MES/Q3106: Set Plasterer

Brief Job Description

Individuals in this job need to understand plastering requirements, plaster a variety of surfaces and produce plaster components.

Personal Attributes

This job requires the individual to apply plaster on different surfaces of the set as per the script requirements. The individual should possess plastering skills e.g. how to mix components, apply plaster and achieve a smooth finish. The individual may also have specialized plastering skills e.g. techniques to produce specific plaster components (e.g. corners, skirtings, panels, arches, beams, customized designs, patterns or motifs). The individual should possess basic literacy and numeracy skills, and be able to communicate effectively with the set construction team. The individual must be flexible and innovative, and should be able to contribute in identifying ways to make set construction more cost effective.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MES/N3121: Prepare surfaces for plastering](#)
2. [MES/N3122: Produce solid plaster finishes](#)
3. [MES/N3123: Produce plaster components](#)
4. [MES/N0104: Maintain Workplace Health & Safety](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Remarks:

The QP has been rationalised as per NCVET guidelines.

Qualification Pack

MES/N3121: Prepare surfaces for plastering

Description

This OS unit is about preparing backgrounds and surfaces before the application of plaster

Elements and Performance Criteria

Understanding the type of plaster to be applied

To be competent, the user/individual on the job must be able to:

- PC1.** correctly understand the brief provided by the production designer/ art director and the desired end objective (eg: type of plastered surface, moulds or effects required etc)

Estimating materials and tools

To be competent, the user/individual on the job must be able to:

- PC2.** correctly estimate the material/ tool requirements and minimize wastage, which may include: cement, lime, plaster of paris, solvents, thinning agents and other materials, hand and machine tools, access and working platforms (e.g. ladders, stools, custom-built platforms etc.)

Treating surfaces before plaster is applied

To be competent, the user/individual on the job must be able to:

- PC3.** identify plastering techniques appropriate for the task
PC4. treat surfaces and prepare them for plastering, as per the brief and within the required timeframe

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the key elements of the set under construction and the reasons why the identified finish/ effect is required for the surface
KU2. the expectations of the production designer and any key limitations on budget, resources and time availability
KU3. how to check the suitability of a surface for the required finish/ effect
KU4. what materials and tools would be best suited to achieve the desired results and how to apply/ operate them
KU5. how to set-up and take down working platforms required to complete the job
KU6. techniques for preparing previously untreated surfaces
KU7. techniques for preparing previously treated surfaces
KU8. how to remove marks, defects, stickers and other materials that remain on the surface
KU9. techniques for filling and leveling the prepared surface
KU10. application of primers, sealers and other finishing materials before the surface can start to be painted with the required effects
KU11. applicable health and safety guidelines, and minimizing the risk to the individuals own health and safety as well as those around him/ her

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare material lists and rough estimates
- GS2.** read and correctly identify plaster, solvents, thinning agents and other materials (e.g. brand, shade/ colour, composition etc.)
- GS3.** understand the requirements from the production design team
- GS4.** convey the estimated resource requirements (time, people, materials, budget) and any constraints/ limitations
- GS5.** make relevant decisions related to the area of work e.g. choice of materials
- GS6.** plan his/her work according to the requirements and agreed timelines
- GS7.** manage within the agreed budget and minimize wastage
- GS8.** identify any problems with successful execution of the task
- GS9.** communicate these to the production design team and identify solutions

MES/N3122: Produce solid plaster finishes

Description

This OS unit is about applying solid plaster to flat surfaces (interior or exterior) and achieving a uniform plastered effect

Elements and Performance Criteria

Achieving plaster finishes using different techniques

To be competent, the user/individual on the job must be able to:

- PC1.** correctly understand the brief provided by the production designer/ art director and the desired finish/ effect
- PC2.** use different techniques for plaster application, including: use of gypsum boards (drywall technique) applying wet plaster directly to the surface
- PC3.** apply the plaster using the identified technique to achieve the desired finish/effect, which can include: smooth/ polished plaster (1, 2 or 3 coat finishes) terrazzo/ mosaic effects (using marble chips) stucco effects (typically used for outdoor surfaces)
- PC4.** complete the task within the required timeframe and minimize wastage of materials

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the key elements of the set under construction and the reasons why the identified plaster finish/ effect is required for the surface
- KU2.** the expectations of the production designer and any key limitations on budget, resources and time availability
- KU3.** what materials and tools would be best suited to achieve the desired results and how to apply/ operate them. (materials for plasterwork could include cement, lime, sand, plaster of paris, mixers, colours and solvents. tools for plasterwork could include trowels, hawks, plasterboards, other cutting and mixing tools and machine tools.
- KU4.** how to set-up and take down working platforms required to complete the job
- KU5.** how to measure and mix various plaster components to achieve the desired composition
- KU6.** how to cordon off the working area and surface to be plastered (using masking tape, plastic sheets etc.) to ensure that plaster does not unintentionally reach other surfaces
- KU7.** how to apply single/ double/ triple coat plaster finishes on flat surfaces
- KU8.** how to produce textured plaster effects (terrazzo, mosaic, stucco etc.)
- KU9.** check for any defects, blotches or marks and repair them to achieve a uniform plastered surface
- KU10.** applicable health and safety guidelines, and minimizing the risk to the individuals own health and safety as well as those around him/ her

MES/N3123: Produce plaster components

Description

This OS unit is about casting and moulding plaster components

Elements and Performance Criteria

Producing plaster components

To be competent, the user/individual on the job must be able to:

- PC1.** correctly understand the brief provided by the production designer/ art director and the desired finish/ effect
- PC2.** identify appropriate techniques to produce plaster components
- PC3.** produce casts, moulds and other plaster components, which may include: corners, skirtings, panels, arches, beams, customized designs
- PC4.** correctly place and fix plaster components
- PC5.** complete the task within the required timeframe and minimize wastage of materials

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the key elements of the set under construction and the reasons why the identified plaster component is required
- KU2.** the expectations of the production designer and any key limitations on budget, resources and time availability
- KU3.** what materials and tools would be best suited to achieve the desired results and how to apply/ operate them. (materials for plaster components could include fibrous plaster, cement, lime, mixers, colours and solvents. tools for plasterwork could include trowels, hawks, plasterboards, other cutting and mixing tools and machine tools.)
- KU4.** how to set-up and take down working platforms required to complete the job
- KU5.** how to measure and mix various plaster components to achieve the desired composition
- KU6.** how to cordon off the working area and surface to be plastered (using masking tape, plastic sheets etc.) to ensure that plaster does not unintentionally reach other surfaces
- KU7.** techniques for casting and moulding different types of plaster components
- KU8.** techniques for correctly placing and fixing plaster components, taking care of joints and placing re-enforcements where required
- KU9.** check for any defects or cracks and repair them to ensure the plaster component is complete and correctly installed
- KU10.** applicable health and safety guidelines, and minimizing the risk to the individuals own health and safety as well as those around him/ her

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** prepare material lists and rough estimates

MES/N0104: Maintain Workplace Health & Safety

Description

This OS unit is about contributing towards maintaining a healthy, safe and secure working environment

Elements and Performance Criteria

Understanding the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** understand and comply with the organizations current health, safety and security policies and procedures
- PC2.** understand the safe working practices pertaining to own occupation
- PC3.** understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises
- PC4.** participate in organization health and safety knowledge sessions and drills

Knowing the people responsible for health and safety and the resources available

To be competent, the user/individual on the job must be able to:

- PC5.** identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency
- PC6.** identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms

Identifying and reporting risks

To be competent, the user/individual on the job must be able to:

- PC7.** identify aspects of your workplace that could cause potential risk to own and others health and safety
- PC8.** ensure own personal health and safety, and that of others in the workplace through precautionary measures
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** report any hazards outside the individuals authority to the relevant person in line with organizational procedures and warn other people who may be affected

Complying with procedures in the event of an emergency

To be competent, the user/individual on the job must be able to:

- PC11.** follow organizations emergency procedures for accidents, fires or any other natural calamity in case of a hazard
- PC12.** identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individuals authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organizations norms and policies relating to health and safety
- KU2.** Government norms and policies regarding health and safety and related emergency procedures
- KU3.** Limits of authority while dealing with risks/ hazards
- KU4.** The importance of maintaining high standards of health and safety at a workplace
- KU5.** The different types of health and safety hazards in a workplace
- KU6.** Safe working practices for own job role
- KU7.** Evacuation procedures and other arrangements for handling risks
- KU8.** Names and contact numbers of people responsible for health and safety in a workplace
- KU9.** How to summon medical assistance and the emergency services, where necessary
- KU10.** Vendors or manufacturers instructions for maintaining health and safety while using equipment, systems and/or machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to write and provide feedback regarding health and safety to the concerned people
- GS2.** how to write and highlight potential risks or report a hazard to the concerned people
- GS3.** read instructions, policies, procedures and norms relating to health and safety
- GS4.** highlight potential risks and report hazards to the designated people
- GS5.** listen and communicate information with all anyone concerned or affected
- GS6.** make decisions on a suitable course of action or plan
- GS7.** plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS8.** apply problem solving approaches in different situations
- GS9.** understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority
- GS10.** apply balanced judgments in different situations
- GS11.** How to write and provide feedback regarding health and safety to the concerned people
- GS12.** How to write and highlight potential risks or report a hazard to the concerned people
- GS13.** Read instructions, policies, procedures and norms relating to health and safety
- GS14.** Highlight potential risks and report hazards to the designated people
- GS15.** Listen and communicate information with all anyone concerned or affected
- GS16.** Make decisions on a suitable course of action or plan
- GS17.** Plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS18.** Apply problem solving approaches in different situations
- GS19.** build and maintain positive and effective relationships with colleges and customers
- GS20.** analyze data and activities
- GS21.** Understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
