MSU/LSC/Q0101: Last Mile Delivery Supervisor

Brief Job Description

Upon completion of this short-term qualification, candidates will be equipped to manage and optimize the final stage of product delivery as Last Mile Delivery Supervisors. This role involves coordinating transportation, logistics, and communication to ensure timely, accurate distribution, ultimately enhancing customer satisfaction and operational efficiency. Supervisors will oversee the critical process of delivering goods to end customers, addressing the growing demand for efficient last-mile delivery in the country.

Personal Attributes

A Last Mile Delivery Supervisor should possess strong analytical and organizational skills, with the ability to manage multiple tasks and solve problems efficiently. Effective communication and leadership qualities are essential for coordinating teams and ensuring timely deliveries. Attention to detail, adaptability, and a focus on customer satisfaction are also crucial in maintaining accuracy and handling unexpected challenges in a fast-paced environment. Time management and a proactive approach are key to successfully optimizing the final stage of product delivery.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [MSU/LSC/N0101: Develop Strategies for Planning and Optimization of Delivery Routes](#)
2. [MSU/LSC/N0102: Organize and Oversee Delivery Team Operations and Collaborations](#)
3. [MSU/LSC/N0103: Cultivate Relationships with Logistic Partners and Oversee Contractual Arrangements](#)
4. [MSU/LSC/N6601: Leverage Technology Tools and Resources for delivery processes](#)
5. [MSU/LSC/N6602: Analyze delivery performance data and implement enhancements](#)
6. [MSU/LSC/N6603: Control Quality and Manage Risks during delivery process](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

MSU/LSC/N0101: Develop Strategies for Planning and Optimization of Delivery Routes

Description

Last mile managers are responsible for devising efficient route planning strategies to ensure timely and cost-effective deliveries. This competency is crucial for logistics professionals aiming to minimize delivery time and expenses, benefiting courier companies, e-commerce platforms, and delivery service providers seeking to optimize their operations.

Scope

The scope covers the following :

- Manage and Analyze Orders
- Plan and Optimize Routes

Elements and Performance Criteria

Manage and Analyze Orders

To be competent, the user/individual on the job must be able to:

- PC1.** Oversee retrieval of daily delivery orders from central system
- PC2.** Ensure accurate categorization of orders by size, weight, and delivery time
- PC3.** Analyze historical data to identify delivery trends
- PC4.** Incorporate GPS data to not only optimize routes but also to avoid congested areas, reducing idling time and emissions in traffic
- PC5.** Monitor route optimization software effectiveness

Plan and Optimize Routes

To be competent, the user/individual on the job must be able to:

- PC6.** Assess routes not only for time and distance but also for their environmental impact, selecting paths that minimize emissions and vehicle wear
- PC7.** Opt for routes that prioritize fuel efficiency, avoiding unnecessary detours and considering factors like downhill stretches to reduce fuel consumption
- PC8.** Adapt routes in real-time based on traffic conditions to minimize fuel consumption and contribute to a cleaner environment
- PC9.** Review and fine-tune optimized routes manually
- PC10.** Incorporate instructions for unique delivery locations
- PC11.** Allocate delivery time slots that align with lower traffic times, contributing to smoother traffic flow and reduced emissions
- PC12.** Distribute finalized routes through mobile apps that also provide eco-friendly driving tips, encouraging drivers to adopt sustainable practices

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Daily Delivery Order Acquisition Process.
- KU2.** Order Categorization by Size, Weight, and Delivery Time.
- KU3.** Analyzing Historical Order Data to Identify Trends.
- KU4.** Interpretation of GPS Data for Congested Area Identification.
- KU5.** Application of Route Optimization Software and Address Input.
- KU6.** Impact of different route choices on emissions, environmental sustainability, and importance of minimizing vehicle wear.
- KU7.** Fuel-efficient driving techniques, terrain factors, and the impact of detours on fuel consumption.
- KU8.** Real-time traffic data interpretation, its influence on fuel consumption, and the role in contributing to a greener environment.
- KU9.** Evaluating route optimization outcomes, identifying areas for improvement, and ensuring routes align with sustainability goals.
- KU10.** Various delivery points, the significance of accurate instructions, and the role of efficient routing in minimizing unnecessary travel.
- KU11.** Traffic patterns, congestion times, and the effect of well-timed deliveries on reducing emissions and traffic-related stress.
- KU12.** Familiarity with mobile app technology, its role in route communication, and the importance of eco-friendly driving encouragement.

MSU/LSC/N0102: Organize and Oversee Delivery Team Operations and Collaborations

Description

This OS unit is about coordinating and supervising delivery teams, fostering teamwork and efficient collaboration. It is essential for Last mile managers in various industries, including retail, food delivery, and parcel services, to ensure seamless delivery processes and enhance customer satisfaction.

Scope

The scope covers the following :

- Assign Driver and Communicate
- Track and Monitor in Real Time

Elements and Performance Criteria

Assign Driver and Communicate

To be competent, the user/individual on the job must be able to:

- PC1.** Host pre-shift meetings, set objectives.
- PC2.** Assign drivers based on expertise to specific routes.
- PC3.** Provide printed route manifests and navigation aids.
- PC4.** Address exceptional delivery requirements.
- PC5.** Share point-of-contact details at each delivery.
- PC6.** Handle driver queries promptly via various communication channels.
- PC7.** Offer guidance for alternate routes due to closures.
- PC8.** Provide real-time support to tackle unforeseen challenges.

Track and Monitor in Real Time

To be competent, the user/individual on the job must be able to:

- PC9.** Monitor real-time GPS data for driver tracking.
- PC10.** Analyze traffic conditions to predict potential delays.
- PC11.** Communicate updated estimated arrival times to customers.
- PC12.** Recognize drivers exceptional performance in debriefs.
- PC13.** Identify performance improvement areas using metrics.
- PC14.** Collaborate with drivers to develop solutions.
- PC15.** Schedule training sessions based on performance.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Conduct Pre-Shift Meetings to Establish Goals

Qualification Pack

- KU2.** Match Drivers with Appropriate Delivery Routes
- KU3.** Provide Printed Route Manifests and Navigation Tools to Drivers
- KU4.** Address Special Delivery Instructions
- KU5.** Offer Point-of-Contact Information for Deliveries
- KU6.** Respond to Driver Inquiries through Communication Tools
- KU7.** Provide Alternate Routes for Road Closure Situations
- KU8.** Assist Drivers in Unforeseen Delivery Challenges
- KU9.** Monitor Driver Movements via Real-Time GPS Tracking
- KU10.** Assess Possible Delays Based on Traffic Conditions
- KU11.** Inform Customers about Updated Estimated Arrival Times
- KU12.** Recognize and Acknowledging Driver Excellence
- KU13.** Identify Opportunities for Performance Enhancement
- KU14.** Collaborate with Drivers to Address Challenges
- KU15.** Design Training Plans to Address Performance Gaps

MSU/LSC/N0103: Cultivate Relationships with Logistic Partners and Oversee Contractual Arrangements

Description

Last mile managers need to build strong partnerships with logistics providers and manage contractual agreements. This competency is applicable to professionals involved in supply chain management and distribution, facilitating effective collaboration between companies and their logistics partners.

Scope

The scope covers the following :

- Collaborate with Partner Organizations
- Negotiate and Review Contract Terms

Elements and Performance Criteria

Collaborate with Partner Organizations

To be competent, the user/individual on the job must be able to:

- PC1.** Organize recurring meetings with logistics partners.
- PC2.** Share and discuss delivery performance data.
- PC3.** Network in industry conferences for connections.
- PC4.** Establish efficient communication channels for updates.
- PC5.** Coordinate daily order data sharing with partners.

Negotiate and Review Contract Terms

To be competent, the user/individual on the job must be able to:

- PC6.** Negotiate pricing and define service level agreements.
- PC7.** Specify exceptional situation handling in contracts.
- PC8.** Ensure contract language aligns with terms.
- PC9.** Implement APIs for seamless e-commerce data sharing.
- PC10.** Scrutinize carrier invoices for accuracy.
- PC11.** Validate invoicing against pricing and terms.
- PC12.** Resolve billing disputes promptly.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Organizing Regular Meetings with Logistics Partners
- KU2.** Sharing Data on Delivery Performance and Discussing Enhancements
- KU3.** Participation in Industry Conferences for Networking
- KU4.** Ensuring Timely and Effective Communication Updates

Qualification Pack

- KU5.** Coordinating Daily Order Data Sharing with Partners
- KU6.** Pricing Negotiations Based on Delivery Frequency and Volume
- KU7.** Protocols for Handling Exceptional Delivery Situations
- KU8.** Ensuring Alignment of Contract Language with Agreed Terms
- KU9.** Integrating Data Sharing with E-Commerce Platforms
- KU10.** Scrutinize Carrier Invoices for Accuracy and Compliance
- KU11.** Process of Validating Invoicing Against Agreed-Upon Terms
- KU12.** Addressing and Resolving Billing Disputes in a Timely Manner

MSU/LSC/N6601: Leverage Technology Tools and Resources for delivery processes

Description

Last mile managers must harness technological tools for optimized delivery operations. This competency is valuable for logistics and transportation professionals utilizing software and hardware solutions to enhance efficiency, suitable for businesses across multiple sectors.

Scope

The scope covers the following :

- Implement Technology and Train Teams
- Implement Tracking and Communication Systems

Elements and Performance Criteria

Implement Technology and Train Teams

To be competent, the user/individual on the job must be able to:

- PC1.** Install and configure tracking devices and tools.
- PC2.** Train drivers for tracking and communication systems.
- PC3.** Respond immediately to alerts for timely solutions.
- PC4.** Engage drivers to overcome potential bottlenecks.

Implement Tracking and Communication Systems

To be competent, the user/individual on the job must be able to:

- PC5.** Monitor real-time tracking dashboards.
- PC6.** Analyze historical tracking data for insights.
- PC7.** Generate detailed reports on driver performance.
- PC8.** Utilize tracking data to update customers.
- PC9.** Send real-time delivery alerts to customers.
- PC10.** Offer real-time tracking link for transparency.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Expertise in Installing and Configuring Tracking Devices and Tools
- KU2.** Educating Drivers on Proficient Use of Tracking and Communication Systems
- KU3.** Prompt Response to Alerts and Notifications for Timely Action
- KU4.** Engaging Drivers to Effectively Resolve Operational Bottlenecks
- KU5.** Monitoring Real-Time Tracking Data for Accurate Driver Location Insights
- KU6.** Deriving Valuable Insights from Historical Tracking Data Analysis

Qualification Pack

- KU7.** Skill in Generating Comprehensive Reports on Driver Performance
- KU8.** Utilizing Integrated Tracking Data for Enhanced Customer Notifications
- KU9.** Send Precise Delivery Estimated Time of Arrivals (ETAs) to Customers
- KU10.** Providing Customers with Real-Time Tracking Links for Enhanced Transparency

MSU/LSC/N6602: Analyze delivery performance data and implement enhancements

Description

This OS unit is about, analyzing delivery data to drive improvements is vital for Last mile managers. This competency is beneficial for professionals in roles requiring data-driven decision-making, such as supply chain analysts and managers aiming to optimize delivery processes

Scope

The scope covers the following :

- Set Key Performance Indicators (KPIs)
- Monitor and Evaluate Team Performance

Elements and Performance Criteria

Set Key Performance Indicators (KPIs)

To be competent, the user/individual on the job must be able to:

- PC1.** Define standardized data fields for each delivery
- PC2.** Implement accurate data recording protocols
- PC3.** Develop dynamic performance dashboards for KPIs
- PC4.** Monitor KPI trends for anomalies
- PC5.** Uncover root causes of delivery delays

Monitor and Evaluate Team Performance

To be competent, the user/individual on the job must be able to:

- PC6.** Collect data on driver metrics such as delivery times, order accuracy, and fuel efficiency
- PC7.** Analyze collected data to identify trends, strengths, and areas for improvement in driver performance
- PC8.** Set specific, measurable, and attainable goals for each driver based on their performance analysis
- PC9.** Initiate open discussions with drivers to create a comfortable environment for sharing feedback
- PC10.** Collaboratively identify specific aspects of driver performance that need enhancement
- PC11.** Work together to design tailored improvement plans for each driver, addressing their unique needs

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Establishing and Managing Standardized Data Fields for Every Delivery
- KU2.** Protocols and Understanding for Accurate Data Recording Processes

Qualification Pack

- KU3.** Creating and Implementing Visual Performance Dashboards
- KU4.** Monitoring Trends and Identifying Anomalies in Key Performance Indicators (KPIs)
- KU5.** Expertise in Identifying Root Causes for Delivery Delays or Errors
- KU6.** Data collection methods and tools to gather driver-related metrics, including delivery times, order accuracy, and fuel efficiency
- KU7.** Data analysis techniques to interpret driver performance data, identify patterns, strengths, weaknesses, and areas requiring improvement
- KU8.** Goal-setting principles and techniques to establish individualized, measurable, and achievable performance targets for drivers
- KU9.** Effective communication strategies to create an open and conducive environment for drivers to share feedback, concerns, and insights
- KU10.** Performance evaluation methods to collaboratively pinpoint specific aspects of driver performance that require enhancement and align with business objectives.
- KU11.** Performance improvement methodologies to create customized action plans for drivers, addressing their unique strengths, weaknesses, and developmental needs.

MSU/LSC/N6603: Control Quality and Manage Risks during delivery process

Description

Last mile managers are responsible for ensuring the quality and safety of deliveries. This standard is essential for professionals across various industries, including pharmaceuticals, where maintaining product quality during transport and managing delivery-related risks is critical to compliance and customer satisfaction.

Scope

The scope covers the following :

- Establish Quality Assurance Protocols
- Conduct Regular Quality Checks and Audits

Elements and Performance Criteria

Establish Quality Assurance Protocols

To be competent, the user/individual on the job must be able to:

- PC1.** Develop guides for efficient packing
- PC2.** Standardize quality checks in order fulfillment
- PC3.** Train new hires for order accuracy
- PC4.** Conduct workshops for efficient packing
- PC5.** Randomly inspect packed orders for accuracy
- PC6.** Use barcode scans for item validation
- PC7.** Implement corrective actions and track effectiveness
- PC8.** Organize quality improvement brainstorming meetings

Conduct Regular Quality Checks and Audits

To be competent, the user/individual on the job must be able to:

- PC9.** Monitor real-time weather and traffic updates
- PC10.** Develop alternative routes for disruptions
- PC11.** Communicate with local traffic authorities
- PC12.** Conduct mock drills for contingency routes
- PC13.** Train drivers for executing contingency plans
- PC14.** Develop vehicle safety and road rules training
- PC15.** Arrange seminars on safe driving practices
- PC16.** Regularly inspect vehicles and document maintenance
- PC17.** Audit delivery areas for safety hazards
- PC18.** Verify and maintain driver's licenses and certifications

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** Developing Guides for Effective Order Picking and Packing Processes
- KU2.** Establishing and Enforcing Consistent Quality Checks During Order Fulfillment
- KU3.** Educating New Hires on Protocols for Ensuring Order Accuracy
- KU4.** Conducting Productive Workshops to Enhance Packing Efficiency
- KU5.** Randomly Inspecting Packed Orders for Correctness
- KU6.** Utilizing Barcode Scans to Validate Item Accuracy During Loading
- KU7.** Implementing Corrective Actions Based on Analyzed Data Insights
- KU8.** Facilitating and Leading Quality Improvement Brainstorming Meetings
- KU9.** Monitoring Real-Time Weather Forecasts and Updates for Effective Planning
- KU10.** Establishing Direct Communication Channels with Local Traffic Authorities
- KU11.** Conducting Essential Mock Drills to Ensure Driver Familiarity with Contingency Routes
- KU12.** Educating and Training Drivers for Executing Contingency Plans in Extreme Weather
- KU13.** Expertise in Creating Training Modules for Ensuring Vehicle Safety
- KU14.** Arranging Informative Seminars to Educate Drivers About Safe Driving Practices
- KU15.** Regular Vehicle Inspection Knowledge to Ensure Optimal Safety Conditions
- KU16.** Maintaining Accurate Documentation of Vehicle Inspection Results
- KU17.** Ensuring Driver's Licenses and Certifications are Updated in Accordance with Regulations.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

This section includes the processes involved in identifying, gathering, and interpreting information to evaluate the Candidate on the required competencies of the program.

Mention the detailed assessment strategy in the provided template.

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SIP or email
- Assessment agencies send the assessment confirmation to VTP/TC looping Madhavi Skills University (MSU)
- Assessment agency deploys the ToA-certified Assessor for executing the assessment
- MSU monitors the assessment process & records

2. Testing Environment:

- Check the Assessment location, date and time

Qualification Pack

- If the batch size is more than 30, then there should be 2 Assessors.
- Check that the allotted time for the candidates to complete Theory & Practical Assessment is correct.

3. Assessment Quality Assurance levels/Framework:

- Question bank is created by the Subject Matter Experts (SME) are verified by the other SMEs
- Questions are mapped to the specified assessment criteria
- Assessor must be ToA certified & trainer must be ToT Certified

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from the assessment location
- Centre photographs with signboards and scheme-specific branding

5. Method of verification or validation:

- Surprise visit to the assessment location

6. Method for assessment documentation, archiving, and access

- Hard and copies of the documents are stored

On the Job:

1. Each module (which covers the job profile) will be assessed separately.
2. The candidate must score 60% in each module to complete the OJT.
3. Tools of Assessment that will be used for assessing whether the candidate is having desired skills and aptitude are:

- Videos of Trainees during OJT
- Portfolio of items produced
- Viva
- Demonstrations

4. Assessment of each Module will ensure that the candidate is able to:

- Perform the skills mentioned in the assessment criteria.
- Apply underpinning knowledge and understanding to the tasks performed to achieve desired level of competencies

Qualification Pack

- Demonstrate behavioral and attitudinal soft skills as mentioned in the assessment criteria.

Minimum Aggregate Passing % at QP Level : 60

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
