Qualification Pack

MES/N0909: Use of photographic equipment, technology ,camera techniques.

Description

This unit is about use of different photographic equipment, techniques, materials and resources.

Scope

The scope covers the following :

- This unit/task covers the following:
- Identify the right photography camera
- Uses of photographic equipment, materials, techniques and resources

Elements and Performance Criteria

Identify the right photography camera

To be competent, the user/individual on the job must be able to:

- PC1.** identify the right kind of camera / Drone (motionless still photography) for the photography uses such as for film, marriage, or other event.
- PC2.** handle camera menus and settings in order to set relevant camera functions such as shutter speeds, aperture, white balance and focus.
- PC3.** handle lens types like Prime vs. zoom, wide angle, standard, telephoto, angle of view, covering power, focal length, format, Lens features, Changing lenses,Focal length.
- PC4.** use of camera accessories eg. tripod, remote release, cable release, lens hood, filters digital (flash cards, hard drives), digital file formats (RAW, JPEG, TIFF) film (monochrome, colour, negative, transparency) film characteristics (speed, contrast, grain, resolution, colour balance, spectral sensitivity)
- PC5.** use exposure measurement devices eg. TTL, hand held; lighting eg. wavelength, colour temperature, reflection, refraction, absorption
- PC6.** use of lighting equipment eg. flash, continuous, fluorescent, reflectors, diffusers, screens, fill-in flash, motion blur, freezing movement, camera movements, panning, differential focus, depth of field etc.

Use of photographic equipment, materials, techniques and resources

To be competent, the user/individual on the job must be able to:

- PC7.** recognise anatomy of a compact /DSLR / and mobile device camera
- PC8.** recognise visual language eg. composition, scale, framing, contrast, colour, shape, line, texture
- PC9.** use exposure measurement methods eg. reflective, incident, subject brightness range, spot and centre weighted, matrix, multi-zone, compensation
- PC10.** analyses different camera framing methods: Extreme long shot, Long shot, Full shot, Medium shot, Close-up shot, Extreme close up, etc.

Qualification Pack

PC11. recognise different camera angles : High-angle shot, Low-angle shot, Eye-level shot, Bird's eye view, Canted shot, Tilt Shot, Three-quarter shot, Over-the shoulder shot, etc. as per the requirement of the scene, shot, location, performers expression, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** • how ideas, feelings, meanings and actions can be conveyed and interpreted in
• images and artefacts created in the chosen area(s) of Photography.
- KU2.** how images and artefacts relate to social, environmental, cultural and/or ethical contexts, and to the time and place in which they were created/shot.
- KU3.** continuity and change in different styles, genres and traditions relevant to Photography.
- KU4.** the appropriate use of the camera, film, lenses, filters and lighting for work in their chosen area of Photography
- KU5.** how different camera angles are used to serve as commentary on the subject matter in the frame
- KU6.** how camera framing methods are related to how close or far a subject is from the camera
- KU7.** have in-depth knowledge of lighting techniques and know how to achieve them
- KU8.** rule of thirds, The Golden Ratio, Balancing elements, Symmetry and Patterns, Leading lines, Background, Depth of field, Headroom/looking room and leading room, Framing, Cropping, Colour, Movement.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** • refer and conform to the camera technical specifications, accessories overview, software requirements mentioned in the manual or camera
• catalogue.
- GS2.** use the working vocabulary and specialist terminology which is relevant to their chosen area(s) of Photography.
- GS3.** create competitor analysis report with their product / service offerings, customers and target market
- GS4.** decide on which studio / digital channels / event types needs to be targeted based on the past performance and campaign goals
- GS5.** plan and allocate the budgets for different photography session
- GS6.** plan and allocate the budgets for different photography session
- GS7.** identify technical issues related to the photography which affects the visibility and rankings of the website in the search results
- GS8.** analyze the past customer data to identify the ideal target as per event / suit
- GS9.** analyze and understand past records of suiting / event capturing

MES/N0910: Produce still Images

Description

This OS unit is about producing/capturing stills images in accordance with the concept or theme of the story / event or scene and characterization which will be used during pre-production, production, postproduction of the film / event and for publicity as well.

Scope

The scope covers the following :

- This unit/task covers the following:
- Produce still images relevant to publicizing / marketing / branding
- Capture different types of shots which are directly relevant to publicizing the film /event etc.

Elements and Performance Criteria

Produce still images

To be competent, the user/individual on the job must be able to:

- PC1.** produces still images for different purpose like wedding ceremony, film shoots, and other events of importance
- PC2.** produce still images to be used for Hair/Make up and Costume Continuity, Continuity by script supervisor, art department, cinematographer, Dance, Stunt and Direction department.
- PC3.** capturing series of still images used as visual account reflecting the progression of the work used as Pre-checks for Heads of Department to conclude for opinions on works in progress for later filming.
- PC4.** capture series of exploratory images used by visual effects department to establish look and feel reference

Capture different types of shots which are directly relevant to publicizing the film / event etc.,

To be competent, the user/individual on the job must be able to:

- PC5.** capture the Character shot which is going to be central to the marketing campaign and central to recognition of the project's "brand".
- PC6.** produce character shots through which audience can develop an attachment to the story and/or character and/or the supporting characters.
- PC7.** ensemble Shot of two characters or majority of the project's cast which can/must establish for the audience the relationships that exist between the characters.
- PC8.** capture episodic Shot that alludes to the drama, the comedy, the action of the show.
- PC9.** still images which are used for publicity in the Electronic Publicity Kit, as well as on web sites, in TV and festival guides, on posters, and as cover art for a whole range of film merchandising.
- PC10.** publicise still images which are used by the production company, publicity designers, the distributors and the broadcasters.
- PC11.** production stills which are key to the successful marketing of films, television shows, and factual media.

Qualification Pack

- PC12.** capture images which reflects lead performer/s attitude, body language, style, expression, movement, performance, timing, etc.
- PC13.** produce a series of exploratory images which will be used during production, postproduction of the film by various departments.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** story, scene, character age, mood, attitude, behavior, social and economic status.
- KU2.** morning blocking rehearsal to attempt to capture good shots.
- KU3.** how to position themselves as close to the film camera as possible, and shoot every scene in detail.
- KU4.** how to manage timing: time the shot perfectly according to the scene content.
- KU5.** how to demonstrate and handle variety of formats like digital, manual 35mm and medium format cameras to use for unit stills photography.
- KU6.** how to use objects like Blimp, which houses the stills camera and cuts out any noise it might make.
- KU7.** how to maintain a steady image during camera movements
- KU8.** how to maintain continuity for shots taken in a sequence

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read / understand the script.
- GS2.** discuss with team (director, art director, cinematographer, effects supervisor, etc.) what colours / visual images/props could be used to enhance look and feel of the scene.
- GS3.** Communicate and work with the first Assistant Director, before or after a take
- GS4.** Communicate with Hair/Make-up/ Wardrobe Stylists-to give actors final checks for still shots making everyone look good.
- GS5.** Communicate with Gaffer/Lighting Crew- to set up the lights, make them safe (structurally and electrically) and to create the mood for the scene being shot.
- GS6.** run through the shooting schedule with film PR
- GS7.** Follow the Director's instructions and being in tune with the Directors creative vision and understanding the compositions and shots that appeal to them and meet the productions needs.
- GS8.** work with the actors to create the desired shots, usually based on a brief from the poster artwork designers.
- GS9.** carry 4 or 5 different cameras (both manual and digital) and necessary equipment, which enable to shoot concurrently on different kind of film stocks, lenses, tripods, etc.
- GS10.** Identify issues that may arise during production/ probe into issues highlighted by the production team and explore options to resolve them proactively.
- GS11.** be patient and sensitive when working on set and capturing the scene/shots without affecting actors performance.

Qualification Pack

- GS12.** conflict management and negotiation skills.
- GS13.** produce production stills which can/will be used as copyright material in relation to the film concept and theme.
- GS14.** ability to analyse and interpret scene in terms of: composition and subject matter, the context in which they will be viewed or used and how images communicate meaning .

MES/N0911: Apply drone techniques for still photography

Description

This OS unit is about Drone photography used to capture still images (motionless Drone movement).

Scope

The scope covers the following :

- This unit/task covers the following:
- Analyse Drone Techniques for photpgraphy
- Apply drone technology for capturing still images

Elements and Performance Criteria

Analyse Drone Techniques for photpgraphy

To be competent, the user/individual on the job must be able to:

- PC1.** describe drone technology and its uses
- PC2.** analyse scope for its uses including legal provisions
- PC3.** prepare pre-fly checklist like flyzone, weather, surroundings, etc.
- PC4.** demonstrate its resolution, scale and applicable projection
- PC5.** confirm location for photography and discuss barriers
- PC6.** plan in line with the requirement of the events like launch session, weddings, conferences, meeting etc.
- PC7.** oversees the security, operation and maintenance of equipment utilized for photography
- PC8.** Discuss features available in drone and required drone

Apply drone technology for capturing still images

To be competent, the user/individual on the job must be able to:

- PC9.** Demonstrate drive of drone and its stationary (motionless) position and angles to capture image and necessary tools requirements including lightings
- PC10.** interpret safe operation of drone and its legal measures/restrictions
- PC11.** ensure drone settings like camera, battery, firmware, analyse difference between copyrighted material, fair use, intellectual property, and derivative works
- PC12.** investigate whether need of permission to use any of their digital assets
- PC13.** define range of shooting area and plan of sequences as well as suitable landing pad
- PC14.** interpret instructions given by the clients for the required mood, theme and feel
- PC15.** drive drone slowly to take photographs in sequence and in stationary need, motion control
- PC16.** use the FPV to frame up the shot
- PC17.** capture images which reflects lead performer/s attitude, body language,
- PC18.** style, expression, movement, performance, timing, etc
- PC19.** produce a series of exploratory images which will be used during production, postproduction of the film by various departments.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** story, scene, character age, mood, attitude, behavior, social and economic status.
- KU2.** know how to operate drone
- KU3.** morning blocking rehearsal to attempt to capture good shots.
- KU4.** how to observe for continuity issues that may impact actual shoots
- KU5.** Know fly time and legal restrictions
- KU6.** how to manage timing: time the shot perfectly according to the scene content.
- KU7.** how to demonstrate and handle variety of formats like digital, manual 35mm and medium format cameras to use for videography.
- KU8.** how to use objects like Blimp, which houses the stills camera and cuts out any noise it might make.

MES/N0912: Handle digital image

Description

This unit is about how to plan, set up and control the digital workflow to review quality of a wide range of finished images and identify in detail how both visual and technical improvements could be made.

Scope

The scope covers the following :

- This unit/task covers the following:
- Setup digital workflow for optimising, selecting, editing images.
- Implementation, use and maintenance of digital colour management procedures.
- Add key metadata and Store images

Elements and Performance Criteria

Setup digital workflow for optimising, selecting, editing images

To be competent, the user/individual on the job must be able to:

PC1. plan, set-up and control digital workflow to maximise effectiveness and efficiency.

Implementation, use and maintenance of digital colour management procedures.

To be competent, the user/individual on the job must be able to:

PC2. import digital images from a camera to a digital workstation and make basic technical adjustments or corrections like adjusting or correcting exposure, colour balance, brightness and contrast, sharpening the image.

PC3. make minor repairs to images or dealing with unwanted effects to the imported images to optimise them for future use.

PC4. assess individual images for their visual and aesthetic qualities, composition and impact in relation to their likely or intended use, for their ability to tell a story or complement each other, when they are intended to be used together as a picture feature or montage.

PC5. implement, use and maintain digital colour management procedures to maintain colour accuracy from image capture to output.

PC6. use creative retouching tools for artistic and commercial purposes like retouching for fashion, beauty or advertising photography, image compositing, the use of CGI and the creation of 3D imaging.

Add key metadata and Store images

To be competent, the user/individual on the job must be able to:

PC7. add key metadata including copyright and other crucial information such as picture number, caption and credit in image files.

PC8. prepare image output and transmission of digital files

PC9. store, conserve and preserve images by using different types of image asset management systems.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** production schedule and timelines
- KU2.** basics about film, theatre and television production.
- KU3.** how same/different images are used in different areas of the photo imaging industry in both print media and online.
- KU4.** purpose of the software, its set-up, the compatibility of hardware components, the efficient setting-up and linking of hardware components, and the creation and use of automated procedures for optimising the efficiency of software.
- KU5.** the principles of colour theory relating to additive and subtractive systems: RGB, CMYK, colour space and colour gamuts.
- KU6.** different methods of image file management within both operating systems and software, and audience.
- KU7.** retouching tools, filters, layer masks, layer styles and effects, blend modes, etc.
- KU8.** calibrating and profiling hardware to maintain colour accuracy between Cameras, Scanners, Monitors, Proofing devices and Printers.
- KU9.** relate between file size, bit depth and resolution.
- KU10.** applicable health and safety guidelines.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** cataloguing digital and physical copies of images in a manner that enables potential users to access images to meet a need.
- GS2.** consider the potential usage of an image when assigning a headline and description to an image.
- GS3.** assign keywords to classify images including by content, topic and concept.
- GS4.** research the profile and preferences of the target audience
- GS5.** research creative and innovative ways to represent the contest thru images
- GS6.** study new and emerging types of digital imaging and designing softwares
- GS7.** communicate and follow instructions from relevant people in a way that supports the production process, such as director, publicity designer, etc.
- GS8.** how to deal with: File conversions, File compression and expansion, Transmission of digital files.
- GS9.** foresee technical and creative issues that may arise during production/postproduction and resolve issues proactively.
- GS10.** conflict management and negotiation skills

MES/N0107: Develop and maintain portfolio

Description

This unit is about exploring the opportunity to work in media & entertainment industry as artistic professional.

Elements and Performance Criteria

Create portfolio

To be competent, the user/individual on the job must be able to:

- PC1.** prepare portfolio, recording, show reel, etc.,
- PC2.** choose best headshots and performance shots to showcase
- PC3.** create unique portfolio which speaks to a range of audiences
- PC4.** apply social media network like youtube / linkedin for promotional purposes

Approach industry to avail opportunities

To be competent, the user/individual on the job must be able to:

- PC5.** promote themselves through networking
- PC6.** approach associations for becoming a member
- PC7.** approach clients (producers /casting directors / dance director etc.) in a professional manner
- PC8.** be on time and in suggested dress for audition / presentation
- PC9.** be ready to cold-read as per project requirement(s) in line with the expertise
- PC10.** be ready for presentation /screen test, voice test etc., wherever required during audition/interviewing
- PC11.** negotiate for remuneration of contract / work order aligned with the assignments
- PC12.** recognize common components of an assignment contract including term and duration of project
- PC13.** collaborate with others to determine technical details of production

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** brand value of the business /production houses
- KU2.** relevant designing / distribution policy of India
- KU3.** relevant guidelines defined by Government like broadcasting guideline of Ministry of Information and Broadcasting
- KU4.** legal framework pertaining to design, film, television etc.
- KU5.** how to familiarize with the content of the assignments (design /script etc.)
- KU6.** industry personnel and terminology, interview, audition and screen test processes and the role of agents, contracts, payments, insurance.
- KU7.** how to negotiate a professional contract for his services, including an understanding of payments, taxation, convergence rate and other legal matters

Qualification Pack

- KU8.** about the risk involved in getting work orders in case of freelancing
- KU9.** how to update of portfolio in line with change in technology vs increase in experience.
- KU10.** relevant industry association / forum whom individual will approach while in professional trouble
- KU11.** role of marketing and distribution in ensuring the chances of commercial success, including the role of individuals involvement
- KU12.** principles and methods for showing, promoting, and selling products or services, including, marketing strategy and tactics, product demonstration, sales techniques, and sales control systems.
- KU13.** arrangements and equipment for a design / shoot, whether lab or studio set or location, indoors or outdoors, with regard to set, premises, cameras, lighting, set furniture and props, costumes and makeup.
- KU14.** business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources
- KU15.** media production, communication, and dissemination techniques and methods, including alternative ways to inform and entertain via written, oral, and visual media.
- KU16.** principles and methods for showing, promoting, and selling products or services. This includes marketing strategy and tactics, product demonstration, sales techniques, and sales control systems.
- KU17.** responsibility of each person on the production floor as they affect the individual performance.
- KU18.** process of dubbing and voice-over work etc. wherever applicable
- KU19.** performance in a local language when required

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and study the assignments and remember lines and actions of the task performed / character portrayed
- GS2.** be patient while designing / costuming, makeup and other preparatory work suited the profile for the test
- GS3.** take suggestions from the client to effectively perform the task / portray the character.
- GS4.** respect and consult with other associates on the production floor to ensure each is helping to create their best performances according to the clients vision
- GS5.** developing constructive and cooperative working relationships with others, and maintaining them
- GS6.** understand the creative vision of the clients (Director/ Script writer and Producer) as appropriate
- GS7.** improvise speech and activity when necessary during performance
- GS8.** ability to communicate information and ideas in speaking so others will understand
- GS9.** ability to communicate information and ideas in speaking so others will understand
- GS10.** ability to listen to and understand information and ideas presented through spoken words and sentences

Qualification Pack

- GS11.** decide on whether to opt for work order or not
- GS12.** plan, prepare and practice performance in accordance to the role being assigned for
- GS13.** work on the areas of improvement identified/highlighted in line with the contract / assignments
- GS14.** assess if the role meets his/her capabilities and skill-sets
- GS15.** critically appraise quality of own performance to identify issues
- GS16.** check that your own work meets customer/project requirements

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance

Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of

marks for Theory and Skills Practical for each PC.

2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.

3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option

NOS/set of NOS.

4. Individual assessment agencies will create unique question papers for theory part for each candidate at each

examination/training center (as per assessment criteria below).

Qualification Pack

5. Individual assessment agencies will create unique evaluations for skill practical for every student at each

examination/training center based on this criterion.

6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully

clear the assessment.

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Accessories	Anything carried or worn on top of the basic costume for decorative purposes, e.g. a shawl, a purse.
AF Servo	Aka Continuous Focus, AF Servo, is maintained by partially pressing the camera's shutter release button, which enables to continuously maintain focus on a moving subject as the subject moves within the frame.
Anti Shake	Also known as Image Stabilization (IS), Vibration Reduction (VR), or simply image stabilization, anti-shake technology is a method of reducing the effects of camera movement on the photographic image.
