### MES/Q2509: AR VR Producer

#### Brief Job Description

Individuals at this job are responsible for designing, maintaining, and evaluating the implementation for AR/VR projects. They ensure the proper usage of tools and delivery and also monitor the process during the testing and deployment phase.

#### Personal Attributes

The person must be able to work under the Technical Lead supervision and must have the ability to plan and write original theme according to the guidelines provided. The role requires excellent communication skills and collaborative abilities. The AR Developer must be structured and result oriented with focus on quality and deliverables.

#### Applicable National Occupational Standards (NOS)

##### Compulsory NOS:

1. [MES/N2865: Contribute Creative Ideas for AR VR Production](#)
2. [MES/N2866: Develop the XR Production Schedule](#)
3. [MES/N2867: Coordinate XR Production Activities](#)
4. [MES/N2868: Procure Equipment and Material for XR Production](#)
5. [MES/N2869: Setup AR VR Tools and Equipment for Production](#)
6. [MES/N2870: Design Production Pipeline for AR VR Content Delivery](#)
7. [MES/N2871: Define technical parameters to Monitor and Manage AR VR project](#)
8. [MES/N2872: Communicate and Collaborate with Stakeholders and Team Members for Project Delivery and Success](#)
9. [MES/N2817: Comply with Applicable Law and Regulation](#)
10. [MES/N0104: Maintain Workplace Health & Safety](#)
11. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

### Remarks:

The QP has been rationalised as per NCVET guidelines.

## Qualification Pack

### MES/N2865: Contribute Creative Ideas for AR VR Production

#### Description

This OS unit is about reviewing and developing creative ideas and finalizing the visual style of the production considering the legal and ethical constraints.

#### Scope

The scope covers the following :

- Create Visual Styles for AR/VR production

#### Elements and Performance Criteria

##### *Create Visual Styles for AR/VR Production*

To be competent, the user/individual on the job must be able to:

- PC1.** interpret the visual style of the end-product through a detailed review of the script and through discussions with the producer and director
- PC2.** devise creative ideas and finalize the visual style of the production
- PC3.** identify any constraints to successfully realize the idea – including any ethical, legal, regulatory, organizational, or other limitations
- PC4.** articulate ideas clearly and pitch/ present and defend ideas to an audience
- PC5.** respond positively to feedback and any changes in creative requirements

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts
- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget
- KU6.** conceptual aspects like character design, set design and concept creation
- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget

## Qualification Pack

- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)
- KU10.** how to prepare project proposals and presentations for potential investors/financiers/partners
- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individual's own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information
- GS5.** understand the creative vision of the director/ script writer and producer
- GS6.** understand the brief from the financier and any constraints/ limitations that affect the production (e.g. time, people, materials, location, budget)
- GS7.** communicate effectively with the entire production unit, propose alternatives and agree on key decisions
- GS8.** make relevant decisions related to the area of work e.g. choice of cast and crew, production techniques, vendor selection etc.
- GS9.** plan own work and work for the production unit according to the requirements and agreed timelines
- GS10.** manage within the agreed budget and minimize overruns
- GS11.** the consumption patterns and preferences of the target audience (end user/viewer/ listener)
- GS12.** identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit
- GS13.** how to assess the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS14.** how to evaluate the revenue potential of a production across platforms
- GS15.** how to assess the suitability of production concepts/ scripts for the intended target audience

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                         | Theory Marks | Practical Marks | Project Marks | Viva Marks |

## Qualification Pack

### MES/N2866: Develop the XR Production Schedule

#### Description

This OS unit is about knowledge and skills to apply XR technologies to the process of designing and manufacturing products

#### Scope

The scope covers the following :

- Develop XR production schedule

#### Elements and Performance Criteria

##### *Develop XR Production Schedules*

To be competent, the user/individual on the job must be able to:

- PC1.** evaluate ideas for their suitability and deconstruct them as modules
- PC2.** analyse the corresponding modules with consideration to budget, time schedule and resource requirements
- PC3.** assess and evaluate interdepartmental dependency and plan for buffer time
- PC4.** create a tracker tool for tracking project progress
- PC5.** plan and finalize the day-wise shoot plan, keeping in mind the impact on the production budget, timelines and technical viability

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts
- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget
- KU6.** conceptual aspects like character design, set design and concept creation
- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget

## Qualification Pack

- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)
- KU10.** how to prepare project proposals and presentations for potential investors/financiers/partners
- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individual's own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information
- GS5.** understand the creative vision of the director/ script writer and producer
- GS6.** understand the brief from the financier and any constraints/ limitations that affect the production (e.g. time, people, materials, location, budget)
- GS7.** communicate effectively with the entire production unit, propose alternatives and agree on key decisions
- GS8.** make relevant decisions related to the area of work e.g. choice of cast and crew, production techniques, vendor selection etc.
- GS9.** plan own work and work for the production unit according to the requirements and agreed timelines
- GS10.** manage within the agreed budget and minimize overruns
- GS11.** the consumption patterns and preferences of the target audience (end user/viewer/ listener)
- GS12.** identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit
- GS13.** how to assess the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS14.** how to evaluate the revenue potential of a production across platforms
- GS15.** how to assess the suitability of production concepts/ scripts for the intended target audience

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                              | Theory Marks | Practical Marks | Project Marks | Viva Marks |

### MES/N2867: Coordinate XR Production Activities

#### Description

This OS unit is about knowledge and skills to apply XR technologies to the coordinate activities of a project

#### Scope

The scope covers the following :

- Apply XR Technology to Coordinate Production Activities

#### Elements and Performance Criteria

##### *Apply XR technology to Coordinate Production Activities*

To be competent, the user/individual on the job must be able to:

- PC1.** ascertain the number of people required and duration of involvement for each role
- PC2.** shortlist profiles and conduct interviews and practical tests to establish a fit for each role
- PC3.** execute contracts and documentation required for the project

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts
- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget
- KU6.** conceptual aspects like character design, set design and concept creation
- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget
- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)
- KU10.** how to prepare project proposals and presentations for potential investors/financiers/ partners

## Qualification Pack

- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individuals own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information

### MES/N2868: Procure Equipment and Material for XR Production

#### Description

This OS unit is about knowledge and skills to Identify & select the required hardware, software and platform for XR production

#### Scope

The scope covers the following :

- Select the Prerequisite Technology for XR Production

#### Elements and Performance Criteria

*Identify and select the required hardware, software and platform required*

To be competent, the user/individual on the job must be able to:

- PC1.** comprehend and explore the nature of the AR VR & MR projects
- PC2.** identify and select the required hardware, software and platform required for the project
- PC3.** conduct feasibility test of the AR/ VR/ MR production tools
- PC4.** validate requirements with appropriate stakeholders, both internal and external to the organization

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts
- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget
- KU6.** conceptual aspects like character design, set design and concept creation
- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget
- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)

## Qualification Pack

- KU10.** how to prepare project proposals and presentations for potential investors/financiers/partners
- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individuals own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information
- GS5.** understand the creative vision of the director/ script writer and producer
- GS6.** understand the brief from the financier and any constraints/ limitations that affect the production (e.g. time, people, materials, location, budget)
- GS7.** communicate effectively with the entire production unit, propose alternatives and agree on key decisions
- GS8.** make relevant decisions related to the area of work e.g. choice of cast and crew, production techniques, vendor selection etc.
- GS9.** plan own work and work for the production unit according to the requirements and agreed timelines
- GS10.** manage within the agreed budget and minimize overruns
- GS11.** the consumption patterns and preferences of the target audience (end user/viewer/ listener)
- GS12.** identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit
- GS13.** how to assess the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS14.** how to evaluate the revenue potential of a production across platforms
- GS15.** how to assess the suitability of production concepts/ scripts for the intended target audience

## Qualification Pack

## Qualification Pack

### MES/N2869: Setup AR VR Tools and Equipment for Production

#### Description

This OS unit is about knowledge and skills to set up AR VR tools and preparing the environment for AR VR MR content development by using external trackers, markers, etc

#### Scope

The scope covers the following :

- Prepare for the AR/VR solution
- Apply the AR/VR solution

#### Elements and Performance Criteria

##### *Prepare for the AR/VR Solution*

To be competent, the user/individual on the job must be able to:

- PC1.** validate and select the right delivery platform as per delivery specifications
- PC2.** prepare the environment for AR VR MR content development by using external trackers, markers, etc
- PC3.** define the stages of product/solution development and deployment

##### *Apply the AR/VR Solution*

To be competent, the user/individual on the job must be able to:

- PC4.** define best practices, standards, and architecture guidelines for the AR/VR solution
- PC5.** setup iterative design tools for continuous iteration of project
- PC6.** document and share version maintenance policies and change tracking methodologies for the project

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts
- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget
- KU6.** conceptual aspects like character design, set design and concept creation

## Qualification Pack

- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget
- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)
- KU10.** how to prepare project proposals and presentations for potential investors/financiers/partners
- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individuals own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information
- GS5.** understand the creative vision of the director/ script writer and producer
- GS6.** understand the brief from the financier and any constraints/ limitations that affect the production (e.g. time, people, materials, location, budget)
- GS7.** communicate effectively with the entire production unit, propose alternatives and agree on key decisions
- GS8.** make relevant decisions related to the area of work e.g. choice of cast and crew, production techniques, vendor selection etc.
- GS9.** plan own work and work for the production unit according to the requirements and agreed timelines
- GS10.** manage within the agreed budget and minimize overruns
- GS11.** the consumption patterns and preferences of the target audience (end user/viewer/ listener)
- GS12.** identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit
- GS13.** how to assess the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS14.** how to evaluate the revenue potential of a production across platforms

## Qualification Pack

**GS15.** how to assess the suitability of production concepts/ scripts for the intended target audience

## Qualification Pack

### MES/N2870: Design Production Pipeline for AR VR Content Delivery

#### Description

This OS unit is about knowledge and skills to Design Production Pipeline For AR VR Content Delivery

#### Scope

The scope covers the following :

- Plan and Prepare Production Pipeline For AR VR Content Delivery
- Design Production Pipeline For AR VR Content Delivery

#### Elements and Performance Criteria

##### *Plan and Prepare Production Pipeline For AR VR Content Delivery*

To be competent, the user/individual on the job must be able to:

- PC1.** define the security requirements of the product / solution
- PC2.** define optimisation models for content in 3D and 2D
- PC3.** define end user goals and related components of action
- PC4.** define audio subsystem and its importance for feedback, realisation and augmentation in VR, AR & MR

##### *Design Production Pipeline for AR VR Content Delivery*

To be competent, the user/individual on the job must be able to:

- PC5.** define business goals and test them against intended outcomes
- PC6.** define the user interface goals and schema for overall application
- PC7.** comprehend and define dependency on cloud, data science, blockchain, or other technologies to make solution interoperable
- PC8.** prepare documentation on future roadmaps, project scalability and capture technical specification used for record keeping

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts
- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget

## Qualification Pack

- KU6.** conceptual aspects like character design, set design and concept creation
- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget
- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)
- KU10.** how to prepare project proposals and presentations for potential investors/financiers/partners
- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individual's own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information
- GS5.** understand the creative vision of the director/ script writer and producer
- GS6.** understand the brief from the financier and any constraints/ limitations that affect the production (e.g. time, people, materials, location, budget)
- GS7.** communicate effectively with the entire production unit, propose alternatives and agree on key decisions
- GS8.** make relevant decisions related to the area of work e.g. choice of cast and crew, production techniques, vendor selection etc.
- GS9.** plan own work and work for the production unit according to the requirements and agreed timelines
- GS10.** manage within the agreed budget and minimize overruns
- GS11.** the consumption patterns and preferences of the target audience (end user/viewer/ listener)
- GS12.** identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit
- GS13.** how to assess the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production

## Qualification Pack

**GS14.** how to evaluate the revenue potential of a production across platforms

**GS15.** how to assess the suitability of production concepts/ scripts for the intended target audience

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                      | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|---------------------------------------------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|
| <i>Plan and Prepare Production Pipeline For AR VR Content Delivery</i>                                                                | <b>20</b>    | <b>60</b>       | -             | -          |

## Qualification Pack

### MES/N2871: Define technical parameters to Monitor and Manage AR VR project

#### Description

This OS unit is about knowledge and skills to defining technical parameters to monitor and manage AR VR project

#### Scope

The scope covers the following :

- Define Technical Parameters
- Carry out Monitoring of Project

#### Elements and Performance Criteria

##### *Define Technical Parameters*

To be competent, the user/individual on the job must be able to:

- PC1.** create a list of optimisations to be carried in the project for business goals
- PC2.** create a list of optimisations to be carried in the project for 3D content
- PC3.** create a list of optimisations to be carried in the project for audio
- PC4.** create a list of optimisations to be carried in the project for interactions
- PC5.** create a list of optimisations to be carried in the project for code optimisation

##### *Carry out Monitoring of Project*

To be competent, the user/individual on the job must be able to:

- PC6.** create various stages of the project to monitor progress and publish it to stake holders
- PC7.** define calibration and test methods for the solution

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts
- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget
- KU6.** conceptual aspects like character design, set design and concept creation

## Qualification Pack

- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget
- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)
- KU10.** how to prepare project proposals and presentations for potential investors/financiers/partners
- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individuals own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information
- GS5.** understand the creative vision of the director/ script writer and producer
- GS6.** understand the brief from the financier and any constraints/ limitations that affect the production (e.g. time, people, materials, location, budget)
- GS7.** communicate effectively with the entire production unit, propose alternatives and agree on key decisions
- GS8.** make relevant decisions related to the area of work e.g. choice of cast and crew, production techniques, vendor selection etc.
- GS9.** plan own work and work for the production unit according to the requirements and agreed timelines
- GS10.** manage within the agreed budget and minimize overruns
- GS11.** the consumption patterns and preferences of the target audience (end user/viewer/ listener)
- GS12.** identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit
- GS13.** how to assess the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS14.** how to evaluate the revenue potential of a production across platforms

## Qualification Pack

**GS15.** how to assess the suitability of production concepts/ scripts for the intended target audience

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                     | Theory Marks | Practical Marks | Project Marks | Viva Marks |

# MES/N2872: Communicate and Collaborate with Stakeholders and Team Members for Project Delivery and Success

## Description

This OS unit is about knowledge and skills to analyse performance of the team and communicating effectively with team members and other stakeholders to ensure the success of the project.

## Scope

The scope covers the following :

- Define Key Performance Indicators
- Communicate with Team members and other Stakeholders

## Elements and Performance Criteria

### *Define Key Performance Indicators*

To be competent, the user/individual on the job must be able to:

- PC1.** generate a report to communicate the KPIs when monitoring the performance of the AR/VR solution
- PC2.** define the frequency of measuring KPIs and report format for communication to stakeholders
- PC3.** define the plan to review technical performance and improve the process efficiency
- PC4.** identify the larger business and organizational context behind the requirements of the stakeholder

### *Communicate with Team members and other Stakeholders*

To be competent, the user/individual on the job must be able to:

- PC5.** keep stakeholders updated on changes in the project requirements
- PC6.** respond to request, feature request and data insight in a timely and accurate manner
- PC7.** use formal communication methods to collaborate with internal teams & stakeholders (such as meetings, conference calls, emails etc.)

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the vision and motivations of the creative team (scriptwriter, director, production designer among others)
- KU2.** the target audience for the content and/or the organization/ individual that is commissioning the content
- KU3.** production limitations including details of shooting locations and any key constraints on budget, resources and time availability
- KU4.** how to undertake research and collect relevant information to support production concepts, ideas and scripts

## Qualification Pack

- KU5.** available production techniques and implications for selecting a particular technique on resources, time and budget
- KU6.** conceptual aspects like character design, set design and concept creation
- KU7.** available sources of talent (cast and crews), their suitability for the production and implications on time and budget
- KU8.** available suppliers and service providers, their suitability for the production and implications on time and budget
- KU9.** how to prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences (e.g. financiers, distributors, platforms etc.)
- KU10.** how to prepare project proposals and presentations for potential investors/financiers/partners
- KU11.** current issues, events, media coverage and any other factual information relating to the production. (this is especially relevant for news, current affairs and other live programming e.g. radio)
- KU12.** how various types of content can be monetized across platforms (e.g. satellite rights, syndication to other companies, digital media etc.) and the applicability of these platforms to the production
- KU13.** how to check material (concepts, proposals, scripts etc.) for veracity, ethical concerns, copyright, legal issues and any other potential conflicts
- KU14.** how to evaluate a production concept for risks including those to the individuals own health and safety and of the production cast and crew

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare synopses, plot summaries, proposals, programme outlines and other written material for different audiences
- GS2.** document the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS3.** interpret the script and creative brief
- GS4.** undertake background research, gather references and collect information
- GS5.** understand the creative vision of the director/ script writer and producer
- GS6.** understand the brief from the financier and any constraints/ limitations that affect the production (e.g. time, people, materials, location, budget)
- GS7.** communicate effectively with the entire production unit, propose alternatives and agree on key decisions
- GS8.** make relevant decisions related to the area of work e.g. choice of cast and crew, production techniques, vendor selection etc.
- GS9.** plan own work and work for the production unit according to the requirements and agreed timelines
- GS10.** manage within the agreed budget and minimize overruns
- GS11.** the consumption patterns and preferences of the target audience (end user/viewer/ listener)
- GS12.** identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit

## Qualification Pack

- GS13.** how to assess the impact of selecting production techniques, cast, crew, vendors and suppliers on the time, location and budget of the production
- GS14.** how to evaluate the revenue potential of a production across platforms
- GS15.** how to assess the suitability of production concepts/ scripts for the intended target audience

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                 | Theory Marks | Practical Marks | Project Marks | Viva Marks |

## Qualification Pack

### MES/N2817: Comply with Applicable Law and Regulation

#### Description

This NOS covers identifying instances where either one's own or someone else's work may not comply fully with the framework and applying the applicable legal and regulatory framework that apply to one's work using the respective source documents and training material

#### Scope

The scope covers the following :

- Describe various legal frameworks being applicable at workplace
- Explain the risks of non-compliance for oneself and the organization

#### Elements and Performance Criteria

##### *Ensure legal and regulatory requirements*

To be competent, the user/individual on the job must be able to:

- PC1.** Analyse the applicable legal and regulatory framework that apply to one's work using the respective source documents and training material
- PC2.** Identify instances where either one's own or someone else's work may not comply fully with the framework
- PC3.** Measure the risks of non-compliance for oneself and the organization
- PC4.** Ensure that the legal and regulatory requirements specific to the organization are being adhered to
- PC5.** Escalate instances of non-compliance to one's editorial supervisor and/ or compliance officer as applicable

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** wide range of skills such as fighting, falling, horseback riding and others.
- KU2.** relevance of conducting research on the role to be played.
- KU3.** importance of analyzing the expectation of Stunt Coordinator / Director / Producer
- KU4.** relevance of proper training to perform daring acts
- KU5.** related insurance covered, social security and terms of the filming
- KU6.** ways to adopt changes in stunt requirement
- KU7.** how to identify the character as per the script
- KU8.** importance of working and rehearsing with other actors using background of the role in an artform
- KU9.** how to scale a performance in accordance with the frame of the shot, controlling movement, gesture, voice levels, emotional intensity and energy levels
- KU10.** how to analyze the character background to portray similar role as desired

## Qualification Pack

**KU11.** how to Portray the character based on the script

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare portfolio, recording, show reel, etc.,
- GS2.** use different social media platforms for promotion
- GS3.** importance of being punctual and be in suggested dress for audition /presentation
- GS4.** approach clients and associations
- GS5.** negotiate for remuneration of contract / work order aligned with the assignments
- GS6.** Comply with procedures in the event of an emergency
- GS7.** escalate instances of noncompliance to the concerned authority
- GS8.** identify risks of non-compliance for oneself and the organization
- GS9.** Practice safe working practices for own job role
- GS10.** use Personal Protective Equipment (PPE) appropriately

## Qualification Pack

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

## Qualification Pack

### Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

### Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

## Assessment Weightage

|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
