MES/Q3401: Sound Designer

Brief Job Description

Individuals at this job design the sound concept for a production and select the studios/equipment for recordings

Personal Attributes

This job requires the individual to think creatively and develop a range of sound concepts. The individual must have a good understanding of the various music forms and styles prevalent in the industry. The individual must be aware of the language and principles of sound, acoustics and psychoacoustics. The individual must be able to interpret sound requirements and select the equipment/ studios required for production.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MES/N3401: Conceptualise sound concepts](#)
2. [MES/N3402: Select sound equipment](#)
3. [MES/N3403: Select sound studios for recording](#)
4. [MES/N0104: Maintain Workplace Health & Safety](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Remarks:

The QP has been rationalised as per NCVET guidelines.

Qualification Pack

MES/N3401: Conceptualise sound concepts

Description

This OS unit is about conceptualizing creative sound concepts that conform to requirements of the production script and sound brief

Elements and Performance Criteria

Understanding sound requirements

To be competent, the user/individual on the job must be able to:

PC1. interpret the creative and technical requirements from the script and sound design brief

Generating a variety of sound concepts that cater to sound requirements

To be competent, the user/individual on the job must be able to:

PC2. develop sound concepts that conform to requirements

Shortlisting the most feasible concept

To be competent, the user/individual on the job must be able to:

PC3. evaluate and shortlist options best suited to the production

PC4. prepare a list of tracks that would need to be produced (along with their sound attributes and specifications)

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the creative and technical requirements of the production

KU2. the technical, budget and time constraints applicable

KU3. the various styles/forms of music and sounds prevalent in the industry and their characteristics

KU4. the language and principles of sound, and how they affect tone

KU5. the principles of acoustics and psychoacoustics

KU6. how to think creatively and develop a range of sound concepts

KU7. the parameters for evaluating sound concepts

KU8. the balance between fx, music and soundtracks

KU9. basic music sequencing

KU10. how to break-down the sound concept into specific components that would need to be produced

KU11. foley-recording, i.e. the use of everyday sound effects in post-production

KU12. sound editing/mixing techniques and software, w.r.t. basic film grammar and compatibility with the production

KU13. the applicable copyright and intellectual property norms

KU14. applicable health and safety guidelines

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare notes for reference during the conceptualization phase
- GS2.** document the sound concept including specifications for sound/tracks that would need to be produced
- GS3.** read and understand the script and the sound design brief
- GS4.** read and identify copyright requirements for procuring sound components
- GS5.** profile the target audience of the production to understand their tastes and preferences
- GS6.** keep updated on industry trends with respect to the types of sound concepts being used across various productions
- GS7.** discuss and agree on the sound requirements with the director and producer
- GS8.** present sound concepts and gain consensus on the final concept with the director and producer, and agree on modifications required
- GS9.** identify any problems with successful execution of the task and resolve them in consultation with the producer and director
- GS10.** envision the impact of selecting a particular sound concept on the budget and production process

MES/N3402: Select sound equipment

Description

This OS unit is about identifying sound equipment requirements and selecting equipment most suited for production

Elements and Performance Criteria

Determining sound equipment required for the production

To be competent, the user/individual on the job must be able to:

PC1. determine the sound equipment that would be required

Selecting equipment most suited for the production

To be competent, the user/individual on the job must be able to:

PC2. select sound equipment best suited to achieve the required sound for the production

PC3. obtain permissions/licenses for using the equipment during production

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the quality and creative standards expected from the final recorded end-products

KU2. the technical, budget and time constraints applicable

KU3. the production/recording dates

KU4. the principles of sound, acoustics and psychoacoustics

KU5. the performance characteristics and costs of hiring different types of sound equipment

KU6. the power requirements for recording and operating equipment (voltage, load, phases), placement of power fittings (distribution, requirements), and techniques for safe testing

KU7. the difference between sound formats (5.1, 7.1, compressed) and the appropriate sound equipment for each

KU8. radio frequency allocations and requirements

KU9. sound editing/mixing techniques, equipment and software (Telos Machines, Yamaha 02R Digital, VEGAS software, RCS radio software)

KU10. the permissions and licenses required for operating sound equipment

KU11. applicable health and safety considerations

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. prepare a list of sound equipment that would need to be procured to meet production needs

GS2. prepare the sound budget including a detailed breakdown of the equipment and resources that would be required for production

Qualification Pack

- GS3.** prepare the required documentation to obtain the licenses/permissions for the use of sound equipment
- GS4.** read and understand the sound brief, and be aware of the creative and technical specifications for sound production
- GS5.** keep updated on new technologies and sound equipment used for production
- GS6.** read about the requirements for procuring licenses and permissions required to operate the sound equipment during the production dates
- GS7.** liaise with the production department to determine sound requirements
- GS8.** discuss and agree on the sound budget with the director and producer
- GS9.** select the sound equipment to be used in line with the budget allocated
- GS10.** plan equipment selection and hire/procurement in accordance to production schedules and within the budget allocated
- GS11.** determine the impact of the chosen sound equipment on the production and post-production requirements of sound

MES/N3403: Select sound studios for recording

Description

This OS unit is about assessing the suitability of sound studios and finalising the most appropriate studio for recording

Elements and Performance Criteria

Identifying suitable sound studios and assessing the suitability

To be competent, the user/individual on the job must be able to:

- PC1.** assess the suitability of a studio for recording in light of the creative and technical requirements of production (it is recommended that the sound designer personally visits all key studios)
- PC2.** evaluate the pros and cons of recording at the studio and reasons why it should be chosen or rejected
- PC3.** assess any additional costs that would need to be borne

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the studios available and/or the sources of finding out suitable studios for recording
- KU2.** the allocated budget and production/recording dates
- KU3.** how to assess the pros and cons of a studio, w.r.t. the sound concept, line sound recording, voice and effects treatment and other creative or technical requirements
- KU4.** the sound equipment required and whether provisions are available at the studio (microphones, amplifiers, recording media, mixing consoles, speakers, converters, foley props)
- KU5.** the cost of procuring additional equipment, if required
- KU6.** the power needs for recording and whether they will be met with at the given studio
- KU7.** the ancillary costs involved in selecting the studio (the cost of transportation, accommodation, equipment)
- KU8.** applicable health and safety guidelines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document the pros and cons of each studio and reasons for choosing/rejecting any studio
- GS2.** document additional technical and equipment needs at the studio, for reference of the relevant departments
- GS3.** read the production budgets to ensure that the studio and ancillary costs stay in line
- GS4.** liaise with the production department to discuss the studios suitability w.r.t. production needs, expected problems that might arise or additional requirements, if any

Qualification Pack

- GS5.** discuss and confirm the creative and technical requirements for recording
- GS6.** communicate any health and safety requirements to the production team and assign responsibility for needs to be taken care of
- GS7.** select the sound equipment to be used in line with the budget allocated
- GS8.** identify problems with successful execution at the studio, and resolve them in consultation with the production team

MES/N0104: Maintain Workplace Health & Safety

Description

This OS unit is about contributing towards maintaining a healthy, safe and secure working environment

Elements and Performance Criteria

Understanding the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** understand and comply with the organizations current health, safety and security policies and procedures
- PC2.** understand the safe working practices pertaining to own occupation
- PC3.** understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises
- PC4.** participate in organization health and safety knowledge sessions and drills

Knowing the people responsible for health and safety and the resources available

To be competent, the user/individual on the job must be able to:

- PC5.** identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency
- PC6.** identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms

Identifying and reporting risks

To be competent, the user/individual on the job must be able to:

- PC7.** identify aspects of your workplace that could cause potential risk to own and others health and safety
- PC8.** ensure own personal health and safety, and that of others in the workplace through precautionary measures
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** report any hazards outside the individuals authority to the relevant person in line with organizational procedures and warn other people who may be affected

Complying with procedures in the event of an emergency

To be competent, the user/individual on the job must be able to:

- PC11.** follow organizations emergency procedures for accidents, fires or any other natural calamity in case of a hazard
- PC12.** identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individuals authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organizations norms and policies relating to health and safety
- KU2.** Government norms and policies regarding health and safety and related emergency procedures
- KU3.** Limits of authority while dealing with risks/ hazards
- KU4.** The importance of maintaining high standards of health and safety at a workplace
- KU5.** The different types of health and safety hazards in a workplace
- KU6.** Safe working practices for own job role
- KU7.** Evacuation procedures and other arrangements for handling risks
- KU8.** Names and contact numbers of people responsible for health and safety in a workplace
- KU9.** How to summon medical assistance and the emergency services, where necessary
- KU10.** Vendors or manufacturers instructions for maintaining health and safety while using equipment, systems and/or machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to write and provide feedback regarding health and safety to the concerned people
- GS2.** how to write and highlight potential risks or report a hazard to the concerned people
- GS3.** read instructions, policies, procedures and norms relating to health and safety
- GS4.** highlight potential risks and report hazards to the designated people
- GS5.** listen and communicate information with all anyone concerned or affected
- GS6.** make decisions on a suitable course of action or plan
- GS7.** plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS8.** apply problem solving approaches in different situations
- GS9.** understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority
- GS10.** apply balanced judgments in different situations
- GS11.** How to write and provide feedback regarding health and safety to the concerned people
- GS12.** How to write and highlight potential risks or report a hazard to the concerned people
- GS13.** Read instructions, policies, procedures and norms relating to health and safety
- GS14.** Highlight potential risks and report hazards to the designated people
- GS15.** Listen and communicate information with all anyone concerned or affected
- GS16.** Make decisions on a suitable course of action or plan
- GS17.** Plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS18.** Apply problem solving approaches in different situations
- GS19.** build and maintain positive and effective relationships with colleges and customers
- GS20.** analyze data and activities
- GS21.** Understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
