MES/N0104: Maintain Workplace Health & Safety

Description

This OS unit is about contributing towards maintaining a healthy, safe and secure working environment

Elements and Performance Criteria

Understanding the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** understand and comply with the organizations current health, safety and security policies and procedures
- PC2.** understand the safe working practices pertaining to own occupation
- PC3.** understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises
- PC4.** participate in organization health and safety knowledge sessions and drills

Knowing the people responsible for health and safety and the resources available

To be competent, the user/individual on the job must be able to:

- PC5.** identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency
- PC6.** identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms

Identifying and reporting risks

To be competent, the user/individual on the job must be able to:

- PC7.** identify aspects of your workplace that could cause potential risk to own and others health and safety
- PC8.** ensure own personal health and safety, and that of others in the workplace through precautionary measures
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** report any hazards outside the individuals authority to the relevant person in line with organizational procedures and warn other people who may be affected

Complying with procedures in the event of an emergency

To be competent, the user/individual on the job must be able to:

- PC11.** follow organizations emergency procedures for accidents, fires or any other natural calamity in case of a hazard
- PC12.** identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individuals authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organizations norms and policies relating to health and safety
- KU2.** Government norms and policies regarding health and safety and related emergency procedures
- KU3.** Limits of authority while dealing with risks/ hazards
- KU4.** The importance of maintaining high standards of health and safety at a workplace
- KU5.** The different types of health and safety hazards in a workplace
- KU6.** Safe working practices for own job role
- KU7.** Evacuation procedures and other arrangements for handling risks
- KU8.** Names and contact numbers of people responsible for health and safety in a workplace
- KU9.** How to summon medical assistance and the emergency services, where necessary
- KU10.** Vendors or manufacturers instructions for maintaining health and safety while using equipment, systems and/or machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to write and provide feedback regarding health and safety to the concerned people
- GS2.** how to write and highlight potential risks or report a hazard to the concerned people
- GS3.** read instructions, policies, procedures and norms relating to health and safety
- GS4.** highlight potential risks and report hazards to the designated people
- GS5.** listen and communicate information with all anyone concerned or affected
- GS6.** make decisions on a suitable course of action or plan
- GS7.** plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS8.** apply problem solving approaches in different situations
- GS9.** understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority
- GS10.** apply balanced judgments in different situations
- GS11.** How to write and provide feedback regarding health and safety to the concerned people
- GS12.** How to write and highlight potential risks or report a hazard to the concerned people
- GS13.** Read instructions, policies, procedures and norms relating to health and safety
- GS14.** Highlight potential risks and report hazards to the designated people
- GS15.** Listen and communicate information with all anyone concerned or affected
- GS16.** Make decisions on a suitable course of action or plan
- GS17.** Plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS18.** Apply problem solving approaches in different situations
- GS19.** build and maintain positive and effective relationships with colleges and customers
- GS20.** analyze data and activities
- GS21.** Understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority

Qualification Pack

GS22. Apply balanced judgments in different situations

MES/N0601: Interpret graphic visualisation brief

Description

This OS unit is about understanding the production requirements and planning the process and workflow

Elements and Performance Criteria

Create the visual concept as per assignments

To be competent, the user/individual on the job must be able to:

- PC1.** create design layout based on job brief (dimensions, operating platforms, etc.)
- PC2.** sketch visual themes as per project requirement and relate the base idea, theme and concept
- PC3.** identify client branding (color scheme, logo, target audience, etc.)
- PC4.** evaluate brand value and competitors

Constructing an approach and planning the process

To be competent, the user/individual on the job must be able to:

- PC5.** construct the visual platform as per project indicators (television, film, print, gaming etc.)
- PC6.** prepare graphics of theme based on project relevant to his / her job role (format, number, types, duplicates etc.)
- PC7.** combine images using layer masks and add text to designs

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the creative vision and elements of production relevant to his/her job role
- KU2.** the project pipeline/schedule and timelines relevant to their work
- KU3.** the intended purpose of the design that needs to be created
- KU4.** how to maintain consistency with idea, theme, style and concept defined in the brief
- KU5.** the technique and workflow followed in the organization
- KU6.** how to source materials for research and reference
- KU7.** how to express ideas using techniques like mind maps, moodboards, storyboards, etc.
- KU8.** applicable copyright norms and intellectual property rights
- KU9.** applicable health and safety guidelines pertaining to working for long periods on edit machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document decisions on the processes involved and techniques to be used with reasons
- GS2.** document other areas (e.g. requirements of the target audience, market, end-product, reference links and videos) that may be relevant for the team

Qualification Pack

- GS3.** read and understand the script and determine requirements
- GS4.** read about emerging techniques in production
- GS5.** read user manuals for equipment and software
- GS6.** read about the tastes and preferences of the target audience and the market where the end-product intends to be distributed
- GS7.** understand the creative vision of the brief and work to resolve any issues
- GS8.** communicate with team members, relay instructions, collaborate and resolve issues with members of the post-production team handling different aspects/processes to determine the effort involved for the activities that would need to be performed.
- GS9.** manage decision on suitable course of action
- GS10.** plan the activities, workflow, resourcing and timelines in accordance with the creative and technical requirements
- GS11.** manage deadlines successfully on time
- GS12.** work well in a fast-paced environment
- GS13.** check that their own work meets customer requirements
- GS14.** identify any issues that may arise during post-production and find solutions to address them
- GS15.** how to have a keen eye for detail and maintain an aesthetic sense towards the final output
- GS16.** appraise the quality of the raw footage gathered to ensure it is in line with the initial concept and quality standards

MES/N0602: Manage graphic tools

Description

This OS unit is about managing equipment and material throughout the design process.

Elements and Performance Criteria

Preparing tools for the designing process

To be competent, the user/individual on the job must be able to:

- PC1.** gather rawstock imageries/material (e.g. photographs, clipart, image filters) and select relevant material that can be used for designing.
- PC2.** sort and keep the material ready for the production process.
- PC3.** ensure software / equipment is ready for use (e.g. photoshop, scanner, etc.)

Managing interim work-products during production

To be competent, the user/individual on the job must be able to:

- PC4.** create tools in line with pictorial representations (brush, pickers of different size and colors)
- PC5.** save back-ups for interim work-products in the appropriate file formats

Ensuring work-products are ready to display as per requirements

To be competent, the user/individual on the job must be able to:

- PC6.** ensure final work-products are prepared in appropriate file formats (e.g. psd, .ai, .cdr, etc.) and appropriate medium (e.g. dvd, cd and digital flash drives)
- PC7.** clear logs/data and keep the software and equipment ready for future use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the purpose and intended use of the end-product
- KU2.** the creative and technical specifications of the work-product, including the quality standards expected of the final output
- KU3.** the intended distribution/exhibition mediums for the production
- KU4.** establish data management and work flow systems
- KU5.** how to maintain quality control as production scales
- KU6.** how to work on relevant equipment and software e.g. photoshop, illustrator, coreldraw, indesign, printer, scanner, etc.
- KU7.** the format, resolution and quality in which the material would be needed
- KU8.** the storage media relevant to the type of production
- KU9.** file-naming conventions appropriate to the production
- KU10.** how to keep abreast of changes in technology and update skills accordingly
- KU11.** applicable health and safety guidelines

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** prepare documentation, including charts, to accompany the work-product
- GS2.** read and understand the user and technical specifications of equipment and software
- GS3.** discuss and understand requirements and specifications by the supervisor
- GS4.** discuss any problems with the brief that could impact the production process and solicit suggestions for resolving them
- GS5.** plan and prioritize work according to the requirements
- GS6.** understand upcoming technical advancement on the quality aspects for equipment uses, the resources and services.
- GS7.** manage decision on suitable course of action
- GS8.** check that own and/or peer's work meets customer requirements.
- GS9.** undertake troubleshooting the problems of computer system.
- GS10.** monitor the nature and quality of vendor materials, tools and equipment

MES/N0603: Visualise and generate design

Description

This OS unit is about cutting down the production of raw material and arranging them on a timeline to create a sequential output that meets production requirements

Elements and Performance Criteria

Generate visuals and design ideas appropriate for the brief

To be competent, the user/individual on the job must be able to:

- PC1.** collect relevant data to support design
- PC2.** list the design concept to be conceptualized
- PC3.** relate the concept with meaningful graphics
- PC4.** illuminate the design with indicative messages accurately
- PC5.** identify the elements of production which are relevant as per the creative brief and inputs provided
- PC6.** present the idea, theme and concept to the peers
- PC7.** configure exact vocal representation relevant to the data to support design

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the production process followed by the organization
- KU2.** the creative vision and elements of production relevant to his/her job role
- KU3.** the project pipeline/schedule and timelines relevant to their work
- KU4.** the intended purpose of the design that need to be created
- KU5.** how to organize the collected data
- KU6.** how to present the visualized data and collect feedback
- KU7.** the elements and principles of design
- KU8.** how to create digital design layouts
- KU9.** the implication of the format on the quality of the end-product
- KU10.** applicable copyright norms and Intellectual Property Rights

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document notes on the process and arranging them in a professional manner
- GS2.** document notes and project specifications for guidance and reference
- GS3.** read and understand the script and determine requirements
- GS4.** gather, organize and store stock images, cliparts, photographs for use in projects

Qualification Pack

- GS5.** gather suitable references from various sources for use during production
- GS6.** research attributes of the genre, language, culture, region of the production to determine aspects that may need to be reflected in the final output
- GS7.** understand the creative vision and technical requirements that need to be complied with the brief
- GS8.** discuss interim/final work with peers and superiors and solicit their feedback on
- GS9.** liaise with relevant people in a way that supports the production process
- GS10.** plan and prioritize work according to the requirements
- GS11.** finalize the design as per the project requirement
- GS12.** check that own and/or peer's work meets customer requirements.
- GS13.** work effectively in a customer facing environment.
- GS14.** address comments on the interim/final work-products and make changes accordingly
- GS15.** have a keen eye for detail and maintain an aesthetic sense towards colour shapes, forms and software capabilities of the final output while planning the workflow and tools required.
- GS16.** appraise the quality of own work to ensure it is inline with the expected quality standards

MES/N0604: Create and edit graphic design

Description

This OS unit is about creating original graphic illustrations and visuals that meets production requirements.

Elements and Performance Criteria

Create & edit raster images independently

To be competent, the user/individual on the job must be able to:

- PC1.** select graphic elements in accordance with the design idea
- PC2.** freeze the color choice based on the design idea
- PC3.** create graphics according to the design idea, requirements, specifications

Create & edit vector images independently

To be competent, the user/individual on the job must be able to:

- PC4.** create vector artworks and illustrations
- PC5.** select the color output based on the final style required

Create & edit digital design independently

To be competent, the user/individual on the job must be able to:

- PC6.** create single/multi page documents appropriate to the designs specification
- PC7.** prepare the final document as per the target platform specification

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the creative vision and elements of production relevant to his/her job role
- KU2.** the project pipeline/schedule and timelines relevant
- KU3.** the intended purpose of the design that needs to be created
- KU4.** how to select the right editing/drawing software tools required for the job
- KU5.** how to source images
- KU6.** techniques like image restoration and retouching techniques
- KU7.** how to design vector graphics that is consistent with design idea
- KU8.** how to create graphics that is consistent with the creative look of the project
- KU9.** how to design the layout appropriate for the given product specification (website, game, animation, film, advertising, television, etc.)
- KU10.** how to design single page and multipage documents that convey structured information
- KU11.** applicable copyright norms and intellectual property rights

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)
