## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

## Qualification Pack

**Minimum Aggregate Passing % at QP Level : 70**

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## Assessment Weightage

Compulsory NOS

| National Occupational Standards                   | Theory Marks | Practical Marks | Project Marks | Viva Marks | Total Marks | Weightage  |
|---------------------------------------------------|--------------|-----------------|---------------|------------|-------------|------------|

|                                              |                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |
| <b>Knowledge and Understanding (KU)</b>      | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                         |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
| <b>VISUAL STYLE</b>                     | Visual style comprises the look or appearance of the production including the lighting, colours, shadows, sets, costumes, locations and the way they will be captured on screen.                                                                                                                                                                                       |
| <b>CREATIVE BRIEF</b>                   | Creative brief is a document that captures the key questions that serve as a guide for the production including the vision, objective of the project, target audience, timelines, budgets, milestones, stakeholders etc.                                                                                                                                               |
| <b>SHOOT SCHEDULE</b>                   | Shoot schedule is a listing of the sequences/shots that need to be captured on each shoot day                                                                                                                                                                                                                                                                          |
| <b>MULTI CAMERA</b>                     | Multi-camera is a method of shooting where multiple cameras are used to simultaneously capture different views/images                                                                                                                                                                                                                                                  |
| <b>BUDGET</b>                           | Budget is an estimate of the total cost of production that may include a break-up of cost components                                                                                                                                                                                                                                                                   |
| <b>TIMELINES</b>                        | Timelines is a listing of dates by which the production milestones/stages need to be completed                                                                                                                                                                                                                                                                         |
| <b>CONTINUITY</b>                       | Continuity represents the seamless transition from one shot to another                                                                                                                                                                                                                                                                                                 |
| <b>SCRIPT</b>                           | Script is a structured narrative of a story                                                                                                                                                                                                                                                                                                                            |

## Qualification Pack

|                             |                                                                                                                                                                                            |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SCREENPLAY</b>           | Screenplay is the script coupled with key characteristics of the scene and directions for acting                                                                                           |
| <b>POST-PRODUCTION</b>      | Post-production is the final finishing phase of the production, where the raw footage is edited, special effects are added, music and sound are integrated, colour correction is done etc. |
| <b>COLOUR GRADING</b>       | Colour grading is the process of enhancing and correcting the colours of the final production                                                                                              |
| <b>DIGITAL INTERMEDIATE</b> | Digital intermediate is the process where a film is digitised and the colour and image characteristics are modified                                                                        |
| <b>RECCE</b>                | Recce is a detailed visual and technical assessment of the attributes and suitability of a particular location for the shoot, usually through a personal visit                             |
| <b>GRIPS</b>                | Grips is the department that specialises in mounting the camera on to tripods, dollies, cranes and other platforms for shoots                                                              |
| <b>JIB</b>                  | Jib is a device used for the movement of camera and operates like a see-saw, with the camera at one end and the camera controls at the other                                               |
| <b>LENSES</b>               | Lenses are used to capture images and are attached on to the body of the camera                                                                                                            |
| <b>FILTERS</b>              | Filters are used to alter the properties of light entering the camera lens. They are also used to create a number of special effects                                                       |
| <b>DOLLY</b>                | Dolly is a platform with wheels on which the camera can be mounted and moved around during the shoots                                                                                      |
| <b>MAGAZINES</b>            | Magazines are compartments within a camera that are used to hold the film tape                                                                                                             |
| <b>CLAPPER BOARDS</b>       | Clapper board is a slate that has information pertaining to each shot, used as a guide to mark shots and aid matching image with sounds                                                    |
| <b>FOCUS LENGTH</b>         | Focus length is the angle of view from the lens                                                                                                                                            |
| <b>FRAMING</b>              | Framing is how the artists, objects, sets, locations etc. are positioned within the camera view for a single shot                                                                          |
| <b>MASTER SHOT</b>          | Also known as a cover shot, this shot is a long sequence that establishes an overview and aids assembly of smaller, closer shots with details                                              |
