Qualification Pack

MSME/LSS/Q1103: Jr. Technical Supervisor Sports Shoe Manufacturing

Brief Job Description

Qualified learners who attain this qualification are capable in Shoe Design & Development, Materials Science Manufacturing Techniques, Industrial Engineering, Quality Assurance & Control, Production Management, Retailing, Merchandising & Supply Chain, and Sustainability within the fields of Sports Footwear and Allied sectors. Learner can get a job in Design & Development, Production, Quality, Productivity, Costing & Cost Control, Marketing, Retailing & Merchandising fields of Sports Footwear sector and also can able to become an entrepreneur

Personal Attributes

Qualified learners who attain this qualification are capable in Shoe Design & Development, Materials Science Manufacturing Techniques, Industrial Engineering, Quality Assurance & Control, Production Management, Retailing, Merchandising & Supply Chain, and Sustainability within the fields of Sports Footwear and Allied sectors. Learner can get a job in Design & Development, Production, Quality, Productivity, Costing & Cost Control, Marketing, Retailing & Merchandising fields of Sports Footwear sector and also can able to become an entrepreneur

Applicable National Occupational Standards (NOS)

Qualification Pack

MSME/LSS/N1178: Inplant Training

Description

Gain practical industry experience through hands-on training in a real workplace, applying technical skills, understanding industrial practices, and enhancing professional competence.

Scope

The scope covers the following :

- Gain practical industry experience through hands-on training in a real workplace, applying technical skills, understanding industrial practices, and enhancing professional competence.

Elements and Performance Criteria

MSME/ ACSMM/12

To be competent, the user/individual on the job must be able to:

- PC1.** Gain practical knowledge in sports footwear manufacturing, including trends, production control, material assortment, costeffective manufacturing, quality aspects, and retailing/merchandising activities in the footwear industry.

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>MSME/ ACSMM/12</i>	-	100	-	-
PC1. Gain practical knowledge in sports footwear manufacturing, including trends, production control, material assortment, costeffective manufacturing, quality aspects, and retailing/merchandising activities in the footwear industry.	-	100	-	-
NOS Total	-	100	-	-

MSME/LSS/N1177: Final Project

Description

Apply the knowledge and skills gained throughout the course to complete an industry-relevant project demonstrating technical competence, creativity, and problem-solving abilities.

Scope

The scope covers the following :

- Apply the knowledge and skills gained throughout the course to complete an industry-relevant project demonstrating technical competence, creativity, and problem-solving abilities.

Elements and Performance Criteria

MSME/ ACSMM/11

To be competent, the user/individual on the job must be able to:

- PC1.**
- Develop sport shoe designs, select materials, estimate costs, analyze consumer behavior, conduct market survey, prepare
 - storyboards, and create Techno-Economic Feasibility Report

Qualification Pack

Qualification Pack

MSME/LSS/N1175: Merchandising and Supply Chain

Description

Learn the principles of merchandising, sourcing, inventory management, supplier coordination, logistics, and supply chain processes to ensure the timely and cost-effective production and delivery of products.

Scope

The scope covers the following :

- Learn the principles of merchandising, sourcing, inventory management, supplier coordination, logistics, and supply chain processes to ensure the timely and cost-effective production and delivery of products.

Elements and Performance Criteria

MSME/ ACSMM/10

To be competent, the user/individual on the job must be able to:

- PC1.** • Identify formats, plan product ranges, layout, inventory, pricing, promotion, technology, brand policies, and visual
• merchandising.
- PC2.** Understand stages, plan frames, develop prototypes, execute, present, create samples, and prepare tooling..
- PC3.** Explain concepts, integrate, manage inventory, logistics, distribution, and implement order fulfillment practices.

MSME/LSS/N1174: Cost Control in Sports Shoe Manufacture

Description

Understand cost estimation, material optimization, waste reduction, and production planning to control manufacturing costs while maintaining the quality of sports shoes.

Scope

The scope covers the following :

- Understand cost estimation, material optimization, waste reduction, and production planning to control manufacturing costs while maintaining the quality of sports shoes.

Elements and Performance Criteria

MSME/ ACSMM/09

To be competent, the user/individual on the job must be able to:

- PC1.** Understand cost control importance, overview management principles, and discuss the relationship with profitability.
- PC2.** Classify costs, analyze behavior, and conduct cost-volume-profit analysis.
- PC3.** Apply costing methods, develop budgets, and perform variance analysis.

Qualification Pack

MSME/LSS/N1173: Industrial Engineering and Productivity

Description

Learn industrial engineering principles, workflow optimization, and productivity improvement techniques to enhance efficiency, quality, and cost-effectiveness in footwear manufacturing.

Scope

The scope covers the following :

- Learn industrial engineering principles, workflow optimization, and productivity improvement techniques to enhance efficiency, quality, and cost-effectiveness in footwear manufacturing.

Elements and Performance Criteria

MSME/ ACSMM/08

To be competent, the user/individual on the job must be able to:

- PC1.** Understand significance, factors, measurement methods, and benchmarking.
- PC2.** Introduce techniques like time study, motion study, and work sampling.
- PC3.** Learn process mapping, value stream mapping, Lean, Six Sigma, and optimization tools.
- PC4.** Overview PPC functions, demand forecasting, APP, and MRP
- PC5.** Understand ergonomic principles, risk assessment, and human-machine interface design

Qualification Pack

MSME/LSS/N1172: Advanced Manufacturing Techniques

Description

Understand modern footwear manufacturing processes, advanced machinery, automation, and efficient production techniques to improve quality and productivity.

Scope

The scope covers the following :

- Understand modern footwear manufacturing processes, advanced machinery, automation, and efficient production techniques to improve quality and productivity.

Elements and Performance Criteria

MSME/ ACSMM/07

To be competent, the user/individual on the job must be able to:

- PC1.** Understand sports footwear industry, importance of advanced manufacturing, and key challenges.
- PC2.** Learn principles, processes (FDM, SLS, SLA), and materials used in 3D printing for sports footwear.
- PC3.** Gain proficiency in CAD software, digital prototyping, and CAD/CAM integration
- PC4.** Understand automation's role, implement automated processes, and evaluate cobots in footwear production.
- PC5.** Explore Industry 4.0 concepts, smart factories, IoT sensors, and predictive maintenance in footwear manufacturing.

Qualification Pack

MSME/LSS/N1171: Lasting and Making Techniques

Description

Learn the techniques of lasting and footwear assembly to ensure proper shape, fit, strength, and quality during the manufacturing process.

Scope

The scope covers the following :

- Learn the techniques of lasting and footwear assembly to ensure proper shape, fit, strength, and quality during the manufacturing process.

Elements and Performance Criteria

MSME/ ACSMM/06

To be competent, the user/individual on the job must be able to:

- PC1.** Acquire hands-on knowledge of lasting, making, polishing, quality control, and packaging in sports shoe production.

Qualification Pack

MSME/LSS/N1166: Materials Management

Description

Understand the planning, storage, handling, and efficient utilization of materials to minimize waste, control inventory, and ensure smooth footwear production

Scope

The scope covers the following :

- Understand the planning, storage, handling, and efficient utilization of materials to minimize waste, control inventory, and ensure smooth footwear production

Elements and Performance Criteria

MSME/ ACSMM/04

To be competent, the user/individual on the job must be able to:

- PC1.** • Understand factors influencing materials selection, identify properties of shoe materials, determine performance
• requirements.
- PC2.** Analyze sourcing strategies, apply supplier evaluation criteria, maintain effective relationships.
- PC3.** Plan procurement, utilize negotiation tactics, manage contracts, measure supplier performance.
- PC4.** Classify inventory, implement control methods like ABC analysis and EOQ, optimize inventory.
- PC5.** • Lean Manufacturing and Waste Reduction: Apply lean principles, implement waste reduction strategies, integrate lean
• practices.
- PC6.** Practice sustainable sourcing, consider environmental/social factors, implement waste management initiatives.

Qualification Pack

MSME/LSS/N1165: Cutting and Closing Techniques

Description

Learn the methods of cutting footwear materials accurately and assembling upper components using stitching and closing techniques to ensure quality and precision.

Scope

The scope covers the following :

- Learn the methods of cutting footwear materials accurately and assembling upper components using stitching and closing techniques to ensure quality and precision.

Elements and Performance Criteria

MSME/ ACSMM/03

To be competent, the user/individual on the job must be able to:

- PC1.** Perform upper and lining clicking, engage in pre-training, execute tasks in sports shoe production.
- PC2.** Execute upper closing tasks tailored to events/designs, participate in pre-training, perform sports shoe production tasks.

Qualification Pack

MSME/LSS/N1164: Cutting and Closing Techniques

Description

Learn the methods of cutting footwear materials accurately and assembling upper components using stitching and closing techniques to ensure quality and precision.

Scope

The scope covers the following :

- Learn the methods of cutting footwear materials accurately and assembling upper components using stitching and closing techniques to ensure quality and precision.

Elements and Performance Criteria

MSME/ ACSMM/03

To be competent, the user/individual on the job must be able to:

- PC1.**
- Inspect and grade leathers, sort based on properties, cut leather/synthetics/textiles, operate cutting machines, apply
 - manual/automated techniques, implement clicking costing, ensure quality control.
- PC2.**
- Apply clicking press, maintain/inspect dies/machines, understand factory demands, execute pre-closing operations,
 - operate sewing machines, apply stitching techniques, use appropriate materials, follow design sequences.

MSME/LSS/N1163: Materials and Components

Description

Identify and understand the properties, selection, and application of footwear materials and components used in manufacturing durable, comfortable, and quality footwear.

Scope

The scope covers the following :

- Identify and understand the properties, selection, and application of footwear materials and components used in manufacturing durable, comfortable, and quality footwear.

Elements and Performance Criteria

MSME/ ACSMM/02

To be competent, the user/individual on the job must be able to:

- PC1.** Understand materials used, appreciate material selection importance, learn basic properties.
- PC2.** Explore leather types, synthetic materials, textile types.
- PC3.** Study EVA, PU properties, foam technologies, and TPU benefits
- PC4.** Learn rubber types, TPE characteristics, and applications
- PC5.** Understand purposes and roles of components like toe puffs, midsoles, eyelets.
- PC6.** Explore graphene-infused rubber, eco-friendly materials

MSME/LSS/N1162: Footwear Design Principles

Description

Understand the basic principles of footwear design, including ergonomics, aesthetics, material selection, functionality, comfort, durability, and current fashion trends to create practical and appealing footwear designs.

Scope

The scope covers the following :

- Understand the basic principles of footwear design, including ergonomics, aesthetics, material selection, functionality, comfort, durability, and current fashion trends to create practical and appealing footwear designs.

Elements and Performance Criteria

MSME/ ACSMM/01

To be competent, the user/individual on the job must be able to:

- PC1.**
- Generate design concepts, conduct market research, select materials, create prototypes, evaluate design elements,
 - develop brand identity

MSME/LSS/N1161: Footwear Design principles

Description

Understand the basic principles of footwear design, including ergonomics, aesthetics, material selection, functionality, comfort, durability, and current fashion trends to create practical and appealing footwear designs.

Scope

The scope covers the following :

- Understand the basic principles of footwear design, including ergonomics, aesthetics, material selection, functionality, comfort, durability, and current fashion trends to create practical and appealing footwear designs.

Elements and Performance Criteria

MSME/ ACSMM/01

To be competent, the user/individual on the job must be able to:

- PC1.** Describe foot structure and function, identify foot shapes and arch types, explain foot biomechanics
- PC2.** Define foot parameters and sizing systems, apply sports shoe size systems, utilize foot measuring devices
- PC3.**
 - Biomechanics of Sports Shoes - Analyze biomechanical aspects of running, evaluate biomechanical design principles for
 - sports shoes
- PC4.** Design for comfort and performance, address common foot issues, consider customization and fit
- PC5.** Define lasts, apply proportional measurements, differentiate foot and last anatomy, identify last shapes and styles.

MSME/LSS/N1169: Employability skills I

Description

Develop essential workplace skills, including communication, teamwork, problem-solving, time management, professionalism, and workplace safety.

Scope

The scope covers the following :

- Develop essential workplace skills, including communication, teamwork, problem-solving, time management, professionalism, and workplace safety.

Elements and Performance Criteria

MSME/ES/04

To be competent, the user/individual on the job must be able to:

- PC1.** Acquire computer basics and communication skills.
- PC2.** Teamwork: Understand team dynamics, formation, and conflict management.
- PC3.** Grasp human values, civic rights, and environmental ethics
- PC4.** Develop confidence, positive attitude, self-awareness, and goal-setting abilities

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

as per qp

Minimum Aggregate Passing % at QP Level : 40

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 40

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
