as applicable
- GS4.** read and understand manuals, health and safety instructions, memos, reports, job cards etc
- GS5.** listen actively
- GS6.** communicate effectively with operators supervisors, managers, etc
- GS7.** analyse different sequence of the process and provide for appropriate assistance
- GS8.** assess the material and apply appropriate lifting and handling procedures
- GS9.** confirm the instructions and seek clarifications to ensure accuracy of requirements
- GS10.** evaluate the requirements of the process and prepare for the work area
- GS11.** plan and organize cleaning of tools, equipment and machineries
- GS12.** adhere to each of the process guidelines of the finishing footwear operations
- GS13.** anticipate and provide assistance in finishing of footwear as and when required
- GS14.** report in case of deviations from the process
- GS15.** anticipate and notify if there is any shortage in materials required for finishing processes in footwear
- GS16.** observe mechanical processing vigilantly and report any deviations
- GS17.** evaluate the material before sorting and placing
- GS18.** identify equipment maintenance requirements and perform the maintenance procedures
- GS19.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N6202: Support to achieving product quality in goods and garments finishing operations

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking various supporting activities

Scope

This unit/task covers the following:

- Contribute to achieving the product quality
- Records and documentation

Elements and Performance Criteria

Contribute to achieving the product quality

To be competent, the user/individual on the job must be able to:

- PC1.** set up and test equipment to meet quality standard
- PC2.** ensure materials and component parts meet specifications
- PC3.** ensure the quality of the product meets specification during production
- PC4.** ensure that there are no residues of adhesive /stray marks or similar defects on the outer surface of the component
- PC5.** check for visible faults on the good/garment
- PC6.** ensure immediate movement of faulty materials for alteration
- PC7.** ensure proper and full covering of metal parts of the good/ garment to prevent scratches during dispatch
- PC8.** maintain the required productivity and quality levels
- PC9.** assist in quality checks at agreed intervals and in the approved way
- PC10.** maintain the continuity of production with minimum interruptions and downtime

Records and documentation

To be competent, the user/individual on the job must be able to:

- PC11.** identify process problems that effect product quality and report them promptly to appropriate people
- PC12.** identify faults and irregularities in equipment and machinery and take action within the limits of your responsibility
- PC13.** follow reporting procedures where the cause of faults cannot be identified
- PC14.** maintain records and documentation

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** types of problems with quality and how to report them to appropriate people
- KU2.** consequences of not rectifying problems
- KU3.** importance of keeping accurate quality records
- KU4.** methods to present any ideas for improvement to line manager
- KU5.** safe working practices and organizational procedures
- KU6.** ways of resolving with problems within the work area
- KU7.** the importance of effective communication with colleagues
- KU8.** the lines of communication, authority and reporting procedures
- KU9.** the organizations rules, codes and guidelines (including timekeeping)
- KU10.** the companies quality standards
- KU11.** the types of records kept, methods to complete the record and the importance of keeping them accurate
- KU12.** the importance of complying with written instructions
- KU13.** equipment operating procedures / manufacturers instructions
- KU14.** statutory responsibilities under Health, Safety and Environmental legislation and regulations
- KU15.** methods to receive work instructions and specifications and interpret them accurately
- KU16.** methods to make use of the information detailed in specifications and instructions
- KU17.** the types of faults in equipment and machinery and the action to be taken when they occur
- KU18.** the kinds of faults in the finished component
- KU19.** process to identify materials which do not conform to requirements and how to report them to appropriate people
- KU20.** care and fabric content labels / symbols
- KU21.** awareness of material/fabric / yarn types
- KU22.** the causes of lost production and material wastage
- KU23.** process to maintain the flow of production
- KU24.** the importance of achieving quality and its relation to the end user/customer

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in English/ local language as applicable
- GS2.** fill up activity logs/work sheet in the prescribed format of the company as applicable
- GS3.** read English/ local language as applicable

LSS/N8501: Maintain the work area, tools and machines

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

Scope

This unit/task covers the following:

- Maintenance of the work area, tools and machines

Elements and Performance Criteria

Maintenance of work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, machinery, equipment and tools safely and correctly
- PC2.** use correct lifting and handling procedures
- PC3.** use materials to minimize waste
- PC4.** prepare and organize work
- PC5.** maintain a clean and hazard free working area
- PC6.** deal with work interruptions
- PC7.** move around the workplace with care
- PC8.** maintain tools and equipment
- PC9.** carry out running maintenance within agreed schedules
- PC10.** carry out maintenance and/or cleaning outside responsibility
- PC11.** report unsafe equipment and other dangerous occurrences
- PC12.** ensure that the correct machine guards are in place
- PC13.** work in a comfortable position with the correct posture
- PC14.** use cleaning equipment and methods appropriate for the work to be carried out
- PC15.** dispose of waste safely in the designated location
- PC16.** store cleaning equipment safely after use
- PC17.** complete and store accurate records and documentation
- PC18.** maintain proper lighting, ventilation to make sure general comfort is there while working
- PC19.** give inputs and assist in completing documentation
- PC20.** report the need for maintenance and/or cleaning outside your area of responsibility
- PC21.** ensure safe and correct handling of materials, equipment and tools
- PC22.** maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** personal hygiene and duty of care
- KU2.** safe working practices and organizational procedures
- KU3.** limits of ones own responsibility
- KU4.** ways of resolving with problems within the work area
- KU5.** the production process and the specific work activities that relate to the whole process
- KU6.** the lines of communication, authority and reporting procedures
- KU7.** the organizations rules, codes and guidelines (including timekeeping)
- KU8.** the companies quality standards
- KU9.** the types of records kept, how are they completed and the importance of keeping them accurate
- KU10.** the importance of complying with written instructions

- KU13.** the quality standards and processes followed by the organization relevant to your role
- KU14.** documentation required for reporting
- KU15.** work instructions and specifications and interpret them accurately
- KU16.** method to make use of the information detailed in specifications and instructions
- KU17.** relation between work role and the overall manufacturing process
- KU18.** the importance of good time keeping and attendance
- KU19.** the importance of minimized production costs
- KU20.** the importance of taking action when problems are identified
- KU21.** different ways of minimizing waste
- KU22.** the importance of running maintenance and regular cleaning
- KU23.** effects of contamination on products i.e. machine oil, dirt
- KU24.** common faults with equipment and the method to rectify
- KU25.** maintenance procedures and manufacturers instructions
- KU26.** hazards likely to be encountered when conducting routine maintenance
- KU27.** different types of cleaning equipment and substances and their use
- KU28.** safe working practices for cleaning and the method of carrying them out
- KU29.** the production process and the specific work activities that relate to the whole process

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write and document appropriate technical forms, job cards, inspection sheets as required format of the company
- GS2.** read and comprehend basic english to read and interpret indicators in the machine and operating manuals, job cards, visual cards,
- GS3.** read and understand manuals, health and safety instructions, memos, reports, job cards etc

Qualification Pack

- GS4.** speak and communicate effectively to peers and supervisors
- GS5.** give clear instructions to co-workers, subordinates others
- GS6.** use correct technical term while interacting with supervisor
- GS7.** take appropriate decisions regarding to responsibilities
- GS8.** assess for any damage/faulty component in the concerned machinery and take action accordingly
- GS9.** evaluate the decision and conduct basic trouble shooting
- GS10.** plan and manage work routine based on company procedure
- GS11.** work with supervisors/ team mates to carry out work related tasks
- GS12.** plan for cleaning and lubricating the concerned machinery daily
- GS13.** plan for cleaning the concerned tools and workplace daily before and after operations
- GS14.** ensure and follow organizational procedures pertaining to health and safety are followed
- GS15.** solve operational role related issues
- GS16.** diagnose common problems in the machine based on visual inspection, sound, temperature etc.
- GS17.** analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8601: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others

Scope

This unit/task covers the following:

- Compliance with health, safety and security requirements at work

Elements and Performance Criteria

Compliance with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace
- PC2.** use and maintain personal protective equipment as per protocol
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC5.** follow environment management system related procedures
- PC6.** identify and correct (if possible) malfunctions in machinery and equipment
- PC7.** report any service malfunctions that cannot be rectified
- PC8.** store materials and equipment in line with manufacturers and organizational requirements
- PC9.** safely handle and move waste and debris
- PC10.** minimize health and safety risks to self and others due to own actions
- PC11.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC12.** monitor the workplace and work processes for potential risks and threats
- PC13.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC14.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC15.** participate in mock drills/ evacuation procedures organized at the workplace
- PC16.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC17.** take action based on instructions in the event of fire, emergencies or accidents
- PC18.** follow organization procedures for shutdown and evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace

Qualification Pack

- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of equipment and machine operations
- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
- KU11.** occupational health and safety risks
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document and report any health and safety related incidents/ accidents
- GS2.** read and comprehend manuals of operations
- GS3.** read all organizational and equipment related health and safety manuals and documents
- GS4.** read instructions, guidelines/procedures/rules related to the worksite and machine operations
- GS5.** give clear instructions to co-workers, subordinates and other personnel
- GS6.** use correct technical terms while interacting with supervisor
- GS7.** make an appropriate timely decision in responding to emergencies/accidents in line with organization
- GS8.** evaluate and use correct ppe and other safety gear while at the workplace
- GS9.** work with supervisors/ team mates to carry out work related tasks

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
