MEP/N0403: Fundamentals of Marketing Management & Digital Marketing

Description

This unit describes about various aspects of marketing

Scope

The scope covers the following :

- Basics of Marketing
- Product and Pricing Decisions
- Marketing Mix Decisions
- Emerging Trends in Marketing

Elements and Performance Criteria

Basics of Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** Define and explain the scope of marketing, recognising its importance in business.
- PC2.** Identify and describe various marketing philosophies and their implications for business strategies.
- PC3.** Analyse the concept of customer value and its significance in building customer relationships.
- PC4.** Outline the marketing management process and its components, including planning, implementation, and control.
- PC5.** Discuss the elements of the marketing mix (4Ps) and their roles in achieving marketing objectives.
- PC6.** Evaluate the marketing environment factors and their impact on marketing decision-making.
- PC7.** Understand consumer buyer behaviour and its implications for market segmentation and targeting.
- PC8.** Apply market segmentation, targeting, and positioning strategies to reach target customers effectively.
- PC9.** Assess competitive marketing strategies and their effectiveness in gaining competitive advantage.
- PC10.** Recognise the importance of marketing in driving business success and growth.
- PC11.** Explain the concept of digital marketing and its importance in today's business environment.
- PC12.** Identify various digital marketing channels and platforms used for promoting products and services.
- PC13.** Demonstrate an understanding of the customer journey (awareness, consideration, decision) in the context of digital marketing.
- PC14.** Analyze the key components of a digital marketing strategy.
- PC15.** Evaluate the use of basic digital marketing tools for tracking and measuring performance.

Product and Pricing Decisions

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC16.** Define the product concept and classify products based on their characteristics.
- PC17.** Identify product levels and explain the importance of product differentiation in competitive markets.
- PC18.** Analyse the product mix and make decisions regarding product line expansion or contraction.
- PC19.** Evaluate strategies for managing the product life cycle and sustaining product success.
- PC20.** Discuss branding concepts and develop branding strategies to enhance brand equity.
- PC21.** Outline the process of new product development and assess its importance in business growth.
- PC22.** Determine pricing objectives and factors influencing pricing decisions.
- PC23.** Apply various pricing methods and strategies to set prices effectively.
- PC24.** Integrate product and pricing decisions into the overall marketing strategy.
- PC25.** Recognise and address ethical considerations in product and pricing decisions.

Marketing Mix Decisions

To be competent, the user/individual on the job must be able to:

- PC26.** Understand the importance of distribution channels and effectively manage channel relationships.
- PC27.** Analyse the communication process and select appropriate promotion mix tools to reach target customers.
- PC28.** Develop pricing and distribution strategies aligned with marketing objectives and customer needs.
- PC29.** Implement and adapt marketing mix elements to respond to changing market conditions.
- PC30.** Evaluate the effectiveness of marketing mix strategies using relevant metrics and KPIs.
- PC31.** Incorporate technology and innovation to enhance marketing mix decisions and outcomes.
- PC32.** Formulate global marketing mix strategies considering cultural, economic, and legal differences.
- PC33.** Address ethical considerations in marketing mix decisions and ensure ethical business practices.
- PC34.** Respond to market dynamics by adjusting marketing mix elements to meet evolving customer demands.
- PC35.** Analyse case studies of successful marketing mix implementation to extract best practices and insights.

Emerging Trends in Marketing

To be competent, the user/individual on the job must be able to:

- PC36.** Understand the importance of building and maintaining strong customer relationships in relationship marketing.
- PC37.** Evaluate the role of sustainability in marketing and its impact on consumer perceptions and brand reputation.
- PC38.** Implement green marketing strategies to promote environmentally friendly products and practices.
- PC39.** Utilise social marketing techniques to address social issues and drive positive behaviour change.

Qualification Pack

- PC40.** Leverage digital marketing channels for reaching and engaging with target audiences effectively.
- PC41.** Harness the power of social media platforms for brand promotion, customer interaction, and community building.
- PC42.** Explore the applications of AI and bots in marketing for automation and personalised customer experiences.
- PC43.** Identify and address ethical issues in marketing, ensuring responsible and transparent business practices.
- PC44.** Embrace innovation in marketing to stay ahead of competitors and meet evolving consumer needs.
- PC45.** Develop global marketing strategies to expand market reach and adapt marketing efforts to diverse cultural contexts and market dynamics.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understanding the basics of marketing, including core concepts such as market segmentation, targeting, positioning, and consumer behavior.
- KU2.** Knowledge of product decisions, including product development, lifecycle management, and strategies for product differentiation.
- KU3.** Familiarity with pricing strategies and factors affecting pricing decisions, such as cost, competition, and customer perceptions of value.
- KU4.** Comprehension of the marketing mix (4Ps: Product, Price, Place, Promotion) and its role in creating an effective marketing strategy.
- KU5.** Awareness of emerging trends in marketing, including digital marketing, social media marketing, and data-driven marketing techniques.
- KU6.** Knowledge of the importance of consumer research and the role it plays in product and pricing decisions, as well as adapting to market trends.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Analytical skills to evaluate market conditions, understand consumer needs, and apply marketing theories to real-world business scenarios.
- GS2.** Creativity and innovation skills for developing unique marketing strategies, product ideas, and promotional campaigns.
- GS3.** Communication skills for effectively presenting marketing strategies and collaborating with teams across various business functions.
- GS4.** Adaptability to keep up with and apply emerging marketing trends and technologies in a rapidly changing business environment.

MEP/N0408: Introduction to Search Engine Optimisation (SEO) and Search Engine Marketing (SEM)

Description

This unit details search engines, search engine optimisation techniques, trouble shooting, digital marketing, advertising, and analysing trends and performance.

Scope

The scope covers the following :

- Introduction to Digital Marketing
- Fundamentals of Search Engines
- Search Engine Optimization (SEO)
- Search Engine Marketing (SEM)
- Measuring and Analysing Performance
- Best Practices and Trends

Elements and Performance Criteria

Introduction to Digital Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** Define digital marketing and its significance in contemporary business environments
- PC2.** Explain the need for digital marketing to reach target audiences effectively
- PC3.** Discuss the scope of digital marketing, including various channels and strategies
- PC4.** Trace the history of digital marketing and its evolution over time
- PC5.** Compare and contrast digital marketing with traditional marketing methods

Fundamentals of Search Engines

To be competent, the user/individual on the job must be able to:

- PC6.** Understand the basic functioning of search engines and their role in digital marketing
- PC7.** Explain search engine algorithms and factors influencing website rankings
- PC8.** Analyse the impact of user intent on search engine results
- PC9.** Identify common search engine features and tools used for optimization
- PC10.** Demonstrate knowledge of how search engines index and rank web pages
- PC11.** Discuss the importance of search engine optimization (SEO) in digital marketing strategies
- PC12.** Evaluate the relevance and credibility of search engine results
- PC13.** Recognize the role of keywords in search engine queries and optimization
- PC14.** Interpret search engine results pages (SERPs) and understand their components
- PC15.** Implement basic strategies to improve website visibility and ranking on search engines

Search Engine Optimization (SEO)

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC16.** Discuss on-page SEO techniques, including optimizing content, meta tags, headings, and URLs
- PC17.** Explore off-page SEO techniques such as link building, social media optimization, and local SEO
- PC18.** Analyse the importance of website structure and navigation in SEO
- PC19.** Identify common technical SEO issues and how to address them
- PC20.** Evaluate the impact of website speed and mobile friendliness on SEO performance
- PC21.** Develop strategies for optimizing website content for search engine visibility
- PC22.** Monitor and track SEO performance using analytics tools
- PC23.** Identify opportunities for improving website visibility and rankings through SEO
- PC24.** Stay updated with changes in search engine algorithms and adjust SEO strategies accordingly

Search Engine Marketing (SEM)

To be competent, the user/individual on the job must be able to:

- PC25.** Explain paid search advertising and its role in digital marketing campaigns
- PC26.** Understand the basics of keyword research and selection for SEM campaigns
- PC27.** Create effective PPC (Pay-Per-Click) campaigns using platforms like Google Ads
- PC28.** Define ad targeting options and budgeting strategies in SEM campaigns
- PC29.** Monitor and optimize SEM campaigns for maximum ROI
- PC30.** Analyse the importance of ad copy and landing page relevance in SEM
- PC31.** Implement ad extensions and other advanced features in SEM campaigns
- PC32.** Identify key performance indicators (KPIs) for measuring SEM success
- PC33.** Conduct A/B testing to optimize ad performance and conversion rates
- PC34.** Stay informed about industry trends and updates in SEM platforms and strategies

Measuring and Analysing Performance

To be competent, the user/individual on the job must be able to:

- PC35.** Discuss key performance indicators (KPIs) used to measure SEO and SEM performance
- PC36.** Utilize tools like Google Analytics to track website traffic, conversions, and other metrics
- PC37.** Set up conversion tracking and goal tracking in Google Analytics
- PC38.** Interpret data to evaluate the effectiveness of SEO and SEM efforts
- PC39.** Generate and analyze reports to identify areas for improvement in digital marketing campaigns
- PC40.** Identify trends and patterns in website traffic and user behavior
- PC41.** Use analytics data to make data-driven decisions and optimize digital marketing strategies
- PC42.** Implement advanced tracking techniques, such as event tracking and custom dimensions
- PC43.** Monitor and address issues related to website performance and user experience
- PC44.** Communicate findings and insights effectively to stakeholders and team members

Best Practices and Trends

To be competent, the user/individual on the job must be able to:

- PC45.** Stay updated with the latest trends and algorithm updates in SEO and SEM
- PC46.** Analyse case studies and real-world examples illustrating successful SEO and SEM strategies

Qualification Pack

- PC47.** Discuss ethical considerations and best practices in SEO and SEM, including avoiding black hat tactics
- PC48.** Implement strategies for maintaining a positive online reputation and brand image
- PC49.** Experiment with emerging trends and technologies in digital marketing, such as voice search optimization and AI-driven marketing
- PC50.** Adapt digital marketing strategies to changes in consumer behavior and industry landscape
- PC51.** Engage with industry experts and communities to stay informed about best practices and trends
- PC52.** Collaborate with team members to brainstorm creative ideas and innovative approaches to digital marketing
- PC53.** Monitor competitors' digital marketing strategies and learn from their successes and failures
- PC54.** Continuously evaluate and refine digital marketing strategies based on performance data and feedback

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies

Qualification Pack

- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0410: Social Media Marketing

Description

This unit details social media strategies, social media marketing, content creation for social media, advertising and analytics.

Scope

The scope covers the following :

- Introduction to Social Media Marketing
- Social Media Strategy Development
- Content Creation and Curation for Social Media
- Social Media Advertising
- Community Management and Engagement
- Social Media Analytics and Measurement
- Social Media Ethics and Best Practices

Elements and Performance Criteria

Introduction to Social Media Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** Define social media marketing and its role within the broader digital marketing landscape
- PC2.** Identify popular social media platforms and their unique features and audiences
- PC3.** Understand the significance of social media in building brand awareness, engagement, and customer relationships
- PC4.** Analyse case studies and examples illustrating successful social media marketing campaigns
- PC5.** Recognize the impact of social media influencers and user-generated content on brand perception and consumer behaviour
- PC6.** Discuss emerging trends and technologies in social media marketing, such as live streaming, augmented reality, and social commerce
- PC7.** Evaluate the advantages and challenges of using social media as a marketing channel
- PC8.** Identify target audiences and demographics for different social media platforms
- PC9.** Recognize the importance of content strategy and audience engagement in social media marketing success
- PC10.** Demonstrate proficiency in using social media management tools and platforms for scheduling, monitoring, and analysing performance

Social Media Strategy Development

To be competent, the user/individual on the job must be able to:

- PC11.** Set specific, measurable, achievable, relevant, and time-bound (SMART) goals and objectives for social media marketing campaigns
- PC12.** Perform audience research and segmentation to identify target demographics, interests, and preferences

Qualification Pack

- PC13.** Develop a comprehensive social media marketing plan outlining tactics, timelines, and resources
- PC14.** Develop a comprehensive social media marketing plan outlining tactics, timelines, and resources
- PC15.** Create a content calendar to organize and schedule social media posts and campaigns
- PC16.** Identify key performance indicators (KPIs) for measuring the success of social media marketing efforts
- PC17.** Develop strategies for increasing brand awareness, driving website traffic, and generating leads through social media
- PC18.** Determine appropriate social media platforms and channels based on target audience demographics and marketing objectives
- PC19.** Allocate resources and budget effectively to support social media marketing initiatives
- PC20.** Integrate social media marketing strategies with broader digital marketing initiatives for cohesive brand messaging and customer experience
- PC21.** Continuously evaluate and adapt social media strategies based on performance data, industry trends, and changes in consumer behaviour

Content Creation and Curation for Social Media

To be competent, the user/individual on the job must be able to:

- PC22.** Develop engaging and relevant content tailored to different social media platforms, audiences, and objectives
- PC23.** Utilize various content formats, including images, videos, infographics, and text posts, to maximize audience engagement
- PC24.** Understand the principles of visual storytelling and branding in social media content creation
- PC25.** Curate relevant and valuable content from other sources to share with followers and enhance credibility
- PC26.** Develop a consistent brand voice and tone across social media channels
- PC27.** Optimize content for each social media platform, including character limits, image sizes, and posting frequency
- PC28.** Optimize content for each social media platform, including character limits, image sizes, and posting frequency
- PC29.** Utilize user-generated content and customer testimonials to build trust and authenticity
- PC30.** Incorporate storytelling techniques and emotional appeal to resonate with target audiences
- PC31.** Monitor trends and topics relevant to the industry and audience to inform content creation strategy and capitalize on opportunities for engagement

Social Media Advertising

To be competent, the user/individual on the job must be able to:

- PC32.** Understand the different types of social media advertising platforms, including Facebook Ads, Instagram Ads, LinkedIn Ads, Twitter Ads, and Pinterest Ads
- PC33.** Create and optimize social media ad campaigns targeting specific demographics, interests, and behaviours
- PC34.** Define ad objectives, such as brand awareness, lead generation, website traffic, and conversions
- PC35.** Implement targeting options, budgeting strategies, and bidding tactics to maximize return on ad spend (ROAS)

Qualification Pack

- PC36.** Develop compelling ad creatives and copy that resonate with target audiences and drive action
- PC37.** Monitor and analyze ad performance metrics, such as reach, engagement, click-through rate (CTR), and conversion rate
- PC38.** A/B test ad variations to optimize performance and identify the most effective messaging, imagery, and targeting options
- PC39.** Utilize advanced targeting features, such as retargeting and lookalike audiences, to reach high-value prospects
- PC40.** Ensure compliance with advertising policies and guidelines on each social media platform
- PC41.** Continuously iterate and refine advertising strategies based on performance data, audience feedback, and industry best practices

Community Management and Engagement

To be competent, the user/individual on the job must be able to:

- PC42.** Monitor audience interactions, comments, and messages across social media platforms promptly
- PC43.** Cultivate and nurture online communities by facilitating discussions and addressing concerns effectively
- PC44.** Implement strategies to encourage user-generated content, such as contests and challenges
- PC45.** Maintain a consistent brand voice and tone in all community interactions and engagements
- PC46.** Identify and leverage real-time engagement opportunities, such as trending topics and events
- PC47.** Utilize social listening tools to monitor brand mentions and sentiment across social media
- PC48.** Develop crisis management protocols to address negative feedback and mitigate reputational damage
- PC49.** Measure community engagement metrics, such as likes, shares, comments, and mentions
- PC50.** Foster brand loyalty and advocacy by recognizing and rewarding loyal customers and brand advocates
- PC51.** Continuously optimize community management strategies based on feedback and changing audience preferences

Social Media Analytics and Measurement

To be competent, the user/individual on the job must be able to:

- PC52.** Identify key performance indicators (KPIs) for social media marketing, such as reach, engagement, and conversion rate
- PC53.** Utilize analytics tools to track and measure social media performance across platforms
- PC54.** Set up custom dashboards and reports to monitor KPIs and track progress towards marketing objectives
- PC55.** Analyse audience demographics, interests, and behaviour patterns to inform content and targeting strategies
- PC56.** Evaluate the effectiveness of social media campaigns using metrics like click-through rate (CTR) and conversion rate
- PC57.** Measure the impact of social media marketing on business goals, such as lead generation and brand awareness
- PC58.** Compare performance across different social media platforms to identify strengths and weaknesses

Qualification Pack

- PC59.** Use data-driven insights to refine targeting, messaging, and content strategy for future campaigns
- PC60.** Conduct competitive analysis to benchmark performance against industry peers
- PC61.** Communicate findings and recommendations effectively to stakeholders using data visualization techniques

Social Media Ethics and Best Practices

To be competent, the user/individual on the job must be able to:

- PC62.** Understand ethical considerations in social media marketing, including transparency and respect for user privacy
- PC63.** Comply with legal regulations and industry guidelines governing social media marketing practices
- PC64.** Practice transparency in sponsored content and influencer partnerships, disclosing paid endorsements clearly
- PC65.** Respect user privacy by obtaining consent for data collection and providing options for opting out of targeted advertising
- PC66.** Avoid engaging in deceptive or manipulative tactics, such as fake accounts or misleading claims
- PC67.** Maintain brand integrity and authenticity by aligning social media messaging with core values
- PC68.** Monitor and moderate user-generated content to ensure compliance with community guidelines
- PC69.** Engage in constructive dialogue with followers, addressing concerns and feedback promptly
- PC70.** Stay informed about emerging trends and best practices in social media ethics
- PC71.** Conduct regular audits of social media practices to identify and address any ethical or compliance issues

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches

Qualification Pack

- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations

Qualification Pack

- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0406: Business Communication - I

Description

This unit details business communication, both oral and written.

Scope

The scope covers the following :

- Basic Communication
- Introduction to Business Communication
- Written Communication
- Oral Communication
- Recent Trends in Business Communication

Elements and Performance Criteria

Basic Communication

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the structures in present and present continuous tense
- PC2.** Describe the structures in past and past continuous tense
- PC3.** Explain the structure in present perfect and present perfect continuous tense
- PC4.** Identify structures in future tense
- PC5.** Define and apply modals (helping verbs) appropriately
- PC6.** Use prepositions correctly in sentences
- PC7.** Understand and use common idioms in communication
- PC8.** Practice delivering a speech on a given topic
- PC9.** Demonstrate proficiency in delivering an extempore speech

Introduction to Business Communication

To be competent, the user/individual on the job must be able to:

- PC10.** Define communication and its importance in business
- PC11.** Explain downward, upward, horizontal, and lateral communication
- PC12.** Differentiate between formal and informal communication networks
- PC13.** Describe the process of communication, including encoding, transmission, and decoding
- PC14.** Identify barriers to communication and strategies to overcome them
- PC15.** Recognize gateways to effective communication, such as active listening and feedback mechanisms
- PC16.** Understand the role of communication in organisational success and productivity

Written Communication

To be competent, the user/individual on the job must be able to:

- PC17.** Explain the principles of written communication using the 7C's concept (Clear, Concise, Concrete, Correct, Coherent, Complete, Courteous)

Qualification Pack

- PC18.** Draft various types of business letters, including request letters, newsletters, persuasive letters, and sales letters
- PC19.** Demonstrate proficiency in writing job applications and resumes according to industry standards
- PC20.** Apply appropriate formatting and tone in written communication
- PC21.** Utilize language effectively to convey ideas and information clearly
- PC22.** Demonstrate awareness of cultural differences in written communication

Oral Communication

To be competent, the user/individual on the job must be able to:

- PC23.** Explain the principles of effective oral presentations, including organisation, clarity, and engagement
- PC24.** Identify factors that affect presentation effectiveness, such as audience analysis and delivery techniques
- PC25.** Understand the use of video-conferencing and Skype for remote communication
- PC26.** Identify and interpret non-verbal communication cues, including para language, time, space, silence, and body language
- PC27.** Demonstrate effective listening skills in various communication contexts
- PC28.** Deliver informative and persuasive speeches with confidence and clarity

Recent Trends in Business Communication

To be competent, the user/individual on the job must be able to:

- PC29.** Explain the impact of online communication on personal relationships
- PC30.** Describe best practices for conducting online meetings, including technology use and etiquette
- PC31.** Understand the role of social networks in business communication
- PC32.** Demonstrate proficiency in writing social blogs for business purposes
- PC33.** Explain the challenges and strategies of intercultural communication in a globalized business environment
- PC34.** Identify and address ethical and legal issues related to business communication, such as privacy concerns and intellectual property rights

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behavior and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity

Qualification Pack

- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches

MEP/N0407: Computer Skills for Professionals

Description

This unit details using Microsoft software efficiently for business communication.

Scope

The scope covers the following :

- Basics of Information Technology (IT)
- Computer Software
- Basics of MS Windows
- Introduction to MS Word
- Introduction to MS Excel
- Introduction to MS PowerPoint (PPT)

Elements and Performance Criteria

Basics of Information Technology (IT)

To be competent, the user/individual on the job must be able to:

- PC1.** Define the components of IT systems and their functions
- PC2.** Describe the characteristics of computers and their evolution
- PC3.** Identify various input-output devices and their roles in computing
- PC4.** Differentiate between different types of computer memory and storage devices
- PC5.** Explain the concept of cloud computing and its advantages
- PC6.** Analyse the impact of information technology on business processes
- PC7.** Discuss the importance of data security and privacy in IT systems
- PC8.** Identify emerging trends and technologies in the field of information technology
- PC9.** Demonstrate proficiency in using basic IT tools and applications
- PC10.** Evaluate the ethical considerations in the use of information technology in business

Computer Software

To be competent, the user/individual on the job must be able to:

- PC11.** Explain the different types of software and their respective functions
- PC12.** Identify various types of application software and their uses in business
- PC13.** Describe the basic concepts of databases and their role in information management
- PC14.** Define an operating system and its functions in managing computer resources
- PC15.** Differentiate between different types of operating systems
- PC16.** Navigate through the Graphical User Interface (GUI) of an operating system
- PC17.** Understand the role of compilers, interpreters, and assemblers in software development
- PC18.** Explain different types of computer languages and their applications
- PC19.** Demonstrate proficiency in using software tools for business productivity
- PC20.** Analyse the impact of software on business operations and productivity

Qualification Pack

Basics of MS Windows

To be competent, the user/individual on the job must be able to:

- PC21.** Navigate through the desktop environment in MS Windows
- PC22.** Access and manage files and folders using Windows Explorer
- PC23.** Utilize the Control Panel to customize system settings
- PC24.** Perform searches for files and folders using Windows search functionality
- PC25.** Understand the importance of file organisation and management in business
- PC26.** Demonstrate proficiency in using common Windows utilities and tools
- PC27.** Troubleshoot common issues related to Windows operating systems
- PC28.** Customize Windows settings to enhance productivity and user experience
- PC29.** Identify and utilize accessibility features in MS Windows
- PC30.** Evaluate the security features of MS Windows and implement best practices for data protection

Introduction to MS Word

To be competent, the user/individual on the job must be able to:

- PC31.** Navigate through the MS Word environment and utilize help resources effectively
- PC32.** Create, edit, and format Word documents according to business requirements
- PC33.** Save documents in different formats and locations
- PC34.** Demonstrate proficiency in text manipulation, including selecting, formatting, aligning, and indenting
- PC35.** Use advanced text editing features such as find and replace, bullets and numbering, and spell checker
- PC36.** Create and format headers and footers in Word documents
- PC37.** Utilize tables effectively for data organisation and presentation
- PC38.** Insert and manipulate graphics, including pictures, clipart, and drawing objects
- PC39.** Set page size, margins, and other document properties
- PC40.** Print documents with appropriate settings and options
- PC41.** Perform mail merge operations to personalize documents for mass distribution
- PC42.** Troubleshoot common issues related to MS Word usage

Introduction to MS Excel

To be competent, the user/individual on the job must be able to:

- PC43.** Navigate through the Excel environment and utilize help resources effectively
- PC44.** Create, edit, and format Excel workbooks according to business requirements
- PC45.** Save workbooks in different formats and locations
- PC46.** Enter and edit data in Excel cells accurately
- PC47.** Format cells and data to enhance readability and presentation
- PC48.** Utilize built-in formulas and functions for data analysis and calculations
- PC49.** Sort and filter data to extract relevant information
- PC50.** Create charts and graphs to visualize data trends and patterns
- PC51.** Apply conditional formatting to highlight important data points
- PC52.** Implement data validation rules to ensure data integrity

Qualification Pack

PC53. Protect workbooks and worksheets to prevent unauthorized changes

PC54. Print worksheets with appropriate settings and options

PC55. Perform practical exercises to reinforce learning objectives

Introduction to MS PowerPoint (PPT)

To be competent, the user/individual on the job must be able to:

PC56. Navigate through the PowerPoint environment and utilize help resources effectively

PC57. Create a new presentation and select appropriate slide layouts

PC58. Add and format slides with text, images, and media elements

PC59. Apply themes and customize slide layouts to enhance visual appeal

PC60. Utilize transitions and animations to add interest and engagement to presentations

PC61. Insert speaker notes to provide additional information and guidance

PC62. Navigate through the slide show and rehearse presentations effectively

PC63. Save presentations in different formats and locations

PC64. Share presentations with others using various sharing options

PC65. Demonstrate proficiency in creating professional and visually appealing PowerPoint presentations

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Principles and concepts of marketing management and their application in digital and traditional marketing

KU2. Digital marketing channels, including SEO, SEM, social media, email, and content marketing

KU3. Web design, content management systems (CMS), and web analytics

KU4. Creating and managing online presence

KU5. Marketing strategies, including mobile marketing and ecommerce

KU6. Consumer behavior and purchasing decisions

KU7. Ways of advertising to contribute to brand awareness and sales generation

KU8. Importance of brand identity

KU9. Communication strategies, and advertising in shaping consumer perceptions

KU10. Generative AI and automation tools

KU11. Personalized marketing approaches

KU12. Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns

KU13. Principles of business communication, both verbal and written, for effective professional interactions

KU14. Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends

KU15. Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace

Qualification Pack

- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

DGT/VSQ/N0104: Employability Skills (120 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** understand the significance of employability skills in meeting the current job market requirement and future of work
- PC2.** identify and explore learning and employability relevant portals
- PC3.** research about the different industries, job market trends, latest skills required and the available opportunities

Constitutional values - Citizenship

To be competent, the user/individual on the job must be able to:

- PC4.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. for personal growth and the nation's progress
- PC5.** follow personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC6.** follow and promote environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC7.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC8.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC9.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC10.** use English as a medium of formal and informal communication while dealing with topics of everyday conversation in different contexts
- PC11.** speak over the phone in English, in an audible manner, using appropriate greetings, opening, and closing statements both on personal and work front
- PC12.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC13.** write short messages, notes, letters, e-mails etc., using accurate English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC14.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC15.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC16.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC17.** use active listening techniques for effective communication
- PC18.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC19.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC20.** • ensure personal behaviour, conduct, and use appropriate communication by taking gender into consideration
- PC21.** empathize with a PwD and aid a PwD, if asked
- PC22.** escalate any issues related to sexual harassment at the workplace in accordance with the POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC23.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC24.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC25.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC26.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC27.** operate digital devices and use their features and applications securely and safely
- PC28.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC29.** display responsible online behaviour while using various social media platforms
- PC30.** create a personal email account, send and process received messages as per requirement
- PC31.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC32.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of Entrepreneurship and Enterprises
- PC34.** use research and networking skills to identify and assess opportunities for potential business
- PC35.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC36.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC37.** identify different types of customers
- PC38.** identify and respond to customer requests and needs in a professional manner
- PC39.** use appropriate tools to collect customer feedback
- PC40.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC41.** create a professional Curriculum vitae (Résumé)
- PC42.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC43.** apply to identified job openings using offline /online methods as per requirement
- PC44.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC45.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills
- KU2.** different learning and employability related portals
- KU3.** various constitutional and personal values
- KU4.** different environmentally sustainable practices and their importance
- KU5.** Twenty first (21st) century skills and their importance

Qualification Pack

- KU6.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU7.** importance of career development and setting long- and short-term goals
- KU8.** Do's and don'ts of effective communication
- KU9.** POSH Act
- KU10.** inclusivity and its importance
- KU11.** different types of disabilities and appropriate verbal and non-verbal communication and behaviour towards PwD
- KU12.** different types of financial institutes, products, and services
- KU13.** components of salary and how to compute income and expenditure
- KU14.** importance of maintaining safety and security in offline and online financial transactions
- KU15.** different legal rights and laws
- KU16.** different types of digital devices and the procedure to operate them safely and securely
- KU17.** how to create and operate an e- mail account
- KU18.** use applications such as word processors, spreadsheets etc.
- KU19.** different types of Enterprises and ways to identify business opportunities
- KU20.** types and needs of customers
- KU21.** how to apply for a job and prepare for an interview
- KU22.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

MEP/N0409: Email and Content Marketing

Description

This unit details email marketing, email campaigns, automation and content marketing.

Scope

The scope covers the following :

- Introduction to Email Marketing
- Email Campaign Strategy
- Email Campaign Execution and Automation
- Introduction to Content Marketing
- Content Creation and Optimization
- Measuring Content and Email Marketing Performance
- Integration with Overall Marketing Strategy

Elements and Performance Criteria

Introduction to Email Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** Define email marketing and articulate its significance within digital marketing strategies
- PC2.** Explain the benefits of email marketing, such as cost-effectiveness and direct communication with the audience
- PC3.** Identify the challenges associated with email marketing, including deliverability issues and spam filters
- PC4.** Understand email marketing regulations, such as GDPR and CAN-SPAM Act, and adhere to best practices for compliance
- PC5.** Recognize the importance of building and maintaining a quality email list for effective email marketing campaigns
- PC6.** Analyse case studies and examples illustrating successful email marketing campaigns
- PC7.** Demonstrate awareness of emerging trends and technologies in email marketing
- PC8.** Discuss the role of personalization and segmentation in enhancing email marketing effectiveness
- PC9.** Evaluate the role of email marketing in lead generation, customer acquisition, and retention
- PC10.** Demonstrate proficiency in utilizing email marketing tools and platforms

Email Campaign Strategy

To be competent, the user/individual on the job must be able to:

- PC11.** Establish clear objectives and goals for email marketing campaigns, aligned with broader marketing objectives
- PC12.** Segment target audiences based on demographics, behavior, and preferences to personalize email content
- PC13.** Develop effective email content that resonates with the target audience and drives desired actions

Qualification Pack

- PC14.** Design visually appealing and engaging email templates that reflect brand identity and messaging
- PC15.** Implement strategies for building and growing email subscriber lists through opt-in mechanisms and lead magnets
- PC16.** Utilize data analytics and market research to inform email campaign strategy and content creation
- PC17.** Set appropriate frequencies and schedules for email campaigns to optimize engagement and avoid subscriber fatigue
- PC18.** Identify key performance indicators (KPIs) for measuring the success of email marketing campaigns
- PC19.** Plan and execute A/B testing experiments to optimize email subject lines, content, and calls-to-action
- PC20.** Continuously monitor and analyse campaign performance metrics to identify areas for improvement

Email Campaign Execution and Automation

To be competent, the user/individual on the job must be able to:

- PC21.** Implement email automation workflows to streamline campaign execution and improve efficiency
- PC22.** Design and deploy drip campaigns to nurture leads and guide them through the sales funnel
- PC23.** Utilize segmentation and personalization to deliver targeted and relevant email content to subscribers
- PC24.** Implement dynamic content and conditional logic to create personalized email experiences
- PC25.** Monitor automated campaigns and make necessary adjustments to improve performance and deliverability
- PC26.** Ensure compliance with email marketing regulations and best practices in all automated campaigns
- PC27.** Integrate email automation with other marketing channels and CRM systems for seamless lead management
- PC28.** Analyse automation performance metrics to measure effectiveness and identify opportunities for optimization
- PC29.** Continuously refine and optimize automation workflows based on data-driven insights and feedback
- PC30.** Provide ongoing training and support to team members involved in email campaign execution and automation

Introduction to Content Marketing

To be competent, the user/individual on the job must be able to:

- PC31.** Define content marketing and its role in attracting, engaging, and retaining target audiences
- PC32.** Identify different types of content, including blog posts, articles, videos, infographics, and podcasts
- PC33.** Understand the buyer's journey and how content can be tailored to address different stages of the customer lifecycle
- PC34.** Develop a comprehensive content marketing strategy aligned with business goals and audience needs

Qualification Pack

- PC35.** Analyze case studies and examples illustrating successful content marketing campaigns across various industries
- PC36.** Recognize the importance of storytelling and brand narrative in content creation
- PC37.** Demonstrate awareness of emerging trends and technologies in content marketing, such as interactive content and user-generated content
- PC38.** Implement strategies for content ideation, creation, and curation to maintain a consistent publishing schedule
- PC39.** Utilize SEO techniques and keyword research to optimize content for search engines and improve discoverability
- PC40.** Measure the effectiveness of content marketing efforts using relevant KPIs and analytics tools

Content Creation and Optimization

To be competent, the user/individual on the job must be able to:

- PC41.** Generate high-quality and engaging content across various channels and formats, including blog posts, articles, videos, and social media posts
- PC42.** Tailor content to resonate with target audience personas and address their pain points, interests, and preferences
- PC43.** Utilize storytelling techniques and visual elements to enhance the impact and effectiveness of content
- PC44.** Implement SEO best practices, including keyword research, on-page optimization, and link building, to improve content visibility and search engine rankings
- PC45.** Develop content distribution and promotion strategies to reach and engage target audiences across multiple channels
- PC46.** Repurpose and recycle existing content to maximize reach and ROI
- PC47.** Collaborate with designers, videographers, and other content creators to produce multimedia content assets
- PC48.** Incorporate user-generated content and customer testimonials to build trust and credibility
- PC49.** Monitor content performance metrics, such as traffic, engagement, and conversion rates, to measure effectiveness and identify areas for improvement
- PC50.** Continuously optimize and update content based on audience feedback, industry trends, and performance data

Measuring Content and Email Marketing Performance

To be competent, the user/individual on the job must be able to:

- PC51.** Identify key performance indicators (KPIs) for measuring the success of email marketing campaigns and content marketing efforts
- PC52.** Utilize analytics tools, such as Google Analytics, to track and measure website traffic, email open rates, click-through rates, and other relevant metrics
- PC53.** Set up goals and conversion tracking in analytics platforms to measure the impact of email and content marketing on business objectives
- PC54.** Analyse data to identify trends, patterns, and insights related to audience behaviour, content consumption, and campaign performance
- PC55.** Generate and interpret reports to assess the effectiveness of email campaigns and content marketing initiatives

Qualification Pack

- PC56.** Use data-driven insights to refine and optimize email and content marketing strategies for better results
- PC57.** Conduct A/B testing experiments to test different variables and optimize email and content performance
- PC58.** Monitor and address issues related to email deliverability, open rates, and spam complaints
- PC59.** Communicate performance findings and recommendations to stakeholders and team members effectively
- PC60.** Implement continuous improvement processes to refine email and content marketing strategies based on performance feedback and industry best practices

Integration with Overall Marketing Strategy

To be competent, the user/individual on the job must be able to:

- PC61.** Understand the importance of integrating email and content marketing into the broader digital marketing strategy
- PC62.** Recognize the synergies between email marketing, content marketing, and other digital marketing channels, such as social media, SEO, and paid advertising
- PC63.** Identify the role of email and content marketing in achieving overall marketing objectives, such as brand awareness, lead generation, and customer engagement
- PC64.** Analyse case studies and examples illustrating successful integration of email and content marketing with other marketing channels
- PC65.** Develop a strategic approach to aligning email and content marketing initiatives with broader marketing goals and target audience preferences
- PC66.** Coordinate email and content marketing efforts with other marketing channels to ensure consistency and coherence in messaging and branding
- PC67.** Utilize email marketing to support content distribution and promotion efforts, driving traffic to blog posts, videos, and other content assets
- PC68.** Leverage content marketing to enhance email engagement and retention by providing valuable and relevant content to subscribers
- PC69.** Measure the impact of integrated email and content marketing strategies on overall marketing performance using relevant KPIs and analytics tools
- PC70.** Continuously optimize and refine integrated marketing strategies based on data-driven insights and feedback from cross-functional teams

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation

Qualification Pack

- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills

Qualification Pack

- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Introduction to Email Marketing</i>	10	10	1	1
PC1. Define email marketing and articulate its significance within digital marketing strategies	-	-	-	-
PC2. Explain the benefits of email marketing, such as cost-effectiveness and direct communication with the audience	-	-	-	-
PC3. Identify the challenges associated with email marketing, including deliverability issues and spam filters	-	-	-	-
PC4. Understand email marketing regulations, such as GDPR and CAN-SPAM Act, and adhere to best practices for compliance	-	-	-	-
PC5. Recognize the importance of building and maintaining a quality email list for effective email marketing campaigns	-	-	-	-
PC6. Analyse case studies and examples illustrating successful email marketing campaigns	-	-	-	-
PC7. Demonstrate awareness of emerging trends and technologies in email marketing	-	-	-	-
PC8. Discuss the role of personalization and segmentation in enhancing email marketing effectiveness	-	-	-	-
PC9. Evaluate the role of email marketing in lead generation, customer acquisition, and retention	-	-	-	-
PC10. Demonstrate proficiency in utilizing email marketing tools and platforms	-	-	-	-
<i>Email Campaign Strategy</i>	20	10	2	2
PC11. Establish clear objectives and goals for email marketing campaigns, aligned with broader marketing objectives	-	-	-	-

MEP/N0411: Web Designing with Content Management System (CMS) and Web Analytics

Description

This unit covers the detailed activities that has to carried out for web designing and web analytics.

Scope

The scope covers the following :

- Introduction to Content Management Systems (CMS)
- Setting Up a Website with WordPress
- Creating and Managing Content in WordPress
- Customising Website Design with WordPress
- Launching and Maintaining a Website
- Optimising Website Performance and User Experience
- Introduction to Website Analytics
- Analysing User Behaviour with Website Analytics
- Conversion Tracking and Optimization
- Setting Up and Analysing Website Traffic with Google Analytics
- Using Web Analytics Data for Decision Making

Elements and Performance Criteria

Introduction to Content Management Systems (CMS)

To be competent, the user/individual on the job must be able to:

- PC1.** Define the concept of Content Management Systems (CMS) and articulate its significance in modern web design practices
- PC2.** Identify and differentiate between various popular CMS platforms such as WordPress, Joomla, Drupal, and Wix
- PC3.** Discuss the advantages and benefits of employing CMS for website development, including ease of content management and scalability
- PC4.** Explore the history and evolution of CMS platforms and their impact on the digital landscape
- PC5.** Analyse case studies and examples demonstrating successful implementations of CMS in web projects
- PC6.** Evaluate the suitability of different CMS platforms based on specific project requirements and objectives
- PC7.** Compare and contrast the features, functionalities, and pricing models of different CMS solutions
- PC8.** Explain the role of CMS in facilitating collaborative content creation and management within organisations
- PC9.** Discuss the security considerations and best practices associated with implementing and managing CMS platforms

Qualification Pack

- PC10.** Reflect on emerging trends and future developments in CMS technology and its implications for web design professionals

Setting Up a Website with WordPress

To be competent, the user/individual on the job must be able to:

- PC11.** Install and configure WordPress on a web hosting server, adhering to best practices and security guidelines
- PC12.** Select and register an appropriate domain name for the WordPress website, considering branding and SEO implications
- PC13.** Choose a reliable hosting provider and set up hosting services for the WordPress site, ensuring compatibility and performance
- PC14.** Navigate the WordPress dashboard proficiently, understanding its various sections and functionalities
- PC15.** Configure basic settings such as site title, tagline, permalink structure, and reading options within WordPress
- PC16.** Install essential plugins and themes to enhance the functionality and appearance of the WordPress website
- PC17.** Explore different WordPress themes and customisation options, selecting a suitable theme for the project
- PC18.** Familiarise oneself with WordPress user roles and permissions, assigning appropriate roles to team members as needed
- PC19.** Troubleshoot common installation and configuration issues that may arise during the setup process
- PC20.** Document the setup process and create user guides or tutorials for future reference and training purposes

Creating and Managing Content in WordPress

To be competent, the user/individual on the job must be able to:

- PC21.** Create and publish pages and posts within the WordPress platform, adhering to content guidelines and best practices
- PC22.** Utilise the WordPress editor effectively to format and style text content, including headings, paragraphs, and lists
- PC23.** Insert and optimise images and other media files in WordPress posts and pages, ensuring visual appeal and accessibility
- PC24.** Organise and categorise content using categories and tags, improving navigation and user experience
- PC25.** Configure featured images and excerpts for posts, enhancing content visibility and engagement
- PC26.** Schedule and publish content updates regularly, maintaining a consistent publishing schedule and frequency
- PC27.** Manage comments and user interactions on WordPress posts, moderating discussions and responding to feedback
- PC28.** Utilise plugins and tools to automate content creation and distribution processes, improving efficiency and productivity
- PC29.** Implement content governance and version control mechanisms to maintain content quality and consistency

Qualification Pack

- PC30.** Monitor content performance using analytics tools and metrics, adjusting content strategy based on insights and feedback

Customising Website Design with WordPress

To be competent, the user/individual on the job must be able to:

- PC31.** Select and install WordPress themes that align with the project's branding, aesthetic, and functional requirements
- PC32.** Customise theme settings and appearance options within WordPress, including colours, fonts, and layout configurations
- PC33.** Modify and extend theme functionality using child themes, custom CSS, and template overrides
- PC34.** Incorporate and configure widgets to add dynamic content and features to WordPress sidebars and widget areas
- PC35.** Install and activate plugins to enhance website functionality and add new features, such as contact forms, sliders, and galleries
- PC36.** Create custom menus and navigation structures to improve website usability and user experience
- PC37.** Implement responsive design techniques to ensure consistent and optimal display across different devices and screen sizes
- PC38.** Optimise website performance and loading speed by minimising unnecessary elements and optimising code
- PC39.** Test website design and functionality across various browsers and devices, identifying and resolving compatibility issues
- PC40.** Document customisations and design decisions for future reference and collaboration with team members

Launching and Maintaining a Website

To be competent, the user/individual on the job must be able to:

- PC41.** Conduct comprehensive testing of website functionality and usability across different devices, browsers, and screen sizes
- PC42.** Evaluate website performance using tools such as Google PageSpeed Insights and GTmetrix, identifying areas for improvement
- PC43.** Implement website security measures such as SSL certificates, firewalls, and regular software updates to protect against cyber threats
- PC44.** Perform regular website backups and establish backup protocols to safeguard against data loss and system failures
- PC45.** Monitor website performance and uptime using website monitoring tools, promptly addressing any downtime or performance issues
- PC46.** Analyse website traffic and user behaviour using analytics tools such as Google Analytics, gaining insights into audience demographics and preferences
- PC47.** Utilise website analytics data to make informed decisions regarding content strategy, user experience enhancements and marketing initiatives
- PC48.** Develop a website maintenance schedule and checklist, including tasks such as content updates, plugin updates, and security audits
- PC49.** Collaborate with stakeholders and team members to ensure ongoing website maintenance and support

Qualification Pack

- PC50.** Stay abreast of industry trends and best practices in website maintenance and management, continuously improving website performance and user experience

Optimising Website Performance and User Experience

To be competent, the user/individual on the job must be able to:

- PC51.** Explain techniques for improving website speed, including image optimisation, caching, and content delivery network (CDN) implementation
- PC52.** Apply search engine optimisation (SEO) principles to optimise website content and structure for better search engine visibility and ranking
- PC53.** Install and configure SEO plugins such as Yoast SEO or Rank Math to enhance on-page SEO factors and metadata
- PC54.** Implement responsive design practices to ensure a consistent and user-friendly experience across various devices and screen sizes
- PC55.** Discuss user experience (UX) principles such as accessibility, navigation, and readability, and their impact on website engagement and conversion
- PC56.** Conduct usability testing sessions with representative users to identify pain points and areas for improvement in website design and functionality
- PC57.** Gather user feedback through surveys, interviews, and feedback forms to understand user preferences and priorities
- PC58.** Analyse website analytics data to track key performance indicators (KPIs) such as bounce rate, time on page, and conversion rate, identifying opportunities for enhancement
- PC59.** Implement A/B testing experiments to compare different design elements or content variations and determine the most effective option
- PC60.** Iterate and refine website design and functionality based on user feedback and performance metrics, aiming for continuous improvement and optimisation

Introduction to Website Analytics

To be competent, the user/individual on the job must be able to:

- PC61.** Define website analytics and its role in measuring and evaluating website performance and user behaviour
- PC62.** Explore the features and functionalities of Google Analytics and other website analytics tools, understanding how to set up and navigate the platforms
- PC63.** Identify and configure key metrics and dimensions within website analytics tools to track and measure website performance effectively
- PC64.** Discuss the importance of data accuracy and integrity in website analytics, implementing best practices for data collection and reporting
- PC65.** Analyse website traffic sources, including organic search, direct traffic, and referrals, to understand how users find and access the website
- PC66.** Interpret audience demographics and user characteristics such as age, gender, location, and device usage to inform marketing and content strategies
- PC67.** Evaluate user behaviour metrics such as bounce rate, session duration, and pageviews to assess engagement and interaction levels on the website
- PC68.** Set up and track goals and conversions within website analytics tools to measure the effectiveness of marketing campaigns and website objectives
- PC69.** Generate and interpret reports and dashboards to communicate website performance insights to stakeholders and decision-makers effectively

Qualification Pack

- PC70.** Stay informed about emerging trends and developments in website analytics, continuously updating skills and knowledge to leverage new opportunities and technologies

Analysing User Behaviour with Website Analytics

To be competent, the user/individual on the job must be able to:

- PC71.** Utilise website analytics tools to track and analyse user behaviour on websites, including pageviews, sessions, and user interactions
- PC72.** Identify and interpret website traffic sources, including organic search, direct traffic, referrals, and social media, to understand user acquisition channels
- PC73.** Analyse user demographics and audience characteristics such as age, gender, location, and device type to tailor content and marketing strategies
- PC74.** Explore user engagement metrics such as bounce rate, session duration, and pages per session to assess the quality of user interactions
- PC75.** Understand behaviour flow reports to visualise the path users take through the website and identify potential drop-off points or conversion barriers
- PC76.** Segment website traffic based on user attributes or behaviour to gain deeper insights into specific audience segments and their preferences
- PC77.** Analyse landing page performance to evaluate the effectiveness of different landing pages in driving conversions or achieving specific goals
- PC78.** Use event tracking and custom dimensions to monitor user interactions with specific website elements or features, such as buttons, forms, or videos
- PC79.** Identify behavioural patterns and trends over time using historical data and trend analysis techniques
- PC80.** Apply insights from user behaviour analysis to inform website design, content strategy, and conversion rate optimisation efforts

Conversion Tracking and Optimization

To be competent, the user/individual on the job must be able to:

- PC81.** Define conversion tracking goals and objectives aligned with business objectives, such as lead generation, sales, or sign-ups
- PC82.** Set up conversion tracking mechanisms using website analytics tools to measure and attribute conversions accurately
- PC83.** Analyse conversion funnels to identify potential drop-off points or areas for improvement in the conversion process
- PC84.** Implement conversion rate optimisation (CRO) techniques to improve website performance and maximise conversion rates
- PC85.** Conduct A/B testing experiments to compare different variations of website elements or pages and determine the most effective version
- PC86.** Utilise heatmaps and session recordings to visualise user behaviour and interactions on the website and identify areas for optimisation
- PC87.** Implement targeted messaging and calls-to-action (CTAs) to encourage user engagement and drive conversions
- PC88.** Optimise landing pages and forms to reduce friction and streamline the conversion process
- PC89.** Monitor and analyse conversion data regularly to track progress towards goals and identify opportunities for further optimisation

Qualification Pack

- PC90.** Iterate and refine conversion strategies based on data-driven insights and ongoing testing and experimentation

Setting Up and Analysing Website Traffic with Google Analytics

To be competent, the user/individual on the job must be able to:

- PC91.** Create a Google Analytics account and set up website tracking properties to collect data on user interactions and behaviour
- PC92.** Install and configure the Google Analytics tracking code on the website to ensure accurate data collection and reporting
- PC93.** Define and configure goals and conversion tracking within Google Analytics to measure specific user actions and outcomes
- PC94.** Navigate Google Analytics reports and dashboards to access key website traffic metrics and performance indicators
- PC95.** Analyse audience reports to understand user demographics, interests, and behaviour patterns
- PC96.** Review acquisition reports to identify traffic sources, including organic search, paid search, social media, and referrals
- PC97.** Examine behaviour reports to assess user engagement metrics such as bounce rate, session duration, and pageviews per session
- PC98.** Evaluate content reports to identify top-performing pages, popular content topics, and areas for content optimisation
- PC99.** Utilise event tracking and custom dimensions to monitor specific user interactions and behaviour events on the website
- PC100.** Interpret and communicate insights from website traffic analysis to stakeholders and decision-makers to inform strategic decision-making and website optimisation efforts

Using Web Analytics Data for Decision Making

To be competent, the user/individual on the job must be able to:

- PC101.** Interpret web analytics data to extract actionable insights and trends regarding website performance and user behaviour
- PC102.** Utilise web analytics data to make data-driven decisions for website optimisation and improvement, aligning strategies with business objectives
- PC103.** Identify and prioritise areas for improvement based on web analytics findings, focusing on high-impact opportunities
- PC104.** Implement changes and updates to the website based on insights from web analytics data, such as content revisions, design enhancements, or functionality improvements
- PC105.** Conduct A/B testing and experimentation to test hypotheses and validate changes, using web analytics data to measure and compare results
- PC106.** Monitor and evaluate the impact of changes made to the website, tracking key performance indicators (KPIs) and metrics over time
- PC107.** Collaborate with cross-functional teams, including marketing, design, and development, to implement website improvements based on data-driven insights
- PC108.** Continuously monitor website performance and user behaviour using web analytics tools, adapting strategies and tactics as needed
- PC109.** Analyse competitive benchmarks and industry trends to identify opportunities for innovation and differentiation

Qualification Pack

- PC110.** Communicate findings and recommendations effectively to stakeholders and decision-makers, using data visualisation and storytelling techniques to convey insights and drive action

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation

Qualification Pack

- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Introduction to Content Management Systems (CMS)</i>	5	5	-	-
PC1. Define the concept of Content Management Systems (CMS) and articulate its significance in modern web design practices	-	-	-	-
PC2. Identify and differentiate between various popular CMS platforms such as WordPress, Joomla, Drupal, and Wix	-	-	-	-
PC3. Discuss the advantages and benefits of employing CMS for website development, including ease of content management and scalability	-	-	-	-
PC4. Explore the history and evolution of CMS platforms and their impact on the digital landscape	-	-	-	-
PC5. Analyse case studies and examples demonstrating successful implementations of CMS in web projects	-	-	-	-
PC6. Evaluate the suitability of different CMS platforms based on specific project requirements and objectives	-	-	-	-
PC7. Compare and contrast the features, functionalities, and pricing models of different CMS solutions	-	-	-	-
PC8. Explain the role of CMS in facilitating collaborative content creation and management within organisations	-	-	-	-
PC9. Discuss the security considerations and best practices associated with implementing and managing CMS platforms	-	-	-	-
PC10. Reflect on emerging trends and future developments in CMS technology and its implications for web design professionals	-	-	-	-
<i>Setting Up a Website with WordPress</i>	10	10	1	1

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC22. Utilise the WordPress editor effectively to format and style text content, including headings, paragraphs, and lists	-	-	-	-
PC23. Insert and optimise images and other media files in WordPress posts and pages, ensuring visual appeal and accessibility	-	-	-	-
PC24. Organise and categorise content using categories and tags, improving navigation and user experience	-	-	-	-
PC25. Configure featured images and excerpts for posts, enhancing content visibility and engagement	-	-	-	-
PC26. Schedule and publish content updates regularly, maintaining a consistent publishing schedule and frequency	-	-	-	-
PC27. Manage comments and user interactions on WordPress posts, moderating discussions and responding to feedback	-	-	-	-
PC28. Utilise plugins and tools to automate content creation and distribution processes, improving efficiency and productivity	-	-	-	-
PC29. Implement content governance and version control mechanisms to maintain content quality and consistency	-	-	-	-
PC30. Monitor content performance using analytics tools and metrics, adjusting content strategy based on insights and feedback	-	-	-	-
<i>Customising Website Design with WordPress</i>	10	10	1	1
PC31. Select and install WordPress themes that align with the project's branding, aesthetic, and functional requirements	-	-	-	-
PC32. Customise theme settings and appearance options within WordPress, including colours, fonts, and layout configurations	-	-	-	-
PC33. Modify and extend theme functionality using child themes, custom CSS, and template overrides	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC34. Incorporate and configure widgets to add dynamic content and features to WordPress sidebars and widget areas	-	-	-	-
PC35. Install and activate plugins to enhance website functionality and add new features, such as contact forms, sliders, and galleries	-	-	-	-
PC36. Create custom menus and navigation structures to improve website usability and user experience	-	-	-	-
PC37. Implement responsive design techniques to ensure consistent and optimal display across different devices and screen sizes	-	-	-	-
PC38. Optimise website performance and loading speed by minimising unnecessary elements and optimising code	-	-	-	-
PC39. Test website design and functionality across various browsers and devices, identifying and resolving compatibility issues	-	-	-	-
PC40. Document customisations and design decisions for future reference and collaboration with team members	-	-	-	-
<i>Launching and Maintaining a Website</i>	10	10	1	1
PC41. Conduct comprehensive testing of website functionality and usability across different devices, browsers, and screen sizes	-	-	-	-
PC42. Evaluate website performance using tools such as Google PageSpeed Insights and GTmetrix, identifying areas for improvement	-	-	-	-
PC43. Implement website security measures such as SSL certificates, firewalls, and regular software updates to protect against cyber threats	-	-	-	-
PC44. Perform regular website backups and establish backup protocols to safeguard against data loss and system failures	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC45. Monitor website performance and uptime using website monitoring tools, promptly addressing any downtime or performance issues	-	-	-	-
PC46. Analyse website traffic and user behaviour using analytics tools such as Google Analytics, gaining insights into audience demographics and preferences	-	-	-	-
PC47. Utilise website analytics data to make informed decisions regarding content strategy, user experience enhancements and marketing initiatives	-	-	-	-
PC48. Develop a website maintenance schedule and checklist, including tasks such as content updates, plugin updates, and security audits	-	-	-	-
PC49. Collaborate with stakeholders and team members to ensure ongoing website maintenance and support	-	-	-	-
PC50. Stay abreast of industry trends and best practices in website maintenance and management, continuously improving website performance and user experience	-	-	-	-
<i>Optimising Website Performance and User Experience</i>	10	10	1	1
PC51. Explain techniques for improving website speed, including image optimisation, caching, and content delivery network (CDN) implementation	-	-	-	-
PC52. Apply search engine optimisation (SEO) principles to optimise website content and structure for better search engine visibility and ranking	-	-	-	-
PC53. Install and configure SEO plugins such as Yoast SEO or Rank Math to enhance on-page SEO factors and metadata	-	-	-	-
PC54. Implement responsive design practices to ensure a consistent and user-friendly experience across various devices and screen sizes	-	-	-	-
PC55. Discuss user experience (UX) principles such as accessibility, navigation, and readability, and their impact on website engagement and conversion	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC56. Conduct usability testing sessions with representative users to identify pain points and areas for improvement in website design and functionality	-	-	-	-
PC57. Gather user feedback through surveys, interviews, and feedback forms to understand user preferences and priorities	-	-	-	-
PC58. Analyse website analytics data to track key performance indicators (KPIs) such as bounce rate, time on page, and conversion rate, identifying opportunities for enhancement	-	-	-	-
PC59. Implement A/B testing experiments to compare different design elements or content variations and determine the most effective option	-	-	-	-
PC60. Iterate and refine website design and functionality based on user feedback and performance metrics, aiming for continuous improvement and optimisation	-	-	-	-
<i>Introduction to Website Analytics</i>	10	5	1	1
PC61. Define website analytics and its role in measuring and evaluating website performance and user behaviour	-	-	-	-
PC62. Explore the features and functionalities of Google Analytics and other website analytics tools, understanding how to set up and navigate the platforms	-	-	-	-
PC63. Identify and configure key metrics and dimensions within website analytics tools to track and measure website performance effectively	-	-	-	-
PC64. Discuss the importance of data accuracy and integrity in website analytics, implementing best practices for data collection and reporting	-	-	-	-
PC65. Analyse website traffic sources, including organic search, direct traffic, and referrals, to understand how users find and access the website	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC66. Interpret audience demographics and user characteristics such as age, gender, location, and device usage to inform marketing and content strategies	-	-	-	-
PC67. Evaluate user behaviour metrics such as bounce rate, session duration, and pageviews to assess engagement and interaction levels on the website	-	-	-	-
PC68. Set up and track goals and conversions within website analytics tools to measure the effectiveness of marketing campaigns and website objectives	-	-	-	-
PC69. Generate and interpret reports and dashboards to communicate website performance insights to stakeholders and decision-makers effectively	-	-	-	-
PC70. Stay informed about emerging trends and developments in website analytics, continuously updating skills and knowledge to leverage new opportunities and technologies	-	-	-	-
<i>Analysing User Behaviour with Website Analytics</i>	10	5	1	1
PC71. Utilise website analytics tools to track and analyse user behaviour on websites, including pageviews, sessions, and user interactions	-	-	-	-
PC72. Identify and interpret website traffic sources, including organic search, direct traffic, referrals, and social media, to understand user acquisition channels	-	-	-	-
PC73. Analyse user demographics and audience characteristics such as age, gender, location, and device type to tailor content and marketing strategies	-	-	-	-
PC74. Explore user engagement metrics such as bounce rate, session duration, and pages per session to assess the quality of user interactions	-	-	-	-
PC75. Understand behaviour flow reports to visualise the path users take through the website and identify potential drop-off points or conversion barriers	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC76. Segment website traffic based on user attributes or behaviour to gain deeper insights into specific audience segments and their preferences	-	-	-	-
PC77. Analyse landing page performance to evaluate the effectiveness of different landing pages in driving conversions or achieving specific goals	-	-	-	-
PC78. Use event tracking and custom dimensions to monitor user interactions with specific website elements or features, such as buttons, forms, or videos	-	-	-	-
PC79. Identify behavioural patterns and trends over time using historical data and trend analysis techniques	-	-	-	-
PC80. Apply insights from user behaviour analysis to inform website design, content strategy, and conversion rate optimisation efforts	-	-	-	-
<i>Conversion Tracking and Optimization</i>	10	5	1	1
PC81. Define conversion tracking goals and objectives aligned with business objectives, such as lead generation, sales, or sign-ups	-	-	-	-
PC82. Set up conversion tracking mechanisms using website analytics tools to measure and attribute conversions accurately	-	-	-	-
PC83. Analyse conversion funnels to identify potential drop-off points or areas for improvement in the conversion process	-	-	-	-
PC84. Implement conversion rate optimisation (CRO) techniques to improve website performance and maximise conversion rates	-	-	-	-
PC85. Conduct A/B testing experiments to compare different variations of website elements or pages and determine the most effective version	-	-	-	-
PC86. Utilise heatmaps and session recordings to visualise user behaviour and interactions on the website and identify areas for optimisation	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC87. Implement targeted messaging and calls-to-action (CTAs) to encourage user engagement and drive conversions	-	-	-	-
PC88. Optimise landing pages and forms to reduce friction and streamline the conversion process	-	-	-	-
PC89. Monitor and analyse conversion data regularly to track progress towards goals and identify opportunities for further optimisation	-	-	-	-
PC90. Iterate and refine conversion strategies based on data-driven insights and ongoing testing and experimentation	-	-	-	-
<i>Setting Up and Analysing Website Traffic with Google Analytics</i>	10	5	1	1
PC91. Create a Google Analytics account and set up website tracking properties to collect data on user interactions and behaviour	-	-	-	-
PC92. Install and configure the Google Analytics tracking code on the website to ensure accurate data collection and reporting	-	-	-	-
PC93. Define and configure goals and conversion tracking within Google Analytics to measure specific user actions and outcomes	-	-	-	-
PC94. Navigate Google Analytics reports and dashboards to access key website traffic metrics and performance indicators	-	-	-	-
PC95. Analyse audience reports to understand user demographics, interests, and behaviour patterns	-	-	-	-
PC96. Review acquisition reports to identify traffic sources, including organic search, paid search, social media, and referrals	-	-	-	-
PC97. Examine behaviour reports to assess user engagement metrics such as bounce rate, session duration, and pageviews per session	-	-	-	-
PC98. Evaluate content reports to identify top-performing pages, popular content topics, and areas for content optimisation	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC99. Utilise event tracking and custom dimensions to monitor specific user interactions and behaviour events on the website	-	-	-	-
PC100. Interpret and communicate insights from website traffic analysis to stakeholders and decision-makers to inform strategic decision-making and website optimisation efforts	-	-	-	-
<i>Using Web Analytics Data for Decision Making</i>	5	5	1	1
PC101. Interpret web analytics data to extract actionable insights and trends regarding website performance and user behaviour	-	-	-	-
PC102. Utilise web analytics data to make data-driven decisions for website optimisation and improvement, aligning strategies with business objectives	-	-	-	-
PC103. Identify and prioritise areas for improvement based on web analytics findings, focusing on high-impact opportunities	-	-	-	-
PC104. Implement changes and updates to the website based on insights from web analytics data, such as content revisions, design enhancements, or functionality improvements	-	-	-	-
PC105. Conduct A/B testing and experimentation to test hypotheses and validate changes, using web analytics data to measure and compare results	-	-	-	-
PC106. Monitor and evaluate the impact of changes made to the website, tracking key performance indicators (KPIs) and metrics over time	-	-	-	-
PC107. Collaborate with cross-functional teams, including marketing, design, and development, to implement website improvements based on data-driven insights	-	-	-	-
PC108. Continuously monitor website performance and user behaviour using web analytics tools, adapting strategies and tactics as needed	-	-	-	-

Qualification Pack

MEP/N0412: Mobile Marketing and Online Reputation Management (ORM)

Description

This unit is about mobile marketing, advertising through mobile and apps, SMS, online reputation, review and maintaining online image.

Scope

The scope covers the following :

- Introduction to Mobile Marketing
- Mobile Advertising
- App Marketing
- SMS Marketing
- Introduction to Online Reputation Management (ORM)
- Monitoring Online Reputation
- Responding to Feedback and Reviews
- Building and Maintaining a Positive Online Reputation

Elements and Performance Criteria

Introduction to Mobile Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the concept of mobile marketing and trace its evolutionary journey in the digital landscape
- PC2.** Explain the concept of mobile marketing and trace its evolutionary journey in the digital landscape
- PC3.** Understand mobile user behaviour and preferences, including mobile search patterns, app usage trends, and shopping habits
- PC4.** Analyse case studies and examples showcasing successful mobile marketing campaigns and strategies
- PC5.** Evaluate the impact of mobile-first design principles on user experience and engagement metrics
- PC6.** Explore emerging trends and technologies in mobile marketing, such as mobile apps, mobile wallets, and augmented reality
- PC7.** Discuss the challenges and opportunities associated with mobile marketing, including cross-device tracking and attribution modelling
- PC8.** Assess the role of mobile marketing in omnichannel marketing strategies and customer journey mapping
- PC9.** Examine the ethical and legal considerations in mobile marketing, including data privacy regulations and permission-based marketing
- PC10.** Reflect on the future outlook of mobile marketing and its potential impact on the digital marketing landscape

Mobile Advertising

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC11.** Identify different types of mobile advertising formats, including display ads, native ads, and interstitial ads, and their respective advantages and limitations
- PC12.** Discuss various mobile ad networks and platforms, such as Google Ads, Facebook Ads, and AdMob, and their targeting capabilities and audience reach
- PC13.** Analyse case studies and examples of effective mobile advertising campaigns, highlighting creative strategies and performance metrics
- PC14.** Develop mobile ad campaigns with clear objectives, target audience segmentation, and budget allocation
- PC15.** Optimise mobile ad creatives and copywriting for maximum engagement and conversion rates
- PC16.** Utilise targeting options and ad placements to reach specific demographics, interests, and behaviours
- PC17.** Monitor and measure the performance of mobile ad campaigns using key performance indicators (KPIs) such as click-through rate (CTR), conversion rate, and return on ad spend (ROAS)
- PC18.** Implement A/B testing and experimentation to refine ad creatives, messaging, and targeting parameters
- PC19.** Discuss the impact of mobile ad blockers and ad fraud on digital advertising ecosystems and strategies to mitigate risks
- PC20.** Stay updated on industry trends and advancements in mobile advertising technology, such as programmatic advertising and location-based targeting

App Marketing

To be competent, the user/individual on the job must be able to:

- PC21.** Discuss app marketing strategies, including pre-launch, launch, and post-launch activities, to drive app downloads and user engagement
- PC22.** Utilise App Store Optimization (ASO) techniques to improve app visibility and discoverability on app stores such as Apple App Store and Google Play Store
- PC23.** Implement promotional tactics for app launches, including influencer partnerships, app review campaigns, and app store featuring opportunities
- PC24.** Analyse app analytics data to measure user acquisition, retention, and engagement metrics and optimise marketing strategies accordingly
- PC25.** Explore app monetisation strategies such as in-app purchases, subscriptions, and advertising to generate revenue and maximise app profitability
- PC26.** Discuss the role of user feedback and ratings in app marketing and strategies for managing app reviews and ratings effectively
- PC27.** Develop cross-channel marketing campaigns to promote apps across various digital channels, including social media, email marketing, and content marketing
- PC28.** Evaluate the effectiveness of app marketing channels and campaigns using key performance indicators (KPIs) such as cost per install (CPI), customer lifetime value (CLV), and retention rate
- PC29.** Discuss app store guidelines and policies governing app promotion and marketing practices, ensuring compliance and ethical marketing practices
- PC30.** Stay informed about emerging trends and innovations in app marketing, such as app indexing, deep linking, and app advertising networks, to stay competitive in the app market

SMS Marketing

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC31.** Explain the concept of SMS marketing and its role in mobile marketing strategies, including its benefits and limitations
- PC32.** Utilise best practices for creating effective SMS marketing campaigns, including crafting compelling messages, clear calls-to-action, and personalised content
- PC33.** Segment SMS marketing campaigns based on audience demographics, preferences, and behaviour to deliver targeted and relevant messages
- PC34.** Comply with regulations and guidelines for SMS marketing, including opt-in/opt-out requirements, message frequency limits, and data privacy laws
- PC35.** Implement strategies for measuring and evaluating the performance of SMS marketing campaigns, including metrics such as open rates, click-through rates, and conversion rates
- PC36.** Discuss the importance of maintaining a clean and updated SMS subscriber list and strategies for managing subscriber opt-ins and opt-outs
- PC37.** Analyse case studies and examples of successful SMS marketing campaigns, highlighting creative strategies, messaging techniques, and campaign results
- PC38.** Discuss the role of SMS marketing in integrated marketing campaigns and its synergy with other digital channels such as email marketing, social media, and mobile advertising
- PC39.** Explore emerging trends and innovations in SMS marketing, such as rich media messaging, chatbots, and conversational marketing
- PC40.** Reflect on ethical considerations and best practices in SMS marketing, including transparency, consent, and respecting subscriber preferences and privacy

Introduction to Online Reputation Management (ORM)

To be competent, the user/individual on the job must be able to:

- PC41.** Define online reputation management (ORM) and articulate its significance in shaping brand perception and credibility in the digital age
- PC42.** Analyse the impact of online reviews, ratings, and user-generated content on brand reputation and consumer purchase decisions
- PC43.** Utilise ORM tools and platforms for monitoring online mentions, reviews, and sentiment surrounding a brand or organisation
- PC44.** Discuss the role of proactive reputation management strategies in mitigating negative publicity and building brand resilience
- PC45.** Explore case studies and examples of successful ORM campaigns, highlighting effective crisis management and reputation repair strategies
- PC46.** Evaluate the effectiveness of ORM strategies in different industry sectors, such as hospitality, retail, healthcare, and finance
- PC47.** Develop strategies for building and maintaining a positive online reputation through authentic brand storytelling, thought leadership, and community engagement
- PC48.** Implement techniques for responding to online reviews and feedback, including addressing customer concerns, resolving issues, and expressing gratitude for positive feedback
- PC49.** Discuss the ethical considerations and legal implications of ORM practices, including compliance with consumer protection laws and regulations
- PC50.** Stay informed about emerging trends and developments in online reputation management, such as online reputation scoring, sentiment analysis, and influencer marketing

Monitoring Online Reputation

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC51.** Explain the various techniques and tools available for monitoring online mentions, reviews, and sentiment about a brand or organisation
- PC52.** Utilise social listening tools and sentiment analysis algorithms to track brand mentions and conversations across digital platforms
- PC53.** Monitor review websites, forums, social media channels, and news outlets for mentions of the brand, products, or key stakeholders
- PC54.** Set up alerts and notifications to receive real-time updates on brand mentions, emerging trends, and potential reputation threats
- PC55.** Develop customised monitoring dashboards and reports to track key performance indicators (KPIs) related to online reputation metrics
- PC56.** Analyse trends and patterns in online conversations and sentiment to identify emerging issues, sentiment shifts, and areas for proactive engagement
- PC57.** Monitor competitor online reputation and benchmark performance against industry peers and market leaders
- PC58.** Collaborate with cross-functional teams, including marketing, customer service, and public relations, to coordinate responses to online reputation issues
- PC59.** Conduct regular audits and assessments of online reputation management efforts, identifying areas for improvement and refinement
- PC60.** Stay updated on changes in online reputation management landscape, including new tools, platforms, and best practices, to ensure effective monitoring and management strategies

Responding to Feedback and Reviews

To be competent, the user/individual on the job must be able to:

- PC61.** Discuss the importance of timely and appropriate responses to both positive and negative feedback and reviews
- PC62.** Develop guidelines and protocols for responding to online reviews and feedback, including tone of voice, response timeframes, and escalation procedures
- PC63.** Craft personalised and empathetic responses to negative reviews, addressing specific concerns and offering solutions or resolutions
- PC64.** Express gratitude and appreciation for positive reviews, reinforcing positive brand sentiment and encouraging further engagement
- PC65.** Implement strategies for managing online reputation crises, including communication protocols, crisis response teams, and media relations strategies
- PC66.** Empower frontline staff and customer service representatives with training and resources for handling online feedback and reviews
- PC67.** Monitor social media channels, review websites, and other online platforms for new feedback and reviews, responding promptly to customer inquiries and comments
- PC68.** Engage in proactive outreach and relationship-building with brand advocates and loyal customers, leveraging positive feedback and reviews for brand promotion
- PC69.** Resolve customer complaints and issues in a transparent and professional manner, demonstrating commitment to customer satisfaction and brand integrity
- PC70.** Monitor the impact of responses to feedback and reviews on overall brand perception and reputation, adjusting strategies as needed to achieve desired outcomes

Building and Maintaining a Positive Online Reputation

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC71.** Discuss proactive strategies for building and maintaining a positive online reputation, including brand positioning, storytelling, and community engagement
- PC72.** Create valuable and relevant content that showcases brand values, expertise, and unique selling propositions, fostering trust and credibility with online audiences
- PC73.** Engage with customers and followers on digital platforms through active participation in conversations, responding to comments, and soliciting feedback
- PC74.** Establish and maintain a strong online presence across multiple digital channels, including social media, review websites, forums, and industry directories
- PC75.** Develop brand advocacy programs and ambassador initiatives to cultivate loyal customers and brand advocates who can positively influence online reputation
- PC76.** Monitor and manage online reviews, testimonials, and user-generated content, curating positive experiences and amplifying customer success stories
- PC77.** Implement reputation management strategies to address negative publicity and mitigate reputational risks, such as proactive crisis communication planning and stakeholder engagement
- PC78.** Foster a culture of transparency and accountability within the organisation, encouraging open communication and constructive feedback from employees and stakeholders
- PC79.** Leverage social proof and social validation to enhance brand credibility and trustworthiness, showcasing customer testimonials, awards, and endorsements
- PC80.** Continuously evaluate and refine online reputation management efforts based on performance metrics and feedback from stakeholders, iterating on strategies to adapt to evolving market dynamics and consumer expectations

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions

Qualification Pack

- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

PC3. Understand mobile user behaviour and preferences, including mobile search patterns, app usage trends, and shopping habits	-	-	-	-
PC4. Analyse case studies and examples showcasing successful mobile marketing campaigns and strategies	-	-	-	-
PC5. Evaluate the impact of mobile-first design principles on user experience and engagement metrics	-	-	-	-
PC6. Explore emerging trends and technologies in mobile marketing, such as mobile apps, mobile wallets, and augmented reality	-	-	-	-
PC7. Discuss the challenges and opportunities associated with mobile marketing, including cross-device tracking and attribution modelling	-	-	-	-
PC8. Assess the role of mobile marketing in omnichannel marketing strategies and customer journey mapping	-	-	-	-
PC9. Examine the ethical and legal considerations in mobile marketing, including data privacy regulations and permission-based marketing	-	-	-	-
PC10. Reflect on the future outlook of mobile marketing and its potential impact on the digital marketing landscape	-	-	-	-
<i>Mobile Advertising</i>	10	10	1	1

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC11. Identify different types of mobile advertising formats, including display ads, native ads, and interstitial ads, and their respective advantages and limitations	-	-	-	-
PC12. Discuss various mobile ad networks and platforms, such as Google Ads, Facebook Ads, and AdMob, and their targeting capabilities and audience reach	-	-	-	-
PC13. Analyse case studies and examples of effective mobile advertising campaigns, highlighting creative strategies and performance metrics	-	-	-	-
PC14. Develop mobile ad campaigns with clear objectives, target audience segmentation, and budget allocation	-	-	-	-
PC15. Optimise mobile ad creatives and copywriting for maximum engagement and conversion rates	-	-	-	-
PC16. Utilise targeting options and ad placements to reach specific demographics, interests, and behaviours	-	-	-	-
PC17. Monitor and measure the performance of mobile ad campaigns using key performance indicators (KPIs) such as click-through rate (CTR), conversion rate, and return on ad spend (ROAS)	-	-	-	-
PC18. Implement A/B testing and experimentation to refine ad creatives, messaging, and targeting parameters	-	-	-	-
PC19. Discuss the impact of mobile ad blockers and ad fraud on digital advertising ecosystems and strategies to mitigate risks	-	-	-	-
PC20. Stay updated on industry trends and advancements in mobile advertising technology, such as programmatic advertising and location-based targeting	-	-	-	-
<i>App Marketing</i>	20	10	1	1
PC21. Discuss app marketing strategies, including pre-launch, launch, and post-launch activities, to drive app downloads and user engagement	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC22. Utilise App Store Optimization (ASO) techniques to improve app visibility and discoverability on app stores such as Apple App Store and Google Play Store	-	-	-	-
PC23. Implement promotional tactics for app launches, including influencer partnerships, app review campaigns, and app store featuring opportunities	-	-	-	-
PC24. Analyse app analytics data to measure user acquisition, retention, and engagement metrics and optimise marketing strategies accordingly	-	-	-	-
PC25. Explore app monetisation strategies such as in-app purchases, subscriptions, and advertising to generate revenue and maximise app profitability	-	-	-	-
PC26. Discuss the role of user feedback and ratings in app marketing and strategies for managing app reviews and ratings effectively	-	-	-	-
PC27. Develop cross-channel marketing campaigns to promote apps across various digital channels, including social media, email marketing, and content marketing	-	-	-	-
PC28. Evaluate the effectiveness of app marketing channels and campaigns using key performance indicators (KPIs) such as cost per install (CPI), customer lifetime value (CLV), and retention rate	-	-	-	-
PC29. Discuss app store guidelines and policies governing app promotion and marketing practices, ensuring compliance and ethical marketing practices	-	-	-	-
PC30. Stay informed about emerging trends and innovations in app marketing, such as app indexing, deep linking, and app advertising networks, to stay competitive in the app market	-	-	-	-
SMS Marketing	10	10	1	1
PC31. Explain the concept of SMS marketing and its role in mobile marketing strategies, including its benefits and limitations	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC32. Utilise best practices for creating effective SMS marketing campaigns, including crafting compelling messages, clear calls-to-action, and personalised content	-	-	-	-
PC33. Segment SMS marketing campaigns based on audience demographics, preferences, and behaviour to deliver targeted and relevant messages	-	-	-	-
PC34. Comply with regulations and guidelines for SMS marketing, including opt-in/opt-out requirements, message frequency limits, and data privacy laws	-	-	-	-
PC35. Implement strategies for measuring and evaluating the performance of SMS marketing campaigns, including metrics such as open rates, click-through rates, and conversion rates	-	-	-	-
PC36. Discuss the importance of maintaining a clean and updated SMS subscriber list and strategies for managing subscriber opt-ins and opt-outs	-	-	-	-
PC37. Analyse case studies and examples of successful SMS marketing campaigns, highlighting creative strategies, messaging techniques, and campaign results	-	-	-	-
PC38. Discuss the role of SMS marketing in integrated marketing campaigns and its synergy with other digital channels such as email marketing, social media, and mobile advertising	-	-	-	-
PC39. Explore emerging trends and innovations in SMS marketing, such as rich media messaging, chatbots, and conversational marketing	-	-	-	-
PC40. Reflect on ethical considerations and best practices in SMS marketing, including transparency, consent, and respecting subscriber preferences and privacy	-	-	-	-
<i>Introduction to Online Reputation Management (ORM)</i>	20	10	1	1
PC41. Define online reputation management (ORM) and articulate its significance in shaping brand perception and credibility in the digital age	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC42. Analyse the impact of online reviews, ratings, and user-generated content on brand reputation and consumer purchase decisions	-	-	-	-
PC43. Utilise ORM tools and platforms for monitoring online mentions, reviews, and sentiment surrounding a brand or organisation	-	-	-	-
PC44. Discuss the role of proactive reputation management strategies in mitigating negative publicity and building brand resilience	-	-	-	-
PC45. Explore case studies and examples of successful ORM campaigns, highlighting effective crisis management and reputation repair strategies	-	-	-	-
PC46. Evaluate the effectiveness of ORM strategies in different industry sectors, such as hospitality, retail, healthcare, and finance	-	-	-	-
PC47. Develop strategies for building and maintaining a positive online reputation through authentic brand storytelling, thought leadership, and community engagement	-	-	-	-
PC48. Implement techniques for responding to online reviews and feedback, including addressing customer concerns, resolving issues, and expressing gratitude for positive feedback	-	-	-	-
PC49. Discuss the ethical considerations and legal implications of ORM practices, including compliance with consumer protection laws and regulations	-	-	-	-
PC50. Stay informed about emerging trends and developments in online reputation management, such as online reputation scoring, sentiment analysis, and influencer marketing	-	-	-	-
<i>Monitoring Online Reputation</i>	10	10	2	2
PC51. Explain the various techniques and tools available for monitoring online mentions, reviews, and sentiment about a brand or organisation	-	-	-	-
PC52. Utilise social listening tools and sentiment analysis algorithms to track brand mentions and conversations across digital platforms	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC53. Monitor review websites, forums, social media channels, and news outlets for mentions of the brand, products, or key stakeholders	-	-	-	-
PC54. Set up alerts and notifications to receive real-time updates on brand mentions, emerging trends, and potential reputation threats	-	-	-	-
PC55. Develop customised monitoring dashboards and reports to track key performance indicators (KPIs) related to online reputation metrics	-	-	-	-
PC56. Analyse trends and patterns in online conversations and sentiment to identify emerging issues, sentiment shifts, and areas for proactive engagement	-	-	-	-
PC57. Monitor competitor online reputation and benchmark performance against industry peers and market leaders	-	-	-	-
PC58. Collaborate with cross-functional teams, including marketing, customer service, and public relations, to coordinate responses to online reputation issues	-	-	-	-
PC59. Conduct regular audits and assessments of online reputation management efforts, identifying areas for improvement and refinement	-	-	-	-
PC60. Stay updated on changes in online reputation management landscape, including new tools, platforms, and best practices, to ensure effective monitoring and management strategies	-	-	-	-
<i>Responding to Feedback and Reviews</i>	10	10	1	1
PC61. Discuss the importance of timely and appropriate responses to both positive and negative feedback and reviews	-	-	-	-
PC62. Develop guidelines and protocols for responding to online reviews and feedback, including tone of voice, response timeframes, and escalation procedures	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC63. Craft personalised and empathetic responses to negative reviews, addressing specific concerns and offering solutions or resolutions	-	-	-	-
PC64. Express gratitude and appreciation for positive reviews, reinforcing positive brand sentiment and encouraging further engagement	-	-	-	-
PC65. Implement strategies for managing online reputation crises, including communication protocols, crisis response teams, and media relations strategies	-	-	-	-
PC66. Empower frontline staff and customer service representatives with training and resources for handling online feedback and reviews	-	-	-	-
PC67. Monitor social media channels, review websites, and other online platforms for new feedback and reviews, responding promptly to customer inquiries and comments	-	-	-	-
PC68. Engage in proactive outreach and relationship-building with brand advocates and loyal customers, leveraging positive feedback and reviews for brand promotion	-	-	-	-
PC69. Resolve customer complaints and issues in a transparent and professional manner, demonstrating commitment to customer satisfaction and brand integrity	-	-	-	-
PC70. Monitor the impact of responses to feedback and reviews on overall brand perception and reputation, adjusting strategies as needed to achieve desired outcomes	-	-	-	-
Building and Maintaining a Positive Online Reputation	10	10	2	2
PC71. Discuss proactive strategies for building and maintaining a positive online reputation, including brand positioning, storytelling, and community engagement	-	-	-	-
PC72. Create valuable and relevant content that showcases brand values, expertise, and unique selling propositions, fostering trust and credibility with online audiences	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC73. Engage with customers and followers on digital platforms through active participation in conversations, responding to comments, and soliciting feedback	-	-	-	-
PC74. Establish and maintain a strong online presence across multiple digital channels, including social media, review websites, forums, and industry directories	-	-	-	-
PC75. Develop brand advocacy programs and ambassador initiatives to cultivate loyal customers and brand advocates who can positively influence online reputation	-	-	-	-
PC76. Monitor and manage online reviews, testimonials, and user-generated content, curating positive experiences and amplifying customer success stories	-	-	-	-
PC77. Implement reputation management strategies to address negative publicity and mitigate reputational risks, such as proactive crisis communication planning and stakeholder engagement	-	-	-	-
PC78. Foster a culture of transparency and accountability within the organisation, encouraging open communication and constructive feedback from employees and stakeholders	-	-	-	-
PC79. Leverage social proof and social validation to enhance brand credibility and trustworthiness, showcasing customer testimonials, awards, and endorsements	-	-	-	-
PC80. Continuously evaluate and refine online reputation management efforts based on performance metrics and feedback from stakeholders, iterating on strategies to adapt to evolving market dynamics and consumer expectations	-	-	-	-

MEP/N0413: Business Communication II

Description

This unit details advanced business communication skills.

Scope

The scope covers the following :

- Etiquettes and Manners
- Listening Skills
- Group Discussion (GD)

Elements and Performance Criteria

Etiquettes and Manners

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate an understanding of college etiquettes, including classroom conduct, respect for faculty and peers, and appropriate attire
- PC2.** Explain the importance of conversation etiquettes in professional and social settings, including active listening, eye contact, and non-verbal communication cues
- PC3.** Discuss social etiquettes for various occasions, such as formal events, networking functions, and informal gatherings, including table manners and greetings
- PC4.** Outline telephone etiquettes for effective communication, including answering calls professionally, taking messages, and managing phone conversations
- PC5.** Identify cultural differences in etiquettes and manners and demonstrate sensitivity and adaptability in diverse social and professional environments
- PC6.** Role-play scenarios to practice applying etiquettes and manners in different situations, such as introductions, meetings, and social interactions
- PC7.** Analyse case studies and examples of breaches in etiquettes and manners and discuss the potential consequences for relationships and reputations
- PC8.** Develop strategies for handling challenging situations and conflicts with diplomacy, tact, and professionalism
- PC9.** Reflect on personal etiquettes and manners and identify areas for improvement and development through self-assessment and feedback
- PC10.** Collaborate with peers to create a code of conduct outlining expected etiquettes and manners within the academic and professional community

Listening Skills

To be competent, the user/individual on the job must be able to:

- PC11.** Explain the concept of active listening and its importance in effective communication and interpersonal relationships
- PC12.** Demonstrate the do's and don'ts of listening, including maintaining eye contact, avoiding interruptions, and showing empathy and understanding

Qualification Pack

- PC13.** Discuss guidelines for active listening, such as paraphrasing, summarising, and asking clarifying questions to demonstrate engagement and comprehension
- PC14.** Practice active listening techniques through interactive exercises, role-plays, and real-life scenarios
- PC15.** Analyse barriers to effective listening, such as distractions, biases, and preconceptions, and develop strategies for overcoming them
- PC16.** Explore the impact of non-verbal communication cues, such as body language and facial expressions, on the listening process
- PC17.** Reflect on personal listening habits and behaviours and identify strengths and areas for improvement through self-assessment and peer feedback
- PC18.** Engage in reflective listening activities to deepen understanding and empathy in interpersonal interactions
- PC19.** Discuss the role of listening in conflict resolution and negotiation, including active listening strategies for de-escalating tension and finding common ground
- PC20.** Collaborate with peers to create a listening skills toolkit with practical tips and techniques for enhancing listening effectiveness in various contexts

Group Discussion (GD)

To be competent, the user/individual on the job must be able to:

- PC21.** Explain the purpose and objectives of a group discussion (GD) in academic and professional settings
- PC22.** Outline the do's and don'ts of participating in a group discussion, including active participation, respecting others' viewpoints, and avoiding dominating the conversation
- PC23.** Provide examples of useful words and phrases for initiating, elaborating, agreeing, disagreeing, and concluding during a group discussion
- PC24.** Facilitate practice sessions on basic group discussion topics, allowing participants to express their opinions, listen to others, and engage in constructive dialogue
- PC25.** Analyse the structure and dynamics of a group discussion, including the roles of the moderator, participants, and observers
- PC26.** Discuss strategies for effective communication in a group discussion, such as clarity, relevance, and persuasiveness of arguments
- PC27.** Evaluate group discussion performances based on criteria such as content, communication skills, teamwork, and leadership
- PC28.** Provide constructive feedback to participants on their strengths and areas for improvement in group discussion techniques
- PC29.** Foster an inclusive and collaborative environment in group discussions, encouraging participation from all members and valuing diverse perspectives
- PC30.** Reflect on personal experiences and insights gained from participating in group discussions, identifying strategies for enhancing future performance

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing

Qualification Pack

- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0414: Environment Studies

Description

This unit details environmental protection, conservation of natural resources, climate change, global warming, pollution and prevention strategies to minimise impact on health.

Scope

The scope covers the following :

- Introduction to Environmental Studies
- Ecology and Ecosystems
- Natural Resources and Conservation
- Pollution and Environmental Health
- Climate Change and Global Warming
- Sustainable Development
- Energy and waste conversion

Elements and Performance Criteria

Introduction to Environmental Studies

To be competent, the user/individual on the job must be able to:

- PC1.** Define environmental studies and articulate its significance in addressing contemporary global challenges related to sustainability and conservation
- PC2.** Understand the interconnectedness of ecosystems and the intricate relationships between living organisms and their environment
- PC3.** Discuss various environmental issues and challenges, including climate change, deforestation, biodiversity loss, and pollution
- PC4.** Explore the laws governing environmental protection and conservation
- PC5.** Reflect on personal attitudes and behaviours towards the environment and identify opportunities for individual and collective action

Ecology and Ecosystems

To be competent, the user/individual on the job must be able to:

- PC6.** State the basic principles of ecology
- PC7.** Explain the structure and function of ecosystems
- PC8.** Describe biodiversity and its importance in maintaining ecosystem stability, resilience, and productivity
- PC9.** Discuss the impact of human activities, such as deforestation, habitat destruction, and pollution, on ecosystem health and biodiversity

Natural Resources and Conservation

To be competent, the user/individual on the job must be able to:

- PC10.** Discuss various natural resources, including renewable (e.g., sunlight, wind, water) and non-renewable (e.g., fossil fuels, minerals), and their significance for human well-being and economic development

Qualification Pack

- PC11.** Practice sustainable use and management of natural resources through concepts such as 3Rs (Reduce, Reuse, Recycle)
- PC12.** Explore conservation methods for preserving biodiversity, forests, water bodies, and energy resources
- PC13.** Discuss the concept of sustainable development and its integration of environmental, social, and economic considerations for long-term prosperity
- PC14.** Investigate the role of technology and innovation in resource conservation, such as renewable energy technologies, efficient farming practices, and waste management systems

Pollution and Environmental Health

To be competent, the user/individual on the job must be able to:

- PC15.** Discuss the different types and sources of pollution, including air pollution, water pollution, soil contamination, and noise pollution
- PC16.** Describe the impacts of pollution on environmental quality, human health, and ecosystems
- PC17.** State few methods for reducing pollution
- PC18.** Investigate emerging issues in environmental health, such as chemical contamination, indoor air pollution, and electronic waste disposal
- PC19.** Engage in community service projects and advocacy efforts aimed at raising awareness about pollution issues and promoting environmental stewardship and sustainability

Climate Change and Global Warming

To be competent, the user/individual on the job must be able to:

- PC20.** Identify and explain the causes of climate change, including natural processes and human activities such as deforestation, burning fossil fuels, and industrial emissions
- PC21.** Understand the greenhouse effect and the role of greenhouse gases in trapping heat in the Earth's atmosphere, leading to global warming
- PC22.** Discuss the impacts of climate change on ecosystems, weather patterns, sea levels, biodiversity, and human societies
- PC23.** Discuss ways to reduce greenhouse gas emissions
- PC24.** Explore adaptation measures for coping with the effects of climate change
- PC25.** Identify few international efforts to address climate change

Sustainable Development

To be competent, the user/individual on the job must be able to:

- PC26.** Explain sustainable development as identified in Sustainable Development Goals (SDGs) adopted by the United Nations
- PC27.** Practice the use of sustainable energy sources such as solar, wind, hydroelectric, and biomass energy, promoting energy efficiency and reducing reliance on fossil fuels
- PC28.** Explore ways of managing non-renewable resources such as minerals, metals, and fossil fuels
- PC29.** Investigate sustainable agriculture practices such as organic farming, agroforestry, and permaculture, promoting soil health, biodiversity conservation, and food security
- PC30.** Identify sustainable transportation options such as public transit, cycling, and electric vehicles, reducing carbon emissions and promoting urban mobility
- PC31.** Discuss the role of green buildings and sustainable urban planning in reducing energy consumption, mitigating climate change, and enhancing quality of life in cities

Qualification Pack

- PC32.** Engage in community-based sustainability projects, such as eco-villages, community gardens, and renewable energy cooperatives, promoting grassroots innovation and social change

Energy and waste conversion

To be competent, the user/individual on the job must be able to:

- PC33.** Explain different types of energy, including renewable (solar, wind, hydro, geothermal) and non-renewable (coal, oil, natural gas) sources, and their conversion into usable forms such as electricity and heat
- PC34.** Describe energy utilization and conservation measures
- PC35.** Explore innovative technologies for renewable energy generation such solar energy
- PC36.** Discuss the use of new technology in conserving energy and reducing waste
- PC37.** Engage in hands-on activities and demonstrations to explore energy conversion processes and waste management techniques

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Consumer behaviour and purchasing decisions
- KU6.** Ways of advertising to contribute to brand awareness and sales generation
- KU7.** Importance of brand identity
- KU8.** Communication strategies, and advertising in shaping consumer perceptions
- KU9.** Generative AI and automation tools
- KU10.** Personalized marketing approaches
- KU11.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU12.** Principles of business communication, both verbal and written, for effective professional interactions
- KU13.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU14.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU15.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU16.** Customer relationship management (CRM) systems and their role in managing customer data
- KU17.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies

Qualification Pack

- KU18.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU19.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU20.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU21.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU22.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU23.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU24.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU25.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

<i>Ecology and Ecosystems</i>	10	-	-	-
PC6. State the basic principles of ecology	-	-	-	-
PC7. Explain the structure and function of ecosystems	-	-	-	-
PC8. Describe biodiversity and its importance in maintaining ecosystem stability, resilience, and productivity	-	-	-	-
PC9. Discuss the impact of human activities, such as deforestation, habitat destruction, and pollution, on ecosystem health and biodiversity	-	-	-	-
<i>Natural Resources and Conservation</i>	10	-	-	-
PC10. Discuss various natural resources, including renewable (e.g., sunlight, wind, water) and non-renewable (e.g., fossil fuels, minerals), and their significance for human well-being and economic development	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC11. Practice sustainable use and management of natural resources through concepts such as 3Rs (Reduce, Reuse, Recycle)	-	-	-	-
PC12. Explore conservation methods for preserving biodiversity, forests, water bodies, and energy resources	-	-	-	-
PC13. Discuss the concept of sustainable development and its integration of environmental, social, and economic considerations for long-term prosperity	-	-	-	-
PC14. Investigate the role of technology and innovation in resource conservation, such as renewable energy technologies, efficient farming practices, and waste management systems	-	-	-	-
<i>Pollution and Environmental Health</i>	10	-	-	-
PC15. Discuss the different types and sources of pollution, including air pollution, water pollution, soil contamination, and noise pollution	-	-	-	-
PC16. Describe the impacts of pollution on environmental quality, human health, and ecosystems	-	-	-	-
PC17. State few methods for reducing pollution	-	-	-	-
PC18. Investigate emerging issues in environmental health, such as chemical contamination, indoor air pollution, and electronic waste disposal	-	-	-	-
PC19. Engage in community service projects and advocacy efforts aimed at raising awareness about pollution issues and promoting environmental stewardship and sustainability	-	-	-	-
<i>Climate Change and Global Warming</i>	20	-	-	-
PC20. Identify and explain the causes of climate change, including natural processes and human activities such as deforestation, burning fossil fuels, and industrial emissions	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC21. Understand the greenhouse effect and the role of greenhouse gases in trapping heat in the Earth's atmosphere, leading to global warming	-	-	-	-
PC22. Discuss the impacts of climate change on ecosystems, weather patterns, sea levels, biodiversity, and human societies	-	-	-	-
PC23. Discuss ways to reduce greenhouse gas emissions	-	-	-	-
PC24. Explore adaptation measures for coping with the effects of climate change	-	-	-	-
PC25. Identify few international efforts to address climate change	-	-	-	-
<i>Sustainable Development</i>	20	-	-	-
PC26. Explain sustainable development as identified in Sustainable Development Goals (SDGs) adopted by the United Nations	-	-	-	-
PC27. Practice the use of sustainable energy sources such as solar, wind, hydroelectric, and biomass energy, promoting energy efficiency and reducing reliance on fossil fuels	-	-	-	-
PC28. Explore ways of managing non-renewable resources such as minerals, metals, and fossil fuels	-	-	-	-
PC29. Investigate sustainable agriculture practices such as organic farming, agroforestry, and permaculture, promoting soil health, biodiversity conservation, and food security	-	-	-	-
PC30. Identify sustainable transportation options such as public transit, cycling, and electric vehicles, reducing carbon emissions and promoting urban mobility	-	-	-	-
PC31. Discuss the role of green buildings and sustainable urban planning in reducing energy consumption, mitigating climate change, and enhancing quality of life in cities	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC32. Engage in community-based sustainability projects, such as eco-villages, community gardens, and renewable energy cooperatives, promoting grassroots innovation and social change	-	-	-	-
<i>Energy and waste conversion</i>	20	-	-	-
PC33. Explain different types of energy, including renewable (solar, wind, hydro, geothermal) and non-renewable (coal, oil, natural gas) sources, and their conversion into usable forms such as electricity and heat	-	-	-	-
PC34. Describe energy utilization and conservation measures	-	-	-	-
PC35. Explore innovative technologies for renewable energy generation such solar energy	-	-	-	-
PC36. Discuss the use of new technology in conserving energy and reducing waste	-	-	-	-
PC37. Engage in hands-on activities and demonstrations to explore energy conversion processes and waste management techniques	-	-	-	-

MEP/N0401: Principles of Management

Description

This unit describes about various principles of management.

Scope

The scope covers the following :

- Introduction to Management
- Evolution of management thought
- Planning & Decision Making
- Organising & Staffing
- Direction & Control
- Leadership and Team Management

Elements and Performance Criteria

Introduction to Management

To be competent, the user/individual on the job must be able to:

- PC1.** Define management and explain its functions and processes.
- PC2.** Analyze the nature of management and its significance in organizational effectiveness.
- PC3.** Identify and differentiate between various managerial roles and essential managerial skills.
- PC4.** Compare and contrast management and administration, highlighting their similarities and differences.
- PC5.** Evaluate historical developments and contemporary issues in management, understanding their impact on organizational practices.
- PC6.** Apply management principles to real-world case studies, demonstrating problem-solving and decision-making skills.
- PC7.** Discuss ethical considerations in management practices and their implications for organizational behavior and culture.
- PC8.** Examine global perspectives on management, recognizing cultural and contextual differences in management practices.
- PC9.** Identify emerging trends in management, such as digitalization, sustainability, and diversity, and their implications for future organisational strategies.
- PC10.** Synthesize knowledge of management principles to propose innovative solutions to organisational challenges.

Evolution of management thought

To be competent, the user/individual on the job must be able to:

- PC11.** Explain the evolution of management thought from early philosophies to modern approaches.
- PC12.** Evaluate classical management approaches, including scientific management and bureaucratic theory, and their relevance to contemporary organisations.

Qualification Pack

- PC13.** Analyse the significance of the Hawthorne experiments and the human relations movement in shaping management practices.
- PC14.** Describe modern approaches to management, such as systems theory and contingency theory, and their applicability in dynamic organisational environments.
- PC15.** Discuss recent trends in management thought, including TQM, lean management, and agile management, and their impact on organisational performance.
- PC16.** Compare and contrast different management theories, highlighting their strengths, limitations, and applications.
- PC17.** Apply management theories to analyse real-world case studies and identify effective management practices.
- PC18.** Critically evaluate management theories, considering their practical implications and relevance in diverse organizational contexts.
- PC19.** Predict future directions in management thought and anticipate potential shifts in management paradigms.
- PC20.** Synthesize knowledge of management theories to propose innovative management strategies for organizational improvement and adaptation.

Planning & Decision Making

To be competent, the user/individual on the job must be able to:

- PC21.** Define planning and explain its significance in organizational management.
- PC22.** Outline the planning process and its key stages, from objective setting to plan implementation.
- PC23.** Differentiate between various types of plans, including strategic, tactical, operational, and contingency plans, and their roles in organizational planning.
- PC24.** Describe decision-making as a critical managerial function and its importance in organizational effectiveness.
- PC25.** Analyze the decision-making process, including problem identification, alternative generation, evaluation, and selection.
- PC26.** Compare and contrast individual and group decision-making, identifying their respective advantages and disadvantages.
- PC27.** Apply decision-making tools and techniques, such as decision trees and SWOT analysis, to solve complex organisational problems.
- PC28.** Discuss ethical considerations in decision making and their implications for organisational decision makers.
- PC29.** Analyse real-world case studies to understand how planning and decision-making processes are applied in organisational contexts.
- PC30.** Synthesize knowledge of planning and decision-making principles to develop effective strategies for organisational planning and problem-solving.

Organising & Staffing

To be competent, the user/individual on the job must be able to:

- PC31.** Explain the nature and significance of organisational structure in coordinating and directing organisational activities.
- PC32.** Identify the principles of organisation, including authority, responsibility, and accountability, and their implications for managerial effectiveness.

Qualification Pack

- PC33.** Analyse the concepts of span of control and chain of command and their impact on organisational communication and decision-making.
- PC34.** Compare and contrast centralization and decentralization of authority, understanding their effects on organisational flexibility and responsiveness.
- PC35.** Evaluate different types of organisational structures, such as functional, divisional, matrix, and network structures, and their suitability for different organisational contexts.
- PC36.** Discuss factors influencing span of control and centralization, including organisational size, complexity, and environmental uncertainty.
- PC37.** Describe the staffing process, including recruitment, selection, placement, and induction, and their roles in building an effective workforce.
- PC38.** Apply job design and job analysis techniques to optimize employee roles and responsibilities for organisational effectiveness.
- PC39.** Evaluate employee training and development programs as tools for enhancing employee skills, knowledge, and performance.
- PC40.** Analyse real-world case studies to understand the practical implications of organisational structure and staffing practices in organisational management.

Direction & Control

To be competent, the user/individual on the job must be able to:

- PC41.** Define direction in management and explain its features and principles for effective organizational leadership.
- PC42.** Describe techniques for effective communication and motivation to inspire and align organizational members toward common goals.
- PC43.** Discuss the meaning and process of control in organizational management, understanding its role in achieving organizational objectives.
- PC44.** Differentiate between feedforward, concurrent, and feedback control mechanisms and their applications in organizational control systems.
- PC45.** Identify methods of control, such as budgetary control, financial ratios, and performance dashboards, and their roles in monitoring and evaluating organizational performance.
- PC46.** Analyze the principles and practices of Total Quality Management (TQM) and continuous improvement initiatives for enhancing organizational effectiveness and efficiency.
- PC47.** Identify challenges and barriers to effective control implementation, including resistance to change, information asymmetry, and organizational culture.
- PC48.** Apply direction and control principles to real-world scenarios to develop strategies for effective leadership and performance management.
- PC49.** Evaluate the effectiveness of direction and control practices through the analysis of case studies in various organisational settings.
- PC50.** Synthesize knowledge of direction and control principles to propose innovative solutions for addressing organisational challenges and improving performance outcomes.

Leadership and Team Management

To be competent, the user/individual on the job must be able to:

- PC51.** Define leadership and its importance in organisational management, recognizing its role in inspiring and guiding individuals and teams towards common goals.
- PC52.** Analyse different theories of leadership, including trait theory, behavioural theory, and contingency theory, to understand the complexities of leadership effectiveness.

Qualification Pack

- PC53.** Identify various leadership styles and their situational applicability in different organisational contexts.
- PC54.** Assess the characteristics and qualities of effective leaders, including communication skills, emotional intelligence, and strategic vision.
- PC55.** Understand team dynamics and the stages of team development, recognizing the challenges and opportunities associated with team collaboration.
- PC56.** Develop strategies for building high-performance teams, including role clarification, goal setting, and fostering a culture of trust and collaboration.
- PC57.** Motivate and inspire team members through effective leadership practices, utilizing both intrinsic and extrinsic motivational factors.
- PC58.** Manage conflicts and resolve interpersonal issues within teams, employing conflict resolution strategies and negotiation techniques.
- PC59.** Demonstrate ethical leadership qualities and responsible decision-making practices, aligning personal values with organisational goals and objectives.
- PC60.** Analyse real-world case studies on leadership and team management practices to extract lessons learned and best practices for effective leadership in diverse organisational settings.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understanding the core concepts, functions, and principles of management, including planning, organizing, leading, and controlling.
- KU2.** Knowledge of the evolution of management thought, from classical theories to modern management approaches, and the contribution of key management thinkers.
- KU3.** Comprehension of strategic planning and decision-making processes, and their role in guiding organizational goals and objectives.
- KU4.** Familiarity with organizational structure and staffing, including the principles of delegation, coordination, and workforce management.
- KU5.** Understanding the significance of direction, motivation, and control in achieving organizational effectiveness and ensuring performance standards.
- KU6.** Knowledge of leadership styles, team management, and the role of leaders in fostering a productive and goal-oriented work environment.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Critical thinking and analytical skills to assess management theories, solve problems, and make informed decisions.
- GS2.** Effective communication skills for articulating management concepts, plans, and strategies clearly and persuasively.
- GS3.** Leadership and team management skills to collaborate with teams and drive organizational goals.

Qualification Pack

- GS4.** Time management and organizational skills for planning, delegating, and prioritizing tasks effectively in a management context.

MEP/N0402: Fundamentals of Commerce and Accounting

Description

This unit explains about the fundamentals of commerce and accounting

Scope

The scope covers the following :

- Introduction to Commerce and Accounting
- Economic Theory
- Accounting Principles
- Taxation
- Financial Management
- Business Law and Ethics

Elements and Performance Criteria

Introduction to Commerce and Accounting

To be competent, the user/individual on the job must be able to:

- PC1.** Define commerce and its significance in economic and societal development.
- PC2.** Analyse the impact of commerce on global trade dynamics, imports, and exports.
- PC3.** Explain the role and functions of the World Trade Organisation (WTO) and International Chamber of Commerce in regulating international trade and commerce.
- PC4.** Learn about the role and functions of important commercial and accounting bodies in India like Securities and Exchange Board of India (SEBI), Reserve Bank of India (RBI), Institute of Chartered Accountants of India (ICAI), and Ministry of Corporate Affairs (MCA).
- PC5.** Discuss emerging trends in commerce and their implications for businesses and economies.
- PC6.** Recognise the importance of accounting in commerce and decision-making processes.
- PC7.** Interpret basic financial statements, including income statements, balance sheets, and cash flow statements.
- PC8.** Evaluate the role of accounting in financial analysis and business decision making.
- PC9.** Familiarise with accounting software and tools used for financial recordkeeping and reporting.
- PC10.** Discuss ethical considerations in commerce and accounting practices.

Economic Theory

To be competent, the user/individual on the job must be able to:

- PC11.** Define macroeconomics and its key measurements, such as GDP, GNP, and NNP.
- PC12.** Analyse the concepts of national income, including gross and net domestic product, and their significance in economic analysis.
- PC13.** Explain microeconomics and its fundamental principles of demand and supply.
- PC14.** Calculate and interpret elasticity of demand and supply in various market scenarios.
- PC15.** Classify markets based on competition levels and analyse their characteristics.

Qualification Pack

- PC16.** Discuss the theory of perfect competition and its implications for market equilibrium.
- PC17.** Apply the concept of marginal utility to analyse consumer behaviour and demand patterns.
- PC18.** Evaluate market equilibrium and disequilibrium situations and their effects on price and quantity.
- PC19.** Compare and contrast different market structures and their impact on market outcomes.
- PC20.** Interpret real-world economic data and trends to assess market conditions and make informed decisions.

Accounting Principles

To be competent, the user/individual on the job must be able to:

- PC21.** Understand the meaning and objectives of accounting and its role in business decision-making.
- PC22.** Explain the accounting cycle and the steps involved in recording, summarising, and reporting financial transactions.
- PC23.** Differentiate between the branches of accounting, including financial accounting, cost accounting, and management accounting.
- PC24.** Identify and apply accounting concepts and conventions in preparing financial statements.
- PC25.** Discuss the importance of adhering to Generally Accepted Accounting Principles (GAAP) in financial reporting.
- PC26.** Prepare and interpret financial statements, including income statements, balance sheets, and cash flow statements.
- PC27.** Analyse financial data using ratios and other tools to assess business performance and financial health.
- PC28.** Apply accounting principles to record and analyse merchandising transactions.
- PC29.** Utilise accounting software and tools effectively for financial recordkeeping and reporting.

Taxation

To be competent, the user/individual on the job must be able to:

- PC30.** Define taxation and its significance in government revenue generation and economic management.
- PC31.** Classify taxes into direct and indirect categories and explain their respective characteristics and implications.
- PC32.** Analyse the structure and administration of major taxes, including income tax, corporate taxation, GST, and customs & excise duties.
- PC33.** Compare and contrast direct and indirect taxes, understanding their impact on individuals, businesses, and the economy.
- PC34.** Identify the objectives of taxation, including revenue generation, redistribution of wealth, and economic stabilization.
- PC35.** Discuss the roles and functions of tax authorities such as the CBDT and CBIC in tax administration and enforcement.
- PC36.** Develop tax planning and management strategies to optimize tax liabilities and maximize tax benefits.
- PC37.** Ensure compliance with tax laws and regulations by understanding reporting requirements and filing obligations.
- PC38.** Interpret taxation laws and regulations to navigate complex tax scenarios and mitigate tax risks.

Qualification Pack

PC39. Stay updated on recent developments and trends in taxation to anticipate changes and adapt tax strategies accordingly.

Financial Management

To be competent, the user/individual on the job must be able to:

- PC40.** Understand the role and importance of financial management in organizations.
- PC41.** Develop financial plans and forecasts to guide decision-making and resource allocation.
- PC42.** Evaluate investment opportunities using capital budgeting techniques and investment appraisal methods.
- PC43.** Calculate and analyze the cost of capital and determine optimal capital structure for the firm.
- PC44.** Manage working capital efficiently to ensure liquidity and operational continuity.
- PC45.** Assess risk and return trade-offs in investment decisions and portfolio management.
- PC46.** Analyse financial statements to assess the financial health and performance of the organization.
- PC47.** Formulate dividend policies to maximize shareholder wealth while balancing the needs of stakeholders.
- PC48.** Understand the functioning of financial markets and institutions and their impact on corporate finance.
- PC49.** Uphold principles of corporate governance and ethical conduct in financial management practices.

Business Law and Ethics

To be competent, the user/individual on the job must be able to:

- PC50.** Understand the legal framework governing business operations and transactions.
- PC51.** Analyse contract law principles and apply them to business agreements and transactions.
- PC52.** Identify different business entities and their legal characteristics and implications.
- PC53.** Recognize the importance of intellectual property rights and mechanisms for their protection.
- PC54.** Understand the legal rights and obligations of employers and employees in the workplace.
- PC55.** Evaluate consumer protection laws and regulations and their implications for business practices.
- PC56.** Discuss environmental laws and corporate social responsibility initiatives in business operations.
- PC57.** Apply ethical decision-making frameworks to resolve ethical dilemmas in business situations.
- PC58.** Analyse real-world case studies to understand the application of business law and ethical principles in practice.
- PC59.** Demonstrate ethical awareness and integrity in business dealings and decision-making processes.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understanding the fundamental concepts of commerce and accounting, including the nature and purpose of business transactions.

Qualification Pack

- KU2.** Knowledge of basic economic theories and their applications in business environments, including supply, demand, and market structures.
- KU3.** Familiarity with key accounting principles such as the double-entry system, balance sheets, income statements, and the cash flow cycle.
- KU4.** Comprehension of taxation systems, including types of taxes (direct and indirect), and the process of tax calculation and filing for individuals and businesses.
- KU5.** Understanding of the principles of financial management, including budgeting, capital structure, and financial decision-making to ensure profitability and growth.
- KU6.** Knowledge of business laws and ethics, including contracts, consumer protection, and corporate social responsibility, and how they impact business practices.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Analytical and problem-solving skills to interpret financial statements, assess economic conditions, and apply accounting principles to real-world scenarios.
- GS2.** Effective communication skills to explain complex financial and economic concepts clearly to both financial and non-financial stakeholders.
- GS3.** Numeracy skills for accurate financial calculations, tax computations, and economic analysis.
- GS4.** Ethical decision-making skills to navigate business laws and uphold ethical standards in commerce and accounting practices.

MEP/N0404: Sales Management

Description

This unit describes about different aspects of sales management

Scope

The scope covers the following :

- Introduction to Sales Management
- Sales Planning and Forecasting
- Sales Organisation and Structure
- Sales Techniques and Strategies
- Key Account Management (KAM)

Elements and Performance Criteria

Introduction to Sales Management

To be competent, the user/individual on the job must be able to:

- PC1.** Define sales management and its importance in business.
- PC2.** Explain the role of sales management in achieving organizational goals.
- PC3.** Understand the functions of sales management.
- PC4.** Identify the key elements of the sales management process.
- PC5.** Describe the relationship between sales management and other business functions.
- PC6.** Recognize the significance of effective sales management for business success.
- PC7.** Discuss the challenges faced by sales managers in today's business environment.
- PC8.** Explain the concept of sales strategies and their alignment with organisational objectives.
- PC9.** Identify the various stakeholders involved in the sales management process.
- PC10.** Understand the ethical considerations in sales management practices.

Sales Planning and Forecasting

To be competent, the user/individual on the job must be able to:

- PC11.** Define sales planning and its importance in sales management.
- PC12.** Explain the steps involved in the sales planning process.
- PC13.** Identify the factors affecting sales forecasting.
- PC14.** Describe different methods and techniques used for sales forecasting.
- PC15.** Understand the role of market research in sales planning and forecasting.
- PC16.** Analyse the importance of setting sales objectives and targets.
- PC17.** Explain the concept of sales budgeting and its relationship with sales planning.
- PC18.** Identify the tools and software used for sales planning and forecasting.
- PC19.** Discuss the importance of aligning sales plans with overall business strategies.
- PC20.** Evaluate the effectiveness of sales planning and forecasting techniques in achieving sales goals.

Qualification Pack

Sales Organisation and Structure

To be competent, the user/individual on the job must be able to:

- PC21.** Define sales organisation and its significance in sales management.
- PC22.** Explain the types of sales organisation structures.
- PC23.** Identify the factors influencing the choice of sales organisation structure.
- PC24.** Describe the roles and responsibilities of sales personnel.
- PC25.** Understand the concept of territory management in sales organisation.
- PC26.** Discuss the advantages and disadvantages of different sales organisation structures.
- PC27.** Explain the process of sales force recruitment, selection, and training.
- PC28.** Identify the key performance indicators (KPIs) used to evaluate sales personnel.
- PC29.** Analyse the importance of motivation and incentives in sales organisation.
- PC30.** Discuss the role of technology in enhancing sales organisation efficiency.

Sales Techniques and Strategies

To be competent, the user/individual on the job must be able to:

- PC31.** Define sales techniques and strategies and their importance in sales management.
- PC32.** Explain the difference between sales techniques and sales strategies.
- PC33.** Identify different types of sales techniques, such as consultative selling, solution selling, etc.
- PC34.** Describe the steps involved in the sales process.
- PC35.** Understand the importance of customer relationship management (CRM) in sales techniques.
- PC36.** Discuss the concept of value proposition and its role in sales strategies.
- PC37.** Explain the importance of effective communication skills in sales techniques.
- PC38.** Identify common objections in sales and techniques to overcome them.
- PC39.** Discuss the role of negotiation skills in sales strategies.
- PC40.** Analyse successful sales strategies used by companies in different industries.

Key Account Management (KAM)

To be competent, the user/individual on the job must be able to:

- PC41.** Define Key Account Management (KAM) and its importance in sales management.
- PC42.** Explain the difference between key accounts and regular accounts.
- PC43.** Identify the characteristics of key accounts.
- PC44.** Understand the benefits of implementing a Key Account Management strategy.
- PC45.** Describe the key principles of successful Key Account Management.
- PC46.** Discuss the role of relationship-building in Key Account Management.
- PC47.** Explain the process of identifying and prioritizing key accounts.
- PC48.** Identify strategies for effectively managing key account relationships.
- PC49.** Discuss the importance of cross-functional collaboration in Key Account Management.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Understanding the fundamental concepts of sales management, including its objectives, functions, and the role of sales in achieving business goals.
- KU2.** Knowledge of sales planning and forecasting techniques, including the importance of sales targets, market analysis, and demand forecasting to set realistic sales goals.
- KU3.** Familiarity with the structure of a sales organization, including roles, responsibilities, and the importance of designing an efficient sales team structure.
- KU4.** Comprehension of various sales techniques and strategies, such as relationship selling, consultative selling, and negotiation skills, to close deals effectively.
- KU5.** Knowledge of Key Account Management (KAM) principles, including how to build and maintain long-term relationships with high-value clients and ensure their satisfaction.
- KU6.** Awareness of the impact of digital tools and CRM (Customer Relationship Management) systems on modern sales management and customer retention.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Analytical skills to evaluate sales data, market trends, and customer behaviors, enabling informed sales forecasting and planning decisions.
- GS2.** Communication and interpersonal skills for effectively managing customer relationships, negotiating deals, and collaborating with the sales team.
- GS3.** Strategic thinking to develop tailored sales strategies that align with organizational goals and customer needs.
- GS4.** Leadership and team management skills to lead a sales team effectively, ensuring alignment with sales objectives and driving performance.

MEP/N0405: Consumer Behaviour

Description

The unit details behaviour of consumers, their motivations, perceptions, attitudes and how these impacts the decisions consumers make. This unit also discusses consumer rights.

Scope

The scope covers the following :

- Introduction to Consumer Behaviour
- Consumer Motivation and Personality
- Consumer Perception and Learning
- Consumer Attitudes and Decision Making
- Post-purchase Process and Dissonance
- Consumer Rights and Protection

Elements and Performance Criteria

Introduction to Consumer Behaviour

To be competent, the user/individual on the job must be able to:

- PC1.** Define consumer behaviour and its significance in marketing
- PC2.** Explain the factors that influence consumer behaviour
- PC3.** Identify the stages of the consumer decision-making process
- PC4.** Understand the difference between individual and group influences on consumer behaviour
- PC5.** Describe the role of demographics, psychographics, and socio-economic factors in consumer behaviour
- PC6.** Recognize the importance of understanding consumer needs and wants
- PC7.** Discuss the impact of culture, subculture, and social class on consumer behaviour
- PC8.** Identify the various sources of information used by consumers in decision-making
- PC9.** Explain the concept of consumer perception and its role in shaping buying decisions
- PC10.** Discuss the ethical considerations in studying and influencing consumer behaviour

Consumer Motivation and Personality

To be competent, the user/individual on the job must be able to:

- PC11.** Define consumer motivation and its importance in understanding consumer behaviour
- PC12.** Explain the theories of consumer motivation, including Maslow's hierarchy of needs and Freudian theory
- PC13.** Identify the different types of consumer needs and motives
- PC14.** Understand the role of emotions and feelings in consumer decision-making
- PC15.** Describe the concept of personality and its influence on consumer behaviour
- PC16.** Discuss the relationship between self-concept and consumer behaviour
- PC17.** Identify the various personality traits and how they affect consumer preferences
- PC18.** Analyse the impact of consumer perception of risk on purchase decisions

Qualification Pack

PC19. Explain the concept of brand personality and its role in consumer loyalty

PC20. Discuss the implications of consumer motivation and personality for marketing strategies

Consumer Perception and Learning

To be competent, the user/individual on the job must be able to:

PC21. Define consumer perception and learning and their significance in consumer behaviour

PC22. Explain the process of perception and the factors that influence it

PC23. Identify the principles of perceptual organisation, including figure-ground, closure, and grouping

PC24. Understand the concept of selective attention and its implications for marketing

PC25. Describe the role of sensation and sensory marketing in influencing consumer perception

PC26. Discuss the concept of cognitive learning and its relevance to consumer behaviour

PC27. Identify the different types of learning theories, such as classical conditioning and operant conditioning

PC28. Explain the process of consumer memory and its impact on brand recall and recognition

PC29. Discuss the role of advertising and branding in consumer learning

PC30. Analyse the ethical considerations in influencing consumer perception and learning

Consumer Attitudes and Decision Making

To be competent, the user/individual on the job must be able to:

PC31. Define consumer attitudes and their importance in consumer behaviour

PC32. Explain the components of attitudes, including cognitive, affective, and behavioural components

PC33. Identify the factors that influence the formation and change of consumer attitudes

PC34. Understand the concept of attitude-behaviour consistency and its implications for marketing

PC35. Describe the role of consumer involvement in decision-making

PC36. Discuss the different types of consumer decision-making processes, such as routine, limited, and extensive decision-making

PC37. Identify the various decision-making heuristics and biases that influence consumer choices

PC38. Explain the concept of post-purchase dissonance and its impact on consumer satisfaction

PC39. Discuss the role of word-of-mouth and social influence in consumer decision-making

PC40. Analyse the ethical considerations in influencing consumer attitudes and decision-making

Post-purchase Process and Dissonance

To be competent, the user/individual on the job must be able to:

PC41. Define the post-purchase process and its significance in consumer behaviour

PC42. Explain the concept of post-purchase dissonance and its impact on consumer satisfaction

PC43. Identify factors that contribute to post-purchase dissonance, such as expectations vs. perceived performance

PC44. Understand the role of post-purchase communication and customer feedback in managing dissonance

PC45. Describe strategies for reducing post-purchase dissonance, including effective after-sales service and warranties

PC46. Discuss the importance of customer loyalty and repeat purchases in mitigating post-purchase dissonance

Qualification Pack

- PC47.** Analyse case studies or examples of successful post-purchase management strategies in different industries
- PC48.** Identify the implications of post-purchase dissonance for marketing and customer relationship management
- PC49.** Explain the concept of customer lifetime value and its relationship with post-purchase satisfaction
- PC50.** Evaluate the ethical considerations in managing post-purchase dissonance and customer satisfaction

Consumer Rights & Protection

To be competent, the user/individual on the job must be able to:

- PC51.** Define consumer rights and their significance in consumer protection, with a specific focus on Indian consumer laws
- PC52.** Identify the fundamental consumer rights enshrined in the Consumer Protection Act, 2019, including the right to safety, information, choice, and redressal
- PC53.** Understand the role of Indian consumer protection laws and regulations, such as the Consumer Protection Act, 2019, and the Consumer Protection (E-Commerce) Rules, 2020, in safeguarding consumer rights
- PC54.** Explain the concept of consumer advocacy in the Indian context and its role in promoting consumer welfare and rights awareness
- PC55.** Describe the responsibilities of businesses under Indian consumer laws to ensure consumer rights protection, including fair trade practices, product safety standards, and transparent pricing policies
- PC56.** Discuss the consequences of non-compliance with Indian consumer protection laws on businesses, including penalties and legal liabilities
- PC57.** Identify the various mechanisms available to Indian consumers for redressal of grievances, such as consumer courts, consumer helplines, and online dispute resolution platforms
- PC58.** Analyse case studies or examples of consumer rights violations in India and the legal recourse available to affected consumers
- PC59.** Discuss the importance of consumer education and awareness programs in India for empowering consumers to assert their rights effectively
- PC60.** Evaluate the ethical considerations in marketing practices and consumer protection initiatives in the Indian business context, aligning with legal requirements and societal expectations

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behavior and purchasing decisions

Qualification Pack

- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients

Qualification Pack

- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
