MES/N0917: Estimate lighting requirements

Description

This OS unit is about estimating Lighting requirements for different settings and locations as appropriate to the role, based upon production schedules, budgetary restrictions, logistical nuances of having the lighting equipment present and functioning at the day/s of the shoot.

Scope

The scope covers the following :

- Demonstrate various aspects of lighting in given budget

Elements and Performance Criteria

Estimate various aspects of lighting in given budget.

To be competent, the user/individual on the job must be able to:

- PC1.** Analyse the film-making/photography process and the creative objectives of the production, with regards to lighting aspects, as relevant to the role
- PC2.** • Demonstrate different aspects of 70 lighting, which may include:
- □ Types of lighting, power supply and management systems
 - □ Lighting requirements for different settings and locations
 - □ Process flows of the lighting process
 - □ Technical specifications attached to the equipment used in lighting
- PC3.** Measure roles and responsibility of team and each member in the lighting department's, roles and responsibilities, and one's own/others scope for handling lighting equipment
- PC4.** Estimate realistic lighting requirements as appropriate to the role, based upon production schedules, budgetary restrictions, logistical nuances of having the lighting equipment present and functioning at the day/s of the shoot, and discussions in the pre-production planning stage (if appropriate)

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the creative vision and elements of production with relevant to the individuals job role
- KU2.** the profile and preferences of the target audience
- KU3.** the production budget and timelines with relevant to the individuals job role
- KU4.** the theory and principles of lighting, shadows, exposure, natural light, color space, reflections etc.
- KU5.** the fundamentals of photography and cinematography
- KU6.** the fundamentals of lighting optimization
- KU7.** the pipeline of rendering and compositing relevant to the individuals job role
- KU8.** Technical specifications attached to the equipment used in lighting
- KU9.** the different types of lighting that can be applied to objects and layouts

Qualification Pack

- KU10.** how to visualize a scene under different lighting conditions
- KU11.** the traditional techniques of lighting including techniques used in theatrical stage lighting, product lighting etc.
- KU12.** the sources for research and reference material
- KU13.** applicable copyright norms and intellectual property rights
- KU14.** applicable health and safety guidelines
- KU15.** resources/equipment to be procured and the allocated budget with the creative and finance teams
- KU16.** production schedule relevant to lighting into a daily task list, for oneself or the wider team

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document notes on lighting, to help present to the director and producer, and to guide the production process
- GS2.** read and understand the script and analyze the lighting requirements based on it
- GS3.** read and interpret the brief that is given by the creative team
- GS4.** read any instructions that are given related to the lighting equipment
- GS5.** understand the lighting requirements with the art director
- GS6.** plan and prioritize own work according to the requirements and agreed timelines
- GS7.** identify any creative problems that may arise during the production and find solutions to address them
- GS8.** seek assistance and guidance from the Director, Art Director and Supervisors, where required
- GS9.** manage creative decisions as per the client inputs while producing 3D lighting
- GS10.** how to plan individual timelines and deliver on schedule
- GS11.** have a keen eye for detail and maintain an aesthetic sense towards colour shapes, forms and software capabilities of the final output
- GS12.** improve performance based on feedback received and through self-appraisal

MES/N0919: Monitor and supervise team of lighting artist

Description

This OS unit is about planning and procurement of equipment's required for the shoot. Prepare schedule and plan of action for arrangement of lighting., Conduct inspection of lighting arrangements before the shoot

Scope

The scope covers the following :

- Demonstrate skills to monitor and supervise the lighting work assigned to the team.
- Work effectively with the team to ensure proper lighting requirements are met

Elements and Performance Criteria

Monitor and supervise the lighting work assigned to the team

To be competent, the user/individual on the job must be able to:

PC1. Oversee the work assigned to other team members like Lighting Artist, Electrician etc

PC2. Plan, arrange and procure equipments required for the shoot

Work effectively with the team to ensure proper lighting requirements

To be competent, the user/individual on the job must be able to:

PC3. Coordinate with the team to analyse requirement as per scene / script demand

PC4. Ensure film-maker (Director/Producer) to facilitate all necessary provision of lighting requirement

PC5. Prepare schedule and plan of action for arrangement of lighting

PC6. Inspect all lighting arrangements before the shoot

PC7. Take necessary precaution to minimise risk due to power supply

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the creative vision and elements of production with relevant to the individuals job role

KU2. the profile and preferences of the target audience

KU3. the production budget and timelines with relevant to the individuals job role

MES/N0104: Maintain Workplace Health & Safety

Description

This OS unit is about contributing towards maintaining a healthy, safe and secure working environment

Elements and Performance Criteria

Understanding the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** understand and comply with the organizations current health, safety and security policies and procedures
- PC2.** understand the safe working practices pertaining to own occupation
- PC3.** understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises
- PC4.** participate in organization health and safety knowledge sessions and drills

Knowing the people responsible for health and safety and the resources available

To be competent, the user/individual on the job must be able to:

- PC5.** identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency
- PC6.** identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms

Identifying and reporting risks

To be competent, the user/individual on the job must be able to:

- PC7.** identify aspects of your workplace that could cause potential risk to own and others health and safety
- PC8.** ensure own personal health and safety, and that of others in the workplace through precautionary measures
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** report any hazards outside the individuals authority to the relevant person in line with organizational procedures and warn other people who may be affected

Complying with procedures in the event of an emergency

To be competent, the user/individual on the job must be able to:

- PC11.** follow organizations emergency procedures for accidents, fires or any other natural calamity in case of a hazard
- PC12.** identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individuals authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organizations norms and policies relating to health and safety
- KU2.** Government norms and policies regarding health and safety and related emergency procedures
- KU3.** Limits of authority while dealing with risks/ hazards
- KU4.** The importance of maintaining high standards of health and safety at a workplace
- KU5.** The different types of health and safety hazards in a workplace
- KU6.** Safe working practices for own job role
- KU7.** Evacuation procedures and other arrangements for handling risks
- KU8.** Names and contact numbers of people responsible for health and safety in a workplace
- KU9.** How to summon medical assistance and the emergency services, where necessary
- KU10.** Vendors or manufacturers instructions for maintaining health and safety while using equipment, systems and/or machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to write and provide feedback regarding health and safety to the concerned people
- GS2.** how to write and highlight potential risks or report a hazard to the concerned people
- GS3.** read instructions, policies, procedures and norms relating to health and safety
- GS4.** highlight potential risks and report hazards to the designated people
- GS5.** listen and communicate information with all anyone concerned or affected
- GS6.** make decisions on a suitable course of action or plan
- GS7.** plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS8.** apply problem solving approaches in different situations
- GS9.** understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority
- GS10.** apply balanced judgments in different situations
- GS11.** How to write and provide feedback regarding health and safety to the concerned people
- GS12.** How to write and highlight potential risks or report a hazard to the concerned people
- GS13.** Read instructions, policies, procedures and norms relating to health and safety
- GS14.** Highlight potential risks and report hazards to the designated people
- GS15.** Listen and communicate information with all anyone concerned or affected
- GS16.** Make decisions on a suitable course of action or plan
- GS17.** Plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS18.** Apply problem solving approaches in different situations

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
