MES/N0705: Produce 3D Animation

Description

This OS unit is about animating 3D models using relevant techniques, based on the storyboard

Elements and Performance Criteria

Preparing a prototype 3D work product/pre-visualisation

To be competent, the user/individual on the job must be able to:

- PC1.** follow the storyboard for composition (eg: positioning of the character with respect to the background/camera to create the desired animation)
- PC2.** prepare prototype work product/pre-visualisation

Preparing 3D animation end-products

To be competent, the user/individual on the job must be able to:

- PC3.** apply principles of design, 3d animation and film-making to create sequences and scenes/shots
- PC4.** animate expressions and lip movements to match dialogues and sound
- PC5.** communicate requirements to camera and lighting for motion capture, where required
- PC6.** work with motion capture data received from the motion/ performance capture studio (clean up the data and map animation data to 3d models)

Applying 3D animation techniques

To be competent, the user/individual on the job must be able to:

- PC7.** apply 3d animation techniques, including: realistic 3d animation- motion capture + key frame animation (e.g. in films such as beowulf, avatar and lord of the ringss gollum) semi-realistic 3d animation (e.g. in films such as little krishna and brave) toon 3d animation (e.g. films such as kung-fu panda) simulation of traditional & stop motion techniques (e.g. advertisements such as vineta cucini, amaron battery etc.)

Using 3D animation tools

To be competent, the user/individual on the job must be able to:

- PC8.** produce 3d movements and performance with the help of 3d animation tools such as autodesk maya, xsi, 3d studio max, blender, motion capture tools like marker tracking cameras and inertial suits

Reviewing, refining and storing end-products

To be competent, the user/individual on the job must be able to:

- PC9.** critically review animation produced, keeping in mind creative and design specifications and the production brief
- PC10.** refine the output based on deviations observed and/or modifications required within requisite timelines
- PC11.** ensure that work-products meet quality standards (so that they can be approved with minimum iterations) and are delivered in requisite timelines
- PC12.** organise, store and manage work-products into file formats using standard file naming conventions and maintain assets for further use

Working effectively within the animation team

Qualification Pack

To be competent, the user/individual on the job must be able to:

PC13. work and communicate effectively within the team and other departments, namely design, modeling/rigging, texturing, editing, rendering, compositing

PC14. train junior animators to improve their output quality and skills, if appropriate to the role

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the objective/purpose that the end-product intends to achieve

KU2. the profile of the target audience for the end-product

KU3. responsibilities and scope of work expected from the animator

KU4. the expectations of the client, director, animation supervisor and the producer with respect to the process, techniques to be used and guidelines with respect to characters and look and feel of the end-product

KU5. limitations on the effort, duration, schedule and resources and issues that might arise during production

KU6. the production requirements and quality that needs to be reflected in the final output

KU7. the timelines within which the product needs to be delivered

KU8. the typical processes involved 3d animation production i.e. staging, blocking, 1st. level animation, lip-sync and facials, final animation, specialised animation (cloth and hair simulation), secondary animation (accessories), lighting & rendering, sfx and compositing

KU9. applicable health and safety guidelines

KU10. basic/advanced scripting

KU11. the fundamentals and principles of 3d animation, 3d environments and film-making

KU12. art and visual treatment

KU13. fundamentals of motion capture and performance capture technologies

KU14. principles of movement and timing

KU15. principles of human/ animal/ character anatomy and how they can be applied to animation

KU16. how to observe and study human/ animal/ character behavior and expressions to help visualise concepts

KU17. how to enact and emote; and thereby animate characters in accordance to the demands of the script and animatic

KU18. properties of the surfaces that are being used in the animation

KU19. how to work with graphics and animation software including autodesk maya, softimage, xsi, 3d studio max and blender

KU20. design standards and specifications that needs to be complied with to produce the final output

KU21. 3d output and delivery formats

KU22. basics of modeling and rigging (added advantage)

KU23. applicable health and safety guidelines

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** report output, efforts and schedule taken to complete the allotted task
- GS2.** read and understand the script and character descriptions
- GS3.** read the work plan and production schedule to ensure that progress is in line
- GS4.** read and understand the short division, character identification and frames planned during motion / performance capture
- GS5.** suggest creative ideas to the director and animation supervisor
- GS6.** communicate clearly and collaborate effectively with colleagues who are working with the previous or next scenes/shots
- GS7.** understand the modifications required from the director, animation supervisor and producer
- GS8.** discuss the challenges faced during production and discuss ways to address
- GS9.** how to plan individual timelines and deliver on schedule
- GS10.** work effectively as a member of the team and help realise overall timelines
- GS11.** prioritise work-products and tasks based on requirements
- GS12.** understand shot break up and plan effort and time required for each element of the shot
- GS13.** address comments and make changes
- GS14.** seek assistance and guidance from the director, art director and supervisors, where required
- GS15.** improve work-products and performance based on feedback received and through self-appraisal

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)
