LSS/N5702: Carry out the quality control checks at leather goods and accessories

Description

This unit of competency describes the performance criteria required to carry out the quality control in leather goods and accessories.

Scope

The scope covers the following :

- Carry out the quality control in leather goods and accessories.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** inspect leather goods and accessories according to established quality standards and specifications.
- PC2.** identify and document any defects or irregularities in materials, stitching, finishing, or overall construction.
- PC3.** utilize appropriate measurement tools and techniques to assess dimensions, thickness, and other quality parameters of leather materials and components.
- PC4.** evaluate the color consistency, texture, and surface appearance of leather goods, ensuring adherence to desired aesthetic standards.
- PC5.** verify the functionality and durability of hardware components such as zippers, buttons, buckles, and straps.
- PC6.** perform tests and assessments to evaluate the strength, flexibility, and tear resistance of leather materials.
- PC7.** assess the stitching quality, seam strength, and stitch consistency of assembled leather products.
- PC8.** compare finished products against approved samples or prototypes to ensure consistency and compliance with design specifications.
- PC9.** record inspection findings accurately and comprehensively using standardized documentation or quality control forms.
- PC10.** communicate any quality issues or deviations from standards to relevant personnel, including supervisors, production staff, or suppliers.
- PC11.** collaborate with production teams to implement corrective actions and preventive measures to address quality issues and improve processes.
- PC12.** monitor and track quality metrics and performance indicators to identify trends, patterns, and areas for continuous improvement.
- PC13.** adhere to safety protocols and quality control procedures to ensure a safe and healthy working environment for all personnel involved in the manufacturing process.
- PC14.** maintain cleanliness and organization in the quality control area to facilitate efficient inspection processes and prevent contamination or damage to products.

Qualification Pack

- PC15.** participate in training and professional development activities to enhance knowledge and skills related to quality control practices in leather goods manufacturing.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the leather types, grades, and characteristics.
- KU2.** the non leather material and its properties.
- KU3.** manufacturing processes for leather goods and accessories.
- KU4.** quality standards and specifications relevant to leather products.
- KU5.** quality control methods and techniques.
- KU6.** common defects and issues that may arise in leather goods production.
- KU7.** the importance of quality control in maintaining brand reputation and satisfaction.
- KU8.** the relevant laws and regulations related to product quality and safety.
- KU9.** inspection equipment and tools used in quality control processes.
- KU10.** corrective actions and measures to address quality issues.
- KU11.** documentation and record-keeping procedures related to quality control inspections.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read the manuals, health and safety instructions, memos, reports, job cards, etc.,
- GS2.** communicate effectively with operators, supervisors, managers, etc.,
- GS3.** listen the issues and comments given by the co-workers, supervisors, and managers.
- GS4.** plan and organize the work in order.
- GS5.** fill up appropriate technical forms, process charts, and activity logs in the prescribed format of the company.
- GS6.** analyze the defects and the procedure for dealing with it.
- GS7.** complete the tasks efficiently and accurately within the stipulated time.
- GS8.** organize the material requirements sequentially.
- GS9.** select the optimal process and appropriate tools & equipment to complete the work efficiently.
- GS10.** use reasoning skills to make proper decisions and troubleshoot concerns related to own responsibilities.
- GS11.** use problem-solving skills to solve the problems that occurred during relevant operation.

LSS/N5703: Carry out quality control checks on leather and non-leather garments

Description

This unit of competency describes the performance criteria required to Carry out quality control checks on leather and non-leather garments.

Scope

The scope covers the following :

- Carry out quality control checks on leather and non-leather garments

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** recognize the defects in both leather and non-leather garments during the quality control process.
- PC2.** assess the quality of materials used in garment production, including leather, synthetic materials, and accessories such as zippers and buttons.
- PC3.** demonstrate the visual inspections of garments to ensure they meet quality standards in terms of stitching, seams, alignment, and overall appearance.
- PC4.** ensure the garment measurements against specified dimensions to ensure accurate sizing and fit according to design requirements.
- PC5.** inspect finishing techniques such as dyeing, printing, embossing, and coating to ensure consistency, colorfastness, and uniformity.
- PC6.** carry out the tests to assess the durability and strength of seams, fastenings, and reinforcements to ensure garments withstand wear and tear.
- PC7.** check the functional features of garments, including pockets, closures, and adjustable elements, to ensure they operate smoothly and securely.
- PC8.** evaluate garment comfort and wearability factors such as fabric breathability, flexibility, and comfort against the intended use and customer expectations.
- PC9.** adhere to brand/customer quality standards and specifications throughout the quality control process to maintain consistency and compliance with industry regulations.
- PC10.** document the inspection findings accurately, including any defects or deviations from quality standards, to facilitate corrective actions and ensure traceability.
- PC11.** communicate the quality control findings effectively to relevant stakeholders, such as production teams or supervisors, to facilitate timely resolution of issues.
- PC12.** ensure the cleanliness and organization of the inspection area and equipment to prevent contamination and maintain a conducive working environment.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** the leather types, grades, and characteristics.

LSS/N5704: Carry out quality checks on bags and luggage

Description

This unit of competency describes the performance criteria required to Carry out quality checks on bags and luggage.

Scope

The scope covers the following :

- Carry out quality checks on bags and luggage

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** conduct visual inspections of bags and luggage to identify any defects or irregularities in materials, stitching, and construction.
- PC2.** utilize appropriate measuring tools and techniques to ensure that dimensions and proportions of bags and luggage meet specifications.
- PC3.** perform functional tests on zippers, handles, wheels (if applicable), and other components to ensure proper operation and durability.
- PC4.** inspect hardware such as buckles, clasps, and straps for functionality, proper alignment, and secure attachment.
- PC5.** verify the accuracy and completeness of labeling, including brand labels, care labels, and product information tags.
- PC6.** check for color consistency and uniformity across different parts of the bag or luggage item.
- PC7.** assess the overall finish and appearance of the product, including smoothness of surfaces, absence of scratches or marks, and alignment of seams.
- PC8.** evaluate the strength and resilience of materials used, particularly in high-stress areas such as handles and straps.
- PC9.** document and record any quality issues or deviations from standards identified during the inspection process.
- PC10.** communicate findings effectively to relevant stakeholders, such as production teams or quality assurance managers, and collaborate on corrective actions as needed.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

LSS/N8601: Maintain health, safety & security, a clean work area & equipment, use optimized resources at the workplace, and comply with industry & organizational Requirements

Description

This unit is about maintaining good hygiene, health, and workplace safety standards, maintaining work areas and activities to ensure tools and machines are maintained as per norms, understanding and complying with the requirements of the organization and respecting everyone at the workplace, adopting sustainable practices and optimizing the use of resources, especially material, energy, and waste, in day-to-day operations at the workplace.

Scope

The scope covers the following :

- Compliance with health, safety, and security requirements
- Maintain hygiene and sanitation
- Maintain the work area
- Perform maintenance operations
- Compliance with industry, regulatory and organizational requirements
- Respect diversity
- Material conservation practices
- Energy/electricity conservation practices
- Effective waste management/recycling practices

Elements and Performance Criteria

Compliance with health, safety and security requirements at the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety-related instructions applicable to the workplace
- PC2.** use the personal protective equipment as per protocol
- PC3.** maintain a healthy lifestyle and guard against dependency on intoxicants
- PC4.** follow environment management system related procedures
- PC5.** monitor the workplace and work processes for potential risks and threats
- PC6.** carry out periodic walk-through to keep the work area free from hazards and obstructions, if assigned
- PC7.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC8.** participate in mock drills/ evacuation procedures organized at the workplace
- PC9.** undertake first aid training, fire-fighting drill, and emergency response training, etc.,
- PC10.** take action based on instructions in the event of fire, emergencies or accidents
- PC11.** safely handle and move waste and debris
- PC12.** follow organization procedures for shutdown and evacuation when require

Maintain hygiene and sanitation at the workplace

Qualification Pack

To be competent, the user/individual on the job must be able to:

PC13. maintain personal body hygiene and dental hygiene

PC14. follow social distancing at the workplace

PC15. ensure not to go to work if unwell, to avoid the risk of spreading an infection to other people

PC16. cover the mouth with an elbow/handkerchief or turn away from people while sneezing or coughing

PC17. ensure equipment, work area, restrooms, etc. are sanitized before and after sessions

PC18. ensure regular vaccinations to avoid any spreading of diseases

Maintain the work area

To be competent, the user/individual on the job must be able to:

PC19. handle materials, machinery, equipment and tools safely and correctly

PC20. use correct lifting and handling procedures

PC21. use materials to minimize waste

Perform maintenance operations

To be competent, the user/individual on the job must be able to:

PC22. Perform the cleaning of machine or tools at the end of each shift

PC23. carry out running maintenance within agreed schedules

PC24. report unsafe equipment and other dangerous occurrences

PC25. carry out works in a comfortable position with the correct posture

PC26. maintain proper lighting, and ventilation to make sure general comfort is there while working

Compliance with industry, regulatory and organizational requirements

To be competent, the user/individual on the job must be able to:

PC27. carry out work functions in accordance with legislation and regulations, organizational guidelines, and procedures

PC28. seek and obtain clarifications on policies and procedures from the authorized personnel

PC29. follow the policies and procedures within the work practices

PC30. identify and report any possible deviation to these requirements

Respect diversity

To be competent, the user/individual on the job must be able to:

PC31. transact with everyone without any personal bias like gender, disability, caste, religion, color, sexual orientation, and culture

PC32. identify the indicators of harassment and discrimination

PC33. report incidents of harassment and discrimination to appropriate authority

PC34. respect the personal and professional space of others

Material conservation practices

To be competent, the user/individual on the job must be able to:

PC35. identify ways to optimize the usage of material including water in various activities /processes

PC36. check for spills/leakages in various processes and plug the spills and leakages

PC37. use the optimized amount of chemicals that have petroleum products (adhesives, leather chemicals, chrome salt, cleaning agents, IPA, etc.)

Qualification Pack

PC38. use proper PPE when in contact with the above materials as per specifications

Energy/electricity conservation practices

To be competent, the user/individual on the job must be able to:

PC39. identify ways to optimize the usage of electricity/energy in various activities/processes

PC40. check if the equipment/machine is generally functioning before commencing work and rectify wherever required

PC41. ensure electrical equipment and appliances are properly connected and turned off when not in use

Effective waste management/recycling practices

To be competent, the user/individual on the job must be able to:

PC42. identify recyclable and non-recyclable, and hazardous waste generated

PC43. segregate waste into different categories

PC44. dispose of non-recyclable waste appropriately

PC45. deposit recyclable and reusable material at the identified location

PC46. follow processes specified for disposal of hazardous waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the health and safety-related practices applicable at the workplace

KU2. the potential hazards, risks, and threats based on the nature of operations

KU3. the common hazards in the work area and procedure for dealing with them

KU4. the organizational procedures for safe handling of equipment and machine operations

KU5. details of personal protective equipment and method to use it

KU6. the signage used for personnel protective equipment, fire and safety, and first aid

KU7. layout of the plant and details of emergency exits, escape routes, emergency equipment, and assembly points

KU8. details of personnel trained in first aid, fire-fighting, and emergency response

KU9. actions to take in the event of mock drills/ evacuation procedures or actual accident, emergency, or fire

KU10. the storage and disposal of hazardous substances and wastes

KU11. relevance of health and safety requirements applicable at the workplace

KU12. importance of sound health, hygiene, and good habits

KU13. the ill-effects of alcohol, tobacco, and other drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read the manuals, health and safety instructions, memos, reports, job cards, etc.

GS2. communicate proficiently in the local language

GS3. listen the issues and comments given by the co-workers, supervisors, and managers

Qualification Pack

- GS4.** communicate effectively with co-workers, supervisors, managers, etc.,
- GS5.** fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
- GS6.** analyze the defects and the procedure for dealing with it
- GS7.** complete the tasks efficiently and accurately within the stipulated time
- GS8.** organize the material requirements sequentially
- GS9.** select the optimal process and appropriate tools & equipment to complete the work efficiently
- GS10.** use reasoning skills to make proper decisions and troubleshoot concerns related to own responsibilities
- GS11.** use problem-solving skills to solve the problems that occurred during relevant operation

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
