MES/Q3403: Sound Assistant

Brief Job Description

Individuals at this job are responsible for setting-up/ disassembling sound equipment, aligning sound systems and capturing sounds as per production requirements, largely under supervision.

Personal Attributes

This job requires the individual to know basic principles of sound and acoustics. The individual must be well-versed with the features and handling specifications of sound equipment to be able to operate them effectively during shoots/audio programmes. The individual must be able to place/move equipment appropriately to ensure that the sound captured meets expected quality standards, largely under supervision. In case of live shoots, the individual must know how to operate the boom mic to capture sound/dialogue unobtrusively with regard to the positioning of the camera/lighting.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MES/N3404: Set up, maintain and disassemble sound equipment](#)
2. [MES/N3406: Capture sound](#)
3. [MES/N3410: Align the sound system](#)
4. [MES/N0104: Maintain Workplace Health & Safety](#)
5. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

MES/N3404: Set up, maintain and disassemble sound equipment

Description

This OS unit is about setting up, testing, operating and disassembling sound equipment and accessories

Elements and Performance Criteria

Preparing and arranging sound equipment and accessories

To be competent, the user/individual on the job must be able to:

- PC1.** set-up, operate and disassemble sound equipment and accessories in accordance with requirements and recording schedules and under supervision of the sound supervisor
- PC2.** conduct preliminary tests and technical run-throughs to ensure equipment is in working order (e.g. infiltration from an outdoor recording)
- PC3.** fit microphones to contributors (artists, performers, field reporters, commentators etc.) in a way that optimizes sound input

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the quality and creative standards expected from the end-products and the various forms they take
- KU2.** the production/recording dates to ensure the equipment is set up in advance
- KU3.** the planned layout of sound equipment, including the various origin and destination points
- KU4.** the noise floor of the equipment being used
- KU5.** basic principles of sound, acoustics and equipment signal flow
- KU6.** how to operate a range of sound equipment with regard to electrical and mechanical safety considerations
- KU7.** how to operate outdoor (boom mic) and cordless (wireless communication) sound equipment.
- KU8.** how to test sound equipment, identify issues/interferences and carry out adjustments in accordance with requirements, largely under supervision
- KU9.** the features and handling specifications of microphones w.r.t. moisture, background sound, optimum placement and polarity
- KU10.** how to place microphones, cables and accessories appropriately and unobtrusively, largely under supervision
- KU11.** the power requirements for placement of power fittings (distribution, requirements), recording and operating equipment (voltage, load, phases), and techniques for safe testing
- KU12.** the techniques for installing and disassembling sound equipment safely and in accordance to requirements
- KU13.** the various aesthetics of differing programs (e.g. live show), and how to deliver the appropriate service

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** document the need for sound equipment repair, replacement or any special requirement
- GS2.** label and demarcate sound equipment, where required
- GS3.** read recording schedules to ensure that equipment is set-up and ready for use in accordance with timelines
- GS4.** read and understand relevant sound documentation including cue sheets, creative and technical specifications
- GS5.** read users manuals, handling specifications and safety considerations to aid the correct use and handling of sound equipment
- GS6.** collaborate with sound supervisors to understand creative and technical requirements, and the planned layout of sound equipment
- GS7.** collaborate with sound supervisors to assess the studio/location properties and determine the adequacy and suitability of sound equipment/accessories
- GS8.** conduct technical run-throughs for sound supervisors, recordists and boom operators to ensure equipment is ready to use
- GS9.** communicate effectively the correct use of the microphone to contributors including artists, performers, field reporters and commentators
- GS10.** plan own work according to the requirements and agreed timelines
- GS11.** ensure that equipment repair/replacement is carried out prior to the recording dates
- GS12.** identify any problems/faults in the equipment that could impede the successful execution of recordings, and resolve them in consultation with the sound engineers and the production team

MES/N3406: Capture sound

Description

This OS unit is about capturing sound from various sources in accordance to production requirements

Elements and Performance Criteria

Handling/moving sound input devices and equipment

To be competent, the user/individual on the job must be able to:

PC1. handle/move sound input devices and equipment to capture sound in a way that minimizes disturbances and optimises input

Capturing sound

To be competent, the user/individual on the job must be able to:

PC2. ensure that the captured sound/input matches the production requirements and expected sound quality

PC3. ensure documentation and labelling of equipment, where appropriate

PC4. troubleshoot at a basic level

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the various sound sources / origin points

KU2. the sound requirements and quality standards for the production

KU3. basic principles of sound, hearing and acoustics

KU4. the features and handling specifications of microphones w.r.t. moisture, background sound, optimum placement and polarity

KU5. the principles and techniques of recording/synchronising sound

KU6. the fundamentals of analog and digital audio technology

KU7. how to conduct sound checks to ensure that sound signals are clear and balanced

KU8. the basics of software (Adobe Audition, Nuendo, Pyramix) and its compatibility with differing inputs/programs

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. document positions and movements to help maneuver the boom/microphone smoothly during recordings/shoots/retakes

GS2. read the script and understand the artists movements to define the appropriate positioning for the microphone

GS3. keep up-to-date and knowledgeable about the latest equipment

GS4. understand sound requirements and quality expectations from the sound supervisor

Qualification Pack

- GS5.** liaise with the camera and lighting team to help define the correct positioning and movement of the boom/microphones
- GS6.** communicate effectively with contributors
- GS7.** plan the movement of the boom/microphone to optimise sound input
- GS8.** anticipate obstructions/issues with the movement of the boom/microphone and resolve them proactively
- GS9.** identify disturbances that may arise during sound capturing and make arrangements to mitigate/eliminate them
- GS10.** appraise the quality of the captured sound w.r.t. the expected quality standards for the production
- GS11.** manage decision on suitable course of action to meet creative and technical project requirements

MES/N3410: Align the sound system

Description

This OS unit is about aligning the sound systems prior to use in the production.

Elements and Performance Criteria

Preparing and arranging sound equipment and accessories

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure that interfaces between source and destination are matched in level, impedance, polarity and format
- PC2.** Route the test signal to the correct signal path to enable alignment of the system
- PC3.** Confirm that the level of test signal is correct for that application
- PC4.** Produce test signals which bear the expected phase relationship to each other
- PC5.** Correctly identify the origin of the received test signals
- PC6.** Assess the test signal accurately for variations in level, phase, and frequency and response, and log them accurately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The quality and creative standards expected from the end-products and the various forms they take
- KU2.** Relevant production dates and timelines, where appropriate
- KU3.** Basic principles of sound, acoustics and equipment signal flow
- KU4.** How to operate a range of sound equipment with regard to electrical and mechanical safety considerations
- KU5.** How to operate outdoor (boom mic) and cordless (wireless communication) sound equipment.
- KU6.** How to test sound equipment, identify issues/interferences and carry out adjustments in accordance with requirements
- KU7.** The features and handling specifications of microphones w.r.t. moisture, background sound, optimum placement and polarity
- KU8.** How to use different types of test signals and identifying codes
- KU9.** The power requirements for placement of power fittings (distribution, requirements), recording and operating equipment (voltage, load, phases), and techniques for safe testing
- KU10.** The various aesthetics of differing programs (e.g. live show), and how to deliver the appropriate service

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Document the requirements for sound alignment, where required
- GS2.** Read recording schedules to ensure that testing, alignment etc. occurs in accordance with timelines
- GS3.** Read and understand relevant sound documentation including cue sheets, creative and technical specifications
- GS4.** Read users manuals, handling specifications and safety considerations to aid the correct use and handling of sound equipment
- GS5.** Collaborate with sound supervisors to understand creative and technical requirements, and production requirements
- GS6.** Plan work according to the requirements and agreed timelines
- GS7.** Identify any problems/faults in the equipment that could impede the successful execution of sound alignment, and resolve them in consultation with the sound engineers and the production team
- GS8.** Select the equipment that will be used throughout the duration of the project
- GS9.** check that your own work meets project requirements
- GS10.** Have a keen eye for detail and maintain an aesthetic sense towards the final output
- GS11.** Have precise attention to all the details while using different instruments

MES/N0104: Maintain Workplace Health & Safety

Description

This OS unit is about contributing towards maintaining a healthy, safe and secure working environment

Elements and Performance Criteria

Understanding the health, safety and security risks prevalent in the workplace

To be competent, the user/individual on the job must be able to:

- PC1.** understand and comply with the organizations current health, safety and security policies and procedures
- PC2.** understand the safe working practices pertaining to own occupation
- PC3.** understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises
- PC4.** participate in organization health and safety knowledge sessions and drills

Knowing the people responsible for health and safety and the resources available

To be competent, the user/individual on the job must be able to:

- PC5.** identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency
- PC6.** identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms

Identifying and reporting risks

To be competent, the user/individual on the job must be able to:

- PC7.** identify aspects of your workplace that could cause potential risk to own and others health and safety
- PC8.** ensure own personal health and safety, and that of others in the workplace through precautionary measures
- PC9.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC10.** report any hazards outside the individuals authority to the relevant person in line with organizational procedures and warn other people who may be affected

Complying with procedures in the event of an emergency

To be competent, the user/individual on the job must be able to:

- PC11.** follow organizations emergency procedures for accidents, fires or any other natural calamity in case of a hazard
- PC12.** identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individuals authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organizations norms and policies relating to health and safety
- KU2.** Government norms and policies regarding health and safety and related emergency procedures
- KU3.** Limits of authority while dealing with risks/ hazards
- KU4.** The importance of maintaining high standards of health and safety at a workplace
- KU5.** The different types of health and safety hazards in a workplace
- KU6.** Safe working practices for own job role
- KU7.** Evacuation procedures and other arrangements for handling risks
- KU8.** Names and contact numbers of people responsible for health and safety in a workplace
- KU9.** How to summon medical assistance and the emergency services, where necessary
- KU10.** Vendors or manufacturers instructions for maintaining health and safety while using equipment, systems and/or machines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to write and provide feedback regarding health and safety to the concerned people
- GS2.** how to write and highlight potential risks or report a hazard to the concerned people
- GS3.** read instructions, policies, procedures and norms relating to health and safety
- GS4.** highlight potential risks and report hazards to the designated people
- GS5.** listen and communicate information with all anyone concerned or affected
- GS6.** make decisions on a suitable course of action or plan
- GS7.** plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS8.** apply problem solving approaches in different situations
- GS9.** understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority
- GS10.** apply balanced judgments in different situations
- GS11.** How to write and provide feedback regarding health and safety to the concerned people
- GS12.** How to write and highlight potential risks or report a hazard to the concerned people
- GS13.** Read instructions, policies, procedures and norms relating to health and safety
- GS14.** Highlight potential risks and report hazards to the designated people
- GS15.** Listen and communicate information with all anyone concerned or affected
- GS16.** Make decisions on a suitable course of action or plan
- GS17.** Plan and organize people and resources to deal with risks/ hazards that lie within the scope of ones individual authority
- GS18.** Apply problem solving approaches in different situations
- GS19.** build and maintain positive and effective relationships with colleges and customers
- GS20.** analyze data and activities
- GS21.** Understand hazards that fall within the scope of individual authority and report all hazards that may supersede ones authority

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)
