MES/Q0901: Director Of Photography

Brief Job Description

Individuals at this job need to determine the visual style of the production. They finalise locations and equipment that will be used. During shoots, they guide efforts of the camera crew and collaborate with lighting and grips to capture the desired look for the end-product.

Personal Attributes

This job requires the individual to assess the visual style of the production. The individual must be creative and detail-oriented. The individual must know and keep updated on the various camera equipment, shooting techniques and mediums. The individual must have excellent communication skills and must possess the ability to guide efforts and work collaboratively. The individual must be flexible and able to make key decisions, keeping in mind the impact on cost and timelines.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MES/N0901: Determine the Visual Style and Prepare Shoot Plan](#)
2. [MES/N0902: Carry out Location Recces and Finalise Locations](#)
3. [MES/N0903: Recruit Camera Team](#)
4. [MES/N0904: Estimate and Procure Camera Equipment](#)
5. [MES/N0906: Prepare for Shoot](#)
6. [MES/N0907: Operate Camera during Shoot](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)
8. [MES/N0104: Maintain Workplace Health & Safety](#)

Remarks:

The QP has been rationalised as per NCVET guidelines.

Qualification Pack

MES/N0901: Determine the Visual Style and Prepare Shoot Plan

Description

This OS unit is about determining the visual style of the production and preparing the shoot plan

Elements and Performance Criteria

Understand the script, production concept and creative brief

To be competent, the user/individual on the job must be able to:

- PC1.** interpret the visual style of the end-product through a detailed review of the script and through discussions with the producer and director

Devise creative ways to visually depict the production

To be competent, the user/individual on the job must be able to:

- PC2.** devise creative ideas and finalise the visual style of the production
PC3. Identify an appropriate medium for shooting (film, tape or digital)

Prepare and finalise the shoot plan

To be competent, the user/individual on the job must be able to:

- PC4.** plan and finalise the day-wise shoot plan while keeping in mind the impact on the production budget, timelines and technical viability- including shoot schedule, coverage on each shoot day, shoot type on each day i.e. single-camera/multi-camera
PC5. prepare continuity guidelines for other departments

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the creative and technical requirements of the production
KU2. the technical, budget and time constraints applicable
KU3. the role and contribution of key departments be liaised with, especially lighting and grips where the camera team has the maximum interaction
KU4. various camera techniques and shooting medium (digital/tape/film)
KU5. how to assess the visual style of production from the script and through discussions with the producer, director
KU6. how to identify inconsistencies between the story, dialogue and resulting action and apparent continuity issues
KU7. how to break-down the script into sequences and shots and list out detailed characteristics of each shot e.g. day/afternoon/night scene, mood of the shot, special effects required etc.
KU8. how to estimate the cost and time it would take for shoots keeping in mind the intended visual style for production
KU9. how to determine the number of shots that can be covered on each day and detail out the day-wise shoot plan, keeping in mind the production budget, time and technical constraints
KU10. how to modify the camera plan in accordance to production requirements

Qualification Pack

- KU11.** applicable health and safety guidelines, and ensuring that the style selected minimizes any risks to the health and safety of the cast and crew

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document ideas to help present to the producer and director
- GS2.** document the day-wise shoot schedule including the scenes/shots to be covered, type of shoot and key characteristics for each shoot
- GS3.** prepare guidelines for other departments to maintain continuity during shoots
- GS4.** read and understand the script and screenplay thoroughly
- GS5.** read and understand the production budget and timelines
- GS6.** research creative ways to visually depict the film by looking at productions worked on in the past, as well as other releases from the public domain
- GS7.** research innovative shooting styles and techniques that may be applied to the current production, keeping in mind the technical and budgetary constraints
- GS8.** discuss, clarify and confirm the visual and technical requirements of production with the producer and director
- GS9.** present ideas and gain consensus on the visual style of the production with the producer and director
- GS10.** discuss and agree on the shoot plan with the producer and director
- GS11.** make decisions related to the way the script will be represented visually
- GS12.** determine the way the script will be represented visually, in conjunction with the producer and director
- GS13.** create a day-wise shoot plan including the number of shots to be covered on each day
- GS14.** identify any problems with successful execution of the task and resolve them in consultation with the producer and director
- GS15.** envision the impact of selecting a particular shoot type on the production budget and key activities
- GS16.** envision the impact of selecting a particular shoot type on post-production process and implications on colour grading and digital intermediate
- GS17.** highlight inconsistencies between the story, dialogue and resulting action and apparent continuity issues
- GS18.** identify the equipment requirements from the production brief which can enhance the agreed visual style and brief
- GS19.** check that own and/or your peer's work meets customer/project requirements.

MES/N0902: Carry out Location Recces and Finalise Locations

Description

This OS unit is about assessing the suitability of various locations and finalising the most appropriate location for shoot

Elements and Performance Criteria

Understand requirements of the shoot

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the requirements of the shoot with respect to the creative look, production requirements, technical infrastructure, power requirements, security needs, ancillary costs etc

Assess the suitability of a location

To be competent, the user/individual on the job must be able to:

- PC2.** assess the suitability of a studio/location for the shoot in light of the visual style and production needs (it is recommended that the dop personally visits all key locations)
- PC3.** evaluate the pros and cons of shooting at different locations, create a shortlist and then finalize why a location should be chosen or rejected
- PC4.** assess any alterations/changes that will be required and expected additional costs that would need to be borne
- PC5.** communicate the changes required to the production team

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the locations available and/or the sources of finding out suitable locations for shoot
- KU2.** the relevant production staff to reach out to resolve issues and provide clarifications
- KU3.** the ancillary costs involved in selecting the location namely, the cost of transportation, accommodation, storage, security, equipment etc.
- KU4.** the role and contribution of key departments be liaised with, especially lighting and grips where the camera team has the maximum interaction
- KU5.** how to assess the pros and cons of a location, in light of the visual style, creative and production requirements
- KU6.** the type and dimensions (height, width) of equipment required e.g. cranes, grips, lights, cameras, jibs etc. and any specific requirements that need to be catered for at the location
- KU7.** climate and environmental factors that may impact the shoot and/or production requirements
- KU8.** security and other safe-keeping arrangements required at the location national occupational
- KU9.** the technical infrastructure required for camera, lighting and sound and whether provisions are available at the location
- KU10.** the power needs of production and whether they will be met with at the given location

Qualification Pack

- KU11.** applicable health and safety guidelines, and ensuring that the location selected minimizes any risks to the health and safety of the cast and crew

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document the pros and cons of each location and reasons for choosing/rejecting any location
- GS2.** document additional technical and equipment needs at the location, for reference of the relevant departments
- GS3.** read about the location, climate and environment factors during the intended shoot duration and time
- GS4.** read the production budgets to ensure that the location and ancillary costs stay in line
- GS5.** liaise with production department to discuss suitability of the location with respect to the production needs, expected problems that might arise, additional requirements, if any
- GS6.** discuss and confirm the creative and technical requirements of the camera team with the production team
- GS7.** communicate any health and safety requirements to the production team and assign responsibility for needs to be taken care of
- GS8.** identify problems with successful execution at the location and resolve them in consultation with the production team
- GS9.** decide whether the location is of a suitable size and terrain to allow for production requirements or not
- GS10.** decide that technical facilities on location are sufficient to meet camera requirements
- GS11.** plan logistics of transportation, access and set-up, and moving from one location to another, are feasible in relation to the production schedule
- GS12.** check/confirm that the location finalized/selected meets project/ customer requirements
- GS13.** have a keen eye for detail and maintain an aesthetic sense towards the final output
- GS14.** analyze of any changes which may impact upon the production
- GS15.** take into consideration the actual conditions likely to prevail during the scheduled shooting time
- GS16.** assess the degree of alteration needed to the location
- GS17.** identify the advantages and disadvantages of locations in conjunction with the production team and other departments as appropriate
- GS18.** improve work-flow and performance based on feedback received by team members and client

MES/N0903: Recruit Camera Team

Description

This OS unit is about selecting and hiring the right camera crew for the shoot

Elements and Performance Criteria

Ascertaining the number of people required, duration of involvement and job specifications of each role

To be competent, the user/individual on the job must be able to:

- PC1.** ascertain the number of people required, duration of involvement and job specifications for each role, keeping in mind: type of production (feature films, television series, documentaries, advertisements, animated films, short films) type of shoot (single camera or multi-camera) geography (domestic or international) locations (studio, indoor, outdoor) type of equipment that would need to be operated

Shortlist and select appropriate crew

To be competent, the user/individual on the job must be able to:

- PC2.** shortlist profiles and conduct interviews and practical tests to establish a fit for each role by looking at various sources (recruitment agencies, industry bodies/associations, industry databases e.g. imdb, prior experience and industry/professional network)

Finalize recruitment of crew

To be competent, the user/individual on the job must be able to:

- PC3.** negotiate and finalise candidate salaries within the hiring budget allocated for the camera team
- PC4.** finalise relevant contractual documentation to complete the hiring process

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the creative requirements of the production
- KU2.** the technical, budget and time constraints applicable
- KU3.** the role and contribution of key departments be liaised with, especially lighting and grips where the camera team has the maximum interaction
- KU4.** how to identify the skills, competencies and outcomes required for each role from the script and on the basis of the creative and technical requirements of production
- KU5.** how to assess the pros and cons of a location, in light of the visual style, creative and production requirements
- KU6.** how to judge the strengths, weaknesses and suitability of candidates against the job specifications of each role
- KU7.** the types of practical tests that can be conducted to gauge the suitability of candidates for each job role and manner of conducting them
- KU8.** the current salary range applicable to each role in the market
- KU9.** how to negotiate on salaries, to ensure the hiring is completed within the budget

Qualification Pack

KU10. applicable health and safety guidelines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document job specifications including the skills, competencies and outcomes of each role
- GS2.** document records of the hiring process e.g. profiles screened, profiles interviewed, assessments conducted, reasons for selection/rejection
- GS3.** complete relevant contractual documentation
- GS4.** read and understand the script and production requirements thoroughly
- GS5.** screen profiles on the basis of the job specifications established for each role
- GS6.** discuss and finalise the hiring budget in collaboration with the producer and director
- GS7.** discuss the requirements and specifications for each role with the producer and director
- GS8.** discuss the shortlisted profiles with the producer and director to aid final selection and to establish a match with requirements
- GS9.** maintain a good relationship with various recruitment sources and a strong network within the industry
- GS10.** make decision on the number of people required
- GS11.** select people who meet the required skills and competencies expected of each role
- GS12.** complete hiring according to the requirements and within agreed timelines
- GS13.** manage within the agreed budget and minimize overruns
- GS14.** clarify the requirements of the production with director/ producer/ production manager to ensure the correct resources are available at the right time throughout the shoot
- GS15.** where/when it is necessary, in accordance with production requirements, to arrange the booking/recruitment of camera staff with specific or specialist skills.
- GS16.** the team recruited meets all the technical and creative project requirements.
- GS17.** encourage and enable effective liaison between relevant personnel in the camera department and all other relevant personnel to successfully achieve production requirements.

MES/N0904: Estimate and Procure Camera Equipment

Description

This OS unit is about estimating the total equipment requirement and procuring the right camera equipment for the shoot

Elements and Performance Criteria

Estimating camera equipment requirements for shoot

To be competent, the user/individual on the job must be able to:

- PC1.** identify the type of camera equipment that would be best suited to produce the required visual style of production
- PC2.** estimate the quantity of equipment required and list out the specifications

Procuring camera equipment for shoot

To be competent, the user/individual on the job must be able to:

- PC3.** collaborate with equipment vendors to source the equipment in advance, to meet shoot schedules
- PC4.** test the equipment for damages/defects and arrange for replacements, if required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the equipment that can be sourced in-house and that needs to be sourced through a vendor
- KU2.** the role and contribution of key departments be liaised with, especially lighting and grips where the camera team has the maximum interaction
- KU3.** how to identify camera equipment and stock requirements that would meet the creative and technical requirements of production
- KU4.** the right date, time and place for delivery based on the shoot schedules
- KU5.** how to test the equipment on delivery to ensure that it is in working condition and there are no damages/defects
- KU6.** how to handle the equipment safely
- KU7.** any special requirements for the equipment e.g. temperature control, magnetic field control etc. that may be required
- KU8.** how to select the most appropriate equipment vendor that would provide the equipment with the desired specifications
- KU9.** applicable health and safety guidelines, and ensuring that the equipment selected minimizes any risks to the health and safety of the cast and crew

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document, track and monitor the list of camera equipment with desired specifications

Qualification Pack

- GS2.** document damages/defects on testing the equipment and complete relevant documentation for replacements, if required
- GS3.** read the shoot schedules to ensure that the equipment arrives before the shoot dates specified
- GS4.** keep updated on the various types of cameras, lenses and equipment available in the market and read about the specifications and usage in different shoot situations
- GS5.** discuss and clarify requirements with the production department, to ensure that the equipment sourced is sufficient and meets production needs
- GS6.** maintain a good relationship with equipment vendors/suppliers
- GS7.** select the camera equipment that will be used throughout the duration of the shoot
- GS8.** procure equipment according to the requirements and within agreed timelines
- GS9.** manage within the agreed budget and minimize overruns
- GS10.** identify any problems with successful execution of the task and resolve them in consultation with the production team
- GS11.** ensure that appropriate camera testing has been carried out
- GS12.** guide/advise production team as to where the equipment can be supplied from and
- GS13.** book resources as early as possible
- GS14.** identified camera equipment meets the technical and artistic requirements of production and is available within budgetary and time constraints
- GS15.** determine the impact of the chosen equipment on the production and post-production process.

MES/N0906: Prepare for Shoot

Description

This OS unit is about deciding the shot framing and composition, marking out the camera positions and carrying out rehearsals prior to shoot

Elements and Performance Criteria

Understanding the focus requirements for different types of shots

To be competent, the user/individual on the job must be able to:

- PC1.** establish, or support in establishing, the focus requirements for shots (eg: pan, tilt, tracking, static, zoom, close-up, wide-shot, master shot, high/low, angle shot, long shot and mid shot), based on the creative and technical requirements of production

Lay out marks on the set/props/floor to define artist paths and refine camera positions/focus lengths during rehearsals

To be competent, the user/individual on the job must be able to:

- PC2.** mark, or support in marking, the focus lengths/angle based on the required composition (eg: positioning of elements within a frame), perspective (eg: point of view) and aspect ratio (eg: relationship between width and height)

Marking out the focus lengths for each position

To be competent, the user/individual on the job must be able to:

- PC3.** prepare, or support in preparing, a focus path for a sequence depending on the movement, timing, start and finish points during shoots
- PC4.** report potential issues to the producer and director and relevant teams for rectification

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** understand the overall style and creative aspects of the production.
- KU2.** the role and contribution of key departments be liaised with, especially lighting and grips where the camera team has the maximum interaction
- KU3.** the principles of cinematography.
- KU4.** understanding of optical theory
- KU5.** understanding of still photography would be an added advantage
- KU6.** principles of composition and continuity
- KU7.** the focus requirements and camera position(s) for each shot
- KU8.** the relationship between the distance of the camera from the subject, the height at which the camera is placed and movements and how these effect the shot composition
- KU9.** the aspect ratio required for each shoot and the aspect ratio in which the final product will be seen by the audience
- KU10.** how to judge focus lengths to ensure that the shot view will be sharp and achieves the desired framing and composition

Qualification Pack

- KU11.** how to frame shots to ensure continuity and seamless transition from one shot to another
- KU12.** the various types of cameras, lenses and equipment available in the market
- KU13.** how to update operating skills on new cameras, lenses and equipments in the market
- KU14.** how to test cameras, lenses and equipment and discover faults, if any
- KU15.** how to place cameras according to production requirements in case of multi-camera shoots
- KU16.** how to place set, props and equipment so as to capture the required frame in the shot and ensuring that they do not obstruct the camera view
- KU17.** the mood of each shot and determine shot requirements accordingly
- KU18.** how to measure the distance between the artists/objects/subjects and the camera(s) to ensure the shot gets taken correctly
- KU19.** how to observe for continuity issues that may impact actual shoots
- KU20.** test focus lengths to ensure they have been set properly
- KU21.** the limitations on camera movements - based on the positioning of the camera, sets, props and equipment during shoots
- KU22.** applicable health and safety guidelines, and ensuring that any risks to the health and safety of the cast and crew are minimised

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the specifications for each shot - camera distance, height, focus length, aspects ratios, timing, start and finish points etc. to refer to during the shoot
- GS2.** notes for the director, DOP and production team that would help them guide the movement of artists, props and equipment during shoot
- GS3.** read and understand the script in detail
- GS4.** understand and clarify requirements during production reces and meetings
- GS5.** discuss the creative and visual requirements of the shot with the DOP and producer
- GS6.** agree on the positioning of the shot with the DOP, production team and artists
- GS7.** discuss the camera path and timing with the camera and production teams, discuss problems and modifications required
- GS8.** communicate any problems that may affect the desired composition
- GS9.** guide the artists on their movements and timing
- GS10.** plan work according to the requirements and agreed timelines
- GS11.** manage within the agreed budget and minimize overruns
- GS12.** how to discover and resolve any technical problems which may affect composition
- GS13.** judge the focal distance/lengths required for each shot to ensure that the picture is sharp and captures all the creative elements required in the frame

MES/N0907: Operate Camera during Shoot

Description

This OS unit is about executing camera movements while maintaining the shot framing and composition

Elements and Performance Criteria

Pull focus and operate cameras during shoots

To be competent, the user/individual on the job must be able to:

- PC1.** focus and refocus the camera lenses for each shot
- PC2.** advise actors and performers regarding movement and positions
- PC3.** make modifications to the focus path, if required, based on any changes in the artists movements
- PC4.** execute camera movements established during rehearsals according to the instructions received by the dop while maintaining the focus length for each shot
- PC5.** ensure that the creative and technical quality of the shoot meets the desired production and post production standards

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** understand the overall style and creative aspects of the production
- KU2.** the role and contribution of key departments be liaised with, especially lighting and grips where the camera team has the maximum interaction
- KU3.** the principles of cinematography
- KU4.** understanding of still photography would be an added advantage
- KU5.** principles of composition
- KU6.** the mood of each shot and determine shot requirements accordingly
- KU7.** how the camera position, angle, placement and movement affect the perspective and required depth in the shot
- KU8.** ensure that each shot is in focus
- KU9.** how to frame the image keeping in mind the visual style, creative and technical requirements of the production
- KU10.** move the camera on the path charted maintaining the required timing for the shot
- KU11.** how to maintain a steady image during camera movements
- KU12.** how to maintain continuity for shots taken in a sequence
- KU13.** applicable health and safety guidelines, and ensuring that any risks to the health and safety of the cast and crew are minimised

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** refer and conform to the camera specification notes prepared
- GS2.** guide actors and artistes during shoot on their movement and timing
- GS3.** communicate any problem areas and ensure they get resolved by the relevant teams
- GS4.** collaborate with the different departments, especially with the lighting and grips department, to achieve the desired technical and creative quality of the image
- GS5.** plan work according to the requirements and agreed timelines
- GS6.** manage within the agreed budget and minimize overruns
- GS7.** how to resolve any technical problems during shoot

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

MES/N0104: Maintain Workplace Health & Safety

Description

This OS unit is about contributing towards maintaining a healthy, safe and secure working environment

Elements and Performance Criteria

Understanding the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** understand and comply with the organizations current health, safety and security policies and procedures
- PC2.** understand the safe working practices pertaining to own occupation
- PC3.** understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises
- PC4.** participate in organization health and safety knowledge sessions and drills

Knowing the people responsible for health and safety and the resources available

To be competent, the user/individual on the job must be able to:

- PC5.** identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency
- PC6.** identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms

Identifying and reporting risks

To be competent, the user/individual on the job must be able to:

- PC7.** identify aspects of your workplace that could cause potential risk to own and others health and safety
- PC8.** ensure own personal health and safety, and that of others in the workplace through precautionary measures
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** report any hazards outside the individuals authority to the relevant person in line with organizational procedures and warn other people who may be affected

Complying with procedures in the event of an emergency

To be competent, the user/individual on the job must be able to:

- PC11.** follow organizations emergency procedures for accidents, fires or any other natural calamity in case of a hazard
- PC12.** identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individuals authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organizations norms and policies relating to health and safety
- KU2.** Government norms and policies regarding health and safety and related emergency procedures
- KU3.** Limits of authority while dealing with risks/ hazards
- KU4.** The importance of maintaining high standards of health and safety at a workplace
- KU5.** The different types of health and safety hazards in a workplace
- KU6.** Safe working practices for own job role
- KU7.** Evacuation procedures and other arrangements for handling risks
- KU8.** Names and contact numbers of people responsible for health and safety in a workplace
- KU9.** How to summon medical assistance and the emergency services, where necessary
- KU10.** Vendors or manufacturers instructions for maintaining health and safety while using equipment, systems and/or machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to write and provide feedback regarding health and safety to the concerned people
- GS2.** how to write and highlight potential risks or report a hazard to the concerned people
- GS3.** read instructions, policies, procedures and norms relating to health and safety
- GS4.** highlight potential risks and report hazards to the designated people
- GS5.** listen and communicate information with all anyone concerned or affected
- GS6.** make decisions on a suitable course of action or plan
- GS7.** plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS8.** apply problem solving approaches in different situations
- GS9.** understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority
- GS10.** apply balanced judgments in different situations
- GS11.** How to write and provide feedback regarding health and safety to the concerned people
- GS12.** How to write and highlight potential risks or report a hazard to the concerned people
- GS13.** Read instructions, policies, procedures and norms relating to health and safety
- GS14.** Highlight potential risks and report hazards to the designated people
- GS15.** Listen and communicate information with all anyone concerned or affected
- GS16.** Make decisions on a suitable course of action or plan
- GS17.** Plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS18.** Apply problem solving approaches in different situations
- GS19.** build and maintain positive and effective relationships with colleges and customers
- GS20.** analyze data and activities
- GS21.** Understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority

Qualification Pack

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
VISUAL STYLE	Visual style comprises the look or appearance of the production including the lighting, colours, shadows, sets, costumes, locations and the way they will be captured on screen.
CREATIVE BRIEF	Creative brief is a document that captures the key questions that serve as a guide for the production including the vision, objective of the project, target audience, timelines, budgets, milestones, stakeholders etc.
SHOOT SCHEDULE	Shoot schedule is a listing of the sequences/shots that need to be captured on each shoot day
MULTI CAMERA	Multi-camera is a method of shooting where multiple cameras are used to simultaneously capture different views/images
BUDGET	Budget is an estimate of the total cost of production that may include a break-up of cost components
TIMELINES	Timelines is a listing of dates by which the production milestones/stages need to be completed
CONTINUITY	Continuity represents the seamless transition from one shot to another
SCRIPT	Script is a structured narrative of a story

Qualification Pack

SCREENPLAY	Screenplay is the script coupled with key characteristics of the scene and directions for acting
POST-PRODUCTION	Post-production is the final finishing phase of the production, where the raw footage is edited, special effects are added, music and sound are integrated, colour correction is done etc.
COLOUR GRADING	Colour grading is the process of enhancing and correcting the colours of the final production
DIGITAL INTERMEDIATE	Digital intermediate is the process where a film is digitised and the colour and image characteristics are modified
RECCE	Recce is a detailed visual and technical assessment of the attributes and suitability of a particular location for the shoot, usually through a personal visit
GRIPS	Grips is the department that specialises in mounting the camera on to tripods, dollies, cranes and other platforms for shoots
JIB	Jib is a device used for the movement of camera and operates like a see-saw, with the camera at one end and the camera controls at the other
LENSES	Lenses are used to capture images and are attached on to the body of the camera
FILTERS	Filters are used to alter the properties of light entering the camera lens. They are also used to create a number of special effects
DOLLY	Dolly is a platform with wheels on which the camera can be mounted and moved around during the shoots
MAGAZINES	Magazines are compartments within a camera that are used to hold the film tape
CLAPPER BOARDS	Clapper board is a slate that has information pertaining to each shot, used as a guide to mark shots and aid matching image with sounds
FOCUS LENGTH	Focus length is the angle of view from the lens
FRAMING	Framing is how the artists, objects, sets, locations etc. are positioned within the camera view for a single shot
MASTER SHOT	Also known as a cover shot, this shot is a long sequence that establishes an overview and aids assembly of smaller, closer shots with details

Qualification Pack

SECTOR	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
SUB-SECTOR	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
VERTICAL	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
OCCUPATION	Occupation is a set of job roles, which perform similar/related set of functions in an industry
FUNCTIONS	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
SUB-FUNCTIONS	Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function.
JOB ROLE	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
OCCUPATIONAL STANDARDS (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
PERFORMANCE CRITERIA	Performance Criteria are statements that together specify the standard of performance required when carrying out a task
NATIONAL OCCUPATIONAL STANDARDS (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
QUALIFICATION PACK CODE	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
QUALIFICATION PACK (QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
UNIT CODE	Unit Code is a unique identifier for an Occupational Standard , which is denoted by an "N".
UNIT TITLE	Unit Title gives a clear overall statement about what the incumbent should be able to do.

Qualification Pack

DESCRIPTION	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
SCOPE	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.
KNOWLEDGE AND UNDERSTANDING	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.
ORGANIZATIONAL CONTEXT	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
TECHNICAL KNOWLEDGE	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
CORE SKILLS/GENERIC SKILLS	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
