MES/Q0905: Cinematographer

Brief Job Description

A Cinematographer is an artist, using video camera and responsible for transporting or setting up the equipment, shooting, hauling it away, and then creating the movie or film clip/news clip etc. Apart from capturing the clip individual will also be responsible for video editing, inserting closed captions, graphics, or other on-screen text into a video and special effects to a video. These tasks may vary by type of Videographer. For example, a wedding Videographer might spend the day talking to the client and shooting the event while a Newspaper Videographer will be filming scenes of human crisis, political news, etc. in all the cases the responsibility of the individual is behind the camera.

Personal Attributes

The person must be able to work under the supervision of sponsor, and must have the ability to plan and capture scene in sequence and motion. The role requires excellent communication skills and collaborative abilities. The videographer must be manual dexterity, physical mobility, and some physical strength/stamina, bravery to get the camera shot in risky situations with creativity and attention to detail.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MES/N0916: Monitor video editing](#)
2. [MES/N0915: Apply Drone cinematography techniques](#)
3. [MES/N0914: Carryout shooting](#)
4. [MES/N0913: Equipment handling and video capture](#)
5. [MES/N0107: Develop and maintain portfolio](#)
6. [MES/N0104: Maintain Workplace Health & Safety](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Remarks:

The QP has been rationalised as per NCVET guidelines.

Qualification Pack

MES/N0916: Monitor video editing

Description

This NOS is about monitor and supervise clip/video editing, inserting closed captioning, graphics, or other on-screen text into a video and adding computer graphics and special effects to a video

Scope

The scope covers the following :

- Edit clip / captured videos
- Apply principle and rule of copyright

Elements and Performance Criteria

Edit clip / captured videos

To be competent, the user/individual on the job must be able to:

- PC1.** compile captured videographic datas in sequence and respective folders
- PC2.** analyse scope for editing / intrusion of effects
- PC3.** edits and assembles final visual/audio program material
- PC4.** ensures consistency and relevancy to production
- PC5.** monitors technical quality of end product
- PC6.** collaborates with a producer/director regarding preconceived ideas and physical realities of production setting and participates in program's visual development in conjunction with a producer
- PC7.** oversees the security, operation and maintenance of equipment utilized in shooting and editing
- PC8.** analyze how a particular shot will impact the mood and intention in a video
- PC9.** create motion effects for both video and audio
- PC10.** interviewing people and creating a film clip via editing raw footage
- PC11.** working in the studio as part of a production team to edit film
- PC12.** inserting closed captioning, graphics, or other on-screen text into a video
- PC13.** adding computer graphics and special effects to a video

Apply principle and rule of copyright

To be competent, the user/individual on the job must be able to:

- PC14.** interpret applicable copyright rule
- PC15.** analyse difference between copyrighted material, fair use, intellectual property, and derivative works
- PC16.** uses copyrighted material with written permission from the creator of the material (or from its copyright holder) only
- PC17.** protect material even if it does not display the © symbol
- PC18.** interpret penalties for violating copyright laws

Qualification Pack

PC19. write or send e-mail to the author or creator and ask permission to use the material

PC20. investigate whether need of permission to use any of their digital assets

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** story, scene, character age, mood, attitude, behavior, social and economic status.
- KU2.** morning blocking rehearsal to attempt to capture good shots
- KU3.** how to position themselves as close to the film camera as possible, and shoot every scene in detail.
- KU4.** how to observe for continuity issues that may impact actual shoots
- KU5.** how to manage timing: time the shot perfectly according to the scene content.
- KU6.** how to demonstrate and handle variety of formats like digital, manual 35mm and medium format cameras to use for videography
- KU7.** how to use objects like Blimp, which houses the stills camera and cuts out any noise it might make.
- KU8.**
 - how to use available light, both daylight and artificial lighting, combinations of daylight, free-standing lights and camera-mounted flash,
 - both bounce flash and direct flash.
- KU9.** how to maintain a steady image during camera movements
- KU10.** how to maintain continuity for shots taken in a sequence

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read / understand the script.
- GS2.**
 - discuss with team (director, art director, cinematographer, effects supervisor, etc.) what colours / visual images/props could be used to
 - enhance look and feel of the scene.
- GS3.** communicate and work with the First Assistant Director, before or after a take so that the stills photographer can get 'that shot'
- GS4.** communicate with Hair/Make-up/Wardrobe Stylists - to give actors final checks for still shots making everyone look good.
- GS5.** communicate with Gaffer/Lighting Crew - to set up the lights, make them safe (structurally and electrically) and to create the mood for the scene being shot.
- GS6.** run through the shooting schedule with film PR
- GS7.**
 - follow the Director's instructions and Being in tune with the Director's creative vision and understanding the compositions and shots that
 - appeal to theme and meet the production's needs.
- GS8.** work with the actors to create the desired shots, usually based on a brief from the poster artwork designers.

Qualification Pack

- GS9.** • Identify issues that may arise during production/ probe into issues highlighted by the production team and explore options to resolve them
• proactively
- GS10.** be patient and sensitive when working on set and capturing the scene/shots without affecting actors performance.
- GS11.** conflict management and negotiation skills
- GS12.** produce production stills which can/will be used as copyright material in relation to the film concept and theme.
- GS13.** • ability to analyse and interpret scene in terms of: composition and subject matter, the context in which they will be viewed or used and
• how images communicate meaning .

MES/N0915: Apply Drone cinematography techniques

Description

This NOS is about application of latest cinematographic techniques using Drone to capture cinema/clip/wedding shoots etc.

Scope

The scope covers the following :

- Analyse Drone Technology
- Apply drone technology for shooting

Elements and Performance Criteria

Analyse Drone Technology

To be competent, the user/individual on the job must be able to:

- PC1.** describe drone technology and its uses
- PC2.** analyse scope for its uses including legal provisions
- PC3.** demonstrate its resolution, scale and applicable projection
- PC4.** measure location to be used for the purpose including fencing, cable wiring (power and other communication) etc.
- PC5.** monitors technical quality of end product
- PC6.** discuss with Director /Producer / Clients about its application and requirements
- PC7.** oversees the security, operation and maintenance of equipment utilized in shooting and editing
- PC8.** analyze how a particular shot will impact the mood and intention in a video (aerial pan, reveal, flu over, pedestral, tracking shot)

Apply Drone technology for shooting

To be competent, the user/individual on the job must be able to:

- PC9.** interpret safe operation of drone and its legal measures/restrictions
- PC10.** ensure drone settings like camera, battery, firmware, analyse difference between copyrighted material, fair use, intellectual property, and derivative works
- PC11.** interpret penalties for violating copyright laws
- PC12.** investigate whether need of permission to use any of their digital assets
- PC13.** use fiducial mark before start of shooting wherever desire
- PC14.** define range of shooting area and plan of sequences
- PC15.** interpret instructions given by the director for the required mood, theme and fee
- PC16.** Conduct shooting using drone application/techniques

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.**
 - story, scene, character age, mood, attitude, behavior, social and economic
 - status
- KU2.** know how to operate drone
- KU3.** morning blocking rehearsal to attempt to capture good shots.
- KU4.** how to position themselves as close to the film camera as possible, and shoot every scene in detail.
- KU5.** how to observe for continuity issues that may impact actual shoots
- KU6.** Know fly time and legal restrictions
- KU7.** how to manage timing: time the shot perfectly according to the scene content
- KU8.** how to demonstrate and handle variety of formats like digital, manual 35mm and medium format cameras to use for videography.
- KU9.** how to use objects like Blimp, which houses the stills camera and cuts out any noise it might make.
- KU10.**
 - how to use available light, both daylight and artificial lighting combinations of daylight, free-standing lights and camera-mounted flash,
 - both bounce flash and direct flash.

MES/N0914: Carryout shooting

Description

This NOS is about deciding the shot framing and composition, carryout shooting for film, event, weddings, etc. and marking out the camera positions including rehearsals prior to shoot for film, advertisement etc.

Scope

The scope covers the following :

- Prepare for shoot
- Verify set/location and other essential
- Manage Crew
- Conduct shooting

Elements and Performance Criteria

Prepare for shoot

To be competent, the user/individual on the job must be able to:

- PC1.** analyse the shooting requirements
- PC2.** analyse script, vision of producer / director/ clients
- PC3.** establish, or support in establishing, the focus requirements for shots (eg: pan, tilt, tracking, static, zoom, close-up, wide-shot, master shot, high/low, angle shot, long shot and mid shot), based on the creative and technical requirements of production mark
- PC4.** support in marking, the focus lengths/angle based on the required composition (eg: positioning of elements within a frame), perspective (eg: point of view) and aspect ratio (eg: relationship between width and height)
- PC5.** ensures consistency and relevancy to production
- PC6.**
 - prepare, or support in preparing, a focus path for a sequence depending on the movement, timing, start and finish points during shoots and report
 - potential issues to the Producer and Director and relevant teams for rectification

Verify set/location and other essentials

To be competent, the user/individual on the job must be able to:

- PC7.** oversees the security, operation and maintenance of equipment utilized in shooting and editing
- PC8.** analyze how a particular shot will impact the mood and intention in a video
- PC9.** ensure perfect motion effects for both video and audio
- PC10.** analyse difference between copyrighted material, fair use, intellectual property, and derivative works
- PC11.** uses copyrighted material with written permission from the creator of the material (or from its copyright holder) only
- PC12.** investigate whether need of permission to use any of their digital assets.
- PC13.** monitors technical quality as expected outcomes

Qualification Pack

PC14. collaborates with a producer/director regarding preconceived ideas and physical realities of production setting and participates in program's visual development in conjunction with a producer

PC15. ensure all preparation done for shooting

Manage Crew

To be competent, the user/individual on the job must be able to:

PC16. work closely with the director to make decisions on aesthetics and visual representation

PC17. arrange required team for the cast/shoot/recording

PC18. assign suitable duties across crew in line with DOP

PC19. check all equipment are working properly

PC20. interviewing team/crew and creating a film clip via editing raw footage

PC21. ensure crew are updated with the scene / script demand

Conduct shooting

To be competent, the user/individual on the job must be able to:

PC22. write or send e-mail to the author or creator and ask permission to use the material

PC23. interpret instructions given by the director for the required mood, theme and feel

PC24. relay instructions and describe project-specific demands to the camera operators and production crew as well as and operate camera throughout for shooting advise director on suitable composition and use of lighting, shadow and fill

PC25. advise director on suitable composition and use of lighting, shadow and fill

PC26. listen to feedback from the camera operators and decide how to improve their performance

PC27. protect material even if it does not display the © symbol

PC28. interpret penalties for violating copyright laws

PC29. .working in the studio as part of a production team to edit film

PC30. inserting closed captioning, graphics, or other on-screen text into a video

PC31. adding computer graphics and special effects to a video

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. story, scene, character age, mood, attitude, behavior, social and economic status.

KU2. morning blocking rehearsal to attempt to capture good shots.

KU3. how to position themselves as close to the film camera as possible, and shoot every scene in detail.

KU4. how to observe for continuity issues that may impact actual shoots

KU5. Strong team management skills

KU6. possesses strong technical knowledge of cameras and the film production process

KU7. how to manage timing: time the shot perfectly according to the scene content.

KU8. how to demonstrate and handle variety of formats like digital, manual 35mm and medium format cameras to use for videography.

Qualification Pack

- KU9.** how to use objects like Blimp, which houses the stills camera and cuts out any noise it might make.

MES/N0913: Equipment handling and video capture

Description

This NOS is about use of different equipment, techniques, materials etc. used to capture videos and videography

Scope

The scope covers the following :

- Equipment handling
- Video capturing

Elements and Performance Criteria

Equipment handling

To be competent, the user/individual on the job must be able to:

- PC1.** interpret role of videographer
- PC2.** figuring out what type of equipment to use like high resolution camera, Drone etc
- PC3.** cleaning and disassembling hardware
- PC4.** setting up and tearing down cameras, audio recorders, lighting, microphones, and props
- PC5.** calibrating, setting of resolution and maintaining equipment
- PC6.** do small repair on broken equipment
- PC7.** check all equipment to determine technical quality of recording, audio and lighting apparatus prior to operation in the field.

Video capturing

To be competent, the user/individual on the job must be able to:

- PC8.** assess basics of exposure, white balance, and camera operation of a DSLR
- PC9.** analyse camera movements: Pan, Tilt, dolly, track. Simple shot, complex shot
- PC10.** develop shot, Video camera operation
- PC11.** conduct pre-production activities including concept, script, storyboard, treatment
- PC12.** uses other film-related equipment, including a tripod, slider, glide cam, etc.
- PC13.** uses digital editing software (we will be using Adobe After Effects, Premiere & FCP)
- PC14.** makes technical decisions regarding such elements as appropriate lighting, shooting angle and placement and type of microphone; receives explicit instructions regarding assignment
- PC15.** assists a producer/director regarding preconceived ideas and physical realities of production setting
- PC16.** record important events using camera, lighting, and audio equipment

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** how ideas, feelings, meanings and actions can be conveyed and interpreted in images and artefacts created in the chosen area(s) for videography
- KU2.** how images and artefacts relate to social, environmental, cultural and/or ethical contexts, and to the time and place in which they were created/shot

MES/N0104: Maintain Workplace Health & Safety

Description

This OS unit is about contributing towards maintaining a healthy, safe and secure working environment

Elements and Performance Criteria

Understanding the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** understand and comply with the organizations current health, safety and security policies and procedures
- PC2.** understand the safe working practices pertaining to own occupation
- PC3.** understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises
- PC4.** participate in organization health and safety knowledge sessions and drills

Knowing the people responsible for health and safety and the resources available

To be competent, the user/individual on the job must be able to:

- PC5.** identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency
- PC6.** identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms

Identifying and reporting risks

To be competent, the user/individual on the job must be able to:

- PC7.** identify aspects of your workplace that could cause potential risk to own and others health and safety
- PC8.** ensure own personal health and safety, and that of others in the workplace through precautionary measures
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** report any hazards outside the individuals authority to the relevant person in line with organizational procedures and warn other people who may be affected

Complying with procedures in the event of an emergency

To be competent, the user/individual on the job must be able to:

- PC11.** follow organizations emergency procedures for accidents, fires or any other natural calamity in case of a hazard
- PC12.** identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individuals authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organizations norms and policies relating to health and safety
- KU2.** Government norms and policies regarding health and safety and related emergency procedures
- KU3.** Limits of authority while dealing with risks/ hazards
- KU4.** The importance of maintaining high standards of health and safety at a workplace
- KU5.** The different types of health and safety hazards in a workplace
- KU6.** Safe working practices for own job role
- KU7.** Evacuation procedures and other arrangements for handling risks
- KU8.** Names and contact numbers of people responsible for health and safety in a workplace
- KU9.** How to summon medical assistance and the emergency services, where necessary
- KU10.** Vendors or manufacturers instructions for maintaining health and safety while using equipment, systems and/or machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to write and provide feedback regarding health and safety to the concerned people
- GS2.** how to write and highlight potential risks or report a hazard to the concerned people
- GS3.** read instructions, policies, procedures and norms relating to health and safety
- GS4.** highlight potential risks and report hazards to the designated people
- GS5.** listen and communicate information with all anyone concerned or affected
- GS6.** make decisions on a suitable course of action or plan
- GS7.** plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS8.** apply problem solving approaches in different situations
- GS9.** understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority
- GS10.** apply balanced judgments in different situations
- GS11.** How to write and provide feedback regarding health and safety to the concerned people
- GS12.** How to write and highlight potential risks or report a hazard to the concerned people
- GS13.** Read instructions, policies, procedures and norms relating to health and safety
- GS14.** Highlight potential risks and report hazards to the designated people
- GS15.** Listen and communicate information with all anyone concerned or affected
- GS16.** Make decisions on a suitable course of action or plan
- GS17.** Plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS18.** Apply problem solving approaches in different situations
- GS19.** build and maintain positive and effective relationships with colleges and customers
- GS20.** analyze data and activities
- GS21.** Understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

NVEQF	National Vocational Education Qualifications Framework
NVQF	National Vocational Qualifications Framework

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles which performs similar or related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards(OS)	OS specify the standards of performance that an individual must achieve when carrying out a function at the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task
Aberration	A distortion of image quality or color rendition in a photographic image caused by optical limitations of the lens used to capture the image.

Qualification Pack

Accessories	Anything carried or worn on top of the basic costume for decorative purposes, e.g. a shawl, a purse.
AF Servo	Aka Continuous Focus, AF Servo, is maintained by partially pressing the camera's shutter release button, which enables to continuously maintain focus on a moving subject as the subject moves within the frame.
Anti Shake	Also known as Image Stabilization (IS), Vibration Reduction (VR), or simply image stabilization, anti-shake technology is a method of reducing the effects of camera movement on the photographic image.
APS-C (APSC)	A term used to describe the size of the digital imaging sensors used in almost all compact DSLRs. Bit A bit (binary digit) is the smallest unit of digital information.
Bitmap	A method of storing digital information by mapping out an image bit by bit.
Blimp	sound proof enclosure for an SLR stills camera to enable the stills photographer to shoot silently.
Blocked Shadows	Term for lack of, or loss of, shadow detail in a photographic image, usually the result of underexposure or images captured by a lower resolution (and less dynamic) imaging sensor.
Bokeh	An English transliteration of a Japanese word that means 'haze' or 'blur.'
Bracketing	Bracketing involves taking multiple images of the same scene.
Budget	Budget is an estimate of the total cost of production that may include a break-up of cost components
Burst	Rate The number of consecutive images a digital camera can capture continuously before filling the memory buffer or memory card.
Call sheet	A daily schedule of filming for a movie or television show
CMYK Color	CMYK (Cyan, Magenta, Yellow, Black) is the color space used for commercial offset printing.
Color Calibration	A process by which the image source (digital camera or scanner), monitor and output (printer) are calibrated to use the same or similar color standard.

Qualification Pack

Computer-generated effects	Computer-generated effects is the process of creating illusionary images for use in productions Continuity Continuity represents the seamless transition from one shot to another Costume Is the distinctive style of dress of an individual or group that reflects their class, gender, profession, ethnicity, nationality, activity or epoch.
Copyright Laws	A legal framework linked to intellectual property and the rights given to creators of original products/ concepts
Creative Brief	Creative brief is a document that captures the key questions that serve as a guide for the production including the vision, objective of the project, target audience, timelines, budgets, milestones, stakeholders etc.
Crew Show	AKA Technical Rehearsal, Stop Start Rehearsal -This is an early rehearsal of a scene for the benefit of the crew.
Digital Negative	Digital Negative (DNG) is an open raw image format owned by Adobe and used for digital photography
Editing	Editing is the process of cutting, organising and putting together audio, visual footage to prepare an accurate, condensed, consistent final output
Exposure	Exposure is the phenomenon of light striking the surface of film or digital imaging sensor.
Financer	An entity (individual or organization) that provides financing for a project
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Hot Shoe	A 'live' accessory shoe, usually located on the top of the camera prism housing, which enables you to mount and trigger an electronic flash or wireless transmitter.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Parallax	The difference between the image seen by a viewing system and the image recorded by the imaging sensor.
Personal space	The 'space bubble' around the body, extending as far as the body and body parts can reach, without travelling
Pixel	Short for picture element, pixels are the tiny components that capture the digital image record in your camera.

Qualification Pack

Quick change	any costume change completed when an actor has a limited amount of time, sometimes as few as twenty seconds.
Rehearsal	A practice or trial performance of a play or scene
RGB Color (Red Green Blue)	Computers and other digital devices handle color information as shades of red, green and blue.
Saturation	Saturation is the depth of the colors within a photographic image.
Script	Script is a structured narrative of a story
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Shooting schedule	Is a project plan of each day's shooting for a film production
Shutter	A mechanism in the camera that controls the duration of transmission the light that reaches the film or sensor.
Silhouette	The dark shape and outline of someone or something visible in restricted light against a brighter background.
SLR (Single-Lens-Reflex)	A camera that utilizes a prism and mirror system to project the image seen by the lens onto a focusing screen located below the prism housing.
Sub-functions	Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function
Target Audience	Group of people at whom content/ advertizing is aimed.
Time Lapse	A series of photographs captured over a period of time. These images can be captured in variable or set time intervals over the course of seconds, minutes, hours, days, weeks, etc.
Timelines	Timelines is a listing of dates by which the production milestones/stages need to be completed
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Vignetting	Darkening of the edges of a photographic image due to the inability of a lens to distribute light evenly to the corners of the frame.
Visual style	Visual style comprises the look or appearance of the production including he lighting, colours, shadows, sets, costumes, locations and the way they will be captured on screen.

Qualification Pack

Wardrobe	The costumes of a theatre or theatre troupe, also the room or department in which they are made, and in some cases, stored.
Watermark	a watermark is an image or icon that is embedded into paper for security purposes
White Balance	The camera's ability to correct color cast or tint under different lighting conditions including daylight, indoor, fluorescent lighting and electronic flash.
