MEP/N5104: Manage the sales, supplies, marketing and customer service operations

Description

This unit is about managing sales of products or services, procurement of supplies, dealing with and managing vendors and suppliers, marketing and promotional activities of the enterprise, and customer service operations that forms part of running an enterprise.

Scope

The scope covers the following :

- Manage sales and marketing activities
- Manage supplies and vendors
- Ensure quality assurance
- Manage digital marketing
- Manage customer services
- Ensure material and energy conservation

Elements and Performance Criteria

Manage sales and marketing activities

To be competent, the user/individual on the job must be able to:

- PC1.** prepare the organisational guidelines/standards for the sales of goods and/or services
- PC2.** identify the suitable sales channels for the products or services
- PC3.** prepare the sales plan, and targets
- PC4.** determine the budget for promotional activities
- PC5.** use Unique Selling Proposition for marketing
- PC6.** use a mix of promotional strategies, such as social media and point-of-sale promotions
- PC7.** prepare the promotional materials/medium and messages
- PC8.** use branding, packaging and labeling for marketing

Manage supplies and vendors

To be competent, the user/individual on the job must be able to:

- PC9.** assess the material requirements of the business, such as machinery and raw materials
- PC10.** identify and connect with the relevant vendors for procurement and provision of services
- PC11.** prepare the vendor contracts, clearly defining measurable metrics, such as the timeline and deliverables
- PC12.** procure the required machinery, raw materials, consumables and other required materials
- PC13.** manage procurement logistics, including inbound, outbound and reverse
- PC14.** manage vendor relationships by identifying and addressing conflicts promptly
- PC15.** develop ongoing evaluation mechanisms for vendors and procurement
- PC16.** maintain the relevant documents and registers, including the inventory and stock registers

Qualification Pack

Ensure quality assurance

To be competent, the user/individual on the job must be able to:

- PC17.** determine the appropriate parameters for the quality check of products and services
- PC18.** prepare a quality control checklist
- PC19.** develop the product quality inspection schedule and mechanism
- PC20.** develop the relevant processes for managing the items classified as defective or failed quality check
- PC21.** enforce quality assurance mechanisms in product development

Manage social media and digital marketing

To be competent, the user/individual on the job must be able to:

- PC22.** identify social media channels and blogs with the presence of customers for the products or services of the enterprise
- PC23.** develop a digital marketing strategy for promoting products and services
- PC24.** use digital marketing tools, such as email and Search Engine Marketing (SEM), to market products and services
- PC25.** follow the Search Engine Optimisation (SEO) practices to improve the visibility of the business and its products/services on the relevant search engines
- PC26.** co-ordinate with the relevant experts to launch e-commerce and m-commerce platforms
- PC27.** develop and use digital data analysis mechanisms to improve advertising and personalise offerings
- PC28.** ensure the privacy and security of consumer data
- PC29.** maintain the social media and digital marketing platforms, updating the information, as required
- PC30.** follow the recommended measures to safeguard the data and documents from unauthorised access, hackers and virus attacks
- PC31.** ensure a prompt and appropriate response to customer emails and telephone calls

Manage customer services

To be competent, the user/individual on the job must be able to:

- PC32.** carry out relevant research to determine the customer needs and expectations
- PC33.** follow the appropriate mechanisms to communicate with customers, build rapport with them, and measure their satisfaction
- PC34.** develop customer support systems
- PC35.** ensure timely resolution of customer grievances and complaints
- PC36.** develop appropriate strategies to attract customers and increase customer loyalty and trust
- PC37.** measure customer satisfaction through different channels, such as social media feedback and surveys
- PC38.** ensure effective customer services with correct information about products and services

Ensure material and energy conservation

To be competent, the user/individual on the job must be able to:

- PC39.** develop energy efficient and environment friendly products
- PC40.** minimise waste accumulated, through recycling and reuse
- PC41.** ensure electrical equipment and appliances are switched off when not in use

Qualification Pack

PC42. destroy discarded or unusable materials and other items using environment friendly methods

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** different types of sales and marketing strategies
- KU2.** the importance of developing effective sales and marketing processes
- KU3.** the benefit of using a mix of marketing strategies
- KU4.** the importance of developing robust quality assurance processes
- KU5.** different types of quality assurance processes
- KU6.** the importance of a Unique Selling Proposition (USP) for the success of a product or service
- KU7.** the importance of using a mix of promotional strategies, such as social media and point-of-sale promotion
- KU8.** the cold emailing and cold calling techniques
- KU9.** the effective vendor-management practices
- KU10.** the importance of pitching and negotiation skills for entrepreneurs
- KU11.** how to work in effective co-ordination with business partners and third-party vendors
- KU12.** the importance of analysing various aspects of the enterprise, such as marketing, sales, customer satisfaction, risks, etc.
- KU13.** the importance of using the traditional and modern sales channels effectively
- KU14.** the methods of pricing strategy and different factors that affect pricing decisions
- KU15.** the process of selecting price level in a competitive scenario
- KU16.** Tendering and Tender applications
- KU17.** the importance of measuring the effectiveness of advertising
- KU18.** different methods of communication and their benefits
- KU19.** the importance of negotiation in sales and marketing
- KU20.** the concept and benefits of branding and brand management
- KU21.** the role of packaging and labeling in product marketing
- KU22.** different ways of generating leads
- KU23.** the difference between warranty and guarantee and where each can be applied
- KU24.** the Program Evaluation and Review Techniques (PERT)
- KU25.** the strategies, techniques and tools for customer relationship management
- KU26.** the importance of conducting inspection and surprise checks
- KU27.** the advantages of e-commerce and m-commerce
- KU28.** the quality concepts and tools
- KU29.** how to acquire and use a shared website host (server)
- KU30.** the process of installing, testing and configuring WordPress, WooCommerce, themes, payment gateways, and value add plugins manually
- KU31.** the process of building an e-commerce website without coding
- KU32.** how to take or receive payments online

Qualification Pack

- KU33.** how to troubleshoot random problems in e-commerce and m-commerce
- KU34.** online etiquette and safety practices
- KU35.** internet platforms that can be used for sales and marketing
- KU36.** importance of sales targets and tracking sales data
- KU37.** advantages of different digital marketing tools
- KU38.** the process and benefits of telemarketing
- KU39.** different kinds of social media and how are they useful for a business
- KU40.** the role of customer care/support in customer satisfaction
- KU41.** different ways to increase customer base

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write factual and quantitative information such as details of people, areas, dates and timelines correctly
- GS2.** write accurate information in online and paper forms
- GS3.** read and extract relevant information from documentation, manuals, application instructions etc.
- GS4.** communicate politely and professionally
- GS5.** listen attentively to understand the information/ instructions being shared by the speaker
- GS6.** maintain work-related notes and records
- GS7.** read the relevant literature to learn about the latest developments in the field of work
- GS8.** plan and prioritise tasks to ensure timely completion
- GS9.** evaluate all possible solutions to a problem to select the best one
- GS10.** identify possible disruptions to work and take appropriate preventive measures
- GS11.** take quick decisions to deal with workplace emergencies/ accidents

MEP/N5105: Ensure growth and manage risks

Description

This unit is about conducting appropriate research, innovating, diversifying and scaling up business, managing risks as well as acquisitions and mergers.

Scope

The scope covers the following :

- Conduct market research and analysis
- Develop new product/ service or reposition the existing ones
- Carry out innovation and diversification for growth
- Scale up business through mergers and acquisitions
- Analyse and mitigate risks

Elements and Performance Criteria

Conduct market research and analysis

To be competent, the user/individual on the job must be able to:

- PC1.** carry out market research to determine scope and demand for a new product/service
- PC2.** collect data on consumers, competitors, and market conditions
- PC3.** determine the company's position in the marketplace by research and data analytics
- PC4.** analyse data to calculate consumer demographics, preferences, needs, and buying habits
- PC5.** evaluate the marketing and sales trends to determine future growth and direction

Develop new product/ service or reposition the existing ones

To be competent, the user/individual on the job must be able to:

- PC6.** determine the scope for repositioning product/service price, marketing strategy, target audience, eco-friendly ideas and the like for better market appeal
- PC7.** evaluate and make appropriate improvements to the existing processes and services
- PC8.** develop new production processes or services or stages within the existing processes
- PC9.** develop ideas for new products/ services, researching feasibility, profitability, resource availability and exiting laws and guidelines
- PC10.** support manufacturing and design activities as applicable
- PC11.** co-ordinate and work as part of a team

Carry out innovation and diversification for growth

To be competent, the user/individual on the job must be able to:

- PC12.** promote creativity and innovation through appropriate schemes and rewards
- PC13.** identify the possibilities for innovations in different areas of the business
- PC14.** examine the vertical and horizontal diversification strategies for profitability
- PC15.** develop diversification plans for the business
- PC16.** examine regulations and laws applicable to product diversification and market diversification

Qualification Pack

PC17. follow the appropriate procedures for diversification

Scale up business through mergers and acquisitions

To be competent, the user/individual on the job must be able to:

PC18. promote a strategy that prioritise growth

PC19. develop and implement processes for business growth and expansion

PC20. determine the fund requirement and other resources and procure them

PC21. examine barriers to growth and resolve them, with expert assistance, if required

PC22. carry out business scale-up activities

PC23. identify the mergers and acquisition options for business growth

PC24. follow the applicable laws and regulations for registering mergers and acquisitions

Analyse and mitigate risks

To be competent, the user/individual on the job must be able to:

PC25. carry out risk audits periodically

PC26. prepare a risk management plan including communication channels

PC27. implement the risk mitigation plan

PC28. undertake risk monitoring and control

PC29. maintain a risk register

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the importance and process of undertaking relevant research and analysis to identify the need to develop new products/ services or repositioning the existing ones

KU2. the importance of innovating and diversifying for business growth

KU3. the process of scaling up business through mergers and acquisitions the advantages and disadvantages of repositioning

KU4. steps involved in product development

KU5. repackaging, repricing, renaming, resizing as diversification strategies

KU6. the product innovation and development process

KU7. the importance and process of analysing risks and threats in the diversification or repositioning strategies

KU8. the pros and cons of repositioning a product versus introducing a new product

KU9. the skills required to run diversified products/services

KU10. the difference between product diversification and market diversification

KU11. advantages and disadvantages of diversification

KU12. the laws and regulations applicable to diversification, repositioning and launch of new product

KU13. the domestic/ global demand and competition for the relevant products and services

KU14. the pros and cons of primary and secondary research

KU15. how to conduct primary and secondary market research to determine the resource requirements

Qualification Pack

- KU16.** the process of finding and procuring the required resources
- KU17.** the applicable quality concepts and relevant tools
- KU18.** the entities that are considered small and micro businesses and the relevant policies governing them
- KU19.** various types of permissions required for conducting business
- KU20.** relevant mechanisms to build business relationships
- KU21.** the importance of effective customer relationship management
- KU22.** how to forecast demand for relevant products and services
- KU23.** the importance and process of building business partnerships and supply relationships
- KU24.** the importance of forming and implementing a streamlined risk management strategy
- KU25.** the process of predicting the uncertainties in a venture and minimising their occurrence or impact
- KU26.** the importance of innovating and implementing creative business ideas
- KU27.** the working mechanism of the domestic and global value chain
- KU28.** the importance of analysing the risks and threats in the diversification or repositioning strategies
- KU29.** the process of preparing a risk mitigation plan and the relevant factors to be considered during the process
- KU30.** different options for risk mitigation and their trade-offs (costs/benefits)
- KU31.** the risk impact and probability matrix
- KU32.** the risk reduction and contingency plan
- KU33.** the classification of risks and risk occurrence time frame

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write factual and quantitative information such as details of people, areas, dates and timelines correctly
- GS2.** write accurate information in online and paper forms
- GS3.** read and extract relevant information from documentation, manuals, application instructions etc.
- GS4.** maintain the relevant notes and records
- GS5.** use effective listening and probing/questioning skills
- GS6.** plan daily tasks to achieve optimum productivity
- GS7.** take quick decisions to deal with workplace emergencies/ accidents to minimise the impact on productivity
- GS8.** evaluate all possible solutions to a problem and select the best one
- GS9.** use negotiation skills to resolve business issues

MEP/N9903: Apply health and safety practices at the workplace

Description

This unit deals in detail with application of health and safety practices in the workplace

Scope

The scope covers the following :

- Apply relevant health and safety practices at the workplace
- Maintain a healthy and hygienic environment
- Deal with emergency situations
- Follow fire safety requirements

Elements and Performance Criteria

Apply relevant health and safety practices at the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** identify, control and report health and safety issues relating to immediate work environment according to procedures
- PC2.** follow procedures and instructions for dealing with hazards, within the scope of responsibilities and competencies
- PC3.** document and report all hazards, accidents and near-miss incidents as per set process
- PC4.** document safety records according to organisational policies

Maintain a healthy and hygienic environment

To be competent, the user/individual on the job must be able to:

- PC5.** maintain the work area in a clean and tidy condition
- PC6.** ensure that the work area is sanitised as and when required
- PC7.** maintain personal hygiene
- PC8.** use appropriate personal protective equipment (PPE) where required
- PC9.** wash hands using soap and water or alcohol based sanitiser
- PC10.** report hygiene related concerns promptly to the relevant authority

Emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC11.** administer appropriate first aid to victims wherever required e.g. in case of bleeding, burns, choking, electric shock, poisoning etc.
- PC12.** respond promptly and appropriately to an accident situation or medical emergency in real or simulated environments
- PC13.** perform rescue activity during an accident if applicable (e.g. if moving victim is advisable)

Follow fire safety requirements

To be competent, the user/individual on the job must be able to:

- PC14.** follow fire safety practices
- PC15.** identify the type of fire and its stage

Qualification Pack

PC16. use the various appropriate fire extinguishers on different types of fires correctly

PC17. follow procedures to rescue victim of fire without endangering self

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health Safety and Environment (HSE) practices
- KU2.** relevant Occupational Health and Safety (OHS) regulations
- KU3.** enterprise /site emergency procedures and techniques
- KU4.** waste and dangerous materials disposal procedures and practices
- KU5.** procedures for recording, reporting and maintenance of workplace safety and hygiene
- KU6.** meaning of hazards and risks
- KU7.** health and safety hazards commonly present in the work environment and related precautions
- KU8.** possible causes of risk, hazard or accident in the workplace
- KU9.** where to find all the general health and safety equipment in the workplace
- KU10.** various dangers associated with the use of electrical equipment
- KU11.** preventative and remedial actions to be taken in the case of exposure to toxic materials
- KU12.** importance of using protective clothing/equipment while working
- KU13.** precautionary activities to prevent the fire accident
- KU14.** various causes of fire
- KU15.** techniques of using the different fire extinguishers
- KU16.** different methods of extinguishing fire
- KU17.** different materials used for extinguishing fire
- KU18.** rescue techniques applied during a fire hazard
- KU19.** various types of safety signs and their meaning
- KU20.** appropriate basic first aid treatment relevant to the condition eg. shock, electrical shock, bleeding, breaks to bones, minor burns, resuscitation, poisoning, eye injuries
- KU21.** safe lifting and carrying practices

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write Health and safety compliance report
- GS2.** interpret general health and safety guidelines
- GS3.** communicate general health and safety guidelines to co workers
- GS4.** take decision about the corrective action to be taken in case of any potential hazards

MEP/N5110: Set up an enterprise by overcoming the challenges

Description

This unit deals in detail with the competencies required by a woman entrepreneur to set up an enterprise

Scope

The scope covers the following :

- Ideate for entrepreneurship ambition, engage with sources of support, raise finances and resources overcoming gender biases and limitations, register the venture, manage the venture and stakeholders

Elements and Performance Criteria

Ideate for one's entrepreneurship ambition

To be competent, the user/individual on the job must be able to:

- PC1.** plan and evaluate an enterprise domain or idea while overcoming biases towards women/male-dominated domains
- PC2.** research to gather relevant and accurate information on real-life women entrepreneurs in non-traditional contexts
- PC3.** determine boundaries set by socio-cultural factors that impact women's entrepreneurial ambition and choices
- PC4.** use relevant arguments and strategies to address negative gender-biased opinions that undermine aspiration
- PC5.** recognise own transferable skills, attributes, and capabilities that can positively impact the entrepreneurial plans
- PC6.** determine one's financial goals as an independent woman

Engage with sources of support

To be competent, the user/individual on the job must be able to:

- PC7.** determine the purpose and types of support required while deciding on an entrepreneurial initiative as a woman
- PC8.** engage with relevant people, services, and forums while overcoming apprehension due to various factors, e.g., communicating with men, formal communication, language challenges, socio-cultural factors, etc.
- PC9.** fill in registration forms or follow the application process for various women entrepreneurship requirements including seeking permissions, applying for incentives, registration in support forums

Raise finances and resources overcoming gender biases and limitations

To be competent, the user/individual on the job must be able to:

- PC10.** estimate all types of resources (financial and non-financial) required for the enterprise venture while catering to woman-specific needs such as additional security, conveniences, etc.

Qualification Pack

- PC11.** identify regulations, compliance requirements, schemes, concessions and support provisions for enterprise ventures of women
- PC12.** identify relevant women-focused opportunities for raising financial and non-financial resources available in the ecosystem
- PC13.** identify questions and areas where resource providers tend to challenge women entrepreneurs
- PC14.** provide valid and accurate responses for clarifying questions related to raising resources while handling negative gender-biases
- PC15.** respond lawfully, while maintaining own safety and security to incidents where others may seek to exploit a woman in needy/vulnerable situations

Register the venture

To be competent, the user/individual on the job must be able to:

- PC16.** research registration requirements and provisions for women for own type of venture including individual and the enterprise
- PC17.** identify areas and relevant avenues of support for registration requirements including specifically woman-focused service providers
- PC18.** register with financial intermediaries like banks to enable financial transactions while factoring in women-focused incentives and offerings
- PC19.** respond lawfully, while maintaining own safety and security to incidents where others may seek to exploit a woman in needy/vulnerable situations

Manage the venture and stakeholders

To be competent, the user/individual on the job must be able to:

- PC20.** provide a relevant business introduction as a woman entrepreneur in a professional forum, within various time limitations and in various modes (e.g., online verbal, online written, face-to-face, one-on-one, one-to-many, telephonic)
- PC21.** create a professional individual and business profile on various relevant digital platforms while overcoming any gender inhibitions
- PC22.** gather marketing, PR and communications messaging where being a woman is used as a positive attribute to support enterprise and personal ambition
- PC23.** develop an authentic personal story that highlights the achievements attributed to being a "woman" as an entrepreneur
- PC24.** provide a counter to personal criticism and gender attacks by using relevant past examples of overcoming entrepreneurial challenges and venture's successes
- PC25.** create a plan to modify own communication and behaviour to prevent reinforcement of stereotyping
- PC26.** communicate to co-workers including male colleagues where they are over-stepping their authority or role requirements and causing interference
- PC27.** identify if any gender-specific responsibilities or inhibitions/apprehensions have impacted venture/team performance (such as neglecting certain areas, over-indulging in areas, certain types of meetings, travel, negotiations, conflict situations, making cold calls)

scaling up or winding down the enterprise

To be competent, the user/individual on the job must be able to:

- PC28.** analyse if any gender-induced limitations/pressures can be worked around to achieve desired changes to the venture

Qualification Pack

- PC29.** determine one's rightful share of asset ownership and fair returns when a venture is wound down
- PC30.** deploy relevant actions to assert rightful claims for asset ownership and fair returns when a venture is wound down

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of women entrepreneurship in different contexts such as personal/individual, family, child upbringing, community, nation, social, psychological, and economic
- KU2.** various biases that can limit the choice of business domains and models for women
- KU3.** traditional (common) and non-traditional (uncommon/male-dominated) enterprise domains and models for women entrepreneurship
- KU4.** the impact of limited choice when choosing enterprise domains and models
- KU5.** the importance of identifying and eliminating biases while making a business domain/idea/model selection
- KU6.** how one's emotional values and vulnerabilities are exploited by those withholding support
- KU7.** relevant responses and strategies to address or neutralise gender-biased opinions commonly posed to aspiring women entrepreneurs including from family, community and service providers
- KU8.** the importance and meaning of being financially independent when it comes to being a woman and as an entrepreneur
- KU9.** common challenges for women in achieving financial independence
- KU10.** how women's family and socio-cultural responsibilities can be dealt with in various ways (such as family support, outside support, professional services, altering time scheduling, shifting emotional frames, shedding traditional roles, roles-reversal)
- KU11.** factors limiting women aspiration for the scale of venture
- KU12.** concept and benefits of peer learning, networking and mentoring
- KU13.** the importance of anticipating resistance and being prepared to address it
- KU14.** biases that may impact the market testing plan effectiveness and accuracy
- KU15.** sources of guidance and support available for personal and professional development and to resolve issues
- KU16.** benefits, risks and challenges of pooling/sharing resources or working collectively with others to start an informal enterprise venture
- KU17.** sources of information to research applicable incentives and schemes
- KU18.** various current financial enterprise incentivisation schemes offered by reliable sources including women-specific ones
- KU19.** importance for women to overcome ignorance and inhibitions with respect to financial transactions and decisions
- KU20.** risks in availing finance and other resources from unreliable sources
- KU21.** actions, implications and support available for responding to any exploitative attempt made on women

Qualification Pack

- KU22.** how to maintain ones safety and security while seeking to get necessary approvals and resources
- KU23.** the importance of owning assets as an individual and as a woman
- KU24.** common sources of resource-raising including avenues that provide women-focused funds
- KU25.** documentation and process for compliances to access resources/loans/schemes
- KU26.** types and avenues of support available especially for women to help meet compliance requirements for accessing resources/loans/schemes
- KU27.** options for handling common gender limitations/pressures while scaling up/winding down/maintaining status quo
- KU28.** various types of financial institutions and services required for personal and enterprise transactions and typical offerings and incentives for women
- KU29.** various current schemes offered from reliable sources as applicable to women's enterprises
- KU30.** ways in which gender injustice may impact asset ownership, returns distribution after wind-down
- KU31.** factors to consider while seeking financial justice for various purposes

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records manually and digitally
- GS2.** read and comprehend relevant literature to get information about the latest developments in the field of work
- GS3.** listen attentively to understand the information being shared by the speaker
- GS4.** perform basic calculations for business purposes
- GS5.** communicate clearly and politely with others
- GS6.** use factor weightage technique to aid in decision making
- GS7.** evaluate various feasible solutions to a problem to select the best one
- GS8.** display good professional etiquette in professional business networking meetings

MEP/N5111: Practice gender sensitivity while setting up an enterprise

Description

This unit deals in detail with the importance of gender sensitivity while interacting with others in due course of entrepreneurship

Scope

The scope covers the following :

- Ensure gender sensitivity

Elements and Performance Criteria

Ensure gender sensitivity

To be competent, the user/individual on the job must be able to:

- PC1.** follow the recommended gender inclusive practices in hiring and work management
- PC2.** interact with personnel, clients and vendors using gender-neutral statements
- PC3.** ensure a conducive environment is maintained at the enterprise for all genders
- PC4.** ensure to show respect to all genders irrespective of the background
- PC5.** make gender diversity and inclusion a company initiative and priority
- PC6.** make gender equality a business imperative for profitability
- PC7.** train and develop each employee, irrespective of the gender
- PC8.** remunerate all the genders at par
- PC9.** create a culture of shared accountability where noncompliance is not accepted by all, and well-defined practices and measures of success are in place to support this goal.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** importance of gendersensitivity
- KU2.** ways to create a conducive environment for all genders in an enterprise
- KU3.** significance of using gender neutral statements
- KU4.** significance of gender sensitivity in promoting entrepreneurship

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records manually and digitally
- GS2.** listen attentively to understand the information being shared by the speaker
- GS3.** perform basic calculations for business purposes

Qualification Pack

- GS4.** communicate clearly and politely with others
- GS5.** use factor weightage technique to aid in decision making
- GS6.** evaluate various feasible solutions to a problem to select the best one
- GS7.** display good professional etiquette in professional business networking meetings
- GS8.** display good professional etiquette in professional business networking meetings

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory
2. and Skills Practical for each PC.
3. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below.)
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% in every NOS.
7. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.

Qualification Pack

8. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
