MSU/ITS/N0101: Prepare digital textual content

Description

This NOS includes the skills and knowledge for developing textual content using appropriate digital tools based on identified digital textual content requirements.

Scope

The scope covers the following :

- Identify digital textual content requirements
- Develop textual content using appropriate digital tools

Elements and Performance Criteria

Identify digital textual content requirements

To be competent, the user/individual on the job must be able to:

- PC1.** Gather the content production requirements from the authorized personnel as per organizational norms.
- PC2.** Determine the objective of the content and elements required in the content
- PC3.** Determine the needs and viewpoints of the target users and audience using various user data.
- PC4.** Obtain organizational templates and style manuals to maintain content uniformity and help with content production.
- PC5.** Identify digital media-related compliances and regulations to be observed
- PC6.** Evaluate platform capabilities and constraints to guide content production.
- PC7.** Analyze how the material is to be used on internal and external platforms to guide content creation and facilitate cross-platform usability.
- PC8.** Get the organization and product information needed for content production.

Develop textual content using appropriate digital tools

To be competent, the user/individual on the job must be able to:

- PC9.** Schedule content creation to coincide with organizational branding and marketing initiatives
- PC10.** Source text-based content materials that may be incorporated and referenced
- PC11.** Fill in the perceived information gaps in text-based materials using various supplementary sources.
- PC12.** Evaluate and choose the most suitable content ideas and writing styles in consultation with the right personnel.
- PC13.** Come up with various ideas relevant to the objective of the content to be created.
- PC14.** Organize content by category, order, and structure to make it simple to read and navigate.
- PC15.** Write content using principles and best practices of effective communication.

Qualification Pack

- PC16.** Use the writing tools appropriate for the content's purpose while creating material. Writing tools: Word processor like MS Word, Presentation Software like MS PowerPoint, publishing software like InDesign, eLearning software like Articulate storyline, Elucidate, HTML forms like Google forms, etc.
- PC17.** Include necessary citations and references
- PC18.** Check for plagiarism using online tools
- PC19.** Arrange for copyright clearances as necessary
- PC20.** Use presentation, formatting and interaction techniques to make the content engaging and easier to understand while conveying the intended information.
- PC21.** Edit and rewrite text until it satisfies the requirements and criteria for language accuracy and target audience engagement.
- PC22.** Check textual material for errors and run readability tests, if necessary.
- PC23.** Distribute the final version of content to the appropriate personnel for review, evaluation and consideration.
- PC24.** Gather feedback from relevant people and modify the content.
- PC25.** Submit the textual content within the time agreed by organizational guidelines.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Creative and technical specifications of the work output to be collected before beginning a project, including the quality standards expected of the final output, raw materials available, timelines and formats of the deliverables
- KU2.** Current trends in the development and use of digital textual content
- KU3.** Importance of identifying the objective of the content and the elements required in it before starting the content development process
- KU4.** Best practices for using digital content to engage customers, maximize sales, drive traffic to the website, create brand and target market appeal, achieve consistency and alignment with organizational branding and promotion activity
- KU5.** Types of data that may provide information on users and audience
- KU6.** The process of researching, identifying, writing and editing text-based material and meeting all deadlines as required
- KU7.** Approaches for producing textual and visual online content relevant to various target markets and purposes
- KU8.** Facilitation of textual content creation for internal-external cross-platform usability
- KU9.** Function and application of search engine optimization in creating digital content.
- KU10.** Importance of fact-checking and mentioning references and citations
- KU11.** Digital media-related compliances, regulations, codes of practice and relevant aspects of privacy and copyright laws
- KU12.** Identification of different sources to be used as supplementary material and information
- KU13.** Writing styles and their purpose
- KU14.** The usage of and features for: keywords, styling, file schemes, information architecture and its link to digital content

Qualification Pack

- KU15.** Layout and presentation techniques
- KU16.** The function and application of copywriting in creating digital content
- KU17.** Usage of tools like word processors like MS word, presentation software like MS PowerPoint, publishing software like InDesign, eLearning software like Articulate storyline, HTML forms like google forms
- KU18.** Usage of formatting and interactive techniques to increase content engagement
- KU19.** Logical and methodical approach to the process of clarifying content, drafting and proofreading to meet creative requirements
- KU20.** Tools and procedures for uploading and storing digital material
- KU21.** Importance of seeking and using ideas and feedback from relevant stakeholders to improve the content

MSU/ITS/N0102: Develop audio and visual content using appropriate tools

Description

This NOS includes the skills and knowledge for developing audio and visual content using appropriate digital tools based on identified digital audio and visual content requirements.

Scope

The scope covers the following :

- Identify audio and visual digital content requirements
- Develop audio and visual digital content

Elements and Performance Criteria

Identify audio and visual digital content requirements

To be competent, the user/individual on the job must be able to:

- PC1.** Gather audio-visual digital content requirements for the organization, target audience profiling, resources available and constraints.
- PC2.** Obtain organizational templates and style manuals to maintain content uniformity and help with content production.
- PC3.** Determine platform capabilities and constraints to guide content production.
- PC4.** Analyze how the material is used on internal and external platforms to guide content creation and facilitate cross-platform usability.
- PC5.** Identify digital media-related compliances and regulations to be observed

Develop audio and visual digital content

To be competent, the user/individual on the job must be able to:

- PC6.** Source audio and visual content that appeals to the target audience and fits the requirement, organization's logo, style guide, and marketing strategy received from authorized sources. Authorized sources: organization-approved graphics; audio video from the production team; free online sources of images, graphics, audio and video; etc.
- PC7.** Edit audio and visual material to produce attractive and high-quality material using media editing tools like Photoshop, Canva, and Video Editors like Adobe Premiere Pro, Final Cut Pro, AVID media composer, etc.
- PC8.** Provide captions, sub-titles or descriptions ensuring relevancy, accuracy and SEO optimization
- PC9.** Embed the audio and visual content in the overall content seeking maximum impact and effective utilization of space and size.
- PC10.** Ensure that audio and visual representations are error-free as per the requirements.
- PC11.** Send the updated audio and visual content to stakeholders for review and consideration.
- PC12.** Consider the feedback from relevant parties and make changes where necessary.
- PC13.** Send information by the deadline established by organizational policies.

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** Creative and technical specifications of the work output to be collected before beginning a project, including the quality standards expected of the final output, how much raw media is available, timelines and formats of the deliverables
- KU2.** Current trends in the development and use of digital audio and visual content
- KU3.** Design specifications and supporting information such as the nature, style, content, and creative intention of the graphic elements
- KU4.** File schemes, information architecture, keywords and their link to digital content
- KU5.** The factors which influence the selection and combination of images, sound, graphic elements and the dynamics of the movement and what effect these have on the aesthetic composition
- KU6.** Sources of video, pictures, graphics and sound
- KU7.** Various formats and codes of audio, video, graphics and pictures and their application
- KU8.** Digital media-related compliances, regulations, codes of practice and relevant aspects of privacy and copyright laws
- KU9.** The relationship between site design and functionality and the creation of digital content
- KU10.** Software tools used to aid digital audio and visual content development and their internal-external cross-platform usability
- KU11.** Functions and capabilities of tools like Photoshop, Canva, and video editors like Adobe Premiere Pro, Final Cut Pro, AVID media composer, etc.
- KU12.** Various equipment used in audio and video editing such as colour grading monitor, video editing monitor, special mouse and keyboard for video editing, headphones speakers, etc.
- KU13.** Key steps in the audio, video, pictures and images editing process.
- KU14.** Principles and conventions of continuity
- KU15.** Concept and use of pace and timing
- KU16.** Role of sounds and how sound can create pace and mood
- KU17.** Basics of colour
- KU18.** Visual composition techniques
- KU19.** Tools and procedures for uploading and storing digital material
- KU20.** Guidelines for captioning media assets
- KU21.** Approaches for producing textual and visual online content relevant to various target markets.
- KU22.** Checks, clearances and approvals needed, and how to obtain them
- KU23.** Usage of formatting and interactive techniques to increase content engagement
- KU24.** Importance of seeking and using ideas and feedback from relevant stakeholders to improve the content

MSU/ITS/N0103: Review digital content

Description

This NOS includes the skills and knowledge for reviewing the digital content based on identified digital content requirements.

Scope

The scope covers the following :

- Identify requirements
- Prepare for review
- Conduct review
- Share review

Elements and Performance Criteria

Identify requirements

To be competent, the user/individual on the job must be able to:

- PC1.** Gather information about review requirements
- PC2.** Define stakeholders to be consulted with
- PC3.** Obtain the scope of work and review guidelines from stakeholders
- PC4.** Establish review goals, processes and timelines
- PC5.** Identify digital media-related compliances and regulations to be observed
- PC6.** Identify content objectives, outline and sequence
- PC7.** Obtain guidelines with respect to technical and creative quality standards including appearance, language, format and templates, etc.
- PC8.** Identify limitations of the software and personnel as well as the organizational constraints with respect to the content development and editing
- PC9.** Create a checklist for reviewing the content that covers all aspects to be reviewed and get it approved by authorised personnel

Prepare for review

To be competent, the user/individual on the job must be able to:

- PC10.** Receive content from authorised sources
- PC11.** Ensure currency of version and receipt of complete content
- PC12.** Ensure availability of standard web browser, applications or software required to view the content in the form it will be visible to the target audience
- PC13.** Agree with the content writer/editor on the mode, format and template in which the review findings and feedback are to be shared
- PC14.** Create a review strategy to ensure adherence to all review objectives, guidelines, timelines and standards
- PC15.** Take a backup of the entire content before initiating the review

Conduct review

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC16.** Review online content using an industry-standard web browser or application to check layout, appearance and accessibility requirements are met
- PC17.** Proof-read digital content to identify any errors with respect to language, format and template as per standards
- PC18.** Check adherence to branding and messaging guidelines across the content
- PC19.** Identify gaps and inadequacies in the content by evaluating the content based on the content outline and objectives
- PC20.** Follow protocols for ensuring the accuracy and authenticity of information
- PC21.** Check for superseded and inaccurate information and suggest current information and additional material in accordance with organisational requirements
- PC22.** Check and identify plagiarized content using digital tools
- PC23.** Analyse the efficiency of content in achieving its purpose using digital tools for analytics
- PC24.** Seek clarifications when in doubt from authorised personnel and document it with the review guidelines

Share review

To be competent, the user/individual on the job must be able to:

- PC25.** Compile and organise the findings and feedback in the template and format agreed upon
- PC26.** Share the compiled report of the findings and feedback to the authorised personnel within the agreed timelines
- PC27.** Provide clarifications, where required, to the content writer/editor and other stakeholders in a manner and format that they will find easy to understand
- PC28.** Archive the materials as per organisational standard operating procedures

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Importance of content review before and after publishing the content
- KU2.** Various types of digital content, their objectives, target audience and stakeholders
- KU3.** General review goals and process
- KU4.** Information on technical and creative quality standards
- KU5.** Common limitations and concerns regarding the development and replacement of original material, review and editing strategies or other technical errors
- KU6.** Common organisational constraints like time, budgets, access to materials, etc.
- KU7.** Digital media-related compliances, regulations, codes of practice and relevant aspects of privacy and copyright laws
- KU8.** Documentation of instructions and specifications for digital content review
- KU9.** Evaluation of stakeholder feedback and incorporation to meet production standards
- KU10.** Importance of documenting all requirements and creating a checklist for review
- KU11.** Importance of ensuring content received is from authorised sources, of correct version and complete
- KU12.** Difference in content review process due to browser, application or software used

Qualification Pack

- KU13.** Some effective digital content reviewing strategies and tools to ensure adherence to all review objectives, guidelines, timelines and standards
- KU14.** Importance of taking backup
- KU15.** Tools and their use for proof-reading content
- KU16.** Tools and their use for checking for plagiarism, accuracy and currency of the content
- KU17.** Digital analytics tools for SEO optimization, web content, social media content, etc.
- KU18.** The process for reviewing online content using an industry-standard web browser or application to check layout, appearance and accessibility requirements are met
- KU19.** The process for proof-reading digital content to identify any errors with respect to language, format and template as per standards
- KU20.** The process for checking adherence to branding and messaging guidelines across the content
- KU21.** The process for analysing the efficiency of content in achieving its purpose using digital tools for analytics
- KU22.** Importance of fact-checking and mentioning references and citations
- KU23.** Importance of taking complete clarity from authorised personnel in case of doubt about the work
- KU24.** Importance of organizing review findings and feedback in a user-friendly manner
- KU25.** Industry-standard communication methods and practices
- KU26.** Organizational procedures for completing documentation and archiving content-related materials

MSU/ITS/N0104: Publish digital content

Description

This NOS includes the skills and knowledge for publishing digital content.

Scope

The scope covers the following :

- Prepare to publish digital content
- Carry out the publishing of digital content
- Verify the published content and rectify errors
- Carry out the necessary documentation

Elements and Performance Criteria

Prepare to publish digital content

To be competent, the user/individual on the job must be able to:

- PC1.** Plan digital web content needs to meet requirements
- PC2.** Design web page layouts to host content as specified
- PC3.** Select and install appropriate software to publish online digital content

Carry out the publishing of digital content

To be competent, the user/individual on the job must be able to:

- PC4.** Enter, edit and format web text content to meet requirements
- PC5.** Select and insert specified digital media asset files to web pages
- PC6.** Use an approved file extension scheme to upload materials to digital sites
- PC7.** Export video files in compatible sizes, formats and frame rates to meet production requirements
- PC8.** Upload video to final destination with applicable metadata according to production requirements

Verify the published content and rectify errors

To be competent, the user/individual on the job must be able to:

- PC9.** Ensure that content is logically organized and presented in an eye-catching way to enhance user experience
- PC10.** Verify the uploaded materials in closed contention mode
- PC11.** Check for Sharable Content Object Reference Model (SCORM) compliance by testing the published materials on various gadgets and platforms
- PC12.** Make necessary adjustments to rectify errors and shortcomings

Carry out the necessary documentation

To be competent, the user/individual on the job must be able to:

- PC13.** Keep content history on file by archiving it and ensuring version control is used.
- PC14.** Ensure content is backed up and stored securely for future reference.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** How to interpret requirements to plan digital content publishing designs
- KU2.** Web layout designs to host required digital content
- KU3.** Industry standard applications that are used to publish digital content online
- KU4.** Incorporate text and optimised digital images and graphics on a web page
- KU5.** Approved file extensions for different types of media files
- KU6.** Video file formats, compression codecs and containers for final output
- KU7.** Tools and procedures for uploading and storing digital material
- KU8.** Industry-standard web graphic file formats used to store and publish digital content
- KU9.** Deployment of online content to make it live
- KU10.** Procedures for reviewing web-based digital content to check for errors and publication quality
- KU11.** Sharable Content Object Reference Model (SCORM) compliance
- KU12.** Version control and the importance of maintaining record systems to manage versions of data archiving
- KU13.** Secure storage and access to digital content and media assets
- KU14.** Archival and preservation of digital content and media assets for future use

Qualification Pack

MSU/ITS/N0105: Work as per plan

Description

This NOS includes the skills and knowledge for working as per the plan.

Scope

The scope covers the following :

- Prepare a work plan
- Implement a work plan

Elements and Performance Criteria

Prepare a work plan

To be competent, the user/individual on the job must be able to:

- PC1.** Discuss and agree on the objectives and scope of the work with sponsors and stakeholders
- PC2.** Confirm the available resources and constraints with the sponsors and stakeholders
- PC3.** Develop a work plan
- PC4.** Agree on the work plan with sponsors and stakeholders, making changes, where necessary
- PC5.** Brief team members on the final work plan and their roles and responsibilities

Implement a work plan

To be competent, the user/individual on the job must be able to:

- PC6.** Carry out work in line with the requirements and priorities of the plan
- PC7.** Implement processes and resources to manage potential risks arising from the work and deal with contingencies
- PC8.** Apply work tools and techniques to monitor, control and review progress
- PC9.** Communicate the progress and results of the work and its different stages to colleagues and stakeholders
- PC10.** Change the work plan to respond to problems encountered or changes to organisational objectives
- PC11.** Deliver objectives on time and within budget
- PC12.** Confirm satisfactory completion of the work with the sponsor and any key stakeholders
- PC13.** Evaluate the success of the work, identifying the lessons that can be learned and shared

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Importance and types of plans
- KU2.** The planning processes
- KU3.** Importance of discussing and agreeing on the key objectives and scope of proposed work with sponsors and stakeholders before detailed planning commences

Qualification Pack

- KU4.** What should be included in a work plan, particularly activities, required resources, constraints and timescales
- KU5.** How to brief team members on the plan, confirm their roles and responsibilities and provide ongoing support, encouragement and information
- KU6.** How to identify and manage potential risks
- KU7.** Importance of contingency planning
- KU8.** The type of changes that might need to be made to a work plan during implementation and the importance of agreeing on these with the sponsors and stakeholders
- KU9.** Why it is important to confirm satisfactory completion of the work with the sponsors and stakeholders
- KU10.** Tools and techniques used to plan and monitor, control and review progress as per the plan

Qualification Pack

MSU/ITS/N9901: Maintain health and safety in a digital workspace-

Description

This NOS includes the skills and knowledge related to health and safety related in a digital workplace.

Scope

The scope covers the following :

- Maintain good health and hygiene
- Implement safety measures
- Respond to an emergency
- Implement effective waste management and recycling practices at the workplace

Elements and Performance Criteria

Maintain good health and hygiene

To be competent, the user/individual on the job must be able to:

- PC1.** Maintain workplace cleanliness
- PC2.** Maintain personal cleanliness and hygiene such as sanitizing hands at regular intervals and wearing clean clothes.
- PC3.** Monitor sanitization of mobile phones, computers, laptops and their accessories at regular intervals.
- PC4.** Ensure the team is adhering to good cleanliness and hygiene practices
- PC5.** Ensure that your desk and workspace are cleaned and organised regularly.
- PC6.** Manage workstation ergonomic risks by taking care of the chair and desk design, height, support and adjustability, monitor size, positioning, height and visibility, keyboard and mouse height, positioning and arm or wrist posture, etc.
- PC7.** Take measures to avoid strain on the eyes or body due to extended sitting and computer viewing hours.
- PC8.** Implement and adhere to fatigue management techniques
- PC9.** Follow your organisation's procedures for promoting mental health and well-being
- PC10.** Identify and address workplace health hazards related to injury, food, air and infectious disease within the scope of your role and report any unresolved hazards that may affect the health of self and others.

Implement safety measures

To be competent, the user/individual on the job must be able to:

- PC11.** Identify safety hazards in remote, home and office environments work
- PC12.** Provide information about risks and hazards to colleagues responsible for health and safety
- PC13.** Implement measures to protect from physical hazards, electrical hazards, fire hazards, hazardous materials, and bio-hazards.
- PC14.** Select, use and maintain personal protective equipment and clothing appropriate to working long hours on the computer or laptop in closed AC offices
- PC15.** Follow safety signs and symbols to prevent accidents

Qualification Pack

Respond to an emergency

To be competent, the user/individual on the job must be able to:

- PC16.** Identify standard procedures for dealing with accidents, fires, natural disasters and medical emergencies
- PC17.** Take measures specified by the organisation for loss minimization and personnel and asset protection
- PC18.** Organise and participate in emergency and fire drills and training
- PC19.** Use emergency equipment in accordance with manufacturers' specifications and workplace requirements.
- PC20.** Recognise the need for first aid response.
- PC21.** Provide basic first aid.
- PC22.** Seek assistance from emergency services.
- PC23.** Accurately convey incident details to emergency services.
- PC24.** Report details of the incident in line with appropriate workplace or site procedures.

Implement effective waste management and recycling practices at the workplace

To be competent, the user/individual on the job must be able to:

- PC25.** Identify and segregate recyclable, non-recyclable and hazardous waste at the workplace
- PC26.** Segregate waste into different coloured dustbins
- PC27.** Handle waste as per SOP
- PC28.** Recycle waste wherever applicable
- PC29.** Dispose of PPEs in a plastic bag, sealed and labelled as infectious waste

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Importance of ensuring health and safety measures for personnel and assets are implemented and adhered to
- KU2.** Workplace health and hygiene hazards
- KU3.** Personal hygiene practices to care for own health and well-being before and during service periods
- KU4.** The different types of factors that affect health and safety and how to evaluate them, e.g., people, equipment, material, environment, and processes
- KU5.** Procedure to maintain cleanliness standards at the workplace
- KU6.** Hazards and hazard identification, including associated risks and controls
- KU7.** Various risks and hazards in an establishment
- KU8.** The ways that you and your organisation can support staff to manage their work-life balance, remote collaboration practices, mental health and physical health in home and on-site working environments
- KU9.** Common safety measures at an establishment to protect against hazards and risks
- KU10.** Procedures and documentation for implementing and monitoring health and safety measures
- KU11.** PPE and their usage in different conditions
- KU12.** The meaning of mental health and well-being

Qualification Pack

- KU13.** Various types of emergencies
- KU14.** Best ways to deal with various types of emergencies in a rural environment
- KU15.** Fire protection and fighting techniques
- KU16.** Basic first aid procedures
- KU17.** Emergency procedures to be followed in case of a mishappening
- KU18.** Effective waste management and recycling practices at the workplace

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SIP or email
- Assessment agencies send the assessment confirmation to VTP/TC looping Madhavi Skills University (MSU)
- Assessment agency deploys the ToA-certified Assessor for executing the assessment
- MSU monitors the assessment process & records

2. Testing Environment:

- Check the Assessment location, date and time
- If the batch size is more than 30, then there should be 2 Assessors.
- Check that the allotted time for the candidates to complete Theory & Practical Assessment is correct.

Qualification Pack

3. Assessment Quality Assurance levels/Framework:

- Question bank is created by the Subject Matter Experts (SME) are verified by the other SMEs
- Questions are mapped to the specified assessment criteria
- Assessor must be ToA certified & trainer must be ToT Certified

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from the assessment location
- Centre photographs with signboards and scheme-specific branding

5. Method of verification or validation:

- Surprise visit to the assessment location

6. Method for assessment documentation, archiving, and access

- Hard and copies of the documents are stored

On the Job:

1. Each module (which covers the job profile) will be assessed separately.
2. The candidate must score 60% in each module to complete the OJT.
3. Tools of Assessment that will be used for assessing whether the candidate is having desired skills and aptitude are:
 - Videos of Trainees during OJT
 - Portfolio of items produced
 - Viva
 - Demonstrations
4. Assessment of each Module will ensure that the candidate is able to:
 - Perform the skills mentioned in the assessment criteria.
 - Apply underpinning knowledge and understanding to the tasks performed to achieve desired level of competencies
 - Demonstrate behavioral and attitudinal soft skills as mentioned in the assessment criteria.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 60

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 60

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
