## Qualification Pack

### MEP/Q0704: Deputy Human Resources Manager

#### Brief Job Description

The Deputy Human Resource Manager is designed to deepen students' expertise in strategic HR practices and prepare them for high-level operational roles. It focuses on advanced topics such as HR analytics, labour relations, and strategic manpower planning, equipping students with the skills to manage complex HR challenges. Students engage exclusively in industrial training and a comprehensive project report, applying their acquired knowledge in real-world settings to gain practical experience and insights into the HR industry.

#### Personal Attributes

Strategic Thinking, Leadership Skills, Analytical Mindset, Problem-Solving Ability, Decision-Making Skills, Strong Communication, Attention to Detail, Adaptability

#### Applicable National Occupational Standards (NOS)

##### Compulsory NOS:

1. [MEP/N0722: Human Resource Information System \(HRIS\)](#)
2. [MEP/N0723: Labour and Corporate Laws](#)
3. [MEP/N0724: HR Analytics](#)
4. [MEP/N0725: Advance Manpower Planning](#)
5. [MEP/N0727: Performance Management](#)
6. [MEP/N0256: Personality Development](#)
7. [MEP/N0257: Advanced MS Excel](#)
8. [MEP/N0728: OJT Mandatory - Human Resource Operations](#)

##### Electives(mandatory to select at least one):

##### Elective 1: Management Information System (MIS)

The student/ trainee will either select Elective 1 - Management Information System (MIS) or Elective 2 - HR Audit and Accounting in semester 3

1. [MEP/N0258: Management Information System \(MIS\)](#)

##### Elective 2: HR Audit and Accounting

## Qualification Pack

The student/ trainee will either select Elective 1 - Management Information System (MIS) or Elective 2 - HR Audit and Accounting in semester 3

### 1. [MEP/N0726: HR Audit and Accounting](#)

## Qualification Pack (QP) Parameters

### Remarks:

The student/ trainee has to select either Elective 1 - Management Information System (MIS) or Elective 2 - HR Audit and Accounting in semester 3

## Qualification Pack

### MEP/N0722: Human Resource Information System (HRIS)

#### Description

This NOS focuses on the implementation, management, and utilization of Human Resource Information Systems (HRIS) to streamline HR operations, improve data management, and enhance decision-making processes.

#### Scope

The scope covers the following :

- Organizations and Information Systems
- Concept of Human Resource Information System (HRIS)
- Application of HRIS in Employee Engagement
- Decision Support System (DSS)
- Introduction to HRIS software

#### Elements and Performance Criteria

##### *Organizations and Information Systems*

To be competent, the user/individual on the job must be able to:

- PC1.** Analyze the requirements for HR system development.
- PC2.** Design and develop an HR system aligned with organizational goals.
- PC3.** Apply information systems to support managerial decision-making processes.
- PC4.** Evaluate the impact of information systems on strategic business decisions.
- PC5.** Integrate information systems with business strategies.
- PC6.** Assess the role of information systems in achieving competitive advantage.

##### *Concept of Human Resource Information System (HRIS)*

To be competent, the user/individual on the job must be able to:

- PC7.** Plan and design HRIS to meet organizational needs.
- PC8.** Develop a project plan for HRIS implementation.
- PC9.** Identify and select appropriate hardware and software for HRIS.
- PC10.** Oversee the installation and configuration of HRIS components.
- PC11.** Develop protocols for maintaining HRIS.
- PC12.** Implement ongoing HRIS development and upgrades.

##### *Application of HRIS in Employee Engagement*

To be competent, the user/individual on the job must be able to:

- PC13.** Utilize HRIS to manage and analyze compensation data.
- PC14.** Implement compensation strategies using HRIS.
- PC15.** Track and manage employee training programs through HRIS.
- PC16.** Analyze training effectiveness using HRIS data.
- PC17.** Manage payroll processes using HRIS.

## Qualification Pack

**PC18.** Ensure compliance with payroll regulations through HRIS.

### *Decision Support System (DSS)*

To be competent, the user/individual on the job must be able to:

**PC19.** Implement business intelligence tools within HRIS.

**PC20.** Analyze HR data to support strategic decision-making.

**PC21.** Integrate expert systems into HRIS for enhanced decision-making.

**PC22.** Evaluate the performance of expert systems within HRIS.

**PC23.** Apply AI techniques to HR data for predictive analytics.

**PC24.** Assess the impact of AI on HR processes and outcomes.

**PC25.** Develop strategies for managing HRIS effectively.

**PC26.** Ensure data security and integrity within HRIS.

### *Introduction to HRIS software*

To be competent, the user/individual on the job must be able to:

**PC27.** Compare HRIS applications in various organizational contexts.

**PC28.** Customize HRIS solutions to fit specific organizational needs.

**PC29.** Implement networking solutions for HRIS.

**PC30.** Ensure secure access to HRIS via internet and intranet.

**PC31.** Integrate telecommunications with HRIS for seamless communication.

**PC32.** Evaluate the effectiveness of telecommunications in HRIS functions.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** Understand the fundamentals and functions of HRIS, including payroll, employee records, and performance management.

**KU2.** Recognize the role of HRIS in automating HR processes and improving workforce management.

**KU3.** Explain data security, compliance, and privacy considerations in HRIS usage.

**KU4.** Identify key HR analytics and reporting tools used for strategic HR decision-making.

## Generic Skills (GS)

User/individual on the job needs to know how to:

**GS1.** Communicate HRIS-related insights effectively with HR teams and stakeholders.

**GS2.** Apply analytical skills to interpret HR data and generate meaningful reports.

**GS3.** Use problem-solving skills to troubleshoot HRIS issues and optimize system functionality.

**GS4.** Demonstrate proficiency in operating and managing HRIS platforms and digital HR tools.

## Qualification Pack

### MEP/N0723: Labour and Corporate Laws

#### Description

This NOS focuses on understanding and applying key labour and corporate laws to ensure legal compliance, protect employee rights, and support business governance.

#### Scope

The scope covers the following :

- Factories Act 1948
- Employees State Insurance Act 1948
- Minimum Wages Act 1948
- Employee Provident Fund and Miscellaneous Provisions Act 1952
- Payment of Bonus Act 1965
- Company basics
- Understanding memorandum
- Company management and administration
- Winding up of companies
- Intellectual Property Rights (IPR)

#### Elements and Performance Criteria

##### *Factories Act, 1948*

To be competent, the user/individual on the job must be able to:

- PC1.** Define the requirements and process for licensing and registration of factories.
- PC2.** Identify the roles and responsibilities of the manager and occupier under the Act.
- PC3.** Describe the powers of authorities under the Factories Act, 1948.
- PC4.** Explain the penalty provisions for non-compliance with the Act.

##### *Employee's State Insurance Act, 1948*

To be competent, the user/individual on the job must be able to:

- PC5.** Outline the process for the registration of factories and establishments under the Act.
- PC6.** Describe the functions and duties of the Employees State Insurance Corporation and inspectors.
- PC7.** Explain the miscellaneous provisions of the Employee's State Insurance Act, 1948, including benefits and compliance requirements.

##### *Minimum Wages Act, 1948*

To be competent, the user/individual on the job must be able to:

- PC8.** Explain the appointment process and role of the Advisory Board under the Act.
- PC9.** Discuss the provisions for payment of minimum wages and maintenance of registers and records.
- PC10.** Identify the powers of the appropriate government in enforcing the Act.
- PC11.** Describe the offenses and penalties for non-compliance with the Minimum Wages Act, 1948.

##### *Employees Provident Fund and Miscellaneous Provisions Act, 1952*

## Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC12.** Detail the provisions of the Employees Provident Fund and other schemes.
- PC13.** Explain the procedures relating to the transfer of accounts and liability in case of transfer of establishments.
- PC14.** Discuss the exemptions under the Act.
- PC15.** Describe the powers of the court under the Employees Provident Fund and Miscellaneous Provisions Act, 1952.

### *Payment of Bonus Act, 1965*

To be competent, the user/individual on the job must be able to:

- PC16.** Define the eligibility criteria and provisions for the payment of bonuses.
- PC17.** Explain the deductions from the bonus payable and the concept of allocable surplus.
- PC18.** Discuss the presumption about the accuracy of the balance sheet and profit and loss account as per the Act.

### *Company basics*

To be competent, the user/individual on the job must be able to:

- PC19.** Define the meaning, definition, characteristics, and types of companies.
- PC20.** Explain illegal association, corporate veil, and the process of lifting the corporate veil.
- PC21.** Describe the roles and positions of promoters and the incorporation procedure.
- PC22.** Discuss the importance, contents, and types of prospectus.
- PC23.** Explain pre-incorporation contracts and their implications.

### *Understanding memorandum*

To be competent, the user/individual on the job must be able to:

- PC24.** Define and explain the importance and clauses of the Memorandum of Association.
- PC25.** Describe the procedure for the alteration of the Memorandum of Association and the Doctrine of Ultra Vires.
- PC26.** Explain the Articles of Association, their contents, and the procedure for alteration.

### *Company management and administration*

To be competent, the user/individual on the job must be able to:

- PC27.** Describe the appointment, qualification, and disqualification of directors.
- PC28.** Explain the powers, liabilities, and removal process of directors.
- PC29.** Identify the types of meetings and the essentials of a valid meeting.
- PC30.** Discuss the procedures for motions, resolutions, and the role of proxies and polls.

### *Winding up of companies*

To be competent, the user/individual on the job must be able to:

- PC31.** Explain the modes of winding up of companies, including by the tribunal and voluntary winding up.
- PC32.** Describe the grounds and procedures for winding up and the roles and functions of the liquidator.
- PC33.** Discuss the functions and significance of the National Company Law Tribunal and the Appellate Tribunal.

### *Intellectual Property Rights (IPR)*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

- PC34.** Define the meanings and classifications of intellectual property rights, including patent rights, trademarks, and copyrights.
- PC35.** Discuss the emerging trends in IPR, including geographical indications, trade secrets, WIPO, TRIPS, and their features.
- PC36.** Explain the significance of IPR for MSMEs and the issue of plagiarism.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the fundamental provisions of labour laws, including employment regulations, wages, working conditions, and industrial relations.
- KU2.** Recognize corporate laws related to business registration, corporate governance, and compliance with regulatory frameworks.
- KU3.** Explain the legal requirements for employee contracts, workplace safety, and dispute resolution.
- KU4.** Identify the impact of labour and corporate laws on organizational policies and decision-making.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate legal policies and compliance requirements effectively with employees and management.
- GS2.** Apply analytical skills to interpret and implement labour and corporate law provisions.
- GS3.** Use problem-solving skills to address legal issues related to employment and business operations.
- GS4.** Demonstrate attention to detail in handling legal documentation and compliance reports.

### MEP/N0724: HR Analytics

#### Description

This NOS focuses on leveraging data analytics to optimize human resource management, improve workforce decision-making, and enhance organizational performance.

#### Scope

The scope covers the following :

- Introduction to HR analytics
- Understanding HR analytics
- HR analytics tools and techniques
- Using Excel for HR analytics
- Conducting purposeful workforce analytics

#### Elements and Performance Criteria

##### *Introduction to HR analytics*

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the traditional HRM concepts and practices.
- PC2.** Identify the changing trends in HRM leading to the emergence of strategic HRM.
- PC3.** Describe the phases of HR analytics from 2010 onward.
- PC4.** Discuss the importance and challenges associated with HR analytics.

##### *Understanding HR analytics*

To be competent, the user/individual on the job must be able to:

- PC5.** Outline the phases of the Analytics Process Model (APM).
- PC6.** Explain the significance of HR indicators, metrics, and data in analytics.
- PC7.** Describe the LAMP Framework and HCM 21 Framework.
- PC8.** Explain the approaches for designing HR metrics, including the Inside-Out Approach and the Outside-In Approach.
- PC9.** Align HR metrics with business strategy, goals, and objectives, and link HR to the strategy map.

##### *HR analytics tools and techniques*

To be competent, the user/individual on the job must be able to:

- PC10.** Discuss the importance of data in HR analytics.
- PC11.** Identify the types of data and data capturing methods.
- PC12.** Explain the techniques for data examination and purification.
- PC13.** Describe various data analyzing techniques used in HR analytics.

##### *Using Excel for HR Analytics*

To be competent, the user/individual on the job must be able to:

- PC14.** Discuss the use of statistics in HRM, including regression analysis and measures of central tendency.

## Qualification Pack

**PC15.** Utilize Excel to create graphs, tables, and spreadsheets for HR analytics.

### *Conducting purposeful workforce analytics*

To be competent, the user/individual on the job must be able to:

**PC16.** Identify the key influencers in the HR analytics process.

**PC17.** Describe the model for the adoption of HR analytics.

**PC18.** Discuss the application of HR analytics in organizations.

**PC19.** Analyze the current status and trends in HR analytics.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** Understand the fundamentals of HR analytics, including workforce metrics, predictive analytics, and data-driven decision-making.

**KU2.** Recognize key HR data sources and their role in tracking employee performance, engagement, and retention.

**KU3.** Explain the use of analytical tools and software in HR reporting and trend analysis.

**KU4.** Identify best practices for data privacy, compliance, and ethical considerations in HR analytics.

## Generic Skills (GS)

User/individual on the job needs to know how to:

**GS1.** Communicate HR insights effectively using visual reports and data-driven storytelling.

**GS2.** Apply analytical skills to interpret workforce trends and recommend strategic HR interventions.

**GS3.** Use problem-solving techniques to address HR challenges through data-driven solutions.

**GS4.** Demonstrate proficiency in HR analytics tools such as Excel, Power BI, and HR dashboards.

## Qualification Pack

## Qualification Pack

### MEP/N0725: Advance Manpower Planning

#### Description

This NOS focuses on strategic workforce planning to ensure the right talent is available at the right time, optimizing resource allocation, succession planning, and future workforce needs.

#### Scope

The scope covers the following :

- Designing various HR Strategies
- HR Policies
- Payroll Management & Income Tax Rules

#### Elements and Performance Criteria

##### *Designing various HR Strategies*

To be competent, the user/individual on the job must be able to:

- PC1.** • Explain the concept of manpower planning.  
• .
- PC2.** Demonstrate manpower planning using Excel sheets.
- PC3.** Design recruitment strategies for different positions: technical hiring, non-technical hiring, mass hiring, and headhunting.
- PC4.** Conduct practical exercises on salary benchmarking using Excel sheets.
- PC5.** Identify and implement various employee retention strategies.
- PC6.** Develop and apply various employee engagement strategies.
- PC7.** Create individual development plans and succession planning strategies

##### *HR Policies*

To be competent, the user/individual on the job must be able to:

- PC8.** Create and design HR policies, including attendance and leave, POSH, domestic travel, local conveyance, and business code of conduct policies.
- PC9.** Identify and address challenges faced by HR in implementing HR policies.
- PC10.** Develop strategies to make HR policies effective within the company.

##### *Payroll Management & Income Tax Rules*

To be competent, the user/individual on the job must be able to:

- PC11.** Explain the concept of Cost to Company (CTC).
- PC12.** Describe the income taxation concept for salaried employees.
- PC13.** Calculate TDS and tax rebates for salaried employees.
- PC14.** Design CTC based on taxation rules.
- PC15.** Create a comprehensive compensation and benefits structure for the company.

#### Knowledge and Understanding (KU)

## Qualification Pack

The individual on the job needs to know and understand:

- KU1.** Understand the principles of manpower planning, including demand forecasting and workforce analytics.
- KU2.** Recognize the role of succession planning, talent pipeline development, and workforce optimization.
- KU3.** Explain key methodologies for assessing future workforce requirements based on business objectives.
- KU4.** Identify the impact of technological advancements and market trends on workforce planning strategies.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate workforce planning strategies effectively to management and HR teams.
- GS2.** Apply analytical skills to assess workforce data and predict future talent needs.
- GS3.** Use problem-solving techniques to address talent shortages and workforce imbalances.
- GS4.** Demonstrate proficiency in workforce planning tools, HR analytics, and forecasting models.

### MEP/N0727: Performance Management

#### Description

This NOS focuses on designing and implementing performance management systems to assess, develop, and enhance employee productivity in alignment with organizational goals.

#### Scope

The scope covers the following :

- Introduction to Performance Management
- Performance Planning
- Performance Management Analysis and Application
- Performance Appraisal & its Methods
- Issues in Performance Management
- Ethics in Performance Appraisal
- Performance Consulting
- Introduction to Competency Management
- Talent Management

#### Elements and Performance Criteria

##### *Introduction to Performance Management*

To be competent, the user/individual on the job must be able to:

- PC1.** Define the concept, scope, and objectives of performance management.
- PC2.** Explain the importance and principles of performance management.
- PC3.** Distinguish between performance management and performance appraisal.
- PC4.** Analyze current trends in performance management within the industry.

##### *Performance Planning*

To be competent, the user/individual on the job must be able to:

- PC5.** Define performance planning and its significance.
- PC6.** Apply goal-setting principles to establish performance criteria.
- PC7.** Outline the process and methodology of performance planning.
- PC8.** Identify common barriers to performance planning.

##### *Performance Management Analysis and Application*

To be competent, the user/individual on the job must be able to:

- PC9.** Identify different types of reward systems.
- PC10.** Analyze the effectiveness of various reward types.
- PC11.** Design a comprehensive reward system aligned with organizational goals.
- PC12.** Develop total reward strategies that include both monetary and non-monetary rewards.
- PC13.** Describe the characteristics of an effective performance reward plan.
- PC14.** Conduct performance analysis and review discussions.

## Qualification Pack

**PC15.** Use performance management systems to gather data for HR decisions and performance improvements.

**PC16.** Develop skills necessary for effective performance management

### *Performance Appraisal & its Methods*

To be competent, the user/individual on the job must be able to:

**PC17.** Define performance appraisal and its key characteristics.

**PC18.** Explain the objectives, importance, and principles of performance appraisal.

**PC19.** Describe traditional methods of performance appraisal such as ranking (forced ranking method) and rating, forced bell curve method.

**PC20.** Explain modern methods of performance appraisal including 360-degree appraisal and assessment centers.

**PC21.** Explain the concept of PMS and types of Key Result Areas (KRA).

**PC22.** Describe the process flow of the Performance Management System (PMS).

**PC23.** Design an effective PMS integrating Management by Objectives (MBO) and bell curve methods.

**PC24.** Define and design Key Result Areas (KRA) and Key Performance Indicators (KPI).

**PC25.** Create a quarterly KRA template.

**PC26.** Conduct PMS feedback sessions involving managers and HR.

**PC27.** Prepare a PMS quarterly dashboard using Excel.

### *Issues in Performance Management*

To be competent, the user/individual on the job must be able to:

**PC28.** Analyze the dynamics of team performance.

**PC29.** Develop strategies to enhance team performance.

**PC30.** Evaluate performance management in learning organizations.

**PC31.** Manage performance in virtual teams effectively.

### *Ethics in Performance Appraisal*

To be competent, the user/individual on the job must be able to:

**PC32.** Define the concept of ethics and its importance in performance management.

**PC33.** Explain the role of ethics in organizational performance management.

**PC34.** Identify ethical considerations in performance management.

**PC35.** Ensure ethical practices in performance appraisal.

**PC36.** Analyze real-world ethical issues in performance management.

**PC37.** Develop strategies to ensure ethics in performance management practices.

### *Performance Consulting*

To be competent, the user/individual on the job must be able to:

**PC38.** Define the concept of performance consulting.

**PC39.** Explain the need for performance consulting in organizations.

**PC40.** Describe the role of performance consulting.

**PC41.** Design and use performance relationship maps.

**PC42.** Develop contracts for performance consulting services.

**PC43.** Implement performance management operational strategies.

## Qualification Pack

### *Introduction to Competency Management*

To be competent, the user/individual on the job must be able to:

- PC44.** Define competency management and its significance.
- PC45.** Explain the scope of competency management in organizations.
- PC46.** Describe the Iceberg and Lancaster (Burgoyne) competency models.

### *Talent Management*

To be competent, the user/individual on the job must be able to:

- PC47.** Define the concept of talent management.
- PC48.** Explain different approaches to talent management.
- PC49.** Develop a framework for talent management including identification, integration, and retention.
- PC50.** Implement talent management practices and processes effectively.
- PC51.** Develop strategies for managing employee engagement.
- PC52.** Identify key factors and different aspects of talent management.
- PC53.** Analyze the specific challenges, biases and strategies for talent management in India.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the principles and objectives of performance management, including goal setting and evaluation methods.
- KU2.** Recognize different performance appraisal techniques, such as 360-degree feedback, KPI-based evaluation, and competency assessments.
- KU3.** Explain the role of continuous feedback, coaching, and development plans in improving employee performance.
- KU4.** Identify legal and ethical considerations in performance management, including fair evaluations and employee rights.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate performance expectations, feedback, and development plans effectively.
- GS2.** Apply analytical skills to assess performance data and identify improvement areas.
- GS3.** Use problem-solving techniques to address performance gaps and enhance productivity.
- GS4.** Demonstrate proficiency in performance management tools and HR software for tracking employee progress.

## Qualification Pack

### MEP/N0256: Personality Development

#### Description

This NOS focuses on enhancing personal and professional attributes, including communication skills, confidence, emotional intelligence, and workplace etiquette, to improve overall effectiveness and career growth.

#### Scope

The scope covers the following :

- Interview skills and techniques
- Group Discussion
- Presentation skills
- Conversational Skills
- Team Building
- Writing Skills for Managers

#### Elements and Performance Criteria

##### *Interview skills and techniques*

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the purpose of interviews in the context of recruitment and selection.
- PC2.** Identify the basic components and structure of an effective interview.
- PC3.** Describe various types of interviews (e.g., structured, unstructured, behavioral).
- PC4.** Compare and contrast the different interview types and their applications.
- PC5.** Demonstrate an effective self-introduction in an interview setting.
- PC6.** Provide constructive feedback to peers on their interview introductions.
- PC7.** Outline the key steps in preparing for an interview.
- PC8.** Create a checklist of essential preparations for an interview.
- PC9.** Explain the guidelines for conducting successful telephonic interviews.
- PC10.** Discuss the best practices for personal interviews.
- PC11.** Introduce the concept and purpose of group interviews.
- PC12.** Participate in a mock group interview and provide feedback on the experience.

##### *Group Discussion*

To be competent, the user/individual on the job must be able to:

- PC13.** List key points to remember for effective participation in group discussions.
- PC14.** Identify steps to succeed in group discussions and common do's and don'ts.
- PC15.** Engage in practice group discussions on current topics and provide constructive feedback.

##### *Presentation skills*

To be competent, the user/individual on the job must be able to:

- PC16.** Explain the importance of planning and preparation for a successful presentation.

## Qualification Pack

- PC17.** Develop a comprehensive presentation plan.
- PC18.** Describe key tips for creating effective PowerPoint presentations, including structure and content.
- PC19.** Create and deliver a PowerPoint presentation, focusing on introduction, middle, and closing.

### *Conversational Skills*

To be competent, the user/individual on the job must be able to:

- PC20.** Define the purpose and importance of effective conversations in personal and professional contexts.
- PC21.** Identify different types of conversations and their objectives.
- PC22.** List practical tips for improving conversational skills.
- PC23.** Practice implementing these tips in various conversational scenarios.
- PC24.** Demonstrate the ability to ask appropriate questions in a conversation.
- PC25.** Exhibit care, courtesy, and consideration in conversational interactions.
- PC26.** Explain guidelines for effective telephonic conversations, both personal and professional.
- PC27.** Practice conversational skills with strangers in simulated scenarios.

### *Team Building*

To be competent, the user/individual on the job must be able to:

- PC28.** Describe the stages of team development and effective team management strategies.
- PC29.** Identify the roles and responsibilities of team members in achieving team goals.
- PC30.** List the characteristics of a successful team.
- PC31.** Analyze the dynamics of a high-performing team.
- PC32.** Participate in team-building activities to enhance team cohesion and collaboration.
- PC33.** Reflect on the outcomes of team-building exercises and their impact on team performance.
- PC34.** Explain the importance of team building in achieving organizational objectives.
- PC35.** Develop strategies to foster team spirit and unity.

### *Writing Skills for Managers*

To be competent, the user/individual on the job must be able to:

- PC36.** Demonstrate effective email writing skills for personal and professional communication.
- PC37.** Identify the key components of a well-structured email.
- PC38.** Explain the benefits of diary writing for personal and professional development.
- PC39.** Develop a habit of regular diary writing.
- PC40.** Implement strategies to enhance vocabulary.
- PC41.** Apply newly learned vocabulary in written and spoken communication.
- PC42.** Write clear and concise objectives for resumes.
- PC43.** Tailor resume objectives to align with specific job roles.
- PC44.** Explain the key elements of effective report writing.
- PC45.** Write comprehensive and well-structured reports.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

## Qualification Pack

- KU1.** Understand the key elements of personality development, including self-awareness, confidence, and emotional intelligence.
- KU2.** Recognize the importance of effective communication, interpersonal skills, and professional etiquette.
- KU3.** Explain strategies for personal grooming, time management, and stress management in a professional setting.
- KU4.** Identify techniques for developing leadership qualities and a positive mindset.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate effectively in professional and social environments.
- GS2.** Apply critical thinking to enhance problem-solving and decision-making skills.
- GS3.** Demonstrate adaptability and resilience in handling workplace challenges.
- GS4.** Use self-management techniques to improve confidence, productivity, and personal growth.

## Qualification Pack

### MEP/N0257: Advanced MS Excel

#### Description

This NOS focuses on mastering advanced Microsoft Excel functions, including data analysis, automation, and reporting, to enhance productivity and support business decision-making.

#### Scope

The scope covers the following :

- Introduction to Spreadsheets
- Basic functions and utilities
- Spreadsheet Calculations
- Formatting Spreadsheets
- Data Analysis
- Spreadsheet Printing
- Charts and Graphs
- Elementary Modelling
- Lookup Functions
- Pivot Table and its Applications
- VBA Macros programming
- Sensitivity Analysis
- Simulation and Optimization

#### Elements and Performance Criteria

##### *Introduction to Spreadsheets*

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the history and evolution of spreadsheet software.
- PC2.** Describe the importance and applications of spreadsheets in business and HR operations.
- PC3.** Demonstrate basic navigation techniques within a spreadsheet.
- PC4.** Identify key components and features of spreadsheet software.
- PC5.** Create and apply basic formulas in a spreadsheet.
- PC6.** Explain the purpose and use of various arithmetic and logical formulas.
- PC7.** Identify and resolve common errors encountered in spreadsheets.
- PC8.** Implement strategies to minimize errors in data entry and formula application.
- PC9.** Compare and contrast the features of Google Sheets and Microsoft Excel.
- PC10.** Evaluate the advantages and limitations of each platform for HR tasks.

##### *Basic functions and utilities*

To be competent, the user/individual on the job must be able to:

- PC11.** Perform data entry and use fill handles for efficient data management.
- PC12.** Manage rows and columns effectively within a spreadsheet.
- PC13.** Apply protection settings to worksheets and workbooks to secure data.

## Qualification Pack

### *Spreadsheet Calculations*

To be competent, the user/individual on the job must be able to:

- PC14.** Define and use ranges in spreadsheet calculations.
- PC15.** Distinguish between absolute and relative cell references.
- PC16.** Apply appropriate referencing techniques in formulas.
- PC17.** Utilize a variety of formulas and functions for data analysis.
- PC18.** Perform calculations across multiple sheets within a workbook.

### *Formatting Spreadsheets*

To be competent, the user/individual on the job must be able to:

- PC19.** Apply formatting options to enhance the readability and presentation of data.
- PC20.** Use borders, alignment tools, and number formats to organize data.

### *Data Analysis*

To be competent, the user/individual on the job must be able to:

- PC21.** Utilize find and replace functions to manage data efficiently.
- PC22.** Apply text functions, filters, sorting, and conditional formatting for data analysis.

### *Spreadsheet Printing*

To be competent, the user/individual on the job must be able to:

- PC23.** Set up spreadsheets for printing, including print preview and adjustments.
- PC24.** Adjust orientation, margins, scale, and add headers and footers for print layout.

### *Charts and Graphs*

To be competent, the user/individual on the job must be able to:

- PC25.** Create and modify basic chart types.
- PC26.** Adjust and customize chart elements for effective data visualization.

### *Elementary Modelling*

To be competent, the user/individual on the job must be able to:

- PC27.** Utilize IF statements and nested IFs for conditional analysis.
- PC28.** Apply COUNTIF, COUNTIFS, SUMIF, SUMIFS, AVERAGEIF, and AVERAGEIFS functions for data modelling.

### *Lookup Functions*

To be competent, the user/individual on the job must be able to:

- PC29.** Perform data lookups using VLOOKUP and HLOOKUP functions.
- PC30.** Use Index and Match functions for advanced data retrieval.

### *Pivot Table and its Applications*

To be competent, the user/individual on the job must be able to:

- PC31.** Create and manipulate pivot tables for data analysis.
- PC32.** Filter and segment data using slicers in pivot tables.
- PC33.** Utilize pivot tables to visualize and summarize aggregate data.

### *VBA Macros programming*

To be competent, the user/individual on the job must be able to:

- PC34.** Record and execute macros to automate repetitive tasks.
- PC35.** Write basic VBA subroutines and functions to enhance spreadsheet functionality.

## Qualification Pack

**PC36.** Implement control structures such as IF Then, Case, For Loop, While Loop, and Do Until in VBA.

**PC37.** Manipulate worksheet and range objects using VBA.

### *Sensitivity Analysis*

To be competent, the user/individual on the job must be able to:

**PC38.** Conduct sensitivity analysis using Goal Seek and Data Tables.

**PC39.** Perform scenario analysis to evaluate different business outcomes.

### *Simulation and Optimization*

To be competent, the user/individual on the job must be able to:

**PC40.** Apply Monte Carlo simulations for risk analysis and decision-making.

**PC41.** Use Solver for linear programming and optimization problems.

**PC42.** Develop and apply intrinsic value calculation models for financial analysis.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** Understand advanced Excel functions, including PivotTables, Power Query, and advanced formulas.

**KU2.** Recognize data visualization techniques, such as conditional formatting, charts, and dashboards.

**KU3.** Explain automation tools like Macros and VBA for streamlining repetitive tasks.

**KU4.** Identify data analysis methods, including statistical functions, scenario analysis, and forecasting.

## Generic Skills (GS)

User/individual on the job needs to know how to:

**GS1.** Communicate insights effectively using Excel-based reports and dashboards.

**GS2.** Apply analytical skills to process and interpret large datasets.

**GS3.** Use problem-solving techniques to optimize data management and automation.

**GS4.** Demonstrate proficiency in Excel tools to enhance efficiency and decision-making.

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                    | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|-----------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|
| <i>Introduction to Spreadsheets</i>                                                                 | <b>6</b>     | <b>1</b>        | -             | -          |

### MEP/N0728: OJT Mandatory - Human Resource Operations

#### Description

This NOS focuses on providing hands-on training in core HR functions, ensuring practical exposure to recruitment, onboarding, payroll processing, employee relations, and compliance management.

#### Scope

The scope covers the following :

- OJT Mandatory - Human Resource Operations

#### Elements and Performance Criteria

##### *OJT Mandatory - Human Resource Operations*

To be competent, the user/individual on the job must be able to:

- PC1.** Identify and correct perception errors (halo effect, stereotype, projection) in various scenarios.
- PC2.** Apply group decision-making exercises using brainstorming and Nominal Group Technique to discuss the outcomes of an important issue of the organization.
- PC3.** Create and present organizational structures (horizontal and vertical) and explain their dimensions.
- PC4.** Engage in group discussions to analyze and solve the three fundamental problems of economic organization.
- PC5.** Plot demand and supply curves based on given data and identify shifts in the curves.
- PC6.** Present data using bar graphs, pie charts, histograms, and ogive curves.
- PC7.** Conduct PESTEL and SWOT analyses on real business scenarios to understand the impact of various environments on strategic decisions.
- PC8.** Deliver prepared speeches effectively, demonstrating clarity, organization, and engagement.
- PC9.** Create a pathway for adopting a continuous learning mindset for personal and professional development
- PC10.** Execute a selection process by designing selection tests, conducting structured interviews, and performing pre-employment checks for a simulated job position.
- PC11.** Create an incentive plan that includes both individual and group-based incentives, using models like the Taylor differential piece rate system and profit sharing.
- PC12.** Design a strategy for a trade union to address internal and external challenges, including the application of the Trade Union Act 1926, and methods to enhance collective bargaining power.
- PC13.** Perform a training needs assessment for a mock organization, using the TNA Model to identify training and non-training needs.
- PC14.** Facilitate an educational or vocational counselling session, applying problem-solving techniques like ice breaking, monitoring progress, and achieving closure.
- PC15.** Create compelling content for various PR materials such as newsletters, blogs, and position papers, focusing on meeting media needs and engaging target audiences effectively

## Qualification Pack

- PC16.** Create a PowerPoint presentation, incorporating multimedia elements, adjusting slide design, and applying transitions and animations.
- PC17.** Utilize virtual collaboration tools to work effectively
- PC18.** Develop a project plan for implementing an HRIS in your organization.
- PC19.** Apply basic data analysis techniques to interpret HR data.
- PC20.** Calculate TDS and tax rebates for salaries using Excel.
- PC21.** Set up a DBMS for your organisation using MS Access and MS SQL.
- PC22.** Design and carry out a legal compliance audit in HR, focusing on pre-employment requirements, hiring processes, and workplace policies.
- PC23.** Participate in group discussions on current topics and provide constructive feedback to peers.
- PC24.** Perform data entry using fill handles for large data sets.
- PC25.** Apply Monte Carlo simulations for decision-making scenarios.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the fundamental HR operations, including employee lifecycle management, documentation, and compliance.
- KU2.** Recognize key processes such as recruitment, training, performance management, and grievance handling.
- KU3.** Explain payroll management, benefits administration, and labor law compliance.
- KU4.** Identify HR technology and software used for managing day-to-day HR functions.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate HR policies, procedures, and expectations effectively.
- GS2.** Apply problem-solving skills to handle real-time HR challenges and employee queries.
- GS3.** Demonstrate teamwork and collaboration while working in an HR environment.
- GS4.** Use HR management systems (HRMS) and digital tools to perform HR-related tasks efficiently.

## Qualification Pack

### MEP/N0258: Management Information System (MIS)

#### Description

This NOS focuses on the effective use of Management Information Systems (MIS) to collect, process, analyze, and report business data for informed decision-making and operational efficiency.

#### Scope

The scope covers the following :

- Introduction to MIS
- System Concepts
- Database Management Systems (DBMS)
- System Analysis and Design
- Security and Ethical Issues in MIS

#### Elements and Performance Criteria

##### *Introduction to MIS*

To be competent, the user/individual on the job must be able to:

- PC1.** Differentiate between data and information.
- PC2.** Define the meaning and concept of MIS.
- PC3.** Explain the characteristics, importance, and scope of MIS.
- PC4.** Identify subsystems of MIS.
- PC5.** Discuss the relationship between MIS and other academic disciplines.
- PC6.** Describe the structure of MIS based on management activity and organizational functions.

##### *System Concepts*

To be competent, the user/individual on the job must be able to:

- PC7.** Identify and explain the elements of systems.
- PC8.** Describe different types of systems and subsystems.
- PC9.** Explain the components and factors for building a Decision Support Systems (DSS).

##### *Database Management Systems (DBMS)*

To be competent, the user/individual on the job must be able to:

- PC10.** Define and identify the limitations of conventional files.
- PC11.** Describe the database hierarchy and structure.
- PC12.** Differentiate between traditional and modern approaches to database management.
- PC13.** Discuss and demonstrate the use of MS Access and MS SQL for DBMS
- PC14.** Identify and describe the types of database users.
- PC15.** Explain different data models used in DBMS.
- PC16.** Design a DBMS considering various data models.

##### *System Analysis and Design*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

**PC17.** Explain the prototyping approach in system analysis and design (SAD)

**PC18.** Explain the phases of the System Development Life Cycle (SDLC).

**PC19.** Explain the process of system testing.

**PC20.** Discuss the steps for implementing MIS.

### *Security and Ethical Issues in MIS*

To be competent, the user/individual on the job must be able to:

**PC21.** Identify control issues related to MIS.

**PC22.** Describe various security hazards associated with MIS.

**PC23.** Discuss various technical solutions for privacy protection in MIS.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** Understand the fundamentals of MIS, including its role in data management and business decision-making.

**KU2.** Recognize key MIS components, such as databases, reporting tools, and data processing techniques.

**KU3.** Explain various MIS applications in business functions, including finance, HR, operations, and marketing.

**KU4.** Identify best practices for data security, compliance, and system integration in MIS.

## Generic Skills (GS)

User/individual on the job needs to know how to:

**GS1.** Communicate MIS reports and insights effectively to stakeholders.

**GS2.** Apply analytical skills to interpret business data and generate meaningful reports.

**GS3.** Use problem-solving techniques to optimize MIS processes and troubleshoot system issues.

**GS4.** Demonstrate proficiency in MIS tools, including Excel, databases, and business intelligence software.

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                     | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|------------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|
| <i>Introduction to MIS</i>                                                                           | <b>10</b>    | -               | <b>4</b>      | -          |

## Qualification Pack

### MEP/N0726: HR Audit and Accounting

#### Description

This NOS focuses on assessing HR policies, procedures, and financial aspects to ensure compliance, efficiency, and alignment with organizational goals.

#### Scope

The scope covers the following :

- Human Resource Accounting
- Methods and Human Resource Accounting Practices in India
- Human Resource Audit
- HR Audit for Legal Compliance and Safe Business Practices
- HR Audit as Intervention

#### Elements and Performance Criteria

##### *Human Resource Accounting*

To be competent, the user/individual on the job must be able to:

- PC1.** Define the meaning, need, and objectives of Human Resource Accounting.
- PC2.** Outline the historical development of Human Resource Accounting.
- PC3.** Identify and explain the different costs involved in Human Resource Accounting: acquisition cost, training and development cost, and additional cost.
- PC4.** Assess the benefits and limitations of Human Resource Accounting.
- PC5.** Discuss the reporting of Human Resource Accounting at national levels.
- PC6.** Examine disclosures of Human Resource Accounting at the international level.

##### *Methods and Human Resource Accounting Practices in India*

To be competent, the user/individual on the job must be able to:

- PC7.** Describe the Cost of Production Approach, including Historical Cost Model, Replacement Cost Model, and Opportunity Cost, along with their advantages and limitations.
- PC8.** Explain the Capitalized Earnings Approach, including the Economic Value Model and Capitalization of Salary, with their respective advantages and limitations.
- PC9.** Analyze the application of various Human Resource Accounting methods in India.
- PC10.** Evaluate the effectiveness and challenges of implementing these practices in the Indian context.

##### *Human Resource Audit*

To be competent, the user/individual on the job must be able to:

- PC11.** Define the meaning, features, and objectives of HR Audit.
- PC12.** Outline the benefits, limitations, and significance of HR Audit in an organization.
- PC13.** Detail the process of conducting an HR Audit.
- PC14.** Discuss the different approaches of HR Audit and the principles of effective HR auditing.

## Qualification Pack

- PC15.** Describe the methods of conducting HR Audit, including interviews, workshops, observations, and questionnaires.
- PC16.** Identify the key components of HR Audit and their impact on workforce communication, employee relations, performance management, compensation systems, and team-building systems.

### *HR Audit for Legal Compliance and Safe Business Practices*

To be competent, the user/individual on the job must be able to:

- PC17.** Identify and explain the key areas covered by HR Audit: pre-employment requirements, hiring process, new-hire orientation process, workplace policies, and practices.
- PC18.** Assess the role of HR Audit in ensuring legal compliance and safe business practices.
- PC19.** Discuss the procedures and best practices for conducting a legal compliance audit in HR.

### *HR Audit as Intervention*

To be competent, the user/individual on the job must be able to:

- PC20.** Analyze the effectiveness of Human Resource Development Audit as an intervention tool.
- PC21.** Explain the linkage between Human Resource Audit and business performance.
- PC22.** Discuss the rationale and importance of Human Resource Valuation and Auditing.
- PC23.** Evaluate the issues in human capital measurement and reporting and their implications for HR management.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the principles of HR auditing, including compliance checks, risk assessment, and performance evaluation.
- KU2.** Recognize the role of HR accounting in tracking employee costs, compensation, and financial reporting.
- KU3.** Explain the methodologies for conducting HR audits, including documentation review and process evaluation.
- KU4.** Identify key financial metrics and cost analysis techniques used in HR accounting.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate audit findings and financial reports effectively to stakeholders.
- GS2.** Apply analytical skills to assess HR financial data and compliance gaps.
- GS3.** Use problem-solving techniques to improve HR processes and financial efficiency.
- GS4.** Demonstrate attention to detail in handling HR documentation, payroll records, and compliance reports.

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                                                  | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|
| <i>Human Resource Accounting</i>                                                                                                                                                  | <b>10</b>    | <b>2</b>        | -             | -          |
| <b>PC1.</b> Define the meaning, need, and objectives of Human Resource Accounting.                                                                                                | -            | -               | -             | -          |
| <b>PC2.</b> Outline the historical development of Human Resource Accounting.                                                                                                      | -            | -               | -             | -          |
| <b>PC3.</b> Identify and explain the different costs involved in Human Resource Accounting: acquisition cost, training and development cost, and additional cost.                 | -            | -               | -             | -          |
| <b>PC4.</b> Assess the benefits and limitations of Human Resource Accounting.                                                                                                     | -            | -               | -             | -          |
| <b>PC5.</b> Discuss the reporting of Human Resource Accounting at national levels.                                                                                                | -            | -               | -             | -          |
| <b>PC6.</b> Examine disclosures of Human Resource Accounting at the international level.                                                                                          | -            | -               | -             | -          |
| <i>Methods and Human Resource Accounting Practices in India</i>                                                                                                                   | <b>20</b>    | <b>2</b>        | -             | -          |
| <b>PC7.</b> Describe the Cost of Production Approach, including Historical Cost Model, Replacement Cost Model, and Opportunity Cost, along with their advantages and limitations. | -            | -               | -             | -          |
| <b>PC8.</b> Explain the Capitalized Earnings Approach, including the Economic Value Model and Capitalization of Salary, with their respective advantages and limitations.         | -            | -               | -             | -          |
| <b>PC9.</b> Analyze the application of various Human Resource Accounting methods in India.                                                                                        | -            | -               | -             | -          |
| <b>PC10.</b> Evaluate the effectiveness and challenges of implementing these practices in the Indian context.                                                                     | -            | -               | -             | -          |
| <i>Human Resource Audit</i>                                                                                                                                                       | <b>20</b>    | <b>2</b>        | -             | -          |
| <b>PC11.</b> Define the meaning, features, and objectives of HR Audit.                                                                                                            | -            | -               | -             | -          |

### Qualification Pack

| Assessment Criteria for Outcomes                                                                                                                                                               | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|
| <b>PC12.</b> Outline the benefits, limitations, and significance of HR Audit in an organization.                                                                                               | -            | -               | -             | -          |
| <b>PC13.</b> Detail the process of conducting an HR Audit.                                                                                                                                     | -            | -               | -             | -          |
| <b>PC14.</b> Discuss the different approaches of HR Audit and the principles of effective HR auditing.                                                                                         | -            | -               | -             | -          |
| <b>PC15.</b> Describe the methods of conducting HR Audit, including interviews, workshops, observations, and questionnaires.                                                                   | -            | -               | -             | -          |
| <b>PC16.</b> Identify the key components of HR Audit and their impact on workforce communication, employee relations, performance management, compensation systems, and team-building systems. | -            | -               | -             | -          |
| <i>HR Audit for Legal Compliance and Safe Business Practices</i>                                                                                                                               | <b>20</b>    | <b>2</b>        | -             | -          |
| <b>PC17.</b> Identify and explain the key areas covered by HR Audit: pre-employment requirements, hiring process, new-hire orientation process, workplace policies, and practices.             | -            | -               | -             | -          |
| <b>PC18.</b> Assess the role of HR Audit in ensuring legal compliance and safe business practices.                                                                                             | -            | -               | -             | -          |
| <b>PC19.</b> Discuss the procedures and best practices for conducting a legal compliance audit in HR.                                                                                          | -            | -               | -             | -          |
| <i>HR Audit as Intervention</i>                                                                                                                                                                | <b>20</b>    | <b>2</b>        | -             | -          |
| <b>PC20.</b> Analyze the effectiveness of Human Resource Development Audit as an intervention tool.                                                                                            | -            | -               | -             | -          |
| <b>PC21.</b> Explain the linkage between Human Resource Audit and business performance.                                                                                                        | -            | -               | -             | -          |
| <b>PC22.</b> Discuss the rationale and importance of Human Resource Valuation and Auditing.                                                                                                    | -            | -               | -             | -          |
| <b>PC23.</b> Evaluate the issues in human capital measurement and reporting and their implications for HR management.                                                                          | -            | -               | -             | -          |

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score recommended pass % aggregate for the QP.

## Qualification Pack

**Minimum Aggregate Passing % at QP Level : 70**

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## Assessment Weightage

Compulsory NOS

|                                              |                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
