MEP/N1126: Integration of CSR and Sustainability

Description

Introduction to CSR and Sustainability is a foundation NOS to learn the basics of CSR and Sustainability. It gives you a knowledge of different facets of CSR and Sustainability. It prepares you to the next ladder of theory and practical experiences of CSR and Sustainability

Scope

The scope covers the following :

- Align CSR and Sustainability in business
- Implement global CSR Laws
- Apply SDGs, NVGs, MDGs, BRSR
- Design projects on CSR and Sustainability
- Implement CSR and Sustainability

Elements and Performance Criteria

Align CSR and Sustainability in business

To be competent, the user/individual on the job must be able to:

- PC1.** Link CSR and sustainability principles with day-to-day business practices and strategic decision-making
- PC2.** Embed sustainability values into company mission, vision, and operational frameworks

Implement global CSR Laws

To be competent, the user/individual on the job must be able to:

- PC3.** Apply relevant national and international CSR regulations, including Companies Act, SEBI mandates, and global CSR disclosure standards
- PC4.** Develop CSR policies and form governance structures such as CSR committees in compliance with national legal frameworks
- PC5.** Integrate international CSR and sustainability guidelines, such as those issued by the UN, OECD, and Global Compact

Apply SDGs, NVGs, MDGs, BRSR

To be competent, the user/individual on the job must be able to:

- PC6.** Align CSR and sustainability initiatives with frameworks such as the Sustainable Development Goals (SDGs), National Voluntary Guidelines (NVGs), and Millennium Development Goals (MDGs)
- PC7.** Prepare and submit sustainability reports in formats such as BRSR and any other frameworks mandated by Indian regulators or global platforms

Design projects on CSR and Sustainability

To be competent, the user/individual on the job must be able to:

- PC8.** Design CSR and sustainability projects that are socially impactful, scalable, and aligned with company values

Qualification Pack

- PC9.** Prepare detailed budgets for CSR and sustainability initiatives, ensuring optimal resource allocation and compliance with financial guidelines

Implement CSR and Sustainability

To be competent, the user/individual on the job must be able to:

- PC10.** Develop a business strategy that integrates CSR and sustainability goals into core functions and departments
- PC11.** Create a roadmap with clear implementation steps, responsibilities, and timelines
- PC12.** Conduct project planning activities including feasibility assessment, partner selection, and risk management
- PC13.** Formulate organizational CSR and sustainability policy documents aligned with legal, ethical, and strategic imperatives
- PC14.** Establish strong linkages between CSR and sustainability outcomes to ensure coherence and long-term value generation

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** importance of CSR and Sustainability in business
- KU2.** laws and regulations
- KU3.** global perspective of CSR and Sustainability
- KU4.** importance of responsible business leadership
- KU5.** ethics, integrity, transparency and accountability

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively in respective languages with various stakeholders
- GS2.** take decisions related to job responsibilities
- GS3.** delegate the work to respective authorities
- GS4.** plan schedules and timetables with clear, specific milestones and deadlines
- GS5.** be compassionate, observant and understanding to social and sustainable causes
- GS6.** learn from failures and take corrective measures
- GS7.** be humble and demonstrate humility at all times at all levels with people

MEP/N1119: Project Management in CSR

Description

The NOS is designed to train people on project management basics, implementation, and reporting. This NOS deals with the intricacies of project management and enables the learners to foresee challenges and find prior solutions for the smooth functioning of the project. It also trains them with tools such as Participatory Rural Appraisal (PRA) methodology to prepare them to communicate with the rural, urban slums, and other stakeholders to prepare comprehensive studies and find solutions.

Scope

The scope covers the following :

- CSR and Sustainability policy framing
- Project planning and designing
- Project Budgeting
- Building roadmap and benchmarks
- Reporting and Communication

Elements and Performance Criteria

CSR and Sustainability Policy framing

To be competent, the user/individual on the job must be able to:

- PC1.** Apply national CSR laws and align them with the organization's CSR and sustainability policies
- PC2.** Conduct organization-wide and community-level need assessments to inform policy and project priorities
- PC3.** Align applicable sections of CSR law to project selection based on board or director-level guidance

Project planning and designing

To be competent, the user/individual on the job must be able to:

- PC4.** Design projects based on ground-level requirements, national development goals, or company CSR mandates
- PC5.** Develop achievable goals and measurable outcomes aligned with project scope and stakeholder expectations
- PC6.** Map key internal and external stakeholders to be involved in project design and execution

Project Budgeting

To be competent, the user/individual on the job must be able to:

- PC7.** Develop project budgets covering implementation, vendor management, and stakeholder costs
- PC8.** Allocate budget appropriately across different geographies or project sites to ensure equity and effectiveness
- PC9.** Integrate sustainability principles in budgeting to ensure long-term impact and resource efficiency

Qualification Pack

Building roadmap and benchmarks

To be competent, the user/individual on the job must be able to:

PC10. Develop detailed project timelines and define delivery milestones for strategic reporting

PC11. Benchmark new projects against peer initiatives or industry best practices

PC12. Embed learnings from past implementation challenges or failures and develop a future-facing roadmap

Reporting and Communication

To be competent, the user/individual on the job must be able to:

PC13. Develop communication materials such as videos, reports, and digital content for internal and external use

PC14. Determine relevant Indian and international CSR and sustainability reporting standards to adopt

PC15. Establish a stakeholder-inclusive reporting and feedback system including inputs from end beneficiaries

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the CSR laws, policy of the company, national priorities for social and sustainable development

KU2. need assessment at the ground level

KU3. stakeholders engagement in the project execution

KU4. reporting formats

KU5. KPIs for the project

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. communicate effectively in respective languages with various stakeholders

GS2. take decisions related to job responsibilities

GS3. delegate the work to respective authorities

GS4. plan schedules and timetables with clear, specific milestones and deadlines

GS5. be compassionate, observant and understanding to social and sustainable causes

GS6. learn from failures and take corrective measures

GS7. be humble and demonstrate humility at all times at all levels with people

MEP/N1105: Strategic CSR communication

Description

Strategic CSR communications for CSR manager will give an insight into using communication skills to create greater impact, contribute towards enhancing organization's image, professional skills, and creating better stakeholder engagement.

Scope

The scope covers the following :

- Importance of CSR Communications
- Research and data-based approach for communications
- Platform for social impact communications for CSR projects
- CSR report as per the compliance requirements

Elements and Performance Criteria

Importance of CSR Communications

To be competent, the user/individual on the job must be able to:

- PC1.** Map appropriate communication materials for different stakeholder groups involved in CSR initiatives
- PC2.** Develop a communication strategy that aligns with the CSR goals and the organizational brand image

Research and data-based approach for communications

To be competent, the user/individual on the job must be able to:

- PC3.** Prepare customized CSR communication materials based on the needs and interests of respective stakeholder groups
- PC4.** Conduct data collection and analysis to create credible and evidence-based CSR communication content
- PC5.** Develop a robust communication plan that incorporates facts, stories, and impact indicators from CSR activities

Platform for social impact communications for CSR projects

To be competent, the user/individual on the job must be able to:

- PC6.** Evaluate external platforms such as social media, public relations outlets, and CSR networks for communicating project outcomes
- PC7.** Prepare and finalize communication content suitable for dissemination through social media, PR campaigns, and beneficiary outreach

CSR report as per the compliance requirements

To be competent, the user/individual on the job must be able to:

- PC8.** Identify and decide on appropriate CSR and sustainability reporting methodologies applicable in India and internationally

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** stakeholder mapping
- KU2.** social media, public relations
- KU3.** CSR and Sustainability Reporting standards
- KU4.** research tools and usage
- KU5.** hierarchy of communication and what has to be communicated
- KU6.** importance of CSR communications

MEP/N1111: Sustainability Indices and Benchmarking

Description

This subject enables the learner to know different measurement tools for the work done and value the impact. It gives a rundown of the Social Stock Exchange Frameworks implementation rating and benchmarking.

Scope

The scope covers the following :

- Build indicators and reporting systems for sustainable business
- Applying national and international sustainability guidelines
- Aligning business with sustainability indices and investment norms
- Benchmark projects and align with sustainability indices
- Formulate measuring and reporting strategy

Elements and Performance Criteria

Build indicators and reporting systems for sustainable business

To be competent, the user/individual on the job must be able to:

- PC1.** Identify relevant tools and frameworks (e.g., GRI, B Impact Assessment, SASB) for measuring sustainable business performance
- PC2.** Engage with internal and external stakeholders to identify material sustainability issues and align performance indicators
- PC3.** Build structured internal and external reporting cycles using tools such as dashboards, ESG reports, and BRSR disclosures

Applying national and international sustainability guidelines

To be competent, the user/individual on the job must be able to:

- PC4.** Apply Indian and international sustainability guidelines and standards such as ISO 26000, BRSR, GRI, and SDG frameworks
- PC5.** Integrate these sustainability guidelines into business operations, decision-making, and strategic reporting processes

Aligning business with sustainability indices and investment norms

To be competent, the user/individual on the job must be able to:

- PC6.** Backtrack and analyze the listing norms, scoring criteria, and benchmarks used in leading sustainability indices (e.g., Dow Jones Sustainability Index, NIFTY100 ESG)
- PC7.** Integrate sustainability practices in business operations to enhance eligibility for listing on relevant sustainability indices
- PC8.** Promote or invest in sustainability-driven projects that meet long-term ESG goals and offer inclusion in green investment frameworks

Benchmark projects and align with sustainability indices

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC9.** Benchmark sustainability projects against national/international best practices and index performance indicators
- PC10.** Map each CSR/sustainability initiative against key parameters used in sustainability indices to assess alignment and readiness

Formulate measuring and reporting strategy

To be competent, the user/individual on the job must be able to:

- PC11.** Develop strategies for measuring project performance using defined indicators, outcome targets, and periodic review mechanisms
- PC12.** Finalize reporting indicators and link them to specific stakeholder groups, such as community, investors, auditors, or regulators

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** sustainability practices in a company/organization
- KU2.** indicators to benchmark projects
- KU3.** existence of various types of sustainability indices
- KU4.** key performance indicators
- KU5.** methodology of sustainability index
- KU6.** measurement tools for sustainable business practices
- KU7.** importance of guidelines and standards in India and Internationally - ISO2600, BRSR and others
- KU8.** forms and key indicators of sustainability indices
- KU9.** the functioning of sustainability indices

Generic Skills (GS)

User/individual on the job needs to know how to:

MEP/N1110: Sustainability Reporting

Description

The NOS is designed to train people on methods of sustainability reporting. It gives a brief about GRI, IR, BRSR, and materiality analysis. It also shows the perspective of a reporter and assessor of sustainability reporting. This NOS would give insight into the challenges and opportunities in sustainability reporting and the key points to remember while doing the reporting.

Scope

The scope covers the following :

- Prepare sustainability report as per India and International standards
- Apply Global Reporting Indicators (GRI), Integrated reporting (IR), materiality analysis
- Prepare Business Responsibility and Sustainability Report (BRSR) and Business responsibility report (BRR) as per SEBI guidelines
- Incorporate evolving trends in sustainability reporting

Elements and Performance Criteria

Prepare Sustainability Report of India and International standards

To be competent, the user/individual on the job must be able to:

- PC1.** Prepare sustainability reports in accordance with recognized national and international frameworks and sector-specific requirements
- PC2.** Identify and compare various sustainability reporting formats used in India (e.g., BRSR) and globally (e.g., GRI, IR, SASB)
- PC3.** Differentiate between various sustainability reporting standards and select the appropriate one based on organizational needs and regulatory context

Apply Global Reporting Indicators (GRI), Integrated reporting (IR), materiality analysis

To be competent, the user/individual on the job must be able to:

- PC4.** Perform materiality analysis to identify critical disclosure areas based on the key principles and structure of GRI Standards, Integrated Reporting (IR)
- PC5.** Develop sustainability reports using GRI and Integrated Reporting frameworks tailored to the organization's strategy, performance, and material topics

Prepare Business Responsibility and Sustainability Report (BRSR) and Business responsibility report (BRR) as per SEBI guidelines

To be competent, the user/individual on the job must be able to:

- PC6.** Develop disclosure indicators from SEBI's BRSR and BRR frameworks across Environmental, Social, and Governance parameters
- PC7.** Develop a complete Business Responsibility and Sustainability Report (BRSR) aligned with SEBI's mandatory format and applicable sectoral disclosures

Incorporate evolving trends in sustainability reporting

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC8.** Identify emerging global trends in sustainability reporting, such as TCFD, CDP, EU CSRD, and apply relevant formats or disclosures based on industry practices

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** application of sustainability practices in the businesses
- KU2.** importance of sustainability reporting
- KU3.** stakeholders to report the development
- KU4.** the laws and regulations of the country and company for reporting
- KU5.** data management
- KU6.** the difference between BRSR and BRR

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively in respective languages with various stakeholders
- GS2.** take decisions related to job responsibilities
- GS3.** delegate the work to respective authorities
- GS4.** plan schedules and timetables with clear, specific milestones and deadlines

MEP/N1120: SDG Mapping and Measurement

Description

This NOS empowers the learners to map their CSR and Sustainability activities with SDGs and measure according to the key indices.

Scope

The scope covers the following :

- Map CSR and Sustainability activities with SDGs,
- Measure and monitor CSR projects against SDGs
- Report and communicate SDG impact

Elements and Performance Criteria

Map CSR and Sustainability activities with SDGs

To be competent, the user/individual on the job must be able to:

- PC1.** Identify relevant Sustainable Development Goals (SDGs) of the United Nations along with national and state-level development priorities
- PC2.** Align CSR and sustainability projects with both business objectives and the targeted SDGs
- PC3.** Map each CSR and sustainability project with specific SDGs to ensure holistic and measurable development alignment

Measure and monitor CSR projects against SDGs

To be competent, the user/individual on the job must be able to:

- PC4.** Measure the social and environmental impact of CSR and sustainability projects in the context of targeted SDGs
- PC5.** Develop a structured project monitoring mechanism linked to SDG indicators
- PC6.** Establish a ground-up reporting pipeline for consistent data collection, validation, and consolidation
- PC7.** Identify and document each project's contribution to specific SDGs at national and global levels

Report and communicate SDG impact

To be competent, the user/individual on the job must be able to:

- PC8.** Develop a systematic SDG-aligned report capturing outcomes, gaps, and strategic learnings from CSR and sustainability initiatives
- PC9.** Prepare targeted communication materials on SDG impact for various stakeholder groups including board, regulators, and communities
- PC10.** Formulate a comprehensive SDG communication strategy using digital, print, and interactive modes

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** reporting formats available nationally and internationally.
- KU2.** nations ranking on Sustainable development goals (SDGs) by the United nations
- KU3.** countries rating on each SDG goal and priorities defined
- KU4.** project execution and monitoring system
- KU5.** communication strategy
- KU6.** dissemination of message
- KU7.** local and international language
- KU8.** stakeholder hierarchy and understanding

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively in respective languages with various stakeholders
- GS2.** take decisions related to job responsibilities
- GS3.** delegate the work to respective authorities
- GS4.** plan schedules and timetables with clear, specific milestones and deadlines
- GS5.** be compassionate, observant and understanding to social and sustainable causes
- GS6.** learn from failures and take corrective measures
- GS7.** be humble and demonstrate humility at all times at all levels with people

MEP/N1121: ESG Integration and Implementation

Description

This NOS is developed for the people who would like to learn about the pathway to make an ESG compliant company. Learning this NOS will enable people to know ESG investments and incorporate them in their investment related decisions.

Scope

The scope covers the following :

- Integrate ESG into business strategy
- Institutionalized the role of ESG Practitioners
- Build ESG compliant pathways
- Develop ESG indicators based on global indices
- Use technology and change management tools for ESG

Elements and Performance Criteria

Integrate ESG into business strategy

To be competent, the user/individual on the job must be able to:

- PC1.** Identify the key elements of Environmental, Social, and Governance (ESG) and their relevance to the business
- PC2.** Apply ESG principles across relevant business verticals in alignment with company strategy and compliance goals
- PC3.** Measure the business, social, and environmental outcomes resulting from ESG implementation

Institutionalized the role of ESG Practitioners

To be competent, the user/individual on the job must be able to:

- PC4.** Define the role of ESG practitioners within the organization based on regulatory and internal needs
- PC5.** Assign responsibilities and KPIs to ESG practitioners across departments or functions
- PC6.** Evaluate the expected outcomes of ESG practitioners in terms of performance and compliance contributions

Build ESG compliant pathways

To be competent, the user/individual on the job must be able to:

- PC7.** Define what ESG compliance means within the specific industry context of the organization
- PC8.** Integrate ESG principles across company operations, policies, and value chains
- PC9.** Measure the results of ESG-related activities and compare them to compliance and impact benchmarks

Develop ESG indicators based on global indices

To be competent, the user/individual on the job must be able to:

- PC10.** Develop ESG rating indicators based on at least one global sustainability index such as DJSI or SASB

Qualification Pack

PC11. Design a rating methodology tailored to the organization's ESG maturity, sector, and regional context

Use technology and change management tools for ESG

To be competent, the user/individual on the job must be able to:

PC12. Use technology tools and change transformation frameworks to implement and track ESG integration and rating progress

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. importance of the environment, social and governance (esg)

KU2. project management

KU3. measure impact

KU4. methodologies to rate

KU5. data collection, analysis and interpretation

KU6. robust internal and external communication system

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. communicate effectively in respective languages with various stakeholders

GS2. take decisions related to job responsibilities

GS3. delegate the work to respective authorities

GS4. plan schedules and timetables with clear, specific milestones and deadlines

GS5. be compassionate, observant and understanding to social and sustainable causes

GS6. learn from failures and take corrective measures

GS7. be humble and demonstrate humility at all times at all levels with people

MEP/N1122: NGO Fundraising and Proposal writing

Description

This NOS is developed for the people who would like to learn about Grant raising process, challenges, opportunities in different forms from different funders. It covers the fundamentals of approaching diverse funders for fundraising.

Scope

The scope covers the following :

- Strategize NGO fundraising and compliance alignment
- Build fundraising models and engage different funder types
- Write and customize funding proposals
- Establish grant-making indicators and stakeholder mapping

Elements and Performance Criteria

Strategize NGO fundraising and compliance alignment

To be competent, the user/individual on the job must be able to:

- PC1.** Develop a fundraising strategy tailored to organizational goals and funding gaps
- PC2.** Identify internal teams or individuals authorized to raise funds, define eligible causes, and map relevant funding avenues
- PC3.** Align CSR laws and fundraising compliance requirements in India and internationally with project funding strategies

Build fundraising models and engage different funder types

To be competent, the user/individual on the job must be able to:

- PC4.** Identify and categorize different types of funding agencies and philanthropic investors
- PC5.** Design tailored engagement models and pitch strategies for diverse funder types
- PC6.** Prepare and submit structured fundraising proposals as per the requirements of different agencies
- PC7.** Integrate Customer Relationship Management (CRM) tools to manage donor interactions and follow-ups

Write and customize funding proposals

To be competent, the user/individual on the job must be able to:

- PC8.** Evaluate submitted proposals to ensure alignment with funder expectations and compliance norms
- PC9.** Customize proposals based on funder interests, thematic priorities, and communication preferences
- PC10.** Use social media tools and platforms to communicate fundraising campaigns and reach potential donors

Establish grant-making indicators and stakeholder mapping

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC11.** Develop a list of factors and triggers that influence grant-making decisions by funding agencies
- PC12.** Map and approach key stakeholders and decision-makers involved in the grant-making process

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** social media
- KU2.** story-telling and case building
- KU3.** how to build social network for fundraising
- KU4.** the hierarchy of grant making
- KU5.** the need of the ground while developing proposal for fundraising
- KU6.** need assessment of the end beneficiaries
- KU7.** success indicators of the project

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively in respective languages with various stakeholders
- GS2.** take decisions related to job responsibilities
- GS3.** delegate the work to respective authorities
- GS4.** plan schedules and timetables with clear, specific milestones and deadlines

MEP/N1123: Strategic Impact Assessment and Risk Mitigation

Description

This NOS is specially designed for executives interested to learn about impact assessment and modes of doing the same. It focuses on different themes, covers SDGs, and explains Risk mitigation in CSR and Sustainability projects. It covers the whole ecosystem of Impact assessment in concentrated learning.

Scope

The scope covers the following :

- Lead need and impact assessment of CSR projects
- Establish Impact assessment process and indicators
- Risk mitigation in CSR and Sustainability projects

Elements and Performance Criteria

Lead need and impact assessment of CSR projects

To be competent, the user/individual on the job must be able to:

- PC1.** Conduct need assessments to identify project justification and alignment with organizational or community priorities
- PC2.** Develop structured tools and techniques for conducting multi-dimensional impact assessments
- PC3.** Design appropriate methodologies to measure short-term and long-term project impact
- PC4.** Develop project monitoring systems to support data-driven impact evaluations
- PC5.** Build process flows to track project inputs, outputs, and intended outcomes
- PC6.** Identify and map stakeholders for inclusive assessment and feedback mechanisms
- PC7.** Prepare impact reports and communication materials to share findings with internal and external stakeholders

Establish Impact assessment process and indicators

To be competent, the user/individual on the job must be able to:

- PC8.** Define key performance indicators (KPIs) relevant to each CSR or sustainability project
- PC9.** Benchmark project design, process, and outcomes with peer or industry standards
- PC10.** Define clear parameters for measuring both success and failure across projects

Risk Mitigation on CSR and Sustainability projects

To be competent, the user/individual on the job must be able to:

- PC11.** Identify risk factors that may affect the success or failure of CSR and sustainability initiatives from a business or stakeholder lens
- PC12.** Develop and implement a timely risk mitigation roadmap to address potential threats and ensure continuity

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** research methodologies
- KU2.** data collection, analysis and interpretation
- KU3.** local language of the region
- KU4.** methods to communicate at grassroots level
- KU5.** regional challenges of the project
- KU6.** hierarchy of stakeholders involved in the project
- KU7.** management and delegation skills

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively in respective languages with various stakeholders
- GS2.** take decisions related to job responsibilities
- GS3.** delegate the work to respective authorities
- GS4.** plan schedules and timetables with clear, specific milestones and deadlines

MEP/N1124: Leading Social Entrepreneurship Initiatives

Description

This NOS demystifies Social Entrepreneurship conceptually and practically by distilling the information through an innovative, entrepreneurial and optimistic mindset - "MOC" Missed Opportunities Cognizant mindset

Scope

The scope covers the following :

- Understand the concept and ecosystem of social entrepreneurship
- Structure and register the social enterprise
- Develop and pitch business plans
- Prepare for fundraising and investor engagement

Elements and Performance Criteria

Understand the concept and ecosystem of social entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC1.** Differentiate between conventional entrepreneurship and social entrepreneurship in terms of purpose, models, and impact
- PC2.** Identify the challenges, lived experiences, and systemic issues faced by end beneficiaries in underserved communities
- PC3.** Develop innovative and scalable solutions to address identified social or environmental challenges
- PC4.** Map the ecosystem of stakeholders and understand their roles, requirements, and interdependencies

Structure and register the social enterprise

To be competent, the user/individual on the job must be able to:

- PC5.** Implement the legal procedures for registering a social enterprise under appropriate laws such as Section 8, Trusts, or Societies
- PC6.** Create forward-looking financial projections that demonstrate revenue, impact, and sustainability
- PC7.** Develop a marketing and go-to-market strategy to reach end beneficiaries or customers
- PC8.** Establish lean and efficient operational systems for service or product delivery

Develop and pitch business plans

To be competent, the user/individual on the job must be able to:

- PC9.** Create an effective pitch deck outlining problem, solution, impact model, and financial sustainability
- PC10.** Deliver investor presentations or pitch in formal forums to raise interest and funding
- PC11.** Ensure product-market fit by testing, validating, and refining solutions based on beneficiary feedback

Prepare for fundraising and investor engagement

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC12.** Identify the stage of the enterprise (ideation, early-stage, growth) to determine fundraising readiness
- PC13.** Conduct data mining to identify relevant impact investors, donors, or CSR funders
- PC14.** Segment and profile investors based on funding approach, risk appetite, and sectoral interests
- PC15.** Review and analyze investor term sheets including equity, debt, and dilution terms before accepting funding

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the challenges on the ground
- KU2.** legal structures
- KU3.** business and NGOs
- KU4.** about social networking
- KU5.** financial projections
- KU6.** product-market fit
- KU7.** how to make presentations and pitch

Generic Skills (GS)

MEP/N1125: Build Corporate Energy Management

Description

This NOS will empower attendees to initiate the implementation of sustainable and result-oriented energy management programs within their corporations.

Scope

The scope covers the following :

- Develop and integrate corporate energy management programs
- Financial planning for energy management
- Implement energy efficient infrastructure and products
- Create a corporate energy excellence model

Elements and Performance Criteria

Develop and integrate corporate energy management programs

To be competent, the user/individual on the job must be able to:

- PC1.** Design a comprehensive energy management program aligned with organizational sustainability and operational goals
- PC2.** Integrate the energy management program into different business verticals such as facilities, manufacturing, logistics, or IT
- PC3.** Develop a structured process flow for company-wide energy management implementation
- PC4.** Measure and monitor the system performance of the implemented energy management program using defined indicators

Financial planning for energy management

To be competent, the user/individual on the job must be able to:

- PC5.** Conduct a cost-benefit analysis to evaluate the financial and environmental returns of the proposed energy management initiatives

Implement energy efficient infrastructure and products

To be competent, the user/individual on the job must be able to:

- PC6.** Define and integrate the key components required to make a facility or operation highly energy-efficient

Create a corporate energy excellence model

To be competent, the user/individual on the job must be able to:

- PC7.** Develop and implement a corporation-specific energy management excellence model across all project phases from inception to completion

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the energy management solutions available

Qualification Pack

- KU2.** the energy consumption measurement
- KU3.** importance of energy management - water, electricity, natural resources
- KU4.** project management
- KU5.** how to develop reports
- KU6.** how to build indicators

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively in respective languages with various stakeholders
- GS2.** take decisions related to job responsibilities
- GS3.** delegate the work to respective authorities
- GS4.** plan schedules and timetables with clear, specific milestones and deadlines

MEP/N1115: Human Right in CSR

Description

This NOS is to educate you on the human rights issues in your company, mapping the relevant stakeholders and developing implementation strategy. It would empower you to address the pressing human rights challenges from the core of the problem and take you on the tour from theory to implementation.

Scope

The scope covers the following :

- Implement Indian and International human rights frameworks in business
- Map and analyse human rights stakeholders in business
- Develop and monitor human rights framework in the company
- Executing India's National Action Plan (NAP) and other human rights Compliances

Elements and Performance Criteria

Implement Indian and International human rights frameworks -in business

To be competent, the user/individual on the job must be able to:

- PC1.** Identify key linkages between business operations and human rights impacts
- PC2.** Apply relevant regional and international laws (e.g., UDHR, ILO, ICCPR) related to business and human rights
- PC3.** Implement human rights frameworks such as UNGP, OECD Guidelines, and ISO 26000 in the organization's strategy and operations
- PC4.** Integrate the UN Guiding Principles on Business and Human Rights (UNGP) into internal policies, due diligence processes, and grievance redressal mechanisms

Map and analyse human rights stakeholders in business

To be competent, the user/individual on the job must be able to:

- PC5.** Assess the impact of human rights of business activities on different groups of people (workers, communities, etc.)
- PC6.** Identify and map stakeholders responsible for upholding and implementing human rights within the company and its value chain
- PC7.** Distinguish between direct (e.g., employees, contractors) and indirect stakeholders (e.g., community members, suppliers) affected by human rights risks
- PC8.** Evaluate potential or actual human rights violations and their consequences on affected stakeholders

Develop and monitor human rights framework in the company

To be competent, the user/individual on the job must be able to:

- PC9.** Design a human rights framework tailored to the company's operations, risks, and sectoral context
- PC10.** Establish a system to monitor the implementation and progress of the company's human rights framework

Qualification Pack

PC11. Periodically review the effectiveness of the human rights framework and make improvements based on feedback and risk assessments

Executing India's National Action Plan (NAP) and other human rights Compliances

To be competent, the user/individual on the job must be able to:

PC12. Implement India's National Action Plan (2020) on Business and Human Rights within relevant departments and policies

PC13. Ensure adherence to both national and international human rights compliance mechanisms applicable to business functions

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the importance of human rights in business

KU2. the laws and regulations to maintain human rights

KU3. project management, execution and implementation

KU4. process flows

KU5. hierarchy in a company

KU6. key performance indicators

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. communicate effectively in respective languages with various stakeholders

GS2. take decisions related to job responsibilities

GS3. delegate the work to respective authorities

GS4. plan schedules and timetables with clear, specific milestones and deadlines

GS5. be compassionate, observant and understanding to social and sustainable causes

GS6. learn from failures and take corrective measures

GS7. be humble and demonstrate humility at all times at all levels with people

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down a proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on a knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
