Qualification Pack

MSME/MES/Q4301: VFX ASSOCIATE

Brief Job Description

A VFX Associate course is designed to provide learners with a comprehensive understanding and practical skills in the field of computer generated imagery (CGI) and visual effects.

Personal Attributes

A VFX Associate course is designed to provide learners with a comprehensive understanding and practical skills in the field of computer generated imagery (CGI) and visual effects.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MSME/MES/N4306: Understanding to use 3D Models in VR Environment](#)
2. [MSME/MES/N4305: Basic Understanding of Video Editing & Compositing](#)
3. [MSME/MES/N4304: Gain Knowledge to Animate a 3D Character and Apply FX](#)
4. [MSME/MES/N4303: Attain knowledge to create 3D Model, Texture and Light](#)
5. [MSME/MES/N4302: Understand and Create Computer Graphics](#)
6. [MSME/MES/N4301: Understand and Create Computer Graphics](#)
7. [MSME/MES/N4307: Employability Skills 08](#)

Qualification Pack

MSME/MES/N4306: Understanding to use 3D Models in VR Environment

Description

Compare and contrast VR with traditional media and understand its unique capabilities.

Scope

The scope covers the following :

- Compare and contrast VR with traditional media and understand its unique capabilities.

Elements and Performance Criteria

: MSME/VFXA/05 Understanding to use 3D Models in VR Environment

To be competent, the user/individual on the job must be able to:

- PC1.** • Designs and develops high-performance VR applications that meet the demanding hardware requirements of VR devices.
- PC2.** • Optimizes VR experiences to ensure smooth frame rates and minimize latency for an immersive user experience.
- PC3.** • Implements efficient rendering techniques and utilizes advanced graphics features in VR environments
- PC4.** • Troubleshoots and resolves performance-related issues in VR applications, such as frame drops or graphical artifacts
- PC5.** Applies best practices for optimizing CPU and GPU usage in VR development.
- PC6.** Employs techniques to reduce motion sickness and improve comfort in VR experiences.
- PC7.** • Evaluates and selects appropriate locomotion methods that balance user comfort and immersion.
- PC8.** Implements effective collision detection and physics simulations in VR environments
- PC9.** Employs optimization strategies for handling complex geometry and textures in VR graphics
- PC10.** • Uses performance profiling tools to identify and address performance bottlenecks in VR applications
- PC11.** • Implements efficient data streaming and loading techniques for large-scale VR environments
- PC12.** • Applies strategies to minimize memory usage and optimize asset management in VR development.
- PC13.** • Tests and validates the performance of VR applications across different hardware configurations.
- PC14.** • Continuously iterates and improves the performance of VR experiences based on user feedback and testing.
- PC15.** • Demonstrates a deep understanding of performance considerations and best practices specific to VR development.

MSME/MES/N4305: Basic Understanding of Video Editing & Compositing

Description

Understand the basics of video editing, colour theory, and editing software.

Scope

The scope covers the following :

- Understand the basics of video editing, colour theory, and editing software.

Elements and Performance Criteria

MSME/VFXA/04 Basic Understanding of Video Editing & Compositing

To be competent, the user/individual on the job must be able to:

- PC1.** Explains the basics of video editing, including concepts and techniques
- PC2.** Demonstrates familiarity with color theory basics
- PC3.** Utilizes video editing software proficiently and navigates its user interface effectively
- PC4.** Demonstrates the import and organization of media files within the editing software.
- PC5.** Creates new sequences and adds clips to the timeline skillfully.
- PC6.** Uses essential tools and shortcuts within the editing software proficiently.
- PC7.** Effectively utilizes the toolbar and adjusts/animator clip dimensions
- PC8.**
 - Demonstrates proficient knowledge and application of green screen (chromakey)
 - techniques.
- PC9.** Creates basic titles and templates skillfully
- PC10.** Installs fonts into the editing software and uses custom text animation presets competently
- PC11.** Composites video and titles, including interactive wipe or reveal effects effectively.
- PC12.**
 - Separates audio from video, removes background noise, and syncs video clips with music
 - competently.
- PC13.**
 - Uses audio effects like auto ducking, pitch changing, phone call voice effect, and
 - distant/muffled audio effect skillfully
- PC14.**
 - Exports HD video and understands the best export settings for platforms like YouTube
 - proficiently.
- PC15.** Applies keyframe animation techniques skillfully
- PC16.** Uses keyframes to improve video quality and adjust volume skillfully
- PC17.**
 - Creates various transitions, including crop opening, default, custom, plugin, before and after
 - wipe slide, flicker, luma fade, and more effectively.
- PC18.** Explains the difference between color correction and color grading
- PC19.**
 - Applies competent color correction techniques to adjust the overall appearance of footage
 - skillfully.
- PC20.** Applies skillful color grading techniques to create specific moods or styles
- PC21.** Color grades multiple clips at once using adjustment layers effectively.

Qualification Pack

- PC22.** • Inverts colors and applies special effects like Harry Potter's invisibility cloak and parallax
• universe effect skillfully
- PC23.** • Applies advanced video effects and techniques, including automatic mask tracking, VHS VCR
• camcorder look, cloning, freeze frame, fast forward, reverse clip speed, echo effects, morph
• cut glitch transition, fish-eye effect, and more, skillfully
- PC24.** Implements techniques to prevent software crashes and manages cache data effectively.
- PC25.** Adds timecode stamps or timers to footage proficiently.
- PC26.** Creates L-cuts and J-cuts for smooth transitions skillfully.
- PC27.** Effectively utilizes highlighting techniques in video.
- PC28.** Sources and uses free stock videos and templates proficiently

MSME/MES/N4304: Gain Knowledge to Animate a 3D Character and Apply FX

Description

Familiarize with the animation interface and its key components, including the graph editor, dope sheet, and motion path.

Scope

The scope covers the following :

- Familiarize with the animation interface and its key components, including the graph editor, dope sheet, and motion path.

Elements and Performance Criteria

MSME/VFXA/03 Gain Knowledge to Animate a 3D Character and Apply FX

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrates proficiency in navigating and utilizing the animation interface.
- PC2.** Sets keyframes and manipulates animation curves using the graph editor skillfully.
- PC3.** Uses the dope sheet competently for organizing and editing animation.
- PC4.** Effectively utilizes motion paths, ghosting, and grease pencil tools.
- PC5.** Plays blast animations for review and evaluation purposes competently.
- PC6.** Uses animation controls and tools competently.
- PC7.** Sets and edits keyframes skillfully
- PC8.** Utilizes the graph editor proficiently for precise control over animation curves
- PC9.** Creates and manipulates motion paths effectively.
- PC10.** Animates cameras and secondary motion skillfully.
- PC11.** Plays blast animation sequences for review and evaluation competently.
- PC12.** Demonstrates understanding and application of the principles of animation.
- PC13.**
 - Uses the graph editor, Trax editor, and camera sequencer proficiently for advanced animation workflows.
- PC14.** Utilizes tools such as ATOM, animation layers, and blending techniques skillfully
- PC15.**
 - Creates various animation sequences competently, including bouncing balls, walk cycles, run cycles, jumps, flight, acrobatic fight scenes, dialogue interaction scenes, and more.
- PC16.**
 - Plans and executes complete animations, including facial expressions, paper folding effects, time warps, swinging characters, and utilizes animation tips effectively.
- PC17.** Sets up an emitter for particle dynamics skillfully.
- PC18.** Understands and adheres to the rules of working with dynamics.
- PC19.** Demonstrates competent knowledge and usage of common particle attributes.
- PC20.** Proficiently sets up the ground plane and animates the emitter.
- PC21.** Adjusts speed and emission of particles skillfully

Qualification Pack

- PC22.** Changes particle types and sets up particle shading effectively.
- PC23.** Finalizes particle shading and caches simulation data successfully
- PC24.** Understands the concepts and principles of nParticles.
- PC25.** Uses the nParticle tool and the interface for nParticles proficiently.
- PC26.** Utilizes the nucleus node and the nParticle node skillfully.
- PC27.** Applies fields, forces, and passive colliders to nParticles competently
- PC28.**
 - Uses different types of emitters, including Omni, Directional, and Volume emitters,
 - effectively.
- PC29.** Emits particles from objects and curves skillfully.
- PC30.** Creates nParticles caches successfully
- PC31.** Understands the basics of point particles.
- PC32.** Selects appropriate render types for point particles proficiently.
- PC33.** Animates point particles using fields skillfully.
- PC34.** Renders point particles with hardware renderers and the Arnold render engine effectively.
- PC35.** Uses the particle collision event editor competently.
- PC36.** Understands the basics of ball particles
- PC37.** Uses widgets for manipulating ball particles skillfully
- PC38.** Applies mass, collision layers, constraints, and stickiness to ball particles competently.
- PC39.** Creates meshes from particles and uses particle instancing proficiently.
- PC40.** Adds rotation to particles effectively.
- PC41.** Understands the basics of cloud particles.
- PC42.** Uses color, incandescence, and opacity attributes for cloud particles skillfully.
- PC43.** Works with goals and particles proficiently.
- PC44.** Scripts particles with goals competently.
- PC45.** Paints particle emission rates skillfully.
- PC46.** Understands the basics of liquid water particles.
- PC47.** Creates a liquid simulation proficiently.
- PC48.**
 - Handles filling objects, initial states, and object interaction in liquid particle simulations
 - skillfully.
- PC49.** Analyzes assets and plans the energy blast effect effectively.
- PC50.**
 - Creates and animates fields such as the Newton field, air field, and volume axis field
 - skillfully
- PC51.** Effectively adjusts the volume axis curve for the energy blast effect
- PC52.** Finalizes the primary and secondary energy blast passes competently.
- PC53.** Reassembles all energy particle passes successfully.
- PC54.** Sets up and fine-tunes rendering settings in the Arnold renderer proficiently.
- PC55.** Generates final renders of the energy blast effect skillfully.

MSME/MES/N4303: Attain knowledge to create 3D Model, Texture and Light

Description

Understand the basics of 3D modelling and differentiate between 2D and 3D.

Scope

The scope covers the following :

- Understand the basics of 3D modelling and differentiate between 2D and 3D.

Elements and Performance Criteria

MSME/VFXA/02 Attain knowledge to create 3D Model, Texture and Light

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrates the ability to explain the fundamental concepts of 3D graphics
- PC2.** Identifies and explains the differences between 2D and 3D graphics
- PC3.** Uses the 3D software interface and its various components competently
- PC4.** Navigates and customizes the 3D user interface efficiently.
- PC5.** Utilizes different viewports skillfully for effective work.
- PC6.** Selects and manipulates objects in a 3D scene competently.
- PC7.** Uses transformation operations effectively for precise object positioning.
- PC8.**
 - Applies pivot points, duplication, and object properties using the channel box and attribute editor skillfully.
- PC9.** Demonstrates knowledge of scene organization principles and techniques.
- PC10.** Uses outliner, hierarchies, and groups competently to effectively organize a 3D scene.
- PC11.** Manages object visibility and layering skillfully.
- PC12.** Creates polygonal models competently using primitives and polygonal tools
- PC13.** Selects polygons effectively and uses soft selection for precise modeling.
- PC14.** Creates complex models successfully using polygonal modeling techniques
- PC15.** Applies combining, separating, and Booleans for polygonal modeling skillfully.
- PC16.** Utilizes references skillfully for precise modeling.
- PC17.** Applies extrude, edge loops, and bevel techniques competently for polygonal modeling.
- PC18.** Uses symmetry and merge weld techniques accurately.
- PC19.** Utilizes mirror geometry, extrude path, and polygonal bridge tools competently.
- PC20.** Uses subdivision surface, crease tool, and smooth proficiently for refining polygon meshes.
- PC21.** Implements edge flow techniques skillfully to enhance mesh topology.
- PC22.**
 - Applies non-linear deformations, lattice, and object history for advanced mesh refinement
 - effectively.
- PC23.** Uses brush interface and sculpting tools skillfully for effective mesh sculpting

Qualification Pack

- PC24.** Demonstrates knowledge and understanding of NURBS modeling principles and techniques.
- PC25.** Creates NURBS primitives competently and utilizes NURBS curves.
- PC26.** • Applies NURBS modeling techniques such as revolve, loft, open/close, planar, and extrude
• skillfully
- PC27.** • Uses tools like isoparms, NURBS curve, curve surface, project curve, trim tool, and
• converting NURBS to polygons competently
- PC28.** Demonstrates proficiency in using effective modeling tools.
- PC29.** • Demonstrates familiarity with alternative plugins or techniques for advanced modeling
• tasks.
- PC30.** Creates hard surface models such as cars and trucks skillfully
- PC31.** Creates organic models such as characters or bipeds competently.
- PC32.** Model's animals or quadrupeds skillfully.
- PC33.** Utilizes the UV editor for unwrapping UVs skillfully
- PC34.** Approaches unwrapping UVs for complex geometry competently
- PC35.** Successfully unwraps UVs for organic modeling of bipeds and quadrupeds.
- PC36.** Creates and applies shaders, textures, and materials competently.
- PC37.** Demonstrates understanding of the use of render engines like Mental Ray and Arnold
- PC38.** Utilizes features specific to Mental Ray and Arnold materials proficiently.
- PC39.** Understands and implements different UV projections competently.
- PC40.** Uses planar, cylindrical, spherical, and automatic UV projections skillfully.
- PC41.** Lays out UVs for complex geometry proficiently.
- PC42.** Effectively textures polygons using basic UV and UV projection techniques.
- PC43.** Skillfully utilizes the UV editor and mapping tools
- PC44.** Applies materials and textures to 3D models, including NURBS, proficiently.
- PC45.** Creates and applies textures for organic models proficiently.
- PC46.** Exports and imports UV snapshots skillfully
- PC47.** Creates facial and clothing textures for organic models competently
- PC48.** Retouches, cleans up, and assigns textures to organic models competently.
- PC49.** Applies roughness/grunge textures skillfully to create realistic inorganic models.
- PC50.** Understands different light types and their attributes.
- PC51.** Controls light color, intensity, and shadows proficiently
- PC52.** Adjusts render settings competently for desired output quality.
- PC53.** Creates lighting setups that match the environment and scene requirements effectively
- PC54.** Configures output settings and renders the final sequence proficiently.
- PC55.** Effectively utilizes render settings, lights, and shadows.
- PC56.** Adjusts camera settings, depth of field, motion blur, and light editor skillfully
- PC57.** Renders scenes competently using render view and batch render.
- PC58.** • Implements various rendering techniques proficiently, including lighting, motion blur, ray
• tracing, indirect lighting (final gathering, global illumination), and image-based lighting.
- PC59.** Works with specific features and settings of third-party renderers like Arnold effectively.
- PC60.** Uses Arnold lights, mesh lights, and render settings skillfully.

Qualification Pack

- PC61.** Implements depth of field and motion blur effects in Arnold proficiently
- PC62.** Understands the relationship between 3D light types and their real-world counterparts.
- PC63.** Creates and places lights accurately in 3D scenes.
- PC64.** Demonstrates proficiency in basic rendering techniques
- PC65.** Demonstrates proficiency in basic rendering techniques
- PC66.** Utilizes shading basics and light attributes skillfully, including spot light attributes.
- PC67.** Understands the unique attributes and features of the Arnold renderer.
- PC68.** Utilizes Arnold attributes competently to achieve desired lighting effects.

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>MSME/VFXA/02 Attain knowledge to create 3D Model, Texture and Light</i>	-	100	-	-
PC1. Demonstrates the ability to explain the fundamental concepts of 3D graphics	-	-	-	-
PC2. Identifies and explains the differences between 2D and 3D graphics	-	-	-	-
PC3. Uses the 3D software interface and its various components competently	-	-	-	-
PC4. Navigates and customizes the 3D user interface efficiently.	-	-	-	-
PC5. Utilizes different viewports skillfully for effective work.	-	-	-	-
PC6. Selects and manipulates objects in a 3D scene competently.	-	-	-	-
PC7. Uses transformation operations effectively for precise object positioning.	-	-	-	-
PC8. • Applies pivot points, duplication, and object properties using the channel box and attribute editor skillfully.	-	-	-	-
PC9. Demonstrates knowledge of scene organization principles and techniques.	-	-	-	-
PC10. Uses outliner, hierarchies, and groups competently to effectively organize a 3D scene.	-	-	-	-
PC11. Manages object visibility and layering skillfully.	-	-	-	-
PC12. Creates polygonal models competently using primitives and polygonal tools	-	-	-	-
PC13. Selects polygons effectively and uses soft selection for precise modeling.	-	-	-	-
PC14. Creates complex models successfully using polygonal modeling techniques	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC15. Applies combining, separating, and Booleans for polygonal modeling skillfully.	-	-	-	-
PC16. Utilizes references skillfully for precise modeling.	-	-	-	-
PC17. Applies extrude, edge loops, and bevel techniques competently for polygonal modeling.	-	-	-	-
PC18. Uses symmetry and merge weld techniques accurately.	-	-	-	-
PC19. Utilizes mirror geometry, extrude path, and polygonal bridge tools competently.	-	-	-	-
PC20. Uses subdivision surface, crease tool, and smooth proficiently for refining polygon meshes.	-	-	-	-
PC21. Implements edge flow techniques skillfully to enhance mesh topology.	-	-	-	-
PC22. • Applies non-linear deformations, lattice, and object history for advanced mesh refinement • effectively.	-	-	-	-
PC23. Uses brush interface and sculpting tools skillfully for effective mesh sculpting	-	-	-	-
PC24. Demonstrates knowledge and understanding of NURBS modeling principles and techniques.	-	-	-	-
PC25. Creates NURBS primitives competently and utilizes NURBS curves.	-	-	-	-
PC26. • Applies NURBS modeling techniques such as revolve, loft, open/close, planar, and extrude • skillfully	-	-	-	-
PC27. • Uses tools like isoparms, NURBS curve, curve surface, project curve, trim tool, and • converting NURBS to polygons competently	-	-	-	-
PC28. Demonstrates proficiency in using effective modeling tools.	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC29. • Demonstrates familiarity with alternative plugins or techniques for advanced modeling • tasks.	-	-	-	-
PC30. Creates hard surface models such as cars and trucks skillfully	-	-	-	-
PC31. Creates organic models such as characters or bipeds competently.	-	-	-	-
PC32. Model's animals or quadrupeds skillfully.	-	-	-	-
PC33. Utilizes the UV editor for unwrapping UVs skillfully	-	-	-	-
PC34. Approaches unwrapping UVs for complex geometry competently	-	-	-	-
PC35. Successfully unwraps UVs for organic modeling of bipeds and quadrupeds.	-	-	-	-
PC36. Creates and applies shaders, textures, and materials competently.	-	-	-	-
PC37. Demonstrates understanding of the use of render engines like Mental Ray and Arnold	-	-	-	-
PC38. Utilizes features specific to Mental Ray and Arnold materials proficiently.	-	-	-	-
PC39. Understands and implements different UV projections competently.	-	-	-	-
PC40. Uses planar, cylindrical, spherical, and automatic UV projections skillfully.	-	-	-	-
PC41. Lays out UVs for complex geometry proficiently.	-	-	-	-
PC42. Effectively textures polygons using basic UV and UV projection techniques.	-	-	-	-
PC43. Skillfully utilizes the UV editor and mapping tools	-	-	-	-
PC44. Applies materials and textures to 3D models, including NURBS, proficiently.	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC45. Creates and applies textures for organic models proficiently.	-	-	-	-
PC46. Exports and imports UV snapshots skillfully	-	-	-	-
PC47. Creates facial and clothing textures for organic models competently	-	-	-	-
PC48. Retouches, cleans up, and assigns textures to organic models competently.	-	-	-	-
PC49. Applies roughness/grunge textures skillfully to create realistic inorganic models.	-	-	-	-
PC50. Understands different light types and their attributes.	-	-	-	-
PC51. Controls light color, intensity, and shadows proficiently	-	-	-	-
PC52. Adjusts render settings competently for desired output quality.	-	-	-	-
PC53. Creates lighting setups that match the environment and scene requirements effectively	-	-	-	-
PC54. Configures output settings and renders the final sequence proficiently.	-	-	-	-
PC55. Effectively utilizes render settings, lights, and shadows.	-	-	-	-
PC56. Adjusts camera settings, depth of field, motion blur, and light editor skillfully	-	-	-	-
PC57. Renders scenes competently using render view and batch render.	-	-	-	-
PC58. • Implements various rendering techniques proficiently, including lighting, motion blur, ray • tracing, indirect lighting (final gathering, global illumination), and image-based lighting.	-	-	-	-
PC59. Works with specific features and settings of third-party renderers like Arnold effectively.	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC60. Uses Arnold lights, mesh lights, and render settings skillfully.	-	-	-	-
PC61. Implements depth of field and motion blur effects in Arnold proficiently	-	-	-	-
PC62. Understands the relationship between 3D light types and their real-world counterparts.	-	-	-	-
PC63. Creates and places lights accurately in 3D scenes.	-	-	-	-
PC64. Demonstrates proficiency in basic rendering techniques	-	-	-	-
PC65. Demonstrates proficiency in basic rendering techniques	-	-	-	-
PC66. Utilizes shading basics and light attributes skillfully, including spot light attributes.	-	-	-	-
PC67. Understands the unique attributes and features of the Arnold renderer.	-	-	-	-
PC68. Utilizes Arnold attributes competently to achieve desired lighting effects.	-	-	-	-

Qualification Pack

MSME/MES/N4302: Understand and Create Computer Graphics

Description

Understand the fundamentals of computer graphics.

Scope

The scope covers the following :

- Understand the fundamentals of computer graphics.

Elements and Performance Criteria

MSME/VFXA/01 Understand and Create Computer Graphics

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrates the ability to explain the fundamental concepts of computer graphics
- PC2.** Successfully installs relevant software for computer graphics.
- PC3.** Creates new documents using the start workspace successfully.
- PC4.** Efficiently utilizes panels and customizes the interface as needed
- PC5.** Competently uses keyboard shortcuts and menu commands.
- PC6.** Effectively utilizes workspaces for different tasks.
- PC7.** Explains different file types and their appropriate usage
- PC8.** Demonstrates understanding of the characteristics and importance of RAW formats.
- PC9.** Differentiates between bitmaps and vectors and applies them appropriately.
- PC10.** Demonstrates knowledge of resolution and its impact on image quality
- PC11.** Handles image resizing and resampling competently.
- PC12.** Understands the significance of color modes in digital imaging.
- PC13.** Utilizes selection tools to make accurate selections successfully.
- PC14.** Uses marquee selection, feathering, and quick selection techniques competently.
- PC15.** Proficiently utilizes the select and mask workspace for complex selections
- PC16.** Saves and modifies selections as needed.
- PC17.** Demonstrates knowledge of layers and applies manipulation techniques effectively
- PC18.** Selects and manages layers competently
- PC19.** Utilizes layer opacity options and blend modes appropriately
- PC20.** Applies layer masks and gradient layer masks proficiently.
- PC21.** Applies layer styles skillfully and flattens layers when necessary.
- PC22.** Utilizes crop tools for precise cropping successfully
- PC23.** Applies non-destructive cropping techniques competently
- PC24.** Proficiently uses perspective crop and straightens images effectively.
- PC25.** Applies transformations and content-aware scaling skillfully
- PC26.** Applies puppet warp and perspective warp techniques appropriately

Qualification Pack

- PC27.** Demonstrates knowledge of the importance and usage of adjustments in image editing
- PC28.** Utilizes adjustment layers for precise editing competently.
- PC29.** Applies adjustments such as levels, curves, hue/saturation, and black and white proficiently.
- PC30.** Uses adjustment layer masks for selective adjustments competently.
- PC31.** Utilizes toning tools for localized adjustments skillfully.
- PC32.** Uses photo retouching tools effectively.
- PC33.** Utilizes content-aware fill and content-aware move skillfully
- PC34.** Applies sharpening techniques appropriately.
- PC35.** Uses the type tool and area type tool for text manipulation skillfully.
- PC36.** Utilizes guides and rulers for precise layout design competently.
- PC37.** Proficiently utilizes smart guides for alignment and positioning.
- PC38.** Demonstrates familiarity with showing and utilizing grids effectively
- PC39.** Demonstrates knowledge of creative libraries and shared libraries.
- PC40.** Saves files in appropriate formats competently.
- PC41.** Utilizes quick export features for efficient output skillfully.

MSME/MES/N4307: Employability Skills 08

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century,
- digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service,
- entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Elements and Performance Criteria

: MSME/ES/01 Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** Discuss the importance of Employability Skills in meeting the job requirements.
- PC2.**
 - Explain constitutional values, civic rights, duties, citizenship, responsibility towards society
 - etc. that are required to be followed to become a responsible citizen.
- PC3.** Show how to practice different environmentally sustainable practices.
- PC4.** Discuss 21st century skills.
- PC5.**
 - Display positive attitude, self -motivation, problem solving, time management skills and
 - continuous learning mindset in different situations
- PC6.** Use appropriate basic English sentences/phrases while speaking.
- PC7.** Demonstrate how to communicate in a well -mannered way with others.
- PC8.** Demonstrate working with others in a team.
- PC9.** Show how to conduct oneself appropriately with all genders and PwD
- PC10.** Discuss the significance of reporting sexual harassment issues in time
- PC11.** Discuss the significance of using financial products and services safely and securely.
- PC12.** Explain the importance of managing expenses, income, and savings.
- PC13.**
 - Explain the significance of approaching the concerned authorities in time for any
 - exploitation as per legal rights and laws
- PC14.**
 - Show how to operate digital devices and use the associated applications and features, safely
 - and securely.
- PC15.**
 - Discuss the significance of using internet for browsing, accessing social media platforms,
 - safely and Securely.
- PC16.**
 - Discuss the need for identifying opportunities for potential business, sources for arranging
 - money and potential legal and financial challenges.
- PC17.** Differentiate between types of customers.

Qualification Pack

- PC18.** Explain the significance of identifying customer needs and addressing them.
- PC19.** Discuss the significance of maintaining hygiene and dressing appropriately.
- PC20.** Create a biodata
- PC21.** Use various sources to search and apply for jobs
- PC22.** Discuss the significance of dressing up neatly and maintaining hygiene for an interview
- PC23.** Discuss how to search and register for apprenticeship opportunities

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
