### NFD/MES/Q0101: Chief Camera Assistant

#### Brief Job Description

The Chief Camera Assistant is responsible for the setup of the camera, Supervising the power and cabling, rigging any Ergonomic Camera Equipment as well and arranging the lighting and other related equipment to suit the needs of a particular sequence/scene to be shot, as per the specifications given by the director of photography.

#### Personal Attributes

In the heart of a bustling film set, the aspiring Chief Camera Assistant orchestrates each shot with precision, attuned to the director's vision and the subtle interplay of light. With technical expertise and calm agility, they navigate challenges seamlessly, ensuring every frame captures the essence of the story. Their silent symphony of teamwork and dedication culminates in cinematic moments that resonate long after the final take, a testament to their unwavering pursuit of visual excellence.

#### Applicable National Occupational Standards (NOS)

##### Compulsory NOS:

1. [NFD/MES/N0101: Set up and maintain camera equipment](#)
2. [NFD/MES/N0102: Perform shot planning and operate the camera](#)
3. [NFD/MES/N0103: Carryout data management and troubleshooting](#)
4. [NFD/MES/N0104: Collaborate and communicate with the team and others](#)
5. [NFD/MES/N0304: Follow Workplace Health & Safety Protocols](#)
6. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

## Qualification Pack

### NFD/MES/N0101: Set up and maintain camera equipment

#### Description

This NOS is designed to set up and maintain camera equipment.

#### Scope

The scope covers the following :

- Oversee the setup, calibration, and maintenance of all camera equipment

#### Elements and Performance Criteria

##### *Oversee the setup, calibration, and maintenance of all camera equipment*

To be competent, the user/individual on the job must be able to:

- PC1.** Collaborate with the Director of Photography to select and prepare appropriate cameras, lenses, and accessories for each shot.
- PC2.** Lead and supervise the camera department, including camera operators and camera assistants.
- PC3.** Collaborate with the Director of Photography and other department heads to ensure seamless communication and coordination on set.
- PC4.** Collaborate with the Director of Photography (DP) and camera team to set up and prepare the camera equipment for shooting.
- PC5.** Ensure that cameras, lenses, and accessories are in proper working condition.
- PC6.** Execute precise and smooth focus pulls during shots, maintaining a sharp focus on the subject as required by the Director and DP.
- PC7.** Monitor and adjust the focus during moving shots or changes in the scene.
- PC8.** Work closely with the camera operator to achieve the desired visual effect.
- PC9.** Perform routine maintenance on cameras and lenses to ensure optimal performance.
- PC10.** Clean lenses and sensors to eliminate dust or debris that could affect image quality.
- PC11.** Exhibit a keen attention to detail by inspecting all camera components, verifying proper connections, and ensuring no issues are overlooked.
- PC12.** Troubleshoot and address technical issues with the camera equipment.
- PC13.** Adhere to safety protocols during equipment setup and maintenance.
- PC14.** Maintain accurate and organised documentation of camera settings and issues.

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Analyze the principles of optics and their application in camera lenses.
- KU2.** Differentiate between different camera formats, sensors, and their strengths and weaknesses.

## Qualification Pack

- KU3.** Explain the functionalities of various types of lenses, their focal lengths, apertures, and creative applications.
- KU4.** Demonstrate how camera accessories like matte boxes, follow focuses, and filters impact image quality.
- KU5.** Apply different camera calibration techniques to ensure image stability and consistency.
- KU6.** Develop preventive maintenance procedures for cameras and lenses to ensure optimal performance.
- KU7.** Troubleshoot common technical issues with camera equipment.
- KU8.** Describe safe handling practices for camera equipment to prevent damage and injury.
- KU9.** Explain basic electrical principles relevant to camera operation and troubleshooting.
- KU10.** Identify digital imaging concepts like resolution, bit depth, and color profiles.
- KU11.** Describe the role of the camera department within the film/video production process.
- KU12.** Practice effective communication and collaboration practices within a production team.
- KU13.** Interpret the Director of Photography's (DP) vision and creative goals.
- KU14.** Collaborate effectively within a team environment.
- KU15.** Implement industry-standard protocols for equipment handling and documentation.
- KU16.** Adhere to safety regulations and best practices on set.
- KU17.** Optimize resource usage within budget constraints.
- KU18.** Adapt camera setups to different filming environments.
- KU19.** Explain how camera settings can affect post-production workflow.
- KU20.** Monitor current trends and innovations in camera technology.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and interpret complex scripts and storyboards to understand visual requirements.
- GS2.** Maintain accurate and detailed call sheets for equipment and personnel.
- GS3.** Provide clear and concise instructions to colleagues during setup and operation.
- GS4.** Effectively document camera settings, troubleshooting steps, and maintenance logs.
- GS5.** Actively listen to feedback and adapt communication style based on audience needs.
- GS6.** Build strong interpersonal relationships with crew members across departments.
- GS7.** Demonstrate conflict resolution skills to address disagreements constructively.
- GS8.** Manage time effectively and prioritize tasks under pressure.
- GS9.** Work independently and take initiative when needed.
- GS10.** Adapt to changing environments and unexpected situations calmly and creatively.
- GS11.** Manage stress effectively and maintain emotional composure during demanding shoots.
- GS12.** Demonstrate cultural sensitivity and awareness when working with diverse teams.
- GS13.** Continuously seek opportunities for professional development and skill improvement.
- GS14.** Embrace feedback and actively work on identified areas for improvement.
- GS15.** Analyze scene requirements and select the appropriate camera equipment and settings.

## Qualification Pack

- GS16.** Identify and troubleshoot technical issues with cameras and lenses quickly and efficiently.
- GS17.** Think critically to anticipate potential problems and develop preventive measures.
- GS18.** Evaluate alternative solutions and make sound decisions based on technical feasibility, creative goals, and budget constraints.
- GS19.** Proactively identify potential risks and implement safety protocols accordingly.
- GS20.** Analyze lighting conditions and choose appropriate lenses and filters to achieve desired visuals.
- GS21.** Critically assess the effectiveness of different camera angles and compositions.
- GS22.** Analyze post-production requirements and capture footage accordingly.
- GS23.** Stay informed about current trends and advancements in camera technology and their impact on production workflows.
- GS24.** Understand and anticipate the Director of Photography's vision and creative goals.
- GS25.** Proactively offer solutions and suggestions to enhance the final product.
- GS26.** Actively listen to concerns and feedback from the Director and other crew members.
- GS27.** Adapt camera setups and workflows to accommodate changing creative needs.
- GS28.** Foster a collaborative and positive working environment that prioritizes teamwork and shared success.

## Qualification Pack

### NFD/MES/N0102: Perform shot planning and operate the camera

#### Description

This NOS is designed to perform shot planning and operate the camera

#### Scope

The scope covers the following :

- Perform shot planning and operate the camera

#### Elements and Performance Criteria

##### *Perform shot planning and operate the camera*

To be competent, the user/individual on the job must be able to:

- PC1.** Assist in shot planning and framing, considering the director's vision and the technical requirements of each scene.
- PC2.** Coordinate with the camera operators to achieve precise and dynamic shots.
- PC3.** Monitor and control focus, aperture, and exposure during filming to ensure consistent and high-quality imagery.
- PC4.** Implement creative depth-of-field and lighting techniques as directed by the Director of Photography.
- PC5.** Oversee the setup and operation of camera movement equipment, such as dollies, cranes, and stabilisers.
- PC6.** Ensure the safe and effective use of rigging systems for specialised shots.
- PC7.** Supervise the organisation and backup of digital footage, ensuring the integrity and security of all media.
- PC8.** Work closely with the post-production team to facilitate a smooth transition of media assets.
- PC9.** Quickly address technical issues related to camera equipment and resolve any challenges during shooting.
- PC10.** Collaborate with the production team to solve logistical and technical challenges creatively.
- PC11.** Mentor and train junior camera assistants, fostering skill development and a collaborative team environment.
- PC12.** Stay updated on industry trends and emerging technologies to continually enhance the team's capabilities.
- PC13.** Conduct regular checks on equipment to ensure optimal performance and adherence to industry standards.
- PC14.** Review footage to ensure it meets the technical and creative requirements of the project.
- PC15.** Enforce and adhere to safety protocols on set, especially concerning the handling and operation of camera equipment.
- PC16.** Conduct regular safety briefings with the camera department.

#### Knowledge and Understanding (KU)

## Qualification Pack

The individual on the job needs to know and understand:

- KU1.** Interpret the director's vision and translate it into shot planning, considering scene requirements and technical limitations.
- KU2.** Employ camera and lens technology to achieve desired framing, composition, and depth-of-field effects.
- KU3.** Explain and apply cinematography principles like lighting, movement, and colour theory to enhance storytelling.
- KU4.** Evaluate and implement various camera angles and shot types for maximum narrative impact.
- KU5.** Evaluate and implement various camera angles and shot types for maximum narrative impact.
- KU6.** Utilize appropriate recording formats, frame rates, and codecs based on project needs and industry standards.
- KU7.** Troubleshoot and diagnose common camera malfunctions, applying technical knowledge for quick resolutions.
- KU8.** Maintain and adhere to industry safety protocols for camera equipment handling and operation.
- KU9.** Explain and implement data management procedures for secure organization and backup of digital footage.
- KU10.** Review captured footage, ensuring technical quality and adherence to creative requirements.
- KU11.** Maintain awareness of emerging camera technologies and industry trends, adapting knowledge for project benefit.
- KU12.** Effectively communicate with the director, DoP, camera operators, and other crew members, exchanging technical and creative information.
- KU13.** Lead and delegate tasks within the camera department, ensuring teamwork and efficient workflow.
- KU14.** Identify and propose creative solutions to logistical and technical challenges during production.
- KU15.** Adapt to changing production needs and unexpected situations, demonstrating flexibility and problem-solving skills.
- KU16.** Explain and enforce safety protocols on set, conducting regular safety briefings for the camera department.
- KU17.** Manage project timelines and budgets effectively, anticipating resource needs and potential challenges.
- KU18.** Mentor and train junior camera assistants, fostering skill development and a positive team environment.
- KU19.** Collaborate with the post-production team to ensure a smooth transition of media assets and address any technical concerns.
- KU20.** Analyze and interpret the director's vision while contributing constructive ideas during pre-production planning.
- KU21.** Adapt camera operation and shot planning based on the director's feedback and evolving creative vision throughout production.

## Qualification Pack

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and comprehend script breakdowns, storyboards, call sheets, technical manuals, equipment specifications, and industry publications.
- GS2.** Interpret and follow written instructions, notes, diagrams, safety protocols, and industry regulations.
- GS3.** Write clearly and concisely in camera reports, technical notes, emails, and training materials.
- GS4.** Communicate effectively by clearly and concisely conveying technical information to diverse audiences (director, DoP, operators, producers).
- GS5.** Ask clarifying questions to seek information, understand instructions, and resolve technical issues.
- GS6.** Actively listen to understand instructions, feedback, and concerns from various team members.
- GS7.** Lead and coordinate by providing clear instructions, delegating tasks, and motivating and guiding the camera team.
- GS8.** Make timely and informed decisions under pressure through analyzing situations, identifying and evaluating options.
- GS9.** Prioritize tasks, manage camera department workflow, and allocate resources effectively through planning and organization.
- GS10.** Identify and diagnose technical issues, creatively solve logistical challenges, and propose solutions through problem-solving.
- GS11.** Analyze scripts, storyboards, and shot lists to identify potential challenges and technical requirements through analytical thinking.
- GS12.** Evaluate proposed solutions, assess risks and benefits, and make sound judgments based on evidence through critical thinking.
- GS13.** Cooperate effectively with diverse team members, build positive relationships, and share knowledge and resources through teamwork and collaboration.
- GS14.** Respond to changing production demands, adjust techniques and solutions based on new information through adaptability and flexibility.
- GS15.** Meet deadlines, manage personal workload efficiently, and prioritize tasks effectively through time management.
- GS16.** Remain calm and composed under pressure, manage high-stress situations effectively through stress management.
- GS17.** Understand and anticipate the needs of the director and production team, strive to deliver results that exceed expectations through customer centricity.
- GS18.** Propose innovative camera techniques and solutions, contribute creatively to shot planning and visual storytelling through creativity and innovation.
- GS19.** Develop and guide junior camera assistants, foster a positive learning environment, and provide constructive feedback through leadership and mentorship.
- GS20.** Continuously update knowledge and skills, stay informed about industry trends and emerging technologies through lifelong learning.

### NFD/MES/N0103: Carryout data management and troubleshooting

#### Description

This NOS is designed to perform data management and troubleshooting

#### Scope

The scope covers the following :

- Carryout data management and troubleshooting

#### Elements and Performance Criteria

##### *Carryout data management and troubleshooting*

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrate proficiency in downloading camera media promptly after each shoot.
- PC2.** Ensure all footage is backed up securely to prevent data loss.
- PC3.** Establish and maintain an organised file structure for camera media storage.
- PC4.** Ensure that files are labelled and categorised logically for easy retrieval.
- PC5.** Maintain accurate records of shot details, camera settings, and any necessary documentation related to the media.
- PC6.** Provide comprehensive information for reference and continuity purposes.
- PC7.** Implement streamlined processes to minimise downtime during data transfer.
- PC8.** Conduct thorough checks of downloaded footage to identify any corrupted files or anomalies.
- PC9.** Implement quality control measures to ensure the integrity of the media.
- PC10.** Troubleshoot technical issues promptly to minimise disruptions during production.
- PC11.** Address potential problems before they impact the workflow.
- PC12.** Collaborate effectively with the post-production team to ensure a smooth handover of camera media.
- PC13.** Provide necessary information and support for the post-production process.
- PC14.** Implement measures to encrypt sensitive data and ensure its security during transfer and storage.
- PC15.** Adhere to industry best practices for data protection.
- PC16.** Demonstrate the ability to work with various camera formats and codecs.
- PC17.** Facilitate easy retrieval of specific shots or scenes during production or post-production.
- PC18.** Implement effective archiving procedures for long-term storage of media.
- PC19.** Communicate data-related matters effectively with the camera team, post-production, and other relevant departments.
- PC20.** Implement feedback from post-production to enhance data-handling practices.
- PC21.** Document troubleshooting procedures for common issues related to camera equipment and data transfer.

## Qualification Pack

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the principles of data management and its importance in film and video production.
- KU2.** Know the different camera formats, codecs, and their data storage requirements.
- KU3.** Understand data security best practices, including encryption and access control.
- KU4.** Be familiar with common troubleshooting procedures for camera equipment and data transfer.
- KU5.** Understand the post-production workflow and the information they require from footage logs.
- KU6.** Knowledge of file management systems and metadata tagging techniques.
- KU7.** Understand the different archiving formats and long-term storage solutions.
- KU8.** Stay updated on emerging technologies and their impact on data management in film production.
- KU9.** Understand the production budget and its impact on data storage options.
- KU10.** Know the chain of command and who to report data-related issues to.
- KU11.** Understand the production company's specific data security policies and procedures.
- KU12.** Be aware of the different roles and responsibilities within the camera and post-production team.
- KU13.** Understand the production workflow and how data management impacts it.
- KU14.** Download camera media promptly and efficiently.
- KU15.** Implement a secure backup system to prevent data loss.
- KU16.** Structure media storage logically for easy retrieval.
- KU17.** Label and categorize files with clear and consistent metadata.
- KU18.** Maintain accurate and detailed shot logs and technical information.
- KU19.** Provide comprehensive reference documentation for continuity purposes.
- KU20.** Streamline data transfer processes to minimize downtime.
- KU21.** Conduct thorough quality checks for corrupted files or anomalies.
- KU22.** Implement measures to ensure the integrity and authenticity of the footage.
- KU23.** Troubleshoot technical issues promptly and effectively.
- KU24.** Anticipate potential problems and implement preventative measures.
- KU25.** Collaborate effectively with post-production for a smooth media handover.
- KU26.** Provide necessary information and support to facilitate the post-production process.
- KU27.** Encrypt sensitive data and adhere to data security best practices.
- KU28.** Work effectively with diverse camera formats and codecs.
- KU29.** Ensure quick and accurate retrieval of specific shots or scenes.
- KU30.** Implement robust archiving procedures for long-term data preservation.
- KU31.** Communicate data-related matters clearly and concisely with all relevant departments.
- KU32.** Continuously improve data-handling practices based on feedback from post-production.
- KU33.** Document troubleshooting procedures for future reference and team training.

## Qualification Pack

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and interpret technical specifications of camera formats and codecs.
- GS2.** Accurately document shot details, camera settings, and troubleshooting procedures.
- GS3.** Effectively communicate data-related information in written reports and emails.
- GS4.** Explain data management procedures to the camera team and other departments.
- GS5.** Discuss technical issues related to data transfer and troubleshooting with confidence.
- GS6.** Provide concise and accurate updates on data status during production.
- GS7.** Choose appropriate file-naming conventions and storage solutions based on project requirements.
- GS8.** Determine the best action when troubleshooting data-related problems.
- GS9.** Decide when to escalate data issues to the post-production team or supervisor.
- GS10.** Develop and implement a clear file structure for efficient media storage.
- GS11.** Plan data transfer processes to minimize downtime and maximize efficiency.
- GS12.** Organize and maintain accurate records for easy retrieval and reference.
- GS13.** Identify and diagnose technical issues related to data management and transfer.
- GS14.** Develop and implement solutions to fix corrupted files or data anomalies.
- GS15.** Proactively address potential problems before they impact the production workflow.
- GS16.** Analyze data transfer logs to identify errors or inconsistencies.
- GS17.** Evaluate the effectiveness of data management practices and suggest improvements.
- GS18.** Interpret technical information related to camera formats and codecs for informed decision-making
- GS19.** Critically assess the quality and integrity of downloaded footage.
- GS20.** Identify potential risks associated with data security and implement mitigation strategies.
- GS21.** Evaluate the effectiveness of feedback from post-production to improve data-handling practices.
- GS22.** Provide helpful and efficient support to the post-production team regarding data needs.
- GS23.** Anticipate potential data-related challenges faced by other departments and offer solutions.
- GS24.** Proactively communicate data status updates and address concerns promptly.
- GS25.** Work effectively within a team environment, collaborating with the camera crew and post-production staff.
- GS26.** Maintain a professional attitude and commit to deadlines and quality standards.
- GS27.** Remain calm and collected under pressure, adapting to challenges and unexpected situations.
- GS28.** Continuously learn and update knowledge of data management best practices and emerging technologies.
- GS29.** Demonstrate proficiency in data management software and tools.
- GS30.** Understand and adhere to industry regulations and ethical practices related to data security.
- GS31.** Adapt to working with various production settings and equipment.

## Qualification Pack

### NFD/MES/N0104: Collaborate and communicate with the team and others

#### Description

This NOS is designed to collaborate and communicate with the team and others

#### Scope

The scope covers the following :

- Collaborate and communicate with the team and others

#### Elements and Performance Criteria

##### *Collaborate and communicate with the team and others*

To be competent, the user/individual on the job must be able to:

- PC1.** Coordinate with the Second Assistant Camera (2nd AC) for slate information, camera reports, and data management.
- PC2.** Provide clear instructions to other members of the camera team.
- PC3.** Communicate with the Director of Photography (DP), camera operator, and other relevant team members.
- PC4.** Collaborate with the camera team, including the Second Assistant Camera (2nd AC) and camera trainees, fostering a positive and cooperative work environment.
- PC5.** Coordinate and communicate effectively with other departments, such as lighting, grip, and electric, to ensure seamless integration of camera equipment and lighting setups.
- PC6.** Provides constructive feedback and contributes creatively to discussions about shot planning, camera movements, and overall visual aesthetics.
- PC7.** Participate in pre-production meetings to offer insights into the technical aspects of shot execution.
- PC8.** Collaborate with team members to promptly identify and address technical challenges or issues during filming.
- PC9.** Follow the DP's instructions, ensuring a clear understanding of the creative vision for each scene.
- PC10.** Adapt communication style based on the needs and preferences of team members.
- PC11.** Conduct clear and concise briefings with the camera team before and during shoots, ensuring everyone is on the same page.
- PC12.** Provide relevant information to support efficient workflow and task execution.
- PC13.** Address conflicts or disagreements within the team, seeking resolution professionally.
- PC14.** Delegate tasks within the camera team based on individual strengths and expertise.
- PC15.** Provide clear instructions and expectations when assigning responsibilities.
- PC16.** Ensure timely communication of critical information about shot changes, equipment adjustments, or other relevant updates.
- PC17.** Maintain accurate documentation of shot details, camera settings, and any issues encountered during filming.

## Qualification Pack

**PC18.** Provide comprehensive reports to support post-production processes.

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Remember camera equipment operation principles, including lenses, filters, and accessories.
- KU2.** Recall camera operation procedures for various setups (tripod, dolly, handheld).
- KU3.** Understand different shooting formats and their technical implications.
- KU4.** Understand the visual language of cinema, including composition, lighting, and movement.
- KU5.** Understand the Director of Photography (DP) role and their creative vision.
- KU6.** Understand the responsibilities of other camera team members (2nd AC, trainees).
- KU7.** Understand communication protocols and best practices in film production.
- KU8.** Understand conflict resolution techniques and strategies.
- KU9.** Apply camera operation skills to achieve specific shots based on the DP's instructions.
- KU10.** Analyze scene requirements and identify appropriate camera equipment and techniques.
- KU11.** Evaluate potential technical challenges and develop solutions proactively.
- KU12.** Communicate effectively with the DP, camera operator, and other team members.
- KU13.** Adapt communication style to different audiences and situations.
- KU14.** Delegate tasks effectively within the camera team, considering individual strengths.
- KU15.** Create clear and concise briefings and instructions for the camera team.
- KU16.** Analyze shot details and accurately document settings and issues encountered.
- KU17.** Generate comprehensive reports for post-production processes.
- KU18.** Collaborate with lighting, grip, and electric departments to ensure seamless integration.
- KU19.** Contribute creatively to discussions about shot planning and visual aesthetics.
- KU20.** Foster a positive and cooperative work environment within the camera team.

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and comprehend technical manuals, call sheets, and production documents.
- GS2.** Write clear and concise reports, emails, and logs.
- GS3.** Listen to instructions and feedback, asking clarifying questions when needed.
- GS4.** Effectively articulate complex technical information to team members with varying levels of expertise.
- GS5.** Adapt communication style and vocabulary to different audiences and situations.
- GS6.** Participate in meetings and discussions, contributing ideas and solutions.
- GS7.** Build and maintain positive relationships with colleagues and collaborators.
- GS8.** Manage time effectively, prioritizing tasks and meeting deadlines.
- GS9.** Identify and prioritize potential problems, proactively developing solutions.
- GS10.** Work independently and as part of a team, adapting to changing priorities and requirements.

### Qualification Pack

- GS11.** Critically evaluate own work and the work of others, proposing improvements constructively.
- GS12.** Learn new skills and technologies quickly and effectively.
- GS13.** Maintain a professional and positive demeanour in challenging situations.
- GS14.** Demonstrate cultural sensitivity and awareness, working effectively with diverse teams.
- GS15.** Show commitment to ethical practices and safety regulations in the film industry.

### NFD/MES/N0304: Follow Workplace Health & Safety Protocols

#### Description

This NOS is designed to follow workplace health & safety protocols

#### Scope

The scope covers the following :

- Follow the health, safety and security risks prevalent in the workplace

#### Elements and Performance Criteria

*Follow the health, safety and security risks prevalent in the workplace*

To be competent, the user/individual on the job must be able to:

- PC1.** Adhere to established safety protocols, promptly reporting any identified hazards to relevant authorities and consistently avoiding unsafe practices.
- PC2.** Advocate for and maintain a healthy posture during work activities, incorporating regular breaks to mitigate the risk of work-related injuries.
- PC3.** Prioritize proper eye care by taking regular breaks to prevent eye strain while working on screens, ensuring sustained productivity and well-being.
- PC4.** Comply with government health and safety norms and policies, including familiarity with emergency procedures such as evacuation protocols for illness, accidents, or fires.
- PC5.** Engage in relevant health and safety training programs to remain updated on workplace best practices, ensuring a proactive approach to safety measures.
- PC6.** Implement effective stress management techniques to sustain personal well-being and optimize productivity amidst workplace demands.
- PC7.** Recognize and respond to security signals, such as fire alarms, and familiarize oneself with designated safety locations like staircases, fire warden stations, and medical rooms.
- PC8.** Execute emergency procedures swiftly in the event of an accident or fire, ensuring personal and collective safety.
- PC9.** Take proactive measures to promptly address safety concerns as they arise, contributing to a secure work environment for oneself and others.
- PC10.** Uphold personal health and safety, as well as that of colleagues, through consistent adherence to precautionary measures and safety guidelines.
- PC11.** Demonstrate awareness of and responsiveness to safety-related protocols and instructions, maintaining a vigilant approach to workplace safety.
- PC12.** Contribute to a culture of safety by actively promoting and adhering to established safety practices, fostering a secure and conducive work environment.

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

## Qualification Pack

- KU1.** Explain the importance of maintaining health and safety in the workplace.
- KU2.** Identify common health, safety, and security risks associated with video editing, including:
- KU3.** Analyze the potential consequences of neglecting health and safety protocols.
- KU4.** Describe relevant government health and safety regulations and policies.
- KU5.** Explain the benefits of participating in health and safety training programs.
- KU6.** Identify and assess different stress management techniques.
- KU7.** Explain the importance of a safety culture in the workplace.
- KU8.** Demonstrate proficiency in operating video editing equipment safely.
- KU9.** Implement proper workstation setup and ergonomics principles.
- KU10.** Utilize screen time management techniques to prevent eye strain.
- KU11.** Identify and report potential electrical hazards.
- KU12.** Implement basic cybersecurity practices to protect equipment and data.
- KU13.** Understand and follow emergency procedures for evacuation, fire drills, and first aid.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Follow established safety protocols and procedures.
- GS2.** Identify and report potential hazards to relevant authorities.
- GS3.** Advocate for and maintain a healthy work posture.
- GS4.** Take regular breaks to prevent eye strain and fatigue.
- GS5.** Demonstrate knowledge of emergency procedures and evacuation routes.
- GS6.** Implement stress management techniques to mitigate job-related stress.
- GS7.** Understand the importance of personal health and safety for productivity.
- GS8.** Take proactive measures to address safety concerns in the workplace.
- GS9.** Uphold personal and collective safety by adhering to precautions and guidelines.
- GS10.** Demonstrate awareness and responsiveness to safety protocols and instructions.
- GS11.** Actively promote and adhere to established safety practices.
- GS12.** Contribute to a positive safety culture through collaboration and communication.
- GS13.** Foster a secure and conducive work environment for colleagues and oneself.
- GS14.** Report safety concerns clearly and concisely to relevant authorities.
- GS15.** Advocate for safe work practices through verbal and written communication.
- GS16.** Participate in safety meetings and training programs actively.
- GS17.** Provide safety-related instructions and information to colleagues effectively.
- GS18.** Stay updated on workplace health and safety regulations and policies.
- GS19.** Participate in relevant training programs to acquire new safety knowledge and skills.
- GS20.** Adapt to changing safety protocols and procedures effectively.
- GS21.** Apply critical thinking skills to assess and address safety risks and concerns.
- GS22.** Identify potential safety hazards and analyze their risks.
- GS23.** Evaluate the effectiveness of existing safety protocols and procedures.

## Qualification Pack

- GS24.** Make informed decisions to optimize safety measures and mitigate risks.
- GS25.** Take responsibility for personal safety and contribute to a safe work environment.

### DGT/VSQ/N0101: Employability Skills (30 Hours)

#### Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

#### Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

#### Elements and Performance Criteria

##### *Introduction to Employability Skills*

To be competent, the user/individual on the job must be able to:

**PC1.** understand the significance of employability skills in meeting the job requirements

##### *Constitutional values – Citizenship*

To be competent, the user/individual on the job must be able to:

**PC2.** identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

##### *Becoming a Professional in the 21st Century*

To be competent, the user/individual on the job must be able to:

**PC3.** explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

##### *Basic English Skills*

To be competent, the user/individual on the job must be able to:

**PC4.** speak with others using some basic English phrases or sentences

##### *Communication Skills*

To be competent, the user/individual on the job must be able to:

**PC5.** follow good manners while communicating with others

**PC6.** work with others in a team

## Qualification Pack

### *Diversity & Inclusion*

To be competent, the user/individual on the job must be able to:

**PC7.** communicate and behave appropriately with all genders and PwD

**PC8.** report any issues related to sexual harassment

### *Financial and Legal Literacy*

To be competent, the user/individual on the job must be able to:

**PC9.** use various financial products and services safely and securely

**PC10.** calculate income, expenses, savings etc.

**PC11.** approach the concerned authorities for any exploitation as per legal rights and laws

### *Essential Digital Skills*

To be competent, the user/individual on the job must be able to:

**PC12.** operate digital devices and use its features and applications securely and safely

**PC13.** use internet and social media platforms securely and safely

### *Entrepreneurship*

To be competent, the user/individual on the job must be able to:

**PC14.** identify and assess opportunities for potential business

**PC15.** identify sources for arranging money and associated financial and legal challenges

### *Customer Service*

To be competent, the user/individual on the job must be able to:

**PC16.** identify different types of customers

**PC17.** identify customer needs and address them appropriately

**PC18.** follow appropriate hygiene and grooming standards

### *Getting ready for apprenticeship & Jobs*

To be competent, the user/individual on the job must be able to:

**PC19.** create a basic biodata

**PC20.** search for suitable jobs and apply

**PC21.** identify and register apprenticeship opportunities as per requirement

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** need for employability skills

**KU2.** various constitutional and personal values

**KU3.** different environmentally sustainable practices and their importance

**KU4.** Twenty first (21st) century skills and their importance

**KU5.** how to use basic spoken English language

**KU6.** Do and dont of effective communication

**KU7.** inclusivity and its importance

**KU8.** different types of disabilities and appropriate communication and behaviour towards PwD

**KU9.** different types of financial products and services

## Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criterion.
6. To pass the Qualification Pack, every trainee should score a minimum of 70% of aggregate marks to successfully clear the assessment.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

## Qualification Pack

**Minimum Aggregate Passing % at QP Level : 50**

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
