Qualification Pack

MSME/SSC/N4405: Understanding the fundamentals of Art and Illustration

Description

Knowledge of basic art principles such as line, shape, color, texture, composition, and visual storytelling used to create effective illustrations.

Scope

The scope covers the following :

- Knowledge of basic art principles such as line, shape, color, texture, composition, and visual storytelling used to create effective illustrations.

Elements and Performance Criteria

MSME/UIUX/01

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate proficiency in art and illustration techniques.
- PC2.**
 - Command of line, shape, color, texture, and composition.
 - Creative Expression:
- PC3.** Showcase creativity and artistic expression.
- PC4.**
 - Express ideas, emotions, and concepts through artwork.
 - Visual Communication:
- PC5.** Effectively communicate messages visually
- PC6.** Use visual language, symbols, and design principles. Conceptual Development:
- PC7.** Develop and expand creative concepts and ideas.
- PC8.**
 - Translate abstract ideas into visual artwork.
 - Research and Reference:
- PC9.** Incorporate research, reference materials, and inspiration.
- PC10.**
 - Research historical, cultural, and contemporary influences.
 - Creative Problem-Solving:
- PC11.** Exhibit effective problem-solving skills in art challenges.
- PC12.**
 - Find creative solutions to visual problems.
 - Presentation and Professionalism:
- PC13.** Present work professionally and effectively
- PC14.**
 - Skill in presenting artwork for exhibitions, portfolios, and client projects.
 - Critique and Self-Reflection:
- PC15.** Actively participate in critiques and provide constructive feedback.
- PC16.**
 - Critically evaluate own work and others' work for constructive learning.
 - Cultural and Ethical Awareness:
- PC17.** Demonstrate understanding of cultural and ethical considerations
- PC18.** Awareness of cultural diversity, social issues, and ethical implications.

MSME/SSC/N4406: Exploring the realm of Web Technologies

Description

Understanding the technologies used to create and maintain websites, including HTML, CSS, JavaScript, web design, and web development tools.

Scope

The scope covers the following :

- Understanding the technologies used to create and maintain websites, including HTML, CSS, JavaScript, web design, and web development tools.

Elements and Performance Criteria

MSME/UIUX/02

To be competent, the user/individual on the job must be able to:

- PC1.** • Grasp concepts like the Internet, URLs, and web page delivery to computers
- PC2.** Apply HTML markup effectively, including tags, attributes, and elements
- PC3.** • Format text, create hyperlinks, and insert images appropriately in HTML pages
- PC4.** • Understand copyright fair use principles when incorporating external content.
- PC5.** Enhance web page appearance using HTML and CSS for styling.
- PC6.** Differentiate between HTML and CSS, understanding their roles.
- PC7.** Utilize CSS selectors to target specific elements effectively.
- PC8.** Comprehend the cascade and selector precedence order in CSS
- PC9.** Develop a personal homepage project showcasing creativity and skills.
- PC10.** • Apply advanced HTML/CSS techniques, such as splitting sites and combining CSS selectors
- PC11.** Evaluate and apply user interface design principles to web interfaces.
- PC12.** Ensure accessibility and readability in web design.
- PC13.** Utilize lite site and prototyping concepts for efficient web page creation.
- PC14.** • Conduct user testing, collaborate effectively, and iterate on design prototypes.
- PC15.** • Implement responsive design principles and enhance interactivity with JavaScript and jQuery.

MSME/SSC/N4407: Acquire the knowledge of Figma & Adobe XD for UI/UX Design

Description

Learn to create user-friendly interfaces, wireframes, prototypes, and interactive designs using Figma and Adobe XD.

Scope

The scope covers the following :

- Learn to create user-friendly interfaces, wireframes, prototypes, and interactive designs using Figma and Adobe XD.

Elements and Performance Criteria

MSME/UIUX/03

To be competent, the user/individual on the job must be able to:

- PC1.** • Demonstrate proficiency in using Figma and Adobe XD, understanding their key features and functionalities.
- PC2.** • Apply design principles effectively, including layout, typography, color theory, and visual hierarchy.
- PC3.** • Create aesthetically pleasing and goal-aligned UI designs for web and mobile applications.
- PC4.** • Design experiences that enhance user satisfaction, usability, and overall user experience
- PC5.** • Create interactive prototypes to mimic user interactions and showcase digital product functionality.
- PC6.** Collaborate with team members effectively, utilizing version control features for maintaining design consistency.
- PC7.** • Prepare design documentation, including design system guidelines, style guides, and annotations.
- PC8.** • Develop communication and presentation skills to effectively convey design rationale to peers, clients, or stakeholders.
- PC9.** • Analyze design problems, gather feedback, and iterate on solutions based on user testing and feedback.
- PC10.** • Plan and execute usability tests, applying the results to optimize designs for improved usability.
- PC11.** • Be aware of ethical considerations in design, including accessibility, inclusivity, and privacy.

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
