### MES/N0717: Research and create list of keywords

#### Description

This OS unit is about creating the list of keywords to target for search engine optimization after carrying out the keyword research

#### Elements and Performance Criteria

##### *Perform keyword research*

To be competent, the user/individual on the job must be able to:

- PC1.** create a list of products / services provided by the company
- PC2.** list out search terms that potential customers might use to search for those products / services in search engines
- PC3.** identify the right keywords to target by using the available keyword research tools
- PC4.** evaluate the keywords by their search volume and competition

##### *Create final list of relevant keywords*

To be competent, the user/individual on the job must be able to:

- PC5.** prepare the final list of keywords by using the quantitative data provided by keyword research tools
- PC6.** identify the mix of both head and long-tail terms to keep in the final list
- PC7.** create an excel file for the final list of keywords with their key statistics like search volume, difficulty level, competition and search region

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys products / services offerings and positioning within the industry
- KU2.** primary target audience of the company for each product / service
- KU3.** roles and responsibilities of each team member within the marketing operations
- KU4.** people to co-ordinate with, to approve and finalize the search engine optimization plan
- KU5.** existing digital marketing efforts along with the campaigns performance
- KU6.** work with the keyword research tools
- KU7.** do the competitor analysis to analyze the list of keywords they are ranking for
- KU8.** evaluate the domain authority and page authority of a website / page
- KU9.** identify the keywords with high commercial intent
- KU10.** work with web analytics tools to analyze a websites traffi

#### Generic Skills (GS)

User/individual on the job needs to know how to:

## Qualification Pack

- GS1.** create report with the analysis of each keyword in terms of their rankings in search results over a period of time
- GS2.** compile traffic analysis report with the breakup of traffic from different channels like direct, organic, social and referral
- GS3.** stay abreast with the latest trends and best practices for search engine optimization
- GS4.** be updated with the ongoing search engine algorithm updates and its effects on website rankings
- GS5.** monitor rankings of competitors in search engines for the relevant keywords
- GS6.** communicate and collaborate with team members for content development and optimization based on targeted keywords
- GS7.** present report and analysis on keyword rankings and organic traffic to the stakeholders
- GS8.** decide on which keywords need to be targeted based on quantitative data and company's focus area and objectives
- GS9.** plan the activities, project workflow and timelines in accordance with the content and technical requirements
- GS10.** organize and interpret data in a detailed and organized manner for the future use
- GS11.** manage and meet project / task deadlines successfully
- GS12.** identify technical issues related to the website which is affecting the visibility and rankings of website in the search results
- GS13.** how to analyze the data and find out the best opportunities while doing competitor analysis and carrying out keyword research
- GS14.** analyze keywords search volume, difficulty level and its competition to determine if it is a right keyword to target

### MES/N0718: Implement on-page optimization

#### Description

This OS unit is about performing the on-page search engine optimization tasks to get higher website ranking in the search results.

#### Elements and Performance Criteria

##### *Identify the on-page issues of a website*

To be competent, the user/individual on the job must be able to:

- PC1.** use the on-page website analysis tools to identify the issues
- PC2.** sort the issues from most critical to least critical so that they can be prioritized and resolved accordingly
- PC3.** set the timelines for resolving each identified websites on-page issue

##### *Perform on-page optimization activities*

To be competent, the user/individual on the job must be able to:

- PC4.** create meta tags including the title and description of all website pages
- PC5.** optimize the URLs of website pages by including the primary keyword in it
- PC6.** include heading tags (like H1, H2 etc.) in the content of all pages
- PC8.** create and add XML Sitemap to the website for search engine crawlers
- PC9.** create internal links to the relevant pages of the website
- PC10.** create outbound links to other related external website pages
- PC11.** add engaging images / videos to the content to reduce bounce rate and increase time on site

##### *Create final list of relevant keywords*

To be competent, the user/individual on the job must be able to:

- PC7.** optimize images on a page by using ALT Text and adding a proper caption

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's products / services offerings and positioning within the industry
- KU2.** primary target audience of the company for each product / service
- KU3.** roles and responsibilities of each team member within the marketing operations
- KU4.** people to co-ordinate with to approve and finalize the search engine optimization plan
- KU5.** existing digital marketing efforts along with the campaigns performance
- KU6.** work with the on-page analysis and grading tools (like Moz On-Page Optimization Grader)
- KU7.** update the meta tags of a website page
- KU8.** add the heading tags within the content of a website page
- KU9.** create and add XML Sitemap of a website
- KU10.** create the internal links and outbound links

## Qualification Pack

- KU11.** add ALT Text attribute and caption for an image
- KU12.** create URL slugs for the website pages
- KU13.** add multimedia files like images / videos on a page

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create report with the list of all on-page website issues along with the timelines to resolve them
- GS2.** create progress report for on-page optimization activities for sharing it with stakeholders
- GS3.** stay abreast with the latest trends and best practices for search engine optimization
- GS4.** be updated with the ongoing search engine algorithm updates and its effects on website rankings
- GS5.** read and understand the data provided by the on-page website analysis tools
- GS6.** communicate and collaborate with team members for on-page website optimization based on the set tasks and timelines
- GS7.** present the analysis and plan for doing on-page optimization to the key stakeholders
- GS8.** plan and prioritize tasks based on the degree of impact of the on-page issues identified
- GS9.** organize and interpret data in a detailed and organized manner for the future use
- GS10.** manage and meet project / task deadlines successfully
- GS11.** analyze the impact of on-going search engine algorithm updates on the on-page factors of a website
- GS12.** decide on which issues needs to be prioritized and resolved first based on its impact on the website
- GS13.** analyze technical issues related to the website which is affecting the visibility and rankings of website in the search results
- GS14.** analyze the data to find the most critical on-page website issues

### MES/N0719: Implement off-page optimization

#### Description

This OS unit is about doing the off-page search engine optimization and carry out link building activities to improve the rankings of a website

#### Scope

The scope covers the following :

- This OS unit is about doing the off-page search engine optimization and carry out link building activities to improve the rankings of a website
- Do off-page analysis of competitors
- Perform off-page optimization activities

#### Elements and Performance Criteria

##### *Do off-page analysis of competitors*

To be competent, the user/individual on the job must be able to:

- PC1.** find out the backlinks profile of the websites of key competitors
- PC2.** check the domain and page authority of competitors website
- PC3.** find the alexa rankings and website traffic statistics of key competitors
- PC4.** create a comparison report to analyze companys position against competitors

##### *Perform off-page optimization activities*

To be competent, the user/individual on the job must be able to:

- PC5.** do guest postings on relevant blogs / websites to get high quality backlinks
- PC6.** upload online press releases on high quality and page rank portals
- PC7.** create and share high quality infographics on relevant online platforms
- PC8.** participate in discussions on forums and Question Answer (QA) portals
- PC9.** promote content on social media platforms to generate brand mentions, social shares, reviews, likes and comments
- PC10.** create and upload high quality videos on search engine and other video submission sites

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** about the companys products / services offerings and positioning within the industry
- KU2.** primary target audience of the company for each product / service
- KU3.** roles and responsibilities of each team member within the marketing operations
- KU4.** people to co-ordinate with, to approve and finalize the search engine optimization plan
- KU5.** existing digital marketing efforts along with the campaigns performance
- KU6.** work with backlinks analysis tools like SEMRush

## Qualification Pack

- KU7.** check the domain and page authority of a website
- KU8.** check the alexa rankings and website traffic of a website
- KU9.** upload videos on search engine and other video submission sites
- KU10.** identify the do-follow and no-follow backlinks
- KU11.** upload infographics on image submission sites
- KU12.** find relevant blogs / websites for bloggers outreach campaigns

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** participate in the discussion forums and QA portals by sharing helpful content
- GS2.** document the findings and create competitor comparison report
- GS3.** write the description of the videos and captions for social media posts
- GS4.** communicate with blog / website owners through emails
- GS5.** stay abreast with the latest trends and best practices for search engine optimization
- GS6.** be updated with the ongoing search engine algorithm updates and its effects on website rankings
- GS7.** read and understand the data provided by the off-page and backlinks analysis tools
- GS8.** communicate with blog / website owners to publish a review about the products or services offered by the company
- GS9.** collaborate with relevant people in the team to support the off-page optimization process such as content creation and promotion
- GS10.** plan and prioritize tasks based on their importance and expected outcome
- GS11.** manage and meet project / task deadlines successfully
- GS12.** organize and interpret data in a detailed and organized manner for future use by other team members
- GS13.** decide upon the tasks that need to be prioritized while performing off-page optimization process
- GS14.** check the quality of backlinks and removal of low quality and spam backlinks
- GS15.** analyze the backlinks profile of competitors and identify the highest quality backlinks which is helping them in achieving higher rankings
- GS16.** analyze the impact of on-going search engine algorithm updates on the off-page optimization factors of a website

### MES/N0720: Track rankings and prepare reports

#### Description

This OS unit is about tracking the keyword rankings and preparing the performance reports of search engine optimization projects for the stakeholders.

#### Elements and Performance Criteria

##### *Create the keyword rankings report*

To be competent, the user/individual on the job must be able to:

- PC1.** track the rankings of keywords in search results using the available keyword tracking tools
- PC2.** analyze the keyword tracking results and compare it with the key competitors
- PC3.** create a report summarizing the performance of search engine optimization activities and its impact on keyword rankings

##### *Create the website traffic and conversion report*

To be competent, the user/individual on the job must be able to:

- PC4.** document the website traffic and conversions through organic channels by using the web analytics tools
- PC5.** analyze the website traffic results and compare it with the key competitors

##### *Perform off-page optimization activities*

To be competent, the user/individual on the job must be able to:

- PC6.** create a report summarizing the impact of search engine optimization activities on the website traffic and conversions from the organic channel

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** about the company's products / services offerings and positioning within the industry
- KU2.** primary target audience of the company for each product / service
- KU3.** roles and responsibilities of each team member within the marketing operations
- KU4.** track the keyword rankings using the available tracking tools
- KU5.** use web analytics tools to track website traffic and conversions
- KU6.** work with MS Excel to maintain tracking data and create reports
- KU7.** work with MS PowerPoint to create the analysis summary for the stakeholders

#### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document the data provided by the tracking tools and create the keyword tracking report
- GS2.** document the data provided by the web analytics tools and create the website traffic and conversion report

## Qualification Pack

- GS3.** read and analyze the data provided by the available keyword tracking tools
- GS4.** read and understand the data provided by the available web analytics tools
- GS5.** stay abreast with the latest trends and best practices for search engine optimization
- GS6.** be updated with the ongoing search engine algorithm updates and its effects on website rankings
- GS7.** collaborate with relevant people in the team to collect all the data to prepare reports and presentations
- GS8.** present the keywords ranking traffic report to the stakeholders
- GS9.** present the website traffic and conversion report to the stakeholders
- GS10.** decide upon the frequency of reports so that it can be planned and created accordingly
- GS11.** analyze and interpret the quantitative data from the keyword tracking and web analytics tools
- GS12.** plan the timelines and frequency of the reports and presentations
- GS13.** address comments on final reports and presentations and make the changes accordingly
- GS14.** analyze the impact of on-going search engine algorithm updates on the search engine optimization process

## Qualification Pack

### DGT/VSQ/N0102: Employability Skills (60 Hours)

#### Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

#### Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

#### Elements and Performance Criteria

##### *Introduction to Employability Skills*

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

##### *Constitutional values – Citizenship*

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

##### *Becoming a Professional in the 21st Century*

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

##### *Basic English Skills*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

### *Career Development & Goal Setting*

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

### *Communication Skills*

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

### *Diversity & Inclusion*

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

### *Financial and Legal Literacy*

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

### *Essential Digital Skills*

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

### *Entrepreneurship*

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

### *Customer Service*

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

## Qualification Pack

**PC28.** follow appropriate hygiene and grooming standards

*Getting ready for apprenticeship & Jobs*

To be competent, the user/individual on the job must be able to:

**PC29.** create a professional Curriculum vitae (Résumé)

**PC30.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

**PC31.** apply to identified job openings using offline /online methods as per requirement

**PC32.** answer questions politely, with clarity and confidence, during recruitment and selection

**PC33.** identify apprenticeship opportunities and register for it as per guidelines and requirements

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** need for employability skills and different learning and employability related portals

**KU2.** various constitutional and personal values

**KU3.** different environmentally sustainable practices and their importance

**KU4.** Twenty first (21st) century skills and their importance

**KU5.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

**KU6.** importance of career development and setting long- and short-term goals

**KU7.** about effective communication

**KU8.** POSH Act

**KU9.** Gender sensitivity and inclusivity

**KU10.** different types of financial institutes, products, and services

**KU11.** how to compute income and expenditure

**KU12.** importance of maintaining safety and security in offline and online financial transactions

**KU13.** different legal rights and laws

**KU14.** different types of digital devices and the procedure to operate them safely and securely

**KU15.** how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

**KU16.** how to identify business opportunities

**KU17.** types and needs of customers

**KU18.** how to apply for a job and prepare for an interview

**KU19.** apprenticeship scheme and the process of registering on apprenticeship portal

## Generic Skills (GS)

User/individual on the job needs to know how to:

**GS1.** read and write different types of documents/instructions/correspondence

**GS2.** communicate effectively using appropriate language in formal and informal settings

## Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

## Qualification Pack

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

## Qualification Pack

**Minimum Aggregate Passing % at QP Level : 70**

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## Assessment Weightage

Compulsory NOS

| National Occupational Standards                | Theory Marks | Practical Marks | Project Marks | Viva Marks | Total Marks | Weightage  |

|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |
| <b>Knowledge and Understanding (KU)</b>      | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                         |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
| <b>VISUAL STYLE</b>                     | Visual style comprises the look or appearance of the production including the lighting, colours, shadows, sets, costumes, locations and the way they will be captured on screen.                                                                                                                                                                                       |
| <b>CREATIVE BRIEF</b>                   | Creative brief is a document that captures the key questions that serve as a guide for the production including the vision, objective of the project, target audience, timelines, budgets, milestones, stakeholders etc.                                                                                                                                               |
| <b>SHOOT SCHEDULE</b>                   | Shoot schedule is a listing of the sequences/shots that need to be captured on each shoot day                                                                                                                                                                                                                                                                          |
| <b>MULTI CAMERA</b>                     | Multi-camera is a method of shooting where multiple cameras are used to simultaneously capture different views/images                                                                                                                                                                                                                                                  |
| <b>BUDGET</b>                           | Budget is an estimate of the total cost of production that may include a break-up of cost components                                                                                                                                                                                                                                                                   |
| <b>TIMELINES</b>                        | Timelines is a listing of dates by which the production milestones/stages need to be completed                                                                                                                                                                                                                                                                         |
| <b>CONTINUITY</b>                       | Continuity represents the seamless transition from one shot to another                                                                                                                                                                                                                                                                                                 |
| <b>SCRIPT</b>                           | Script is a structured narrative of a story                                                                                                                                                                                                                                                                                                                            |

## Qualification Pack

|                             |                                                                                                                                                                                            |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SCREENPLAY</b>           | Screenplay is the script coupled with key characteristics of the scene and directions for acting                                                                                           |
| <b>POST-PRODUCTION</b>      | Post-production is the final finishing phase of the production, where the raw footage is edited, special effects are added, music and sound are integrated, colour correction is done etc. |
| <b>COLOUR GRADING</b>       | Colour grading is the process of enhancing and correcting the colours of the final production                                                                                              |
| <b>DIGITAL INTERMEDIATE</b> | Digital intermediate is the process where a film is digitised and the colour and image characteristics are modified                                                                        |
| <b>RECCE</b>                | Recce is a detailed visual and technical assessment of the attributes and suitability of a particular location for the shoot, usually through a personal visit                             |
| <b>GRIPS</b>                | Grips is the department that specialises in mounting the camera on to tripods, dollies, cranes and other platforms for shoots                                                              |
| <b>JIB</b>                  | Jib is a device used for the movement of camera and operates like a see-saw, with the camera at one end and the camera controls at the other                                               |
| <b>LENSES</b>               | Lenses are used to capture images and are attached on to the body of the camera                                                                                                            |
| <b>FILTERS</b>              | Filters are used to alter the properties of light entering the camera lens. They are also used to create a number of special effects                                                       |
| <b>DOLLY</b>                | Dolly is a platform with wheels on which the camera can be mounted and moved around during the shoots                                                                                      |
| <b>MAGAZINES</b>            | Magazines are compartments within a camera that are used to hold the film tape                                                                                                             |
| <b>CLAPPER BOARDS</b>       | Clapper board is a slate that has information pertaining to each shot, used as a guide to mark shots and aid matching image with sounds                                                    |
| <b>FOCUS LENGTH</b>         | Focus length is the angle of view from the lens                                                                                                                                            |
| <b>FRAMING</b>              | Framing is how the artists, objects, sets, locations etc. are positioned within the camera view for a single shot                                                                          |
| <b>MASTER SHOT</b>          | Also known as a cover shot, this shot is a long sequence that establishes an overview and aids assembly of smaller, closer shots with details                                              |
