MSU/ITS/Q1901: Web Video Production and Editing

Brief Job Description

On completion of this course, candidates will be equipped to handle all aspects of web video production, from pre-production tasks like planning and scripting, to producing and editing high-quality videos. They will be able to publish and distribute web videos across digital platforms while adopting strategies to enhance user engagement and maximize the impact of their content. This course prepares individuals for key roles in the growing field of digital media and web video creation.

Personal Attributes

A candidate in web video production and editing should be creative, tech-savvy, and detail-oriented, with strong organizational skills to manage multiple tasks. They must be effective communicators, able to collaborate and convey ideas clearly, and adaptable to new trends and technologies. Problem-solving abilities and strong time management are essential to meet deadlines, while a focus on audience engagement ensures content resonates with viewers and enhances user interaction.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MSU/ITS/N1901: Pre-production tasks for web video production and editing](#)
2. [MSU/ITS/N1902: Produce web videos](#)
3. [MSU/ITS/N1903: Edit the web videos](#)
4. [MSU/ITS/N1904: Publish and distribute web videos](#)
5. [MSU/ITS/N1905: Adopt practices to enhance user engagement](#)
6. [MSU/ITS/N9901: Maintain health and safety in a digital workspace-](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

MSU/ITS/N1901: Pre-production tasks for web video production and editing

Description

This OS unit includes identifying the requirements, creating storyboard and script and organising for location, team and resources.

Scope

The scope covers the following :

- Identify requirements
- Prepare a plan
- Create a storyboard and script
- Organise for location, team and resources

Elements and Performance Criteria

Identify requirements

To be competent, the user/individual on the job must be able to:

- PC1.** determine the purpose of the video as per client inputs, marketing goals, organizational vision and business objectives Purpose: increasing web traffic, customer engagement, raising brand awareness, etc.
- PC2.** record the information received to determine the tasks to be performed for video production
- PC3.** define your target audience, core messages, and tone for web video production Target Audience: with respect to Who are they? Where are they? What do they like? What do they value? Core Message: visiting social media, purchasing a product, training, etc.

Prepare a plan

To be competent, the user/individual on the job must be able to:

- PC4.** select a video type that covers the topics and business objectives to be presented Video type: Animated, Live-action, Screen recording, Whiteboard, Motion graphics Typography, Combination
- PC5.** develop a plan to accomplish the goals through animation and editing Plan: goals and expectations; competitor's tactics; audience needs; best topics to be discussed; best-performing video topic; important news and trends, etc.
- PC6.** set parameters for accomplishing essential goals for video production Parameters: view count, engagement, conversions, comments
- PC7.** identify resources required and where they can be sourced from
- PC8.** identify tools, equipment and software to be used during video production Resources: camera, tripod, lighting kit, backdrop, an external recorder, lapel microphone, shotgun microphone, computing system with adequate specifications, video editing software (s), etc.
- PC9.** identify constraints and risks that could impact the plan and prepare a backup plan for the same
- PC10.** plan the budget requirements to be shared with the investors/corporate unit heads

Qualification Pack

PC11. prepare a timeline for the completion of each part of a project and plan the overall production schedule

PC12. document the project and share it with all stakeholders

PC13. create a video production brief for the production team

Create a storyboard and script

To be competent, the user/individual on the job must be able to:

PC14. select a storytelling style that best suits your defined goals

PC15. write the video script and video production brief considering the target audience, key messaging, tone and business objectives

PC16. develop storyboards keeping in mind the required features for creating animations Features: look/feel, information to be, transitional treatments, etc.

PC17. analyse photographs, images, pre-existing film footage, and computer-generated animations (of experiments or research projects that could be used in the video content)

Organise for location, team and resources

To be competent, the user/individual on the job must be able to:

PC18. scout a location for shooting the video

PC19. obtain relevant permissions for space requirements and secure the ideal filming location(s)

PC20. communicate the plan of action and video production brief to the team and resolve queries effectively

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. elements of web video production, various challenges observed, and how to overcome them

KU2. various types of web video production and their purpose

KU3. various types of equipment used for shooting a professional video

KU4. role of client inputs, marketing goals, organisational vision and business objectives in determining video production requirements

KU5. information to be recorded to prepare for web video production

KU6. how to evaluate the target audience, their needs and content alignment for producing video

KU7. various factors to be considered while developing a plan for web video production

KU8. considerations for selecting a video type

KU9. elements of a plan/checklist to prepare for web video production

KU10. crucial parameters to be optimised for accomplishing video production goals

KU11. tools, equipment and other resource requirements for web video production and sources for obtaining them

KU12. constraints and risks that could impact the plan

KU13. importance of having a backup plan to mitigate risks during the process

KU14. budget requirements for shooting a web video

KU15. how to prepare a timeline ensuring coverage of all the necessary tasks

KU16. importance of documentation in the planning phase

Qualification Pack

- KU17.** information to be shared with concerned stakeholders
- KU18.** elements of a video production brief
- KU19.** various types of storytelling styles used in creating content for web video production
- KU20.** how to write a compelling script ensuring adequate coverage of content
- KU21.** importance of evaluating the target audience, key messaging, tone and business objectives for writing the video script
- KU22.** how to develop storyboards that enable the effective use of animations and special effects
- KU23.** importance of analysing pre-existing photographs, film footage, and computer-generated animations in the process
- KU24.** factors to be considered while scouting for the right location to shoot the video
- KU25.** importance of approvals and permissions in the job
- KU26.** information to be shared with respect to the plan of action and video production brief with the concerned stakeholders
- KU27.** various organizational policies, rules and legislations as applicable in the process and ensuring complete adherence

MSU/ITS/N1902: Produce web videos

Description

This OS unit is about performing the requisite tasks like preparation for production and conducting photoshoot.

Scope

The scope covers the following :

- Prepare for production
- Conduct photoshoot

Elements and Performance Criteria

Prepare for production

To be competent, the user/individual on the job must be able to:

- PC1.** unpack the shooting equipment and place them in the designated location
- PC2.** set up the camera considering the time of the shoot, the number of shots, the type of footage to be captured and the video script.
- PC3.** set up the lighting depending upon setup time, number of locations required for shooting and types of shots Lighting: soft light, hard light, natural lighting, studio lighting, lighting equipment (key light, rim light, triggers and flashes; softbox or shapers; reflectors)
- PC4.** select the background for shooting the video Background: solid-coloured, white, wall, bedsheet, backdrop paper, etc.

Conduct a photoshoot

To be competent, the user/individual on the job must be able to:

- PC5.** focus the camera by making required adjustments in the settings and taking sample shots
- PC6.** direct the talent for delivering the script and examine their performance for the video's speed, dynamics, style and audience appeal
- PC7.** capture shots from different angles keeping in mind the theme of the video
- PC8.** adjust the screen resolution and image quality for desired appropriateness
- PC9.** conduct interviews as per the video script and ensure adequate coverage of content
- PC10.** record voice-overs and audio (such as narration) as per the video type
- PC11.** balance the audio and visual quality using microphones and camera adjustments respectively Microphones: condenser microphones, dynamic microphones, lavalier microphones (or, lapel mics)
- PC12.** add graphics and animation to illustrate complex topics and business objectives
- PC13.** organise the sequence of videos shot accurately to prepare for editing
- PC14.** confirm if the quality of shots covers the content and is ready for editing

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** elements of web video production
- KU2.** various challenges while producing a web video and how to overcome them
- KU3.** various types of web video production and their purpose
- KU4.** various types of equipment used for shooting a professional video
- KU5.** right technique to use a camera and unpacking associated equipment
- KU6.** adjusting the camera settings and using different features for taking an appealing shot
- KU7.** various types of lighting used in shooting a web video
- KU8.** how to select the right lighting as per video production needs and ways to set it up
- KU9.** selection of background for shooting a video
- KU10.** role of video's speed, dynamics, style and audience appeal in meeting the video script requirements while shooting
- KU11.** how to select the right shooting angle and capture shots accurately
- KU12.** how to adjust the screen resolution and image quality as per video requirements
- KU13.** importance of an interview and confirm if it meets the expectations
- KU14.** recording voice-overs and audio as per the video type
- KU15.** how to balance audio and visual quality
- KU16.** various types of effects, their selection and adding them to the video produced
- KU17.** organising the video as per content and appropriateness
- KU18.** check the quality of videos, make required adjustments and confirm if the shots are ready to be edited
- KU19.** various organisational policies, rules and legislations as applicable in the process and ensuring complete adherence

MSU/ITS/N1903: Edit the web videos

Description

This OS unit is about performing the tasks like adding graphs, special effects, soundtracks and voiceovers.

Scope

The scope covers the following :

- Add graphics and special effects
- Add soundtracks and voiceoverst

Elements and Performance Criteria

Add graphics and special effects

To be competent, the user/individual on the job must be able to:

- PC1.** organise all the videos and make them readily available for editing
- PC2.** compile the best takes and import them using video editing software
- PC3.** use the software to cut the video clips and obtain the essential parts
- PC4.** create a timeline to understand the sequence and relevance of the message to be conveyed
- PC5.** add graphics, animations and special effects as required to make the video appealing
Animations: animated graph to illustrate a key figure; animated mock-up of a product being explained; screen recording of you scrolling through your product's website while it's being talked about. Special effects: illustrations, characters, 3D text, etc.

Add soundtracks and voiceovers

To be competent, the user/individual on the job must be able to:

- PC6.** record a voiceover using available resources ensuring the message is appealing to the target audience Voiceover: as per style, tone, and accent.
- PC7.** insert the recorded voiceover into the video timeline using editing software
- PC8.** sync the voiceover into the appropriate footage
- PC9.** add colours to the video depending on the business objectives and reinforcing brand importance
- PC10.** add background music or soundtracks to fill up space, cover up any audio snips and engagement as desirable Background music: must complement the video's tone and mood, help communicate the core message, be appropriate for the target audience, and match the pace of the edit.
- PC11.** add titles, subtitles, intros and outros to signify brand importance, share important information and gauge the audience's interest
- PC12.** play the video and provide important information before the concerned stakeholders
- PC13.** incorporate changes as communicated by the designated personnel and obtain required approvals to prepare for publishing

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** basics of video editing, various techniques used and correct process to carry it out
- KU2.** how to organise the shots taken, and their compilation to ensure readiness for editing
- KU3.** how to import the shots using video editing software
- KU4.** steps implemented to cut the video clips and obtain essential parts
- KU5.** how to create a timeline keeping in mind the right sequencing and relevance
- KU6.** selection of graphics, animations and special effects as per the message to be conveyed
- KU7.** steps performed for adding graphics, animations and special effects in the video produced
- KU8.** how to record a voiceover as per content needs
- KU9.** inserting the recorded voiceover into the video timeline
- KU10.** steps performed to sync the voiceover into the appropriate footage
- KU11.** adding colours to the video depending on the business objectives and reinforcing brand importance
- KU12.** selecting and adding background music and soundtracks as per the relevance of the message to be communicated
- KU13.** selecting and adding titles, subtitles, intros and outros to signify brand importance, share important information and gauge the audience's interest
- KU14.** how to play the video and the information to be communicated
- KU15.** discussions that take place and how to incorporate points shared by stakeholders
- KU16.** importance of permits and approvals as required in the process
- KU17.** various organisational policies, rules and legislations as applicable in the process and ensuring complete adherence

MSU/ITS/N1904: Publish and distribute web videos

Description

This OS unit includes tasks like publishing web videos and distributing web videos.

Scope

The scope covers the following :

- Publish web videos
- Distribute web videos

Elements and Performance Criteria

Publish web videos

To be competent, the user/individual on the job must be able to:

- PC1.** share the requirements with the marketing team to publish and distribute the video content
- PC2.** finalise the format for rendering the video (such as mp4 on YouTube, Facebook, LinkedIn and Twitter; for Snapchat or an Instagram Story, it will need to be in vertical video aspect ratio) Format: MP4, MOV, WMV, AVI, FLV, etc
- PC3.** identify the platforms wherein the videos would be hosted after evaluating the demographics of each social media platform Social Media Platform: Reddit, Quora, Facebook, Twitter, Instagram or YouTube.
- PC4.** seek inputs from the marketing team to identify groups and forums wherein the videos would generate maximum impact
- PC5.** publish the video on finalised social media platforms strategically Strategically: right-sizing, video duration, and engaging thumbnails, including a call to action, customising GIF thumbnails, etc.
- PC6.** implement a system that redirects customers towards organisational products and services.

Distribute web videos

To be competent, the user/individual on the job must be able to:

- PC7.** identify the distribution platforms to share the videos whilst evaluating audience types and as per organisational policies Distribution platforms: free/paid ads, websites, blogs, landing pages, news, podcast platforms, webinars, native advertising, sponsored content, influencer marketing, etc
- PC8.** prepare a plan for distributing the videos keeping in mind the way customers interact with your business, leading to more customer satisfaction and repeat target actions Plan: should be diversified and perfectly fit the goals, as well as alternate channels
- PC9.** incorporate the video in daily communication channels such as emails, weekly or monthly newsletters, onsite presentations, client meetings, etc.
- PC10.** run the videos in routine meetings with external stakeholders and business partners
- PC11.** coordinate with the marketing team for presenting videos at key events and conferences

Qualification Pack

- PC12.** distribute the videos on all possible channels to generate maximum return on investment
Channels: social media, embedding it in an article, sharing it with industry outlets, asking industry influencers to share it, putting paid advertising behind it so it gets in front of the target audience, or sharing it via an email newsletter or on your own YouTube channel.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** importance of publishing and distributing web videos
- KU2.** various platforms used for publishing and distribution and their key characteristics
- KU3.** requirements to be shared with concerned stakeholders before publishing and distribution
- KU4.** various channels that help in video circulation
- KU5.** various channels that help in video circulation interactions
- KU6.** importance of running the videos in routine meetings with stakeholders
- KU7.** importance of coordinating with marketing personnel for video presentations
- KU8.** challenges faced while distributing videos across various channels and the level of impact generated in each of them
- KU9.** various organisational policies, rules and legislations as applicable in the process and ensuring complete adherence

MSU/ITS/N1905: Adopt practices to enhance user engagement

Description

This OS unit focuses on the practices to enhance user engagement.

Scope

The scope covers the following :

- Follow practices to enhance user engagement

Elements and Performance Criteria

Follow practices to enhance user engagement

To be competent, the user/individual on the job must be able to:

- PC1.** setup analytics to monitor results and user engagement over the published videos Analytics: Google Analytics, paid platforms such as Wistia, Vimeo, etc.
- PC2.** create a periodic schedule for applying analytics as per business needs
- PC3.** track the progress and evaluate metrics to be optimised in consultation with the team Metrics: view count, play rate, social sharing and comments, video completions, completion rate, click-through rate, conversion rate, bounce rate, time on page, etc.
- PC4.** derive useful insights and make constant improvements to the strategies adopted for video marketing
- PC5.** measure performance on each platform and communicate important findings to the relevant teams for improvements Important findings: product experience, customer feedback, etc
- PC6.** refine strategy after evaluating market trends and as per discussions with key decision-makers
- PC7.** incorporate changes, innovate and revise the video content in agreement with concerned stakeholders
- PC8.** run a demo before decision-makers before uploading it over social media platforms and distribution

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** various strategies adopted for video marketing and its key features
- KU2.** importance of monitoring the acceptability of web videos by evaluating customer footfall, web traffic, sale of products and/or services, business objectives, engagement level, etc.
- KU3.** types of analytics applied to study results and user engagement over the published videos
- KU4.** various types of analytics software used in the market
- KU5.** steps implemented to use analytics software for generating useful insights that drive business decisions
- KU6.** elements of a schedule for applying analytics that helps in periodic assessment

Qualification Pack

- KU7.** correct ways to track the progress and evaluate metrics to be optimised for the published videos
- KU8.** how to decide on the types of improvements to be made after studying the results and carrying them out accurately
- KU9.** factors that help in measuring performance and its optimisation for desired results for video marketing
- KU10.** information to be shared with the team after studying trends for the published videos
- KU11.** considerations that help decide whether a new strategy is to be adopted and effective ways for its implementation
- KU12.** discussions that take place for finalising major revamp with respect to incorporating changes, innovating and revising the video content
- KU13.** importance of agreeing with concerned stakeholders before making the required changes to the video content
- KU14.** importance of running a demo before decision-makers before uploading it over social media platforms and distribution
- KU15.** • various organisational policies, rules and legislations as applicable in the process and ensuring complete adherence
•

MSU/ITS/N9901: Maintain health and safety in a digital workspace-

Description

This NOS includes the skills and knowledge related to health and safety related in a digital workplace.

Scope

The scope covers the following :

- Maintain good health and hygiene
- Implement safety measures
- Respond to an emergency
- Implement effective waste management and recycling practices at the workplace

Elements and Performance Criteria

Maintain good health and hygiene

To be competent, the user/individual on the job must be able to:

- PC1.** Maintain workplace cleanliness
- PC2.** Maintain personal cleanliness and hygiene such as sanitizing hands at regular intervals and wearing clean clothes.
- PC3.** Monitor sanitization of mobile phones, computers, laptops and their accessories at regular intervals.
- PC4.** Ensure the team is adhering to good cleanliness and hygiene practices
- PC5.** Ensure that your desk and workspace are cleaned and organised regularly.
- PC6.** Manage workstation ergonomic risks by taking care of the chair and desk design, height, support and adjustability, monitor size, positioning, height and visibility, keyboard and mouse height, positioning and arm or wrist posture, etc.
- PC7.** Take measures to avoid strain on the eyes or body due to extended sitting and computer viewing hours.
- PC8.** Implement and adhere to fatigue management techniques
- PC9.** Follow your organisation's procedures for promoting mental health and well-being
- PC10.** Identify and address workplace health hazards related to injury, food, air and infectious disease within the scope of your role and report any unresolved hazards that may affect the health of self and others.

Implement safety measures

To be competent, the user/individual on the job must be able to:

- PC11.** Identify safety hazards in remote, home and office environments work
- PC12.** Provide information about risks and hazards to colleagues responsible for health and safety
- PC13.** Implement measures to protect from physical hazards, electrical hazards, fire hazards, hazardous materials, and bio-hazards.
- PC14.** Select, use and maintain personal protective equipment and clothing appropriate to working long hours on the computer or laptop in closed AC offices
- PC15.** Follow safety signs and symbols to prevent accidents

Qualification Pack

Respond to an emergency

To be competent, the user/individual on the job must be able to:

- PC16.** Identify standard procedures for dealing with accidents, fires, natural disasters and medical emergencies
- PC17.** Take measures specified by the organisation for loss minimization and personnel and asset protection
- PC18.** Organise and participate in emergency and fire drills and training
- PC19.** Use emergency equipment in accordance with manufacturers' specifications and workplace requirements.
- PC20.** Recognise the need for first aid response.
- PC21.** Provide basic first aid.
- PC22.** Seek assistance from emergency services.
- PC23.** Accurately convey incident details to emergency services.
- PC24.** Report details of the incident in line with appropriate workplace or site procedures.

Implement effective waste management and recycling practices at the workplace

To be competent, the user/individual on the job must be able to:

- PC25.** Identify and segregate recyclable, non-recyclable and hazardous waste at the workplace
- PC26.** Segregate waste into different coloured dustbins
- PC27.** Handle waste as per SOP
- PC28.** Recycle waste wherever applicable
- PC29.** Dispose of PPEs in a plastic bag, sealed and labelled as infectious waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Importance of ensuring health and safety measures for personnel and assets are implemented and adhered to
- KU2.** Workplace health and hygiene hazards
- KU3.** Personal hygiene practices to care for own health and well-being before and during service periods
- KU4.** The different types of factors that affect health and safety and how to evaluate them, e.g., people, equipment, material, environment, and processes
- KU5.** Procedure to maintain cleanliness standards at the workplace
- KU6.** Hazards and hazard identification, including associated risks and controls
- KU7.** Various risks and hazards in an establishment
- KU8.** The ways that you and your organisation can support staff to manage their work-life balance, remote collaboration practices, mental health and physical health in home and on-site working environments
- KU9.** Common safety measures at an establishment to protect against hazards and risks
- KU10.** Procedures and documentation for implementing and monitoring health and safety measures
- KU11.** PPE and their usage in different conditions
- KU12.** The meaning of mental health and well-being

Qualification Pack

- KU13.** Various types of emergencies
- KU14.** Best ways to deal with various types of emergencies in a rural environment
- KU15.** Fire protection and fighting techniques
- KU16.** Basic first aid procedures
- KU17.** Emergency procedures to be followed in case of a mishappening
- KU18.** Effective waste management and recycling practices at the workplace

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SIP or email
- Assessment agencies send the assessment confirmation to VTP/TC looping Madhavi Skills University (MSU)
- Assessment agency deploys the ToA-certified Assessor for executing the assessment
- MSU monitors the assessment process & records

2. Testing Environment:

- Check the Assessment location, date and time
- If the batch size is more than 30, then there should be 2 Assessors.
- Check that the allotted time for the candidates to complete Theory & Practical Assessment is correct.

Qualification Pack

3. Assessment Quality Assurance levels/Framework:

- Question bank is created by the Subject Matter Experts (SME) are verified by the other SMEs
- Questions are mapped to the specified assessment criteria
- Assessor must be ToA certified & trainer must be ToT Certified

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from the assessment location
- Centre photographs with signboards and scheme-specific branding

5. Method of verification or validation:

- Surprise visit to the assessment location

6. Method for assessment documentation, archiving, and access

- Hard and copies of the documents are stored

On the Job:

1. Each module (which covers the job profile) will be assessed separately.
2. The candidate must score 60% in each module to complete the OJT.
3. Tools of Assessment that will be used for assessing whether the candidate is having desired skills and aptitude are:
 - Videos of Trainees during OJT
 - Portfolio of items produced
 - Viva
 - Demonstrations
4. Assessment of each Module will ensure that the candidate is able to:
 - Perform the skills mentioned in the assessment criteria.
 - Apply underpinning knowledge and understanding to the tasks performed to achieve desired level of competencies
 - Demonstrate behavioral and attitudinal soft skills as mentioned in the assessment criteria.

Minimum Aggregate Passing % at QP Level : 60

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
