### Remarks:

The QP has been rationalised as per NCVET guidelines.

## Qualification Pack

### MES/N1404: Analyse and detail the concept

#### Description

This OS unit is about understanding and detailing the concept

#### Scope

The scope covers the following :

- This unit/task covers the following:
- Understanding the concept
- Detailing out the concept Note:

#### Elements and Performance Criteria

##### *Analyzing the concept*

To be competent, the user/individual on the job must be able to:

- PC1.** • understand the artistic and communication goals of the concept, which maybe self-created, provided in a brief, or arrived at via discussions with relevant personnel (director, executive producer etc)
- PC2.** • Be aware of the intended medium (eg: feature film, short film, serialized tv series, miniseries, documentary), and evaluate how this affects viewer engagement with the concept
- PC3.** • Be aware of the intended target audience, and evaluate how this affects the concept (eg: language, pacing, maturity of themes etc)
- PC4.** • Be aware of any relevant cultural, social or political issues that need to be taken into account

##### *Detailing out the concept*

To be competent, the user/individual on the job must be able to:

- PC5.** • .Identify, research and understand key elements of the concept, including: Premise Setting Genre Central themes Primary mood/tone Broad character arcs Major narrative/plot points Structure Light and sound
- PC6.** • Outline key elements of the concept, along with additional notes, critiques and development ideas in various formats, which may include: Taglines Loglines Pitches One-page synopsis Exposés

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** • the objective/outcomes of the production (e.g. audience engagement with commercial success in view for feature films, public service, information dissemination and spreading awareness etc)

## Qualification Pack

- KU2.** how to assess concepts and their artistic and communication goals
- KU3.**
  - how to extract and interpret relevant information regarding the concepts vision from concept
  - briefs
- KU4.**
  - how to discuss and understand relevant information regarding the concepts vision from
  - relevant personnel (director, executive producer etc)
- KU5.**
  - the effect of different mediums (eg: feature film, short film, serialized tv series, miniseries, documentary) on viewer engagement
- KU6.**
  - the culture and literary capacity of the target audience and how the concept intends to
  - engage them
- KU7.** the basic principles of story-telling and character psychology
- KU8.**
  - elements of the concept, including premise, setting, genre, central themes, mood, tone,
  - character arcs, narrative, structure etc
- KU9.**
  - the norms and practices of concepts and concept development followed by different
  - production houses
- KU10.**
  - the basic principles of concept detailing, and how to use timing, pacing, characterization and
  - the teasing of compelling ideas effectively
- KU11.**
  - how to specify details of a concept in various formats (eg: taglines, loglines, pitches, synopsis, exposes etc) and the different objectives of each
- KU12.**
  - how to research and tap into the sources for procuring information/background material that
  - will enhance understanding of the concept
- KU13.**
  - how to work on word processing software and scriptwriting, formatting software like final draft, movie magic and celtx
- KU14.** how to type in regional languages using unicode
- KU15.** applicable copyright norms and intellectual property rights

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.**
  - how to specify a concept using taglines, loglines, synopsis, exposes, storyboards and
  - understand the differing purposes for each
- GS2.**
  - detail out concepts complying with norms and guidelines specific to the
  - industry/genre/region/language/culture
- GS3.**
  - use correct grammar, spelling, punctuation and phonetics for the language in which the
  - concept is being developed
- GS4.**
  - read and understand any concept briefs, notes or other materials with information on the
  - concept
- GS5.**
  - research the profile and characteristics of the target audience, genre, region and culture to
  - better understand the concepts objectives
- GS6.** research key elements of the concept to improve understanding, as appropriate
- GS7.**
  - discuss the goals and creative vision of the concept with the producer/director/ client, as
  - required
- GS8.**
  - ensure that understanding of the concept is at a sufficient level for further tasks, and that this
  - is achieved within timelines

## Qualification Pack

### MES/N3004: Adapt the script to production requirements

#### Description

This OS unit is about assessing the script to identify areas of improvement and adapting/re-writing/refining the script to make it suitable for production

#### Elements and Performance Criteria

##### *Assessing and editing scripts for a range of productions and genres*

To be competent, the user/individual on the job must be able to:

**PC1.** analyze the script to identify areas where the creative merit of the story is not emerging, keeping commercial success and the requirements of the production house in view

To be competent, the user/individual on the job must be able to:

**PC2.** assess and analyse the different script-writing elements (such as premise, plot, character, structure, scene design) to ensure that they are all woven together into a seamless whole

**PC3.** relate the script to the genre in which it is set and confirm the consistency of mood maintained therein

**PC4.** develop a plan for re-writing and refining the script to make it production ready

**PC5.** re-write/refine the script and narrative in a timely manner following feedback, liaise with colleagues to resolve contradictory comments, and finalize it for production (optional)

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** the objective/outcomes of the production e.g. audience engagement with commercial success in view for feature films, public service, information, dissemination and spreading awareness

**KU2.** the timelines and budget within which the final script would need to be delivered

**KU3.** how to assess scripts and narrative styles, diagnose weaknesses and identify changes required

**KU4.** principles of story-telling and character psychology

**KU5.** how to locate the scripts premise, assess it for its dramatic strength and clarity and match it to the version approved by the production house

**KU6.** how to assess the unity of the script i.e. to ensure that all key sequences draw their dramatic energy from the central idea/ premise

**KU7.** how to confirm the integrity between the character and the plot

**KU8.** how to assess if the screenplays structure is in line with requirements and if there is accessible clarity to the narratives progression

**KU9.** how to assess every scene to confirm if the division is correct vis--vis time and location and to evaluate its placement in the progression of the screenplay

**KU10.** how to examine dialogues for their rhythm, uniqueness of voice, economy of style and assess if they serve in driving the narrative forward and in revealing the characters

## Qualification Pack

- KU11.** concepts relating to general topics (like history, mythology, politics, technology) to identify gaps in logic, authenticity and credibility
- KU12.** elements of the script i.e. character, conflict, premise, story, narrative structure, causality, turning points, story development, story set-ups in opening sequence, genre, plot and story, setting, structure and theme
- KU13.** how to work on word processing software and scriptwriting, formatting software like Final Draft, Movie Magic and Celtx
- KU14.** how to type in regional languages using unicode
- KU15.** applicable copyright norms and intellectual property rights to protect work and sign contracts
- KU16.** applicable health and safety guidelines

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** diagnose changes and identify areas of improvement in the script
- GS2.** crystalize the premise, summarize the script and give detailed and relevant notes for revising/ redrafting the script
- GS3.** use correct grammar, spelling, punctuation and phonetics for the language in which the script is being developed
- GS4.** read and understand the production premise, and check for its dramatic strength and clarity
- GS5.** read and assess the script keeping in mind aspects such as the genre, target audience, region, culture and time period
- GS6.** discuss/negotiate and agree on the areas of improvement on the script with the director, producer and script-writer
- GS7.** present versions of edited scripts with the director, producer and scriptwriter to finalize the script
- GS8.** be well-networked within the industry
- GS9.** ensure that the script is ready for production and is completed within timelines and budget requirements
- GS10.** identify any problems with successful execution of the task and resolve them in consultation with the producer and director
- GS11.** envision the impact of the script on the production budget, requirements and process
- GS12.** critically review the script to identify areas of improvement

### MES/N3006: Manage the relationship between script writer and producers

#### Description

This OS unit is about managing the relationship between the script writer and producers

#### Elements and Performance Criteria

##### *Managing the relationship between the script writer and producers*

To be competent, the user/individual on the job must be able to:

- PC1.** ensure that the script writer is sufficiently aware of the financial and production implications of editorial decisions
- PC2.** provide the writers with sufficient information to enable the editorial brief to be met in respect of style, content, form and any other special conditions
- PC3.** arrange for periodic meetings/discussions with the script writer and producers to encourage dialogue and feedback, as appropriate
- PC4.** co-ordinate and communicate any changes to the production brief or script to those concerned

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the creative vision of the production, as well as any technical, budgetary or scheduling constraints
- KU2.** how to work sensitively with script writers to foster their script writing abilities
- KU3.** policies and regulations of the organization
- KU4.** anticipate and highlight potential differences in the creative vision and production requirements
- KU5.** how to liaise and communicate with the script writer and producers to ensure that the creative vision is being achieved in line with production requirements (budgets, timelines etc)
- KU6.** how to serve as an intermediary between two viewpoints that may be opposed (creative and production), and sensitively balance the needs of production with those of the script writer
- KU7.** the financial consequences of editorial decisions
- KU8.** how to assist writers to turn good ideas into creative writing for film and television
- KU9.** how a script should be structured and presented
- KU10.** the legal implications of the production process, including copyright law and

#### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document notes while reviewing the script, brief, production requirements and specifications, in order to refer to them during discussions with the script writer or producers
- GS2.** log the minutes of meetings and discussions, and highlight actionable points, as appropriate

## Qualification Pack

- GS3.** read and understand interim scripts and production briefs
- GS4.** research any production specifications, where necessary
- GS5.** understand the vision of the script writer and requirements of the producers
- GS6.** schedule meetings/discussions in line with estimated timelines, so as to manage the allotted work and achieve it in the given schedule
- GS7.** identify any creative or personal differences that may arise during the production and find solutions to address them

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

## Qualification Pack

**Minimum Aggregate Passing % at QP Level : 70**

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## Assessment Weightage

Compulsory NOS

|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |
| <b>Knowledge and Understanding (KU)</b>      | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                         |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
| <b>BUDGET</b>                           | Budget is an estimate of the total cost of production that may include a break-up of cost components                                                                                                                                                                                                                                                                   |
| <b>CONTINUITY</b>                       | Continuity represents the seamless transition from one shot to another                                                                                                                                                                                                                                                                                                 |
| <b>COPYRIGHT LAWS</b>                   | A legal framework linked to intellectual property and the rights given to creators of original products/ concepts                                                                                                                                                                                                                                                      |
| <b>SCREENPLAY</b>                       | Screenplay is the script coupled with key characteristics of the scene and directions for acting                                                                                                                                                                                                                                                                       |
| <b>SCRIPT</b>                           | Script is a structured narrative of a story                                                                                                                                                                                                                                                                                                                            |
| <b>SECTOR</b>                           | Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                                                                                          |
| <b>SUB-SECTOR</b>                       | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                                                                                           |
| <b>TARGET AUDIENCE</b>                  | Group of people at who content/ adverting is aimed. A target audience is typically defined by age, gender, economic classification, geography and any other relevant parameters                                                                                                                                                                                        |

## Qualification Pack

|                                              |                                                                                                                                                                                                                                                                                             |
|----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>VERTICAL</b>                              | Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.                                                                                                                                                                 |
| <b>OCCUPATION</b>                            | Occupation is a set of job roles, which perform similar/related set of functions in an industry                                                                                                                                                                                             |
| <b>FUNCTION</b>                              | Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.                                      |
| <b>SUB-FUNCTION</b>                          | Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function.                                                                                                                                                                                         |
| <b>JOB ROLE</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organization.                                                                                                                                                                           |
| <b>OCCUPATIONAL STANDARDS (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>PERFORMANCE CRITERIA</b>                  | Performance Criteria are statements that together specify the standard of performance required when carrying out a task                                                                                                                                                                     |
| <b>NATIONAL OCCUPATIONAL STANDARDS (NOS)</b> | NOS are Occupational Standards which apply uniquely in the Indian context.                                                                                                                                                                                                                  |
| <b>QUALIFICATION PACK CODE</b>               | Qualifications Pack Code is a unique reference code that identifies a qualifications pack.                                                                                                                                                                                                  |
| <b>QUALIFICATION PACK (QP)</b>               | Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.                                                                                 |
| <b>UNIT CODE</b>                             | Unit Code is a unique identifier for an Occupational Standard, which is denoted by an $\alpha \sim \text{N} \alpha \text{ } ^{\text{TM}}$ .                                                                                                                                                 |
| <b>UNIT TITLE</b>                            | Unit Title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                   |
| <b>DESCRIPTION</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                              |
| <b>SCOPE</b>                                 | Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.                                                                                 |

## Qualification Pack

|                                    |                                                                                                                                                                                                                                                                                   |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>KNOWLEDGE AND UNDERSTANDING</b> | Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.                                                               |
| <b>ORGANIZATIONAL CONTEXT</b>      | Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                  |
| <b>TECHNICAL KNOWLEDGE</b>         | Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                          |
| <b>CORE SKILLS/GENERIC SKILLS</b>  | Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
