MSME/LSS/N1160: FINAL PROJECT

Description

To understand, record and analyses the manufacturing practices followed by footwear manufacturing units (Implant Training)

Scope

The scope covers the following :

- To understand, record and analyses the manufacturing practices followed by footwear manufacturing units (Implant Training)

Elements and Performance Criteria

PGD-305

To be competent, the user/individual on the job must be able to:

PC1. VIVA VOCE

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>PGD-305</i>	-	-	-	100

MSME/LSS/N1158: Entrepreneurship Development

Description

To Development of Entrepreneurship Skills, Support of Entrepreneurship Assistance and Preparation of Project Report

Scope

The scope covers the following :

- To Development of Entrepreneurship Skills, Support of Entrepreneurship Assistance and Preparation of Project Report

Elements and Performance Criteria

PGD-304

To be competent, the user/individual on the job must be able to:

- PC1.** Describe Entrepreneurship – Meaning and Importance, Evolution of Term ‘Entrepreneurship’, Factors influencing entrepreneurship’, Types of Entrepreneurs.
- PC2.** Discuss about Entrepreneurial Motivation, Creativity, Steps in Creativity, Innovation, Skills of an Entrepreneur, Explanation about Decision making and problem solving
- PC3.** Introduction of Organization Assistance, Financial Assistance to MSME, Export Oriented Units
- PC4.** Introduction of KVIC, Industrial Estates
- PC5.** Preparation of Project Report, Selection of Best Business, Contents of Project Report
- PC6.** Discuss Women Entrepreneurship, Factors influencing Women Entrepreneur in India.

Assessment Criteria

MSME/LSS/N1157: Advance Technology

Description

Describe new technology and modern systems relates to footwear designing, product development and manufacturing.

Scope

The scope covers the following :

- Describe new technology and modern systems relates to footwear designing, product development and manufacturing.

Elements and Performance Criteria

PGD-303

To be competent, the user/individual on the job must be able to:

- PC1.** Discuss modern cutting systems such as Tangential Knife, Laser Jet. Water Jet, rotating turret travelling head. Continuous cutting system. Concept of automatic sewing machines. Technical process of Molding and Vulcanizing.
- PC2.** Types of molding machines and the suitability for type of production. Modern lasting machinery. Automatic roughing and cementing machines and compare these to traditional methods.
- PC3.** Meaning of open & closed cast methods of molding. Process of polyurethane molding. Pattern engineering and grading with respect to hand and machine method.
- PC4.** Analyze International and national standardization in footwear manufacturing. Automation in Footwear manufacturing industry, Reverse engineering and prototype models. 3-D printing. On-line footwear shops. Use of computers in footwear business.

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>PGD-303</i>	-	100	-	-

MSME/LSS/N1155: Material Science and Testing

Description

Describe types of material used in footwear manufacturing and different testing procedures.

Scope

The scope covers the following :

- Describe types of material used in footwear manufacturing and different testing procedures.

Elements and Performance Criteria

PGD-302

To be competent, the user/individual on the job must be able to:

- PC1.** List Out Components of the Footwear and their properties.
- PC2.** Describe Physical and Chemical Composition of Footwear Component materials.
- PC3.** Describe Identification of Different Footwear component Materials.
- PC4.** Describe Types of Testing and Quality
- PC5.** Classify Different Footwear Component Properties
- PC6.** Describe Various Tests for the particular Components with objective, ISO Name, Procedures, Calculation and results, Definition of The Properties, Testing Instruments, Sample and Sampling and Recommendation of Quality.
- PC7.** Describe advantages and Disadvantages of various Footwear Components materials.

MSME/LSS/N1153: International Business and Communication

Description

Describe international business communication, and export regulations and practices related to footwear markets

Scope

The scope covers the following :

- Describe international business communication, and export regulations and practices related to footwear markets

Elements and Performance Criteria

PGD-301

To be competent, the user/individual on the job must be able to:

- PC1.** Understand Leather & Footwear Exports Introduction
- PC2.** Explain the trends in technology, fashion and market in the international business
- PC3.** Describe the elements in enhancing the business share in the international market
- PC4.** Explain INCO Terms in International Business.
- PC5.** Explain the export management procedure
- PC6.** List the export documentation requirements
- PC7.** Implement the export forms and procedure in simulated business activity
- PC8.** Explain the role of exchange rates in international business

MSME/LSS/N1149: Standardization and Quality Control

Description

Describe acceptance quality level and parameters

Scope

The scope covers the following :

- Describe acceptance quality level and parameters

Elements and Performance Criteria

PGD-207

To be competent, the user/individual on the job must be able to:

- PC1.**
 - Describe the concept of quality in footwear
 - technology
- PC2.** Explain the benefits of Quality assurance systems
- PC3.**
 - Describe QA & operating cost. Audits and audit
 - trails to identify and eliminate non-conformances.
- PC4.**
 - Describe the role of policy at different levels in
 - quality control and assurance
- PC5.**
 - Able to explain Six Sigma Methodology and its
 - benefits
- PC6.**
 - Describe Lean Manufacturing and wastages in
 - Manufacturing Process

MSME/LSS/N1147: Machine Lasting with Advanced Technology

Description

To supervise the finishing and shoe room practice in lasting/bottom department.

Scope

The scope covers the following :

- To supervise the finishing and shoe room practice in lasting/bottom department.

Elements and Performance Criteria

PGD-206

To be competent, the user/individual on the job must be able to:

- PC1.**
- Analyze functions and processes of the shoe room,
 - their importance to sales appeal. Shoe room
 - operations and techniques - socking, cleaning, repairing, dressing, top spraying, trim attaching, quarter reforming, irons, inspection procedures,
 - boxing etc., for leather and non - leather materials.
 - Machine adjustments.
- PC2.**
- Discuss Fault identification, diagnoses of cause and
 - defects in work. Applications of, decorative
 - treatments, e.g. antique, shadow spray etc. final
 - examination and inspection procedures - quality
 - control packing and presentation techniques"
 - storage of boxed footwear to prevent ageing.
 - Recognize Statutory requirements: general, fire,
 - mechanical and electrical safe working conditions
 - in relation to the above

Assessment Criteria

MSME/LSS/N1146: Machine Lasting with Advanced Technology

Description

To supervise the finishing and shoe room practice in lasting/bottom department.

Scope

The scope covers the following :

- To supervise the finishing and shoe room practice in lasting/bottom department.

Elements and Performance Criteria

PGD-206

To be competent, the user/individual on the job must be able to:

- PC1.**
- Analyze functions and processes of the shoe room,
 - their importance to sales appeal. Shoe room
 - operations and techniques - socking, cleaning, repairing, dressing, top spraying, trim attaching, quarter reforming, irons, inspection procedures,
 - boxing etc., for leather and non - leather materials.
 - Machine adjustments.
- PC2.**
- Discuss Fault identification, diagnoses of cause and
 - defects in work. Applications of, decorative
 - treatments, e.g. antique, shadow spray etc. final
 - examination and inspection procedures - quality
 - control packing and presentation techniques"
 - storage of boxed footwear to prevent ageing.
 - Recognize Statutory requirements: general, fire,
 - mechanical and electrical safe working conditions
 - in relation to the above

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>PGD-206</i>	100	-	-	-
PC1. - Analyze functions and processes of the shoe room, - their importance to sales appeal. MSME/LSS/N1145: Advanced Closing Technology

Description

To supervise the production process in closing department and knowledge about different constructions and latest machines.

Scope

The scope covers the following :

- To supervise the production process in closing department and knowledge about different constructions and latest machines.

Elements and Performance Criteria

PGD-205

To be competent, the user/individual on the job must be able to:

- PC1.**
 - Various quality control check points in closing section.
- PC2.**
 - Measure and minor defects in upper their recovery and rejection
- PC3.**
 - Cost of recovery and rejection in closing section.

MSME/LSS/N1141: Finance, Estimate and Costing

Description

Describe Financial estimate and costing, budgetary control system, cost analysis, balance sheet, income and expenditure

Scope

The scope covers the following :

- Describe Financial estimate and costing, budgetary control system, cost analysis, balance sheet, income and expenditure

Elements and Performance Criteria

PGD-203

To be competent, the user/individual on the job must be able to:

- PC1.** • Explain the Concept of finance and finance management.
- PC2.** • Describe the measures to be taken to optimize the costing of production and product
- PC3.** Explain different elements of costing
- PC4.** Estimate the Cost of Footwear
- PC5.** • Calculate the optimum size of production for optimum cost
- PC6.** • Apply the concept of budgetary control in business environment
- PC7.** • Explain the role of policy formulation at different stages for financial management and budgetary control
- PC8.** • Analyze balance sheet and Prepare budget requirements monthly, weekly, yearly

MSME/LSS/N1140: Computer Added Footwear Design (CAD)

Description

To possess knowledge and skills to work in SHOE CAD and pattern engineering.

Scope

The scope covers the following :

- To possess knowledge and skills to work in SHOE CAD and pattern engineering.

Elements and Performance Criteria

PGD-202

To be competent, the user/individual on the job must be able to:

- PC1.** • Define Pattern engineering (pattern cutting)
• and grading.
- PC2.** • Illustrate smoothening, splitting and
• merging of lines; drawing parallel and
• perpendicular lines, measuring of lines and areas.
• Windowing, scaling, moving, rotating, reflection
• etc. Allowances, Pattern nesting, Pattern grading,
• Size systems, Cutting-out graded pattern etc.
- PC3.** • Use Digitization - 2-D software, 3-D
• digitization, Scanning, Digitization, 3-D to 2-D to
• 3-D, Styling -2-D and 3-D design sketches,
• styling from photographs and video, Color
• selection and mixing in different styles and
• construction.
- PC4.** • Prepare Graphics program functions Windowing, clipping, copying, duplicating,
• cutting, pasting, trimming, Practice 2-D and 3-
• D solids modeling

Assessment Criteria

MSME/LSS/N1136: Industrial Management and Safety

Description

Management principles, productivity, planning, workflow, wages, incentives, and safety practices to ensure efficient, organized, and secure industrial operations.

Scope

The scope covers the following :

- Management principles, productivity, planning, workflow, wages, incentives, and safety practices to ensure efficient, organized, and secure industrial operations.

Elements and Performance Criteria

PGD-106

To be competent, the user/individual on the job must be able to:

- PC1.**
- Meaning & theories of management (Taylor & Fayol).
 - Functions of management.
 - Forms of business organization & ownership.
 - Organizational structures.
 - Types of wages & incentives.
 - Financial, non-financial & semi-financial incentives.
 - Productivity, objectives & factors.
 - Work study, method study & work measurement.
 - Recording techniques & standard time calculation.
 - Production planning & control.
- PC2.**
- Importance of industrial safety.
 - Meaning of factory & accident terms.
 - Frequency, severity & incidence rates.
 - Accident proneness & unsafe acts/conditions.
 - Job safety analysis & inspections.
 - Industrial safety policy.
 - Accident factors: mechanical, environmental, personal.
 - Hazards & risk types.
 - First aid (DRABC).
 - Fire types, extinguishers & PPE use.

Assessment Criteria

MSME/LSS/N1135: Lasting and Making Technology

Description

To supervise and plan the production process of different construction in the lasting/bottom department by using the latest technologies

Scope

The scope covers the following :

- To supervise and plan the production process of different construction in the lasting/bottom department by using the latest technologies

Elements and Performance Criteria

PGD-105

To be competent, the user/individual on the job must be able to:

- PC1.**
- □Types and uses of toe-puffs and stiffeners and methods of attachments.
 - □Methods of conditioning of uppers and components.
 - □Plan Lasting and bottoming methods for different types of construction in general use.
 - □Perform Healing processes, including heel building and heel finishing, covering Systems and methods of heel attachment.
 - □Various Systems of transportation and their management.
 - □Head setting effects, hot-melt adhesive usage, and lasting faults impacting later operations.
- PC2.**
- □Various points of techniques and process for sole attachment.
 - □Elaborate Composition, characteristics and uses of insole and soling materials for different constructions.
 - □Discuss Machine cutting, direct/caster and planet and rounding operations.
 - □Assembly and storage of lasts and components.
 - □Standardization and stamping of components.
 - □Thickness adjustment, identification of shank & insole assemblies, with effective workflow and material control.

MSME/LSS/N1133: Basic Closing Technology

Description

Develop knowledge and skills in assembling of footwear components by using advanced machinery

Scope

The scope covers the following :

- Develop knowledge and skills in assembling of footwear components by using advanced machinery

Elements and Performance Criteria

PGD-104

To be competent, the user/individual on the job must be able to:

- PC1.**
 - Discuss basic and special stitching machines.
 - □ Elaborate operational sequence for Skiving, backing, stitch marking, perforation, folding and ancillary machinery like for basic styles.
 - □ Different methods of upper reinforcements, edge and decorative treatments.
 - □ Various types of seams. Welding treatment for upper assembly, decoration and ornaments.
- PC2.**
 - Classification of Needles and threads: Types, sizes, selection, classification, relationship, application to Work
- PC3.**
 - Discuss Jig assembly of upper components.
 - □ Identify Automatic and semi-automatic equipment for upper processing.
 - □ Discuss Upper shaping by forming equipment/blocking machine
- PC4.**
 - Plan departmental management of workload like types and advantages of transporter systems, Random and final inspection.

MSME/LSS/N1131: Basic Cutting Technology

Description

Develop knowledge and skills for material cutting and costing to prepare components of footwear

Scope

The scope covers the following :

- Develop
- knowledge and skills for
- material cutting and costing to
- prepare components of footwear

Elements and Performance Criteria

PGD-103

To be competent, the user/individual on the job must be able to:

- PC1.** • Various selection methods for upper materials,
• grading of materials and material identification for
• upper, lining, reinforcement and other footwear
• components.
- PC2.** • Identification of recoverable and non-recoverable
• defects, material cuttability and selection of cutting
• tools.
- PC3.** • Discuss Machines for cutting and related
• equipment and dies.
- PC4.** Illustrate various material wastes and its causes.
- PC5.** • Define Pattern layout on plain materials, Pattern
• layout on patterned materials and Pattern layout on
• fabric materials.
- PC6.** • Discuss Characteristics of leather for footwear
• upper components.
- PC7.** • Brief leather material quality variations in relation
• to different parts of the skin/ hide (stretch - resistance -
• color - grain - texture).
- PC8.** List upper components {vamp - quarters - insideoutside etc.}

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks

MSME/LSS/N1130: Basic Cutting Technology

Description

Develop knowledge and skills for material cutting and costing to prepare components of footwear

Scope

The scope covers the following :

- Develop
- knowledge and skills for
- material cutting and costing to
- prepare components of footwear

Elements and Performance Criteria

PGD-103

To be competent, the user/individual on the job must be able to:

- PC1.** • Various selection methods for upper materials,
• grading of materials and material identification for
• upper, lining, reinforcement and other footwear
• components.
- PC2.** • Identification of recoverable and non-recoverable
• defects, material cuttability and selection of cutting
• tools.
- PC3.** • Discuss Machines for cutting and related
• equipment and dies.
- PC4.** Illustrate various material wastes and its causes.
- PC5.** • Define Pattern layout on plain materials, Pattern
• layout on patterned materials and Pattern layout on
• fabric materials.
- PC6.** • Discuss Characteristics of leather for footwear
• upper components.
- PC7.** • Brief leather material quality variations in relation
• to different parts of the skin/ hide (stretch - resistance -
• color - grain - texture).
- PC8.** List upper components {vamp - quarters - insideoutside etc.}

MSME/LSS/N1129: Designing and Pattern Cutting III

Description

Identify customers requirement and create Conceptual footwear Design and cut the patterns accordingly

Scope

The scope covers the following :

- Identify customers
- requirement and create
- Conceptual footwear Design and
- cut the patterns accordingly

Elements and Performance Criteria

PGD-102

To be competent, the user/individual on the job must be able to:

- PC1.**
- Discuss Fashion Design Elements and their
 - application in footwear design.
- PC2.**
- Concept of Graphic Presentation of foot and last
 - Various views and measurements of foot and last
- PC3.** Various methods of pattern cutting
- PC4.**
- Discuss pattern cutting Techniques for bottom
 - components and other specialized methods
- PC5.**
- Various steps of design of products for problem
 - solving in technology.

Assessment Criteria

MSME/LSS/N1127: Art and Sketching II

Description

Develop knowledge and skills in footwear sketching/Art and Sketching

Scope

The scope covers the following :

- Develop
- knowledge and skills in
- footwear sketching/Art and
- Sketching

Elements and Performance Criteria

PGD-101

To be competent, the user/individual on the job must be able to:

- PC1.** • Footwear Sketches: fashion style and shapes,
• various types of shoes, exploded view of popular shoes,
• various types of shoes and shoe last templates.
- PC2.** • Footwear Sketches: fashion style and shapes,
• various types of shoes, exploded view of popular shoes,
• various types of shoes and shoe last templates.
- PC3.** • Elements of art and fashion, fashion cycle, fashion
• forecasting and fashion market trend
- PC4.** • Elements of fashion esthetics viz. color, texture,
• retheme, proportion and balance etc.
- PC5.** • Creation of new style, modification of basic
• styles.

Acronyms

NOS	National Occupational Standard(s)
NSQF	National Skills Qualifications Framework
QP	Qualifications Pack
TVET	Technical and Vocational Education and Training

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Qualification Pack

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
