### MES/Q0707: Project Manager (OOH) Media

#### Brief Job Description

A Project Manager in an OOH Media Company will be responsible for erection of media at selected / licensed site, in compliance of all statutory conditions and as per design & budget. This position manages multiple outdoor media projects as per the business requirement and follows / implements applicable regulatory guidelines.

#### Personal Attributes

Individuals in this job role require a creative mind to determine best locations, and type of media, that will draw maximum attention of audience at that location - both at present and likely in future. Project Manager (OOH) will need to spend time on the field extensively. Needs to be meticulous, process-oriented & persevering

#### Applicable National Occupational Standards (NOS)

##### Compulsory NOS:

1. [MES/N0729: Recognise outdoor media industry](#)
2. [MES/N0732: Design media for different kind of sites](#)
3. [MES/N0734: Execute project for erection of media at approved sites](#)
4. [MES/N0731: Ensure compliance of all statutory conditions](#)
5. [MES/N0104: Maintain Workplace Health & Safety](#)
6. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

### MES/N0732: Design media for different kind of sites

#### Description

This NOS is about designing outdoor media to best leverage available OOH sites/locations.

#### Scope

The scope covers the following :

- Recognize location and appropriate media
- Design media as per location

#### Elements and Performance Criteria

##### *Recognize location*

To be competent, the user/individual on the job must be able to:

- PC1.** Identify areas in the city of work that provide maximum audiences of different types
- PC2.** Identify locations in specific areas that will add value to the organization's media portfolio
- PC3.** Identify appropriate format for selected location and obtain permissions for erecting site from land-owners and regulatory authorities
- PC4.** Negotiate with concerned for preventing cost increases on account of regulations regulatory compliances, rents, etc.
- PC5.** In case of tenders, identify locations on offer and establish value for the same
- PC6.** Participate in tender bids accordingly and obtain contracts for erection of sites as per tender conditions

##### *Design media as per locations*

To be competent, the user/individual on the job must be able to:

- PC7.** Create designs for OOH displays in various format genres like large, small, street furniture, digital, etc., and obtain approval from top management, as being most appropriate for location by format, size, illumination, license period, projected salability and cost budget.
- PC8.** Consult (a) Structural Engineering expert and (b) Electrical (Illumination) Engineering expert to prepare detailed construction and electrical wiring drawings for approved designs
- PC9.** Obtain structural stability certificate for the same from Approved Structural Engineer of the City / Cities;
- PC10.** • Create foundation, fabrication & erection drawings and electrical wiring drawings for the approved designs together with BOQ, BOM,  
• etc., & release for execution.
- PC11.** Maintain Design Inventory.

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** brand value of the business ie advertisement standards of the organization

## Qualification Pack

- KU2.** relevant guidelines defined by Government & Municipality / Panchayat
- KU3.** legal framework pertaining to rental / lease / tender contracts.
- KU4.** regulations governing design and specifications of various OOH display formats & existing inventory
- KU5.** design developments in OOH and Digital OOH nationally and globally
- KU6.** material and illumination developments especially with environment friendly properties
- KU7.** prevailing soil and surface conditions in city / cities
- KU8.** filing and maintaining library of drawings and specifications

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** .Be able to read maps and be thoroughly aware of city-scape including location of areas/monuments of interest as well as how traffic flows in the city
- GS2.** developing constructive and cooperative working relationships with others, and maintaining them
- GS3.** ability to communicate information and ideas in speaking so others will understand
- GS4.** ability to listen to and understand information and ideas presented through spoken words and sentences
- GS5.** decide on negotiations for rental/lease for private locations as well as for tenders if there is scope.
- GS6.** Decide on appropriate location based on audience and other location values
- GS7.** Decide on appropriate formats to be erected.
- GS8.** Negotiate best terms for erecting site at selected locations.
- GS9.** work on constantly improving salability projections to ensure correct selection.
- GS10.** assess salability and appropriateness of location and format
- GS11.** Analyze all conditions to decide best tender bid submission
- GS12.** critically appraise quality of own performance to identify issues
- GS13.** Scalability projections of previously erected sites meet actual and reasons for variances.

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                                                                                                                                                              | Theory Marks | Practical Marks | Project Marks | Viva Marks |

### MES/N0734: Execute project for erection of media at approved sites

#### Description

This NOS is about detailed planning and execution of project for erection of selected formats at approved locations

#### Scope

The scope covers the following :

- Ensuring all relevant approvals are on record for erecting site at location
- Preparation of project execution plan with timelines and costs and obtain all internal approvals for same
- Supervise on-site execution of work to ensure compliance /adherence to design s/working drawings/approvals/statutory regulations
- Conduct trial run post completion of erection and on satisfaction, hand-over for marketing, affix site identification board as per regulations / internal rules.
- Record and file all drawings, modifications if any, approvals, project plan, execution details, copies of work orders issued, copies of all invoices received and all relevant documents for the new site

#### Elements and Performance Criteria

##### *Ensuring all approvals on record.*

To be competent, the user/individual on the job must be able to:

- PC1.** Check-list of all approvals necessary for a media site to be erected in the city
- PC2.** Any special conditions and arrange for compliance of the same
- PC3.** Prepare reminders for rental payments, renewal of rental agreements, license fee payments and renewals of all relevant licenses, electricity payments

##### *Preparation of Project Execution Plan*

To be competent, the user/individual on the job must be able to:

- PC4.** Prepare BOM/BOQ based on approvals by Structural Engineer and Electrical Designer
- PC5.** Prepare project plan using appropriate software, using time and cost estimates as accurately as possible after discussions with concerned teams.
- PC6.** Prepare project plan using appropriate software, using time and cost estimates as accurately as possible after discussions with concerned teams
- PC7.** Prepare for time and cost over-run scenarios in case on contingencies.

##### *Coordinate with Commercial and select vendors*

To be competent, the user/individual on the job must be able to:

- PC8.** Share Project plan with Commercial Team and identify outsourced jobs
- PC9.** Prepare technical specs for RFP/RFQ for material and jobs
- PC10.** Evaluate all offers received and negotiate along with Commercial to finalize vendors for jobs and suppliers and quality of material
- PC11.** Ensure job vendors understand Project Plan and all working drawings

## Qualification Pack

**PC12.** Coordinate with Commercial to release Purchase Orders / Work Contracts on time and as per agreed terms

**PC13.** Coordinate with Commercial & vendors to ensure timely and quality compliant deliveries of materials and timely availability of job vendors.

### *On-site supervision of execution*

To be competent, the user/individual on the job must be able to:

**PC14.** Either personally or thru subordinates, ensure daily visits to each site and submission / recording of status report with regard to material consumed and job completion and update on-line project plan to reflect daily status

**PC15.** Create and maintain check-list of all regulations / compliances to be maintained onsite and ensure knowledge of all concerned regarding same

**PC16.** Coordinate with vendors, on-site supervisors, suppliers, company accounts team to ensure adherence to Project Plan timings

**PC17.** Receive vendor invoices for material and jobs, verify accuracy of same and approve payment as appropriate

### *Conduct trials and release finished media site for Marketing*

To be competent, the user/individual on the job must be able to:

**PC18.** Prepare check-list for testing when site is ready

**PC19.** Complete check-list as above and record results

**PC20.** If all test results positive, to release site by informing all concerned about site, including GPS coordinates, close view and long view photographs taken in daytime and in illuminated condition; to also inform concerned regulatory authorities and land-owner

**PC21.** Have prepared Identification Board with Municipality License Number, name of company, size of the media and any other details specified by local regulations and affix same on the media erected, prior to taking photographs as above

### *Record and file all drawings and documents*

To be competent, the user/individual on the job must be able to:

**PC22.** All designs, drawings, approvals, documents pertaining to the project must be taken possession of and filed chronologically in hard format. Depending upon company policy, each document may be scanned and archived.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** Every media in the company's own inventory, including type of media format, location, all technical details, audience for each by both numbers and quality.

**KU2.** All relevant regulations for erecting outdoor media site in the city / state

**KU3.** Reading and understanding designs and drawings and their correctness

**KU4.** Preparation of BOM/BOQ

**KU5.** Correct processes for executing various stages of erection viz: foundation, preparation / fabrication and installation of columns / pillars / structures / lighting fixtures, wiring, installation of LED modules ( in case of digital displays), testing for IP65/67 conditions for electrical fittings

**KU6.** How to use various online project planning and monitoring tools & processes

## Qualification Pack

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read / understand regulations and standards
- GS2.** discuss with teams (project, commercial, vendors, accounts) all issue concerning efficiency of execution at lesser costs
- GS3.** communicate with senior management at all stages so that senior management approves plan and execution
- GS4.** Fully understand different regulations and compliance requirements
- GS5.** Understand each phase of work and material requirement so that estimations of project completion time and costs are correct
- GS6.** Plan back-ups for key tasks and material
- GS7.** Identify issues that may arise during execution and explore options to resolve them proactively
- GS8.** conflict management and negotiation skills especially when dealing with both internal administration and external vendors
- GS9.** Prepare for contingencies
- GS10.** Be innovative in use of material and design to execute better media sites

## Qualification Pack

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

## Qualification Pack

**Minimum Aggregate Passing % at QP Level : 70**

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## Assessment Weightage

|                                              |                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |
| <b>Knowledge and Understanding (KU)</b>      | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                         |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
| <b>Sector</b>                           | Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests                                                                                                                                           |
| <b>Sub-sector</b>                       | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                                                                                           |
| <b>Occupation</b>                       | Occupation is a set of job roles which performs similar or related set of functions in an industry.                                                                                                                                                                                                                                                                    |
| <b>Job role</b>                         | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                                                                                      |
| <b>Occupational Standards(OS)</b>       | OS specify the standards of performance that an individual must achieve when carrying out a function at the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.                                                                       |
| <b>Performance Criteria</b>             | Performance Criteria are statements that together specify the standard of performance required when carrying out a task                                                                                                                                                                                                                                                |
| <b>Aberration</b>                       | A distortion of image quality or color rendition in a photographic image caused by optical limitations of the lens used to capture the image.                                                                                                                                                                                                                          |

## Qualification Pack

|                                   |                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Accessories</b>                | Anything carried or worn on top of the basic costume for decorative purposes, e.g. a shawl, a purse.                                                                                                                                                                                                                                            |
| <b>Bitmap</b>                     | A method of storing digital information by mapping out an image bit by bit.                                                                                                                                                                                                                                                                     |
| <b>Blimp</b>                      | sound proof enclosure for an SLR stills camera to enable the stills photographer to shoot silently.                                                                                                                                                                                                                                             |
| <b>Budget</b>                     | Budget is an estimate of the total cost of production that may include a break-up of cost components                                                                                                                                                                                                                                            |
| <b>CMYK Color</b>                 | CMYK (Cyan, Magenta, Yellow, Black) is the color space used for commercial offset printing.                                                                                                                                                                                                                                                     |
| <b>Computer-generated effects</b> | Computer-generated effects is the process of creating illusionary images for use in productions Continuity Continuity represents the seamless transition from one shot to another Costume Is the distinctive style of dress of an individual or group that reflects their class, gender, profession, ethnicity, nationality, activity or epoch. |
| <b>Copyright Laws</b>             | A legal framework linked to intellectual property and the rights given to creators of original products/ concepts                                                                                                                                                                                                                               |
| <b>Creative Brief</b>             | Creative brief is a document that captures the key questions that serve as a guide for the production including the vision, objective of the project, target audience, timelines, budgets, milestones, stakeholders etc.                                                                                                                        |
| <b>Digital Intermediate</b>       | Digital Intermediate is the process of altering the colour characteristics of a digital version of the production                                                                                                                                                                                                                               |
| <b>Digital Negative</b>           | Digital Negative (DNG) is an open raw image format owned by Adobe and used for digital photography                                                                                                                                                                                                                                              |
| <b>Editing</b>                    | Editing is the process of cutting, organising and putting together audio, visual footage to prepare an accurate, condensed, consistent final output                                                                                                                                                                                             |
| <b>Financer</b>                   | An entity (individual or organization) that provides financing for a project                                                                                                                                                                                                                                                                    |
| <b>Function</b>                   | Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.                                                                                          |
| <b>Job role</b>                   | Job role defines a unique set of functions that together form a unique employment opportunity in an organization.                                                                                                                                                                                                                               |
| <b>OOH</b>                        | Out of Home Media                                                                                                                                                                                                                                                                                                                               |

## Qualification Pack

|                                   |                                                                                                                                                                                                                               |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Parallax</b>                   | The difference between the image seen by a viewing system and the image recorded by the imaging sensor.                                                                                                                       |
| <b>Personal space</b>             | The 'space bubble' around the body, extending as far as the body and body parts can reach, without travelling                                                                                                                 |
| <b>Pixel</b>                      | Short for picture element, pixels are the tiny components that capture the digital image record in your camera.                                                                                                               |
| <b>Quick change</b>               | any costume change completed when an actor has a limited amount of time, sometimes as few as twenty seconds.                                                                                                                  |
| <b>Rehearsal</b>                  | A practice or trial performance of a play or scene                                                                                                                                                                            |
| <b>RGB Color (Red Green Blue)</b> | Computers and other digital devices handle color information as shades of red, green and blue.                                                                                                                                |
| <b>Saturation</b>                 | Saturation is the depth of the colors within a photographic image.                                                                                                                                                            |
| <b>Script</b>                     | Script is a structured narrative of a story                                                                                                                                                                                   |
| <b>Sector</b>                     | Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests. |
| <b>SLR (Single-Lens-Reflex)</b>   | A camera that utilizes a prism and mirror system to project the image seen by the lens onto a focusing screen located below the prism housing.                                                                                |
| <b>Sub-functions</b>              | Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function                                                                                                                            |
| <b>Target Audience</b>            | Group of people at whom content/ adverting is aimed.                                                                                                                                                                          |
| <b>Time Lapse</b>                 | A series of photographs captured over a period of time. These images can be captured in variable or set time intervals over the course of seconds, minutes, hours, days, weeks, etc.                                          |
| <b>Timelines</b>                  | Timelines is a listing of dates by which the production milestones/stages need to be completed                                                                                                                                |
| <b>Vertical</b>                   | Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.                                                                                                   |
| <b>Vignetting</b>                 | Darkening of the edges of a photographic image due to the inability of a lens to distribute light evenly to the corners of the frame.                                                                                         |

## Qualification Pack

|                      |                                                                                                                                                               |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
