MSU/ITS/N2201: Prepare for Digital Communication and Collaboration

Description

This OS is about activities involved in preparing for the deployment of digital communication channels and collaboration tools.

Scope

The scope covers the following :

- identify work requirements
- confirm the tool and related applications for digital communication and collaboration

Elements and Performance Criteria

identify work requirements

To be competent, the user/individual on the job must be able to:

- PC1.** identify the type of tasks to be performed and information to be shared by gathering inputs from the relevant stakeholders
- PC2.** confirm other parameters that could impact the need and type of communication or collaboration tool(s) required. Parameters: type of business functions to be catered to; the number of teams and users, type of communication and collaboration required, resources available; constraints, analytics required, etc.
- PC3.** record the information obtained in line with organisational work practices
- PC4.** carry out research to understand the constraints and existing base of resources and their scope of utilisation. Constraints: Budgets, data size, security and privacy concerns, user capabilities, etc. Resources: supporting applications; connected devices; space requirements, etc.
- PC5.** establish requirements according to business specifications, legislations and other inputs

confirm the tool and related applications for digital communication and collaboration

To be competent, the user/individual on the job must be able to:

- PC6.** identify the types of communication and collaboration tools required based on the requirements identified. Communication Tools: Email, Web conferencing, e-messaging, group chatting, online forums, internet calling, website, social media, etc. Collaboration tools: co-authoring, digital workspaces, digital brainstorming, cloud file storage and sharing, etc.
- PC7.** scout for tool options available in the market that meet the requirement
- PC8.** seek quotations and demonstrations for their products from the respective vendors and share with the stakeholders
- PC9.** assess the feasibility of the communication and collaboration tool to be used and finalise it as per requirement/s
- PC10.** seek approvals for obtaining the respective applications for carrying out remote work
- PC11.** carry out procurement process as per organisations policy and obtain necessary licences
- PC12.** prepare a plan to deploy the digital communication and collaboration tool effectively
- PC13.** communicate the plan to relevant stakeholders as per standard operating procedure

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Digital versus Traditional communication and collaborations
- KU2.** Various types of digital communication and collaboration tools and their purpose, features and constraints
- KU3.** Tasks that can be performed via digital communication and collaboration tools to carry out a business function
- KU4.** Key information required to select the type of digital tool for communication and collaboration activities
- KU5.** Common resources and constraints that can support or hinder the deployment of digital communication and collaboration respectively
- KU6.** Ways of recording information and gathering inputs
- KU7.** Organisational procurement procedures
- KU8.** Steps for deploying the required resources correctly
- KU9.** Importance of communication and collaboration tools to be selected as per the business requirement with stakeholder involvement and approvals
- KU10.** Business specifications, policies and organisational objectives applicable to digital communication and collaboration within the organisation
- KU11.** Various types of approvals to be sought before setting up a remote work environment
- KU12.** How to plan to deploy the communication channel and collaboration tool effectively
- KU13.** Information to be communicated before deploying digital communication and collaboration tool
- KU14.** Organisational laws, legislations and policies applicable in the process

MSU/ITS/N2202: Undertake Corporate Communications using Digital Communication Tools

Description

This OS is about various activities involved in corporate communication using digital tools.

Scope

The scope covers the following :

- Communication strategy implementation
- Website communications management
- Social media campaigns and posting
- Communication analytics
- Internal Communications

Elements and Performance Criteria

Communication strategy implementation

To be competent, the user/individual on the job must be able to:

- PC1.** provide inputs and required support while executing a communication strategy
- PC2.** communicate to promote the brand's image and visibility using messaging and sharing quality content during internal and external interactions
- PC3.** oversee the development of communication collaterals to ensure that it is consistent with the corporate identity
- PC4.** collaborate with marketing and design teams to ensure consistent brand messages across all deployed digital communication channels
- PC5.** use standard practices (writing, proofreading and editing) to manage content on channels

Website communications management

To be competent, the user/individual on the job must be able to:

- PC6.** organise and update content for the company website in coordination with the content team
- PC7.** create a system for regular reviews of website content
- PC8.** edit information as and when required as per company amendments and updates

Social media campaigns and posting

To be competent, the user/individual on the job must be able to:

- PC9.** create content for all social media platforms by using information, graphics, video and other means
- PC10.** reach out to influencers and broadcast content
- PC11.** schedule multiple announcement updates for continuous engagement
- PC12.** respond to relevant posts and queries on social media as per organisational guidelines
- PC13.** generate daily engagement reports for reviewing efficiency and impact and sharing with stakeholders
- PC14.** maintain an editorial calendar to ensure the timely release of content on the websites

Qualification Pack

Communication analytics

To be competent, the user/individual on the job must be able to:

- PC15.** apply analytical tools to monitor the performance of communications campaigns and strategies
- PC16.** evaluate the communications campaigns and strategies after studying various trends
- PC17.** prepare reports detailing the successes and failures of communications campaigns and strategies and share them with stakeholders

Internal Communications

To be competent, the user/individual on the job must be able to:

- PC18.** prepare content for internal communications as per instructions
- PC19.** maintain and update internal communications systems as per need
- PC20.** gather information from various team members for management information system (MIS) reports
- PC21.** update and share information in MIS as per the schedule agreed upon with management
- PC22.** organise a meeting and share the minutes of the meeting
- PC23.** coordinate with volunteers, support staff, vendors and more to support internal communication events effectively

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** various types of corporate communications
- KU2.** various types of digital communication channels and tools used by organisations for corporate communications
- KU3.** elements of an effective communication strategy
- KU4.** steps involved in the implementation of a corporate strategy
- KU5.** attributes vital for promoting the brand's image and visibility
- KU6.** internal and external stakeholders to be coordinated with during the process
- KU7.** how to prepare communication collaterals and align them as per corporate needs
- KU8.** overview of content writing, proofreading and editing concepts and tools as per business requirements
- KU9.** how to maintain an editorial calendar and the importance of releasing content timely
- KU10.** importance of ensuring consistency in messaging across channels
- KU11.** how to decide on the type of content to be updated
- KU12.** importance of content review and how to prepare a defined schedule for it
- KU13.** aligning the website information as per company amendments and updates
- KU14.** how to use graphics, video and other techniques to create engaging content
- KU15.** effective ways to reach out to influencers and content to be broadcasted to them
- KU16.** importance of multiple announcements for maintaining engagement
- KU17.** importance of reporting, its elements and how to make decisions based on observations

Qualification Pack

- KU18.** various types of analytics that are used to study the performance of communications campaigns and strategies
- KU19.** how to evaluate the effectiveness of the communication campaign
- KU20.** work coordination and project management communication requirements
- KU21.** how to prepare reports as required in the work process
- KU22.** importance of posting on various social media channels
- KU23.** content to be circulated for internal communications
- KU24.** how to maintain and update internal communications systems
- KU25.** organisational laws, legislations and policies applicable in the process

MSU/ITS/N2203: Use Digital Collaboration Tools to Work with Teams

Description

This OS is about using digital technology to plan and undertake working and collaboration with other team members, usually from large teams, remote working teams, outsourced work, and teams with a lot of collaboration work

Scope

The scope covers the following :

- Plan and manage collaboration activities
- Use digital collaboration tools for project management activities
- Use software for digital document collaboration and co-authoring

Elements and Performance Criteria

Plan and manage collaboration activities

To be competent, the user/individual on the job must be able to:

- PC1.** identify the collaboration activities involved in the work process
- PC2.** initiate and configure related tools and applications as required in the process
- PC3.** set up accounts to utilise various digital collaboration tools Collaboration tools: co-authoring, digital workspaces, digital brainstorming, document management, decision support, knowledge management, etc.
- PC4.** test tool for effectiveness and security by conducting a pilot run
- PC5.** develop an action plan for collaboration

Use digital collaboration tools for project management activities

To be competent, the user/individual on the job must be able to:

- PC6.** employ collaboration tools for facilitating team interactions, and business discussions
- PC7.** prepare workflow in formats like Gantt charts, Kanban boards and project calendars using digital collaboration tools
- PC8.** carry out work scheduling and work allocation using digital collaboration tools
- PC9.** update performance and share work using digital collaboration tools
- PC10.** track performance of work using analytics for digital collaboration tools
- PC11.** prepare and share work status reports using the digital collaboration tools

Use software for digital document collaboration and co-authoring

To be competent, the user/individual on the job must be able to:

- PC12.** set parameters of digital document software and document properties for collaboration and co-authoring correctly
- PC13.** apply suitable methods to create, use and adapt templates for different types of documents
- PC14.** employ functions such as combining and merging information within a document from a range of sources

Qualification Pack

- PC15.** carry out tasks such as sending and receiving files and evaluating online security in the process
- PC16.** modify digital document software settings to support organisational collaboration needs
- PC17.** review documents to accept or reject alterations
- PC18.** provide feedback to co-authors by inserting, responding to deleting comments correctly
- PC19.** apply suitable practices to define, update and publish document templates and styles in line with organisational procedures
- PC20.** use appropriate page and section layouts to present and print multi-page and multi-section documents

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** various types of digital communication and collaboration tools, their purpose and how to utilise them effectively
- KU2.** functions to be performed during collaboration
- KU3.** setting up accounts for collaboration correctly
- KU4.** steps performed for enabling social networking interaction and confirm collaboration security
- KU5.** arrangements to be made for collaboration and how to ascertain their desired functioning
- KU6.** elements of an action plan for collaboration and how to prepare it accurately
- KU7.** how to ascertain if the arrangements are as per desired requirements
- KU8.** various types of project management tools, their features and how to use them effectively
- KU9.** various software used for digital document collaboration and co-authoring
- KU10.** how to modify settings to ensure the desired functioning of the software used
- KU11.** various functions performed while using digital document collaboration and co-authoring software
- KU12.** importance of assessing organisational requirements while using digital document software
- KU13.** how to review documents and decide on the action to be taken i.e., accepting or rejecting it
- KU14.** how to insert, respond and delete comments supplied by co-author
- KU15.** how to define, update and publish document templates and styles in line with organisational procedures
- KU16.** presenting information using appropriate page and section layouts
- KU17.** printing multi-page and multi-section documents correctly
- KU18.** challenges faced while performing collaboration tasks
- KU19.** security measures applicable and how to check whether they are in accordance with the needs
- KU20.** business specifications, legislations and organisational objectives applicable to the process

MSU/ITS/N2204: Carry out Remote Online Work and Communication

Description

This OS is about carrying out remote online work and collaboration using digital technology as an individual or as part of a team

Scope

The scope covers the following :

- Manage flexible and remote working arrangements
- Interact using different digital communication channels
- Send and receive digital files

Elements and Performance Criteria

Manage flexible and remote working arrangements

To be competent, the user/individual on the job must be able to:

- PC1.** identify technology requirements for carrying out business functions remotely
- PC2.** configure the application and establish it for setting up a remote office environment
- PC3.** connect to the virtual private network thereby enabling access to required resources
- PC4.** connect hardware devices (such as cameras, speakers and other digital devices) effectively
- PC5.** test the connectivity of devices to ensure the desired functioning and performance
- PC6.** consult concerned stakeholders in developing and managing remote work arrangements
- PC7.** use designated techniques for managing different teams, including office-based, dispersed, remote or hybrid
- PC8.** confirm whether the flexible work arrangements are compatible with the achievement of business objectives
- PC9.** seek support from specialists, whenever and wherever required (such as slowdowns and technology disruptions)
- PC10.** review arrangements periodically to identify improvements

Interact using different digital communication channels

To be competent, the user/individual on the job must be able to:

- PC11.** use online tools to share knowledge, information and data with colleagues
- PC12.** use online communication and collaboration platforms to engage in virtual meetings, review digital documents and presentations, brainstorm, conduct training, etc.
- PC13.** select the correct communication and collaboration tools to meet the situation's needs
- PC14.** ensure communications made through digital channels remotely are clear, accurate and timely
- PC15.** use various features available with digital tools employed to make communications more effective and work more organised
- PC16.** prepare and follow work schedule for self and team as per standard organisational policy

Qualification Pack

PC17. track and share your performance, achievements, and problems with management using digital collaboration tools on a timely basis

Send and receive digital files

To be competent, the user/individual on the job must be able to:

PC18. confirm whether the digital communication systems are ready for sending and receiving files

PC19. confirm whether the files to be sent are in the required format and size

PC20. select a transmission method that takes account of the printer"s/customer"s preferences, speed of transmission, security and cost

PC21. check whether the information accompanying the digital file is legible and accurate

PC22. check the incoming files in accordance with business needs

PC23. download and save files in the designated location correctly

PC24. provide an acknowledgement that the correct files have been received

PC25. check the antivirus software to ensure its updated and functioning as per requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. various types of digital communication and collaboration tools, their purpose and effective utilisation

KU2. hardware devices and software tools used for setting up a remote work environment and their installation

KU3. people involved in the process, their roles and responsibilities

KU4. challenges faced while working and collaborating remotely

KU5. tasks to be performed to carry out a business function collaboratively

KU6. how to configure related applications and devices in the process and check their function

KU7. appropriate techniques for testing the connectivity of devices installed in a remote work environment

KU8. importance of setting up dedicated workspaces

KU9. standard and organisational work practices for effective communication

KU10. types of slowdowns and technology disruptions and how to fix them correctly

KU11. how to use online tools for sharing information, engaging in meetings and reviewing tasks

KU12. how to comprehend information accurately

KU13. how to check whether the digital communication systems are ready for sending and receiving files

KU14. how to check the files for appropriateness in terms of format and size before sharing

KU15. how to receive files correctly, download and save them in designated locations

KU16. how to select a transmission method that is compliant with business objectives

KU17. importance of ensuring accurate and legible information accompanying the files

KU18. importance of having a secured communication channel for sending and receiving files

KU19. repercussions of using an untrusted communication channel in the process

KU20. various types of antivirus software and their selection for use as per business needs

Qualification Pack

- KU21.** legal and organisational, codes of practice and policies relevant to the role of managing flexible and remote working
- KU22.** business specifications, legislations and organisational objectives applicable to the process
- KU23.** security measures applicable and how to check whether they are in accordance with the business needs

MSU/ITS/N2302: Enhance Productivity and Team Collaboration

Description

This OS is about individuals and teams working towards enhanced productivity and team collaboration.

Scope

The scope covers the following :

- Enhance own productivity
- Support team productivity enhancement
- Enhance team collaboration

Elements and Performance Criteria

Enhance own productivity

To be competent, the user/individual on the job must be able to:

- PC1.** identify and confirm work area processes, goals, job specifications and workplace requirements
- PC2.** identify skill and knowledge requirements of the job role and desired personal skill and knowledge levels
- PC3.** seek feedback from others and reflect on their capabilities and skill levels
- PC4.** define a gap between current and desired skill and knowledge levels
- PC5.** identify relevant formal and informal sources of personal development
- PC6.** create a personal development plan to address identified skill and knowledge gaps
- PC7.** gain required approval and engage in formalised personal development activities
- PC8.** develop professional networks to assist in ongoing personal development
- PC9.** apply newly developed skills and knowledge to the current role to improve overall productivity and workplace outcomes

Support team productivity enhancement

To be competent, the user/individual on the job must be able to:

- PC10.** identify quality and standard of activities required to meet team objectives
- PC11.** identify timeframes for the completion of activities to ensure relevance and timeliness
- PC12.** monitor work area processes for efficiency and effectiveness using available workplace resources
- PC13.** apply appropriate quality tools and techniques for identifying causes of problems and areas for improvement
- PC14.** share newly developed skills and knowledge with team members to enhance overall team performance
- PC15.** provide feedback to improve the work efficiency and effectiveness of the team
- PC16.** resolve issues about slowdown and technology disruptions as per standard work practices
- PC17.** identify processes that are redundant and affecting the productivity of the team

Qualification Pack

PC18. devise a plan to eradicate processes that compromise business objectives and hamper productivity

PC19. implement measures that are approved by the organisation to increase efficiency

Enhance team collaboration

To be competent, the user/individual on the job must be able to:

PC20. set clear and precise goals for the team

PC21. seek views and opinions of team members to develop common understandings

PC22. use team collaboration techniques and tools that can increase the team's output

PC23. complete activities in collaboration with team members while adapting to changing circumstances

PC24. mediate competing interests and views of team members to maintain a collaborative team environment

PC25. schedule meetings as per need and the team's availability

PC26. set meeting agenda specific to the problem at hand and share it with the team effectively

PC27. communicate a clear reason while disagreeing with a request during team discussions

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. organisational and industry-required skills and knowledge levels relevant to the job role

KU2. role of ongoing skill and knowledge development in contributing to workplace outcomes and personal development

KU3. key features of a personal development plan

KU4. techniques for assessing current skill and knowledge level

KU5. techniques for obtaining feedback on current skill and knowledge level

KU6. techniques for completing skill and knowledge gap analysis

KU7. types and sources of personal development with respect to formal learning, informal

KU8. learning, coaching, mentoring, networking, job rotation and action learning projects

KU9. roles and responsibilities of team members

KU10. procedures for monitoring the efficiency of work area processes

KU11. procedures for identifying and resolving work area problems

KU12. continuous improvement processes

KU13. waste minimisation practices

KU14. importance of team collaboration and analysing productivity

KU15. various factors that affect the team's productivity and business goals

KU16. how do identify redundant and slow processes and their removal techniques

KU17. people involved in the work processes, their roles and responsibilities

KU18. importance of meetings and utilising the space effectively for discussions

KU19. how to set the meeting agenda and communicate the desired information clearly

KU20. how to assess own and team's performance and identify variance with business goals

KU21. elements of the action plan for eradicating redundancy and how to create it

Qualification Pack

- KU22.** implementation of effective strategies for improving productivity
- KU23.** importance of sharing and receiving feedback and its effect on improving performance
- KU24.** how to confirm whether the working arrangements (traditional/flexible/remote) are compatible with the achievement of business objectives
- KU25.** communication techniques
- KU26.** constructive feedback techniques
- KU27.** jurisdictional policies and procedures related to human resources and communication processes
- KU28.** mediation techniques
- KU29.** work health and safety (WHS) requirements

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Assessment System Overview:

Batches assigned to the assessment agencies for conducting the assessment on SIP or email

Assessment agencies send the assessment confirmation to VTP/TC looping SSC

Assessment agency deploys the ToA certified Assessor for executing the assessment

SSC monitors the assessment process & records

2. Testing Environment:

Check the Assessment location, date and time

If the batch size is more than 30, then there should be 2 Assessors.

Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.

3. Assessment Quality Assurance levels/Framework:

Qualification Pack

Question bank is created by the Subject Matter Experts (SME) are verified by the other SME

Questions are mapped to the specified assessment criteria

Assessor must be ToA certified & trainer must be ToT Certified

4. Types of evidence or evidence-gathering protocol:

Time-stamped & geotagged reporting of the assessor from assessment location

Centre photographs with signboards and scheme specific branding

5. Method of verification or validation:

Surprise visit to the assessment location

6. Method for assessment documentation, archiving, and access

Hard copies of the documents are stored

On the Job:

Each module (which covers the job profile of Digital communication and collaboration associate will be assessed separately.

The candidate must score 60% in each module to successfully complete the OJT.

Tools of Assessment that will be used for assessing whether the candidate is having desired skills and etiquette of dealing with customers, understanding needs & requirements, assessing the customer and perform Soft Skills effectively:

- Videos of Trainees during OJT

Assessment of each Module will ensure that the candidate is able to:

Effective engagement with the customers

Understand the working of various tools and equipment

Minimum Aggregate Passing % at QP Level : 60

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
