Qualification Pack

MEP/N0415: Digital Marketing Planning and Display Advertising

Description

This unit details planning for digital marketing, market research, tools for display advertising platforms, analysing advertising performance and future trends.

Scope

The scope covers the following :

- Introduction to Digital Marketing Planning
- Market Research and Analysis
- Digital Marketing Channels
- Display Advertising Fundamentals
- Display Advertising Campaign Planning
- Display Advertising Platforms and Tools
- Measuring and Analysing Display Advertising Performance
- Future Trends in Display Advertising and Digital Marketing

Elements and Performance Criteria

Introduction to Digital Marketing Planning

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the key steps involved in the digital marketing planning process
- PC2.** Explain the significance of strategic planning in achieving digital marketing objectives
- PC3.** Describe the importance of understanding the target audience and market segmentation in digital marketing
- PC4.** Develop SMART (Specific, Measurable, Achievable, Relevant, and Time-bound) objectives for a digital marketing campaign based on a given scenario
- PC5.** Apply digital marketing planning concepts to real-world case studies
- PC6.** Analyse the effectiveness of different digital marketing strategies in achieving business goals
- PC7.** Discuss the strengths and weaknesses of various digital marketing planning approaches
- PC8.** Design a digital marketing plan for a specific product or service, incorporating elements of strategic planning

Market Research and Analysis

To be competent, the user/individual on the job must be able to:

- PC9.** Explain various methods and techniques used in market research for digital marketing
- PC10.** Explain the importance of competitor analysis in shaping digital marketing plan
- PC11.** Describe the role of market analysis tools such as SWOT (Strength, Weakness, Opportunity and Threat) and PESTEL (Political, Economic, Social, Technological, Environmental, and Legal) in digital marketing planning
- PC12.** Conduct market research using online tools and databases to gather relevant data
- PC13.** Apply competitor analysis frameworks to assess the competitive landscape in a given market
- PC14.** Analyse market trends and consumer behaviour patterns to identify opportunities

Qualification Pack

PC15. Evaluate the reliability and validity of market research findings for decision-making

PC16. Develop a comprehensive market analysis report for a digital marketing campaign, including insights and recommendations

Digital Marketing Channels

To be competent, the user/individual on the job must be able to:

PC17. State the names and characteristics of different digital marketing channels (e.g., SEO, social media, email)

PC18. Explain the unique features and advantages of each digital marketing channel

PC19. Describe how target audience characteristics influence channel selection

PC20. Select appropriate digital marketing channels based on campaign objectives and target audience demographics

PC21. Create a digital marketing channel strategy that integrates multiple channels for maximum impact

PC22. Analyse case studies to understand how successful brands utilise different digital marketing channels

PC23. Evaluate the effectiveness of different digital marketing channels in reaching specific target audiences

PC24. Design a digital marketing channel mix for a new product launch, considering budget constraints and audience preferences

PC25. Develop creative content strategies tailored to each digital marketing channel

Display Advertising Fundamentals

To be competent, the user/individual on the job must be able to:

PC26. Identify the different types and formats of display advertising (e.g., banners, pop-ups, etc.)

PC27. Explain the purpose and objectives of display advertising in digital marketing campaigns

PC28. Describe key metrics used to measure the performance of display ads (e.g., CTR, CPC, CPM)

PC29. Create compelling display ad copy and visuals to engage target audiences

PC30. Develop a display advertising strategy that aligns with campaign objectives and target audience preferences

PC31. Analyse the effectiveness of different types of display ads in achieving campaign goals

PC32. Evaluate the ethical considerations involved in display advertising, such as privacy concerns and ad relevance

PC33. Design a series of display ads for a retargeting campaign, tailored to different segments of the target audience

PC34. Develop a storyboard for an interactive display ad campaign that utilises rich media and interactivity

Display Advertising Campaign Planning

To be competent, the user/individual on the job must be able to:

PC35. Identify the key components of a display advertising campaign plan (e.g., objectives, targeting, budget)

PC36. Explain the importance of targeting options for reaching the right audience

PC37. Describe different budgeting and bidding strategies

PC38. Develop a display advertising campaign plan for a specific product or service

Qualification Pack

- PC39.** Implement targeting options such as demographics, interests, and behaviours to optimize ad reach and relevance
- PC40.** Analyse the potential impact of different budgeting and bidding strategies on campaign performance
- PC41.** Evaluate the feasibility of campaign objectives based on available resources and market conditions
- PC42.** Design a creative brief for a display advertising campaign, outlining creative requirements and messaging guidelines
- PC43.** Develop a media plan that outlines the distribution strategy for display ads across various platforms and placements

Display Advertising Platforms and Tools

To be competent, the user/individual on the job must be able to:

- PC44.** Recall the names and features of popular display advertising platforms (e.g., Google Display Network, Facebook Ads)
- PC45.** Explain the role of ad management tools in optimizing display advertising campaigns
- PC46.** Describe the process of setting up and managing campaigns on different platforms
- PC47.** Set up and configure a campaign on a chosen platform, including targeting criteria and budget settings
- PC48.** Utilise ad management tools to monitor campaign performance
- PC49.** Analyse campaign data and performance metrics to identify trends and insights for optimization
- PC50.** Evaluate the effectiveness of different display advertising platforms in reaching target audiences and achieving campaign objectives
- PC51.** Develop a custom audience targeting strategy for a campaign, leveraging platform-specific targeting options
- PC52.** Design custom ad creatives tailored to specific platforms and audience segments

Measuring and Analysing Display Advertising Performance

To be competent, the user/individual on the job must be able to:

- PC53.** Recall the key performance indicators (KPIs) used to measure display advertising performance
- PC54.** Explain how analytics tools track and measure display ad performance
- PC55.** Describe the process of setting up conversion tracking for display advertising campaigns
- PC56.** Use analytics tools to track and measure display ad performance, including campaign metrics and KPIs
- PC57.** Interpret campaign data and performance metrics to identify strengths, weaknesses, and areas for improvement
- PC58.** Analyse the impact of different variables (e.g., ad creative, targeting, placement) on campaign performance
- PC59.** Evaluate the ROI and effectiveness of a campaign based on performance metrics and business objectives
- PC60.** Generate custom reports and dashboards to visualize display advertising performance data and communicate insights
- PC61.** Develop an optimisation plan outlining specific actions and strategies for improving display ad performance based on data analysis

Qualification Pack

Future Trends in Display Advertising and Digital Marketing

To be competent, the user/individual on the job must be able to:

- PC62.** State the emerging technologies and trends in display advertising and digital marketing
- PC63.** Describe the implications of future trends for digital marketing planning and execution
- PC64.** Apply foresight techniques such as scenario planning to anticipate and prepare for future developments in digital marketing
- PC65.** Analyse case studies and examples of brands that have successfully adapted to emerging trends in digital marketing
- PC66.** Evaluate the risks and challenges associated with adopting new technologies and trends in digital marketing
- PC67.** Develop a strategic roadmap for integrating emerging trends into digital marketing plans and campaigns
- PC68.** Generate creative ideas and concepts for leveraging new technologies and trends in digital marketing initiatives

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data

Qualification Pack

- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0416: E-commerce Marketing

Description

This unit details e-commerce marketing, related consumer behaviour, content marketing, email marketing, social media marketing, mobile marketing, advertising and Customer Relationship Management.

Scope

The scope covers the following :

- Introduction to E-commerce Marketing
- E-commerce Consumer Behaviour
- E-commerce Website Optimization
- E-commerce Content Marketing
- E-commerce Email Marketing
- E-commerce Social Media Marketing
- E-commerce Advertising Strategies
- E-commerce Analytics and Performance Measurement
- E-commerce Customer Relationship Management (CRM)
- E-commerce Mobile Marketing

Elements and Performance Criteria

Introduction to E-commerce Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** State the key characteristics of e-commerce and its importance in modern business
- PC2.** Explain the role of e-commerce marketing in driving sales and revenue for online businesses
- PC3.** Describe the unique challenges faced by e-commerce marketers compared to traditional marketers
- PC4.** Apply fundamental concepts of e-commerce marketing to analyse case studies or real-world examples
- PC5.** Analyse the impact of e-commerce marketing on consumer behaviour and purchasing patterns
- PC6.** Evaluate the effectiveness of different e-commerce marketing strategies in achieving business objectives
- PC7.** Develop a basic e-commerce marketing plan outlining objectives, target audience, and strategies
- PC8.** Design a conceptual framework for measuring the success of e-commerce marketing campaigns
- PC9.** Develop a presentation or report discussing the evolution and future trends of e-commerce marketing
- PC10.** Critically assess the ethical implications of certain e-commerce marketing practices

E-commerce Consumer Behaviour

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC11.** Recall the factors that influence online purchasing decisions
- PC12.** Explain the stages of the e-commerce sales funnel and their significance
- PC13.** Describe how consumer behaviour differs in the e-commerce environment compared to traditional retail
- PC14.** Apply principles of e-commerce consumer behaviour while selling product/ service on e-commerce sites
- PC15.** Analyse data related to e-commerce consumer behaviour to identify trends and patterns
- PC16.** Evaluate the effectiveness of different e-commerce marketing strategies based on consumer behaviour insights
- PC17.** Design a customer journey map illustrating the stages and touchpoints of the e-commerce buying process
- PC18.** Develop personalized marketing strategies based on understanding of individual consumer behaviour
- PC19.** Critically assess the impact of external factors (e.g., economic conditions, cultural trends) on e-commerce consumer behaviour

E-commerce Website Optimization

To be competent, the user/individual on the job must be able to:

- PC20.** Recall best practices for optimizing e-commerce websites for search engines
- PC21.** Explain the importance of website design and usability in e-commerce marketing
- PC22.** Describe the principles of conversion rate optimization (CRO) and its role in e-commerce
- PC23.** Apply SEO techniques to improve the visibility and ranking of an e-commerce website
- PC24.** Implement CRO strategies to enhance the user experience and increase conversions on an e-commerce website
- PC25.** Analyse the performance of an e-commerce website using web analytics tools
- PC26.** Evaluate the effectiveness of different website design elements in driving e-commerce sales
- PC27.** Design a comprehensive website optimization plan for an e-commerce business
- PC28.** Critically assess the accessibility and usability of an e-commerce website from a customer perspective

E-commerce Content Marketing

To be competent, the user/individual on the job must be able to:

- PC29.** Discuss the purpose and goals of content marketing in the e-commerce context
- PC30.** Explain how content marketing can influence purchasing decisions in e-commerce
- PC31.** Describe different types of content used in e-commerce marketing (e.g., product descriptions, blog posts, videos)
- PC32.** Apply principles of storytelling and persuasion to create compelling e-commerce content
- PC33.** Develop a content marketing strategy tailored to the target audience and brand identity
- PC34.** Analyse the performance of e-commerce content marketing campaigns using metrics such as engagement and conversion rates
- PC35.** Evaluate the effectiveness of different content formats in achieving e-commerce marketing objectives
- PC36.** Develop a content calendar outlining topics, formats, and publishing schedules for e-commerce content

Qualification Pack

PC37. Design engaging visual content (e.g., images, infographics) for use in e-commerce marketing campaigns

PC38. Critically assess the alignment of e-commerce content marketing strategies with overall brand messaging and values

E-commerce Email Marketing

To be competent, the user/individual on the job must be able to:

PC39. Recall the key components of an effective email marketing campaign in the e-commerce context

PC40. Explain the role of email marketing in customer acquisition, retention, and re-engagement for e-commerce businesses

PC41. Describe different types of email campaigns used in e-commerce marketing (e.g., promotional, transactional, lifecycle)

PC42. Apply segmentation techniques to personalize email campaigns for different segments of the e-commerce audience

PC43. Design and create compelling email content and visuals that drive engagement and conversions

PC44. Analyse email marketing metrics such as open rates, click-through rates, and conversion rates to assess campaign performance

PC45. Evaluate the effectiveness of different email marketing tactics and strategies in achieving e-commerce business goals

PC46. Develop automated email sequences (e.g., welcome series, abandoned cart emails) to nurture leads and increase sales

PC47. Design A/B tests to optimize email subject lines, content, and calls-to-action for improved performance

PC48. Critically assess the compliance of email marketing campaigns with relevant regulations and best practices (e.g., GDPR, CAN-SPAM Act)

E-commerce Social Media Marketing

To be competent, the user/individual on the job must be able to:

PC49. Recall the importance of social media marketing in driving brand awareness and engagement for e-commerce businesses

PC50. Explain how different social media platforms can be leveraged for e-commerce marketing purposes

PC51. Describe the characteristics and preferences of the target audience on various social media platforms

PC52. Apply social media listening techniques to monitor conversations and sentiment related to the brand and industry

PC53. Create engaging social media content (e.g., posts, stories, videos) that resonates with the e-commerce audience and encourages interaction

PC54. Analyse social media metrics (e.g., reach, engagement, conversions) to evaluate the performance of social media marketing campaigns

PC55. Evaluate the effectiveness of different social media advertising tactics (e.g., sponsored posts, influencer partnerships) in driving e-commerce sales

PC56. Develop a social media content calendar outlining content themes, posting schedules, and engagement strategies

Qualification Pack

- PC57.** Design social media ad campaigns targeting specific audience segments with tailored messaging and creative
- PC58.** Critically assess the brand's social media presence and reputation, and develop strategies for managing and improving brand perception

E-commerce Advertising Strategies

To be competent, the user/individual on the job must be able to:

- PC59.** Recall the different types of paid advertising options available for e-commerce businesses (e.g., PPC, display ads, shopping ads)
- PC60.** Explain the role of paid advertising in driving traffic, conversions, and revenue for e-commerce websites
- PC61.** Describe the process of setting up and managing paid advertising campaigns on different platforms (e.g., Google Ads, Facebook Ads)
- PC62.** Apply targeting techniques to reach specific audience segments with relevant ads and offers
- PC63.** Design and create compelling ad creatives (e.g., text, images, videos) that capture attention and drive clicks
- PC64.** Analyse advertising metrics (e.g., ad impressions, clicks, conversions, ROI) to measure the effectiveness of paid campaigns
- PC65.** Evaluate the performance of different advertising channels and platforms to determine the best allocation of advertising budget
- PC66.** Develop retargeting and remarketing campaigns to re-engage website visitors and encourage repeat purchases
- PC67.** Design A/B tests to optimize ad copy, visuals, and targeting parameters for improved ad performance
- PC68.** Critically assess the ethical considerations of advertising practices in e-commerce, such as data privacy and transparency

E-commerce Analytics and Performance Measurement

To be competent, the user/individual on the job must be able to:

- PC69.** Recall the importance of analytics in measuring and optimizing e-commerce marketing performance
- PC70.** Explain the role of key performance indicators (KPIs) in tracking and evaluating e-commerce marketing success
- PC71.** Describe different web analytics tools and metrics used to measure e-commerce website performance
- PC72.** Apply data analysis techniques to interpret e-commerce marketing data and identify actionable insights
- PC73.** Set up tracking and reporting systems to monitor KPIs and measure the impact of marketing efforts
- PC74.** Analyse customer data and behaviour to identify trends, patterns, and areas for improvement in e-commerce marketing strategies
- PC75.** Evaluate the ROI and cost-effectiveness of different marketing channels and campaigns
- PC76.** Develop customized dashboards and reports to visualize and communicate e-commerce marketing performance data
- PC77.** Design experiments and tests to validate hypotheses and optimize e-commerce marketing tactics

Qualification Pack

PC78. Critically assess the reliability and accuracy of data sources and analytics methods used in e-commerce marketing measurement

E-commerce Customer Relationship

To be competent, the user/individual on the job must be able to:

PC79. Explain the role of CRM systems in managing and nurturing customer relationships throughout the e-commerce lifecycle

Management (CRM)

To be competent, the user/individual on the job must be able to:

PC80. Apply CRM principles to segment customers based on behaviour, preferences, and purchase history

PC81. Analyse CRM data to identify high-value customers, predict future purchasing behaviour, and tailor marketing efforts accordingly

PC82. Develop customer retention strategies, loyalty programs, and referral programs to incentivize repeat purchases and customer advocacy

PC83. Design CRM workflows and automation rules to streamline customer communication and follow-up processes

PC84. Critically assess the ethical considerations of CRM practices in e-commerce, such as data privacy, consent, and transparency

E-commerce Mobile Marketing

To be competent, the user/individual on the job must be able to:

PC85. Describe different mobile marketing tactics and channels (e.g., mobile apps, SMS marketing, push notifications) used by e-commerce businesses

PC86. Apply responsive design principles to create mobile-friendly e-commerce websites and landing pages

PC87. Implement mobile-specific marketing campaigns and promotions to target users on smartphones and tablets

PC88. Analyse mobile analytics data to understand user behaviour, preferences, and conversion patterns on mobile devices

PC89. Evaluate the performance of mobile marketing in driving traffic, engagement, and conversions for e-commerce businesses

PC90. Develop mobile app marketing strategies to acquire and retain users, increase app downloads, and drive in-app purchases

PC91. Design SMS marketing campaigns and push notification strategies that deliver timely and relevant messages to mobile users

PC92. Critically assess the user experience and usability of e-commerce mobile interfaces, and optimize designs for seamless navigation and checkout on smaller screens

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Principles and concepts of marketing management and their application in digital and traditional marketing

KU2. Digital marketing channels, including SEO, SEM, social media, email, and content marketing

Qualification Pack

- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

Qualification Pack

MEP/N0418: Introduction to Affiliate Marketing

Description

This unit covers affiliate marketing, promotion techniques, and analytics,

Scope

The scope covers the following :

- Introduction to Affiliate Marketing
- Affiliate Marketing Models and Strategies
- Getting Started with Affiliate Marketing
- Content Creation for Affiliate Marketing
- Affiliate Marketing Promotion Techniques
- Tracking and Analytics in Affiliate Marketing

Elements and Performance Criteria

Introduction to Affiliate Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** Define affiliate marketing and its core components
- PC2.** Demonstrate an understanding of key terminologies in affiliate marketing, including commission structures, tracking methods, and payment cycles
- PC3.** Analyse the roles and responsibilities of merchants, affiliates, and customers in the affiliate marketing ecosystem
- PC4.** Evaluate the benefits and limitations of affiliate marketing for businesses and affiliates
- PC5.** Differentiate between various affiliate marketing models and their respective advantages and disadvantages
- PC6.** Identify the ethical and legal considerations associated with affiliate marketing practices, such as disclosure requirements and compliance standards
- PC7.** Analyse case studies and examples to illustrate successful affiliate marketing strategies and campaigns
- PC8.** Discuss the impact of affiliate marketing on consumer behaviour and purchasing decisions
- PC9.** Evaluate the role of affiliate marketing in the broader digital marketing landscape and its significance in driving online revenue

Affiliate Marketing Models and Strategies

To be competent, the user/individual on the job must be able to:

- PC10.** Explain different affiliate marketing models, such as pay-per-sale, pay-per-lead, and pay-per-click
- PC11.** Evaluate the suitability of each affiliate marketing model for different business goals and niches
- PC12.** Identify factors to consider when selecting affiliate marketing products and niches
- PC13.** Explore different affiliate marketing platforms and networks to find suitable opportunities

Qualification Pack

- PC14.** Explore basic affiliate marketing strategies, such as direct linking, landing pages, and banner ads
- PC15.** Implement basic search engine optimization (SEO) techniques to improve visibility and performance of affiliate marketing content
- PC16.** Conduct A/B testing and optimization to improve conversion rates and campaign performance
- PC17.** Develop long-term affiliate marketing strategies for sustainable growth and success
- PC18.** Identify opportunities for diversification and expansion within the affiliate marketing industry

Getting Started with Affiliate Marketing

To be competent, the user/individual on the job must be able to:

- PC19.** Develop a step-by-step plan for setting up an affiliate marketing business, including niche selection, platform registration, and content creation
- PC20.** Demonstrate proficiency in registering with affiliate programs and networks, adhering to guidelines and best practices
- PC21.** Utilise market research and audience analysis to identify profitable niches and products for affiliate marketing
- PC22.** Establish credibility and trust with audiences through transparent and authentic affiliate marketing practices, including disclosure requirements
- PC23.** Identify potential legal and ethical considerations in affiliate marketing operations and develop strategies for compliance
- PC24.** Develop a cohesive affiliate marketing strategy aligned with business objectives, target audiences, and available resources
- PC25.** Evaluate the feasibility and potential ROI of affiliate marketing initiatives through cost-benefit analysis and risk assessment

Content Creation for Affiliate Marketing

To be competent, the user/individual on the job must be able to:

- PC26.** Develop diverse content creation strategies tailored to different affiliate marketing channels and platforms
- PC27.** Implement best practices for creating high-quality, engaging, and relevant content that resonates with target audiences
- PC28.** Utilise storytelling techniques to craft compelling narratives that drive interest and engagement with affiliate products and services
- PC29.** Optimize affiliate marketing content for SEO to improve search engine visibility and organic traffic
- PC30.** Implement effective call-to-action (CTA) strategies to encourage user engagement and conversion
- PC31.** Utilise multimedia content formats, including videos, infographics, and interactive content, to enhance the user experience and drive conversions
- PC32.** Conduct A/B testing of different content variations to identify the most effective messaging, visuals, and CTAs
- PC33.** Leverage user-generated content and customer testimonials to build social proof and credibility for affiliate products and services
- PC34.** Develop content calendars and schedules to ensure consistent and timely delivery of affiliate marketing content

Qualification Pack

- PC35.** Monitor content performance metrics, such as engagement rates, click-through rates, and conversion rates, to measure effectiveness and inform optimization efforts
- PC36.** Implement content repurposing strategies to maximize the reach and impact of affiliate marketing content across multiple channels and platforms
- PC37.** Ensure compliance with legal and ethical guidelines, including FTC disclosure requirements, when creating and promoting affiliate marketing content

Affiliate Marketing Promotion Techniques

To be competent, the user/individual on the job must be able to:

- PC38.** Develop a comprehensive understanding of different promotion techniques commonly used in affiliate marketing
- PC39.** Implement social media marketing strategies to promote affiliate products and services effectively on popular platforms such as Facebook, Instagram, Twitter, and LinkedIn
- PC40.** Leverage influencer marketing partnerships to amplify the reach and visibility of affiliate marketing campaigns
- PC41.** Develop email marketing campaigns to nurture leads, build relationships, and drive conversions for affiliate products and services
- PC42.** Implement search engine marketing (SEM) strategies, including pay-per-click (PPC) advertising, to drive targeted traffic to affiliate offers
- PC43.** Utilise content marketing strategies to create valuable, informative content that educates and persuades audiences to engage with affiliate products and services
- PC44.** Explore alternative promotion channels, such as podcast sponsorships, guest blogging, and affiliate directories, to diversify affiliate marketing reach
- PC45.** Implement retargeting and remarketing strategies to re-engage users who have previously interacted with affiliate content or offers
- PC46.** Develop strategic partnerships with complementary brands and businesses to cross-promote affiliate offers and expand audience reach
- PC47.** Monitor key performance indicators (KPIs) such as click-through rates, conversion rates, and return on ad spend (ROAS) to measure the effectiveness of affiliate marketing promotion techniques

Tracking and Analytics in Affiliate Marketing

To be competent, the user/individual on the job must be able to:

- PC48.** Understand the importance of tracking and analytics in affiliate marketing for measuring performance and ROI
- PC49.** Implement tracking tools and technologies, such as cookies and tracking links, to monitor affiliate marketing activities
- PC50.** Analyse affiliate marketing performance metrics, including clicks, conversions, and earnings
- PC51.** Use analytics data to identify trends, patterns, and areas for improvement in affiliate marketing campaigns
- PC52.** Develop reports and dashboards to communicate affiliate marketing performance to stakeholders effectively

Managing Relationships in Affiliate Marketing

To be competent, the user/individual on the job must be able to:

- PC53.** Build strong relationships with affiliate partners through effective communication and support

Qualification Pack

- PC54.** Negotiate commission rates and terms with affiliate partners to maximize earnings and ROI
- PC55.** Handle disputes and issues, such as refunds and chargebacks, professionally and efficiently
- PC56.** Scale and grow an affiliate marketing business by recruiting and managing affiliates effectively
- PC57.** Develop strategies for maintaining positive relationships with merchants and affiliates for long-term success

Compliance and Legal Aspects of Affiliate Marketing

To be competent, the user/individual on the job must be able to:

- PC58.** Understand regulatory requirements and compliance standards in affiliate marketing, including FTC guidelines and GDPR
- PC59.** Implement disclosure and transparency practices to comply with FTC guidelines and build trust with audiences
- PC60.** Ensure data protection and GDPR compliance when collecting and processing personal information in affiliate marketing
- PC61.** Mitigate legal risks and liabilities associated with affiliate marketing operations, such as copyright infringement and fraud
- PC62.** Develop policies and procedures to ensure ongoing compliance with regulatory requirements and legal standards

Future Trends and Opportunities in Affiliate Marketing

To be competent, the user/individual on the job must be able to:

- PC63.** Analyse emerging trends and innovations in the affiliate marketing industry, such as automation and AI
- PC64.** Predict future developments and opportunities for affiliate marketers in response to changing consumer behaviour and market dynamics
- PC65.** Identify potential challenges and risks associated with future trends in affiliate marketing
- PC66.** Adapt affiliate marketing strategies and tactics to capitalize on emerging opportunities and overcome challenges
- PC67.** Develop a forward-looking mindset and proactive approach to staying ahead of the curve in affiliate marketing

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity

Qualification Pack

- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely

Qualification Pack

- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0420: Introduction to Generative Artificial Intelligence (AI)

Description

this unit details AI driven content creation.

Scope

The scope covers the following :

- Basics of Personalisation and Prompt Engineering
- AI driven Content Creation

Elements and Performance Criteria

Basics of Personalisation and Prompt Engineering

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the principles of personalisation in marketing and its significance in enhancing customer engagement and satisfaction
- PC2.** Explain the role of generative AI in enabling personalised marketing strategies and campaigns
- PC3.** Explore real-world applications of AI in digital marketing through case studies and industry campaigns
- PC4.** Apply prompt engineering techniques to generate targeted and personalised marketing content tailored to specific audience segments
- PC5.** Evaluate the effectiveness of different prompt engineering techniques in generating desired marketing outcomes
- PC6.** Optimize prompts using iterative testing and refinement to improve performance and relevance
- PC7.** Identify key challenges and limitations associated with the use of generative AI in marketing, such as data privacy concerns and algorithmic biases
- PC8.** Critically analyse the potential impact of generative AI on the digital marketing industry, including its implications for consumer behaviour, market dynamics, and competitive landscape
- PC9.** Discuss ethical considerations and best practices for the responsible use of generative AI in marketing to ensure transparency, fairness, and compliance with regulations
- PC10.** Anticipate future developments and trends in generative AI and their potential implications for marketing strategies and practices

AI driven Content Creation

To be competent, the user/individual on the job must be able to:

- PC11.** Understand the role of AI in content creation and its impact on digital marketing strategies, utilizing tools like OpenAI's GPT-3 and Canva
- PC12.** Generate creative ideas using AI-powered tools like Artbreeder and Deep Dream Generator for image design
- PC13.** Create text-based content for digital marketing channels with AI tools like OpenAI's GPT-3.5

Qualification Pack

- PC14.** Utilise AI-powered audio generation tools like Descript and Lyrebird for audio marketing
- PC15.** Create video content using AI-powered video editing tools such as Lumen5 and Biteable
- PC16.** Explore AI models for content generation, including tools like Talk to Transformer and Copy.ai
- PC17.** Analyse AI-generated content impact with tools like Google Analytics and Facebook Insights
- PC18.** Integrate AI-generated content into digital marketing strategies using platforms like Buffer and Hootsuite
- PC19.** Develop understanding of AI-powered content creation workflows using both free and paid tools
- PC20.** Stay updated on AI-driven content creation advancements through resources like AI newsletters
- PC21.** Collaborate effectively with AI developers and marketers using collaboration platforms like Trello and Slack
- PC22.** Identify opportunities for automation and optimization using tools like Zapier and IFTTT
- PC23.** Implement best practices for AI-generated content integration, following industry guidelines
- PC24.** Address ethical concerns related to AI-generated content following industry standards
- PC25.** Test and iterate AI-generated content using A/B testing tools like Google Optimize
- PC26.** Monitor content performance with analytics tools like Hotjar and Crazy Egg
- PC27.** Customize AI-generated content for personalization using CRM platforms like HubSpot
- PC28.** Develop scaling strategies for AI-driven content creation efforts using project management tools like Asana
- PC29.** Collaborate across teams to integrate AI-generated content using communication tools like Zoom
- PC30.** Educate stakeholders on AI-driven content creation benefits through presentations and workshops
- PC31.** Foster innovation within the organisation using ideation sessions and innovation labs
- PC32.** Stay updated on industry trends and emerging technologies through conferences and webinars
- PC33.** Continuously evaluate and refine AI-powered content creation strategies using agile methodologies
- PC34.** Adapt strategies to evolving consumer preferences and market trends using continuous improvement frameworks
- PC35.** Utilise industry standards and regulations to ensure ethical AI-driven content creation practices

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence

Qualification Pack

- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly

Qualification Pack

- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0421: Marketing Analytics

Description

This unit details data analytics techniques, data driven decisions and google analytics fundamentals.

Scope

The scope covers the following :

- Introduction to Marketing Analytics
- Understanding Data Sources for Marketing Analytics
- Basics of Data Collection and Management for Marketing Analytics
- Introduction to Data Analysis Techniques for Marketing Analytics
- Interpreting Marketing Analytics Insights and Making Data-driven Decisions
- Google Analytics Fundamentals

Elements and Performance Criteria

Introduction to Marketing Analytics

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the significance of marketing analytics in decision-making processes within organisations
- PC2.** Define key concepts and terminologies associated with marketing analytics, such as KPIs, metrics, and data analysis
- PC3.** Recognise the role of data collection, analysis, and interpretation in marketing analytics for driving business growth
- PC4.** Identify successful case studies and examples illustrating the implementation of marketing analytics strategies
- PC5.** Appreciate the importance of aligning marketing analytics efforts with overall business objectives and goals
- PC6.** Describe the impact of marketing analytics on improving return on investment (ROI) and optimizing marketing campaigns
- PC7.** Analyse the relationship between marketing analytics and consumer behaviour insights for targeted marketing efforts
- PC8.** Explore various tools and technologies available for marketing analytics and their functionalities
- PC9.** Discuss the challenges and limitations associated with implementing marketing analytics solutions in organisations
- PC10.** Formulate strategies for integrating marketing analytics into organisational workflows and decision-making processes

Understanding Data Sources for Marketing Analytics

To be competent, the user/individual on the job must be able to:

- PC11.** Differentiate between internal and external data sources utilised in marketing analytics

Qualification Pack

- PC12.** Evaluate the functionalities and features of customer data platforms (CDPs), customer relationship management (CRM) systems, and data management platforms (DMPs) for data integration
- PC13.** Utilise web analytics tools like Google Analytics for website tracking, analysis, and performance monitoring
- PC14.** Interpret social media analytics data to measure engagement, reach, and audience demographics across social media platforms
- PC15.** Assess the effectiveness of email marketing campaigns through email marketing analytics and campaign tracking tools
- PC16.** Identify additional data sources relevant to specific industries or marketing objectives for comprehensive data analysis
- PC17.** Discuss the importance of data quality and data integrity in marketing analytics and data governance practices
- PC18.** Explore methods for integrating data from multiple sources to create unified customer profiles for targeted marketing efforts
- PC19.** Implement strategies for data privacy compliance and adherence to regulatory requirements in data collection and management
- PC20.** Develop proficiency in leveraging diverse data sources for comprehensive marketing analytics insights and decision-making

Basics of Data Collection and Management for Marketing Analytics

To be competent, the user/individual on the job must be able to:

- PC21.** Implement various data collection methods, such as surveys, interviews, and observational data, for gathering marketing insights
- PC22.** Apply best practices for data collection, storage, and management to maintain data quality and ensure accuracy
- PC23.** Execute data cleaning and preprocessing techniques to prepare raw data for analysis and visualization
- PC24.** Assess the implications of data governance and compliance with data privacy regulations on marketing analytics practices
- PC25.** Utilise Google Analytics for data collection, tracking, and analysis on websites and digital marketing channels
- PC26.** Optimize data collection processes to capture relevant marketing metrics and KPIs aligned with business objectives
- PC27.** Interpret data collection requirements and limitations based on the specific needs and objectives of marketing analytics projects
- PC28.** Implement data validation and verification procedures to maintain data accuracy and reliability
- PC29.** Develop skills in data visualization and storytelling to communicate insights effectively to stakeholders
- PC30.** Demonstrate proficiency in data collection and management techniques for conducting meaningful marketing analytics

Introduction to Data Analysis Techniques for Marketing Analytics

To be competent, the user/individual on the job must be able to:

- PC31.** Differentiate between descriptive, diagnostic, predictive, and prescriptive analytics and their applications in marketing

Qualification Pack

- PC32.** Identify key performance indicators (KPIs) and metrics relevant to marketing analytics objectives and goals
- PC33.** Apply basic data analysis techniques, including summarization, visualization, and Exploratory Data Analysis (EDA), to derive insights from marketing data
- PC34.** Interpret statistical analysis methods, such as correlation analysis and regression analysis, for analysing marketing data relationships
- PC35.** Evaluate the effectiveness of data analysis techniques in uncovering trends, patterns, and correlations within marketing data sets
- PC36.** Utilise Google Analytics reports and dashboards to analyse website traffic, user behaviour, and conversion metrics
- PC37.** Identify opportunities for optimization and improvement in marketing campaigns based on data analysis insights
- PC38.** Generate actionable recommendations and insights from marketing data analysis to inform strategic decision-making
- PC39.** Generate actionable recommendations and insights from marketing data analysis to inform strategic decision-making
- PC40.** Incorporate data analysis findings into marketing strategies and campaigns to drive performance and achieve business objectives
- PC41.** Continuously monitor and assess marketing data using data analysis techniques to track progress and identify areas for improvement

Interpreting Marketing Analytics Insights and Making Data-driven Decisions

To be competent, the user/individual on the job must be able to:

- PC42.** Develop skills in interpreting data visualisation techniques to extract actionable insights from marketing analytics reports
- PC43.** Analyse marketing analytics metrics and KPIs to identify trends, patterns, and anomalies in marketing performance
- PC44.** Utilise A/B testing and experimentation methodologies to optimize marketing strategies and campaign performance
- PC45.** Harness Google Analytics reports and dashboards to gain deeper insights into audience behaviour, acquisition channels, and conversion funnels
- PC46.** Integrate marketing analytics insights into strategic decision-making processes to drive business growth and ROI
- PC47.** Communicate marketing analytics findings effectively to stakeholders using data-driven storytelling techniques
- PC48.** Collaborate cross-functionally to implement data-driven marketing strategies and initiatives based on analytics insights
- PC49.** Adapt marketing strategies and tactics based on real-time analytics data to capitalize on emerging opportunities and trends
- PC50.** Evaluate the impact of marketing analytics initiatives on key business metrics and performance indicators
- PC51.** Iterate and refine marketing strategies based on continuous feedback and analysis of marketing analytics data to optimize results

Google Analytics Fundamentals

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC52.** Navigate the Google Analytics interface and access key reporting features for website tracking and analysis
- PC53.** Set up Google Analytics accounts, properties, and views to track website performance and user interactions
- PC54.** Utilise Google Analytics tracking code installation techniques to collect website visitor data accurately
- PC55.** Interpret Google Analytics reports, including audience, acquisition, behaviour, and conversion reports, to gain insights into website performance
- PC56.** Analyse key metrics and dimensions in Google Analytics reports to understand user behaviour, traffic sources, and conversion paths
- PC57.** Configure Google Analytics goals and funnels to track specific user interactions and conversion events on websites
- PC58.** Customize Google Analytics reports and dashboards to visualize data effectively and monitor marketing performance
- PC59.** Utilize Google Analytics intelligence features, such as automated insights and alerts, to identify opportunities and issues proactively
- PC60.** Integrate Google Analytics data with other marketing analytics tools and platforms for comprehensive data analysis
- PC61.** Stay updated on Google Analytics features, updates, and best practices to maximize the value of Google Analytics for marketing analytics purposes

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends

Qualification Pack

- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc

Qualification Pack

MEP/N0422: Entrepreneurship Development & Innovation (EDI)

Description

The unit describes searching for business ideas, business planning, legal and regulatory considerations and financial management for running an enterprise.

Scope

The scope covers the following :

- Introduction to Entrepreneurship
- Identifying Business Opportunities
- Business Planning and Strategy
- Legal and Regulatory Considerations
- Financial Management for Entrepreneurs

Elements and Performance Criteria

Introduction to Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC1.** Define the concept of entrepreneurship and its significance in driving economic growth and innovation
- PC2.** Identify key characteristics and traits of successful entrepreneurs, including creativity, resilience, and risk-taking propensity
- PC3.** Analyse the role of entrepreneurship in creating job opportunities, fostering technological advancements, and addressing societal needs
- PC4.** Understand the difference between small business entrepreneurship, social entrepreneurship, and scalable startup ventures
- PC5.** Cultivate an entrepreneurial mindset by embracing uncertainty, learning from failures, and seeking opportunities for innovation and growth
- PC6.** Explore real-world examples of successful entrepreneurs and their entrepreneurial journeys across different industries and sectors
- PC7.** Discuss the importance of entrepreneurship education and skill development in nurturing the next generation of innovators and business leaders
- PC8.** Evaluate the impact of entrepreneurial ecosystems, including incubators, accelerators, and coworking spaces, in supporting startup ventures
- PC9.** Reflect on personal entrepreneurial aspirations, goals, and motivations, and develop a preliminary understanding of potential business ideas

Identifying Business Opportunities

To be competent, the user/individual on the job must be able to:

- PC10.** Utilise techniques for idea generation and opportunity recognition, such as brainstorming, problem-solving, and trend analysis
- PC11.** Conduct market research to identify unmet customer needs, emerging trends, and potential business opportunities

Qualification Pack

- PC12.** Evaluate the feasibility and viability of business ideas through market validation, prototype testing, and customer feedback
- PC13.** Analyse industry trends, competitive landscapes, and market dynamics to identify niche markets and competitive advantages
- PC14.** Segment target customer groups based on demographics, psychographics, and behaviour to tailor products or services to specific market segments
- PC15.** Identify potential barriers to entry, regulatory challenges, and risks associated with pursuing specific business opportunities
- PC16.** Develop a comprehensive understanding of the customer journey and identify touchpoints for delivering value to customers
- PC17.** Explore various business models and revenue streams to monetize business ideas effectively
- PC18.** Collaborate with industry experts, mentors, and advisors to gain insights and perspectives on potential business opportunities
- PC19.** Synthesize findings from opportunity identification processes to refine business ideas and develop actionable plans for further exploration and validation

Business Planning and Strategy

To be competent, the user/individual on the job must be able to:

- PC20.** Develop a clear and concise business plan outlining the vision, mission, and goals of the venture
- PC21.** Identify target markets, customer segments, and value propositions to differentiate the business from competitors
- PC22.** Conduct a comprehensive market analysis to assess market size, growth potential, and competitive landscape
- PC23.** Formulate marketing strategies and tactics to reach target customers and promote brand awareness
- PC24.** Outline operational plans, including production processes, supply chain management, and resource allocation
- PC25.** Develop financial projections, including revenue forecasts, expense budgets, and cash flow statements
- PC26.** Evaluate scalability and growth opportunities for the business and develop strategies for expansion
- PC27.** Identify potential risks and challenges associated with the business venture and develop contingency plans
- PC28.** Collaborate with team members, advisors, and stakeholders to refine and finalize the business plan
- PC29.** Present the business plan effectively to potential investors, partners, and stakeholders to secure funding and support for the venture

Legal and Regulatory Considerations

To be competent, the user/individual on the job must be able to:

- PC30.** Understand different legal structures for businesses, including sole proprietorship, partnership, corporation, and limited liability company (LLC)
- PC31.** Navigate the process of registering a business entity and obtaining necessary licenses and permits

Qualification Pack

- PC32.** Identify and protect intellectual property assets, including patents, trademarks, copyrights, and trade secrets
- PC33.** Comply with taxation laws and regulations, including income tax, sales tax, and employment taxes
- PC34.** Draft and negotiate contracts and agreements with suppliers, customers, and other business partners
- PC35.** Understand employer obligations and labour laws related to hiring employees, wages, benefits, and workplace safety.
- PC36.** Manage legal risks and liabilities associated with business operations, including product liability and professional indemnity
- PC37.** Address regulatory requirements specific to the industry or sector in which the business operates
- PC38.** Establish policies and procedures for data privacy and security compliance in accordance with relevant regulations
- PC39.** Seek legal advice and consultation from qualified professionals to ensure compliance with all legal and regulatory requirements

Financial Management for Entrepreneurs

To be competent, the user/individual on the job must be able to:

- PC40.** Develop a basic understanding of financial management principles, including budgeting, forecasting, and cash flow management
- PC41.** Identify sources of funding for startup ventures, including personal savings, loans, grants, angel investors, and venture capital
- PC42.** Evaluate the pros and cons of different funding options and determine the most suitable financing strategy for the business
- PC43.** Evaluate financial statements, including income statements, balance sheets, and cash flow statements, to track business performance
- PC44.** Interpret financial ratios and metrics to assess the financial health and profitability of the business
- PC45.** Implement strategies for cost control, expense management, and profit maximization
- PC46.** Monitor cash flow and working capital to ensure liquidity and solvency of the business
- PC47.** Prepare financial forecasts and projections to support business planning and decision-making processes
- PC48.** Manage financial risks, including market risks, credit risks, and liquidity risks, through effective risk management strategies
- PC49.** Utilize financial management tools and software to streamline financial processes and improve decision-making efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing

Qualification Pack

- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0423: OJT Mandatory - Digital Sales and Marketing

Description

This unit details industrial training or on-the-job training.

Scope

The scope covers the following :

- Digital Sales and Marketing On-the-Job Training

Elements and Performance Criteria

OJT Mandatory for Digital Sales and Marketing

To be competent, the user/individual on the job must be able to:

- PC1.** Research keywords using appropriate tools relevant to your target audience
- PC2.** Optimize website speed and performance
- PC3.** Set SMART goals and objectives for social media campaigns and identify KPIs for success
- PC4.** Create a Facebook Ad Account and connect it to your business page
- PC5.** Set up campaigns, targeting options, and budgets
- PC6.** Utilise video-conferencing and online tools effectively for official/ remote communication
- PC7.** Utilise project management tools like Trello, MS Project, to manage timelines and coordinate with team on various projects
- PC8.** Create and make presentations to the respective team during updates in meetings
- PC9.** Design a promotional email campaign
- PC10.** Design visually appealing email templates using HTML or drag-and-drop editors
- PC11.** Create web pages/ website for your brand product/ services using tools such as Wix, WordPress, etc.
- PC12.** Implement SMS marketing campaigns using best practices for message creation and compliance
- PC13.** Utilize App Store Optimization (ASO) techniques to enhance app visibility on major platforms
- PC14.** Develop cross-channel marketing campaigns integrating ORM strategies across social media, email, and content platforms
- PC15.** Develop strategies for handling challenging situations and conflicts with diplomacy and professionalism
- PC16.** Design a digital marketing plan for a specific product or service, incorporating elements of strategic planning
- PC17.** Design an email marketing campaign targeting a specific customer segment and analyse the performance metrics
- PC18.** Create a content calendar outlining a month-long schedule of blog posts or social media updates promoting affiliate products, ensuring consistency and relevance
- PC19.** Develop a brand messaging strategy for a mock product by creating a logo, tagline, and a consistent tone across social media and website banners

Qualification Pack

- PC20.** Design a basic advertisement (image and text) for a product using relevant tools/ software
- PC21.** Create a simple media plan for an advertising campaign, selecting suitable digital and print channels
- PC22.** Create engaging text-based content for blogs, social media, or websites employing AI tools such as OpenAI's GPT models
- PC23.** Set up and configure Google Analytics to track website performance, including setting goals to monitor user interactions
- PC24.** Use basic digital tools like social media platforms for marketing and free online resources for business planning
- PC25.** Prepare and present business ideas to relevant team/ senior that can be used in a pitch to potential investors or partners

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Tools for digital marketing, including Google Analytics, Facebook Ad Manager, and email marketing platforms.
- KU2.** Principles of SMART goals and key performance indicators for campaign success.
- KU3.** Techniques for search engine optimization (SEO) and app store optimization (ASO).
- KU4.** Content creation methodologies for blogs, social media, and websites.
- KU5.** Basics of website development using tools like Wix and WordPress.
- KU6.** Features and applications of project management tools like Trello and MS Project.
- KU7.** Legal and ethical practices in SMS and email marketing campaigns.
- KU8.** Cross-channel marketing strategies for social media, ORM, email, and content platforms.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Analyzing data and extracting actionable insights for performance improvement.
- GS2.** Creating and delivering clear, concise presentations to teams and stakeholders.
- GS3.** Resolving conflicts and managing challenging situations with diplomacy.
- GS4.** Designing innovative campaigns, advertisements, and brand messages.
- GS5.** Prioritizing tasks and managing time effectively using project management tools.
- GS6.** Utilizing digital tools like video conferencing, AI content generation, and HTML editors.
- GS7.** Collaborating effectively in team settings to coordinate and execute campaigns.
- GS8.** Developing strategic marketing plans with a focus on channel selection and budgeting.

MEP/N0417: Branding and Marketing Communications

Description

This unit covers branding, marketing communication, brand strategy, brand identity and promotional activities.

Scope

The scope covers the following :

- Introduction to Branding and Marketing Communication
- Brand Strategy Development
- Brand Identity Design
- Brand Communication Strategy
- Advertising and Promotions in Marketing Communication
- Public Relations and Brand Reputation Management in Marketing Communication
- Digital Branding and Online Marketing Communication
- Brand Experience and Customer Engagement in Marketing Communication

Elements and Performance Criteria

Introduction to Branding and Marketing Communication

To be competent, the user/individual on the job must be able to:

- PC1.** Define branding and marketing communication and explain their interrelation
- PC2.** Identify the significance of maintaining consistent brand messaging across various communication channels
- PC3.** Recognise key concepts and terminologies associated with branding and marketing communication
- PC4.** Explain the role of marketing communication in shaping brand perception and consumer attitudes
- PC5.** Describe the importance of brand identity in effective marketing communication strategies
- PC6.** Analyse examples of successful branding and marketing communication campaigns
- PC7.** Evaluate the impact of branding and marketing communication on consumer behaviour and brand loyalty
- PC8.** Discuss ethical considerations and challenges in branding and marketing communication practices
- PC9.** Develop basic skills in creating cohesive brand messaging for different communication channels
- PC10.** Reflect on personal and professional implications of branding and marketing communication principles

Brand Strategy Development

To be competent, the user/individual on the job must be able to:

- PC11.** Develop clear and measurable brand objectives aligned with marketing communication goals

Qualification Pack

- PC12.** Conduct a comprehensive brand audit and competitive analysis to inform communication strategies
- PC13.** Define brand positioning and its significance in marketing communication
- PC14.** Understand the role of brand positioning in influencing consumer perceptions and purchase decisions
- PC15.** Explore different approaches to brand positioning, including attribute-based, benefit-based, and lifestyle-based positioning
- PC16.** Identify the elements of a strong brand positioning statement and its components
- PC17.** Analyse case studies and examples of successful brand positioning strategies to understand best practices
- PC18.** Formulate integrated brand positioning and messaging strategies that resonate with target audiences
- PC19.** Align brand strategy with marketing communication tactics across multiple channels
- PC20.** Create a brand strategy document outlining key components and implementation plans
- PC21.** Assess the effectiveness of various brand strategies in achieving communication objectives
- PC22.** Utilise market research and consumer insights to refine and optimize brand strategies.
- PC23.** Collaborate with cross-functional teams to ensure consistency and coherence in brand messaging
- PC24.** Identify potential challenges and risks associated with brand strategy implementation and develop mitigation plans
- PC25.** Present and communicate brand strategy recommendations effectively to stakeholders

Brand Identity Design

To be competent, the user/individual on the job must be able to:

- PC26.** Understand the elements of visual brand identity and their role in marketing communication
- PC27.** Apply principles of design aesthetics to create visually appealing brand identity elements
- PC28.** Develop brand guidelines that define the consistent use of brand identity across communication channels
- PC29.** Use design software and tools to create brand identity assets such as logos, typography, and color palettes
- PC30.** Evaluate the effectiveness of brand identity design in conveying brand values and personality
- PC31.** Incorporate feedback from stakeholders to refine and improve brand identity designs
- PC32.** Ensure brand identity consistency across various marketing materials and touchpoints
- PC33.** Adapt brand identity designs for different communication mediums, including digital and print
- PC34.** Present and articulate the rationale behind brand identity design decisions to clients and team members

Brand Communication Strategy

To be competent, the user/individual on the job must be able to:

- PC35.** Understand the principles and objectives of brand communication in marketing
- PC36.** Analyse consumer behaviour and preferences to develop targeted communication strategies
- PC37.** Develop integrated marketing communication plans that leverage multiple channels and tactics

Qualification Pack

- PC38.** Craft compelling brand messages that resonate with target audiences and align with brand values
- PC39.** Utilise storytelling techniques to create engaging brand narratives in marketing communication
- PC40.** Implement metrics and KPIs to measure the effectiveness of brand communication strategies
- PC41.** Optimize brand communication tactics based on data-driven insights and performance analysis
- PC42.** Coordinate with internal and external stakeholders to ensure consistency and alignment in brand messaging
- PC43.** Adapt brand communication strategies to respond to changing market dynamics and consumer trends

Advertising and Promotions in Marketing Communication

To be competent, the user/individual on the job must be able to:

- PC44.** Understand the role of advertising and promotions in marketing communication
- PC45.** Identify different types of advertising and promotional tactics used in marketing campaigns
- PC46.** Develop creative concepts and messaging strategies for advertising and promotional campaigns
- PC47.** Plan and execute integrated advertising campaigns across various media channels
- PC48.** Implement promotional tactics such as discounts, contests, and giveaways to stimulate consumer engagement
- PC49.** Evaluate the effectiveness of advertising and promotional campaigns in achieving marketing objectives
- PC50.** Utilise advertising and promotional metrics to measure campaign performance and ROI
- PC51.** Collaborate with advertising agencies and media partners to execute advertising campaigns
- PC52.** Ensure compliance with legal and ethical guidelines in advertising and promotional activities
- PC53.** Adapt advertising and promotional strategies based on consumer feedback and market trends

Public Relations and Brand Reputation Management in Marketing Communication

To be competent, the user/individual on the job must be able to:

- PC54.** Understand the role of public relations (PR) in shaping brand perception and reputation
- PC55.** Develop PR strategies to build and maintain positive relationships with media and stakeholders
- PC56.** Monitor and respond to media coverage and public sentiment related to the brand
- PC57.** Implement crisis communication strategies to manage negative publicity and protect brand reputation
- PC58.** Conduct media relations activities such as press releases, media pitches, and interviews
- PC59.** Develop content for PR materials such as press kits, fact sheets, and FAQs
- PC60.** Evaluate the effectiveness of PR efforts in enhancing brand visibility and credibility
- PC61.** Utilise social media and digital platforms for PR activities and brand reputation management
- PC62.** Coordinate PR initiatives with other marketing communication tactics to ensure consistency and alignment
- PC63.** Respond to media inquiries and interview requests professionally and effectively

Digital Branding and Online Marketing Communication

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC64.** Understand the role of digital branding in marketing communication
- PC65.** Identify key digital channels and platforms for brand communication, including social media, websites, and email
- PC66.** Develop digital content strategies that align with brand objectives and resonate with online audiences
- PC67.** Optimize digital assets such as websites and social media profiles for brand visibility and engagement
- PC68.** Implement digital marketing tactics such as search engine optimization (SEO), content marketing, and paid advertising
- PC69.** Analyse digital analytics data to measure the effectiveness of digital branding and marketing efforts
- PC70.** Utilise social listening tools to monitor brand mentions and sentiment on social media and other online platforms
- PC71.** Engage with online communities and influencers to amplify brand messaging and reach new audiences
- PC72.** Adapt digital branding and marketing strategies to keep pace with evolving digital trends and technologies
- PC73.** Develop digital crisis communication plans to address brand-related issues and controversies online

Brand Experience and Customer Engagement in Marketing Communication

To be competent, the user/individual on the job must be able to:

- PC74.** Understand the importance of brand experience in marketing communication
- PC75.** Identify key touchpoints in the customer journey where brand communication occurs
- PC76.** Develop brand experiences that align with brand values and resonate with target audiences
- PC77.** Implement customer engagement strategies to foster brand loyalty and advocacy
- PC78.** Utilise customer feedback and insights to optimize brand experiences and communication strategies
- PC79.** Create branded content and interactive experiences that engage and delight customers
- PC80.** Measure and analyse customer engagement metrics such as interaction rates, sentiment, and advocacy
- PC81.** Utilise customer relationship management (CRM) systems to manage customer interactions and communication
- PC82.** Implement personalized communication tactics to tailor brand experiences to individual customer preferences
- PC83.** Develop strategies for creating memorable brand experiences that leave a lasting impression on customers

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing

Qualification Pack

- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies
- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

MEP/N0419: Introduction to Advertisement Management

Description

This unit covers types of advertising, advertisement planning, social media marketing, advertisement campaigns and ethics and advertisement regulations.

Scope

The scope covers the following :

- Fundamentals of Advertisement Management
- Types of Advertising
- Advertisement Planning Process
- Social Media Marketing
- Advertisement Campaign Execution and Management
- Advertisement Evaluation and Analysis
- Advertisement Regulations and Ethics

Elements and Performance Criteria

Fundamentals of Advertisement Management

To be competent, the user/individual on the job must be able to:

- PC1.** Define advertisement management and its significance in marketing
- PC2.** Explain the historical evolution of advertising and its role in shaping consumer behaviour
- PC3.** Identify key players and stakeholders in the advertising industry and their respective roles
- PC4.** Understand basic terminologies and concepts used in advertisement management
- PC5.** Analyse the objectives and goals of advertisement management in achieving marketing objectives
- PC6.** Discuss the importance of effective advertisement management in building brand awareness and driving sales
- PC7.** Explore the various forms and mediums of advertising and their respective advantages and limitations
- PC8.** Compare and contrast different advertising channels and their suitability for different marketing objectives
- PC9.** Evaluate case studies and examples to illustrate the practical application of advertisement management principles
- PC10.** Explain the role in the broader marketing landscape

Types of Advertising

To be competent, the user/individual on the job must be able to:

- PC11.** Describe the various types of advertising, including print, broadcast, digital, outdoor, and experiential
- PC12.** Identify the characteristics and advantages of each advertising medium
- PC13.** Analyse factors influencing the selection of advertising media, such as target audience demographics and campaign objectives

Qualification Pack

- PC14.** Understand the basics of integrated advertising campaigns and their role in maximizing reach and impact
- PC15.** Develop strategies for tailoring advertising messages to different target audiences and mediums
- PC16.** Discuss the importance of creative execution in different types of advertising campaigns
- PC17.** Explore case studies showcasing successful advertising campaigns across different mediums
- PC18.** Assess the effectiveness of various advertising types in achieving marketing objectives
- PC19.** Evaluate emerging trends and innovations in advertising types and their implications for marketing strategies
- PC20.** Apply best practices for leveraging different types of advertising effectively

Advertisement Planning Process

To be competent, the user/individual on the job must be able to:

- PC21.** Outline the advertisement planning process, including setting objectives, budgeting, and research
- PC22.** Conduct market analysis and consumer behaviour research to inform advertisement planning decisions
- PC23.** Define advertisement objectives and key performance indicators (KPIs) for measuring success
- PC24.** Develop creative concepts and messaging strategies aligned with advertisement objectives
- PC25.** Create media plans that optimize reach, frequency, and budget allocation
- PC26.** Explain the importance of audience targeting and segmentation in advertisement planning
- PC27.** Identify resources and tools for conducting market research and audience analysis
- PC28.** Analyse case studies to understand how effective advertisement planning contributes to campaign success
- PC29.** Evaluate the impact of budget allocation on advertisement effectiveness and ROI
- PC30.** Develop a comprehensive advertisement plan that integrates research, objectives, creative concepts, and media strategies

Social Media Marketing

To be competent, the user/individual on the job must be able to:

- PC31.** Understand the creative process in advertising, including ideation, conceptualization, and execution
- PC32.** Identify the key elements of effective advertisement creative, such as visuals, copywriting, and branding
- PC33.** Apply principles of design and layout to create impactful advertisement creative
- PC34.** Adapt advertisement creative for different mediums and channels while maintaining brand consistency
- PC35.** Test and refine advertisement creative to optimize engagement and conversion rates
- PC36.** Collaborate with creative teams to develop compelling advertisement concepts and executions
- PC37.** Explore innovative approaches to advertisement creative, such as storytelling and experiential marketing
- PC38.** Evaluate the effectiveness of advertisement creative using qualitative and quantitative measures

Qualification Pack

PC39. Incorporate feedback and insights from stakeholders to improve advertisement creative

PC40. Develop a portfolio of advertisement creative showcasing a range of styles and formats

Advertisement Campaign Execution and Management

To be competent, the user/individual on the job must be able to:

PC41. Outline the steps involved in executing an advertisement campaign, including coordination, collaboration, and monitoring

PC42. Coordinate with creative teams, media buyers, and vendors to ensure smooth execution of advertisement campaigns

PC43. Monitor advertisement campaign performance in real-time and make adjustments as needed

PC44. Implement tracking and measurement tools to monitor advertisement campaign effectiveness

PC45. Manage advertisement campaign budgets and allocate resources effectively

PC46. Evaluate the performance of advertisement campaigns against predetermined objectives and KPIs

PC47. Identify opportunities for optimization and improvement in advertisement campaign performance

PC48. Develop contingency plans to address unforeseen challenges or disruptions during advertisement campaign execution

PC49. Communicate with stakeholders to provide updates on advertisement campaign progress and results

PC50. Document lessons learned and best practices for future advertisement campaign management

Advertisement Evaluation and Analysis

To be competent, the user/individual on the job must be able to:

PC51. Explain the importance of advertisement evaluation and analysis in measuring campaign effectiveness

PC52. Identify key metrics and KPIs for evaluating advertisement performance, such as reach, engagement, and conversion rates

PC53. Analyse advertisement performance data to identify trends, patterns, and areas for improvement

PC54. Utilise testing and optimization techniques to improve advertisement effectiveness and ROI

PC55. Develop reports and presentations to communicate advertisement campaign results to stakeholders

PC56. Interpret advertisement performance data to draw actionable insights and recommendations

PC57. Conduct A/B testing and multivariate testing to compare different advertisement variations and approaches

PC58. Evaluate the impact of advertisement campaigns on brand awareness, perception, and loyalty

PC59. Benchmark advertisement performance against industry standards and competitor benchmarks

Advertisement Regulations and Ethics

To be competent, the user/individual on the job must be able to:

PC60. Understand the regulatory landscape governing advertising, including laws, codes, and standards

Qualification Pack

- PC61.** Identify regulatory bodies and industry organisations responsible for overseeing advertisement compliance
- PC62.** Explain the ethical considerations involved in advertisement creation and dissemination
- PC63.** Assess the compliance of advertisement campaigns with legal and ethical guidelines
- PC64.** Develop processes and procedures to ensure advertisement compliance with regulatory requirements
- PC65.** Evaluate advertisement content for accuracy, transparency, and fairness
- PC66.** Implement disclosure practices to ensure transparency in advertisement messaging
- PC67.** Address ethical dilemmas and conflicts of interest in advertisement management
- PC68.** Address ethical dilemmas and conflicts of interest in advertisement management
- PC69.** Develop a code of conduct for advertisement management that prioritizes integrity, transparency, and consumer protection

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Principles and concepts of marketing management and their application in digital and traditional marketing
- KU2.** Digital marketing channels, including SEO, SEM, social media, email, and content marketing
- KU3.** Web design, content management systems (CMS), and web analytics
- KU4.** Creating and managing online presence
- KU5.** Marketing strategies, including mobile marketing and ecommerce
- KU6.** Consumer behaviour and purchasing decisions
- KU7.** Ways of advertising to contribute to brand awareness and sales generation
- KU8.** Importance of brand identity
- KU9.** Communication strategies, and advertising in shaping consumer perceptions
- KU10.** Generative AI and automation tools
- KU11.** Personalized marketing approaches
- KU12.** Significance of marketing analytics in tracking performance, measuring ROI, and optimizing campaigns
- KU13.** Principles of business communication, both verbal and written, for effective professional interactions
- KU14.** Entrepreneurial mindset, innovation, and how businesses develop and adapt to market trends
- KU15.** Importance of employability skills such as teamwork, adaptability, and professionalism in the workplace
- KU16.** Impact of environmental sustainability and ethical practices in modern business and marketing strategies
- KU17.** Customer relationship management (CRM) systems and their role in managing customer data
- KU18.** Role of data privacy and security in marketing, particularly with the use of AI and data-driven strategies

Qualification Pack

- KU19.** Significance of aligning marketing efforts with overall business goals to drive growth and profitability
- KU20.** Use of various digital marketing tools and platforms for campaign management and performance tracking
- KU21.** Importance of customer engagement and retention strategies in both online and offline marketing efforts
- KU22.** Fundamentals of data-driven decision-making and how data analysis informs marketing strategies
- KU23.** How marketing campaigns are structured, from planning and budgeting to execution and evaluation
- KU24.** Role of consumer behaviour insights in designing targeted marketing campaigns that meet specific needs and preferences
- KU25.** Ethical considerations in digital marketing, including data usage, transparency, and consumer protection
- KU26.** Concept of integrated marketing communications (IMC) and how different marketing channels work together to achieve business objectives

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write factual and quantitative information correctly
- GS2.** Read and extract relevant information from documentation including purpose, nature of document, etc.
- GS3.** Communicate effectively with co-workers and clients
- GS4.** Use effective listening and probing/questioning skills
- GS5.** Apply digital literacy and use digital skills securely
- GS6.** Plan day to day tasks to achieve optimum productivity
- GS7.** Manage distractions
- GS8.** Be patient and courteous under all circumstances and situations
- GS9.** Apply problem solving skills that require negotiation to resolve problems of a difficult nature
- GS10.** Breakdown relevant work process into its constituent activities for ease of analysis
- GS11.** Estimate time and effort required to complete a task accurately
- GS12.** Seek clarification on problems and its solution from others

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
